2. There is also a last down with two feet to go. There are lots of plays made in the game for righteousness. Some are made in mid-field when the goal is not in immediate danger. There are some plays in mid-field where one may hide his half-hearted effort under the confusion of the squad scrimmage. But for the real player there always comes a last down with two feet to go. Have you kept the training? Have you played your best every day? Have you tried to get into every play possible? If you have the trying time of the last two feet holds no fears for you. Christ is fighting here at Maryville College today. Are you in the game?

3. Who won? Jesus Christ has never lost. No one who has followed His coaching has ever lost. Have you joined this team? If not join today. Are you on His team? Then stay on and fight. Line up with Christ, the great coach in life. Then one may box, but not as one beating the air. Then one may wrestle not against flesh and blood, but against world rulers of darkness. Then one may run with patience the race that is set before him looking unto Jesus the author and finisher of our faith. Then one may fight a good fight, one may finish the course, one may keep the faith.

Let us get into the scrimmage today and make College Hill ring loud for the great coach of men, Jesus Christ.

OCTOBER 1, 1922

On last Sunday representatives from the Athenian and Alpha Sigma Literary Societies conducted the Y services. Using Education for their general topic four important aspects of this subject were discussed, The Factors, the Value, the Price of Education and the Place of the Literary Society in getting an education. The part the society plays on our Hill is not a small one and it is safe to say that most of the progressive work of the student body develops out of some form of society activity.

OCTOBER 8, 1922

On next Sunday will be held the first open discussion meeting of the year. The subject is the Social Life of the College. Every man is urged to attned and take part in the discussion. Come and bring your suggestions.

Miss Lillian Brandon of Class of '22 is teaching Home Ec. in West Milford, West Virginia High School and reports are that she likes the work.

Miss Elizabeth McCord of '22 is teaching Home Ec. in Logan, Iowa High School. She says she likes the Middle West.

VACATION TIME FOR THE COLLEGE FACULTY

(Continued from page one)

to his daughter in Columbus, Ohio. During the latter part of the vacation he was with his son at a Tennessee mountain resort.

Last spring Dr. McMurray had the pleasure of attending the Twenty-fifth Reunion of his class at Oberlin College. Eighty of the one hundred twenty members of the class were present at the reunion. After the Class Reunion Dr. McMurray visited relatives in Indiana for a time.

Some of the teachers spent their vacations at their homes rather than spend them by going elsewhere. Among these were Mrs. Alexander, Mrs. West, and Miss Heron staying at their homes in Maryville; and Miss Gregg at her home in Ohio, and Miss Wheelock at her home in Massachusetts. Prof. Ellis spent the summer at his Maryville home. During the summer Prof. Ellis served as Secretary of the Chamber of Commerce of Maryville.

Led perhaps by a desire to thoroughly familiarize themselves with the viewpoint of their students, Professors Hunter and Orr used the summer for University work. Prof. Hunter was at the University of Chicago doing work leading to a Doctor's degree. Prof. Orr was at the University of Tennessee doing work leading to a Master's degree in History. In addition Prof. Orr served as pastor of New Prospect Church.

Miss Marguerite Sullinger studied this summer with Earl Blair of the Chicago Conservatory. And she is proving herself to be a valuable assistant in the piano department.

Miss Hale, head of the Music department had the great pleasure this summer of studying at the American Conservatory in Chicago under the celebrated Russian, Lhevinne who is considered one of the greatest technicians and pianists of the age.

Miss Hale who has studied in Cincinnati and Boston and is well acquainted with matters musical, acknowledges that she is delighted with the musical opportunity which is bringing Chicago up to the standard of the older art centers.

The finest artists procurable are now associated with the three conservatories of Chicago or are independently located in the city and are developing the musical life of Chicago and the West.

The remarkable growth of the Chicago Symphony Orchestra, one of the finest of its kind in the world and in the Chicago Grand Opera Co. is an evidence of the strides which music is making in this great city.

One of the pleasant experiences of the summer was the association which Miss Hale had with the colony of Maryville people living near the University. Among these were Horace Dawson, Glenn Lloyd, "Jimmy" James, and "Red" Turner, law students. The latter is now practicing with a prominent Chicago firm. Miss Hale also saw much of Miss Staater, former voice teacher in the Music department of the College. Miss Staater and her brother have a studio and apparatus in the city where both are teaching very successfully. And Miss Staater continues her vocal study under one of the most noted teachers in Chicago.

SYNOD OF TENNESSEE TO VISIT MARYVILLE

(Continued from page one)

Synod will be served supper by the HomeEconomics Department.

A popular missionary meeting will be held in the Chapel beginning at seven o'clock. Dr. Hudnut, who recently visited Fred Hope, will speak as will also Miss Marie Preston of the Woman's Board, and the program will close with a pageant presented under the direction of the Expression Department of the College.

Many members of the Synod are former sutdents of Maryville College, while others have children or friends here. The students and the faculty bid the members of Synod welcome to the Hill.

ATHENIAN

Athenian Receives New Men at Outdoor Program in College Woods.

Say, fellows, were you at Athenian Saturday night? No. Well, you sure ought to have been. I had the time of my life and really had enough to eat for once. You see this is how it happened. I heard a bunch yelling over in front of Carnegie Hall and decided that I would go along and find out what was on foot. I hadn't long to wait for as soon as I joined the group a fellow they called Shimmy led the way and we started for the woods.

First, the Athenian president spoke to us about the benefits of a literary society; told us what she expected from us in return. What he said sure made me think for a while, and when Charles Sharp, one of the old Athenian graduates told of what the society had meant to him during his stay on College Hill. I decided that if I was going to get the most out of College I had better join a society. David King told us about the Forensic plans for the year and they certainly do look interesting. I'm going out for 'em. Might get a chance on some team, but if I don't this year I will next.

Somebody started telling jokes and it looked as though things were nearly over when the eats committee put in an appearance. They had great big boxes of tomato and salmon sandwiches and mince pie and apples. Did we get enough? Well, I guess so. I had four sandwiches, two pieces of pie, and all the apples I could put in my pockets.

A Freshman.

PALACE THEATRE PROGRAM

THURSDAY AND FRIDAY
OCTOBER 5TH & 6TH.
"THE STORM" with House Peters.

SATURDAY, OCT. 7TH.

ALPHA SIGMA

Alpha Sigma Welcomes New Men With Program And Reception.

The Alpha Sigma Literary Society held its first meeting Saturday night September 23rd. A goodly number were present and enjoyed a representative program of what old Alpha Sigma does.

Mr. Henry Cox very ably discussed "The Turkish Situation" and illustrated with a map of his own construction. Harry Gauding read "Blaphemous Bill" by Robert Service. A debate was held, question, "Resolved, that the Government should assume control and operate all the Coal Mines". Affirmative, Eugene Stanbery and Dewey Eitner. Negative, Francis Kinsler and Ralph Armstrong. After interesting arguments on both sides, judges decided, two to one, in favor of the affirmative. Mr. Burney Acton then gave us a talk on "The Value of a Summer Vacation". Mr. Acton's talk was interesting and educational. The President, Leslie Poe, gave an address of Welcome, followed by some songs by the assemblege and a solo by Mr. Phil Sheffey. Eats followed and the evening closed with a short benediction.

Alpha Sigma Literary Society meets next Saturday evening in the Society Hall, third floor, Anderson Hall. The society extends to all new men, and all old men not connected with any other literary society, a hearty welcome to visit us. Then, if you like us and we like you, a cordial invitation to become a member of our society.

VOLUME EIGHT | MARYVILLE, TENNESSEE OCTOBER 13, 1922 | NUMBER THREE

HIGHLANDERS LOSE IN HARD BATTLE WITH VOLS

THE ORANGE AND GARNET TEAM FAILS TO WREST VICTORY FROM ITS RIVAL.

Maryville Loses To Tennessee 21-0.

The long looked for and eagerly awaited annual foot-ball game with U. T. has come and gone, and Maryville must wait until next year for victory over her ancient rival. However, could the game have been won by yelling, victory for M. C. would have been assured, for the enthusiasm of the rooters did not slacken, in spite of the disanpointing progress of the game. Tennessee scored in the first quarter, after a series of delayed end runs. Maryville then held her opponent scoreless until the last of the third quarter when Jimmy Smith carried the ball over for the second touchdown. A long pass from Campbell to Clayton early in the fourth quarter ended the scoring.

The line-up:

M. C.		U. T.
Musick	left end	Duncan
Rice	left tackle	Lowe
Schmidt	left guard	Refauver
Clemens	center	Morris
Dinwiddie	right guard	Striegle, C.
Thrower	right tackle	Stephenson
Williams	right end	Holt
McMurray	quarter	Clayton
Sneed	left half	Phillips
Sullinger, C.	full back	Neff
B. Acton	right half	Campbell

Scoring: Touchodwns: Tennessee. Clayton, Campbell, Smith. Goals after touchdown, Clayton 3.

Substitutions: Maryville, Bowles for Dinwiddie, Hamilton for Bowles, Greenlee for Hamilton, Proffitt for Dinwiddie, Crawford for Proffitt. Partee for Sneed, Sneed for Partee, McCall for Musick, Guy Acton for Burney Acton.

For Tennessee: Lane for Duncan, Grizzard for Morris, Morris for Stephenson, Duncan for Holt, Smith for Phillips, Birdsong for Grizzard, Sneed for Clayton, Jackson for Smith, Bean for Duncan, Hatcher for Lane, Shipe for Striegle.

Officials: Referee, Parrish; Umpire, Henderson; Headlinesman, Siler; Time-keeper, Harper.

The game by plays.

Sneed returned Clayton's kick-off to 28 yard line. Sullinger gained one yard over center. Sullinger punted to Tennessee's 40 yard line, the ball rolling out of bounds. Maryville was off side the first play. Campbell gained 4 over right guard. Neff made 1 yard over left tackle. Phillips made 2 yards. Clayton drop kicked feebly to Sneed on Maryville's 24 yard line. Sneed made one yard over right tackle. Tubby kicked to Maryville's 40 yard line where Clayton took a fair catch. Tennessee was penalized 15 yards for roughness.

Phillips made one yard over center, and 4 more on next play. Campbell made 4 yards over left tackle, and one over center. Neff found left tackle for six yards on a delayed buck. Neff went over left tackle for 3 yards. Phillips made no gain. Clayton went around left end to Maryville's 15 yard line. Tennessee no gain. Campbell 10 yards around right end. Clayton ran into Bob Thrower for no gain. Campbell went over guard for first touchdown. Clayton kicked goal.

Bowles went in for Dinwiddie. Clayton kicked off for a touch back. Sullinger made 5 yards over center. Acton made 5 over left tackle. Sneed failed to gain on a cross buck. Tennessee off side, making first down for Maryville. Quarter up with Maryville's ball on her own 35 yard line.

Second Quarter

Maryville fumbled and recovered for first down. Sullinger made one yard. McMurray added six. Tubby made six more over left tackle. Tubby made no gain.

Tennessee recovered a fumble. Neff made 2 yards. Musick threw Phillips for 3 yards loss. A pass failed. Campbell punted to McMurray who returned 15 yards to 26 yard line. Tubby failed to gain. Sneed made 25 yards around right end but Maryville was penalized 15 yards for holding. Williams punted to Campbell who returned to 35 yard line. Neff made three yards. Williams recovered a fumble on 41 yard line. Acton made no gain. Jean McMurray sneaked through center for 3 yards. Sullinger was held for one yard. Lane replaced Duncan at left end. Jean kicked to 48 yard line. Campbell made 25 yards on fake play. Phillips couldn't gain. Phillips lost five yards. A pass to Clayton put the ball on Maryville's 10 yard ine. U. T. made no gain. Tennessee again failed to gain. Another pass netted 8 yards. Campbell failed to gain and the ball went to Maryville. Acton made no gain, half ended with Maryville in possession of the ball on her own 2 yard line.

Second Half

Proffitt replaced Schmidt and Sneed gave way to Partee. Grizzard went in at center, Morris replacing Stephenson. Williams kicked off 60 yards to Campbell who returned 20. Neff made 1 yard+ Campbell made 9 yards and first down. Clayton made 6 yards. Neff lost 2 yards. Phillips made no gain. Clayton gained 10 on a fake around end. Clayton kicked over the goal for a touch back. Maryville lost 19 yards on a bad pass from center. McMurray kicked to Campbell on 26 yard line. Phillips lost 4 yards. U. T. penalized 15 yards for holding. A pass to Lane put the ball on Maryville's 18 yard line. Clayton lost 2 yards and the ball went over.

Sneed didn't gain. Holt and Bowles failed in their arguments with referee and Duncan replaced Holt, and Hamilton took Bowles' tackle. Acton went over left end for six yards. McMurray lost 8 yards. Hamilton punted 50 yards but play was called back. Greenlee replaced Neff made 1 yard. Campbell made Hamilton. U. T. recovered a blocked kick on 28 yard line. Phillips, no gain. Roe Campbell threw ball over goal line for touch back.

Maryville put the ball in play on her own 20 yard line. McMurray made 2 yards. Partee gained a like distance around right end. A pass was incomplete. Williams kicked to middle of field. Acton knocked down a pass. Maryville off side and U. T.'s first odwn. Clayton took a pass on 25 yard line. Roe Campbell made 20 yards. Jimmie Smith made no gain. Jimmy Smith carried ball over for touch down. Clayton kicked goal. Tennessee 4, Maryville 0.

(Continued on page four)

SYNOD OF TENNESSEE IS GUEST OF M. C.

The Synod Is The Guest of Maryville on Wednesday.

Thaw Hall Is Dedicated.

On Wednesday the College was host to the Synod of Tennessee of the Presbyterian Church. The college united with New Providence Church in entertaining this body in its 105th Annual meeting. The Synod united with the student-body in the morning devotional service which was conducted by Dr. Mack, the Stated Clerk of the Synod, and Dr. Gray, president of Tusculum College. The address of the service was given by Dr. John Royal Harris, recently inaugurated president of Cumberland University. Tusculum Cumberland and Maryville are the three schools under the care of this Synod.

Dr. Harris' address was filled with much thoughtful counsel to students in its definiteness and in its simplicity—"The unfailing test of a good man is one given to secret prayer. The unfailing test of a good thing is a thing which does not shrink with the using, but rather grows larger, as the things of the Bible."

Upon the conclusion of this service the vesper choir led the recessional to the hall where dedicatory services were held. The student body formed a double line between which marched the representatives of the Synod and Synodical, from the chapel to Thaw Hall. After two prefatory statements by Dr. Wilson regarding the donations of William Thaw before his death, and of the growing interest of Mrs. Thaw in Maryville since, Dr. Elmore, president of the College Board of Directors, made the dedicatory address. In honor of Mrs. Thaw whose generous gifts made such a building possible the building was named Thaw Hall and dedicated to the cause of Christian Education and to the service of those successive generations who will attend this college in the future.

Dr. Stevenson read the formal dedicatory service in which the entire audience joined in the responses. The dedicatory prayer was offered by Dr. H. C. Wilson of Knoxville. The dedicatory service was only partly expressive of the appreciation of the College and Synod to Mrs. Thaw for this the crowning work of all of her gifts to the College.

The Synod was the guest at dinner of the Boarding Club. In the late afternoon an automobile ride was tendered the visitors by the citizens of Maryville. For supper the Synod was the guest of the Home Economics Department.

The evening session was given over to the Synodical Missionary Society which met at the same time as Synod and is recognized as a very organic and fundamental member. Miss Preston, representing the Woman's Board of Foreign Missions brought a message from Porto Rico, the Land of Opportunity. Dr. ——— of China, who spoke in the absence of Dr. Hudnut, presented some important phases of world affairs as they exist today. He also gave us a fresh vision of some of the problems to be faced and met by Christian Students today.

Concluding the program of the

(Continued on page four)

PLAY---"CAPPY RICKS" ON MONDAY EVENING

PETER B. KYNE'S COMEDY, "CAPPY RICKS" COMES MONDAY EVENING AS FIRST ATTRACTION OF COLLEGE LYCEUM.

"CAPPY RICKS."

Peter B. Kyne, who wrote "Cappy Ricks," spent his spare time several years ago along the San Francisco water front, acquainting himself with the rare types of humanity peculiar to that locality. There he met an old sea captain with a keen sense of humor, who always insisted on having his own way, right or wrong. Around this weather-beaten old sea-dog Mr. Kyne wrote the "Cappy Ricks" stories which found favor with millions of readers of the Saturday Evening Post.

"Cappy Ricks" was dramatized and presented on Broadway with Tom Wise and William Courtenay in the leading roles. It is one of the cleanest plays on the American stage, and has had a most successful run.

The play deals with high finance on the high seas. It is characterized by wholesome atmosphere and keen character types, carrying a delightful love story and a fund of pathos. In it there is not a dull moment.

"Cappy Ricks" will be presented here by a New York cast organized and coached by William J. Keighley, manager of the Redpath Bureau's New York City producing department.

The first number of the Lyceum will be presented in Voorhees Chapel next Monday evening at eight o'clock. For many years the Lyceum has afforded one of the greatest sources of entertainment which Maryville has to offer. Both students and townspeople are looking forward again this year to the treats which it has in store for them. We feel assured that the program this year will not disappoint our anticipations.

DR. HARRIS GIVES A CHAPEL ADDRESS

PRESIDENT OF CUMBERLAND UNIVERSITY SPEAKS ON SUBJECT: "THE CONFLICT OF TWO CIVILIAZTIONS."

Dr. Harris, President of Cumberland University gave a chapel address Thursday on the subject: "The Conflict of Two Civilizations", or "The Rise of Christian Democrary". Certainly it was a treat to hear such an eloquent speaker as Dr. Harris delivered the inspiring address which he did.

Dr. Harris prefaced his address by saying that every notion, every period in fact, has a slogan or word flag. Those in America have been successively "Slavery Must Go" and "The Saloon Must Go". Now it is "Kings Must Go."

The following merely touches a few of the high places of Dr. Harris' able address. "The Kings—Kings of all kinds—must go because in the very nature of things Kings and the Bible are fundamentally opposite. And the Bible is the chart for our direction.

"The Bible gives the origin of the idea of a king in the account of the Jews asking Samuel to furnish them a King. Later this same account closes by the confession of the Jews that the asking for a king was one of their high sins. The Book of Revelation continues to describe the fight against kings to its final triumphant finish.

"Democracy is the only system that allows the free working of the cardinal principles. of Christianity That is those principles of love, humility, service, and equality. The statement of Jesus that no man was to be called either Master or common does away with the caste system and brings democracy.

"The struggle going on now is the struggle of the democrat against the autocrat; America against the world; this hemisphere against the other.

"America has never felt the taint of a King. America has been fighting this battle thruout her history. Now she fights it also for all the world. America says that "all are born free and equal." The establishment of Christianity brings this democracy. This spirit of democracy is spreading and some time we will have an universal democracy, The United States of The World."

Patronize Those Who Advertise. They Make The Paper Possible.

The Echo solicits news items, comments, and expressions of opinion from the students, and from interested alumni.

Everybody out! Let's win that game tomorrow!

* * * *

We hope the Synod of Tennessee found Maryville a hospitable host.

* * * *

We wonder how much was the cost of 21 points.

* * * *

The Synod has had charge of the direction of Maryville College for many years. Not a bad job of directing that they have done.

* * * *

With a foot ball game, a mountain hike, and a Lyceum number, all scheduled for one week end; Maryville is not exactly dead.

* * * *

Tennessee licked us last time. But let's don't lose our pep. If we do somebody will give us another licking.

* * * *

Thaw Hall has been dedicated. We hope the next dedicatory service on the Hill will be that of the proposed dining hall in Thaw Hall.

* * * *

It is an admitted fact that Maryville far exceeded Tennessee Saturday in pep, yells, and support of the team. Let's keep this Maryville spirit alive!

* * * *

Quit kicking about our schedule. Mercer's line weighs 201 pounds from end to end. St. Xavier plays Annapolis November 11. Transylvania has a good team. Cumberland is of unknown quality. We will probably have one of the strongest foot ball teams in the South here November 11th. Quit kicking and boost the team!

* * * *

While listening to the loyal enthusiastic yelling Saturday, a very disquieting comparison intruded on our mind, as regards the yelling on the previous Saturday. We failed to see why the permission of "moonshining" did not break down the morale of yellers and make the yelling a dismal failure. Of course, it would do so on the home field. But observations and statistics are queer.

* * * *

ARKANSAS CLUB

All students from Arkansas met in Professor Orr's room at 12:10 Wednesday, Oct. 3rd., for the purpose of reorganizing the Arkansas club for this year. The following officers were elected:

Miss Sallee Huffaker, President; Miss Mary Hamilton, Vice President; Mr. Paul Cragan, Secretary; Miss Louise Colm, Treasurer; Mr. Ned Stewart, Editor.

There will be another meeting of this club before long and we want any other students from Arkansas who were not at this meeting to please attend the next one. Watch for the announcement in Chapel.

219 SAYS

Say, that line sure is doin' some chargin' this week. While they're at it we wish they'd charge the old pep battery on the Hill so that, when the cheer leader stepped on the starter, everything would turn over.

We never did believe in ole man Darwin's theory, but—well, Prof. Mintier is some cheer leader.

The faculty must have said, "Let there be light"—'Course we ain't got no white way on the Hill, but as yet we ain't found no dark spot.

Guys, did you see them co-eds labor on campus day? Have the flappers learned to work, or ain't we got no flappers in our midst?

We've got some new courts on the Hill now, but we ain't heard the faculty say that that meant more courtin'.

Maybe it's because it's the fall season, but anyway there are a lot of falls taking place. First some of the skirts fell, then we fell before U. T., then John S. fell (for Florence), and now the leaves are beginning to fall.

Some famous rolls:
Pearson's —
— Royce
Jelly —
Bank —
Hose —

The Candy Kitchen—
Coney Islands

We will have a mountain hike Monday. Talk it up, and be at the pep meeting tonight.

Better Sandwiches

INTRODUCING DAVID W. PROFFITT

Ellis-Proffitt Co.

When and where born?

Blount County, July 27, 1891.

Earliest recollection?

Slipping cookies.

Where educated?

Public schools and Maryville College.

Childhood ambition?

To see Maryville Beat U. T. two years in succession.

If you were not born in Maryville how did you happen to come here?

The Stork left me here.

Where did you meet your wife?

Maryville College.

Favorite Recreation and hobby?

Athletics and hunting o'possums.

Favorite Book next to Bible?

Riley's Poems.

Most Memorable event?

The night I caught a 'Dear" (my wife).

Your Motto?

B Square.

Pet Peeve?

Crooked Referee.

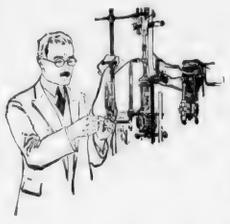
What in Your Opinion is Maryville College's greatest need?

Better Paid Teachers and workers. Better Athletics. A Beautified Campus.

"Dave" Proffitt graduated in the Class of '16 and if ever a man believed in Maryville College he does. Every week he writes you a personal letter through the Highland Echo You will find his letter on the bottom of the last page always. Read It.

Quotations From Governor Pack's Address

"You must play the game fair."



"You do not count success by the money a man piles up."

"The world will discipline you till you do play the game fair, if you are to win success."

YEA FORENSICS

The Forensic League has developed into one of Maryville's foremost organizations because it is recognized as a victory getting machine of no mean ability, to say nothing of its great value educationally. The League does not mean to boast, yet it has no scruples against saying that last year Maryville won seven contests and lost one.

This year Maryville will have a super-program. First of all there is the circuit trip that will carry the team far into the Sunny South in search of scalps. Such a trip should cause any man with debating ability to do his very best to be enrolled with the fortunate team. Six colleges and universities have already signed and there is a possibility that two others will. Even six makes a great program for one team. The circuit debate is by no means all. There will be at least two duals that will demand real debaters because Maryville meets only the best in forensic contests. Would you like to represent M. C. in inter-collegiate battles? Do you desire for yourself that training which shall be most beneficial? Thirty-seven men answered yes on Tuesday evening and drew their places for the first preliminary to take place in December. The first preliminary is of great advantage to new men because they get all the training of a real debating contest before they meet the few veteran debaters in the final test for places on the teams. The old men are unanimous in their belief that Coach Hunter offers as fine a course in logic and public speaking as can be found in any college or university. It costs nothing to try, if you win, you represent Maryville in forensics which is one of the highest honors to be had in college. Just as a passing remark it might be added that you receive in addition two semester hours credit that is by no means to be frowned upon.

Which Type of Research is of Greatest Value?

A stove burns too much coal. A man familiar with the principles of combustion and heat radiation makes experiments which indicate desirable changes in design. That is research.

You want to make a ruby in a factory, a real ruby, indistinguishable by any test from the natural stone. You begin by analyzing rubies chemically and physically. Then you make rubies just as nature did. Your rubies are the result of research—another type of research.

While melting up your chemicals and experimenting with high temperatures, you begin to wonder how hot the earth must have been millions of years ago, and what were the forces at play that made this planet what it is. Your investigation leads you far from rubies and causes you to formulate theories to explain how the earth, how the whole solar system was created. That would be research of a still different type.

Research of all three types is conducted in the laboratories of the General Electric Company. But it is the third type—pioneering into the unknown—that means most in the long run, even though undertaken with no practical benefit in view.

For example, the Research Laboratories of the General Electric Company are exploring matter with X-rays in order to discover not only how the atoms in different substances are arranged but how the atoms themselves are built up. The more you know about a substance, the more you can do with it. This work may enable scientists to answer more definitely the question: Why is iron magnetic? Then the electrical industry will take a greater step forward than can be made in a century of experimenting with existing electrical apparatus.

You can add wings and stories to an old house. But to build a new house, you must begin with the foundation.

MINISTERIAL ASSOCIATION

The Sky Pilots met Wednesday evening the first time for the new year. Several new men who are going into the ministry were present and joined the association. We feel that there are other new men on the Hill and we cordially invite them toour next meeting, the time being announced in chapel.

The following officers were elected:

R. A. N. Wilson, President.
Francis Kinsler, Vice President.
Mr. Cowan, Secretary-Treasurer.
Ralph Armstrong, Editor.

NORTH CAROLINA CLUB

On Friday, September 29th all North Carolinians were called to meet in Anderson Hall for the purpose of organization. Although not all could attend, there was a goodly number of enthusiastic Tar Heels present which gave evidence of a good beginning for a successful year of one of the largest Clubs on College Hill.

The officers elected are: Miss Reca Gardner, President; Miss Pauline Burns, Vice President; Ted Hawn, Secretary-Treasurer; and Robert W. Bishop, Editor.

CHURCH NOTICES

NEW PROVIDENCE PRESBYTERIAN CHURCH

Wm. E. Graham, D. D., Minister

Sabbath School, 915 a. m.; Christian Endeavor, 6 p. m.; Church Services, 10:30 a. m. and 7 p. m.

FIRST BAPTIST CHURCH

Dr. L. M. Roper, of Johnson City, Tenn., is in a meeting at the First Baptist Church. He will speak at both hours Sunday and continue his preaching each day and night thrugh the coming week. All are invited to hear this able gospel preacher. Mr. McCravy of Laurens, S. C., will have charge of the music.

Sunday School at 9:15 a. m. Classes suited to all.

THE M. E. CHURCH, SOUTH

Rev. French Wampler, Pastor

The college students who attend this church will be interested to know that Dr. J. E. Wolfe, Presiding Elder of the Cleveland District, will preach at the morning hour Sunday. Dr. Wolfe is an eloquent preacher, with a message especially for young people.

Did you ever feel sometimes that the foundations of your faith in your fellowman are crumbling? The pastor of this church must confess that such pessimism has at times enveloped him. His theme, then, is a vital one for the evening service, seven-fifteen, FAITH IN MEN.

The Epworth League of this church has a live organization, meeting at six-fifteen. Good programs are given at that hour each Sunday. All young people are invited to attend the services, become members, and take part in the programs. Mr. Alwyn Staley, a University student, will conduct the service Sunday evening.

Every Southern Methodist Student is urged to be present at the Student Class Sunday morning at nine-fifteen. Prof. Hyden will make it worth your while to come.

WHY NOT TRY DEBATING?

To you girls at Maryville for the first time many lines of student activities are being presented. You who want to do active service will constantly be met with the circumstance of many competitors for the same place.

Debating offers more places of respsonsibility and honor to the new girls this year than either literary societies, Y. W. C. A. or the basket ball squad.

You have never tried it? No experience is necessary for trying out.

There are special advantages in it for the new girls. The old girls who have not tried out have, for the most part, connected themselaes with other student activities. The competitors among upper classmen then will be few. Moreover, the places of responsibility and honor in the other student activities are already filled.

In debating every one will be active until the teams are evolved in the preliminaries. If you are not on a team yon have helped to make the team. You have made it harder for your competitors and have thus contributed to the strength of the team. Whether you are a member of a team or not you will have acquired a new experience, and you will have rendered a real service to the college and yourself.

For detailed information concerning this year's program, attend the forensic meetings for girls that will be announced in chapel, or inquire of Professor Hunter or Ethel DeHaven.

There is no denying that the Freshmen of last year were a peppy lot. The same class with some good additions, under the leadership of President Jimmie King, promises to be the peppiest bunch of Sophomores this old Hill has ever seen.

At the first class meeting, the following officers were elected: "Shimmie" Brown. vice president; Elizabeth Moore, treasurer; Emma Blair, secretary; Frances Hickman, editor.

Economics Prof.: Statistics show that each day we spend in school is worth $10.00.

Student: I'd like to cash in on some of my ten spots.

Mr. George B. Callahan '20 was visiting in Maryville recently. He was on his way to Chicago where he will enter for second year in Rush Strong Medical College.

Highlanders Lose In Hard Battle With Vols

(Continued from page one)

Sullinger returned Clayton's kick off to 24 yard line. Partee made 2 yards, and quarter ended with Maryville in possession of ball on her own 26 yard line.

Fourth Quarter

Tubby lost one yard. McMurray passed to Acton to 50 yard line. Jean lost 10 yards on an attempted pass. Another pass was broken up. Williams kicked to Clayton who was tackled on U. T.'s 38 yard line. Hatcher replaced Lane; and Shike took Captain Striegle's place. Neff found no place to go through. Jean grounded a long pass from Campbell. Clayton kicked out of bounds on Maryville's 18 yard line. Sullinger made two yards through right tackle.

Clayton intercepted a forward pass and returned 20 yards to Maryville's 20 yard line. Neff made four yards over center. Campbell one yard. A pass was grounded. Clayton threw a pass over goal line for a touch back.

Maryville put the ball in play on he r own 20 yard line. Grizzard threw Acton for a two yard loss. Birdsong went in for Grizzard, Morris taking center. Two passes were incomplete. Baxter Williams kicked to Clayton who returned the ball to Maryville's 44 yard line. A pass to Hatcher advanced ball to Maryville's 25 yard line. Guy Acton went in for Burney and Roy McCall took Musick's end. Jimmie Smith and Neff both failed to gain. On the next play Campbell passed to Clayton for the final touch down. Clayton kicked goal.

Jimmie Smith took quarter and B. Sneed went in for Clayton. Shorty Sneed returned Campbell's kick to 40 yard line. A pass was incomplete. A pass to Sneed netted 25 yards. Guy Acton was thrown for no gain. Crawford went in for Josh Proffitt on his own 19 yard line. Neff failed to gain. Sneed was thrown for loss. Campbell punted out of bounds to 42 yard line.

A pass was incomplete. Tubby couldn't gain. Roe Campbell intercepted a pass on 40 yard line. On next play he gained 9 yards. A pass wasi ncomplete. Campbell added 8 yards and B. Sneed made first down. A pass to Jackson put ball on Maryville's 12 yard line. Another pass was incomplete. Campbell addblew.

VOLUME EIGHT — MARYVILLE, TENNESSEE OCTOBER 20, 1922 — NUMBER FOUR

MILLIGAN NO MATCH FOR HIGHLANDER MACHINE

MARYVILLE'S ATTACK SHOWS IMPROVEMENT; AND WICKER'S MILLIGANITES GO HOME ON SHORT END OF 19-6 SCORE.

Maryville Lacks Three Yards of Going Five Times As Much From Scrimmage As The Entire Milligan Team.

Jimmie King Substitute Quarter Best Ground Gainer.

Maryville added another scalp to their string Saturday. Milligan brought up a team greatly improved in material both as to weight and experience and took it back with the short end of a 19-6 score. Milligan showed an even greater improvement than expected over their last year's team; but with all their improvement they could do little with the Highland team. For one quarter they checked the Maryville offense, but weakened in the second and third. In the fourth quarter the Maryville offense let up and Milligan prevented further scoring.

Maryville was handicapped by injuries which kept Jean McMurray and Dinwiddie out of the entire game, and allowed Burney Acton to play only a little while. But the efficient manner in which Partee filled Acton's place, and Riskey's and Jimmy King's excellent work at Quarter did much to overcome the handicap.

In the first quarter Captain Sullinger returned the kick-off to the 30 yard line. From then on till the end of the quarter the ball see-sawed up and down the field, both sides punting frequently, Milligan having the edge on kicking and Maryville proving the better ground gainer from scrimmage.

Early in the second quarter Maryville began her march to the goal line. Riskey made a 20 yard gain on a fake. A penalty and a couple of line bucks put the ball within 25 yard line, from whence Acton went around right end for the first touch down.

Milligan took the kick-off and put the ball in play at about the 40 yard line, but failed to do anything with the Maryville line. In the exchange of punts and line plays that followed they lost ground steadily until the end of the half found the ball in Maryville's possession on Milligan's 25 yard line.

The third quarter was the big scoring time. Maryville gathered thirteen points and Milligan one touchdown. Milligan returned Hamilton's kick to 40 yard lne. Shorty Sneed intercepted a pass and returned it to the middle of the field. All the back field men and Thrower took their turns at carrying the ball to the 20 yard line, from where Baxter Williams' took a pass and carried it over for a touch down. Hamilton kicked goal.

Milligan again took the kick-off, but fumbled on the first play. Bob King recovering a couple of end runs collapsed, and two incomplete passes gave Milligan the ball. An exchange of kicks gave the ball to Milligan on about their thirty yard line. Sullinger intercepted a pass and ran for touchdown. Milligan agan received and opened the way for their touchdown when Jimmy King fumbled a punt and a Milligan man recovered on Maryville's thirty yard line. A series of line plays, a couple of passes and two line bucks put the ball over for their only score.

The fourth quarter was a repetition of the first. Kicks, passes—complete and otherwise— penalties, line plays and losses kept the ball continually changing hands and positions on the field.

Although Maryville did not pile up an impressive score they showed themselves to be by far the best ground gainers. They gained by scrimmage, exclusive of returned kicks, intercepted passes and recovered fumbles, 307 yards to Milligan's 62. Of Maryville's mileage, Jimmy King gained 53 yards, Captain Sullinger 50 yards, Burney Acton made 45 yards in three runs, Shorty Sneed 43, Partee 29, Riskey 27, Bob Thrower and Williams 20, Bob King 17, and Guy Acton 8.

Maryville showed their greatest weakness in the overhead attack, although there was some improvement over last week. The interference showed to better advantage than against U. T., although Coach Honaker is not yet satisfied.

The line-up:

Maryville		Milligan
Musick		Spahr
Bowles	left tackle	Westmoreland
Rice	left guard	Hodge
Clemens	center	Little
Schmidt	right guard	Vaden
Thrower	right tackle	B. McCormick
Williams	right end	J. McCormick
Riskey	quarter	Jared
Sneed	left half	Meadows
Sullinger	full back	Beasly
Acton	right half	Feathers

Substitutions— Hamilton for Schmidt, Schmidt for Bowles, Jimmie King for Riskey, Burney Acton for Partee, Bob King for B. Acton, Riskey for Bob King, Guy Acton for Sneed.

Officials—Bower (W. and J.) referee; Carey (Mich.) umpire; Greer (Tenn.) headlinesman.

SUNDAY SCHOOL HAS SUPPER AND PLANS WORK

Teachers and Class Representatives Of New Providence Sunday School Meet In College Domestic Science Rooms For Supper, And To Plan For Work of Sunday School.

The officers, teachers and class representatives of the Presbyterian Sunday School, having many plans to make, got their heads together and agreed that the best thing to do would be to have a supper at the Home Economics rooms. Mrs. McMurray and her squad of white-capped girls did the rest. And oh, how Presbyterians can eat!

As we expected, our lovely supper spurred us on to great work. Sunday School Supt. Bond told us that the Rally Day of our Sunday School will be Oct. 29th. He wanted us to help make BIG PLANS and we

(Continued on page four)

Y IS ACTIVE ORGANIZATION

College Association Is Undertaking Fine Program Of Constructive Work.

The Y Is Working To Promote All Student Interests.

Sunday the Y.M.C.A. service was conducted by students. The Y is primarily an organization of the students for the students. The Y lives and grows as it gives. Those who receive her gifts live as they pass them on to others.

The Sunday service was a fine working-out of this principle. A theme, vitally a part of student life, was discussed by three students.

A Students' Responsibility While in College, by A. D. Moody; A Student's Repsonsibility to His Community, by John Stockton; and A Student's Responsibility to God, by Thos. B. Cowan.

A few thoughts taken from the talks. A student owes it to himself to be thorough in all of his college work. College boys offer unusual opportunities for the cultivation of wide and varied acquaintanceships. The student after graduation owes a debt of service to his community. The need of today is not for leadership of any sort, but for Christian leadership.

A student must be willing to walk with God in obscure places.

On next Sunday afternoon Dr. Graham, pastor of New Providence Presbyterian Church, will speak at the Y Service. The subject will be "God's Will For Each Man".

An open discussion will follow the address.

Come and bring your room-mate.

In the October edition of Association Men is an editorial by Dr. Frank Crane. He chose for his subject, The Life That Sparkles. Here is what he says about the Y.M.C.A.

"The Young Men's Christian Association bases its claim to be one of mankind's greatest servants upon the fact that it exalts and intensifies life."

'In the term "life" it makes no exclusions. By that word it means a vigorous body, a trained mind and a keen spirit.

It has no part nor lot in the heresy that to make a great soul it is necessary to stultify the mind or abuse the body."

"If it emphasizes the spiritual, it is because only by increasing the vtality of the spirit can the mind be cleared and the body strengthened."

"The Young Men's Christian Association in the most practical way possible is showing that as men come from God and they go to God, there should be no gaps of death in their life".

"It is showing that the fullness, freshness and joy of youth are not to be frowned upon and feared, but rather to be developed as a great field of joy, an important part of the inheritance of happiness which the Creator wills for His children."

FOR CARNEGIE BOYS TO THINK OF

To what extent do you want a reception room on First Floor of Carnegie Hall? A place where we can have our parents and friends to sit with us for a time and favor us at times with a visit. What do you say? Keep it under your hat.

(Continued on page four)

MEN'S LITERARY SOCIETIES SWING INTO OLD PACE

SATURDAY NIGHT SEES ALPHA SIGMA AND ATHENIAN PRESENTING REGULAR PROGRAMS.

Good Literary Work Forseen When Societies Are Free From Interruption.

ALPHA SIGMA

With characteristic clatter, the old stairs on the west side of Anderson Hall resounded. As fine a group of young men as ever gathered seated themselves in old Alpha Sigma Hall. It was Saturday night and every true Alpha Sigma knew it his first duty to attend Literary Society.

The meeting was called to order by President, G. Leslie Poe, and opened with a prayer. Mr. Emory Fritz, who has been teaching in the mountains of Kentucky during the past summer, gave a very interesting discussion of his work, and as usual pleased his audience.

Mr. Ralph Armstrong, President debater for Maryville, gave some helpful hints for amateur debaters and discussed Alpha Sigma's prospects for Forensics during the coming year.

Then a difference of opinion arose. Mr. Baldwin contended that Farmer Brown's house burned up and Mr. Othel Armstrong disputed the fact. After an interesting debate by these men, in which one stated that it burned up and the other that it burned down, the judges decided "it did".

Do you know Dewey Eitner? Yes, that tall good-looking fellow who wears a snow white sweater. No one ever accused him of being a hobo, and yet, what did he do but get up before the meeting and thrill us with tales of his wild escapades? Mr. Eitner's narrative would read well in the American magazine.

A number of new men were admitted to membership and the meeting closed with prayer.

ATHENIAN

At Athenian Hall last Saturday night Ed Cornelius entertained us with a humorous paper entitled "Sense and Nonsense, mostly Nonsense." Next Herrick Arnold and David King waged heated warfare over the question of whether or not the Open Shop is the best solution of the capital-labor problem. The debate was of a high quality as was assured by the caliber of the contestants. The decision of the judges, Mr. Cornelius, Mr. Cathey and Mr. Wilson, was unanimously in favor of the affirmative which was unheld by Mr. Arnold. The literary program was closed with the reading of The Athenian by Charles Wathen.

At the business session which followed David King's resignation as program secretary was accepted, and Mr. D. F. Waddell was elected to fill the vacancy. Mr. Waddell was given power to appoint two associates to aid him in the execution of the duties of his office. Many new men were accepted for membership.

The program for next Saturday is as follows:

Radium - - - H. R. Arnold

Music - R. Broady and H. Bannister

Debate: Resolved, That the United Statesshould retain possession of Philippine Islands permanently.

Affirmative, Ed. Cornelius; Negative, Floyd Corry.

The Athenian - - - David King

All new men are cordially invited to visit us and inspect our work.

MONDAY---A RED-LETTER DAY

TWO MEMORABLE EVENTS, A MOUNTAIN HIKE, AND A LYCEUM NUMBER OCCUR MONDAY, OCT. 16TH.

SHEEP-PEN CAVE HIKE

Many Student Hikers Enjoy A Day At Well-known Cave on Tennessee River.

Sheep-pen Cave proved to be an ideal place to go—We wanted to go to Elkmont. We even said we wouldn't go to Sheep-pen Cave because it seemed to be such an inferior place compared with Elkmont. How we ever got that impression we don't know for surely no one who has really been there could ever bring back a report that would make that impression. Anyway every one who went Monday is sure to say Elkmont hasn't much of anything on Sheep-pen.

The first reminder of the hiking day was the lights going out early Sunday night. But we were glad they did for at five o'clock Monday morning we had to roll out and get our khaki togs out. Breakfast came early too, and one could hardly tell girls from boys for trousers were worn by both. And we were glad to see the girls come out that way for nothing but khaki trousers give entire satisfaction to cliff climbers, cave explorers or hikers and all

(Continued on page three)

DRAMA—"CAPPY RICKS"

First Lyceum Number Gives Universal Satisfaction.

Last Monday evening saw the appearance of the first attraction of this year's Lyceum at Voorhees Chapel. This first offering of the College Lyceum was a Redpath production the comedy-drama 'Cappy Ricks" written by Peter B. Kyne. The management of the course is to be complimented on the selection of such a thoroly pleasing attraction. Certainly they gave the student body a play which all appreciated.

"Cappy Ricks" met with instantaneous and hearty approval. Every act of the play was chuck full of tense dramatic interest, and bubbling humor. The audience thrilled at the struggles of the players to attain their goals. The characters were sure enough people who lived hard and intensely, and were capable of putting some pep and vim into their speeches and actions.

The characters, "Cappy" Ricks, Florence Ricks, his daughter, and Capt. Peasley held the interest of

Patronize Those Who Advertise. They Make The Paper Possible.

The Echo solicits news items, comments, and expressions of opinion from the students, and from interested alumni.

Show the same pep when the team is going away that you do when it plays at home.

* * * *

Our pep meetings of this year are good. But,—better control might effect some improvement yet.

* * * *

Be out to a pep meeting and do some yelling. The Highlanders are going to bring home the bacon!

* * * *

We may not be qualified as book reviewers as yet. But the first view of "Mob Psychology" convinced us that we do not want to re-view it.

* * * *

Did not a precedent for joint-meetings of Bainonian-Athenian, and Theta-Alpha exist long ago? Surely we are not starting the habit of breaking precedents.

* * * *

Old students, if a new student asks you if there are any Literary Societies at Maryville College, tell him, "yes" (and hope you are still truthful).

* * * *

Do not forget that an inter-society contest for the selecton of an intercollegiate orator is to be held soon. Give that old oratorical eagle of yours a few practice flights to get him in practice for high soaring.

* * * *

The Echo has a new Athletic Editor, Mr. Charles Ellis. He has furnished the write-up for the U. T. and Milligan games. As Athlete Editor he yields a wicked pen. We like him.

* * * *

Conceivably there will not be a "snap" social Saturday evening. Therefore the Literary Societies will have a chance to meet without interference. How about seeing some literary programs posted on the Literary Society bulletin boards?

* * * *

The hike to Sheep Pen Cave last Monday proved itself to be a satisfactory substitute for the trip to Elkmont. But we may have an opportunity to go to Elkmont yet. Elkmont would furnish an ideal place for the annual spring mountain hike of next spring.

* * * *

Perhaps you have been disappointed that some item you have dropped in The Echo box did not appear in print. If such has been the case we are sorry. We beg to explain that so far material has been exceeding available space. Since a well known law of physics forbids two news items occupying the same space at the same time, we have been forced to leave a few manuscripts go unprinted. In the future we hope to find space for all items, so hand in all material of interest.

* * * *

The Candy Kitchen—
Coney Islands

MUSICAL NOTES

Miss Glenn Froneberger who taught with great success in the Music department here last year was appointed by the school board at Rogersville, Tenn. to a position in the public schools of that city.

Miss Froneoerger studied during the Summer at the American Conservatory in Chicago.

Dr. Barnes who taught in Asheville this Summer had the pleasure of hearing a visitor from Mississippi commend most highly the work of Miss Grace Majure, who is teaching piano in the State Agricultural School at Lurvis, Miss.

Miss Majure is said to have made a great success of her work at this place and was re-appointed to the position, this year.

Miss Winnifred Decker who will always be remembered as a talented student in the piano department is studying and teaching in San Francisco.

Miss Mary Kate Rankin, a former student and teacher in the piano department is located in Dandridge, Tenn., where she again has charge of the music in the schools of that city. Miss Rankin taught in Mississippi the past year.

Miss Eunice Roberts who was a student in piano during several years past, has been appointed to a position as teacher of piano in the schools of Sukabena, Miss.

Word comes from far off Japan that Miss Mary Miles who graduated in piano three years ago, is delighted with her musical work in the public schools of Tokio where she is teaching piano and chorus work.

Miss Virginia Stribling a former student in the piano department, teaching music the past year in Raleigh, Miss., has returned to resume her musical study under the direction of Miss Hale.

Miss Hale brought with her from Columbus, Ohio, her niece, Miss Virginia Sting who while studying in the College, will continue her music under Miss Hale. Besides the piano, Miss Sting is a student of the harp.

Miss Mary Emma Armentrout has taken charge of the music in the schools of White Pine, Tenn. Miss Armentrout is a graduate and former teacher in the piano department of the College.

Misses Lennis and Mattie Tedford who completed the work in piano have opened a studio at Circle Drive, Maryville and are contributing much to the advancement of music in this city. Miss Mattie is taking a post-graduate course in piano under Miss Hale.

Miss Nannette Walker, who received a diploma from the piano department last year has returned to teach piano at the Polytechnic School. Miss Walker is enrolled as a post graduate in the Music Department of the College.

THE COLLEGE BAND

The band practices twice each week, on Tuesday and Thursday nights in Anderson Hall. All fellows who play an instrument are invited to join us.

Under the able leadership of Harry Bannister we hope to make this one of the best years that the college has ever known as far as the band is concerned. A good many of the old members are back and many new ones have already joined. Only a very few of the other schools have a better band and leader than Maryville, so if you are interested and can play an instrument come out and help us.

The Candy Kitchen—
For Candies

INTRODUCING
R. S. GODDARD
Badgett Store Co.

When and Where born?
August 29, 1897, Knoxville, Tenn.
Earliest recollection?
Cow butted me through fence.
Where educated?
Public Schools.
Childhood Ambition?
To be a merchant.
If you were not born in Maryville how did you happen to come here?
Came to Maryville to manage the Badgett Store.
Where did you meet your wife?
In Knoxville, Tenn.
Favorite Recreation and hobby?
Base ball and hiking.
Favorite Book next to Bible?
"Smile around the World".
Most Memorable event?
Leaving the Statue of Liberty.
Your Motto?
Do unto others as you would have them do unto you.
Pet Peeve?
A Maryville College Knocker.
What in Your Opinion is Maryville College's greatest need?
Is paved streets and side walks.

Mr. Goddard is a newcomer in Maryville but he has already won the friendship of many College students. We prophesy that soon every student will count him a close friend.

PERSONALS

Miss Cleo Gooch has entirely recovered from her attack of tonsilitis of last week.

Evelyn Northrop is teaching this year in the city schools at Eaton, Ohio.

We are glad to hear that Miss Marie Jones has recovered from her attack of laryngitis.

Miss Emma G. Irwin who has suffered a broken leg will probably have to stay in the hospital another week or two.

Miss Elizabeth Murphy has recovered from an attack of mastoiditis and is able to return to her work.

Marguerite Broady, a member of last year's Sophomore class, has accepted a position as principal in the school at New Salem.

Helen Rankin, one of last year's students, is teaching Latin and English this year in the White Pine High School.

Miss Ethel Dorn entertained by giving a reception in honor of Miss Ariana Long, bride-to-be. Miss Long is to be married next month. Advice was given to the bride by all the girls present. We have indeed lost a good girl friend, but Mr. Wayne Parkey of Knoxville has found a good one and we wish them happiness.

"Once to every woman" comes the time when she is especially honored and feted. Such was the purpose of the group that gathered in number thirty-nine Pearsons last week. A delicious salad course was served, with Miss Ariana Long in the place of honor. Those present to wish her happiness were, Kathleen Enloe, Elizabeth Montgomery, Ruth Barnett, Mary McSpadden, Clara B. Smith, Sallee Huffaker, Georgia Bell Kuhn. Mary Robison and Hazel Bevan.

GIRLS' PRELIMINARIES PLANNED FOR

At the meeting on October 18th, for candidates for girls' inter-collegiate debate, definite plans were madefor the preliminaries.

The preliminaries will be held November 20 and 21. Three simple questions will be debated then. Thirty-eight candidates drew places. Why can't we have forty or more?

The statements of the questions and the program for the preliminaries are posted in the Library and the girls' dormitory. It is not yet too late to sign up for the preliminaries.

ALUMNI NOTES

Attorney H. N. Wright '12, Jamsetown, Tenn. was on the Hill recently. "Head" Wright was, in his day, a mighty defender of the Orange-Garnet goal. He was on the foot ball team four years and says he still dreams occasionally that he is back at M. C. and on the foot ball field.

Mr. O. L. Duggan '12 was a visitor on the Hill recently. Mr. Duggan is Boy Scout Executive at Saginaw, Mich., and had been attending a Scout Conference at Blue Ridge. He is a loyal Maryvillian and says that he has a constantly growing sense of the bigness and value of Maryville and the things for which she stands.

Miss Edith W. Moore '21 is teaching at Beardstown, Ill.

Some of the members of the Class of 1922 have not reported to anyone on or near the Hill so their whereabouts and activities cannot be reported as yet. The following items give the facts as to part of the latest addition to the Classes of Alumni.

The following are teaching in schools at the address given:

Helen Deal, Guin, Alabama.
Leola Davis, Marion, Alabama.
Elizabeth McCord, Logan, Iowa.
Mildred Kimble, Lagrange, North Carolina.
Helen Park, Albany, Alabama.
Lee Herndon, Lewisburg, Tenn.
Nannette Walker, Polytechnic School, Maryville, Tenn.
Melvin Lawson, Binfield, Tenn.
Reba Seaton, Maryville College, Preparatory School.
Bernice Jones, Ishpening, Mich.
Ruth Quinn, Mascoutah, Illinois.
Charles McClure, Herrick, South Dakota.
Effie Ereckson, Madisonville, Tennessee.
Ruth Clayton, Oak Hill, West Virginia.
Reed Rowan, Louisville, Tenn.
Elizabeth Moore, Louisville, Ky.
Ann Culberston, Cape May Court House, New Jersey.
Ruth McCall, Lenoir City, Tenn.
Elizabeth Jackson, Lenoir City, Tennessee.
Stella McCall, Baxter, Tennessee.
Bernice West, Chattanooga, Tennessee.

Percy Buchanan and Elizabeth Hudson are students in the Southern Presbyterian Theological Seminary at Richmond, Virginia.

Edward Caldwell is taking up the Hardware business in Maryville in the firm with his father.

Jane Waller after a summer visiting in the East is at home in Maryville. She is taking some Home Economics courses at the College.

Elizabeth Ellis leaves soon with her parents for an extended stay in Florida.

219 SAYS

We love the person who, "obligingly sponsered this last injustice", therefore we demand that the author of, "Mob Psychology", apologize for that sentence.

We know some people who are so dumb they tihnk the "Night Shift" is the latest dance step.

Why don't some of you bright Freshmen invent a hair net of camels hair so, when she tears it on his coat button, she can use it for painting and save the old powder rag?

Pins are good friends of ours, but we don't want to be like them—pointed in one direction and headed in another.

When we look at the arms of some of these co-eds we can't help wishing they were where our collar is.

Fair co-ed: 'Alvin Keen's moustache is the real sparrow's chirp. You can't imagine how it tickles me".

SHEEP-PEN CAVE HIKE

(Continued from page one)

three of these features were attractions of the day.

If anyone missed the train going over it was because they couldn't hang on and from the appearance of the loaded cars maybe some poor person couldn't get on, but we hope there was no such unfortunate one. If evrybody hung on and endured the smoke and cinders until we got to Louisville everybody was glad. For there we got our grub and began our short hike to Sheep-pen.

As soon as we got there we were truly satisfied with the place our social committee had selected for us. All of you who didn't go need not try to find out what kind of a place it was for we just can't tell you. Mere words can never give you any sort of an idea of the marvelous ruggedness and the picturesque charm of the cliff and cave and river 150 feet below.

We can't say which was the most fun, climbing cliffs, squeezing thru the narrow passages of the cave and coming out covered with mud, getting a boat and paddling up and down the river or finding an undiscovered recess of the cave and moonshining sure enough. If somebody didn't do all of these they missed something and those who did all can say they had the best time of anybody. Please Mr. Social Committee, let us go to Sheep-pen again sometime.

DR. ROPER LEADS CHAPEL

For the second time this year the students of Maryvlle have been particularly honored and inspired by the violin.

The musician, who is assisting Dr. Roper with the Baptist meeting, visited Chapel on Tuesday morning and entertained with several vocal and violin solos.

His vocal selections including "Tommy Lad" and "You Get Heaps of Lickins" were both artistic and pleasing.

The crowning glory of the morning was his violin solos. The arrangement from Kreisler was especially interesting. His interpretaton was very clear as well as artistic.

Dr. Roper the evangelist conducting the series of meetings at the First Baptist Church led our devotions. Dr. Roper gave us some inspiring thoughts. We are glad to have such chapel visitors.

CHURCH NOTICES

NEW PROVIDENCE PRESBYTERIAN CHURCH

Rally Day will be observed by Sabbath School, Oct. 29th. Next Sabbath plans will be announced. Be there to catch the step.

Dr. Graham's theme for morning sermon will be, "Temptation". Study of morning's Sabbath School lesson will be good preparation for the further study of theme.

Christian Endeavor and evening service, 6:30 and 7:30.

THE SOUTHERN METHODIST CHURCH

Of special interest to the membership of this church, as well as to those friends who attend here, will be the topics for sermons, as given below, which are announced for the sermons from that pulpit. to be delivered during the following two months. Among the subjects for the morning sermons will be the following:

Why I Must Be Born Again; How Shall I Be Baptised; Why I Am A Church Member; Why I Am A Methodist; Why I Cannot Be Saved By Works Alone; Can A Christain Be Finally Lost?; What Is Sanctification?; Is Future Punishment Eternal; Shall We Know Each Other in Heaven?

The subject for the morning service is, Why I Must Be Born Again; for the evening service, An Ocean of Love.

ALL PREP BOYS NOTICE

Junior Athenian Literary Society.

All the boy students of the Preparatory Department are cordially invited to attend the opening meeting of the Junior Athenian Literary Society on the third floor of Anderson Hall, Saturday night, October 21st.

Because of the many snaps and other celbrations that have come on Saturday nights, the Society has been unable to hold a meeting, but we are intending to make our opening meeting a banner one.

So new Prep Students come out and see a real live Prep Society.

Ask anyone about us.

The program for Saturday night will be as follows:

Address - - - President Proctor
Violin Solo - - J. C. Stubberfield
Debate—Resolved, that students of Maryville College should be allowed to moonshine to all Athletic Games played on home grounds, if they so desire.
Affirmative: Thomas Kent, John W. Ladd; Negative: Edgar Buchanan, Lowell Curtis.
Reading - - - Walter Buchanan
Jokes - - - - W. H. Murphy

PREP FORENSICS

Say you Preps who are interested in getting on a live wire debating team wake-up and come around to Theta Hall next Tuesday night and let's get some cooperation.

Maryville Preparatory Department has one of the strongest debating teams in East Tennessee but the thing is there are not enough out this year to make a real success of our debating season this year.

At our last meeting the question were given out and we have some fine ones. We are trying to get debates with Asheville High, Birmingham High, Johnson City and Cleveland. So come on try for that team.

LAW CLUB

Announcement is made of the next meeting of the Law Club which will be held in Athenian Hall next Wednesday, October 25th, at 6:30.

The New Constitution will be read and action will be taken by the club in regard to it. The feature of the evening will be a talk by Dr. McMurray on "The Place of a Law Club in Maryville College." This speech will be highly instructive, and it is hoped that others besides members of the Club will find time to come out and hear it.

Y. W. C. A. RECEPTION

The Y. W. C. A. cabinets were hostesses to their advisory committee at a reception given on Tuesday afternoon in the reading room at Thaw Hall. The girls wished to be drawn closer to the ladies who have proved themselves such friends and so worthy of giving advice. The committee is composed of Mrs. Stevenson, Mrs. McMurray, Mrs. Caldwell, Mrs. Webb, Miss Caldwell, Miss Green and Miss Henry.

They were assured of a hearty welcome and loving appreciation from all of the girls, not only of the Cabinets but of the entire association, for it was founded to help and be helped.

Room: "I see you have more doors in your room than I have in mine."

Mate: "But our rooms are just alike."

"Sure, but you have a cuspidor and I don't."

Sunday School Has Supper And Plans Work

(Continued from page one)

surely did. The members of each department grouped themselves together for conferences and then we all heard reports from each. The final result was a fine big PLAN and the Goal set to make Rally Day a perfect one in our Sunday School is:

THERE
AT 9:15
1000 STUDIED LESSONS
CONTRIBUTIONS
BIBLES
PRAYERS

What do you say, folks? Pretty fine plan isn't it? It's your plan. You must boost or it won't work at all. Help make your class the Star Winner and—who knows, it may be the 100% Record Breaker which Supt. Bond says he will honor by a public announcement of its perfection.

Let's "all out" for Presbyterian Rally Day, boosting with all our might a Big Day and rememberng that we want our Sunday School to be as Dr. Graham wants to see it:—EVERY Sunday a 100% Rally Day.

"CAPPY RICKS"

(Continued from page one)

all when they were on the stage. "Cappy", lovable old bit of high explosives, was the epitome of an old sea captain now in his second childhood, and trying desperately hard to retain his long past youth. Certainly Florence was an interesting representation of splendid young womanhood. Capt. Matt Peasley was the acme of hard fighting manhood.

The plot of the story brought the romance of the sea, and the expectancy of cargoes aboard ship. Plot, character study, and acting all contributed to make "Cappy" Ricks a thoroughly enjoyable play. With such a favorable opening for the Lyceum Course.

Y IS ACTIVE ORGANIIZATION

(Continued from page one)

College hikers, both veteran and vert are exuberant over the promising prospects for a healthy hike to the hills over the week-end under the able direction of the Y. A trip to Thunderhead is scheduled. The crowd leaves on the 3:15 Saturday for Townsend. From that point the climb to the mountain tops will be inaugurated. After Thunderhead has been attained the party will divide into three groups: one will return directly to Townsend, another by way of Thunderhead prong and a third by Cades Cove to Maryville. The train returns Monday at 5:00 p. m.

Expenses will not exceed three dollars and all who have heretofore enjoyed a Y hike will unite to say, "It's worth it, big boy, let's go!"

For any furtner information desired apply to Sam Franklin, chairman of the hike committee.

PALACE THEATRE PROGRAM

FRIDAY, OCT. 20TH.
Mr. and Mrs. Carter DeHaven in "THE GIRL IN THE TAXI". A farce comedy de luxe. Also an Educational Comedy "A Rural Cinderella".

VOLUME EIGHT | MARYVILLE, TENNESSEE OCTOBER 27, 1922 | NUMBER FIVE

GREAT SMOKIES GOAL OF MARYVILLE HIKERS

WEEK-END SAW THREE DISTINCT HIKES UNDERTAKEN BY MARYVILLE HIKING ENTHUSIASTS.

Some Thirty Men Visit The Smokies.

THUNDERHEAD HIKE

Sixteen boys left Saturday afternoon for the Smokies, fully equipped with blankets, eats and other equipment. The first excitement was at Walland when Sam was missing after the train had pulled out for Townsend. Some of the boys thought that Sam would be good opposition for U. T., since he is so good on the track, at any rate he can tell how fast the train runs.

No time was lost in Townsend, since there was a space of five miles to be covered on Saturday. For two long hours the procession pressed forward till long after the last rays of light had faded from the sky. Finally Beech Creek was reached, where sixteen hungry boys hurriedly prepared supper of bacon, eggs, spuds and in fact anything that could be found first. After an hour blankets were spread in a nearby barn and, after Hugh Clabough had been persuaded to quit talking, the weary hikers began their much needed rest.

By sunrise the fires were once more blazing. As soon as August Johnston finished shaving, breakfast was prepared after which camping equipment and toilet articles were replaced into the packs. The long ascent began. An occasional stop for water and to ask Janoviczky how high we were broke the tiresome regular step. These Maryvillians reached Spence's cabin before eleven o'clock. Here the party divided. The first group remained here to return to Townsend the next day, while the others set out for Russell's cabin three miles down the range.

After many cries of hunger by Jimmie Hardin and Van Orden the Russell place was reached. Dinner was served, and at three o'clock half of this group went to Cades Cove to return to Maryville Monday in the rain, while six others set out for Gregory's Bald to explore its mysterious slopes. These brave "bald" hikers unintentionally separated somewhere in the mountains, while looking for a trail, so Franklin and Hardin arrived in Maryville the next morning in a "big limousine."

Last to return but first in the fine art of keeping dry on a wet day were the four tailenders, Herrick Arnold, Van Orden, Dwight Arnold and Henry Cox, who slipped in breakfastless Tuesday morning just before the hunting party which had been organized was ready to begin the search for them. Their tale like their hike is too long to insert within these columns. Suffice it to say that they lost their miserable little trail four times. That their last two nights were spent under the stars both times after several hours of vain search in the darkness for either the trail or signs of civilization. If you want to know how it feels to be forty miles from nowhere, alone amid the midnight silence of a deserted, inky black mountain cave, without any shelter whatsoever, aware of the impossibility of starting a fire because of a recent rain, without a light, without strength, and with a howling wind that speaks clearly of an approaching rain, just ask them. However, since it is now over, they say it would have been one of the times of their lives had it not been for the groans of Dwight as his heel in a heelless shoe slapped against the rocks of the trail, the inmemorable vocal numbers so masterfully rendered by "Van", the uneartnly quantity of hot cakes devoured by Herrick, and the inconvenience of being awakened at uncertain intervals between the hours of two and three in the morning by exclamations of ecstacy that came from Cox as he sat gazing at the Orion rising in the east.

"The trip was full of adventure, experience, good fellowship, and all without a single regret. We are all ready to take the hike again in the Spring. The chap who misses these mountain top experiences is neglecting a valuable portion of his education."

GREGORY BALD HIKE

Several molecules of the Chemistry staff dissociated from the asfixiating fumes of the first floor of Science Hall of Maryville College on Saturday, October 21st. The ionization was complete. It is a well known fact that all ions have natural affinity and this affinity carried them back into the Smoky mountains. Chemistry is a science and is derived from the Latin scire which means to know exactly, and so it was absolutely necessary that the mthematical department be concerned in order to know absolutely. And also since the stars were to be the principle object in sight during the night, it was necessary that some one with a knowledge of astronomy be in the midst of such a scientific group of college professors and assisatnts. This group of molecules, atoms, and asteroids consisted of Prof. Hyden, Prof. Howell, Eugene Stanbery, Leslie Poe and Prof. Sheffey.

Rabbit Creek is a mighty good laboratory and the speed of the reaction was very rapid and in the direction of Gregory Bald. Just before noon on Sunday the reaction went to completion. more chemicals were added and a reverse action took place. A clear cool supply of H_2O was found and it isn't necessary to say what took place there for it was about noon.

But seriously speaking, if you want to see some wonderful scenery and have a good hike, just take that trail from Rabbit Creek to Gregory bald and cover a few of those miles over the mountains.

George Howell is a wonder when it comes to cooking for several hungry hikers and the eats were all that could be desired. Eating is what we didn't do nothing else but except hiking. The Chemistry Department is right here when you speak of taking a good week-end hike.

PRIZE BOOBY HIKE

The call of the mountains, the spirit of hiking, or some other similar potent force must have gotten into the air of College Hill Saturday, October 21st. Perhaps it was seeing so many of the fellows sling their packs across their shoulders and depart from the Hill for a few days enjoyment of the view of the magnificent stretches of the ridges of the great Smokies; perhaps it

(Continued on page four)

SENIOR CLASS IN LIMELIGHT

A Hallowe'en and Two Theater Parties Are Included In Senior Program For The Week.

There are two kinds of men, those who go ahead and do something, and those who sit by and ask why it wasn't done some other way. The Senior class is surely made up of folks of the first class, not first class because they are Seniors but because they have gone ahead and done something, especially in planning the good times for the Class.

This week is to be a busy week in the year's history for the Seniors, perhaps the busiest one of the year.

The night spent together at McMurrays about two weeks ago has not so soon been forgotten. For Ici Crawford was voted on as the biggest baby in the class, and each boy was surprisingly amazed to find that after going to the trouble to write out a description of his ideal wife, he was able to find, for himself, in our own class, a girl who measured up to his ideal. Indeed we have forgotten to forget these good times and we will no sooner forget the good times that lie out before us.

While Pearsons Sleeps.

While Pearsons slept Thursday night, October 19th, the Senior class gathered together her flock under the protection of Mr. and Mrs. Bond, at the Palace Theatre for the evening to see Jack Holt in "While Satan Sleeps". We all have our doubts as to whether all Pearsons was asleep for most assuredly Miss Molly did not sleep until the last. Yea the very last moonshiners, Geraldine Odell and Buck Ellis, were in. The most interesting event of the evening was the Mysterious appearance and disappearance of "Miss Alice Blue Gown", formerly Mr. Leslie Poe. After the show, Mitchell's Drug Store proved a most convenient stopping place. From there we started for the Hill, with some like romantic little Ruth Newton and Virgie McClung, loitering by the way side to count the numerous stars and to discover Orion and the two dippers.

While Witches Creep

The Hallowe'en season is drawing very close, and already the Spooks have begun to make their appearances around over the Hill. They say the woods is full of them and they must be, for the Senior class has received and accepted the invitation.

Black Cats, Witches, Spooks and
Jack O'Lanterns
At home to Senior Class
Thursday night, Oct. 27th.
At the House-in-the-Woods.
While the moon shines.

While the moon shines on College Hill on Monday afternoon, Oct. 30, because of the numerous moonshiners, the Seniors are going to Knoxville to hear the noted Sousa's Band. Cars will be arranged for.

"If you can go at night to Senior parties,
And not sit up and sleep next day in class.
You'll get your grade, and truly you deserve it,
You need not worry—you shall surely pass."

AT LAST—A BEAUTY SHOP

The formal opening of the Blue and White Shop, 718 Pearsons Hall, will be Saturday afternoon from 4:30 to 6 p. m. and Saturday night from after the societies to 9:30 p. m. Everyone is cordially invited.

Theta Epsilon.

TWO 20-0 VICTORIES WON BY MARYVILLE

TRANSYLVANIA FALLS BEFORE ATTACK OF VARSITY MEN; AND HIWASSEE IS VICTIM OF SECOND TEAM.

Throughout Transylvania Game The Kentuckians Are Unable To Penetrate Maryville's Defense. Acton and Wyncoop Play Stellar Football.

TRANSYLVANIA GAME

Acton's touch down after three minutes of play, was enough to spell defeat for Transylvania. And to make a good thing better, the same Mr. Acton took an onside kick right out of the hands of the opposition and put the pigskin over the goal for the second touchdown. A few minutes later Partee carried an intercepted pass through the entire Transylvania team for the third touchdown. The Highlander defense was impregnable, and not once did Transylvania succeed in crossing their goal line. Although the Kentuckians were on the offense a large part of the third period, the only time they were really in striking distance of the Maryville goal was early in the second quarter. An exchange of line plays and kicks put the ball in scoring territory, but the Maryville defense was too strong, and they couldn't go the distance needed to count.

Thompson the Transylvania quarter was in the lime light for the Kentuckians. Acton played brilliant foot ball, making several substantial gains, and twice crossing the goal line in company with the pigskin. Wyncoop played a great game at center; his work effectually putting a "NO TRESPASS" sign up over the middle of the line.

Maryville started a furious attack early in the first quarter. Sneed returned the kick-off to 25 yard line. Acton went around left end for 20 yards. Sneed went over tackle for five yards. Tubby made first down. Shorty Sneed contributed fifteen yars. Acton went over left tackle for 25 yards and touchdown. Captain Sullinger kicked goal. During the rest of the quarter the ball shifted positions, Transylvania having the advantage. The quarter ended with Transylvania in possession of the ball on Maryville's 30 yard line.

In the second quarter Transylvania was forced to kick. The rest of the quarter was a succession of forced kicks and intercepted passes.

In the second half Maryville received, and was forced to kick. Transylvania failed to gain on forward passes and kicked, Maryville fumbling an Transylvania recovering. They attempted three more passes, Musick intercepting the third. Maryville failed to make distance and kicked. Thompson's end rund and a line play made first down. Three more plays failed, and Transylvania attempted to punt. Wyncoop blocked the kick, Josh Proffitt recovering. Three line smashes netted Maryville eight yards. Transylvania intercepted a pass, and made first down on two plays.

In the fourth quarter Transylvania was forced to kick, and Thompson punted to the ten yard line. A penalty, three line plunges and an end run put ball in midfield. Maryville fumbled and Transylvania recovered. Maryville intercepted a pass but a fumble again put the ball into the hands of the Kentuckians. Transylvania, after being thrown for loss and penalized for off-side, completed a pass for twenty yards and first down. Two incomplete passes, and two unsuccessful line plays gave the ball to Maryville. Two line bucks netted first down. Maryville was off-side, but Acton made first down on next play. Acton took an onside kick and carried it across for second touchdown. Hamilton failed at goal. Maryville 13, Transylvania 0.

Transylvania kicked off over goal line for a touch back. Maryville put the ball in play on her own 20 yard line. Two line plays and Brown's end run netted twenty yards. Maryville failed to gain and Hamilton kicked to opponents' 20 yard line. Two passes were incomplete. Partee intercepted the third and ran 25 yards through entire Transylvania team for final touch down. Hamilton

(Continued on page four)

HIWASSEE GAME

On last Friday that scintillating aggregation of pigskin chasers known locally and elsewhere as the Maryville College scrubs, tigers, or second string men, sallied forth from the fastness of their cedar crested resort, and locked horns with the hard-fighting Hiwassee eleven. Before the sun had set and the nightingale had begun her song these Presbyterians had chalked up, as a result of their first real encounter of the season a 20 to 0 victory over the Methodists.

It was a rather interesting affair from start to finish, due, not to the superb brand of football which was displayed, nor to the doubt of the outcome, but rather to the stubborn determination and bulldog tenacity of both elevens. This is Hiwassee's first year on the gridiron but we can truly say that she does not speak in the lingo of an infant. She has reason to be proud of her first attempt to inscribe her name in the hall of foot ball immortals.

There were no individual sattelites glistening in the grass of that cozy little meadow. The whole team shone as a constellation of twinkling stars. Under the capable and efficient leadership of Capt. J. King the scurbs drove hard offsense and held fast on defense. Justice at left half gained slightly more territory than any of his running mates, but, while he rested, Gamble, Acton and the King brother were there to tuck the old oval under their wing and saunter down the field among the gopher holes and miniature Indian mounds. That same old line, that has furnished abundant opposition for the varsity all season, was thereand proved exceedingly effective in stemming the onrushes of the scrappy Monroe countians. Outstanding was the work of Ellis and Park at the wing positions and Crawford and Greenlee at the tackles. Toole started at the pivot position and replaced by Baldwin. The guard positions were filled by Dunn and Holland.

Exclusive of intercepted passes, recovered fumbles and penalties Maryville gained 143 yards to their opponents 124. The scrubs completed 3 passes out of 4 while Hiwassee made good only 1 out of 7. Maryville punted 5 times with an average of 34 yards to Hiwasee's 3 times with a 25 yard average. Penalty was inflicted upon the Presbyterians 3 times for offside while the Methodists suffered only once.

Patronize Those Who Advertise. They Make The Paper Possible.

The Echo solicits news items, comments, and expressions of opinion from the students, and from interested alumni.

Our team is now on the road to meet St. Xavier! Did you do your part to give them a good send off?

* * *

St. Xavier Saturday; Automobile Trip and Sousa's Band Monday; Class Parties Tuesday. Everybody out!

* * *

Last week the Orange and Garnet Warriors brought home the bacon. This week they are going to do the same.

* * *

Next Sunday is Rally Day. The College students can extend Rally Day at all the Sabbath Schools in town. Let's do it!

* * *

Don't forget the Scrubs! They are almost as essential for a winning team as the Varsity itself. Keep a place in your pepper box for the Scrubs.

* * *

Theta has set up a rouge shop. Alpha might set up a bootblack shop; Athenian a haberdasher shop; and Bainonian a movie actress training school. Of course these are mere suggestions to the Literary Societies.

* * *

A Pep Committee is a useful thing. The splendid work done by our Pep Committee in improving the quality of our support for our team is worthy of the highest praise. Stand behind that Pep Committee in this good work.

* * *

Prof. Mintier's advice "to keep pepped up in supporting the team all of the time, whether they are playing here or away, and whether we have a pep meeting or not", is one piece of advice that we unreservedly recommend to all loyal Maryville students. Get into the spirit of it!

* * *

These statements are to right some seemingly mistaken impressions. The movement to abolish moonshining to the games was not instigated by the Faculty, or by any member of the Faculty. But it was undertaken by the Pep Committee. All Chapel annoucements in relation to it were made at the request of the Pep Committee. Bear in mind that this committee is made up of student representatives.

* * *

Last Saturday evening saw three of the Literary Societies meeting at regular time and giving regularly prepared programs. That is indeed a ray of hope. Perhaps even yet there are a few lingering sparks of literary socity interest. How about fanning these sparks into some real live literary programs before the midwinters interfere. Such an action wouldn't be at all a bad thing.

+ + + + INTRODUCING + + + +
+ R. H. CHANDLER +
+ Of Chandler-Singleton Co. +
+ + + + + + + + + + + + + + + +

When and Where Born?
October 16, 1884, Maryville.
Earliest Recollection?
Seeing street car.
Where Educated?
Maryville College.
Childhood Ambition?
To be an Engineer.
If you were not born in Maryville how did you happen to come here?
Born here.
Where did you meet your wife?
Knoxville, Tenn.
Favorite recreation and hobby?
Base ball.
Favorite Book next to Bible?
Sherlock Holmes.
Most Memorable Event?
First Circus.
Your motto?
Now at now.
Pet Peeve?
A Grouch.
What in Your Opinion Is Maryville College's greatest need?
New Gym.

Students are finding Mr. Chandler a loyal backer of the Highland Echo, and in fact every thing that is happening on the Hill.—Trade with him!

Saturday's game with St. Xavier promises to be one of the stiffest contests of the year. The coach is working hard in preparation for the scrap. The team is practicing and drilling three hours a day, *Every Day.* The coaches and the team are doing their part; let's do ours. Let's show a little pep. Show that team that you're behind them. Quit knocking—"Sell your hammer and buy a horn."

JUNIOR ATHENIAN

Prep boys, come on up in Anderson Hall on Saturday nights and visit the only Prep Boy Society at Maryville which has been meeting regularly so far. We will let you out in time to go to town.

The program for Saturday night will be as follows:

Reading - - - Walter Buchanan
Violin Solo - - L. C. Stubberfield
Jokes - - - - Richard Proctor
Parliamentary Drill - Wm. Murphy

219 SAYS

Rather a coincidence, eh? Both the varsity and the scrubs buried their opponents this week under a 20 to 0 score.

The campus trees are donning their autumn rainment. Like our beloved co-eds, they shed some clothes and add some color.

Some folks are so dumb they think the Alumni came from the Aluminum plant.

Headline says, "Mail Clerks Bound to Court." D. King seems to be no exception.

Cold weather will soon be here. We guess the preps hope Thaw Hall will live up to its name.

Whassa big idea of locking the campus to a lamp post at night? Think somebody'll run off with it?

The farmers aren't the only ones who are running out of old corn about now.

PI KAPPA DELTA

Pi Kappa Delta met Wednesday evening and made plans for the activities of the Fraternity for the year. Pi Kappa Delta hopes to promote a feeling of fellowship and fraternity among her members. To that end it was decided to have a regular monthly meeting to be held on the first Wednesday evening of each month. It was decided that the programs for these meetings would be for the most part informal and extemporaneous so that a generally pleasant time would be had by all. All Pi Kappa Delta members are urgently urged to be out for the first regular monthly meeting on November first.

BAINONIAN HOLDS OPEN MEETING FOR NEW GIRLS

A Program Of Varied Attractions Given By Bainonian Society.

Bainonian lives for those who love her,
For those who know her true,
In age, she's almost fifty years
She's old, but ever new.

She has a long, long roll of members,
There are girls of every type,
Tall ones, short ones, thin ones, fat ones,
Some of every size and height.

She gives a hearty welcome
To the new girls on the Hill,
Just come on in and be at home,
Come join her if you will.

Such were the words spoken by the Spirit of Bainonian at the first meeting on last Saturday evning.

The program was opened by Sallee Huffaker who played one of Chopin's most beautiful and impressive Preludes. At once an expectant hush fell on the assembly and as the last note of the piano died away the clear notes of a bugle sounded forth and the curtains were pushed back. There in the subdued blue light high above the audience sat the Spirit of Bainonian incarnate. At her feet sat Bainonian courtiers representing the various types of members. The scene was a never to be forgotten one by those who saw it. One after another these lovely court maidens performed so skilfully so as to delight and thrill those listening. Who does not like to be carried back by one's own individual memories when listening to "Our Yesterdays" being sung? In some way Ruth Newton brought home the fact that "the pleasures of now are sweeter some how when viewed thru the glass of years". But Alberta Frow livened up the group with her immortal Willie Baxter and Miss Pratt. And as a fitting climax an Italian dance was rendered by Helen Sweeton and Georgia Belle Kuhn. The curtain closed with the words of the quartette composed of Misses Gamble, McAnulty, Allen and Newton. "Our strong band can ne'er be broken, sing its praises high, for surpasses wealth unspoken sealed by friendships tie. Bainonians, Bainonians, deep graven on each heart will be found unwavering true when we from college part."

Just to show that Bainonian Literary Society stands for the light as well as heavier side of life a clever little comedy was then presented "The Misdemeanor of Nancy". The picture was our present "great American home", our equally always present flapper and a delightful and very fresh English Lord. The Baronet, (Martha Mae Boyer), seemed as irresistable to the audience as Nancy, (Annarine Atkins), did to him, for every time he spoke his "baby" lines it brought a laugh, good and hearty, "don't cha know". Mr. Winston, (Emma Dyer Blair), who forgot domestic details was a trial to Mrs. Winston, (Winona Johnston), his society wife, and Nora, the real Iris cook, (Margaret McKinney) was too fat to breathe with her sleeves rolled down. At any rate it all ended beautifully with the Winstons capturing the Baronet and he, in turn, catching Nancy.

Afterwards the president invited the new girls to become part of the invincible band and the meeting was closed with the Mizpah benediction.

THETA EPSILON

The first open meeting of the Theta Epsilon Literary Society will be held Saturday night, in Theta Hall. If you are an old girl, you know what Theta means and offers, you know the true worth of a Theta program. If you are a new girl, come, look, listen, taste and see, you will soon realize Theta's splendidness and enjoy her spirit.

Theta Epsilon heartily welcomes you!

ATHENIAN PRESENTS VALUABLE PROGRAM

Next Program Of Special Interest To Law Club Men.

First Roy Buffat gave a brief talk on the subject of Practicing Altruism. Next the Society had the pleasure of hearing Mr. Broady and Mr. Bannister, accompanied by Miss Sullinger render a cornet duet which was of such quality that they were encored for another equally good selection.

Ed Cornelius debated, yes and on the Philippine question with Floyd Corry upholding the negative. Every man who was here last year knows what that means, but for the benefit of the new fellows let us say that it means a sure nuff debate by two star debaters who know their subject. The decision of the judges, Prof. Mintier. John Sanchez, and David King was two for the affirmative and one for the negative.

David King then read The Athenian. Oh what a paper Dave can put out when the cenosrs are absent. We all came in for our share of the slams, and we understand that the editor was later besieged with a barrage of powder-puffs. But such is life.

ALPHA TO PRESENT BRITISH PROGRAM

Meeting was opened with prayer, led by Mr. Clyde Wilson. A debate was held, Resolved: That it is the Duty of the United States to Provide a Soldier Bonus Similar in General to that Recently Passed by Congress. Affirmative, Mason Mann, John Kerr; Negative, John Hall, Wick Bromall.

Judges decided in favor of the affirmative.

A one act comedy was enacted by Kinsler and Baldwin Theatrical Company. This comedy was thoroughly enjoyed, and we hope for more of the same kind.

The theme of next wek's program will be things British. After Eugene Stanbery has presented the English soldier by reading Kipling's famous "Tommy Atkins", a sketch of the life and political career of Lloyd George will be given by Henry Cox. The relative values of the English and American forms of government will be deetrmined in a debate between Turner, Hardin, Huffman and Stewart.

Following this Phil Sheffey will bring a musical treat in the form of old Scotch melodies, and as a closing number Prof. Mintier will address the society upon our future relations with Great Britain.

Y. W. C. A. RECEIVES NEW MEMBERS

One of the most beautiful and impresive services of the year is the Y. W. C. A. meeting in which new members are received. At the conclusion of Vesper Services last Sunday evening a program was given in which the ideals and purposes of the organization were beautifully set forth.

After the opening song a Scripture lesson was read. The passage selected contained the Y. W. verse: I am came that they might have life and that they might have it more abundantly. Alice McAnulty, who had given the Scripture reading, led in the opening prayer. A harp solo, effectively rendered by Virginia Sting, prepared all hearts for the pageant which followed. Candles held by girls representing all parts of America and the world were lighted from the Maryville College girls' candle, and all of the representatives joined in the procession and chorus, Follow the Gleam. After a vocal solo by Charlotte Allen, new girls wishing to become mebers of Maryville's Y. W. C. A. were received. More than a hundred girls lighted their candles and received, with the light, inspiration from the old members. "Blest be the tie that binds"—and holds the hearts in Christian love and fellowship. The benediction was pronounced by Dr. Wilson.

DR. McMURRAY SPEAKS AT LAW CLUB

The first number on the program was an address by Dr. McMurray on the subject, "The Place of a Law Club in a liberal arts college." Dr. McMurray, in his characteristic way, presented his subject in such a way as to leave a complete outline in the mind of each listener. He stated that the principle purpose of a law club is to familiarize the prospective law student with the forms and workings of legal affairs before he goes to law school, and he gave as the three principle aims; to arouse enthusiasm for the profession, to familiarizo the members with the field of law, and to broaden the student's foundation before he goes into his technical course. What should a young man who expects to study law take in college? Dr. McMurray's answer was emphatically, "Everything". The college broadens the man and gives him a solid foundation. The law school sharpens him into a specialist.

The new constitution was read and approved. The new officers then came forward and were installed. They are: President, John R. Stockton; Vice-President, Edward Cornelius; Recording Secretary, Charles R. Black; Program Secretary, A. D. Moody; Treasurer, William H. Murphy; Editor, Robert M. Baldwin and Sergeant-at-Arms, M. R. Richmond.

The Law Club meets every other Wednesday after supper, this making the next meeting November 8th.

CHURCH NOTICES

FIRST BAPTIST CHURCH

A very hearty welcome is extended to all students to hear the pastor at the Baptist Church Sunday. His topics for discussion are "The Three Degrees of Complete Salvation", and "Reconciliation". The Sunday School swings wide her doors to you.

M. E. CHURCH, SOUTH

Doctrinal subjects are usually regarded by church goers as dull; possibly the members and friends of the Southern Methodist Church won't find it so Sunday morning when the pastor uses for his theme HOW SHALL I BE BAPTISED?

Evening subject: LIFE'S SUPREME CHOICE.

Sunday School meets at nine-fifteen, and the Epworth League at six-fifteen. An extra building has just been completed, in which six additional classes of the Sunday School will meet Sunday morning. The student class is one of the important features of this school. The League is growing in popularity. All young people are invited. Mr. Stuart Fonde will be leader.

A COMEDY

Time: Saturday.

Place: Lexington.

Characters: Partee and a few other members of the foot ball team.

Partee after a lot of worry and excitement from asking the location of a certain reisdence gets the desired information and hastens off.

Partee reappears at lunch time.

Partee: Boys, she sure did look keen. She wasn't ready when I got there so I had quite a talk with her cousin. When she opened the door I took one look at her and said cousin turn your head. Hot dog! (makes a few facial expressions and moistens his lips).

Teammate: Partee, is she going to be at the game today.

Partee: Yeh boy, I'm going to strut my stuff for her this afternoon.

(During the game) Partee: Dogone! I can't make a gain but what the ball is brought back.

A little later Partee intercepts a forward pass and crosses goal line for a touch down.

Voice from the grand stand: That's my MAN.

(At supper table).

Partee whispering confidentially to a teammate: Say doy ou know how much a marriage license costs in Kentucky

Teammate: No I don't. Coach do you know what a marriage license costs in Kentucky?

Coach: No; I wasn't married in Kentucky.

Teammate: (To Partee) I'll ask one of those gentlemen over there.

Partee: Never mind; but I may want you to send me some clothes in a few days.

(Exit, all from dining room. Partee goes one way and the rest of the team another.)

Curtain.

PRE-MEDICAL CLUB ELECTS OFFICERS

The Pre-Medical Club met last week and elected officers for the year 1922-23. The following officers were elected:

President - - - - Guy Sneed
Vice-president - - Roy McCall
Editor - - - Louise Sheddan
Secy.-Treas. - - Robert Bishop

The club hopes to have the help of some outside speakers this year. Come out Pre-Meds and line up with us.

PRIZE BOOBY HIKE

(Continued from page one)

was seeing the scenic beauty of the great out of doors of Curwood's "Valley of Silent Men", or perhaps, it was both that caused the Chilhowean Business Manager and Art Editor, the Echo Editor, and a Pi Kappa Delta man to hike to the Chilhowees Saturday night. At any rate these fellows for all their supposed debating skill found it impossible to argue sucesfully against the call of the mountains. So after duly attending Literary Society and the Palace Theatre they prepared their packs and started for the mountains. At a little before midnight the four fellows slipped quietly out of Carnegie, and struck out on the well-known trail for Look Rock and the Chilhowees.

To attempt to describe such a hike in detail would be to desecrate one of the finest hiking experiences by analyzing it too minutely. It is sufficient to give only the briefest of outlines of the trip. The dim starlit trail stretched on, and on. In the far distance towered the dark mass of the mountains calm and majestic. The night cool, quiet, and cloudless brooded over all.

After a hard climb up a narrow, rough trail which was rendered invisible by reason of the inky blackness prevailing in the woods; the party came to the top of Look Rock. They arrived there in time to get a few winks of sleep Sunday morning, before they arose to watch Old Sol paint the distant crest of the Smokies with glowing color. Shortly after sunrise a breakfast noted both for quality and quantity was served.

Sunday was devoted to a thoro exploration of the Chilhowee Range. In general the crest of the range was followed, and by time of a late dinner the party dropped down from the northern end of the range by the old blockhouse road. Then came dinner, Oh boy! A leisure hike brought the party back to Maryville late Sunday afternoon.

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME EIGHT | MARYVILLE, TENNESSEE NOVEMBER 3, 1922 | NUMBER SIX

KIWANIS CLUB AND CHAMBER OF COMMERCE TENDER STUDENTS AN AUTOMOBILE TOUR

MORE THAN ONE HUNDRED CARS ARE PROVIDED TO TO ACCOMODATE ALL COLLEGE STUDENTS COMING FROM PLACES OTHER THAN BLOUNT COUNTY FOR THE TOUR.

All Of Monday Afternoon Is Devoted To Seeing Maryville-Alcoa, Nearby Industrial Plants, And Lower Blount County.

More than one hundred automobiles were provided, and accommodations for as many as four hundred students were arranged. The students availed themselves of this splendid opportunity for the enjoyment of an afternoon of automoile riding out through the country and enjoying the glorious autumnal scenery. The day proved to be an ideal one, and the work of the committee proceeded smoothly so that the tour was entirly satisfactory to every one.

The itinerary of the trip was so arranged as to include a visit to the manufacturing plants of Maryville-Alcoa; and a swing through the surrounding country. In passing through Alcoa the points of interest passed were the Reduction Plant, the Carbon Plant, the Brick Plant, and the Sheet Mill. These plants of the Aluminum Company are at the present time running full blast, and are turning out an enormous volume of products. Special interest centers in the Sheet Mill, because its manager has made an arrangement whereby College boys seeking an opportunity for self help may obtain work. A large number re at present availing themselves of this opportunity.

Following this tour of the manufacturing establishments a tour out into the country was made. For this tour the Loop of Lower Blount county was used. This loop is about 45 miles in extent. This loop passes through a portion of the county that is of special historical interest. The route of the loop is Carpenters Camp Ground Road, Wellsville pike to Thmopson's Bridge, Thompson's Bridge Grade to Niles Ferry Pike, thence to Maryville.

The historical interest of the section of Blount County passed thru lies in its being one of the earliest of the settlements in Tennessee. Maryville itself was originally known as Craig's Fort. Craig's Fort was situated on the bluffs at the the bridge across Pistol Creek between the Southern depot and the end of Main Street. The fort was on the top of the bluff immediately above the springs that are under this bridge. The springs can yet be seen, but no trace of the fort now remains. The act of the legislature changing Fort Craig to Maryville was passed July 11, 1795.

The site of another early fort passed on the trip was that of Houston's Fort. This fort was located on Nine Mile Creek. The fact that that the Echo Business Manager is descended from this same family of Houstons is also of interest. Yet another of these old fort sites passed was that of Hunter's Fort on Baker's Creek. This fort was located near the present site of the old "Brick Mill" there. Niles Ferry Pike, the return route of the trip, is of special interest in itself. The location of this pike corresponds almost exactly with the old Indian trail leading from Virginia to Alabama; and also with the old Federal Road running from Washington, D. C. to Chattanooga, Tennessee.

The following are a few items of special interest concerning Maryville-Alcoa. Altitude 1,000 feet. Annual rainfall 52 inches. Mean annual temperature 58 degrees F. 400 per cent population increase in decade just ended. Bank resources of about three million dollars. Nine miles of paved streets. Twenty seven miles of water main. Hydro-electric power. Two newspapers. Library. Nine Churches. Five summer resorts with in 12 miles.

Aluminum Company has 100 acres of buildings and yards. Its pay roll at times reaches $80,000 per week. Power is transmitted by power line from Cheoah. Cheoah Dam has the potential capacity of 100,000 H. P. The power line from that dam to Maryville-Alcoa has the longest span of cable of any power line in the world.

Blount County has 175 miles of pike. The county also has more pure bred Aberdeen Angus cattle than any other county in the South. Holstein cattle and Poland China hogs are also bred. There are also 2500 head of pure bred and grade Shropshire sheep in the county.

Still other items of interest could be enumerated

The students and teachers of Maryville College, assembled in the chapel on Tuesday morning, October 31, 1922, took the following action:

RESOLVED, That the students and teachers of Maryville College hereby extend to the members of the Kiwanis Club and of the Maryville-Alcoa Chamber of Commerce their very sincere and hearty thanks for the delightful automobile ride so kindly given them upon yesterday by those organizations. They have appreciated greatly this opportunity to get a better idea of the

MARYVILLE LOSES HARD FOUGHT GAME TO ST. XAVIER 25 TO 0

MARYVILLE'S TEAM IS SEEN AT ITS BEST AT CINCINATI BUT SUPERB ATTACK OF CATHOLICS IS TOO MUCH FOR HIGHLANDERS, AND MARYVILLE LOSES FIRST INTER-SECTIONAL GAME.

Davis and Sullinger Are Luminaries. McCall Is Hurt.

St. Xavier, running almost perfect interference, piled up a 25 to 0 score on the Highlanders. But they had to fight for every inch they gained. Both teams put up some good defense, each team several times holding when it's opponents were within the ten yard line. Four times the Honaker crew was turned back almost within reach of the goal. The Catholics were turned back as many times, and a fourth time they succeeded in reaching the desired territory.

Maryville showed a good over head attack, clearly surpassing their opponents in that department, although St. Xavier had the edge on the general offense.

Davis, the Catholic right half was the brightest luminary until he was injured in the second quarter. Captain Sullinger hit his old stride, and looked especially good at returning the kick-off. The coach even said he was pleased at the showing made by his charges; and when Coach compliments the behavior of the team, they usually deserve no little credit.

Roy McCall hurt his ankle in the fourth quarter, and had to be carried from the field. He will probably be out of the game for the remainder of the season.

After the first quarter opinion was divided as to whether or not the Saints would come out on the winning end. Maryville had shown a defense that was surprisingly strong and had held Xavier on its one-yard line. The saints had outplayed their rivals in offensive work but not to the extent of making a touchdown.

The play in detail:

Davis kicked off for St. Xavier, Acton receiving and bringing the ball back 15 yards. Maryville failed to make its downs and punted out of bounds, Xavier receiving the ball on the thirty-four yard line.

Davis tore through the field for one of his regular twenty-yard runs. Bucks by Cushing and Davis brought the ball to the five-yard line, when Davis fumbled and Maryville recovered the ball, preventing St. Xavier from scoring.

Buck Fails to Gain

The Southerners tried one buck that failed before punting the ball to St. Xavier's forty-five yard line. St. Xavier again fumbled, with Maryville recovering, but was unable to advance and punted again. Davis brought the ball back 20 yards, the Saints' first forward pass failed.

However, another pass, Cushing to Mueller, netted 15 yards. At this point Referee Lane penalized both teams 15 yards, St. Xavier for shoving and Maryville for side-line coaching. The ball again was on Maryville's one-yard line, but St. Xavier was penalized, and then lost the oval on account of failure to make downs. Maryville punted and the quarter ended with neither side scoring.

Starting the second quarter Maryville made fine progress against St. Xavier's line, with Acton doing most of the work. However, St. Xavier bucked up and took possesion of the ball when the Southerners failed to make downs.

Splendid runs by Davis and Cush-

HALLOWE'EN IS CELEBRATED WITH BEAUCOUP CLASS PARTIES

ALL CLASSES FORGET SUCH THINGS AS STUDIES FOR A SEASON AND JOIN WITH GHOSTS, SPOOKS, FORTUNE TELLERS AND SUCH, IN A TRUE CELEBRATION OF HALLOWE'EN

Seniors—Dr. Stevenson's

In the dark and gloomy forest,
By the bright and shining firelight
Went the Seniors, for their party.
Oh what fun.

Dr. and Mrs. Stevenson invited the Seniors to their home in the forest to see the Ghost, and hear the murmur of the pine trees, last Thursday night, October 27. A majority of the Seniors assembled in the dignity of their Sweaters, Black and Orange which made a real Hallowe'en decoration. They saw the Ghost, heard the murmur of the pine trees, felt the biting of the great God frost, felt the enchantment of the new moon and the wondrous home.

Was that all? Yes, except that we dragged bushes up around the fire, played Ghost, and warmed ourselves. After a while, every one played, "Drop the Handkerchief", and finally Agnes Lewis slipped from among the crowd and began chasing apples around in a tub of water. Roy was the next in fame. He captured nine apples.

Dr. Stevenson entertained us with

(Continued on page four)

Junoirs—House In Woods

Sposin' the witches began to witch,
And you didn't know which witch was witch?
Well,—spos'n?

Spos'n you had not gone out to the "House in the Woods" to the Junior Hallowe'en Party, and had missed all that good time and eats, well,—spos'n?

What could be more wonderful and ghostly than a pleasant walk through the College woods, at night, when the moon casts spooky shadows in your path and hidden ghosts seem to lurk behind every tree?

The Juniors had just such a treat Hallowe'en night, when they set out for the "House in the Woods". Now no one can say that the Juniors haven't pep and a jolly time. If you had only been standing outside the window and had glanced inside, I'm certain you would have confessed that they are a fine bunch.

Ghosts are queer people, they can tell you your past, future or present. Many of the perplexed Juniors had their problems straightened out, and that ever present question,

(Continued on page four)

Sophomores—Mrs. Caldwell's

Tuesday night, Mrs. Caldwell of Stanley Street threw open her doors to all the boys and girls of the Sophomore class and showed them what real Southern hospitality is like. Weird Jack-o-lanterns gave just enough light to enter the house where corn stalks and pumpkins added to that Hallowe'en feeling. Cider, served as punch, gave just the right twang to the lips. The dance cards with their black cats were soon filled out and everybody indulged in still promming. All the nooks and corners of the home were searched out and even the members of the faculty spent the dances in moonshining.

Can't Cowan shake a wicked fiddle? His talent stretched even to home-made one string violins. "I Think I'll Be Wed In the Summer Time", and "Just a Wee Deoch an-doin's", called Cowan out again and again for another song. Games, too, are lots of fun, especially teakettling, "When was George Washington born?"

Sandwiches, salad, individual pumpkins in minature, cream and

(Continued on page four)

Freshman—Presbyterian Church

The sun has sunk below the line of the horizon and the shades of night are settling over our fair city. Tonight the ghosts will roam the streets. Tonight the superstitious are in hiding, quaking with fear lest they be found. The hour of eight draws near and we surround the doors of the witches' playground cagerly waiting to be admitted. Through the portals we flock, into the ghosts' reception room where we are greeted by members of the Grand and High Order of Pumpkin Pinchers, who present us with black cats which are guaranteed not to bite or scratch.

A goodly crowd has gathered when His Royal Shyness, the High Yucky Yuck, describes unto us the primary sport for the evning. It is for each of us to relieve as many of our fellow frolickers, as possible of their black cat. This sport is met with great enthusiasm as a prize is promised to the one of our number who is most successful. The next game is a conversational game in which the groups are formed and

(Continued on page four)

Senior Preps—M. E. Church South

All things come to those who wait but the waiting had not been long for the ones who were fortunate enough to be Senior Preps on Hallowe'en.

Under the guiding hand of Professor Edgar Walker, and the wide protecting range of Luna, this carefree bunch forsook College Hill never to return—till eleven thirty! Carefully wending their way among the spooks, thru the business section of Maryville, they were at last halted in the dark and dismal passages beneath the Southern Methodist church.

The whole bunch were there, T. J., Gladys, 'Crook', Irene, 'Buck', Nell, Marie. In fact we were pleased to entertain members of almost every department of M. C. "Bab" and "Sally" did a little masquerading they even had their dolls, but the disguise failed. Old age simply cannot be camoulflaged.

As for the entertainment, "It simply was grand" she told me. Under the personal supervision of Polly there was not a dull moment.

The Editor.

* * * *

Our team is playing Mercer today.

* * * *

Are pep meetings not included in the new fall styles?

* * * *

Class parties do make a Hallowe'en at Maryville a memorable occasion.

* * * *

Remember that the "Cincinnati Enquirer" speaks well of Maryville in its account of the Maryville—St. Xavier game.

* * * *

The Chamber of Commerce, and the Kiwanis Club of Maryville-Alcoa are generous and hospitable organizations. We thank them for their kindness.

* * * *

Some body said our girls' basket ballteam scheduled a gtme with the King College powder puffers. Anything to it?

Roy McCall received injuries to his ankle in Saturday's game that will probably keep him out of the game for the remainder of the season. Tough luck, Roy, and tough luck Coach to lose him.

Remember our last year's center? Cece is playing with the University of Tennessee Medicos. Coach Bo McMillin commenting on the game between the Docs and his Centenary College team, said that Cece is the greatest center he has seen in the South. Atta boy, Cece, keep it up, we're all for you!

"Fools names and faces—"

Some of our "artistic" student have applied this implied adage to themselves while pondering over great questions in the alcoves of the college library. During those ponderings, some of the artists have scribbled mechanically but systematically on the numerbed labels of books as well as on the books themselves.

Will it be necessary that in order to preserve the books and save the librarian much time and unnecessary trouble that the majority must be kept out of the alcoves because of the very childish performance of a minority?

Let us hope that the culprits will take this word to heart and mend their ways.

The Candy Kitchen—
For Salad Sandwiches

INTRODUCING
HUGH WAGGONER

When and Where Born?
July 19, 1896, Springfield, Ill.
Earliest Recollection?
Seeing first train.
Where Educated?
Maryville College.
Childhood Ambition?
To be an Engineer.
If you were not born in Maryville how did you happen to come here?
To go to M. C.
Where did you meet your wife?
Am still looking for her.
Favorite recreation and hobby?
Foot Ball.
Favorite Book next to Bible?
Sporting News.
Most Memorable Event?
Storm at Sea.
Your motto?
Live and Let Live.
Pet Peeve?
A Grouch.
What in Your Opinion Is Maryville College's greatest need?
Beautify Campus.

Hugh Waggoner had plenty of pep when he was on the Hill. He has made "pep" his business policy. Don't forget to stop at Waggoner's when you are up town.

219 SAYS

Quite a grand little car ride we had last Monday. But a car ride means a moonshine and campus sentence for some one. This time was no exception but it was inflicted for staying at home instead of going.

I was very glad to see Sousa Monday night and spend a couple of hours with him. He's still the same good old sport.

Seems like the lights have a habit of going out on Hallowe'en.

The U. S. furnishes forty per cent of the world's supply of lead and about 98 per cent of the same thing pronounced the other way.

Cincinnati headline says, "Thousands die from Kissing". We guess there are more than that dying to be kissed.

The moulting season for chickens has passed but some of our campus variety still appear in abbreviated feathers.

MARYVILLE MEETS MERCER TODAY

Coach Honaker left for Macon yesterday with Manager Brown, Riskey, and foot ball players. The teams are about evenly matched and a battle royal is expected.

The men making the trip are Musick, Williams, Thrower, Bowles, Rice, Dinwiddie, Proffitt, Schmidt, Wyncoop, Clemens, McMurray, Riskey, Sullinger, Partee, Acton, Sneed, Hamilton and Brown.

Let's don't forget these boys need our support as much as if they were at home. Keep your pep!

PREACHERS vs. NICOTINES

On Chester Field Kinsler's Toe Pilots Ball To Sky For Sky Pilots.

The shrouds of night fell upon the fastness of Maryville's gridiron, while the shrouds of defeat descended with fastness upon Porter Turner's Nicotine Squad. Napoleon met his Waterloo, and the Lucky Strike Nicotine Eleven met theirs in the Sky Pilots.

The Nicotines had one good play; Camel hump-back formation, one eleven; but its continuous use told on their wind. Kinsler starred for the black-robed followers of Levi. And Howard, who seemed to be taking nicotine between plays, was the outstanding jail-bird. After successfully showing the superiority of the Pulpit over the Cell, the Ministers retired to their private dressing rooms where they donned their white collars and sanctimonious features.

If some men used more judgment they would not need so much ingenuity to get them out of trouble.

LITERARY SOCIETIES

THETA EPSILON SOCIETY HELD OPENING MEETING SATURDAY EVENING

First Program A Decided Success.

Saturday night, even before 7:30 Theta Hall was crowded with eager, happy girls who had come to see the Opening program. The chairs were filled with girls, pillows were thrown on the vacant spaces of the floor and girls sat there, the new settee was crowded with girls. Girls everywhere! and Theta's heart was glad. The meeting was opened by the president, Margaret Weeks.

The curtains parted and what beauty met our eyes! In the midst of an old fashioned garden, with trelisses covered with vines and flowers, surrounded by a quaint white fence, sat grandmother, dear grandmother (Myrtle Ardis) in a little white rocker. She was industriously knitting but was not too busy to answer the eager questions of her sweet little granddaughter (Faye Standish) who came skipping in carrying a large, mysterious looking book. At the words of the little girl, "Oh, grandmother, just look what I have found, please tell me about it," grandmother's eyes showed us that she had been carried back in thought to her days of school life in Maryville when she had been a Theta. Then eagerly, longingly, lovingly, she told the child of this life in Maryville College as a Theta. In this memory book, she found relics of all the memorable occasions of a college year—the parties, Theta-Alpha Sigma joint meeting, where she met grandfather, the midwinter when she became better acquainted with him, the Adelphic Union Banquet and all the others. All had lingering memories of happiness.

Then followed a miscellaneous program. Each girl wore light, fluffy, summer dresses, and we felt as if we were living the June days over again. Mary Biles sang to us in her usual attractive way—her rich, soft voice held the audience until the last notes died away.

Louise Gollmar gave the charming reading, "Sisterly Scheme" and from the hearty applause it can be truthfully said that this reading was enjoyed—also the encore describing the 49 cent visit to Washington.

Among other notable talents displayed was that of Madeline Holmes, who favored us with a 'cello solo. Madeline's music always meets the best of approval and this was no exception.

Mary Lilly Sossomon's interpretation of a Grecian dance was truly a notable success. Her grace and poise were to be wondered at by anyone save those who knew she was a Theta.

Something very unusual around Maryville was given by a chorus of six girls, the Misses Kiskadden, Powell, Anderson, Adair, Curtis and McDonald. These girls gave what a program to be complete always needs—popular songs. They sang three popular numbers and their perfect rythm and graceful steps were entirely satisfactory to the audience.

Susan Carson in her winning way read, "The Present Generation". We are glad that we are present day girls living in the spirit of Maryville and Theta and hoping that we come to as much happiness in as singular a way as the girl of the reading. The encore was a beautiful story of a wounded soldier.

Mary Hamilton led the girls in cheers for new girls, Theta Epsilon and Bainonian. Then we all visited the new Blue and White Shop, and were delighted with it and the good punch served to us.

Theta meets again this Saturday, girls, remember we always welcome you!

The Candy Kitchen—
For Candies

There are still some persons who would rather hold out a helping hand than use the foot.

ALPHA SIGMA HEARS BRITISH PROGRAM

Dr. McMurray Will Speak Next Saturday.

Alpha Sigma enjoyed an English program Saturday night which was as follows:

Invocation - - - Dewey Elmer
Debate: Resolved, that the present English form of Government is Superior to the United States Government. Affirmaitve, Henry Cox; Negative, James Hardin.
Judges decided in favor of the affirmative.

Mr. Phil Sheffey then sang a verse from each of the following Scotch songs, "Blue Bells of Scotland", "Flow Gently Sweet Afton", and "Auld Lang Syne".

Mr. Sheffey is a member of the faculty, but Alpha Sigma is still enjoying his good work.

Prof. Mintier, another member of our faculty, discussed "Our Future Relations with England." Prof. Mintier's talk was instructive and interesting.

Mr. Palmer Baikmier then told us something of Lloyd George, his life and work. Several new members were received and the meeting was closed with prayer by Mr. Pritchard.

Dr. McMurray, Professor of Economics and Political Science, has kindly consented to give Alpha Sigma a series of lectures on Parliamentary Law. He will be present next Saturday to deliver the first of the series.

ATHENIANS ENJOY HUMOROUS PROGRAM

Andy Gump To Open Campaign At Athenian Hall Next Saturday.

Last Saturday evening the Athenian Society enjoyed an excellent piano duet by Robert Johnston and Raymond Anderson. Next Hugh Clabough read several short poems. After that the Society was converted into a court with Edward Cornelius on the bench.

The case on the docket was the State of Tennessee vs. Charles Wathen charged with illegal writing and distribution of "Mob Psychology". John Stockton served as prosecuting attorney and Verton Queener as attorney for the defendant.

Miss Lucy Moore displaying an excessive amount of rouge and powder, and wearing an extremely low V-necked evening gown first took the stand for the State. With a wicked eye and rolled stockings, she vamped the jury beyond hope of recovery and thus prepared the way for a victory for the State.

Next Hunter Robinette took the stand and gave the testimony upon which conviction was finally made. Then A. D. Moody, the noted New York finger print expert took the stand and proved conclusively that he didn't know the name of New York's police commissioner.

The defense then put Wathen and Bishop on the stand in an attempt to establish an alibi but as the two gentlemen couldn't agree on a story their testimony was to no avail. Last for the defense came Dr. David King, finger print expert from, but oh we mustn't ask David such an embarrassing question.

The jury returned a verdict of guilty against Mr. Wathen.

PALACE THEATRE PROGRAM

FRIDAY, NOVEMBER 3
Charles Ray in "TWO MINUTES TO GO". Also a Torchy Comedy.

SATURDAY, NOVEMBER 4
Dorothy Dalton in "THE SIREN CALL".

MONDAY AND TUESDAY, NOVEMBER 6TH. AND 7TH.
Norma Talmadge in "THE ETERNAL FLAME".

WEDNESDAY, NOVEMBER 8TH.
"THE TRUTH ABOUT HUSBANDS". All star cast. Also a Mack Sennett Comedy.

THURSDAY, NOVEMBER 9
Mack Sennett's "THE CROSSROADS OF NEW YORK". A feature picture.

COMING
Guy Bates Post in "THE MASQUERADER".

STREET CAR CHIVALRY

When a knight of old met a lady fair
He knelt at her feet, 'tis said.
But a modern knight in a subway car
He stands on them instead.

He that loses his conscience has nothing left that is worth keeping.

MARYVILLE LOSES HARD GAME TO ST. XAVIER

(Continued from page one)

ing brought the ball to Maryville's five yard line and Cushing went over for the first touchdown. Davis missed the kick for the extra point.

Davis kicked off, and from here until the end of the quarter the game was marked by many penalties. Davis was carried from the field after a Maryville player had tackled him around the neck. Rapp went in for Davis and made a splendid run of 15 yards for first down.

A forward pass, Cushing to Rapp, netted 15 yards, and Cushing carried the ball over for the second marker. Hellenthal kicked the goal. Dubois kicked off and Maryville fumbled, Xavier recovering. After a few plays the half ended with the ball in Xavier's possession on Maryville's 15 yard line.

Starting the third quarter, Maryville cut loose with all of its trick plays. Instead of the regular kick-off, an "on side" kick was made, which succeeded in its purpose and fooled the St. Xavier player who received the ball to such an extent that no gain was made on the return.

A series of bucks by Rapp and Wurzelbacker brought the ball to the 30 yard line, with Xavier going trong. However, Maryville's line bucked up and held for four downs, receiving the ball on a punt. Maryville then tried a fake punt ulay, but failed to gain.

It then punted and Hellenthal made a spectacular run for about 20 yards. Rapp tore through for 10 yards. Xavier failed to make downs and Maryville took the ball. McMurray bucked five yards. Xavier was penalized five yards for off side.

McCall was carried from the field due to an injured leg. Maryville punted and Hellenthal again made a fine return run. Xavier brought the ball to the three yard line but was penalized for off side. With 13 yards to go, Rapp put the ball on the one yard line and Marnell crashed through center for a touch down. Hellenthal missed the try for the extra point. Dubois kicked off and Maryville completed a forward pass netting 15 yards. The quarter ended with the ball in Maryville's possession in the middle of the field.

In the last quarter Maryville resorted to desperate efforts in order to score. Pass after pass was attempted with fair success bringing the ball to the Saints' ten-yard line. At this point, however, Xavier line held and Maryville failed to make its downs.

After a few bucks by Cushing an "Wurzy" the ball was out of danger and Captain Wurzelbacker then cut loose with a thirty yard run for a touhdown. Hellenthal again missed the goal kick.

The line-up:

Maryville		St. Xavier
Musick	L.E.	Mueller
Bowles	L.T.	Knecht
Rice	L.G.	Weiskittle
Wyncoop	C.	Eberts
Dinwiddie	R. G.	Rolfes
Thrower	R.T.	Malony
Williams	R.E.	T. Hart
McMurray	Q.	Hellenthal
Sneed	L.H.	Cushing
Acton	R.H.	Davis
Sullinger Captain	F.B.	Wurzelbacker Captain

Referee, Frank Lane. Umpire Roudebush. Headlinesman, Harrington. Touchdowns, St. Xavier, Cushing 2, Marnell and Wurzelbacker. Substitutions, second quarter, Baurrichter for Malony, Bartlett for Eberts, Rapp for Davis, Dubois for Knecht. Maryville, Hamilton for Sneed, McCall for Williams. Third quarter, Maryville, Williams for McCall, Proffitt for Dinwiddie; fourth quarter, St. Xavier, Cushing for Rapp, Regan for Hellenthal. Maryville, Hamilton for Brown.

Score by periods: 1 2 3 4

St. Xavier	0	13	6	6	—25
Maryville	0	0	0	0	— 0

FOURTH PREP PARTY

(Continued from page one)

(Continued from page one)

One game especially attracted the attention of most everyone. It had to do with a couple leaving the room, and that promising hearty young lawyer, Murphy and his friend were chosen. They were to return in five minutes, but you know Murphy, so did Professor Walker and being a very considerate gentleman he accordingly turned the time back one half hour, as the healthy youth departed.

We fear greatly the outcome of this memorable event, because all the fellows' best girls explained that they "had simply made fools of themselves." Some became speechless, others wept for joy, and many turned orange and garnet, words failing them, but we hope for the best.

Eats, eats, eats, for further information see Proctor, That gentleman actually ate between bites, and one course was missing. This proves the statement, that "haste makes weight". Professor Walker gave some excellent toasts that were well received, but that was only strategy for the next moment he 'Vous etes excusey' and some went one way, some another, some left with a smile, others with two. And we all realized that if it wasn't for the Fourth Preparatory students and what they are accomplishing that this Old Hill would always be covered in dark clouds waiting for someone to find the Silver Lining. They are diamonds in the rough.

As long as a man retains his self respect he will find he has some worth-while friends.

manufacturing plants, the business interests, the farms and the schools, and the scenic attractions of mountain and valley of the historic county of Blount. They earnestly reciprocate the cordial good-will shown them in the provision of this opportunity to see both town and country and the glorious autumnal pageantry of field and forest; and, whether temporary residents of the county or not, they unite with the citizens of Blount in the justifiable pride they feel in their home county; they sincerely thank those citizens for their kindly courtesy and for their thoughtfulness for the temporary guests of the county; and when singing the praises of their "dear college home", they will hereafter more intelligently include not only College Hill and "Chilhowee's mountain blue," but also all the hills and vales and the hospitable people of the royal county of Blount.

RESOLVED, That copies of this action be sent to the Kiwanis Club, the Maryville-Alcoa Chamber of Commerce, the Maryville city papers, and the Highland Echo.

SENIOR PARTY

(Continued from page one)

Ghost Stories, with cats as big as Elephants.

Then came the Gingerbread loaded with cream, and oranges with a nice stick of candy through which the orange juice was sipped up.

After such as this, the living room of the House made an excellent place for telling Ghost tales; with the lights turned out and the wood fire burning high. Roy Buffat being well versed along the line of story telling, was asked to take the floor, and you should have heard what he had to say. It was fine.

Whether or not we had a good time, we'll leave it for the chaperones, Miss Sullinger, and Prof. Mintier, to say. They know, because they had such a hard time persuading us that it was time to loose ourselves from the spell of the dark and gloomy forest, which has cast over us.

Monday afternoon the Seniors mustered to Knoxville to hear the great Sousa's band. It was wonderful We all had a good time.

JUNIOR PARTY

(Continued from page one)

Will I ever marry?" was solved by the mind reading ghost at the door.

The House in the Woods never looked more beautiful, homelike or ghostly, since it was built. With the big roaring fires, comfy seats and some one to talk to,—well, spos'n?

Numerous games were played which were greatly enjoyed by all. The piano being played, constantly, by some accomplished musician of the fair sex.

At a late hour dainty refreshments were served, and plenty too. Why even "Little Army" said he had had so much to eat he could hardly see the floor. The Hallowe'en colors were carried out in the frozen ice cream, exactly like tiny pumpkins, and in the numerous other dainties.

Every one agreed that this was the best Hallowe'en Party they had ever attended and they were only looking forward for th next one.

Spos'n a great Big Bug-aBoo,

Reached out his long sharp claws for you,

Well,—Spos'n?

You would never have seen Pearsons Hall again.

SOPHOMORE PARTY

(Continued from page one)

cake managed to stop the conversation for a few minutes, but it soon broke out again with all the goodbyes that had to be said. Yet they could not be sad when those grinning pumpkins seemed to say, "We'll be back next year about this time."

We are the S-O-F's of dear Maryville!

FRESHMAN PARTY

(Continued from page one)

each fellow is given a chance to talk to ten different girls. Imagine, if you can, the eloquence with which some young orator relates, to some intensely interested young lady, his first visit to a haunted house.

Hark! A whistle blows and everyone is asked to occupy a chair. When all are seated His Royal Shyness announces the eats. Do we receive this proclamation favorably? Well, we'll say we do. But—"Listen ye a moment!" it is to inform you that Their Most Gracious Majesties Professor Knapp and Mrs. West are contributing muchly to the pleasure of the evening in their capacity of our beloved chapped maroons. As the salads, sandwiches, peanuts, ice cream, cakes, etc. disappear into our open mouths we sure are glad we came and we wish we might have something like this every month. Some excitement is caused by lighted pumpkins catching on fire but the Royal Fire Department is on the job and soon extinguishes the menacing flames.

Eleven o'clock approaches and with it the time for the ghosts' departure. Hasn't the time passed swiftly? As the ghosts begin to leave we too must go, so the scene of our revelry is soon deserted.

"We will be with you agin, a year from tonight", say the ghosts in parting.

BADGETT STORE CO.

EASY COME, EASY GO

Do things come easy to you? Does your Dad send you a generous allowance? Can you glance over your lessons and recite them with ease? If so, we are sorry for you. You are missing all the joy of independence and your superficial knowledge will probably vanish from your mind almost as quickly as it came.

But maybe you have to "dig" for what you get—work during vacation and skimp to make ends meet. Well, don't pity yourself. The world is looking for people who can bear disappointment and those who live on easy street can seldom stand the "grief".

Business doesn't come easy these days. Competition is keen. We have to "dig" for all we get and we are digging harder than ever with advertising, quality merchandise and service.

LITERARY SOCIETY WORK GAINS IN INTEREST

ALL SOCIETIES ON THE HILL ARE GIVING SPECIALLY INTERESTING PROGRAMS.

THETA

As every girl knows every year is made up of twelve (long or short (?) months. Each month has its characteristics and holidays. Saturday night a whole year passed by us in such a short time we hardly realized it.

January—Mary Lily Sossomon—heralded the new year for us.

February—Alice Hunt— brought those memories of valentines and "Sugar is sweet and so are you."

March—Louise Morelock—brought greetings from Saint Patrick

April—Beth Torrey— made us wonder where we had put those rubbers mother told us to be sure and put in the trunk.

May—Faye Standish—came in her mild, sweet way bringing sunshine and flowers.

June—Lillis Huffman— brought the beautiful June bride in all her loveliness and dignity.

July—Geneva McDonald informed us, to the tune of "Yankee Doodle" that these sane Fourths, without firecrackers were not a bit interesting to a small boy.

August—Ruth McMurray— whispered to her dog that she was sorry she had forgotten it was dog days when she scratched her hand.

September— Pauline Curtis—brought the dear little school girl singing, "Reading and Writing and 'Rithmetic".

October—Ethel Dorn—told us of ghosts that roam and spooks that moan.

November—Susan Carson—chilled us with thoughts of bleak, dreary days but our mouths watered at the mention of pumpkin pie.

December—Sydney Lamon— gave us the real spirit of Christmas, shopping and giving.

Evelyn Sandine sang, "Oogie Dogie Wa Wa", while the snow fell around her.

"The Shiek" was sung by Rena Mae Anderson and impersonated by Mary Ridgeway.

Louise Gollmar and Thelma Adair entertained us with a silent drama in the following scenes: The Proposal, Trosseau, Wedding, Honeymoon, First Breakfast, and New Love.

Theta meets every week and always welcomes you.

BAINONIAN

Bainonian Society held its first regular meeting of the season on Saturday night. The hall was entirely filled with old and new girls who were eager to see the actual machinery of the society resume its motion. Some old business was concluded and the first presentation of names for membership was made.

A Gypsy Fantasy was then presented. A delightful atmosphere of the out-of-doors and an illusion of space and shadow were created by eleven stage effects and costuming. A prelude, consisting of a charming interpretation of Service's "The Man That Don't Fit In" by Miss Robison, and a piano solo of exquisite expression and technique by Miss Hembree, introduced the fantasy. The movement throughout the operetta was graceful and deft. The work of Miss Huffaker as the gypsy maid, and of Miss Allen as Edmund Burke, the man was out-

(Continued on page four)

ALPHA SIGMA

Alpha Sigma enjoyed another good program Saturday night, as follows:

Debate, Resolved: That Death by Law Should be Abolished from Our Legal System. Affirmative, Broomal, Huffman; Negative, Anderson, Vanderslice.

This was one of the best debates of the year, and many members thought "otherwise" when the judges' decision went to the affirmative.

The next number on the program were orchestral selections by company composed of Jackson, Harte, and Harvey. These gentlemen very kindly responded to several encores.

Dr. McMurray addressed the society on Parliamentary Law, which opened his series of lectures that will be completed in the next two Alpha Sigma meetings. Dr. McMurray's talks are instructive and practical and we want every Alpha Sigma to hear him in his second address at the next meeting.

The Alpha Sigma Advance was given by Othel Armstrong and proved as humorous as it has ever been.

The censor was hardly able to make a report, so crammed of good was the program and his criticism was naturally all praise.

A short business meeting was held and the following officers elected for next term:

President - - - Ralph Arstrong
Vice President - - James Jackson
Recording Secretary - Dewey Eitner
Assist. Rec'd. Secy. Burl Pritchard
Program Secretary - - Henry Cox
Sergeant-at-Arms - James Anderson
Censors - - Francis Kinsler, Harry Gauding, Eugene Stanbery
Editor - - - - - Clyde Wilson
Janitor - - - - - - Leslie Pee

Meeting closed with prayer.

ATHENIAN

Last Saturday night Athenian enjoyed: a violin solo by Robert Johnston and a series of peppy current events by P. G. Camp. Then the society was honored by a visit from the far-famed Andy Gump (R. A. N. Wilson)

The Knoxville Journal and Tribune of November 6th. gave the following account of Hon. Gump's speech at Athenian Literary Society.

ANDY GMP ON HOME STRETCH GETS BIG OVATION AT MARYVILLE MEETING

Journal and Tribune Special.

Maryville, Tenn., Nov. 5.

Mr. Gump spoke in part as follows:

"Friends of this congressional district and members of Athenian Literary Society: As the strenuous campaign for congress draws to a close it is indeed a luxury to be the recipient of the generous good wishes of so notable a body of men as make up the Athenian Society. While you are met here for the advancement of purely intellectual pursuits rather than the prosecution of public issues and governmental policies, yet your keen appreciation of national problems is shown by your choice and support in the present congressional race. From the first day when I reluctantly yielded to the pleadings of my friend, Dinty Moore to lead the common people in this fight for political renovation there has been in my mind no doubt as to the result of our contest.

"May I not repeat the words of my good friend, Josh Hellswanger, editor of the Dog-hill Paragraphs: 'Andrew Gump respects no bond, political or otherwise, that separates one section of our people from the other. He is 100 per cent for the people. He wears no man's collar.

(Continued on page four)

THURSDAY CHAPEL COMMEMORATES ARMISTICE DAY

Most Impressive Chapel Service Of The Year Is In Memory Of Maryville's Honor Roll.

The most impressive chapel service which has so far been held this year, took place on Thursday morning. The occasion was the celebration of Armistice Day. This is the fourth time that the college has halted briefly in the regular conduct of its affairs to do honor to those from the school whose names appear on Maryville's honor roll and to give praises to the God who willed that to America might be the victory.

The program was not long but each number was given with a simplicity and sincerity which made it indeed a work of art. Its spirit was reflected in the attitude of the audience which was one of quiet thoughtfulness rather than the boisterousness of vain glory.

Following the reading of the honor roll and the sounding of taps, came a silence which proved beyond any doubt that may have existed, that America, at least the youth of America, has not forgotten.

Dr. Stevenson's address gave expression to the thoughts only half formed which had been inspired by the effective numbers which preceded it. The theme that Dr. Stevenson presented was the Discovery of America, the belief that America has been discovered in every really great thing her people have done and that in the future, in the performance of greater and more unselfish tasks, her discovery will be repeated.

The speaker did not attempt to conceal the existence of another side to the picture of America's greatness, but he believes, not without cause, that those who have been turned by her successes, generosity and liberty, to license, will ultimately join in the discovery of a nobler America also. And so by carrying out the mandates of God, America will vindicate the sacrifice of her people.

The complete program follows.

Selections by the Band
Reveille by Harry Bannister
Hymn No. 666

Address by College Pastor Stevenson
Hymn No. 665, "America"
Selections by the Band

MARYVILLE LOSES TO STRONG MERCER TEAM

SUPERIOR STRATEGY OF THE MERCER TEAM ENABLES THEM TO WIN BY A 12-0 SCORE.

Sullinger and Sneed Show Well In Defense.

Maryville's gridiron warriors fought a game battle on Friday against Mercer, and lost, but they lost like men, fighting gamely till the timekeeper's whistle put an end to the fray. The Mercerites owed their victory to superior generalship. They seemed to have the ability that the Highlanders lacked, the ability to do the right thing at the right time. As the coach said, "Every thing went wrong.". The Georgians strategy was just naturally better than ours.

The Baptists made their most substantial gains on a criss-cross around end, frequently boxing the Maryville ends in and working their fake around them. The Highlanders gained best via Shorty Sneed and Captain Sullinger's toe. Shorty looked good on both offense and defense, making excelent progress at advancing the ball, and more than effectually covering his territory, and frequently going in to help out the end on defense. Tubby shared honors with Shorty in breaking up forward passes and backing up the line. His prompt and deadly tackling disappointed more than one Mercer back who thought he'd started somewhere. Besides using his head and hands he used his toe to good advantage, clearly outpunting his rival, and gainng from ten to twenty yards on each exchange of punts.

Maryville returned the kickoff to the 40 yard line. Tubby and Shorty made first down on a couple of line plays. Another pair of plays netted nothing and Jean got off a weak kick, hardly over the line of scrimmage. Mercer only gained 4 yards in the three tries and punted. Maryville failed to gain and punted. Both teams failed to make any progress in the first quarter, neither being able to advance the pigskin into scoring territory.

The first play in the second quarter, Shorty Sneed took an onside kick. Two line bucks and an incomplete pass netted only two yards. Mercer blocked the kick and recovered. A series of plays failed to net ten yards and Mercer punted to the 3 yard line. Jean went through center for 5 yards, and Tubby punted 40 yards. Mercer made first down, and fumbled, Thrower recovering. Acton went around left end for 15 yards. Sneed lost 3. Mercer returned Tubby's kick to Maryville's 42 yard line. Jean intercepted a forward pass. Sullinger punted 40 yards. A long forward pass put the ball on the Highlander's 8 yard line, from where Fielder carried it over for the first touch down. Reece's try for goal was blocked.

Maryville received. Tubby got off a beautiful kick for 60 yards into the wind. Mercer failed to make first down and Jean returned the punt 7 yards. Hamilton went in for Sneed. Acton gained three yards off tackle just as the half ended.

Maryville again received, and promptly fumbled, Mercer recovering. Mercer made first down and attempted a pass, which Sullinger intercepted. Maryville made first down. Hamilton punted 40 yards.

Mercer made first down, and failing to gain further punted 40 yards. Hamilton made two yards off tackle, and on next play punted 30 yards. Rice broke through and threw Poore for a 3 yard loss. Mercer got away with two end runs, one for 11 yards, the other for 8. Dinwiddie went in for Rice. Three plays failed to materialize and Mercer attempted a drop kick, which went wide.

Hamilton kicked out of bounds on his own 30 yard line. A series of off tackle plays advanced the pigskin to the 3 yard line. D. Rice went over for the second touch down. His try for extra point by kick from placement went wide. The quarter ended with the score 12-0.

Hamilton returned the kick off 20 yards. McMurray completed a pass to Ham for 15 yards. Two incomplete passes and a penalty forced Maryville to kick, and Hamilton kicked 40 yards. Mercer failed to gain and punted. After three incomplete passes. Hamilton kicked out of bounds.

Mercer made several long gains. McMurray intercepted a pass. Two passes failed and Hamilton kicked 50 yards. Both teams exchanged punts and Maryville tried several passss in a desperate effort to score, in the few minutes that remained to play.

The line up:

Maryville		Mercer
Musick	L.E.	Ellison
Bowles	L.T.	Simmons
P. G. Rice	L. G.	Lynch
Wyncoop	C.	Johnson
Clemens	R.G.	Gaines
Thrower	R.T.	Shiflet
Williams	R.E.	Smith
McMurray	Q.	Cecil
Sneed	L.H.	Pope
Acton	R.H.	Poore
Sullinger	F.	D. Rice

Scoring: Mercer— touchdowns, Fielder. D. Rice.

Substitutions: Mercer— S. T. Reece, L. E. Reece, Felder, Irwin, Cowart, Herndon; Maryville: Dinwiddie, Hamilton, Riskey.

Officials: Cohen (Vanderbilt) referee; Smith (Cornell) umpire; Clements (Mercer) headlinesman.

SCRUBS COWTROMP MARYVILLE HIGH

Second Team Rolls Up 39-0 Score In Mediocre Affair. Justice, Bob King and Delaney Look Good.

Maryville High, or East Side in common parlanse, was unable to withstand the rushes of the heavier scrub team, and went down in defeat to the tune of 39-0 in Friday's game. After the first quarter the scrubs failed to show their customary drive. They started off in whirlwind fashion, and before the first quarter was ended with the help of East Side's fumbles, had accumulated a substantial lead. During the remainder of the game, they let up, and played listless ball.

Neither side was able to gain consistantly through the line. Around end, and the recovery of opponents' fumbles seemed to be about the only way of gaining.

The high schoolers displayed a good shift play, which seemed to baffle the college boys, but they were unable to gain much, because of the inability of the backfield to

The Mercer game was lost. But with our men making a Nazerite vow the next game will not be lost.

* * * *

The Literary Socetics are now doing work that is entirely worthy of praise. If you are not attending some society you are missing some good programs.

* * * *

Surely the impressive chapel service observing Armistice Day to which we listened Thursday morning must have brought to us the true spirit of that day. In the celebrations of November 11th. let us keep that spirit alive in our actions. Make November 11th a remembrance of Armistice Day, not a mere holiday.

* * * *

The Pep Committee wishes to announce the awarding of the prizes for the songs and yells. Everyone should know these by the time for the next pep meeting. Keep up your pep.

Let's Go! ! Maryville! ! !

First Prize for best song, Mr. J. Alvin Keen, $5.00 subscribed by Maryville's ooster, Dr. Mitchell.

Second prize for best song, Messrs. Harvey and Harte, a 1923 Chilhowean, subscribed by the staff.

First prize for the yell, Mr. Roy Buffat, a fountain pen subscribed by Mr. Johnson of Hope Bros.

First Prize—J. Alvin Keen
The Maryville Swing

We've got the rep, rep, rep of dear Maryville,
We've got the pep, pep, pep, of old College Hill,
We've got the strength to knock 'em stiff and ever know the diff,
For we're from Maryville of Tennessee.

Second Prize—James Harvey and Eugene Harte

We're all behind you team, team, team
You know we're rooting for you with a will
So now you're going to fight as you never fought before for dear old Maryville.
Old M. C. has the pep, pep, pep and she always ends on top
So now let's make another score
And then a hundred more
Until Victory we'll never stop.

First Prize Yell—Roy Buffat
The Locomotive

+ + + + + + + + + + + + + + +

When and Where Born?
Fort Dodge, Iowa, Dec. 14, 1882.
Earliest Recollection?
Snow and ice of New Jersey.
Childhood Ambition?
To be a Jeweler and Watchmaker.
If you were not born in Maryville how did you happen to come here?
Call from Hope Bros.
Where did you meet your wife?
Gadsden, Alabama.
Favorite recreation and hobby?
Fishing and Hunting.
Most Memorable Event?
Wedding day.
Your motto?
Make each day the best.
Pet Peeve?
Imposition upon others less fortunate than we.
What in Your Opinion Is Maryville College's greatest need?
Greater co-operation with Maryville, her citizens and business men.

219 SAYS

We wonder if Miss Ruby Neal of Birmingham gets a pleasant sensation from holding to just any old bannister, or does its name have to be Harry.

The guy who said, ''I'd walk a mile for a Camel,'' must have been in Maryville on Sunday, without any cigarettes.

Fable: 'Once there was a girl who won in a beauty contest and was genuinely surprised.'

Pals, be wary of the young lady who is sad and dispirited. It may be only a means to the end.

Speaking of Theism exams. Seniors, don't you regret having wasted all that language on umpires last summer?

We wonder how our unshaven moleskin artists will fare in a game. Reckon they'll get tangled up in each other's beard?

MARRIAGE IN CHEMISTRY DEPARTMENT

One of the most delightful and prepossessing events of the season took place when Miss Io Dine, one of the most charming of the Halogen sisters, entered into a union with Ben Zene, a distinguished Hydrocarbon. The wedding march was effectively rendered on the blow pipe by the accomplished young organist Miss Moll E. Cule. The bridal party appeared led by the youthful ushers Cy Anogen and Peter Oleum, and the bride's maids Ethyl Alcohol and Molly B. Date.

The bride, charmingly veiled in a wire gauze, carrying a beautiful bouquet of flowers of sulfur, tied with a magnesium ribbon, entered on the arm of her father, Ben Z. Line. At the same time the groom, with his best man, Nichelous Hydroxide, came down the aisle and met the bride by the mortar, where by the soft light of a Bunsen Burner, a short but impressive service was held by the Rev. Bro. M. D. Seltzer.

IPSE DIXIT and GALILEO

There was much learning but little real knowledge in Galileo's time (1564-1642). Aristotle was swallowed in bad Latin translations. Ipse dixit. No one checked him by what seemed vulgar, coarse experiment.

Galileo fought against the dead hand of tradition. He did not argue about Aristotle, but put him to the test. Aristotle led his readers to believe that of two bodies the heavier will fall the faster. Galileo simply climbed to the top of the Leaning Tower of Pisa and dropped two unequal weights. The "best people" were horrified; they even refused to believe the result—that the weights reached the ground in equal times.

"Look at the world, and experiment, experiment," cried Galileo.

The biggest man in the 16th century was not Galileo in popular estimation, but Suleiman the Magnificent, the Ottoman Emperor, who swept through Eastern Europe with fire and sword and almost captured Vienna. Where is his magnificence now?

Galileo gave us science—established the paramount right of experimental evidence. Suleiman did little to help the world.

Hardly an experiment is made in modern science, which does not apply Galileo's results. When, for instance, the physicists in the Research Laboratories of the General Electric Company study the motions of electrons in rarified atmospheres, or experiment to heighten the efficiency of generators and motors, they follow Galileo's example and substitute facts for beliefs.

M. E. CHURCH, SOUTH

Rev. French Wampler, Pastor

hWat is a Real Church? Does the New Testament tell us clearly what a Church is? How are we to know, in the midst of so many branches of the Christian Church, just what is a true church? All these questions have an interesting bearing on the theme of the pastor of this church at the morning hour Sunday. IS THE METHODIST CHURCH A REAL CHURCH? This is the fourth in a series of doctrinal sermons now being delivered at this church, others of which will follow in order from Sunday to Sunday. The subject for the evening sermon is THE TRAGEDY OF TOMORROW. Not only is the membership of this church invited to be present, but all others interested, especially those, not having a church home in the city.

Sunday School meets at nine-thirty, and the Epworth League at six-fifteen, with a cordial welcome for all.

OHIO CLUB

Well, at least Presidents aren't the only things that Ohio can raise. They sure can raise pep. We had our party in the Domestic Science Room last Monday. Two months at college hadn't ruined the girls' culinary ability a-tall. After a couple of games, the bacon and eggs began to sizzel on the stove and the percolator began to 'perk', and—good nite, manners! This was a case of 'roll your own', and you ought to have seen us rolling that bacon and scrambled eggs on those slices of bread. And that wasn't all. Besides that we had sandwiches, apples and marshmellows. Marshmellows over a coal oil stove? Sure! They ere fine. Old Father Time has evidently taken up aviation, for the minutes simply 'flew'. ''Tempus fugit'', and it certainly did some ''fugitng''. Everybody out for every Ohio meeting! !

CHILHOWEAN OFFERS PRIZE

Best Club Page To Be Selected

All members of the minor organizations of the Hill, which include all Clubs, be they state, law, ministers children, pre-medical, or redheaded, will be interested to learn that the Chilhowean Staff has decided to offer a free page in this year's annual to the organization which submits the most attractive design for its spce in the annual. Classes, Literary Societies, and the Y. M. and Y. W. C. A. will be excluded from this competition in order to give the smaller organizations a better chance. The page design will be submitted to impartial judges and due honor will be accorded the winner.

The Organization section of the Annual this year already promises to be one of unusual size and value. The heads of this Department, Miss Lucile McRady and Mr. Othel Armstrong, are ready at all times to cooperate with organization editors in preparing their pages, and they urge that all groups who wish to appear as such organize now in order to get an early start.

E. W. "Van" Hunter writes from his new quarters at Georgetown University of very interesting work there. Van says, "Don't lose heart over the loss of the U. T. game; back Coach and the team for a great season."

Jason Purdy, '19, spent the summer in Ralph Conner's counrty, the Canadian Northwest, doing mission work. He has returned to Princeton Seminary for his final year of theological study.

Y. W. C. A. ADDRESSED BY MRS. WELBON

One day a woman found a young girl sobbing as if her heart would break. Full of sympathy, the woman asked the reason for her tears and was answered in words like these, ''My mother died before missionaries ever came here, before she had a chance to hear of the Saviour—what chance have I of ever seeing my mother?"

This scene took place in Korea, with Mrs. Welbon and a Korean girl as actors. Many like experiences, many wants, and many blessings were told by Mrs. Welbon in her address to the joint Y. W. C. A. last Sunday. Every girl present was inspired to give more and pray more, and no one knows but that some other girl may answer the missionary call in response to such needs as were depicted.

The meeting was entertained and inspired by the special music. It consisted of a 'cello solo by Edith Keene and a vocal duet, ''Saved by Grace'', sung in the Korean language by Barbara and Mary Eleanor Welbon.

All Y. W. girls aged 19 and under meet in Bainonian Hall Sunday afternoon at 1:30. If you are not there we will understand (you are over 19).

TO LOOK FORWARD TO

Miss Virginia Pritchard, traveling secretary for the Student Volunteer Movement for Foreign Missions, is to spend November 14-15 at this College. Miss Pritchard is a graduate of Randolph-Macon Woman's College, where she ranked high as a student, athlete, and Christian. Maryville is especially fortunate in securing a visit from her.

The Y. W. C. A. has arranged for conferences with the Student Volunteers, cabinets, and committees. It is to be hoped that many students will take advantage of the opportunity for personal interviews, for this is a very important side of the work. When she comes, we will make her welcome and help her with our attention—before she comes, we must think and help her with our prayers.

LAW CLUB

Wednesday night the members of the Law Club put on one of their characteristic programs. A good-sized crowd gathered in Athenian Hall and listened to an instructive and entertaining presentation of a varied program. The first number was, ''Current Events in the World of Law''. This very interesting department was very well given by Mr. Ralph Shearer, and was followed by a research report by Mr. Roy Buffat on, ''The Origin and History of the Writ of Habeas Corpus''. Mr. Decatur Waddell then sang a tuneful song. Had you ever stopped to think that there was any country which did not have a judicial department? Mr Dexter Greybeal, affirmative, and Mr. Verton Queener, negative, debated the question, ''Rsolved, That the United States Supreme Court should not have the right to nullify any law passed.'' The affirmative received the decision.

The programs will be better each week. You are invited.

LOST—A bunch of keys on ring somewhere in town or between the campus and town. Please return to the ''Lost and Found'' office or to Mrs. Snodgrass' office.

SCRUBS vs. MARYVILLE HI

(Continued from page one)

hold on to the ball.

Delaney at center was in the firmament for the High School. His defense was excellent, and his passing was all that could be desired. Maryville boasted of no special luminary, but the work of the backfield, especially on defense was superior to that of the line. Bob King and Justice looked good on defense; both figured prominently in breaking up the East Side plays, and were most consistant ground gainers. Guy Acton contributed his part to the spectacular by carrying an intercepted pass 60 yards for touchdown.

Scrubs		Maryville High
Parks	l.e.	Dunn
Crawford	l.t.	Stanbery
Brown	l.g.	J. Wallace
Baldwin	c.	Delaney
Deron	r.g.	Everett
Greenlee	r.t.	Sullinger
Ellis	r.e.	Johnson
Jimmy King Captain	q.	Davis
Justice	l.h.	Morton Captain
Gamble	f.	R. Wallace
R. King	r.h.	J. Crawford

Substitutions: Maryville High—McCampbell for Stanbery; J. Crawford for Morton. Scrubs: Ramsay for Ellis; W. Sneed for R. King; Hardin for Dunn; Buchanan for Greenlee; Guy Acton for Gamble; Burleson for Crawford; Black for Brown.

Scoring: Scrubs— touch downs: Justice 2, R. King, J. King, Gamble, G. Acton; extra points: goals kicked, Gamble 3.

ATHENIAN

(Continued from page one)

He will go to Washington undaunted, unhampered and alone. He will act without fear or favor. The day false prophets is gone. I am standing at the forks of the road. To the right is the hard-surfaced road that leads to political oblivion and moral turpitude. It is the road which has been so long traveled by my predecessors whose heads were as hard and thick as its surface, and whose minds and consciences had been early lulled into that quiet unknown of mental and moral slumberland from out whose realm no man has ever returned. Over this road hangs great clouds of flamboyant bombast, the only monument to future generations left by my predecessors and now being sought to be increased by my oppopents in this race. The great sun of public welfare and common good which should illumine this dangerous passage is kept from shining on it by the over-hanging branches of selfish senators, cabbage-headed congressmen, and pilgarlic politicians.

"I may be broken in my fight but my back is to the wall and I will fight to the last trench. The $40,000 that I have spent was my own money. I have shown the people that Andy Gump is no brainless, sizzle-sazzle chump. I have shown then that Andy Gump is fight from the tip of his horn-rimmed brain to the dynamite disposition inherited from his matrenal grandaddy, Cappy Ricks. I WILL RUN MY OPPONENTS TILL THE LOWER END OF THEIR BACKBONES STRIKE FIRE FROM THE GRANITE ROAD OF INFINITY. (Applause.)

"I will fight my opponents to the last vote even though they prove that my paleozoic ancestors swung by their tails from the branches of the Charter Oak and pushed little ducks off into the water from sun-up to the baying of the hounds in the light of the moon.

"I am 100 per cent for the people. I wear no man's collar. My record stnads open, unashamed before the bright lights of public opinion. I defy the oposition. Victory is mine. The die is cast. I follow the army that goes to Washington. Gentlemen, I thank you." (Cheers.)

Next, Hunter, Robinette and Jesse Warrick debated the soldier bonus question. The judges decided unanimously for the affirmative, Mr. Robinette.

Then the critic's report, a real report too! We're with you Roy. Let's hear more such reports. They make for a better society.

BAINONIAN

(Continued from page one)

standing.

Their numbers were all well executed and there were songs which seem to have a constant appeal regardless of the varying circumstances of their use. "Tell Me Gypsy", "Forgotten" and "The Gypsy Trail" are three from a list of favorites.

The complete caste of characters follows:

Edmund Burke - - Miss Allen
Maid - - - Miss Huffaker
Gypsy Chief - - Miss O'Dell
Chieftess - - Miss Osborne
A Woman - Miss Higginbotham

THURSDAY, NOV. 16TH.

'LOVE IS AN AWFUL THING'. With Owen Moore.

PI KAPPA DELTA

At the meeting of Pi Kappa Delta scheduled for the first Wednesday night in December the following topics will be discussed:

1. Why is it, that, in a student body numbering approximately five hundred, the debating interests of the college are represented by less than one-tenth of that number?
2. Are there any points in the present forensic procedure that might be improvel?
3. What is the relation of our literary societies to forensics?
4. What may Pi Kappa Delta do in any of these relations?

Open forum will follow the extemporaneous discussions.

Irma Schwab, '21, is teaching English in Bradley County High School at Cleveland.

RESOLUTIONS OF FRESHMAN CLASS

Whereas: God, in His mercy and wisdom, has called to Himself the father of our Classmate, Tommie Rose Lewis,

Be it resolved, That the members of the Freshman Class of Maryville College extend heartfelt sympathy to its bereaved classmate in her great sorrow;

And be it further resolved: That, a copy of these resolutions be read in chapel, that a copy be printed in The Highland Echo, and that a copy be sent to Miss Lewis.

CO-EDS HIKE TO MONTVALE

Rah! Rah! Montvale!

Remember the noise the truck made leaving last Friday? Well.

Remember the noise it made coming back? Well. Ordinarily anticipation exceeds realization. Therefore I believe I have proved that Montvale is no ordinary place, since it far exceeds any possible anticipation.

After an invigorating ride through autmn-smelling woods, we landed, wandered around awhile, and ate. And that supper! Sweetest smell ever smelt, half cooked dogs and fragile coffee, but it sure tasted good after Pearsons' hash. And that following music. Each group lulled itself to sleep with its own lullabys, inspired by popping corn and roasting marshmallows over dying embers. How the old folks must have enjoyed it.

But that's not all. Still later that night there was more noise. 3:30 a. m. An unearthly hour, but the moon and stars were bright and the air, cold and mountainous, and the walking was good, up to the first spring, then there was some lagging. Hard work, but the good old sun waited, and did not rise until half an hour later, about six o'clock, when all were seated comfortably on Look Rock.

It was not just the sunrise, however, that was most beautiful, but the fading moon and morning star in the red-purple haze opposite the sunrise. The whole scene was so inspiring that many girls again burst forth into song and the spell was broken.

But why worry? There was soon lovely burnt bacon and almost fried eggs to eat, and many pictures to take, and then down again with absolutely nothing that had to be done. A most restful feeling, at peace with the world and nothing to do.

Some very ambitious folks could not stand this leisure and hiked home, but most of us just enjoyed ourselves, mooing at the cows and maaing at the goats, until the last truck home.

It was the fastest truck that ever was, it sure did get us home in a hurry, but the College looked good at that and Pearsons' hash tasted fine, and we're none the worse and considerably better for the outing and we all want to go back next year.

WORK ON CHILHOWEAN PROGESSES NICELY

Have you ever seen a Chilhowean? If you have, didn't you like it? Of course there are some things about the annual that ought to be changed—otherwise there wouldn't be anything for the present Editor to lose sleep over, and of course it is a foregone conclusion and a time-hoored precendent that Editors must lose sleep.

Now the fact of the matter is, everybody likes a really good annual and if everybody likes a really good annual, naturally, everybody will want to make the 1923 Chilhowean an exceptionally good one.

First of all, there are some really wide-awake clubs on the Hill and they are already working on their pages, for ''just any sort of a page'' won't do. It isn't enough to ''get your pictures in'', the pictures and the corresponding material must be arranged in some really clever artistic way. The prize offered to the club arranging the best

COLLEGE PARTY HIKES TO GREGORY BALD

Toriado-ree
Don't spit on the floor-ee
Use the cuspidor-ee
That's what its' for-ee.

With this ringing in their ears, the gang composed of students, visitors, seniors and faculty arrived at the station in time to catch the 4:10 train out at 4:45 last Friday.

After a brisk 30-mile hike to Calderwood on the train, the bunch got there (must have, didn't do nuthin' else). Time passed presently and pleasantly. Took a moonlight bored-walk without the moon on a board walk. Time passed darkly.

Had pleasant company on board the ''Flying Woofus'' up to Cheoah in spite of competition with representations from U. T.

The evening was spent hilariously with an accelerated succession of five parties, most important of which were namely: the ''coal-house'', ''nigger party''; ''serenade''; ''water-fight'' and the ''Christmas party''.

Then after a good night's rest from 2 to 5 o'clock the real fun began, namely, the hike to Gregory Bald. After a short workout from 9 a. m. to 2:30 p. m. (without even an onion) the big 4 reached little Bald; namely: ''Koon-hunting Keen'', ''Lady-Sugar'' Mintier, ''Slight-of-hand'' Jonnie and ''Rose du Square.'' The others followed in order.

Sunday night might have passed pleasantly had not Rose slept so cold and Keen and Andy slept so much.

The work-out was contiued next morning, the crowd dropping somewhat over 3000 feet only to land at Cades Cove on their feet.

(Extract from Jonnie's Diary).

Nov. 14th, Maryville.

(By Associated Press)

The ''woofusses'' being unable to break away from their mountain board so soon, assembled at 12:30 (higher noon) in Home Ec. dining room in honor of the departure of their guest namely, ''Stung'' Fremont Pickering.

After a hurried repast, luncheon had been served to; viz: ''Paris Green'', ''Flap-Jack Ridgeway'', ''Wild-Heart Trotter'', ''Beaucoup McMurray'', ''Bambian Ridgeway'' ''Slat Keen'', ''Jack-Flap Turner'', ''Chunky Mintier'', 'Pick Pickering'', ''Pint and a-half Andy Anderson''.

BASKETBALL PRACTICE GETS UNDER WAY

Preliminary Basket Ball Practice Begun.

Preliminary basket ball practice began last week. Although the real practice season does not begin until early in December, several candidates are already out. The material looks good, although it is practically impossible this early in the season to tell who really does have basket ball ability. Several members of the foot ball squad will try out for the team after foot ball season. Prominent among them are Capt. McMurray, Manager Musick, Schmidt, Parks, Thrower, Gamble. Slim McGinley and Janoviczky are directing the practice sessions.

About 75 fair damsels are making bids for a place on the Co-ed

EXCHANGES

News Items of Interest Gleaned From Other College Publications.

GEORGETOWN COLLEGE

Clippings from ''The Georgetownian'' give plan and probable result of a new social program being introduced at that college.

Committee At Work On New Social Program

Plans for a social program in Georgetown College are being worked out. A committee composed of representatives from the various organizations of the student body is attempting to work out a plan whereby the social life of the College community may be greatly improved.

While no definite information can be given out at present as to what the completed program will be, the general plan is to have a group of four major entertainments with full holidays, and a number of minor affairs during the year. It is probable that the first major entertainment will come at the close of the foot ball season in the form of a banquet and reception in honor of the team. The second will be the annual Forensic Day on February 22. The third event will be in May and the final one will be the annual reunion and picnic on the campus during Commencement week.

In addition to these four entertainments, several minor aaffirs will be given during the year by the different organizations.

First Number of New Social Plan Is A Success

Witches, goblins, and spooks held sway last Tuesday night in the College gymnasium where the Alpha Literary Society entertained with a Hallowe'en party. The party which was the first number on the new social program adopted by the Student Body and aproved by the Faculty, was a marked success.

CUMBERLAND UNIVERSITY

St. Louis Alumni of Cumberland University gave a banquet to Cumberland's foot ball team when it was there playing the University of St. Louis. They made the affair a royal reception of the team by old graduates, and served a sumptuous

(Continued on page four)

THE VARSITY BEARDS THE SCRUBS

CAVE MEN FROM VARSITY SQUAD RUN OVER SCRUB BOYS FOR 20-0 SCORE.

The age old problem of the irresistable force and the immovable body, was solved last Friday when Coach Honaker's red jersied, much be-whiskered varsity men locked horns with Bond's eleven sweat shirts, filled to the neck with scrubs and pep. The irresistable force met the unmovable body and went on through for a 20 to 0 score,leaving the unmmovable body in the same place, but very full of holes.

From the kick-off till the time-keeper blew his whistle at the end of the thirty-five minute last quarter, the cave men had their hands full of scrubs, and sometimes running over—for gains up to 40 yards.

For three bloody quarters the varsity boys had to be content to rest on the long end of a 7 to 0 count; and it was only the conspiracy of Coach and the time-keeper's that enabled the Nazarites to increase their markers to the twenty points. The Scrubs never really threatened the varsity's goal line, but showed plenty of push and fight, and several times, especially during one bright flash of offensive power, started rallies that looked like they bid fair to literally run the Varsity ragged. But some fumble or other mishap always set them back. Their offense was brilliant in spots, but at no time did it show the powerful, smashing drive of the gentlemen in red. Despite their lack of ability to consistantly advance the pig hide through the avordupois of the big red line, they showed plenty of ability to get in the way of the Varsity backfield men, and mess up play after play. Time after time the cave men would bring the ball into the scrub's territory and lose it. The scrubs usually tried to carry it out, but most of the time the only way to get it back up the field was to kick it out and let the varsity bring it back again.

The varsity line looked good on defense, and stoped the light scrub backs like Tanglefoot does flies.

Thrower and Rice, the big red-headed line men were bulwarks in the line, snatching the little scrub boys as they tried to come through and sending them back where they belonged. Doris Musick had blood in his eyes too, and did his bit in making the scrubs behave, till somebody filled his eyes too full of blood and sent him to the side lines.

The scrub line, while it did not show the uniform excellence of the line with whiskers, had its bright spots. Brightest of all was Ici, the big lazy boy at left tackle. Ici was in nearly every play and messed up about all he got in. Maynard Dunn made his presence known, and got in the way of more than a few varsity plays—that is till he got in the way of Musick. After he got in the way of Doris he didn't get in anybody's way except the Doctor's, neither did Doris. Johnson Ellis, and Joe Gamble covered Park's punts in great style, and smothered Riskey every time he tried to receive George's spiral. Bob and Jimmie King took spells of brilliant offensive work every once and awhile, and pulled off some real big league stuff.

Now this is the way the thing looks to a casual observer. The scrubs ain't as big as the varsity, they ain't got no whiskers; they can't carry a pig-skin down the field like the varsity; they can't work skin tackle plays and center rushes as good as the varsity; but they can punt and cover their punts; they can work fakes on their big brothers; and Joe Gamble can get off good kick-offs.

GEORGIA CLUB

Who? Georgia Club.
When? Monday afternoon.
Where? Pearsons' Parlor.
What? Club Social.

Did we have a good time? Well, we sho did. Say Othel and Kathleen sure did make a good team—they beat us to the toy balloon. After the contest we had games and more games. REFRESHMENTS, the kind that only a Georgia Club could plan.

Everybody out for Georgia meetings.

The Echo solicits news items, comments, and expressions of opinion from the students, and from interested alumni.

Our bearded Highlanders are going to make things hot for Emory and Henry.

* * * *

On dit that Thanksgiving week is going to be observed on the Hill with a number of social events.

* * * *

Does anything disgust you more than a period filled up entirely-with fluff recitations?

* * * *

We suggest that some archeologist start a search for the fossilized remains of that extinct species once known as Pep Committee.

* * * *

Lives of editors all remind us
We can't make our lives sublime,
For we have to work like (????)
To get our papers out on time.

* * * *

The other day an agent for a vacuum sweeper was seen selling his wares in Carnegie Hall. Extraordinary set of men we have rooming in old Carnegie.

* * * *

Georgetown College (Ky.) has a social committee made up of representaitve members from all college organizations to care for the social needs of the college.

* * * *

The poor fish who habitually knocks Maryville, and her student activities, and yet remains on the Hill; is our idea of the cur which bites the hand that is feeding it.

* * * *

Show ''Pee Gee'' you are with him in carrying out the inter-class basket ball tournament. The value of such a tournament is so obvious that it needs no emphasis.

* * * *

We are having few chapel speakers these days. What is the prospect of having some speakers with new and helpful thoughts some time in the near future?

* * * *

The week just passed has been a rather off one so far as news items are concerned. True it did rain Wednesday; but since that was all over town it needs no comment.

* * * *

We wonder if any of the oldest inhabitants on the Hill still remember the time when the Literary Societies followed the custom of having joint meetings of the women's and men's societies.

* * * *

The general appearance of the Echo box, would not justify its presence on the wall of Anderson Hall from a decorative standpoint. It is there to serve as a convenient receptacle for student contributions to ''The Highland Echo''.

* * * *

Debate preliminaries are now near at hand. Have you gotten your debate prepared? Just remember that M. C. holds a first place in intercollegiate forensics; and that a place on one of the teams is a place of distinction. Let's see some debate pep!

* * * *

A city paper says the College would not allow the Indian dance on the College gridiron on Armistice Day. We had a rather different impression as to the actual facts. Our impression was gained from being stung by waiting for the dance to occur.

* * * *

It is true that at this season of the year the campus does unavoidably get a rather ragged look. That means, not that we are to relax our efforts toward a campus beautiful; but rather that we should increase those efforts. The College authorities are doing some work toward keeping the campus clean. Revive the spirit of Clean-up day, and keep on cooperating with them.

* * * *

219 SAYS

We suggest the erection of bleachers at the Library so we can watch the Sunday parade in comfrt.

News item says, ''Man controls the air''. Funny how he often gets it given to him by some member of the fair sex.

Have you noticed the change in the title of the boarding club?

A co-ed at the drug store got excited when a faculty member came in and overturned a glass of coco-cola. Just another case of upsetting the dope.

When Miss Molly tells moonshiners where they can stroll, or rather where they can't, would you call her the ''Dictator of Roam''?

It is better to say something good about somebody bad, than something bad about somebody good.

PALACE THEATRE PROGRAM

THURSDAY, NOV. 16TH.
Owen Moore in LOVE IS AN AWFUL THING.
FRIDAY, NOV. 17TH.
Miriam Cooper and George Walsh in THE SERENADE. Also Educational Comedy, STEP THIS WAY.
SATURDAY, NOV. 18TH.
Buck Jones in PARDON MY NERVE. Also ''In The Days of Buffalo Bill.''
MONDAY AND TUESDAY, NOVEMBER 20TH. and 21ST.
Bebe Daniels in PINK GODS. Kinogram News.
WEDNESDAY, NOV. 22ND.
John M. Stahl Production THE SONG OF LIFE. Also Larry Semon In 'The Bakery'.
THURSDAY, NOV. 23RD.
BURNING SANDS with Wanda Hawley and Milton Sills. Also Educational Comedy, 'Kiss and Make Up.'

The opinion of a child on anything is usually honest, if it is not profound.

The man who works all day has no reason to envy the one who gambles all night.

Clarabel Smith spent the week-end at Concord.

Mr. Gene Stanbery went home to see his mother and friends at Newport, and incidentally to get something to eat.

Mr. Leslie Poe went home Friday and motored back to Maryville. Reckon he had a good time?

Mr. Bill Arnold also had a good time with his mother (?) at Cleveland last Saturday and Sunday.

Miss Nancy Sterling of Knoxville was the week-end guest of Miss Georgia Belle Kuhn.

SPARKS

Many a man thinks he is doing well if he has enough religion to meet his needs on Sunday.

Any man may find fault, and if he goes around looking for trouble, he will find that also.

Nobody gets very enthusiastic over telling the truth when he is sure it will hurt him.

It sometimes surprises a man to learn how quickly his neighbors find him out.

PERSONALS

Adra Denton, Thyra Dowing, and Louis Rogers spent the week-end in Soddy, Tenn.

Juanita Whaley was with her roommate, Ella Manely, in Knoxville from Friday until Tuesday.

Bertha Williams and Mary Helen Doisey took advantage of the holiday to visit their home in Huntsville, Tenn.

Thelma Whitted was with her parents in Asheville, N. C. last week-end.

Mary Helen Crowder has pust spent a few days in her home at Kingston, Tenn.

Helen Browning has recently visited her parents in Knoxville.

Thelma Zumstein and Madge Ott recently visited in Wartburg, Tenn. together.

Maude Calloway was in Mt. Olive, Tenn. over the week-end.

Minnie Hundley visited Pauline Ralston last Friday at her home in Topoka, N. C.

Pauline Burns has spent a few days in Hickory, N. C. recently.

Last Monday, Marianna Ilasz and Ethel Swindler were in Knoxville.

Denna Reeves was in Greenback, Tenn. over the last week-end.

Lucile Frondren and Genyth Starnes were with Lucile Heiskell at her home in Sweetwater, Tenn. from Saturday until Tuesday.

Lissie Wiggins was at Sweetwater, Tenn. over the week-end.

Ellen Cox and Irene Sharp were in Seymoru, Tenn. recently.

Pearl Tweed was in the home of Mr. J. L. Tweed in Maryville during the last week-end. Her roommate, Estelle Wynn was in La Follette.

Louis McCulloch has been on a visit to Gaston, Alabama recently.

Jessie Jackson took advantage of the holiday to visit in Oneida, Tenn.

We are all very sorry to learn that Marie Armer is now confined to the hospital, and we hope that she will soon be able to attend her classes.

E. W. Hunter, popularly known as Van Hunter, is back on the Hill again. Certainly it seems natural to see Van once again. Mr. Hunter has been doing work in Georgetown University at Washington, D. C. during his absence from Maryville.

Messrs. T. J. Marler, V. C. McClung, H. R. and Dwight Arnold enjoyed a motor trip to Cleveland, Tennessee over the week-end. A pleasant trip was reported.

Margaret Graham spent last week-end with her home folks at New Market, Tenn.

Martha May Boyer celebrated Armistice Day in Asheville, N. C.

J. Lynn McClung was the week-end guest of Mrs. Tom R. Love of Knoxville.

Miss Mary McSpadden's suitcase spent the week-end in the check room at the Southern Depot

Miss Belle Hedrick has announced that she is trying out for center in basket ball.

Misses Maude and Kathleen Bailey and Madge Kellar spent a pleasant week-end at their home in Baileytown.

For Candies

Have You Thought About Christmas Presents Yet ?

If you haven't, better get a wiggle on you, only four more real school weeks until vacation And of course you want the choicest presents don't you?

We are advisingy ou to come up to our big Jewelry Store and look over all the new things that are arriving daily. If you come early there will be lots more things from which to choose.

And boys, you who are regular moonshiners and regular sports, give her the best this year—Of course we have it.

Girls, the fellows are pretty good sports aren't they. Don't you think they need something real nice for Christmas.—We would be delighted to suggest.

YOUR JONAH !

All College stuednts have things that worry them. Likely Freshmen are bothered a little with Chemistry; Sophomores with Systematic Discourse; Juniors with Required Languages, and Seniors with Theism.

But one "Jonah" common to all is that one which stumps us when we start thinkig about buying new clothes.

So we want to say that our Store has swallowed this "Jonah" for you. To prove this we are extending each student an invitation to give our big Department Store the "once over" and see for yourself.

MAIN STREET

JOKES

I've been a good fellow, boys;
I earned all I spent,
I paid all I borrowed,
I lost all I lent,
I loved a woman once,
That came to an end;
Get a dog, boys,
He's always your friend.

HOW'S THIS ON PANTS

Pants are made for men and not for women. Women are made for men and not for pants. When a man pants for a woman and a woman pants for a man, that makes a pair of pants. Even a dog pants. Pants are like molasses. They are thinner in hot weather and thicker in cold. There has been much discussion as to whether pants are singular or plural. Seems to us that when men wear pants it is plural and when they don't wear pants it is singular. If you want to make pants last, make the coat first.—Richmond Collegian.

She struggled with her algebra;
He said he'd undertake
To show her some equations,
But his offer was a fake,
He slipped his arm around her,
"X equals this", he cried,
And when her lips were free again,
"Square X", she softly sighed.

IN HISTORY CLASS

Prof. Mintier: "Twenty years from now you won't remember much of this history, but what will you remember?"

Fair Co-ed: "The teacher!"

ALUMNI NOTES

Percy Buchanan, '22, and Mrs. Percy, formerly Clara Browning, announce the arrival of little Miss June Buchanan at their new abode in Richmond. Mr. Buchanan is a student in the Theological Seminary in Richmond.

Mildred Campbell, '20, is spending the year in study at Columbia University.

Friends of J. Evans Ensign, '15 will be interested to know of his recent marriage. The communication from which this news was gleaned gave no particulars as to the time of the event or as to the name of Mrs. Ensign. Alumni join in congratulations. Mr. Ensign is at present employed with the Louisville and Nashville Railroad.

Former Professor Arthur F. Southwick is doing chautauqua lecturing with the Swarthmore Chautauqua in addition to his work with the Presbyterian Board of Temperance and Moral Welfare.

William Magill and Charles N. Sharp of last year's class are both first year students at Prniceton Seminary.

G. Oscar Robinson, '16, and wife, formerly Miss Hazel Conrad, have sailed for Siam where they are to enter upon missionary work.

Announcements have been received of the marriage of Elizabeth Amy Henry, '18, to Walter Robert Murphy. The wedding took place in New York City on October 10th.

The Birmingham *Age-Herald* for October 20, contains a very interesting account of a tenth anniversary reception tendered by the congregation of the Firth Avenue Presbyterian Church of that city to its pastor, Dr. J. M. Broady. Dr. Broady, who has three times led our February Meetings, has been pastor of this church for ten years.

In regard to Dr. Broady's work the Age-Herald has this to say: "Actual statistics show that when the Doctor came to Birmingham in 1912, the Sunday School enrollment was 291. Now the enrollment is 550. The church's membership upon the pastor's arrival was 314. The minister since his pastorate began, has received about 800 into the church. Besides this a lot has been bought and the congregation expects to build a new church before many seasons have passed."

The latest recruit to the order of the Sons and Daughters of Alumni is Master Paul Rowland Kithcart, of Maryville. His father is Mr. Paul Kithcart, a former student, and his mother was Miss Minnie Rowland, '14.

Alumni will be particularly welcome to the Hill on November 25, the day of the last home foot ball game of the season. The opposition is to be furnished by Cumberland University. Last year a large number of out-of-town alumni and former students came back for the Chattanooga game on Thanksgiving Day. Wouldn't the day of the last home game make a good annual home-coming day?

O. R. Post, '07, who has been for a number of years Professor of English at King College, Bristol, is chairman of the faculty committee on athletics at King College under whose administration King is having her spectacularly successful foot ball season.

New Providence Sabbath School on its rally day, October 29, reached the record attendance mark of 926. The school is being most efficiently administered under the superintendency of Professor L. E. Bond, '15.

(Continued from page one)

dinner. Among the speakers was President Harris of Cumberland. Quite recently President Harris spoke to the student body of Maryville and is very pleasantly remembered.

A Radio Club has been organized at Cumberland. The necessary instruments have been secured and the members of the club will have an opportunity to engage in radio research work.

EVANSVILLE COLLEGE

Evansville College has just perfected the organization of its Oratory and Debate Council. It is interesting to note that Dr. Bassett, a Maryville Alumnus and Professor is the faculty advisor of the council.

The college publication of Evansville College is ''The Crescent'' which has been published only three years. The present editor of ''The Crescent'' is a young lady. She has the honor of being the first woman editor of the college paper of Evansville.

ROANOKE COLLEGE

Roanoke College is conducting an increased endowment drive at the present time. In the interest of the drive the students themselves pledged $6,890.

For a game of the Roanoke foot ball team away from home a special wire was leased and the play was reported play by play. A blackboard was used to represent the gridiron and each foot of ground gained or lost during the game was indicated on the chart. (Not a bad idea is it?)

EMORY AND HENRY

Emory and Henry College has an organized civics club. This club is planning to do work of real service to the college and community during the college year. Already the details of the monthly meetings have been worked out. They are to include the consideration of various civic and economic issues. Plans are to be made for the civic betterment of Emory and Henry. Membership at present consists of four faculty members and twenty students.

The Social Service committee of the Y at Emory and Henry conducts classes for the study of social problems. These classes meet for thirty minutes each week on Thursday night. In all seven classes meet in the various halls. Texts used are: ''Christianizing the Community Life'', and ''What Is The Christian View of Work and Wealth-''

Former Maryville Man Given Honorable Mention

The following clipping comes the Emory and Henry College paper:

''H. F. Nace's Poem Entitled: ''We Wouldn't Be A'swappin' Taken For College Anthology''.

The College Office is in receipt of a letter from The Stratford Publishing Company of Boston, asking for the Home Address of Mr. Herbert F. Nace, Ex.-'24. This letter states that a poem written by Mr. Nace entitled ''WE WOULDN'T BE A'SWAPPIN'' has been accepted for honorable mention, and will be published in ''College Anthology'' for 1922.

Mr. Nace is remembered as consistent worker in the Literary Society while at Emory and Henry, as well as a student who took great interest in the English Courses, and all Literary contests. He was a member of the debating team that defeated Roanoke College here last fall, and was initiated into the Tau Kappa Alpha Fraternity later in the year. He held second place in the Hermesian Best Debater's Contest and won the Williams medal in Declamation at Commencement last June. His many friends at Emory and Henry congratulate him on the recognition of his writng by so noted a publication.

(The same might be said of Mr. Nace's career at Maryville that is said of him at Emory and Henry. While in Maryville Mr. Nace was active in College forensics. He was a brother of Mr. A. F. Nace who in his Freshman year served as captain of the team debating Tusculum. Mr. Nace's Maryville friends join with those of Emory and Henry in congratulating him for this success.)

WORK ON CHILHOWEAN PROGRESSES NICELY

(Continued from page one)

page is not to be easily won—but you can get it if you try.

Then how many times have we heard the complaint, ''There ought to be a feature section''? Well listen, you people that want one, there is going to be one in the 1923 Chilhowean and what is more, it is going to be the distinct feature of the book.

Now every student of the College really must plan on having an annual for his very own, for you see every student is to help make it, and in order that the sale of the book may be large, the price has been returned to its pre-war basis. In this case, the reduced cost of the annual will by no means indicate a reduction in its quality, but it will rather evidence a better quality and a larger sale.

Now if you approve of these plans, get busy. Arrange your club pages, have your own picture taken, and remember that you make the College and that the Chilhowean needs your picture as well as the picture of the man who has been on umpty ump committees.

THE PROMISES OF GOD

The topic for discussion at Senior Y. W. C. A. last Sunday was ''The Rainbow Promise''. It was well handled by Miss Pearl Tweed. The Scripture lesson consisted of the reading of several promises and their fulfillment. After a discussion by the leader, the opportuniy was given for each girl to quote a promise that has helped her. The response showed how truly every girl relies on the promises of God for help, both in time of trouble and everyday activities. As the rainbow served as a token to Noah, as the pillars of cloud and fire served as tokens for the children of Israel, so we have a sure token of the fulfillment of God's promises—the Holy Spirit, ever present and ever-guiding.

Listen, Junior Y. W. C. A. girls! When you start walking Sunday afternoon, follow the arrows to Thaw Hall and you'll not be sorry you did!

Hurtha, Huberta, and Hildegarde—the girl who had no use for Y. W., the girl who was indifferent and as easily influenced for the bad as for the good, and the girl who everyboyd's friend and a loyal member of Y. W. So they were in their college days. What would they be ten years later?

Hurtha, divorced and planning to enter the pictures for relief from her worries; Huberta still indifferent and easily swayed, having trouble in keeping her position as teacher; Hildegarde, a successful and respected professional woman and a happy wife and mother. So had their characters developed in ten years time.

This was the plot of the little play, ''The Three Weavers''. which was presented in Junior Y. W., Sunday afternoon. For a prologue, Miss Robinson read the story of the same name, from which the play was taken. Other pleasing features of the program were the violin solo by Miss Blair and the vocal solo by Miss Biles. This was just one of the many pleasing, interesting and worthwhile programs that Y. W. presents every Sunday. Let's not miss a one.

Partee's Girl (To mother):—Mother, I can read Partee's mind like a book.

Mother: You choose very poor reading matter.

BASKETBALL PRACTICE GETS UNDER WAY

(Continued from page one)

Basket Ball Team. Much of the material looks very promising. Several old letter girls are back, and there is an abundance of speed and real basket ball ability among the Freshmen. Coach Bond expects to pick his Varsity squad about Friday, consequently there is much keen competition among the fair sex for a position in that select circle of feminine athletes. Mr. Bond is greatly pleased with the good early sesaon showing that the co-eds are making.

The prospects for a winning team are excellent. There has not been nearly so much good material in a long time. Candidates for the forward positions greatly out-number the rest, although there is plenty of competition among the guards. The number of centers is lacking somewhat as to quantity, but not as to quality, two former varsity girls, Misses Lloyd and Robinson, being among the contenders for the court rover. Some of last year's varsity girls whose ability is known are: Lucile Heiskell, Margaret McKinney, Maude and Kathleen Bailey, Georgia Belle Kuhn, Grace Brown, guards; Thelma Adair, Mary McSpadden, Elizabeth Montgomery, Lois Painter, Eva Morelock, guards; and Mary Robison and Marjorie Lloyd, centers. As there have been no scrimmages yet, the real ability of the new girls is still a matter of conjecture. Among those showing promise of extraordinary ability are M. Doyle, L. Dorough and M. Jones.

ATHENIAN JOINT MEETING

To Present Ham-bones Meditation.

Next Saturdy night the Junior and Senior sections of the Athenian Literary Society will meet together in Senior Athenian Hall. Hambones, a genuine Southern darkey will be present with us for a short time. Come and share his exhaustless store of wit.

The Japanese question will be debated by able debaters of both societies. This is one of the men's preliminary questions and ought to be of interest to all those going out for debate.

If you haven't a society home come and visit us next Saturday.

Only 23 More School Days Till Christmas

And it is about time you were doing some thinking.

Necessarily nearly all your Christmas Shopping will have to be done in Maryville. For many students will not reach home in time to make choice selections.

Our new Christmas Jewelry is arriving daily—And honest we can't do it full credit by describing it in this ad. So we want you to come over and see for yourself.

If you haven't fully decided just what you want don't worry. It is more than likely that we have the thing you desire.—But why say more—we are expecting you to call.

If you are well bred——

If you are well bred you will observe certain rules of etiquette pertaining to the comfort and pleasure of your neighbors and not simply apologize for failure to do so.

We know a man who is laways saying "excuse me". He thinks that good manners are principally composed of apologies. If you are well bred you won't have to apologize often.

We don't ask you to "excuse us" from our obligation to give service and courtesy and to sell dependable merchandise.

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME EIGHT | MARYVILLE, TENNESSEE NOVEMBER 17, 1922 | NUMBER NINE

HIGHLANDERS DEFEAT WASPS 35-6

Playing of Maryville Eleven Superior To That Of Emory And Henry.

New Line-Up Used Against Emory And Henry Smoothly Working Machine.

On a somewhat slow field last Friday afternoon Emory and Henry bowed to the superior playing of the Maryville eleven.

Coach Honaker used somewhat a new line-up against the ''Wasps'', and it proved to be a smooth working machine.

Captain Sullinger at half back smashed the line for good gains. His work as defensive half, intercepting passes and breaking up plays was discouraging to Emory and Henry.

Hamilton at full showed the making of a good full back. His line plunges usually netted several yards and his punting was far superior to that of his opponents.

Riskey was started at end and his work was very effective. He was able to break up run, around his end, go down on punts, and pick an opening in which to receive a forward pass.

Crawford played a good part of the game at tackle, his work was very pleasing to the coach. ''Bob'' King took a wing position in the second half, and made several spectacular plays.

The other men playing their regular positions played the best game of the season.

Thrower, the mainstay of the line, played his usual stellar game in opening holes for the backs and charging through the opposing line and throwing his opponents for a loss.

Musick at one wing position was a deadly tackler. He made a beautiful return of a kick off, bringing it back about 35 yards.

Partee holding down a half back position, on several occasions, took the ''pig skin'' through tackle or around end for long gains.

McMurray generaled the team in great order, although playing straight foot ball he managed to pull some good plays.

The passing of Clemens at center was accurate and his work on the defense was good.

The work of Proffitt, Bowles and Rice is worth mentioning. In fact the whole team played a good game and out-classed their apponents in every point of the game.

The ''Wasps'' although outweighed several pounds and outclassed fought throughout the game.

The feature of the game was a sixty yard run for a touchdown by an Emory and Henry back, after intercepting a forward apss.

The touchdowns were made in the following order:

Maryville received and marched straight down the field to the eight yard line and Hamilton carried the ball over for the first touchdown. Hamilton kicked goal.

Emory and Henry got off a bad kick-off to Proffitt. Two line plunges gave us first down, then a pass McMurray to Riskey who ran 30 yards for a touchdown accounted for our second score. Hamilton failed to make the extra point.

Maryville again received and after an exchange of punts Maryville was soon near the ''Wasp's'' goal and McMurray sneaked through center for a touchdown. Sullinger

(Continued on page four)

SCRUBS ARE VICTIMS TO U. T. RATS

Lady Luck Decidedly Against Second String Men.

Crawford and Jimmie King Do Good Work.

On Monday afertnoon at 2:30 a U. T. foot ball team made, for the first time in several years, an appearance on the Maryville grid, when the Vol Rats engaged the Maryville Second String Men. In the hectic battle that followed, the rats emerged from the fray with 32 points tucked securely under their arms, and the scrubs crawled out from the under side with a half dozen markers in their possession.

Although the scrubs fared badly in the wild scramble for points, they put up a game fight and protested every inch of territory annexed by the Rats. The tale of their defeat was largely the same as their defeat by the Varsity, namely inconsistancy. U. T. made every one of their five touchdowns as a result of so called breaks. The Rats blocked two punts both on the goal line. The Scrubs made one short kick. It was from behind the goal line, rolling off the side of Riskey's foot and going into the arms of a Tennessee back on the other side of the field, who carried it across for a touchdown.

The Rats appropriated seven points on the first two plays. They kicked off to Ellis who returned to 30 yard line. A pass over the full back's head lost 22 yards. Parke was called back to punt out, but another erratic pass made him fumble. A Rat end fell on it for a touchdown.

Maryville made their touchdown soon after. The Rats kicked off. Maryville gained on an exchange of punts. Joe Gamble heaved a pass to Ellis who was downed in his tracks on the 23 yard line. The back field men weren't able to advance the pig skin any farther and Joe Gamble tried a place kick which went wild. U. T. punted to the middle of the field. Five running plays and a pass to Parke counted a touchdown. The pass from center was bad and the scrubs failed at goal.

The Rats had a streak of luck in the second quarter. Gamble kicked over the goal line for a touch back. The Rats made three yards and punted out. The ball got away from Jimmie King and rolled to the one yard line before it was recovered. Parke attempted to kick out but the kick was blocked. Bob King recovered and started down the field, but the referee for some unknown reason declared the ball to Tennessee. They took it over on the next play.

The Rats earned their next touchdown. Taking a punt on their own 40 yard line, they advanced it twenty yards on two plays. A couple of forward passes put over the touchdown. U. T. kicked off to Joe who returned ten yards to the 20 yard line. The Scrubs advanced the ball sixty yards in a half dozen plays and prospects for a touchdown were bright when a Rat back field man intercepted a forward pass and ran eighty yards for touchdown.

The Scrubs and Rats played to a standstill in the third quarter. In the fourth quarter a Tennessee forward blocked an attempted pass on his own forty yard line and carried the pig skin to the 4 yard line before Jimmie King caught him.

(Continued on page four)

SENIORS HAVE TACKEY PARTY

The Hilarity of Dignified Seniors Borders On Boisterousness Last Wednesday Evening.

Somebody done gone
And expounded that
Them one-horned,
Double-barreled,
Stuck-up,
Dignified, Seniors
Went and had
What they chosed to christen
A tacky party.
Tacky, or tackie,
It makes no diff
Since any of those birds
Would have knocked you stiff.
The poor bums
From box cars booted
Had a regular ball
On the second floor
Of Bartlett Hall
As many dignitaries have hooted.
Big ones,
Little ones,
cornfed and all,
Were there and about,
Moment in and moment out,
Until our referees
They did call,
''Get home, you tramps,
One and all.''
And home they got
With a weary trot
But with a memory keen
And a feeling gay
For that was the best time ever
For many a day.
Grand Mogul Johnstone
In his cutaway fine
Did direct
The frisky march
Of the many kind,
Who strutted their stuff
And never said enuff
Till the call of eats
Stopped the tramp of feet
And the hungry lot
Naturally asked,
''Who commands the pot?''
That night,
My, my, what a sight!
Nuts eating nuts
And talking to nuts
As the frost bites awaited
Their turn for the fate
Which they had never earned,
And that stick of candy
So colored and gay
Acted as a Roman
And went down ''the way''
Which the goobers
And candy sadly trod,
And the tacky guys
Heard nary a sob.
And that signal
Of the referee's
Mentioned above,
Gave all the rounders
A chill
As they forward marched
For a final review
Before the kings and queens
Two and two,
And these dignitaries
Had to sneeze and sob
As they beheld
Such wretches above the sod.
But not for long
Did they waste their tears
For the chilly night air
Soon drowned their fears
And the tacky Seniors
Homeward went,
Not once regretting
The night they had spent
At the Ball
Of the tramps
And the crooked and bents
For their motto is,
Oh my eye!
''Early to bed
And early to rise
And you never meet
The regular guys.''

EUROPEAN LECTURE COMES MONDAY

Young Australian Soldier-Poet Bringing First-hand Information From Recent Trip Through Europe.

Tom Skeyhill, Australian soldier-poet who is to lecture here on the subject of ''Europe of 1923'', as the next number of the local Lyceum course on the evening of November 27 at Voorhees Chapel at 8 p. m. is only twenty-six years of age, yet he has spoken on the platform with ex-presidents Roosevelt and Taft, and before ex-president Wilson.

On the third anniversary of the sinking of the Lusitania, he spoke in Carnegie Hall, New York, with Theodre Roosevelt. At the conclusion of his address, Col. Roosevelt rushed across to him, and said: ''You have the best story that has come out of the war, and I am prouder to be on the stage with you than any other man I know.'' On one memorable occasion the young poet spoke before President Wilson on Fifth Avenue, New York. A tremendous audience was present and at the conclusion of his address, the president stood up and saluted him.

The Cleveland Plain Dealer named him ''The Most effective war speaker in America'', the Cincinnati Enquirer referred to him as ''The silver tongued master of eloquence''. The Literary Digest, in a page article, called him ''A Knight of the Holy Grail, a young crusader and a man well worth reading about.'' The New York times said he is ''An eloquent Speaker who thrills his audience'', and the New York Globe refers to him as ''The Greatest inspiration''.

A year ago last December Mr. Skeyhill went to Russia to find out for his satisfaction the truth about the Russian situation. He was unable to get a passport from the Soviet ambassador Martins, and so he made the trip without one, stealing across the border near Riga. He visited the main cities of Russia, studied especially the peasant and working class, interviewed some of the big men of Russia, and managed to get out alive after being robbed of all his possessions as he was recrossing the border. He has a wonderfully interesting story of Russian conditions. The last summer he spent three months in Europe, ''fact-hunting'' for his lecture which will be given here, combining his Russian knowledge with his views of present-day Europe, under the subject ''Europe of 1923''.

INTER-CLASS BASKET BALL TOURNAMENT

The class basket ball tuornament is to be held December 2, and 4. The arrangement and playing is to be practically the same as last year. There will be six teams, four college, and two preparatory, contesting for the championship. The teams winning will play each other and the team losing will play each other. Then the winner of the winners will play the winner of the losers, and so on till the championship is obtained.

The work is under the auspices of the Y.The Y is to be praised for the work it is doing in encouraging inter-class athletic events.

NOTED EVANGELIST TO BE AT CHRISTIAN CHURCH

Gilbert E. Chandler, Australian evangelist, will preach at the Christian Church next Lord's Day. Mr. Chandler is an evangelist of note, having had as many as 330 additions in one meeting.

CO-ED DEBATERS ARE SELECTED

Debates and Teams Are Already Arranged.

Prelims Show Much Strong Debate Material.

The College Girls' Debate Preliminary, held on Monday and Tuesday, was of a very high order. Never in the history of debate on the Hill have so many of the original entrants actually spoken in the preliminary. Twenty-six girls participated. Fourteen of them, ten principals and four alternates, were chosen to make up the teams for the coming year.

This year's schedule includes two dual debates for the girls. In addition to the traditional battle royal with Tusculum's fair contneders, the schedule calls for a dual clash with the co-eds of Elon College.

The Tusculum debate is dated for March 12 on the question, Resolved, That the United States should join the league of Nations. According to the Coach's announcement made Thursday noon the affirmative team for Maryville debating at Tusculum will be: Martha May Boyer, captain; Alice Johnson, and Alice Robison, with J. Lynn McClung as alternate. At home, our negative team will be: Florence Whitfield, captain; Percia Johnson, and Geneva McDonald, with Myrtle Ardis as alternate.

The debate with Elon will occur on April 3. The question is: Resolved, That an educational qualification should be required of all voters in national and state elections. The team which will represent Maryville at Elon, debating the affirmatice, is Ethel DeHaven, captain, and Virginia Paulsell, with Annarine Atkins as alternate. The negative for Maryville will be upheld on our own floor by Lina Hodges, captain, and Ruth Allen, with Ruth Gamble as alternate.

The students will back these teams, proud of the past record of Maryville's co-ed debaters, confident in the splendid promise of this year's teams, and ambitious for victory in this expanded program of girls' forensics.

FIRST MEN'S PRELIMARY DISCONTINUED

The Men's Forensic League has adopted a new policy this year in the conducting of its preliminaries for the selection of men for the intercollegiate teams. There will be only one preliminary instead of the two as heretofore. This contest will be held in about a month. Questions have been selected; and the men competing have drawn their places.

The questions selected were: Philippine independence, government ownership of coal mines, and responsible cabinet system of government. Fifteen veteran and twenty-seven new men are trying for places on the debate teams. From this number a group of strong debaters can be selected to represent Maryville in forensics.

CAMPUS BULLETIN

November 24, Friday—Maryville vs. Cumerbland.

Nov. 25, Saturday— Seniors vs. Juniors. Literary Societies.

Nov. 27, Monday— Lyceum lecture, Tom Skeyhill.

Nov. 30, Thursday—Maryville vs. King College. Thanksgiving holiday.

Patronize Those Who Advertise. They Make The Paper Possible.

The Echo solicits news items, comments, and expressions of opinion from the students, and from interested alumni.

Cumberland game fails to come off as scheduled. Cumberland Team Does not come.

* * * *

Lives of editors all remind us,
We can't make our lives sublime.
We have to beg like (?.?)
To get our copy in on time.

* * * *

Reports are that the Senior ''tacky party'' was the most successful of the year. Does that cast any reflection on the Senior class?

* * * *

Did you ever try making out a list of things you should be thankful for? The length of it will surprise you. How about trying it this Thanksgiving.

* * * *

There are rumors that the Senior Prep Class is going to present a class play soon. Maryville's preparatory department is an asset to the College. We are behind you Preps.

* * * *

Speaking of back numbers, there are some in Maryville. Just go to Vespers any Sunday evening, and look at the back seats of the chapel. There you will see plenty of back numbers.

* * * *

It is true that today's game is the last foot ball game on the home grid. But that is no reason for letting your pep go dead. Remember that the team meets King College on Thanksgiving. So keep the old pep up.

* * * *

The visible results of the teams pledge not to shave seem to be the defeat of Emory and Henry, and a specially fine crop of misplaced eyebrows on the faces of some of the players.

* * * *

The preliminaries for the girls' debate team showed much excellent forensic ability among the co-eds Here is hoping that they have a successful season.

* * * *

We wonder if there are not two kinds of criticism a destructive and a constructive.

* * * *

The pep meeting of Thursday evening was an excellent one. The program given was the best planned and conducted program of any given this year. That Pep Committee can do things! We hope that it keeps the same pep so much in evidence Thursday not only till after the Cumberland, and King College games, but throughout the entire year. If the students and this committee cooperate the problem of support for Maryville teams is solved. The Echo is ready to give the Committee full publicity for all of its plans at any time.

* * * *

THE SENIORS

The boast of the Senior Class that they are the most important class may be true, perhaps it is. At least we are open to conviction. But if we are to be convinced of the importance of the Seniors by the volume of news about them, that volume must be increased. Some college papers have a column in each issue conducted by a Senior and devoted exclusively to the Senior Class. Any time that the Senior Class will turn in the necessary copy for such a column the Echo will be glad to have the chronicles of your class from week to week. Will you cooperate with us in getting them published?

SPECIAL EDITIONS?

The volume of news during the fall has been such as to exclude the possibility of special editions of the Echo. However, such special editions are possible after the holidays. We would especially like to see a special edition put out by the Freshman Class, the Senior Class, the Co-Eds, and perhaps other like editions. Any time that the Seniors, Freshmen, or Co-Eds will elect an editorial staff we will cooperate in every way possible in getting out a special edition. We will do all the proofing, and composing and if desirable furnish part of the news material.

Here is the chance of the Freshmen, and Co-Eds to have an issue of the Echo all their own. Let's have some good special editions.

CONCERNING CONTRIBUTIONS TO THE ECHO

In last week's editorials we spoke of the fact that very few students ever saw fit to take advantage of the opportunity to contribute news, articles, comments or other material of interest to the Echo. At least a few students seem to have noticed that editorial, because during the past week several articles were dropped in the Echo box. These items have interest in them. But we believe they are not the best that might have been contributed. In this week's Echo we are publishing as many of these as space, and censorship will allow.

We wish the student body would get the idea that the college paper is their paper, and that their contributions are going to make it either good or bad. If you have ideas worthy of appearing in your college paper it is your duty as well as your privilege to give the other students the benefit of those ideas. A column in the Echo where the students would freely discuss questions of interest and give constructive comments is the goal we have in view. To attain this goal we again invite any and all students to drop articles suitable for publication in The Highland Echo into the Echo box.

Our idea of the work of The Highland Echo is that is should serve as a faithful record of the news of the Hill, and an open forum for student contributions. The editorial staff is trying to make the record of the college news as attractive and interesting as possible. And an open box is provided for student contributions.

THANKSGIVING A YARDSTICK

The sacrament of turkey and cranberry sauce can not be offered as a hostage to patriotism. Nor can a shave and a clean shirt be counted as a Sabbath observance.

Thanksgiving is one of a series of yardsticks by which a man can take his own measure. He can take it in a moment of time. It is a mental operation. Let a man carefully observe how his mind reacts to the spirit of Thanksgiving and he will get a valuable introduction to the psychology of patriotism.

Our reaction to the spirit of Thanksgiving is an acid test of the metal that is in us. It is one of the ways of distinguishing men from mere human junk.

—Dr. Alexander Irvine in November Association Men

The Candy Kitchen—

ALL FOR THETA!

We girls, all,—old and new Thetas—met in Theta Hall just after supper Monday night. The meeting opened and we were led in prayer by Catherine Wilson.

The business of the evening was disposed of and several names presented for membership. The new members signed the pledge after it had been read to them while the old Thetas stood and sang the Theta song.

The program was an extemporaneous one. Sarah Kiskadden sang ''For You'' a beautiful song which showed us the beauty and sweetness of her voice. It is enough to say that she sang as only Sarah can sing, all who have ever heard her know the meaning of that sentence.

''Keeping a Seat at the Benefit Program'', a humorous monologue was read by Ethel Doren. We all know Ethel's ability and we certainly enjoyed her reading as we thought of those long ago, unchaperoned days when we entered a movie and tried to save a seat ''for a friend.''

A bowl was passed to the Theta members and each girl drew a slip of paper on which she read her doom. To be more truthful—these slips of paper held a message for each girl, they told her what she should do. Extraordinary ability, wit and originality were disclosed as each girl ''did her do''. We are mighty proud of our New Thetas.

The meeting closed with the Theta motto.

All out next Saturday night, girls! We're going to have a play and you can just bet it is going to be good!

BAINONIAN

There is no better indication of the work and loyalty toward Bainonian than was shown last Saturday evening by the crowded, overflowing hall. There is no better indication of the worth of the society than was shown in the character and quality of the program. It consisted of a piano solo by Beatrice McGuire, a vocal solo by Mary Elizabeth Clements, and a play, ''The Rescue''. The characters were Katherine Franklin, Ruth Allen, and Alberta Frow. Further of the excellence of such a program may be obtained only by attendance at the next one.

Several names of new girls desiring membership were presented and many girls took the oath of membership. Truly, all old Bainonians join with the new ones in saying—I will be loyal and faithful.

ATHENIAN PRESENTS VARIED PROGRAM

Scenes From Campus Life Next Saturday.

Last Saturday evening, Charles Ellis entertained a joint meeting of the Athenian Societies with a delightful reading. Then the debaters Neff, Brooks, Cole, and Buchanan waxed eloquent on the question of Japanese immigration. The decision of the judges favored Mr. Cole and Br. Buchanan of the negative.

The Ham-bone, Tom Kent, arrived on the scene and fully justified the expectations of the seventy odd men present with the negro humor.

Critics' reports are becoming one of the best and most instructive parts of our programs. From them we get friendly criticism of our faults by men who know literary work from the bottom up. Herrick's report last Saturday was one of the best we have had.

ALPHA SIGMA

In spite of several other diversions a number of loyal Alpha Sigmas met Saturday evening and a helpful program was given. Francis Kinsler started things with a talk on ''These Days''. Kinsler is a man who keeps his eyes open and showed us the results of his observances. Pritchard the remarkable man with a big voice or rather the big man with a remarkable voice gave us a solo. Dr. McMurray then gave us the second lecture on Parliamentary Law.

There is a Faculty Member—

Who always adds this sentence to announcements—''Come and bring a friend.'' Sounds a little funny but why not?—Friends mean much to us.

It is drawing near to the time when we will be giving our friends something to show them just how much we care for them—fact of the matter we can almost feel the approach of Christmas in the atmosphere.

So we want to announce the arrival of the choicest selections in the way of presents. There are the very best to be had and we are sure you will find just the thing you want at our store.

''Come and bring a friend''.

Y. M. C. A.

Sunday afternoon those who attended Y were carried on a long journey. We went to Siam, the land of the White Elephant and never ending summer. We went out to this land of the Far East not once but several times and on each trip covering a different route. The missionary is given the choice of almost any route in going to and from this country. We went from Maryville to Chicago and up through Canada to Vancouver, British Columbia and then sailed to the Orient via Japan and China. We returned by way of India, Arabia thru the Suez Canal out through the Mediterannean Sea, stopping at Naples then out by Gibraltar and back to New York, and then to Maryville.

Professor Jones carried us on this trip around the world. Although a missionary to Siam for nearly twenty years he has been able to see not only these points of interest in the old world, but also by taking a different route each time on going to and from Siam he has seen a greater part of the United States. It was this travel benefit especially that he told us about. While this does not enter into the chosing of missionary work, still it is one of the attractions.

In Siam there is some kind of fruit in season all the year round. Located just above the equator with about the same latitude as southern Mexico it is truly the land of never ending summer.

Mr. Post, who is in Maryville now on his furlough gave a statement of the needs of Siam today. The need today for missionaries is greater in proportion to the population than any other mission land in the world. At present Maryville has a record of sending eight graduates to this field.

THE LITTLE RED DEVIL

Theta Hall was crowded last Sunday afternoon for the Senior Y. W. C. A. meeting. Lucile Denny had charge of the discussion, the topic being "The Little Red Devil". The Scripture reading, from James, showed the use and misuse of the "little member". Several ways in which the tongue should not be used were mentioned and discussed. Among these topics were: sarcasm, slander, uncontrolled temper, destructive criticism, and slang. Several ways in which the tongue should be used were then mentioned and discussed. Chief among these, of course, were stressed the kind, thoughtful, friendly words which the tongue should love to speak. How much better to have a little angel in the mouth than a little red devil!

The special feature of the meeting was a vocal solo by Ruth Gamble. It goes, without saying, that this was beauitfully rendered and truly appreciated.

JR. Y. W. C. A. ARROW MEETING

This meeting was indeed an interesting and a helpful one. Several girls who spoke brought out to us our individual influence upon each other. Among these girls were Evelyn Fitts who talked on "bad influence"; "The Girl who leads her own life", by Marian Stubblebine, Christine Rockett spoke on "Good Influence." Agnes Houghton rendered us a beautiful solo. We all enjoyed this meeting and were very sorry that all the girls on College Hill were not present. Please come out next Sunday.

WHAT IS THE Y DOING?

In answer to this question only a few things will be mentioned and only one or two comments made.

There may be no outstanding thing to command the attention of all but there is working away silently and effectively a group of fellows who have cooperated with the Red Cross as best they could and have endeavored to make known the full benefits of Y-Membership.

The Sunday afternoon programs are attractive and helpful and the Y-member who misses them is the loser for Cornelius *does do* when it comes to arranging programs.

There are numbers from our group, outside of Cabinet mostly, who have been working from Sunday to Sunday in and around Maryville in Sabbath Schools and in Churches; preaching, teaching classes, singing and rendering helpful service to many. The Jail services every Sunday are in themselves a great undertaking and the men who hold these services do it in the proper spirit and the men who hear the messages ask for more.

This in brief is something of what the Y is doing, and if you know of anythng you would like for us to will you kindly notify the President or any other member of the Cabinet? We will appreciate anything you might bring to us in the way of helpful criticism.

HIGHLANDERS DEFEAT ''WASPS'' 35 TO 6

(Continued from page one)

failed to kick goal.

The last marker that came in a quarter came after Tubby intercepted a pass. Two passes were completed, an end run brought the ball to the 10 yard line and Sullinger went through for a touchdown.

Emory and Henry came back in the second half fighting hard. Twice they held and prevented Maryville from scoring when within striking distance of the goal. It was then that Hamilton dropped back to the thirty yard line and drop kicked, sending the oval between the posts for three more points.

The last touchdown was made by Sullinger after our line had forced the ''Wasps'' back down the field to the goal line.

Sullinger kicked goal.

Emory and Henry kicked off to Hamilton who returned 30 yards. A few plays brought the ball to Emory and Henry's 25 yard line and the game ended with M. C. in possession of the ball.

SCRUBS ARE VICTIMS TO U. T. RATS

(Continued from page one)

The Scrubs held them for downs. Riskey attempted to punt out but the ball rolled off the side of his foot for a meager ten yards about twenty yards to the side where a Rat half carried it back for the last touchdown. The try for a goal was a fizzle.

Sneed at quarter was the Rat's best. His work at all stages of the game was of the highest order, and the Scrubs defeat was very largely his fault. For Maryville both ends played a stellar brand of foot ball. Crawford's work as usual was of the highest order of excellence and the U. T. backs soon learned to avoid him as much as possible. Captain Jimmie furnished the thrills in the back field. His work on offense was especially excellent.

PERSONALS

''Doc'' Watkins used the past week-end for a shooting party. ''Doc'' reports that he is an expert marksman. To prove this he states that he brought in nine birds.

The local paper of a nearby town in telling of the visit of an M. C. boy to his home states that Mr. — ''drove'' his son back to College Monday. We wonder why the poor fellow had to be driven back.

As a result of an accident at the Aluminum Plant Mr. William Smyth suffered a seriously injured hand. Part of Mr. Smyth's fingers had to be amputated. The wound is healing well, and Smyth is able to continue his studies.

It might be a little more convenient for room-mates and the like if Baldwin Hall were moved over to the hospital. Marie Armor, Marian Stubblebine, and Susan Powell have been there recently. Marie Armor and Susan Powell are back at home again now, and we all hope that Marian Stubblebine will be able to be back at her classes and among her friends soon.

Mary McSpadden does not come to basket ball practice regularly. It is said that she is sure of her place on Varsity, but wants to be fair with her friends by giving them a chance.

Freshman, to Senior who is taking Logic: Prove that a cat has ten tails.

Senior: Can't be done.

Wise Freshman: Yes. You will agree with me that no cat has nine tails?, and that one cat has one more tail than no cat, therefore, one cat must have ten tails.

HERE'S THE LATEST

Fred Martin says that the bobbed hair rage is simply an aftermath of the flu epidemic.

219 SAYS

We'll have ice cream for dinner Sunday if the thermometer doesn't rise.

Somebody said that the M. C. students didn't cooperate. Just tell him to come around the night before our note books go in.

The human body contains 240 bones, but from some people's actions you'd think they had that many in their head.

Fairy Story: Once upon a time Miss Wheelock assigned an easy lesson.

This is real old hog killing weather. We know some folks who had better keep away from the farmers.

THE 219 CO-ED SAYS

These airplanes and boys disturb our peace of mind on Sundays. Just out with something in view.

The J. and T. said Ici Crawford ''played a whale of a game'' versus the U. T. Freshmen. Well that's the way to encounter fish.

A young ''Carnegian'' was invited to a dinner party, in his honor, when told he was to sit on the right hand f ohis host, he dropped in a dead faint.

Heard in Chapel

—''And I am so glad to look in your bright and shining faces.'' Sudden application of fifty-six powder puffs.

''It's all over now'', said the co-ed as she finished powdering her nose.

Next spring the young men's fancies will all be lightly turning to what we girls have been thinking about all winter.

We may be Theta Epsilon, Baincnian or class president, but our pals back home don't consider us much of a success unless we come home with a diamond.

ALMA MATER—REVISED

Verse One

Where Chilhowee's lofty mountains
Pierce the southern blue;
Proudly stands our dear old hash house
Full of greasy stew.

Chorus

Apple sauce and our old lady
At the boarding club;
Hail to thee our bread and water,
Hail to Pearsons' grub.

Verse Two

As the table crowned with hardware
Ever there appears;
So the same old menu lingers
Thru the coming years.

Verse Three

That old dinner bell calls the students;
Loudly does it ring;
Tho' we hope for something better,
We find the same old thing.

—Tex. S. Oylewell

Everything Comes to Him Who Waits

What is your idea of the meaning of this old saying? Do you get a mental picture of a man in a Morris chair waiting for a genii to bring him a fortune on a silver tray? Well, hardly.

You don't believe in that kind of waiting, do you?

Our idea of ''waiting'' was exemplified by a young fellow named White who played foot ball at Princeton a few years ago. White always waited for a fumble and when it came he grabbed the ball and made a touchdown. This boy ''waited'' for his chance at the rate of about 12 seconds flat. That is our idea of ''waiting'' for an opportunity.

We are ''waiting'' for your business by carrying the most complete line of merchandise in town, showing it in our windows, employing the best salespeople we can find and telling you about it in this paper.

Ellis-Proffitt Co.

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME EIGHT | MARYVILLE, TENNESSEE DECEMBER 1, 1922 | NUMBER TEN

Maryville Lost the King College Game But She Did Not Lose Her Pep

King College Game

Maryville Loses The Thanksgiving Game With King College 31 to 0.

King College pigskin warriors romped on Maryville's gridiron representatives yesterday to the tune of 31 to 0. The game was featured by long runs, especially by Sharpe. Both teams returned kick-offs for long distances. For Maryville Thrower and Dinwiddie in the line, and Sneed in the back field played spectacular ball.

King scored their first touchdown in short order. Hamilton kicked off 40 yards and King carried it back to 40 yards. Sharpe then went through the Maryville team for the first touchdown. They scored two more touchdowns the same quarter and things began to look like a slaughter. The quarter ended with the 19-0 in favor of King.

In the second quarter the Highlanders braced up and held the Bristolians scoreless. Both teams settled down to a kicking game. King tried in vain to puncture the Maryville line, but were more successful in the overhead game. Sharpe took a forty yard pass just before the half neded, with the score still 19-0.

Sharpe returned Ham's kick-off 60 yards. King plugged the line to Maryville's five-yard line. The Maryville team began to show signs of rejuvenation. The line held for the King boys for downs. A penalty put the ball in midfield. Sneed went over tackle for 30 yards. Tubby made ten more and the ball was on King's 10-yard line. But they lacked the necessary punch to push the pigskin into King's sanctum, and the ball went over on downs. King got off a measly kick out of bounds on the thirty yard line. Acton was good for ten yards. The Bristol boys strengthened and held for downs. Shorty Sneed made 15 yards. Tubby got loose for ten, and Shorty contributed another five. McMurray took a pass that added another ten yards. Maryville again becoming dangerous, but lady luck transferred her favor. Sharpe intercepted a pass and loped 80 yards for another score.

Maryville kicked to King. Both teams battled on even terms in midfield. Maryville took a punt on her own 30 yard line. Ham and Tubby advanced the pig leather ten yards per each. King held and Ham punted 40 yards.

Sharpe broke loose again and ran to 40 yard line before Shorty hauled him down on the ten yard line. From there they punched the line for the last touchdown.

King put up a splendid exhibition of foot ball. The whole team was an example of clock-like precision; with Sharpe contributing brilliant exhibitions of speed and broken-field running for the spectacular. The King College boys out-played the boys from Maryville in all but one department of the game—the kicking side and the scrapping side. The Blount County boys put up a brave scrap, and made King know they were in a foot ball game. They simply couldn't solve the King College offense, nor gain when a gain meant a score.

THE LAW CLUB

Wednesday night, November 22, a nice crowd of fellows met with the Law Club in their bi-weekly meeting, held in Athenian Hall. After the reading of the minutes of the last meeting a short, snappy program was delivered as follows:

Jokes, Mr. Robert Baldwin.

Report, "The Magna Charta", Mr. G. Baxter Williams.

The Election, Mr. Edward Cornelius.

The first number was made up of a number of witty stories about the legal profession, and was appreciated by all. Mr. Williams delivered his report in a clear and understandable manner. He is one of the new members and gives promise of being a great lawyer some day. In concluding the program Mr. Cornelius turned his number into an open discussion, which was characterized by Mr. Hardin's statement that "Democrats can do no wrong."

Mr. Moody, our program secretary, is preparing some excellent programs for the two remaining meetings before Christmas. If you don't belong to the Club, you are welcome to drop in.

STUDENT CONFERENCE

These and other questions will be discussed at a Conference held UNDER THE AUSPICES OF THE NATIONAL STUDENT FORUM during the Christmas vacation on December 26, 27, and 28th, in the vicinity of New York City. These questions center about two main topics:

1. Why is college what it is?
2. What are our responsibilities as students?

Why do you go to college?

Perental power, practical persuasion, or—?

What do you want to be like when you leave college or don't you care so long as you have a certain amount of useful information?

How is it that you can go to college when so many other men and women can't?

Are you taking somebody else's education away from him?

Do you owe anything to the uneducated?

Problem

If 130 credits=1 B. A.,+30 credits=1 M. A., + 70 credits=1 Ph. D., how many credits will=1 intelligent man?

Literary Societies

ATHENIAN

Saturday night floor space was at a premium in Senior Athenian Hall where the usual large attendance of Athenian awaited a program of pure fun. Once in awhile it seems good to get away from the more solid things of lige and spend a little time in laughter and relaxation. Such a time was last Saturday evening.

First music was rendered very acceptably by Mr. John Johnson. This was followetd by a scene in Professor Proffitt's office. The Dean certainly acted natural, and oh, those apples and beans. We were then taken to Professor Hussey's classroom and given a view of the routine work of our language department.

The familiar life of Carnegie Hall was next portrayed to us by parties left unnamed be request. There seemed to be a slight non-conformity to custom for the quartet presenting this scene were as gossipy as a group of Pearsons' girls. They took us into their confidence and told us of Charlie Black's most recent love affair, of Prof. Mintier's scentific name for certain of his abdomenal structures. (Professor was there on the front seat, too). Of Verton Queener's recent conversion to idol worship, and of John Stockton's unseverable attachment to a certain city of northern Italy. We are sorry the little boys had to leave the hall; but considering their bad influence upon upon society, bringing an uproarious chaos of cheering where previously order had prevailed, we do affirm that mighty power which did decree that they should seek a resting place for their funning bodies amid the structures of the town.

After the house had quieted down, Mr. Cowan played several selections for us on his violin. Needless to say they were enjoyed by all.

Then the critics' report. We have much to say about that this time, but Ran, Waddell is looking for that powder can, some one said he borrowed it from an inmate of Baldwin. Better be returning it before trouble starts.

Next Saturday Athenian will present a lively literary program. Every college man welcome.

THETA EPSILON

Opening prayer - Sarah Kiskadden

Theta is still growing and receiving some of the best talent and sweetest girls to be found on the Hill. A number of names were presented for membership Saturday night and several girls signed the pledge.

Banjo and Mandolin duets by Bertha Williams and Mary Helen Doisy were greatly enjoyed.

Piano Solo - - - Kathleen Enloe

The special feature of the program was a play, "The Interrupted Proposal". The characters were:

Mrs. Stone - Madeline Holmes
Mr. Stone - - Rebecca Bigger
Mr. Tracy - - Sydney Lamon
Helen Stone - - Alice Johnson
Mr. Howard - Marjorie Lloyd
Mrs. Ramsey - Bertha Williams
Maid - - Anna Ruth Whitfield

The program was one of the best Theta has given this year. Girls! You don't realize what you are missing if you are absent from a Theta program.

They are getting better every week.

Marie Bellotte acted as critic and her report was peppy and to the point, expressing what we all thought.

Mrs. Wayne Parkey, formerly Ariana Long, an old Theta girl, visited us this week end and spoke to us of her Theta Days.

Our mid-winter comes this next Monday, everyone is boosting and is very expectant. Theta's midwinters always rank very, very high. We can't forget last year's play and we assure everyone that this year, the play will be equally as good.

Boys! hurry, get out your pocket books and buy two tickets. Every girl on the Hill is certainly going so she can't refuse you a date unless someone beats you to her. Better hurry or you will be sorry.

ALPHA SIGMA

The Alpha Sigma meeting last Saturday night was the best one of the year. A fine program was rendered including a debate of the first magnitude staged by Franklin and Armstrong on the all important question of "Cabinet Goverment". Every Alpha Sigma interested in intercollegiate debate should have heard the views of these able debaters. The arguments wre presented in true forensic style and the judge's only reason for deciding for "Cabinent Government" was their inability to find a method of giving the decision to both these gentlemen.

Dr. McMurray concluded his series of lectures on Parliamentary Law, by a practical application of the things he had been talking about. The society has already profited a great deal as a result of this and in the future it will profit a great deal more as it is the purpose of the society to devote a part of each evening to pariamentary drill. We are very grateful to Dr. McMurray for his services, and we earnestly hope to become as efficient in the exercise of parliamentary law, as he hopes we shall become.

Fellows, let's all get together Saturday evening, and make it the very best meeting of the year. Everybody in his place at the tap of the gavel.

Skeyhill's Lecture

Mr. Skeyhill, a Young Australian Soldier Gives An Instructive Lecture on Conditions as He Saw Them In Europe.

The address of Tom Skeyhill, the young Poet-Soldier, a native of Australia but now of Virginia, gave us a new and vivid contact with the disrupted and changing Europe of today. His adventurous and daring spirit coupled with a desire to get at the source of happenings has carrie him all ober the world. Although only twenty-six years of age his remarkable experiences, his extensive reading, and his delightful manner of presenting his facts all combined to give us a new attitude toward world affairs.

Having visited since the war all of the important countries of Europe and parts of Asia he was able in his addresss to gibe us facts that habe been either witheld from the press or have been so distorted as to give wrong impressions.

His experience in that great enigma of the world, Russia, since the period of the Soviet rule revealed many alarming conditions. The whole continent of Europe is in upheavel but the opinion of the speaker is that Bolshevism as a government will outlast all of the other cabinets of Europe.

Before going to Russia to study the revolution Mr. Skeyhill read a great many books on the subject in order to better qualify himself for the task of reporting conditions as he saw them. Having to steal across the border in mid-winter under disguise he spent five months there mixing with all classes of Russians. He visited the soldiers, the workers, and the homes of the intelligensia. He found religion ignored by the Bolshevists but not interfered with. He found the blood-thirsty proletariat as sweet, simple Russian people poets at hearts and suffering terribly under the effects of three years war and four years of revolution. The existing form of government is too idealistic, but the czaristic regime is overthrown and there is no other form of government capable of coping with the suitation. And under it all the formerly prosperous country has become a gruesome spectacle of want, distress, horror and almost brutal savagery.

Whether the conclusions drawn by the speaker are acceptable by all we are glad to receive a new and clearer viewpoint of world conditions, and to be reminded that this tottering nation of Russia is an integral part of world civilization.

Why do liberal clubs think it necessary to bring to the colleges speakers whose point of view is not ordinarily presented by the faculty?

Patronize Those Who Advertise. They Make The Paper Possible.

The Echo solicits news items, comments, and expressions of opinion from the students, and from interested alumni.

Rah! Rah! Rah! Team.

* * * *

You football fellows, next week we hope to publish a special edition of the college paper in your honor.

* * * *

Thank you Harry! We do appreciate the music you have been giving us for the march at the close of chapel. It has been good and given more pep to the march.

* * * *

If your pep and enthusiasm for Maryville College and things Maryville is not strong enough to weather the defeat of yesterday without being entinguished it is not the true Maryville Pep.

* * * *

Perhaps the football season does not seem as successful as you think it should; but at least remember that Maryville has the record of 133 points to her opponents 101.

* * * *

On account of the holiday it has been somewhat difficult to get out an edition of the Echo this week. We have tried hard to get the paper out on the usual time and yet not sacrifice its quality to any considerable extent.

* * * *

Well, we had a pretty hard season of it this year, but don't forget there's another year coming. So cheer up and keep your pep. It's better to go down like a gentleman than to stay on top by unsportsman-like conduct.

* * * *

We've got a basket ball season coming on. Four of last year's letter men are back, and there is an abundance of good looking new stuff. In short the prospects for a winning team are excellent. Let's show these cagers we're behind 'em. Now everybody push.

* * * *

Our beloved Dr. Wilson is strenously working for us these days trying to put the special forward fund over the top. All true Maryvillians are behind him in his work. But, do not let that support be just a passive support. Make it the positive kind.

* * * *

The stunts of last evening were something new for Maryville. Before criticising the stunts given recall that they were gotten up on short notice, and by people who were already busy. A great deal of hard work was put into them. Admittedly there was room for improvement; but some of the stunts were cleverly planned and executed.

* * * *

We're going to have co-ed basket ball too. There is a likely lot of feminine basketeers out for practice. and these girls have the pep, ability and determination to gibe a good account of themselves. In past years the girls team have had to take as their share of support the leftover pep from the boys' games. Let's make it a different story this time, and give the girls their share of support. Of course we don't mean to steal any thing from the boys, but let's support both for all there is in us. The girls' basket ball team is as much a Maryville varsity as any of the boys' teams, basket ball, base ball or foot ball.

* * * *

Maryville students and townspeople experienced a keen disappointment in the failure of the Cumberland University team to arrive for the game that was scheduled to be played last Friday The alumni had planned a home-coming for the game which was to have been the last on the home gridiron. A record crowd had assembled to witness the scrap, only to be disappointed.

The home schedule for this year presented at its best only a meagre offering, and the failure of Cumberland to report added no extra attraction to it. The management of the Cumberland team pleaded ignorance to the existance of a contract as its alibi.

* * * *

We had a special telegraph service for the report of the King College game yesterday. During the game ten telgraphic reports were received which made it possible for us here in Maryville to follow the game. For this treat our thanks are due Mr. Ray Sullinger who kindly went to Bristol to dispatch the telegrams back to Maryville, and to the Maryville Operator of the Western Union who was kind enough to deny herself a holiday that we might receive the telegrams, and also to Mrs. McMurray who received the messages by telephone. In behalf of the students, the Echo wishes to thank all these people for their kindness in giving us so much pleasure.

* * * *

THE PEP COMMITTEE

If you are looking for an organization on the Hill that has been doing some real hard work during the last few days, we wish to call your attention to the Pep Committee. That Pep Committee puts out! The pep meeting, and especially the stunt meeting that we have had this week called for much hard work on the part of the Pep Committee. But they have the kind of enthusiasm that gets things done. You owe to them your entire cooperation in their work. Show them by your response that you are supporting them.

* * * *

THE BOARDING CLUB

The trite, much used, common expression ''hash hall'' that is in such general use on the Hill that one would think hash was the one and only thing on the menu. Why are all stale jokes, and supposed witticisms directed at The Boarding Club? We are not denying that hash does appear on the menu frequently; but we are protesting that as many slurring remarks as are made about the bill of fare are unfounded and unjust. We did not have a turkey dinner Thanksgiving it is true; but we did have a fair chicken dinner. Also bear in mind that your board bill and your menu card always have a direct relation to each other. Besides long ago the students wore out ''the hash hall'' as a joke topic.

* * * *

Miss Elizabeth Moore and Miss Effie Erickson of last year's class are Thanksgiving visitors on the Hill.

Eureka Williams who has been ill for several days left Monday for her home at White Pine, to rest and regain her accustomed strength. Her many friends are hoping that she will soon be able to return to school.

WE THINK SO

''Why should I marry you'', she asked superciliously.

''Well, ofcourse'', John Hooker replied viciously, ''you can die an old maid if you want to.''

NOTICE

Mrs. McMurray in behalf of the College Maid work rooms wishes to thank Mr. Hedge of The Maryville Enterprise for the gift of an electric iron for use in the work rooms. Fifteen rahs for Mr. Hedge.

NUMBER 219 CO-ED SAYS

Some boys are so dumb they think ''Army's'' brother is called ''Navy''.

Number 219 can say all he wishes about us girls, we wonder did he ever notice that sign near Carnegie, with the Speed Limit on it?

Pearsons—Lend me a half. I haven't tasted turkey for a year.

Hall—Don't worry, it still tastes the same.

I have spent many hours with
my ''make-up''.
In the days of yore.
All because of the wonderful
''Speedy'',
I don't anymore.

''That's making both ends meet'', shouted the coach when Music and Baxter collided.

"THUMBS UP"

In the days of the Roman emperors great crowds would gather at the Coliseum to witness the gladiatorial combats. Rival factions would flaunt their chosen colors, and would wax hot over the fortunes of battle. Today the Bulldog and the Tiger meet amid conditions that closely parallel those Roman holidays. We have our stadia, our multitude of spectators, our traditional emblems. But there is one great difference. When the contest of strength is over there is no signal of ''thumbs down''. Our method of concluding athletic rivalries is a handshake, and the digit that sealed the fate of many an ancient gladiator must of necessity be pointing upwards.

It is pleasant to know that the hotter and fiercer is today's struggle, the warmer and closer will be relationship of Yale and Princeton. The friendship of the Blue and the Orange and Black is founded on a mutual respect and admiration for the prowess of Bulldog and Tiger. May this prowess be displayed this afternoon as never before, that new and even more glorious traditions be written beside the old ones.

(Written on the morning of the Princeton-Yale game in the Photographic Review of the Daily Princetonian.)

(This editorial by a Princeton man gives the athletic spirit of the large eastern colleges. Maryville's attitude toward her traditional enemies in athletic contests does not suffer in the least by comparison.)

This week the Echo box has been the recipient of a few poems purporting to be the highly original poetical ravings of some victim of puppy love. We pass them on without comment.

FLOREY

Oh, tell me, where did Florey live?
And what did Florey do?
And was she very fair and young,
And yet so wicked, too?
Did Florey love a naughty man,
Or kiss more cheeks than one?
I warrant that Florey did no more
Than many a Flo has done.

CHANGE

Some folks say love is pleasure,
No pleasure do I see,
The only girl I ever loved
Has turned her back on me.

There's change in the mountains,
There's change in the sea,
There's change in that blue-eyed
girl,
But there's no change in me.

SEE THE INFORMATION DESK

Student in Distress: Somebody has stolen my textbook in chemistry, and I haven't my lesson.

Junior: Why not ask the girl at the information desk?

Student: Why? Do you think she has it?

Thanksgiving Over Xmas Next

TWO MORE FULL SCHOOL WEEKS AND THEN IT'S HOME AGAIN.

Yes it is almost four months since you left. Time has passed rather slowly too. But during the next two weeks you are going to have the joy of your life—the poy of selecting the very best gifts for your very best friends.

It is needless to say that the **very best** can be found at our store because you know that we only handle the **very best.**

So make us a isit real soon and get what you need for Christmas. We have just the thing you have had in mind and it will just naturally look nicer if it comes from—

SUCCESS OF Y. W.—Jr. Y. W.

Life is either a success or a failure. Our success or failure depends upon our attitude toward life. In word building—a word is a failure unless there is a vowel present. At our Y. W. meeting the vowels showed us what they stand for in a successful Y. W. C. A. A stands for Ability which was discussed by Martha Anderson; E for effort by Fidelia Newman; I for interest by Lucile Crowder; O for outlook by Evelyn Fitts and U for unity by Lucy Morgan. Helen Sweeton favored us with a solo. Each girl present now realizes her individual responsibility for the Success of her Y. W. C. A. But there are more girls in our Jr. Y. W. than were present last Sunday, and we ask you again to come next Sunday and do your part for the success of your Y. W. C. A.

SENIOR Y. W. C. A.

The Senior Y. W. C. A. girls opened their "Praise Service" Sunday afternoon, by singing "Praise God from Whom All Blessings Flow."

After the reading of the one hundred and third Psalm, Dorothy Roney gave us a very interesting talk: from this talk many of us realize now, more clearly than ever before the broad meaning of stewardship; that all that we have belongs to God and is to be used as He wants us to use it. We were reminded of our many blessings both temporal and spiritual, for which we should constantly be thankful.

Several girls took part in this meeting and these are some of the things for which we are thankful. First, of all we are thankful that we have Christ as our Friend and Saviour and for the privilege of prayer. We are thankful for our homes with Christian parents; Maryville College; Bread of Life, both temporal and spiritual; and for expereiences of life. In fact before the meeting closed we all felt a close touch of the Thanksgiving spirit.

We took the children at the Orphans' Home baskets of fruit on Thanksgiving, and helped them to be more thankful.

Dean Barnes went into the Ellis-Proffitt's store the other day, and asked leave to use the telephone. Receiving the desired permission he ground awap on a nearby pencil sharpener, took down the receiver and waited for central's answer. Getting no reply, he repeated the operation a couple of times. Finally he hung up the reciever in disgust with vociferous and uncomplementary comment as to the unsatisfactory service of the telephone system.

BUT IT DIDN'T

It was a porch swing for two and it was filled. She was a charming Miss, sixteen and beautiful. He was somewhat older but was handsome and had a pleasaing appearance.

It was late evning in fall and a big round moon was shining down on them with a clear, cold light.

They were engaged in an understanding silence. Each knew the other's thoughts, so words were useless. She felt that it was coming, and as she almost imperceptibly shivered, for it was getting colder every minute, he, always thought-for her comfort, gently put his arm around her and she cuddled closer in his embrace.

He meditatively gazed upon the beautiful unharvested fields and suddenly as if prompted by some impulse within, tilted her face upwards and passionately said: "Oh, darling, if I could only be sure. This night will decide my future."

And she understandingly said with loving accents: "Yes, for if it frosts tonight the crops will be worthless."

FINISH THE JOB

The Practical Man: I'll have you understand that I am a self-made man.

The College Man: Then run along home and finish the job.

A COLLEGE BOY'S FATE

Before I came to Maryville
I knew of girls but little,
To me they seemed a foolish thing,
Flirty, flighty and fickle.

I walked about on College Hill
Where damsels fair abound,
I thought it was a waste for them
To take up so much ground.

One day as I was sauntering
I saw a form approaching,
The thrill of love came unto me,
Upon my heart encroaching..

Before me was a damsel fair
With wonderful eyes of blue,
Upon her head was golden hair,
This damsel fair was YOU.

Prof. McMurray in Economics: What is a holding company?
Roy McCall: A jail.

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME EIGHT | MARYVILLE, TENNESSEE DECEMBER 8, 1922 | NUMBER ELEVEN

SPECIAL FOOT BALL EDITION

A REVIEW OF THE PLAYERS

Coach Honaker:—Coach Honaker has been with us for two foot ball seasons, and has been largely responsible for putting Maryville on the map, foot ballically speaking. Before Coach Honaker came to Maryville we were content to beat the smaller nearby colleges by still smaller scores and hold U. T. to thirty-four or forty points. But his coming has so raised the standard of Maryville's athletics that she reaches out to tackle the better teams of the South, to prove her prowess in inter-sectional games, and to play U. T. a real foot ball game, not just to give them signal practice.

Coach Honaker is a graduate of Roanoke College. He played varsity foot ball there, and studied coaching under Zuppke at Illinois. He coached high school athletics in Illinois, and the two years before coming to Maryville at Southwestern University in Texas.

Assistant Coach Bond

This is Mr. Bond's first year at Maryville as a coach. But he is not new in Maryville foot ball circles, having held down the flank position for four years. After graduating from Maryville in 1915 he coached high school athletics, served in the army as a physical director, and was physical director in Y. M. C. A. and plant gymnasiums. He coached high school athletics in North Carolina, and last year at Maryville Polytechnic. He has made an enviable record as a high school coach and as an assistant to Coach Honaker.

Captain Sullinger

Tubby has wound up his foot ball career at M. C. in a glorious manner. For three years he has been a permanent fixture on M. C.'s team. His offense has been good, but as to his defense, we can't say too much. His pep, alertnes, moral influence on the other members of the team, his ever present assistance to a man needing help, and his presence at nearly every tackle have made him one of the greatst defensive backs to be found any where. He simply can't be beat at backing up the line.

He is a six footer, and possesses a hundred and seventy pounds of leather weight. Tubby is a senior, and we hate to see him leave, we sure will miss him.

Manager Brown

''Shimmie is our manager, and he's an efficient one too. Aside from his executive duties he sometimes indulges in a little scrimmage and game, and plays well. ''Shimmie'' is classed among the faster set—of foot ball men, and if he once gets loose, you had better look out. Chances are you can't catch him. He is a farmer by profession, but can tote foot balls as well as pumpkins.

''Shimmie'' weighs a hundred fifty-one and stands five ten minus shoes. He is a Soph. and we expect to have him with us another pair of seasons.

Burney Acton

Burney is our fast man. Coming to us last year from Howard College in Birmingham, he made good his well earned reputation as an A1 half back. He weighs a hundred and sixty-one, and stands five feet eleven above the ground.

Burney carries his hundred sixty one at a rate that can't be caught up with, and if a man happens to get in front of him, he often wakes up wondering what hit him. This is his second and last season, and he leaves one of the greatest records that any foot ball man ever left.

Reading Left to Right:—Front: Manager Brown; First Row: Hamilton, Williams, Thrower, Sullinger, capt. McCall, Rice, Proffitt McMurray; Second Row: Clemens, King, Partee, Sneed, Musick, Wynecoop, Bowles. Third Row: Riskey, Dinwiddie, Schmidt, Crawford, Acton. Top: Assistant Coach Bond, Coach Honaker.

Jean McMurray

Jean hardly stands under the bar at five eleven, and tips the scales at a hundred forty-eight. From point of service he shares with Captain Sullinger the distinction of having served his Alma Mater for three years, but unlike the captain he has more coming, and we're glad of it.

Jean is a remarkably good broken field runner, the best passer on the team, a fairly good kicker, and a field marshall of more than ordinary ability. Jean is a good 'un and we expect great things from him in his remaining years at Maryville.

Guy Sneed

Shorty has been a great success this year. This is his second year of varsity foot ball; and after starring last year he returned to shine brighter than ever this year. He's little but he's loud. His deadly tackling, powerful drive, and greasy pig ability to slip away from would-be tacklers have made Shorty a first class half back, and a man to be dreaded by his opponents.

Shorty weighs a hundred forty-five pounds of man, and measures about five five in height. He is a Junior and we expect another great season from this little giant.

Charles Partee

Charley developed this season into a first class back field man. He always knew what to do, and he did what he knew. Every play found Charley just where he ought to be, and doing what he was supposed to do.

Partee is lightest man on the team, having only a hundred and thirty-four pounds of weight to his credit, and five-five and a half of height, but he carries what he has with speed and rush that's hard to stop. His success in foot ball has only added new laurels to his crown. He is an all-round athlete, making specialities of foot ball and base ball. He is a Junior and has one more year of foot ball coming.

Ed Hamilton

Hamilton has developed into one of Coach Honaker's finest backs, and that's saying a lot. Ham came here from the Pacific coast, and immediately won a place on the team. He played the greater part of the season in the line, until his kicking ability gave him a chance in the back field, where he soon won a regular berth. His line plunging and driving power, with his ability to boot the oval made a top-notch full back out of him.

Ham is almost six feet tall and weighs a hundred seventy eight sans clothes. He is a Freshman, and we expect great things from him in the three years he has left to play.

E. N. Riskey

Riskey came to us from Toledo, and his natural foot ball ability and his love of action soon made a varsity man out of him. Riskey, while not a giant, misses runt doin' by a considerable bit, weighing a hundred fifty-five and standing five feet seven plus, bare footed.

Riskey is a Freshman. He has a thoroughly successful season behind him, a promise of three more that should be greater. We wish we had more men like him. He' a great half back, a good quarter, a fatal tackler, and a scrapper from head to foot.

Bob King

Bob has played with the varsity for two years, and played well. Last season he played quarter back, and his brilliant generalship won him no little favorable comment. This year he has played end and half, and played them well.

Bob has always been a heady, speedy, snappy little player, a dependable and quick thinking man. He measures five feet six and a half in height and a hundred thirty-eight in weight. Bob is a senior and will not be with us any more, we wish we could keep him longer.

Bob Thrower

Thrower, a mere child of 200 pounds and six feet one plus, has been a great bulwark in the line for two years. Last year his work at tackle was super excellent, and this year it has been even better. His charging, scrappiness, pep and all round playing ability has made him a terror to opposing teams. Some of them have even said they would rather charge a four legged bull, than to get in the way of that big red bull from Texas. Bob is a valuable back field man on occasions when an irresistable force is needed to carry the pig skin. Squatto is an all round valuable man and we wish we had more like him.

Allen Wynecoop

Wynecoop is the versatile man of the squad. He can play any where and be a credit to the position. During his three years as a varsity man Weinie has played end tackle, center, half and full. Coop's not a giant, but filled five feet and eight inches high and a hundred fifty pounds full of fight. He played half back on last year's team, but Coach in his search of a center landed on Weinie and shifted him to the pivot position, where he immediately as usual made good.

(Continued on page eight)

A REVIEW OF THE SEASON

The foot ball season of 1922 is history. The last thud of stout, hard-driven toe on pigskin has died away; the cleat-torn field is smoother as the December rains fall on it; the hectic cries of ''Yea, Team; Fight! Fight! Fight!'' are a receding echo. You'll find us in the gymnasium now, cheering on the mad scramble of another game; watching as the basket ball balances uncertainly on the basket's rim, with the same tense expectancy which only a few days ago we gave to the last powerful rush across the goal line for a touchdown. But our memory is with the football men of 1922, and, although their achievements are history, that history has not been written, and there is always a certain consolation for the bereft fan in reading the records after the game is done.

We are not going to offer alibis for the Maryville College Football team of 1922. Their task was difficult; their accomplishment, splendid. It is true that, in comparison with the record of 1921, the figures for this year suffer somewhat. Indeed, to one who has not looked beneath the surface, it might well appear that, whereas the team of a year ago reached unparalleled heights of success, the team of this season, just closed, had fallen far short of that mark. It is for this reason that we are constrained to deal, for a space, in a somewhat detailed comparative study of the two seasons.

First of all, the schedule of 1922 was a more difficult one than a Maryville team has faced for a number of years, since 1915, perhaps. It was markedly more difficult than that of a year ago in two respects. The class of teams met was higher than last year. Transylvania, St. Xavier, Mercer, and King, not to mention the University of Tennessee, are not exactly our idea of an easy quartet for any college team in the country. But the outstanding respect in which the schedule of this year was difficult is in the fact that six of the eight games played were on foreign fields. Beginning October 22, there was the long trip to Lexington to meet Transylvania followed the next, week by the trip to Cincinnati for the St. Xavier game, and just a week later by the trip to Macon for the game with Mercer. All of these were long, hard trips, wearing on the endurance of the team, and crowding the normal week's practice into the few days the team had between jaunts, at home. Then, to close the season, there came two more long trips in succesion: first to Emory and Henry, and then back up the line again for the Thanksgiving bout with King. No one was to blame for this; it is a part of the policy, which we should all welcome, which is designed to introduce Maryville football to a better class of opposition and to lead to the building up of a stronger and more permanent schedule for the future. But when we consider that the team played these strong teams on their own fields after long trips, and played them all cleanly and closely,

(Continued on page six)

"LITTLE WOMEN"

Play Presented By Thetas Well Liked.

The first mid-winter of the year was given Monday night in the Voorhees Chapel by the Theta Epsilon Literary Society. The character and type of the play were in keeping with all traditions of the society plays. This play, ''Little Women'', adapted by Marion de Forest from Louise M. Alcott's book of the same name has been staged in New York and London and has always met with the approval of all who have seen it. As it has become popular in cities and other colleges so it was made popular in Maryville College by Theta. The chapel was crowded, every seat was filled and some persons stood.

The personnel of the play was extraordinarily good, showing great talent and power of adaption. Each character was a star for his part. The cast appeared as follows:

Jo, a tall, boyish girl with a quick decisive manner winning the hearts of all with whom she comes in contact, developing into a woman who means to ''do things'', Ruth Barnette.

Meg, a pretty, womanly girl, industrious and affectionate, Ethel Dorne.

Beth, the family pet, a tranquil maiden, always busy, never idle until the perfect rest calls her, Mary Hamilton.

Amy, a graceful, charming girl interested in her art, Louise Gollmar.

Mrs. March, a gentle, motherly mother, adored by everyone, Mary Robinson.

Mr. March, a scholarly gentleman, a father to his little women, James Jackson.

Laurie, a true man with a boyish spirit always, full of fun and with a merry smile, Harry Gauding.

John Brooke, a quiet, pleasant, home-loving man, Burney Acton.

James Lawrence, a courtly, old fashioned man, the uncle of Laurie, Eugene Stanbery.

Prof. Bhaer, a man interested in good literature, a man one could trust at once and children would adore, Leslie Poe.

Aunt March, the rich aunt of the March family, she denies herself nothing but is sometimes kind to the family, Thelma Adair.

The Twins, dear little children are Demi and Daisy, Mary Proffitt and Margaret Proffitt.

Hannah Mullette, the faithful and devoted family servant, Mary Lily Sossomon.

Scene of Little Women, Concord, Mass. Time, December 1863, October , 1868.

Act I. Sitting room of the March home.

Act II. Scene 1. Same as Act I. Three months later.

Scene II. Same as Scene I. Six months later.

Jo's interest in a certain German professor becomes noticeable. He calls and wins the favor of Mr. and Mrs. March. Laurie declares his love to Jo. She refuses to marry him but they decide to be life friends.

Act II. Same as Act One. Two and a half years later.

Act IV. Scene—The Harvest Home. Plumfield, eighteen months later.

Musical selections were given by Theta and Alpha Sigmas during the program; The musical program was as follows:

'Love's Old Sweet Song', Sarah Kiskadden, Irene Curtis, Howard Sullinger, Clarence Anderson.

'Cello Solo, Madeline Holmes.

Little Woman of Mine, Mary Biles

Piano Solo, Kathleen Enloe

Cornet Solo, Mr. Harvey

The music numbers were all very beautiful and harmonized perfectly with the beauty of the play itself.

DEBATING IS SUBJECT OF MUCH DISCUSSION

King College

Intercollegiate debating is now the subject of a great deal of discussion among the more argumentative students, and the members of the faculty. A meeting was held on Friday night for the purpose of distributing material among the candidates for the team. The question to be debated is, ''Resolved, that the United States should retain possession of the Phillippine Islands''. Maryville College will offer the opposition and the debate will take pace sometime during the latter part of March.

Tryouts for the team are to be held in the near future and considering the number of the candidates and the debating ability which some of them have shown in the past, it is the opinion of those in charge that King will excell on the debating platform, as well as on the gridiron this season.

The unshaven Maryv' eleven created a bit of sensa among the students here Frid..

Emory and Henry

''Do you drink?''

''Nope''.

''Then tell me what makes your nose so red.''

''Well, its glowing with pride because it is kept out of other people's business''.—Centre.

One is born every minute. But you can't tell the wise from the foolish until they begin to guess at women's ages.

Sighs of editors are a reminder
That our lives are not sublime;
They have to work like thunder
To get a Special out on time.—

Causes of national unrest;
Tight shoes;
Swapped umbrellas;
Dull razor blades.

Where, O where is my little red book?
I have need of its sage advice.
Am I elected or only nominated?
If a girl smiles at me twice.

A long step towards peace would be taken if folks resisted the temptation to talk back.

Post Season Foot Ball

Seniors Win From Juniors In A Post Season Affair.

When in the course of College Events, it became necessary for the Junior Grinders and the Highly Intellectuals to indulge in a contest with the enlongated oval, the Class of '23 deemed it fitting and proper to trounce their ambitious opponents 10-0.

The Seniors showed their supremacy throughout the entire battle, not even allowing the Juniors to bring the ball to mid-field. The Seniors excelled in passing, punting and headwork while the Juniors had a strong defense. Three passes were tried by the Juniors. One was incompleted and two were intercepted. The Grinders looked sick on punts and when the Seniors punted Sanchez always fumbled an some Digniatary recovered the ball.

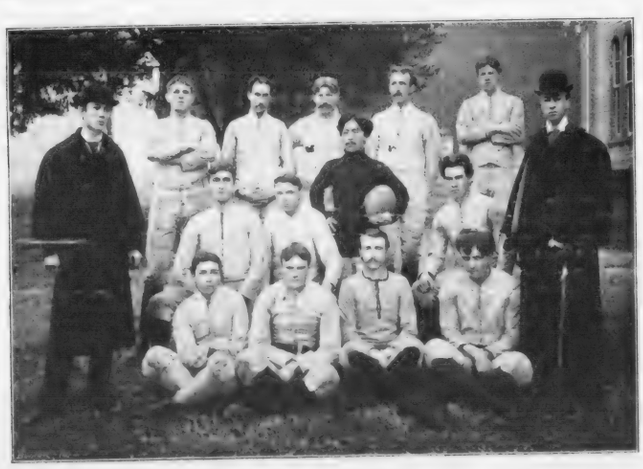
The Seniors attempted four passes and completed two, McClung to Ellis; and for a touchdown McClung to Janoviczky. Captain Ellis was called on three times for drop kicks one was blocked for a loss of 15 yards but the other two were good and made 4 points for the Intellectuals.

The first touchdown came in the second period when after the Juniors had fumbled a punt Janoviczky ran across the goal line and grabbed a forward pass. Captain Ellis was called from center and promptly added the other point.

In the third quarter after T. J. had made a spectacular end run from punt formation Ellis was again called on and made a perfect drop-kick for the additional three points of the game.

In the last quarter the Seniors got the ball on the one foot line but McClung forgot to use his head and the Seniors were thrown back.

Hardin played a spectacular game at tackle. Sanchez starred for the Seniors in the way he passed and fumbled punts. All the Seniors played steller ball, the best playing bing the T. J.'s end run, Janoviczky's run from an intercepted pass with Warrick blocking Claybough.



Seniors		Juniors
Warrick	l.e.	Queener
Taylor	l.t.	Hardin
Milling	l.g.	Pritchard
Capt. Ellis	c.	Mann
Poe	r.g.	Armstrong
Anderson	r.t.	Van Orden
Janoviczky	r.e.	Seaton
McClung	q. b.	Sanchez
Turner	l.h.	Jackson
Buffat	r.h.	Claybough
Marler	f.b.	Griggs

Substitutions: Seniors—Wilson for Milling; Garner for Poe; Poe for Garner; Milling for Wilson.

Juniors: None.

Officials: Coach Honaker, of Roanoke, referee; Schmidt of Alaska, umpire; Dinwiddie of Cumberland, University, headlinesman.

Touchdown: Janoviczky; Point after touchdown, Ellis; Field goal, Ellis.

Kin and the First Football Team.

Impromptu Celebration At Close of Season

Rip Van Winkle and his little bull pup

Maryville got beat, but she won't give up.

Maryville played and frolicked Thanksgiving night, as though she had made King College into a school for ex-truck driver of that afternoon. The event was an Impromptu Meeting and it certainly was a success. Everybody pepped it up for that night and backed the different organizations to the limit. Banonian tried to solve the terrible problem of 'Who Kissed Barbara', and every thing from geometry and swear words to mustaches were used in the solution.

Theta Epsilon proved that puppy love may really mean something when the beautiful romance of Miss Maryville College and Mr. B. A. Sport culminated in a beautiful wedding to which only the closest friends of the bride and groom were invited.

Of course it was far too late in the day for a real race, but at least all M. C. students were allowed a glimpse of the far-famed Barney Google and Spark Plug. We could tell by merely looking at this wonderful animal that he could lead all other like creatures two or three miles without losing breath at all.

Athenian and Bainonian showed their real spirit of friendship when they were united in matriomony.

Alpha Sigma certainly puts spizzerinktum into her meetings. If the members of the society show as much interest and intellect in other matters as they do in the society meetings, Congress had better watch out, we shall soon have about thirty presidents in office at one time.

Let us hope that the Senior class learns as much of their teacher's words as they seem to have learned of his actions. Did they mean to let us think this recitation was typical of their class work? If it is, they don't seem to know much more about Theism than Freshmen do about chemistry.

Y. M. C. A. Could letter stands for anything more important than the Young Men's Christian Association.—unles it was the Young Women's Christian Association? Those letters should be spelled into every activity of the Hill.

Cumberland sure can hand out a wicked jaw—but M. C.'s Forensic League can go her one better. Let us hope that the silent debate of Thanksgiving night predicted what will really happen some day soon.

Don't Frank Slemmons and Bob Johnson make a wonderful couple? It is worth even listening to long civil trials to witness such true love and affection.

It's a good thing Hambone will meditate out loud sometimes. His cogitations may be more prose than poetry, but I had rather listen to lots of prose I know than lots of poetry I know. We thank Junior Athenians for parting with Hambone for that night.

Hopeless Nuts! Nuff sed! They are nuts and they are hopeless, so what more can be said than that they are hopeless nuts?

Three rays for Baldwin-Hall! I had rather be a Baldwin girl than —anything else in the world!

Some of the boys who heard that song tried even kissing their elbows to turn girls so they could room on the third floor of Baldwin.

After the inspiring meeting that the Sky Pilots gave us, we must realize how truly inspiring and heart stirring a negro revival may be. Really, the impersonation of some of the characters was so good that we have decided that some of these Sky Pilots should change their preparation and become minstrel singers.

''Mamma, I want a dollie!'' There are a great many doll babies to choose from on the fourth floor of Pearson's, but I am sure we would all choose a ''letter doll'', who helped win Maryville's foot ball victories, and essened the sting of the defeats.

Impromptu Meetings are more fun than ones that are planned for months, and perhaps we can have some more of these thrillers sometime.

ROOM 425

A Pre-Thanksgiving Feed

While Mr. Mack walked quietly through the halls, five fellows ''Kin'' Webster, ''Gordie'' Harold, ''Mildred'' Cornelius. ''Nigger'' Black, and ''Rich'' Richmond enjoyed some molygorgeous, fantanimiglorious feed. How that sausage did depart from the box and start on the trail of Pearsons hash. The cakes and candy was the kind that only loving mothers and tender sweethearts can make. Nuts, of all kinds, walnuts, hickory nuts, hazelnuts, and regular nuts made the guys feel nutty after they had stopped feeding their faces. All during the feed you could hear the old saying ''one today is worth two tomorrows. There is no time like the present.''

NOTICE

To the reading public:

I wish to state that I am not connected with the famous El Toro, as it has been announced.

SELECTED FRESHMEN COMPOSITIONS

KEEPING A DATE

By Salmon Brown, '26

As the brief twilight of a winter afternoon was settling down over the city, the Hazelton family was gathered around the table for the evening meal, with all but one place filled.

"Where is Jack?" asked Mr. Hazelton, addressing his question to no one in particular.

Immediately Jack's little sister, Mary, aged ten, answered, "He and that Margaret Armour went out for a ride together."

Almost simultaneously was heard the sound of an approaching automobile which drew up on the drive at the side of the house.

The next moment the door flew open and in dashed Jack. Stopping a moment, he exclaimed, "hello, folks", and then, "say, Mom, is the bath water hot?"

Upon receiving a reply in the affirmative, he turned and hurried up the stairs, three steps at a time, as he replied, "Haven't got time" to the quetion, "Will you have some supper?"

Jack had no sooner arrived in his room and removed a part of his clothing than he heard his mother calling, "Jack, did you shut off the car?"

"Oh, gosh! I forgot! Dad, Dad! Turn off the car, please, won't you? I'm in a deuce of a hurry."

This was followed by decided sounds of disapproval from Dad and the opening and closing of a door, soon, after which the motor stopped, while sounds of splashing water came from the bathroom.

"Mom, Mom! Would you have Mary bring me a towel?"

"Yes, dear," replied his mother. Turning to Mary, she said, "take Jack a towel. You will find one in the closet."

A very bored little sister went upstairs, one step at a time, procured the towel and took it to the bathroom door.

"Sis, won't you brush my clothes? They're right there in my closet. Come on, be a good sport, Sis. This was said in a low tone as Jack spoke through the door. Speaking louder, he said, "Mom, can't Mary brush my clothes? I had to wait so long for a shave down town. I won't get out of here until ten o'clock. Will you hurry, please?"

"Why, yes, dear. Mary!"

Audible sighs came from little sister as she turned and went down the hall.

"Come on, Sis, a little service please. Mom, would it be too much trouble for you to get my old, dirty, white shirt from the laundry room and take my cuff links out and put 'em in my silk shirt?"

His mother went into the laundry room, amid sounds of more splashing from the bathroom, accompanied by vocal music.

"Where is your shirt, Jack?"

The splashing stopped as Jack replied, "My old, dirty shirt is right there in the laundry room."

"No. Here's your silk shirt; dirty, though."

This was followed by groans from the bathroom as his mother said, "Let's see. Haven't you a white one up there?"

A minute later, "Find one, Mom?"

"Yes, dear."

The bathroom door slammed and seven and a half minutes later Jack came down stairs in the same manner in which he went up.

"Where's my hat? Mom, where's my hat? Sis, where's my hat? Dad wouldn't wear my hat off! Gosh!"

"I think you must have taken it upstairs with you, dear. It isn't around here. Can't you run up and see?", asked his mother.

"Oh, gosh!", exclaimed Jack and he dashed upstairs.

One minute later, he was down again with his hat on. "Say, Mom, won't you phone Margaret's Mom and tell her to tell Margaret that I'm on my way? Gosh, I'm late! Will you, Mom?"

MY EXPERIENCE LEARNING TO SLEEP IN A BUNK

By James A. Harvey, '26

To most people sleep is restful, healthful; an experience to enjoy, and look forward to. According to Webster, sleep is slumber or rest. Again I say that to most people this is doubtless so. But I fear Mr. Webster failed to consider the location of the sleeper and to investigate the conditions surrounding various beds.

To be more specific, let me tell of the sad case of room 301 and of the many trials and thrills contained therein. It seems that in planning the rooms in Carnegie the goal striven for was quantity and not floor space. As a result, we find curiously shaped rooms, large and small closets, and any number of different size windows. But the most lasting result of this thrift, the most permanent monument to this economy, is the double-decked bunks.

As my roommate and I stood before our beds, I meditated. I pictured myself in the lower deck, endowed with full power to disturb the rest of anyone sleeping above me. Oh, how I wished for that lower deck. I got it.

Being sleepy that first night I was first to crawl in bed. My, it was fine; just one step and I was in. No acrobatic stunts. No hard labor and no chances for a broken neck or collar bone. I rested peacefully.

Here the lights flashed and my mate, who is an experienced college man, prepared to ascend to the top layer. I hesitate to go fordward with this story but my unwavering loyality and sympathy for future Freshmen compel me.

I felt a step. I say "felt", for in every sense that step was physical. A step starting well in the air and ending square on one's face could not be other than physical. I did not yell; I did not remonstrate with him. He had not as yet removed his foot!

Then his other foot descended. Square amidships it caught me, but in my weakened condition I could do naught but lie still and wait for relief. It came, but in a way wholly unexpected. He slipped!

I cannot blame him for slipping. He was out of practice, the room was dark, and perhaps I had not furnished quite as solid a foothold as he had supposed. But I shall always hold against him his choice of a landing. He fell flat across my bunk and by sheer brilliance included me in the range of his fall. I confess my spirits and I were both considerably depressed. But after a brief struggle we untangled ourselves sufficiently to crawl once more into our beds, sore from hurts and weak from laughter, both ready to enact Webster's definition of sleep.

But was Webster right?

There was a rap on the door. My roommate gave the customary "Come in" and in he came—the proctor. Hastily stuffing a corner of the blanket into my mouth, I lay still. My roommate, not being built along quiet lines, undertook to explain the cause of the noise, but being overtaken with emotion he was forced to stop. The proctor then gave a huskily whispered speech on "respect for others", using me as illustration of the slumbering college. I almost moved. But after a few more low-voiced remarks, which neither my mate nor I could understand, the proctor closed the door.

Realizing that we were expected to be quiet, I rolled over to prepare for sleep. But, forgetting the narrowness of the bed, I hit the wall with a smack. It was too much. All humor left the situation; and after much squirming about I arrived at a position whereby I could sleep and at the same time not hear the remarks being made by my all-too-mirthful roommate.

I slept.

At last Webster was right.

Y. W. NOTES

The Y. W. Conducts Program For Education Week, December 4-11.

This week December 4 to 11 is being devoted to missions under the auspices of the World Fellowship Committees of the Y organizations.

Early Sunday morning posters appeared all over the campus, not only describing needs in foreign lands, but announcing a debate between Junior and Senior Y. W. on the relative importance of home and foreign missions and the pageant "One Father of All" that was most effectively presented at Vespers. Dr. Stevenson completed Sunday's program with one of his most excellent addresses on the subject of the week.

Everybody, boys and girls, is invited to the play to be presented Sunday night at 8:00 p. m. in the chapel.

Watch for new posters, and let's all try to learn just a little more about world conditions by reading about missions this week.

"Go ye into all the world" is a command given to every follower of Christ! Have you answered this question?

SPIRIT

We thought we had it and since Y. W. Sunday we know we have it. The debate resolved: that, Foreign Missions are more important than Home Missions, was given very effectively and very convincingly. The points brought out by the Affirmative were that

1. The need is greater
2. Workers are fewer
3. Our relationship with other nations requires it, and
4. The requnrement of Foreign Missionaries is higher, thus showing greater importance of the work.

The points brought to us by the Negative were that

1. Home Missions are necessary because we are looked to as leaders and must keep our standards high,
2. Assimilation of foreigners requires it,
3. Home missions are basis for foreign missions, and
4. A soul in our home land is as valuable as a soul in a heathen land.

However, the judge left the decision to our consciences.

Are we debating this question, or have we formed a decision? Perhaps this Missionary Week will help us.

SENIOR NEWS

Dr. Lovingood: Well Roy, how's that foot? Is it getting strong?

Roy: Yes, pretty strong. It hasn't been washed for six weeks.

August Johnson's classmates are sorry he has that sore finger.

Ask Ici how he like's Sunshine. He knows the ropes all right.

How do you like Poe's hair now days? It parts a little to the left of his nose line.

J. Lynn McClung spent last week end at Concord.

Although we cried about Beth's death, we still see her around on the campus.

Ran Wilson got a nice box of candy and cookies from somewhere.

Ask Mary Ridgway why she wears her hat to chapel.

Diamond rings are very numerous except among the Seniors. Get busy girls!

BASKET BALL NEXT

Musick, McMurray, McGinley, and Janoviczky Are Back and Looking Better Than Ever.

Real Quality In Last Year's Scrubs And Freshmen.

Basket ball practice has gotten well under way, and the prospects for a winning team are excellent. Pre-season practice gave a number of new men a chance to get in shape by the beginning of the real drive. Several men availed themselves of the opportunity to get a jump on those who were out for foot ball, and as a result several are showing remarkably good early season form.

Coach Honaker has four letter men, Captain McMurray, Musick, McGinley and Janoviczky, a nucleus which to build his 1922-23 machine. The old men are back with a spirit to win, and they look better than ever—which is saying a right smart. Of the Scrubs of last year, Shorty Sneed, Joe Gamble, Schmidt and D. Watkins are making an excellent showing.

The most likely looking Freshmen are Riskey, Veach, Anderson and Parke. These boys all have natural basket baal ability, and it is practically certain that some of the gaps left in the team will be filled by these fellows. Most of them have had basket ball experience, and have starred on high school teams.

POOR TELEPHONE SERVICE

H. K.: Have you a Gettysburg directory in the library?

Miss M.: No; what do you want of it?

H. K.: I'm trying to find Lincoln's Gettysburg address.

PORTRAIT OF J. DALTON BY JOHN LONSDALE

The Quaker *who made* Chemistry a Science

CAVENDISH had shown that two volumes of hydrogen and one of oxygen always combine completely to form water and nothing else. Proust, a Frenchman, had proved that natural and artificial carbonates of copper are always constant in composition.

"There must be some law in this," reasoned Dalton (1766-1844), the Quaker mathematician and school teacher. That law he proceeded to discover by weighing and measuring. He found that each element has a combining weight of its own. To explain this, he evolved his atomic theory — the atoms of each element are all alike in size and weight; hence a combination can occur only in definite proportions.

Dalton's theory was published in 1808. In that same year, Napoleon made his brother, Joseph, king of Spain. This was considered a political event of tremendous importance. But Joseph left no lasting impression, while Dalton, by his discovery, elevated chemistry from a mass of unclassified observations and recipes into a science.

Modern scientists have gone beyond Dalton. They have found the atom to be composed of electrons, minute electrical particles. In the Research Laboratories of the General Electric Company much has been done to make this theory practically applicable so that chemists can actually predict the physical, chemical and electrical properties of compounds yet undiscovered.

In a world of fleeting events the spirit of science and research endures.

SUCH IS FOOTBALL

In the fall a young man's
Fancy,
And the fancy of most
Everybody else,
Lightly turns to the thoughts of
Football.
Then the old Vet
Gets out his foot ball togs,
And those
Socks
That he mooched last year from the
Allen Academy,
When he left, and goes out
And runs
Till his tongue hangs out his mouth
And by and by
There comes a
Game,
And the St. Xavier half-back
Knocks him
Higher
Than a kite
And they carry him off the field
On a stretcher,
And the crowd cheers.
Such is
FOOTBALL.

Miss Mary Bigelow read at the Court House Saturday at an assembly of the County teachers.

Misses Ethel Dorn and Louise Gollmar gave a recital Tuesday night at Springbrook School.

Miss Annarine Atkins and Miss Ethel Dorn made their appearance before the Chilhowee Club last Friday afternoon. Miss Atkins read a one-act play, ''Suppressed Desires'' by Susan Glaspell Cook, and Miss Dorn read Act I of ''The Taming of the Shrew.''

219 SAYS

Boys when she dashes a pebble at you don't dodge. If you do you might get hit.

''That was a terrible blow'', murmured the Professor with the bad cold as he stuck his handkerchief into his pocket.

Co—''But, don't you lose lots of sleep by working at the Sheet Mill?''

Ed—''Oh no! You see I have two classes under the Dean.''

Would you call it an optical illusion when a poor fish falls for a pair of eyes and then marries the whole girl?

Not all women stoop to conquer. Some of them have to tip-toe.

Fellows, it's most Christmas time. You'd better begin to commence to sever relations with the ''wee honey lassie''.

HE GOT THE SIGNALS CROSSED

The Half-back to his tailor went to
bag a new Fall Dike
A Scottish plaidMan English serge—
or anything you like,
He picked a suit that suited best to
hold him in the swim
And stood up like a Samson when
his tailor measured him.

Alack, the tailor did not see within
the Half-back's eye
The far away and dreamy look as
he began tocry,
The measurements to one who sat
and copied on the run,
The tailor's spiel of ''thirty-six''—
nineteen-eight-forty-one.

For as a whirlwind leaps to life or
a tornado sweeps,
Across the vale, with mighty roar
and sundry whirls and leaps.
The Half-back bent his bull-like
neck, and charging for the door
Caved in four of the tailor's ribs
and stamped him on the floor.

And for the poor aid sitting by—
upon a bee-like line.
The Half-back rushed with dizzy
speed and kicked him on the
spine.
And when the cutter butted in upon
the tangled wreck,
An elbow hit him in the eye—a fist
fell on his neck.

About—about in dizzy rout around
that tailor shop,
Chairs went to smash and desks to
crash while clothing took a flop.
The plastering fell off the wall—the
windows caved in later,
Until the Half-back bellowed
''down' beneath the radiator.

The tailor feebly opened his eyes
and with a sickly groan,
Began to rub his shattered head and
tap his fractured bone,
''What have I done to you'', he
cried, ''that you should treat
me so?''
''That you should crack my helper's
spine, and lay my cutter low?''

And then the Half-back looked about
and woke up from his trance,
He gazed upon his tattered shin—
the gore upon his pants,
''I dreamed—while you were measuring—we needed one more
yard.
And then—you called my signal for
a cross buck over guard.''

—Grantland Rice, *The New York Tribune.*

DOWN IN THE MUCK OF THE LINE

The half may punt for fifty yards,
The full may buck for five,
The quarter's the brains that makes
the gains,
And keeps the team alive.

But when the tiers, rock with cheers,
And airs like a nip of wine
Here's a toast to the souls, who
open the holes,
Down in the muck of the line.

—*The Auburn ''Plainsman''*

THE SCRUBS

We can't begin to say enough about the scrubs. These boys played real foot ball all season, with a fight and spirit excelled by nobody. They are almost as necessary to a winning foot ball team as the varsity boys themselves. They're the kids that meet the varsity's charges day after day. They don't get the public credit that the varsity gets, but we think they deserve almost as much.

In the games they played, they gave a good account of themselves. They mopped up with Hiwassee, cow-tromped Maryville high, and went down with colors flying before the savage attack of the varsity, and the luck of the U.T. Rats.

They were not of varsity calibre in the physical side of the game, some because of lack of weight, some because of lack of experience, some because they did not possess the inherent ability to play steller foot ball, but none failed to make the varsity for want of pep, fight or spirit.

First, we want to say a little about that scrappy, heady, and efficient little captain and quarter back—Jimmie King. Jimmie likes to hit 'em, and he hits 'em. He starred in every game he played in, and Jimmie should be ripe for the Varsity in a mighty short itme. Joe Gamble at full starred the whole season. Joe gets his head low and rams the line for a fare ye-well. His defensive work in backing up a line is second only to Captain Sullinger's. As a chaser of punts and a kick-off man, he is second to none. Following closely in the steps of Captain Jimmie and Joe are Justice, half, Ellis and Parke; of the wicked toe-ends, Beaucoup, Greenlee, and Maynard Dunn, tackles, Brown, Baldwin and Toole.

FRESHMENT BASKET BALL CHAMPIONS

The annual Y. M. C. A. class basket ball tournament was won by the Freshmen. The Fish fought their way to the top by setting down the Seniors, Third Preps and Sophs in order. And it is our opinion that they deserve it, although it is only fair to the other classes to say that their best men were declared ineligible, as being letter men, while any Freshman was allowed to play.

The Third Preps eliminated the Fourth Preps in the first contest on Monday afternoon. The Sophs accumulated a sizeable score at the expense of the Juniors in a rough-house game Monday night; the Seniors, after holding the Freshmen in the first half, were completely snowed under in the second half, and the Freshies came out on the long end of a substantial score.

A couple of games were played Tuesday afternoon. The Freshmen completely outclassed the Third Preps and spoiled their hopes of championship. The Juniors had more difficulty in disposing of the Fourth Preps in an exhibition game.

The Freshmen and Sophs locked horns in the finals Wednesday afternoon. The game was by far the best, closest, and most hotly contested of the whole tournament. The end of the first half found the score knotted, each team having eight points to their credit. The second half was hotter than the first and the score see-sawed up and down until the end of the game found the Freshmen two points ahead of the Sophs. The final score was 20-18.

The tournament was played early in order to give the boys a chance to display their ability in a game. The upper classes had long ago been robbed of their talent by the varsity, but in the Freshman and Sophomore classes there was no end of first class material. Thrower, Schmidt, Betsey Howard and Doug Watkins looked like varsity fodder. The preps offer Parke, Ellis and Johnson as their best. The champion Freshmen had a whole team full of stars. Riskey was in a class by himself as a forward.

They boasted in Veach and Joe Gamble, the best pair of guards in the tournament. Raymond Anderson at center looked good enough to be on anybody's team.

PI KAPPA DELTA NOTES

Pi Kappa Delta met Wednesday night for its regular monthly program. A good showing of members were present, and a lively program was given.

Mr. John Stockton was initiaed into the order and promises to become one of the enthusiastic members of the fraternity.

Following the initiation the following short but lively program was given. This program consisted of a number of extempore discussions of forensic subjects of general interest. The subjects discussed were:

1. Why are so few people interested in forensics, Ralph A. Armstrong.
2. How our forensic activities can be improved, Prof. E. R. Hunter.
3. What are the relations of our Literary Societies to forensics, David King.
4. The things Pi Kappa Delta can do to promote forensics, H. R. Arnold.

Members of Pi Kappa Delta who missed this program missed an excellent one. Be sure to be out to our next meeting. Pi Kappa Delta is going to be a powerful force for the success of our debating season this year.

Program for January 10th:

1. How may we prevent ''framed'' debates in the preliminaries?
2. Could Pi Kappa Delta function as a coordinating council for forensics in M. C.?
3. Can you suggest a program of advertising and support for forensics that P. K. D. could put on?

How shall we get our Keys?

ALPHA SIGMA

December second is the distinguishing date that marks off another one of those splendid occasions, when Alpha Sigma gathered in their society home to participate in, and to enjoy literary fellowship for the evening. A goodly number of the fellows were in attendance, which always creates ''pep'' and enthusiasm, and incidentally brings credit to your society.

However, the roll call indicated that some others were conspicuous for their absence. The regular presence of irregular attenders, and all others for that matter, is not only urged upon. You as a cordial invitation and as a mark of the Society's interest in you, but it is further urged, as a duty to yourself, your society, your Alma Mater and especially to the community in which you are going to live when your period of preparation and training has perhaps all too soon been numbered with your yesterdays.

Living and vital topics of the day are kept on the program for both debate and address. The conventional and the comic are mingled in due proportion for instruction and amusement. The program throughout is specially designed to interest you. And the good wishes of the society is for your greater participation in all the Society's activities.

Next Saturday evening the Philippine question will be debated. This question is especially important to us as it is the question for our coming circuit debate. All College men, and especially those, who are out for debate are cordially invited to hear Messrs. Cox and Stanbery discuss this question.

ATHENIAN

Athenians to Present A Kipling Program Next Saturday.

Last week Athenian enjoyed a program of orations, Thanksgiving was brought clearly before us by Mr. Greybeal in his carefully constructed and well delivered speech. Mr. Robinette sent for the clarion challenge for America to awake in his dramhatic oration on that subject. Mr. Smythe sang a very acceptable solo. Mutt and Jeff appeared, yes and they more than appeared. Talk about local color, they had it. We refrain from quoting because we have been given to understand that to do so would be to imperil our bodily welfare. The program was closd by the song America sung by the society.

Next week the Society will present a Kipling program, but in order to give a little humor to the meeting it was thought wise to give a little advise to the lovelorn.

If you want to hear the private questions of our local moonshiners answered in public, come on time!

The real literary part of the program will be entirely devoted to Kipling. Two selcted readings will be given, and also two of Kinpling's poems that are set to music will be sung. Professor. Hunter will give The Gospel According to Kipling. Fellows, you know that such a Kipling program will be full of pep and punch.

FENCING

Mother:—Father, when are you going to fix that fence?

Father:—Oh, I guess next week when John comes home from college.

Mother:—But what will the boy know about fixing fences?

Father:—He ought to know a heap about it. He wrote that he was taking lessons on fencing for a month.

Prof. Vannest says:
''Man's work is never done,
''Woman's work is never begun''.

A REVIEW OF THE SEASON

(Continued from page one)

we have a new angle on the season of 1922.

Again, there is to be considered the comparative accessions to the team. A year ago the varsity recruited seven men to its ranks who had not been members of the squad before. These men: Acton, Dinwiddie, Hill, McLane, Parker, Rice, and Thrower, would make a fairly respectable little varsity of their own. This year, in contrast, only three men altogether new to M. C. football, Clemens, Hamilton, and Riskey, have won varsity berths. This is said with no desire to disparage the fine recruits from last year's reserves who have come to be valued members of the varsity this year. Indeed it is surely a sounder policy of building which draws the material for each succeeding team from our town reserve supply. If such a thing as a real Maryville system of play is ever to be developed, it must come in this way. Too long have we been depending on the infusion of new material into the make-up of each new team to give it strength. But the fact remains that never in all the history of M. C. football did such an avalanche of super-excellent footballers slide our way as in the fall of 1921, and to that fact, some, at least, of last year's phenomenal record is due.

Moreover, when a coach loses in one year, Eddie McLane, Jimmie Hendrick, John Hendrick, Hill, Cec McLaughlin, Ford, Sullivan, and Parker and so must replace two ends of more than ordinary ability, a punter better than most, a halfback of unusual driving power, a center far better than the average, a tackle of invaluable brain and brawn, a guard of long and worthy experience, and a halfback who could punt and run interference with great effectiveness, he has his work cut out for him, especially in view of a harder schedule and of increased expectations from the students and alumni. But our comfort is in this: when the reserves of one year hand on to the next year's team such material as Bowles, and Crawford, and Music, and Charley Partee, and Josh Proffitt, and Schmidt, and Baxter Williams; and when Freshmen come in, such as Ken Clemens, and Hamilton, and Riskey; and when in the offing there is such splendid reserve material as Jimmy King, and Parke, and Joe Gamble, and Justice, and Johnson Ellis, and others too numerous to mention here, the real strength of football as an institution on the Hill is beginning to appear.

We, at home, have had only small opportunity to know the team by actual observation. We saw them overwhelm East Tennessee Normal at the outset of the season, and we saw them defeat Milligan 19 to 6 without extending themselves, and most of us saw the U. T. game, and we were all primed for the fray with Cumberland which for some inexplicable reason the Cumberland team neglected to grace with its presence. Aside from this meager assortment of home games, we had to take our enthusiasm out in wishing the team well and cheering them when the results of the games reached us. But, as was remarked a moment ago, most of us saw the U. T. game and it has taken us some two months to come to a real realization of what we saw. We saw our valiant battlers hold one of the strongest teams in the entire South to three touchdowns. None of us realized that day what a really great team Tennessee had. In Campbell and Clayton the University possessed two really great backs, and Campbell-to-Holt-or-Lane was a forward-passing combination of the very highest order. This is the team our men played to a 21 to 0 score that October day,—the team that humbled Kentucky and the Mississippi Aggies, that outplayed Vanderbilt, that played Georgia to a standstill and overwhelmed Ole Miss by a score more than double the score they accumulated against our Highlanders. And, also we know that in Davis, of St. Xavier, and Sharpe, of King, our men faced two of the best offensive players of the year, both of them being men of all-American caliber, Sharpe indeed, having received all-American mention when he was a member of the Navy team some two or three years ago.

Our hats are off to Coaches and Team! We are proud of their record. Proud of their creditable showing against every team they faced. Prouder of their victories, naturally, than of their defeats, but proud, nevertheless, that no defeat was easy for their opponents and that they never quit fighting till the last whistle sounded. Proud, also, of the fact that they carried the Orange and Garnet into new territory against formidable foes, and that in the men who played the game this year, there is the stuff out of which next year's victories are to come, and that the promise of a sound natural growth for our football institution seems assured; for we, at Maryville, want no hot-house-grown football plant, no imported varieties, no meteoric rises to fame that must be, as surely, meteoric falls into oblivion.

Six members of the squad of 1922 have played their last football for their Alma Mater. For three years, Captain Tubby Sullinger has been a member of the varsity playing a hard consistent game at full-back. Burney Acton has had two seasons on the varsity, and, although he has suffered through most of the past season from an injured shoulder, his performances of a year ago will live for long years as among the brightest in Maryville's football annals. Bob King, last year quarterback on the varsity and two years ago scrub quarterback, played this season at half and at end. Bob has been a most willing and valuable utility man. Ici Crawford after suffering a broken shoulder in his sophomore year came back to the line this fall and by the end of the season he was making himself felt very forcefully if we are to take the word of opposing linemen. Roy McCall throughout his college career has been the victim of football accidents which have never permitted him to play a full season, but every fall Roy has come back loyal and eager to do his best for Maryville. Roy has played a fine game at end. Caruso McClung has performed at half for the scrubs in the last three seasons and has been one of the real factors in giving the coaches a strong reserve squad. Buck Ellis, not a member of the squad this year, but in the two years previous a reserve end is also completing an honorable football career. To all these men who leave the gridiron with this season's close, all Maryville says, "Thank you!" and "Farewell"

ORATORICAL CONTEST JANUARY 19TH.

The oratorical contest which, beginning last year, is to be held annually under the auspices of the two men's literary societies is to be held this year on Friday night, January 19. All college men, members of one of the men's societies are eligible to enter. The prize in this contest is a twenty dollar gold medal given jointly by the societies.

In addition to the award of the medal, the winning orator and the second place man are, on the basis of their showing in this local contest, the men who will represent Maryville in the two inter-collegiate contests in which she is to participate the coming spring: the Tennessee Oratorical Contest including, Chattanooga, Sewance, Vanderbilt, U. of T., and Cumberland, and the Tennessee Intercollegiate Forensic League Contest to be held here, April 6, including Carson and Newman, Cumberland, Lincoln Memorial, Milligan and Tusculum.

The college needs two strong orators to represent her in these contests. Orators will take notice accordingly.

Professor (giving examination)—"Does any question embarras you?"

Bright Student: "Not at all, sir; not at all. The questions are quite clear. It is the answers that bother me."—Exchange.

WHEN THE HUMAN ENGINE BREAKS DOWN

Most causes are known and can usually be removed in time, but the Y Associations of cities and schools,—the former especially—are advocates of the great practice of prevention rather than of cure, but are willing and do help repair many human engines as they succumb to the terrible strain forced on them.

It has been said that 75% of all breakdowns bear some form of local infection: neurasthenia, rheumatism, heart disease, high blood pressure, colitis, and later apoplexy, and in many cases a lingering death. Decayed teeth and abscesses and infected tonsils are the sole cause of many known and unknown breakdowns. What is a person to do and what is the cause? Read what Dr. Ward Crompton says, Wrong plan of living, wrong ideals, lack of understanding of the purpose of life—lack of courage to say "NO" to indulgences—trying to get more out of life than there is in it—speed, excess in work, tobacco, food, drink and sex all contribute their bad influence.

The college student needs to learn how and when to say "NO" and he wants to have enough grit and moral courage to stick to it.

Dr. Crompton gives four preventative measures we all admit are correct but do not carry them out as we should:

1. Develop a smoothly working organic equipment.
2. Cultivate habits of proper eating, exercise, and play.
3. Seek a "health doctor" and be cared for on "Chinese Plan".
4. Seek a high purpose in life—develop along that higher plain of living; God's plan.

Oh that all College men would take heed! It is our personal responsibility; one we should accept.

We aren't running a moonshining bureau, but we publish the following recently received note for whatever it is worth.

Mr. Editor:

Cannot you suggest to the girls of the Hill who want to moonshine that it might be a good idea to adopt the French fashion and wear a green ribbon as a "Barkis is willin'" sign. There are many strangers on the Hill who want a girl of their own, but are cautious when it comes to picking up some other fellow's girl. Girls wear engagement rings, and wives wedding rings, why not let the unengaged wear a token that they are still in maiden meditation, fancy free, but are willing to change that condition, if the right man comes along.

A Bashful Young Man.

When a person is trying to get the best out of life it does not mean that he is seeking to get the most.

THE GOODE SOPHOMORE BEWAILETH HIS AGONY

Come! Sob with me, Infant!
In concert we'll groan.
And your time will have been spent
For profits unknown!
I met flapper Julie
When I were as you,
An' her goo-goo eyes set me wild!
Her bobbed hair was thrilling.
An' her cute talk was filling
My heart with vain thoughts, my dear child!
So I petted and fretted
But all that it netted
Me was a curt blow, "I'm engaged!"
After lending and spending—
With bills never ending—
My clothes need mending,
To the door so heart rending,
I'm paged!

THE JUNIOR SNIFFETHS HIS SORROW

Don't bet is my warning.
My Son, an' it's wise,
For you'll wake in the morning
To dry out your eyes!
I betted on poker.
I betted on games,
Went broker and broker,
An' going broke tames!
I betted and sweated
And then I regretted
While viewing the hopes that were shot!
I borrowed and sorrowed,
'Till my brow was deep furrowed,
Did I win on a game? I DID NOT!

NEVERMORE

(Apologies to Poe)

Once upon a midnight dreary, as he sat and called her "Deary",
On a sofa built for one, but holding more,
Suddenly there came a rapping, as if of someone gently tapping.
Tapping at the parlor door.
"'Tis my father, sir", she murmured.
Only this and nothing more.

What cared he for her relations?
He was full of exclamations,
Such as "Lovey, does oo love oo deary more,"
When father tired of waiting, waiting being aggravating,
Opened wide the parlor door.
Only this—but wait! There's more!

Ah! Distinctly he'll remember that cold night in bleak December.
For in places best unmentioned he's still sore.
When father's foot had landed, this young man for life was branded.
As he flew out twenty paces, he did roar:
"Your old man has hurt my feelings,
With you I will have my dealings
Nevermore!"

The best reasons one is able to give for failure never are convincing to others.

BAINONIAN LITERARY

For the two past Saturday nights Bainonian has had very good programs, as usual. The program on November 25 was a clever comedy, "Who Kissed Barbara?" The cast was well chosen and they played their part splendidly.

Barbara Nichols - Marie Armour
Katherine Blake - Christine Rackett
Paul Blake - - - Felice Morgan
Horace Gregory - Elizabeth Moore
Jame, the butler, Henrietaa Jackson

Before the comedy we were entertained by The Jazzbel, Sarah Witherington and a jazz orchestra, composed of 'Babbie' Blair, Helena Farrar and Sallee Huffaker.

The program on December 2nd was one of historical value. It revealed to us Women of the Past.

Characters

Father Time - - Harriet Green
Student - - - Florence Whitfield
Spirit of Yesterday - - Nina Lou Landis
Queen Elizabeth - Martha Anderson
Juliet - - - - Lucile McRady
Joan D'Arc - - - Lucy Morgan
Ophelia - - - Virginia Paulsell
Juanita - - - - Bonnie Pickle
Spirit of Today - - Ethel Willard

Bainonian has always found talent among her members and this year as well as years of the past, many have displayed their talents among which is Edith Keen, who played a beautiful 'cello solo at this program.

PEP

Vigor, virility, vim and punch—
that's pep;
The course to act in a sudden
hunch—that's pep;
The nerve to tackle the hardest
thing
With feet that climb and hands that
cling,
And a head that never forgets to
sing;
That's pep.

Sand and grit in a concrete base—
that's pep;
A friendly smile on an honest face
—that's pep;
The spirit that helps when another
is down,
Knows how to scatter the blackest
frown,
That loves its neighbor and boosts
for its town—
That's pep.

To say "I will," for you know you
can—that's pep;
To look for the best in every man—
that's pep;
To meet each thundering knockout
blow,
To come back with a laugh because
you know
That you'll get the best of the wide
world's show—
That's pep.

—Selected.

The person who can see only one side of a question is just as likely to be seeing the wrong side.

ADDRESS AT THE DEDICATION OF THAW HALL

By Dr. Edgar A. Elmore, Chairman Of The Directors Of Maryville College, On October 12, 1922.

Members of the Synod of Tennessee and Friends of Maryville College:

There have been thrilling moments in the history of Maryville College. One was when we saw the material brought together for the building of Anderson Hall, the first college building, and knew for a certainty that the old cedar-covered hill was to be transformed into College Hill, and the time for the birth of the new Maryville College had come. Another was when Baldwin Hall began to rise as the forerunner of the dormitories of the College. Another when Mr. Thaw, Wm. E. Dodge, and Preserved Smith signed the subscription paper that, in the end, secured the first hundred thousand dollar endowment. Another when the letter was opened that let us know that Mr. Thaw and some of his friends had made a subscription making possible the Lamar Library. And now today, when we are gathered in this great building to dedicate it to the memory of the generous donors of the building, we have reached another thrilling moment in the history of Maryville College.

How shall we approach this building? First, along the path of evolution, Christian evolution, the evolution that begins with 'In the beginning God'', and is the unfolding of his gracious purpose. If you had come to Maryville College in 1868 and inquired for the boarding hall for students, you would have found on a side street a long one-story, wooden building unpainted, weather-beaten, uninviting— furnished with pine tables and benches for seats. The presiding genius was an old colored aunty with kindly heart but dim eyesight. She knew nothing of germs, calories, vitamines, dietetics, or balanced meals; but she gave us corn bread, molasses, cheap vegetables, and side meat which had one desirable quality—it made plenty of gravy; and then on Sunday, as a special luxury, a piece of dried apple pie—''plain living and high thinking'', with emphasis on the ''plain''; and yet many of us making a fight for an education were grateful for even that much. Among the men at that table was John Caspar Branner, the future president of Leland Stanford University.

Such was the boarding system of Maryville College. That was the beginning. From such rudimentary beginnings, with many experiments, the effort to feed the students has gone until Mrs. Wilson and Professor Waller (both names to be held in high reverence by Maryville students) evolved the system now so successful and unique among the colleges, in furnishing good food at low cost.

And now, to crown it all, this magnificent, substantial, adequate building equipped with all modern conveniences for its purpose is given freely and graciously to meet the needs of the student body for years to come. When we look back to the poor little building of 1868, and then at the generous proportions of this structure, we can but exclaim, ''Behold what God hath wrought.''

Or again we would approach this building along the psychic path. Psyche means spirit. More than a hundred years ago there developed in the heart of Dr. Anderson a spirit that has continued and has become known by all lovers of Maryville College as ''the Maryville spirit.'' It is one of the greatest assets of the College. Now it is a well-established fact that every spirit must possess a body in order to express itself. It is helpless unless it can find some body it can use to express itself.

All these years this spirit has been seeking bodies or instruments it could use. As one building after another has been erected on this Hill, it has only added one more opportunity for this spirit to work, to develop some phase of its activities. And as this great building reaches its completion, we rejoice the Mayrville spirit is to have a larger body to use, a fuller opportunity to prove a help and inspiration to the students of this College.

One characteristic of the Maryville spirit has been to keep expenses low so as to keep education within the reach of all. This building, making possible cheap and wholesome table board, will give this spirit its best opportunity. The Maryville spirit has always been the democratic spirit— equal opportunity, equal standing, no ranks or classes, the man who works his way through college treated the same as the man who has abundance, the man who waits on the table as much honored as the man who sits at the head of the table. This building with its opportunities for self-help, its chances to work for board, its equality treating all alike, manifests the Maryville spirit.

The Maryville spirit has always been to help to prepare men for college; to take those who have not had much chance and to give them a chance. This has made necessary a preparatory school. This new building has allowed important readjustments that have made it more fully possible than ever that the preparatory school, as yet still necessary, should be housed alone, under its own rules and its splendid corps of teachers in its work of fitting students for college. Nor must we forget Manual Training, here finding one of its temporary homes as it makes head, heart, and hand ready for life's work. And even if the cedars of this hill, which have so often been a 'very present help'' to many a student ''in time of trouble'', are being transformed into ''hope chests'' in this department, we shall not object, for many of us will thank God forever for the wives we found here who have blessed our lives.

But again we would approcah this building as taking its place on a star-crowned hill, and having a place in a galoxy of names never to be forgotten in Maryville history. Like parts of a great constellation, on this hill top these buildings arose above the horizon: first, Anderson Hall; then, Baldwin; then, Lamar, Willard, Bartlett, Fayerweather, Voorhees, Carnegie, Pearsons, and The House in the Woods. We rejoiced over these as they arose, but we felt that in this list of illustrious names there was one star lacking in the constellation. No list of the great names of Maryville would be complete without the name of William Thaw, and now our joy is complete as this building, ''Thaw Hall'', takes its place in the constellation as a star of the first magnitude, to shine on throughout the ages.

Mr. Thaw, as we have already been told, one of the first givers in the resuscitation of Maryville College; he has been the largest giver, the most constant giver, and the longest giver, for he left behind him his noble companion imbued with his same spirit and interest, and she has gone on giving year after year until her generosity makes possible the crowning gift of this great building. All honor to her name!

Let us then dedicate this building to the memory of a man who, from the first, gave to God's work a definite share of his income, holding on to this habit even in the hardest years of his life.

Let us dedicate it so that it may stand here as a perpetual proof of Mr. and Mrs. Thaw's interest in the welfare and development of the young people of this section of our country.

Let us dedicate it with the hope that it may help to make men and women of the same breadth of view, and of the same spirit of philanthropy and abiding interest in Christian education, as the donors possessed.

In the words of Dr. Anderson, let us dedicate it to ''the glory of God and the advancement of that kingom purchased by the blood of his only begotten Son.'' Amen.

LA TERTULIA IS ORGANIZED

Duc to the increased interest in Spanish and things Spanish, the third year Spanish class organized a Spanish Club, to be known as La Tertulia, on Saturday, December 2d. The officers are as follows:

President - - - Mary Ridgeway
Vice President - - Carl Schmidt
Secretary - - - Felice Morgan
Treasurer - - - Faye Standish
Editor - - - - Ethel DeHaven
Faculty Adviser - - Mrs. Minton

The object of the club is to give training in conversational Spanish, and to create a deeper interest in the Spanish language and customs.

Membership is open to those who have lived or traveled in Spanish countries or have had the equivalent of two years of collegiate Spanish.

Quiere Ud a ser uno tertuliano?

PALACE THEATRE PROGRAM

Richard Bathelmess, in THE BOND BOY. Also Educational Comedy, Monkey Shines.

SATURDAY, DEC. 9th.

Tom Mix in FOR BIG STAKES. Also in The Days of Buffalo Bill.

MONDAY AND TUESDAY DECEMBER 11th. & 12th.

Wesley Barry in RAGS TO RICHES. Also Kinogram News.

WEDNESDAY, DEC. 13TH.

THE FACE IN THE FOG, with Lionel Barrymore and Seena Owen. Also Century Comdy, Bath Day.

THURSDAY & FRIDAY, DECEMBER 14th. & 15th.

RICH MEN'S WIVES, with House Peters and Claire Windsor. Also Educational Comedy, Rolling Stones

''My brother takes up Spanish, French, Italian, Hebrew and Scotch.''

''He must be a great student.''

''No. He runs an elevator.''

A senior has adopted this maxim. ''Get 'em; pet 'em; forget 'em''. We wonder to whom he refers.

A REVIEW OF THE PLAYERS

(Continued from page one)

P. G. Rice

Rice has just finished his second successful year of Maryville foot ball. The big red headed boy has held down a guard's position for two years and has made himself a reputation and a half in the doing. P. G. has plenty of speed and scrap to use along with his size, of which one might say he has a plenty, something like a hundred ninety pounds put up in a package five feet and eleven inches high. P. G.'s a good'in, and we like his pep, his grin and his spirit, and wish him another pair of successful foot ball seasons at Maryville.

George Dinwiddie

Dinwiddie's our big boy. Only a small ice berg of two hundred twenty pounds distributed from the ground up as high as six feet four and then a little more. He's the man the opponents can't run over and the one that runs over his opponents. We like to see the big boy charge and his opponents hate to. George has played two years on the Varsity and should be good for as many more.

Carl Schmidt

Schmidt has played a great game at guard all year. His fighting spirit, speed and size soon earned him a varsity position. Schmitty is one of the most valuable line men we have had in a long time, and men like him don't grow on every bush. Schmitty had hard luck last year, an early injury kept him on the hospital list most of the season and kept him off last year's team. He is five feet inches tall, weighs a hundred eighty, is a Sophomore, and is eligible for two more years of varsity foot ball.

Roy McCall

Roy McCall is the tough luck man of the squad. For the last four years he has been outs with Dame Fortune. Every season, some injury has thrown him out for the rest of the season. This year he lasted till the St. Xavier game, the last week in October. A dislocated foot put him on crutches. Roy has always made himself a man to be dreaded, his tackling has been of the most savage sort, in fact, he's hit too hard for his own benefit.

We like his pluck and hate his luck. Roy has always been one of the hardest hitters, and peppiest foot ball men we have ever seen. He stands five feet seven and a half and weighs in at a hundred forty. He has completed his foot ball career at Maryville with honors spread out among parts of four seasons.

Baxter Williams

Baxter Williams earned fame in base ball, and tried his luck this year at foot ball, and made good. Bax held down a regular position at end in a more than creditable manner. His offense is excellent, and his ability to hang onto a forward pass is mighty nigh uncanny. Baxter is one of the most adept receivers of the forward pass that has graced the Maryville grid since the days of Doc Feeman. Baxter has carried a large share of the kicking burden, especially in the earlier part of the season. and take our word for it, he has a pretty mean toe too. He stands five feet eleven and a half and weighs a hundred and seventy pounds. This is his first year of varsity foot ball. A sprained ankle keeping him among the cripples for nearly all of last season.

Doris Musick

We think Musick is about as scrappy a foot ball man as we've ever seen. Tarzan just naturally likes to hit 'em, and as for us, we like to see him hit 'em. Let Doris get his nose mashed in the first play a little blood in his eye and he's *right* for the game.

This is Musick's first year as a varsity man, and he has lived up to his job in every way. He weighs a hundred and fifty pounds, and measures five feet eight. He is a Soph and should be good for a couple more years on the Maryville grid.

Clemens

Clemens has had a hard job filling Cece McLaughlin's shoes at center. Maryville fans have been used to having good centers and after three years of big Frank McLaughlin and two of Cece, one of the greatest centers to be found any where, have come to expect a great deal of the pivot man. Ken has capably filled the middle place and he and Wynecoop have successfully upheld the traditions of a good center at Maryville.

Ken came to us from Biljo's championship high school team, where he starred in the backfield and at end. Coach Honaker soon developed him into a pivot man and did a creditable job of it. Ken stands in his sock feet, and tips the scales at a hundred seventy. He is a Freshman and we may expect several more seasons of foot ball from him.

Earle Proffitt

Josh Proffitt has the reputation of being the roughest man on the squad, and personally we're inclined to believe that that reputation isn't grounded safely on fancy. Josh has a hundred eighty-nine pounds of thoroughly toughened North Carolina bone and muscle, and its piled six feet and two inches high. Josh has the habit of using his hands none too gently on the other fellow, and Coach says that's a good habit. Josh was a little green at the beginning of the sesaon, but he has seasoned rapidly into a dependable foot ball man. He played guard in the early part of the season but later Coach worked him at tackle. He is the youngest man on the varsity and we expect a lot of great foot ball out of him before he leaves old Maryville.

H. C. Bowles

Bowles held down left tackle and guard in great fashion. After sojourning last year with the scrubs, he came back this fall and found a varsity berth awaiting him. Bowles has played a steady consistant game all year, and has been a stumbling block in many an opponent's way. He is a hard hitter and carries every inch of his five feet eight and every ounce of his hundred eighty-one with a rush that can't be stopped. He is a Sophomore and should be good for two more years of foot ball at Maryville.

L. T. Crawford

Ici's rise to fame has been rapid. In the early fall a rank outsider, he attracted attention, in the first scrub games. Later in the season he began to twinkle, and won fame in the scrub varsity game. In varsity games he upheld his reputation gained in scrub contest and by the end of the season was considered as being in the front ranks of pigskin artists. Crawford balances a hundred eighty-one pounds, and stands five feet and ten inches high. There's only one thing we regret about his record—the thing's complete. We wish Maryville had him for more foot ball seasons, but Ici's a senior and we guess his foot ball days are about over.

HERO STUFF

From a front seat she watched him, while the sun burned her delicious nose. Faster, dizzily facter, swirling and uncaring, carrying with him the feverish ever-swelling, tumultuous ecstacy of maddened fans. He punted a perfect ball.

Later, showered, shaved and splendid, he sat beside her in a porch swing and the moonlight falling on his serious bronzed young face, he explained it all to her earnestly.

And the girl beside him—fragile and fragrant, and made up to be pretty—raised her corn-flower bluish eyes to whisper:

"You make it so clear, Johnny. You've got a wonderful mind!"

But the next night, in a low racing car, purring through a moonlit lane, beside an anaemic young fellow who made real money and weighed one hundred and nine pounds, she snuggled within the stoop of his round shoulder and trembled:

"Oh, Herbert—it's so—so wonderful to have a strong man to love you."

HIS BEGINNING

Father to his Son: When I began in the business world I had absolutely nothing but my intelligence.

Son: You had a very small beginning.

A little burn makes a big smart sometimes. But even a big burn could not make some people smart.

"THE BEST PLACE TO TRADE"

The Highland Echo

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME EIGHT | MARYVILLE, TENNESSEE JANUARY 12, 1922 | NUMBER TWELVE

MARYVILLE ACCREDITED BY SO. ASSOCIATION

President Wilson and Registrar Gillingham Attend Conference of Southern Association At New Orleans.

Maryville Is Now Fully Accredited College.

President Wilson and Registrar Gillingham spent the week before the holidays in New Orleans in attendance upon the annual meeting of the Association of Colleges and Secondary Schools of the Southern States. The Association was organized twenty-seven years ago and consisted, at the opening of the recent meeting, of fifty-three college institutional members. While there are hundreds of colleges in the fifteen states covered by the Association, the high standards of the Association have greatly limited the number eligible for membership.

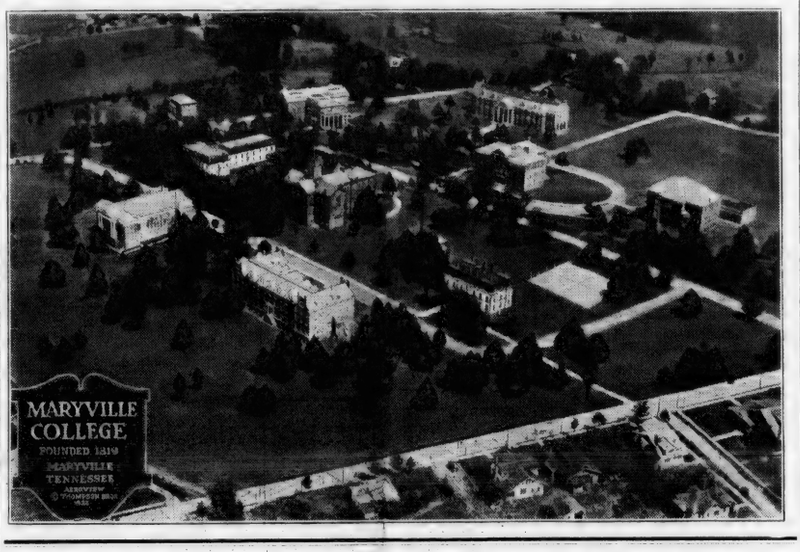
Thirty colleges from all over the South applied for membership. Six of the number, including Maryville College, were admitted to membership.

This is an event of great importance in the development of Maryville. Its graduates will now be accredited all over the United States without question. While many states and many institutions and at least one regional association have heretofore accredited Maryville students, there have been enough cases in which the lack of accrediting by the Southern Association has caused complications to make it eminently desirable that Maryville should be on the approved list as a member.

A committee of the Association recently visited Maryville and thoroughly examined its equipment and work while other committees required extensive reports, which they investigated. The happy result of it all has been that Maryville is now as thoroughly an accredited institution of higher learning as there is in the South.

The other institutions in Tennessee that are members of the Association are: The University of Tennessee, The Univerity of the South (Sewanee), Vanderbilt University, George Peabody College for Teachers, The University of Chattanooga, and the Southwestern Presbytreian University at Memphis.

Maryville has now attained to one of its chief objectives for the current year—membership in the Association of Colleges and Secondary Schools of the Southern States. Another important objective to be sought, which should be attained by the time limit, March 31, 1923, is the securing of the Emergency Forward Fund. President Wilson will devote his entire time to the rounding up of this fund.



MAY DAY REPRESENTATIVES

Just before the holidays the various classes elcted their representatives for May Day. All who were chosen are truly worthy of the honor. They are:

Mary McSpadden, Senior; Faye Standish, Junior; Lucile Heiskell, Sophomore; Katherine Franklin, Freshman; Mary Biles, Fourth Prep; Annie Ellis, representative of the other preparatory classes.

This year the May Day Representatives are to have a new honor. Each of the young ladies that have been nominated in the contest is to have her photograph in the feature section of the Chilhowean. This section of the college year book containing the pictures of these representative college girls will be an interesting section in the book of college memories.

AN AREO VIEW OF MARYVILLE COLLEGE

"THE DOLL'S HOUSE" GIVEN BY BAINONIAN

Ibsen's Great Drama Presented By Bainonian in Annual Midwinter.

The Bainonian Mid-winter committee this year, in the selection of a play, has upheld and if possible raised the standard of Bainonian's midwinters by presenting Henrik Ibsen's great play "A Doll's House". Anyone who saw the play must admit that it made him think in the beginning and that it left him thinking.

Who made you think most? Who put her heart and soul into it and made you live her doll's life with her? Who lived and worked through that dance upon which life depended? Who, but the doll, Nora Helmer, our Annarine Atkins, could do that? Annarine, we thank you for interpreting Ibsen for us so well. We canot forget your Nora Helmer, the wife, the mother, and the woman who would not be a doll forever.

Neither can we forget Torwald, the Model husband as Ed Hamilton portrayed him, nor Mrs. Linden's friendship for Nora as Mary Mcpadden proved that friendship. Do you remember the villian? Oh, yes, that was Ici Crawford, and doesn't he make a good one? The doctor, the maid, the children, and even the porter, each did his part in making the doll's house as much a home as possible. From each character, and from all together we get a real idea of the troubles in the doll's house.

In character, the drama was a most bitter attack on the conventions of family life. It also brought the subject of the rights of women before the public. Torwald is the conventional model husband. He loves his wife and children devotedly. In order to save her husband's health Nora forges her father's name to a note not realizing the seriousness of the offense. She secretly works to pay off the debt, but Helmer discovers the forgery. He denounces her for putting in jeporardy his future and honor, forgetting that love has been her motive. Nora now realizes that her husband regards her as a petted child living in "a doll's house", and that her function is to serve as

(Continued on page four)

MISS RUSSELL WINS T. T. ALEXANDER PRIZE

Contest is Close. "The Deity Of Christ" Judged The Better Composition.

The second annual contest for the T. T. Alexander Bible Oratorical Prize was held Wednesday. This year the contest was open to the young women of the college. The contestants were Miss Myrtle Ardis and Miss Bertha Russell. The winning oration was Miss Russell's oration, which was entitled "The Deity of Jesus Christ". Miss Ardis' oration was "Christ's Atonement for Sin". The orations were of a high order. The prize awarded to the contest was $100 in gold.

Lack of space in this issue will not permit the publication of the winning oration. Next week the oration will probably be published.

MEN'S ORATORICAL CONTEST, JANUARY 19

On Friday night, January 19, in the Chapel, at 6:30 the Men's Literary Societies' Oratorical Contest will be held. Two ten-dollar gold emblems will be given to the two men standing highest in the competition and in addition to these prizes, these two men will represent Maryville in the two intercollegiate oratorical contests in which we are to participate this year. The Speakers and their subjects follow:

John Sanchez, America's Unrivilled Possessions and Place in the World.

Herrick Arnold, The Basis of Industrial Peace.

Leslie Poe, The Forum versus the Coliseum.

Roy Buffat. The Vision of the American Youth.

Edward Cornelius, The Discovery of America.

Hunter Robinette, America, Awake

Henry Cox, The Call of the Infinite

Edgar Cathey, Democracy and the Future.

Clyde Wilson, The 319th Infantry

Barbee Simpson, The Modern Paradox

Bob: Ted, where is Frank?
Ted: Over eating at Pearsons.
Bob: Howda' ya get that way?
Ted: What way?
Bob: Who was ever guilty of overeating at Pearsons?

DEBATE SEASON STARTS SOON

Maryville Looks Forward To a Good Season This Year.

Do not get the impression that because we give athletics a large place in college activities we have no other student activities. We have other such activities. One of those is our forensics. During the coming season forensics is going to occupy a higher place in Maryville than perhaps they ever have before. The schedule this year is of the highest quality. Maryville debate teams are to meet the teams of colleges that have a reputation for high-class debating. There will be some hard contests, but Maryville has an excellent chance for a successful season. The men on the teams are full of pep, and are getting ready for a season of hard work. The preliminaries were held before the holidays. From the large number of men competing the debaters were selected, and given the assignments that appear in the following schedule.

Triangular debate. Maryville, Milligan, Roanoke, April 20. A bonus measure, providing for reasonable compensation for World War Veterans should be framed along the lines of the defeated measure and passed without undue delay.

Affirmative at Roanoke: Eugene Stanbery, captain, Roy Buffat, Hunter Robinette. Negative vs. Milligan at Home: Verton Queener, captain, Henry Cox, Alexander Moody.

Dual Debate with Tusculum, March 26. "The United States should own and control the coal mines. Affirmative at Tusculum: John Stockton, captain. Earl Cole, Floyd Corry, W. Clyde Wilson. Negative at Home: Leslie Poe, captain, Robert Baldwin, Dewey Eitner, Francis Kinsler.

Single Debate with Parsons College at Home, April 4. "The United States should adopt a cabinet-parliamentary government". Herrick Arnold, captain, David King, R. A. N. Wilson.

Debate trip including Carson and Newman, King, Elon, Wake Forest Presbyterian of South Carolina, and Newberry. "The United States should retain possession of the Philippine Islands permanently." Ralph Armstrong, Edward Cornelius, Sam Franklin and Cazwell Johnstone.

THE BASKET BALL SEASON IS ON

Tennessee Comes From Behind To Roost on Long End of 18-15 Score.

After leading the University of Tennessee basketeers up to the last two or three minutes of play, Maryville lost the lead through a long field goal and a pair of foul shots. The Maryville team showed superiority of the U. T. aggregation in floor and defensive work during the entire game. The Knoxvillians were a trifle more accurate with their long shots, and gave the Maryville boys fewer free throws from fouls. Both teams found the basket for five field goals. U. T. threw eight free throws out of a possible 13. Jean made five out of seven throws good.

Veach, as stationery guard, and Musick as floor guard both played great games. Bean and the guards starred for Tennessee. Every Highlander played a hard, determined, and stellar brand of basket ball,—everybody, Rudolph especially.

Maryville		Tennessee
Riskey, 2	f.	Johnson 2
McMurray, 7	f.	Harkness
McGinley	c.	Bean 3
Musick 6	g.	Campbell 4
Veach	g.	Keister 2

Substition: Maryville, Sneed. Novoiczky; Tennessee: Boce 5, Hatcher, Crittenden.

Referee: Barber (Y.M.C.A.)

Point Scoring—

	f.g.	f.t.	Points
Sneed	8		16
McGinley	1	6	8
McMurray	1	5	7
Musick	3		6
Riskey	1		2
Maryville	14	11	39
Opponents	13	13	39

Jean has thrown 5 free throws out of seven attempts, an average of .714. McGinley has made 6 out of 11, an average of .545.

CO-EDS GET CLOSE CALL AT MARYVILLE HIGH

The Co-eds had a close call at Maryville High Saturday night. They had no difficulty in piling up a good lead. Their greater trouble was in maintaining their advantage There was no doubt as to the superiority of the College girls over the high schoolers, but the number of substitutions and the fact that both teams were dressed alike, made for anyhing but fast play. The girls show plenty of pep and passing and the small score should probably be attributed to over-confidence.

PREPS BEAT LOUISVILLE HIGH TO 26-17 SCORE

After allowing the Louisville boys to get away with a 6-0 lead in the first two minutes of play, the Preps started a vigorous offensive which soon gave them a lead that the boys from the river couldn't touch. The Louisville team failed to show the accuracy in shooting and passing, that characterized the work of the preps.

This was the preps first game since their separation from the college varsity, and their showing was highly satisfactory. Ellis was the high point scorer.

Maryville Prep		Louisville Hi
Ellis 13	f.	Cox 7
Rosa 4	f.	Tate 8
Gamble 2	c.	Rowan 2
Sneed 4	g.	Lewis
Matthews	g.	Russell

Substitutions: Johnson 1, fauts; Cox, 2; Buchanan; Matlock.

Patronize Those Who Advertise. They Make The Paper Possible.

The Echo solicits news items, comments, and expressions of opinion from the students, and from interested alumni.

Only one week till exams! Let's review, everybody!

* * * *

Better luck to you next time, you fellows on the basketball team!

* * * *

We are just as busy these days as you are. Therefore, we ask you not to be too critical of the Echo.

* * * *

With basket ball Friday evening, Lyceum Saturday evening, and a Midwinter Monday evening; let's forget exams.

* * * *

The midnight oil is literally being burned by Carnegie Hall boys these days. The old lamps burn till twelve every evening most.

* * * *

Our idea of the thing that would "thrill one pink", would be for one to have all his notebooks and term papers complete.

* * * *

Our annual series of meetings popularly known as The February Meetings are to begin soon. The present is not too early to get into the spirit of these great meetings.

* * * *

Oratory is not a lost art at Maryville. Such is the proof of the recent T. T. Alexander Bible Oratorical Contest. Such will also be proven by the contest that is to occur January 19th.

* * * *

Before the holidays we were often reminding the student body that the Echo is *their* paper, and that they have the *right* of contributing freely to its columns. We wish to again call your attention to the fact. We are trying to make the Echo representative of Maryville life. We will deeply appreciate any contributions that any student may submit, either news items or literary works. As far as possible we will publish all contributions. The idea of a terribly strict literary and faculty censorship is all bosh. Necessarily the Echo has a faculty censor; but that censor is thoroly liberal in his censorship. We invite *all* students to use their *privilege* of contributing to The Highland Echo.

* * * *

FIRST SEMESTER, 1922-23

	a. m.	p. m.
Saturday, Jan. 20	b classes Mathematics	B classes Latin V 6 and 12
Tuesday, Jan. 23	c classes	C classes
Wednes., Jan. 24	d classes	D classes
Thursday, Jan. 25	e classes	E classes
Friday, Jan. 26	f classes	F classes
Saturday, Jan. 27	a classes	

If flies are flies because they fly,
And fleas are fleas because they flee,
Then bees are bees because they be.

Senior Sketches

Starting with this issue we are devoting this space each week to brief sketches of the Senior Class. Brief sketches of the collegiate career of four or five persons will appear each week until all of the seventy members of the class have been represented. We are not the press agent of the Senior Class, and are therefore not giving them any undue boosting. We believe that the members of the Class of '23 are entirely worthy of this space in the College paper, and that such sketches will be of interest to the readers of the Echo.—Editor's Note

The first Senior to be mentioned should be and is, our youthful and worthy president, Charles Francis Ellis.

A man with a mind of his own is Ellis and he expresses himself quite freely, however, that does not keep him from continuing his favorite hobby, eating.

"Buck's" engineering mind says the back of Carnegie needs cleaning up and terraced off. So much for our President.

Lawrence Theodore Crawford, better known as "Ici" hails from North Carolina and is a man of weight and straight-up pompadour.

"A man's a man for a' that" is what Crawford says and is for "Ici" is a big fellow with a big spirit and he has a hobby here at College known as moonshining. Probably that's why he thinks our college needs more and better drives and walks.

Reader, meet Mr. Crawford and feel at ease for he's slow.

There is a winning lass in our class we call Sarah Witherington, a native of Munford, Tenn., and she is our Class Editor.

Gee! But Sarah is high flying for the social conditions at Maryville are not as she would have them, although her hobby seems to be writing letters and dreaming of her brief study in Europe.

We would like for you to meet Sarah in person, but as she is a busy girl with plenty of time we will ask you to be content as it is and place her on a shelf of your memory.

G. Leslie Poe, was born in Daisy, Tenn. in the early part of the twentieth century. He has not grown very far North and South being only 5 feet 7 inches tall but he has made up for it in the distance East and West by weighing 164 pounds. His cheery voice is heard on all sides and we especially remember his favorite expression "Nothing Else But". He has spent four full years with us and during that time has held every office of the Alpha Sigma Literary Society, even to Janitor, has been Secretary of Forensic League, President of College Band, Business Manager Lyceum, Assistant Business Manager of the Chilhowean, and our yell leader for the last two years. In view of all this experience the Senior Class was very fortunate in getting him as a Treasurer.

J. Lynn McClung was born in Mount Hope, Alabama but her home is now in Petersburg, Indiana. Her prep work was done at Fort Branch High School, Fort Branch, Indiana, and she has spent four years with us at Maryville. Her hobby at school is helping with plays and when she has anything to do with one you can always see her on the job and if you listen long enough you are sure to hear that typically American word "Gosh", it expresses a multitude of things for her. She has been Business Manager of the Y.W.C.A. store for several years, Treasurer of Bainonian, Businss manager of M. C. Players, and has had several other offices during her four years here. This year the Senior Class elected her as Assistant Treasurer.

The Candy Kitchen—
For Salad Sandwiches

Christian Association

The Y. W. and Y. M. Enter The New Year With New Goals in View.

The first Senior Y. W. C. A. service of the year was conducted by Louise Sheddan. It was a consecration service, a very fitting one for the beginning of a new year. The Scripture Reading was from Genesis, the story of Abraham's faith.

Various topics and plans for the coming year were discussed. A look at the list of topics and girls who discussed them will prove the excellence of the meeting.

The life-work conference which is to be held the first week in March, by Catherine Wilson.

Attendance at Y. W. Meetings, by Alice McAnulty.

The February Meetings and how to get ready for them, by Dorothy Winters.

Bible Study; its importance in our lives, by Ethel Swindler.

The work of the Devotional Committee and its dependence on the entire organization, by Frances Hickman.

The financial side of Y. W. C. A., by Margaret McKinney.

How the Friendship Council needs our help, by Margaret Duke.

In addition to this excellent program there were three special features. One was a beautiful violin solo by Emma Dyer Blair, accompanied by Margaret McKinney. Another was a letter written by Ruth Muskrat, our Indian delegate at the meeting of the World's Student Christian Federation in Peking. This letter was one of the group describing her trip, which was sent as a Christmas present from the National Student Depart-

LITERARY SOCIETY ITEMS

The New Year Sees The Literary Societies Starting A New Era of Literary Work. The Opening Programs of Saturday Evening Were Specially Good.

BAINONIAN

Bainonian Literary Society did not make any resolutions this New Year, but each individual member must have resolved to make her society better for there was a goodly number in attendance at the first meeting of 1923, and the program was a decided improvement so far as literary value is concerned.

The new officers for the second term presiding, the meeting was opened with prayer by Louise Sheddan. After the usual business of roll call, reading of the minutes, admission of new members, and reports of committees, was dispensed with the following program, arranged by the new program secretary, Charlotte Allen, was given:

1. "Why the Young Men of America are so conceited." Martha Mae Boyer. Miss Boyer proved that the trouble lay with the women who pampered and spoiled them.

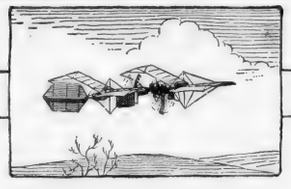
2. Piano Solo, "Prelude by Grieg." Sallee Huffaker.

3. "Do College Girls Make Good Wives?" Georgia Belle Kuhn. Yes, for in college, girls learn to put up with anything

4. "How Maryville College Can Be Improved". Virginia Paulsell. By making this a girl's school with women only on the faculty, thus abolishing moonshining which detracts from the pursuit of knowledge, Virginia thought Maryville might be improved.

In this however there is an inconsistency for when this school

(Continued on page four)



ATHENIAN

One of the best, if not the best programs of the Athenian Literary Society for the year was given Saturday night, December 16, 1922, given jointly with the Bainonians at 6:30 p. m. The first number on the program was a musical trio by Mr. Keen and his two sisters. The numbers were excellent selections, and given well. Then followed the three character one-act play given by Miss Johnson, Mr. Cathey and Mr. McClung. This also deserved the very highest praise Then we were entertained with a series of Scotish Airs given by Mr. Comyan who was dressed in his Highland uniform. Those present know well the praise that these special numbers deserved. Following this the quartet came forth with an excellent production, which was very good, and it was only regretted that they did not reappear when encored. This concluded the Literary program, all of which had been an entire success. After the conclusion of the literary part of the program, the social and refreshment committees took charge of the situation and as for the results—information may be obtained from any member present.

All join heartily in giving thanks to the two committees working together.

The attendance on Saturday night January 6, 1923 was not as well attended as usual, this may be accounted for, as due to the relapse which naturally followed Christmas vacation. But at any rate the program deserves credit. At the begin-

(Continued on page four)

"*The* way of an Eagle in the air"

CENTURY after century men broke their necks trying to fly. They had not troubled to discover what Solomon called "the way of an eagle in the air."

In 1891 came Samuel Pierpont Langley, secretary of the Smithsonian Institution. He wanted facts. His first step was to whirl flat surfaces in the air, to measure the air pressures required to sustain these surfaces in motion and to study the swirls and currents of the air itself. Finally, in 1896, he built a small steam-driven model which flew three-quarters of a mile.

With a Congressional appropriation of $50,000 Langley built a large man-carrying machine. Because it was improperly launched, it dropped into the Potomac River. Years later, Glenn Curtiss flew it at Hammondsport, New York.

Congress regarded Langley's attempt not as a scientific experiment but as a sad fiasco and refused to encourage him further. He died a disappointed man.

Langley's scientific study which ultimately gave us the airplane seemed unimportant in 1896. Whole newspaper pages were given up to the sixteen-to-one ratio of silver to gold.

"Sixteen-to-one" is dead politically. Thousands of airplanes cleave the air—airplanes built with the knowledge that Langley acquired.

In this work the Laboratories of the General Electric Company played their part. They aided in developing the "supercharger," whereby an engine may be supplied with the air that it needs for combustion at altitudes of four miles and more. Getting the facts first, the Langley method, made the achievement possible.

What is expedient or important today may be forgotten tomorrow. The spirit of scientific research and its achievements endure.

DR. GILLINGHAM TO VISIT HOLY LAND

Head of Bible Department Plans To Study and Travel In Palestine and Egypt.

Dr. C. H. Gillingham, Head of the Bible Training Department of Maryville College, will sail for Palestine about February 1, 1923. Enroute he will visit a few places of interest in Europe, including London, Paris, and Rome. While in Syria, he will visit Miss Lois Wilson, daughter of President S. T. Wilson, at Beirut, and his friend of college days, Rev. William A. Freidinger, at Zahleh. Dr. Gillingham has been teaching Bible subjects to college students for fifteen yeors, and during this time he has been interested in Archaeology, studying especially the country of Palestine and the life and customs of the people of Bible lands. The principal purpose of the trip is for first-hand study, and the greater part of the four month's trip will be spent in Palestine ond Egypt. Dr. Gillingham will return about June 1st.

ADAMS—EDWARDS

A marriage of great interest to alumni and former students occurred at Asheville, North Carolina, where on January 2d. Mr. Robert W. Adams, '19 and Miss Lucy K. Edwards, of Asheville were united in marriage. Mr. Adams is remembered as a former editor of the Highland Echo and as an intercollegiate debater of unusual ability. He is now on the staff of the Detroit News and also is connected with the Detroit Chamber of Commerce as editor of its official organ, the Detroiter. Mrs. Adams is an alumna of the East Tennessee State Normal at Johnson City and is an accomplished musician.

Mr. Harold I. Leyshon was Mr. Adams' best man and Miss Irene Edwards served her sister as maid of honor. The Highland Echo is the voice of alumni and friends in wishing for Mr. and Mrs. Adams all joy and prosperity.

MR. ANY HOLIDAY AT MARYVILLE

Pages From Dairy of Visitor At Maryville.

The few college students who remained on the Hill during the Christmas vacation will be interested to know of the whereabouts of one of our visitors here then. The editor of the Echo has just received a Ouijagram from our visitor, Mr. Any Holi-Day from the Milky Way telling of his safe arrival back home and wishing us a happy and prosperous New Year.

Mr. Any Holi-Day was a very interesting character and during his brief stay on the Hill he won the friendship of the entire crowd. He is an Alumnus of this institution and in honor of his visit the college gave him the freedom of the Campus. Here is a page from his dairy which was found just after he left. It resembles that of the Modern Samuel Pepy's Mr. McIntyre in its composition:

In bed till 7:30 then quickly to Pearsons for breakfast. Saw Bob Baldwin there with Art. Same old Jazz crowd. Faculty table had visitors. Looked like students, but they were too dignified. Breakfast good; flakes of corn with cream, then eggs, two, and finally hot-cakes with syrup and lots of milk to drink.

Then away to the lobby and to Moonshine. Up and down the campus until 12:30 then back to Pearsons for lunch. Regular hoorah dinner with spanked cream on pudding for dessert. Lots of talking about and loud. Drank lots of milk and had two desserts. Then away with a pain to spend the afternoon. To the room for a nap till three. Then to the Palace to see Rudolph. Saw Miss Mollie on the street near Hopes but she didn't see me. Luck.

Back to the Hill at dusk and to supper. Fried rabbit and chocolate, a combination I learned to like in my school days. Quit early to get a date for the evening. At six in Theta and there until nine. Lights flash and back to Carnegie. Wind the clock, three folders to the girl in Podunk. And so to bed and to sleep.

JUNIOR FORENSIC LEAGUE

Not everyone at Maryville College knows about the Junior Forensic League, but before the year is over all will know of the Preparatory Debaters, and the records that they make. In the past they have won the majority of decisions.

Last year the Preparatory Debaters engaged in contests with teams of four schools. One engagement was with the team of the Central High School of Memphis Tennessee. We split this dual debate. Only two debates have been arranged for this year. We shall go out confident of success in both these.

On December 11, Debate Coach, Ralph Armstrong, held the preliminaries. Out of a number of strong men that tried out the following were chosen:

Edgar Buchanan, Walter D. Buchanan, James C. Cofer, Thomas H. Kent, William H. Murphy, Henry Welbon; with James Foutts and Hugh C. Huffman, as alternates.

HAM HOUSE PARTY

Over at the Ham House
Next Saturday night,
There's going to be a blow-out
Done upright.
We'd like to have you
Drop around
And spend an hour or two.
The time will be from eight o'clock
Right on through.

These unique invitations were issued to a number of the members of the faculty of Maryville College by the members of the Ham House family—Prof. Hyden, Charles Edgemon, Eugene Stanbery, Dwight and Herrick Arnold, for Saturday evening, January 6th. The acceptances were written in rhyme also and will doubtless be collected and published.

The Ham House is located on Wilson avenue, a very attractive bungalow of Prof. Proffitt's. The guests who enioyed the hospitality of the young men were Dr. and Mrs. J. H. McMurray, Mr. and Mrs. F. L. Proffitt, Miss Green, Miss Gregg,

wife and mother in return for support. She comes to loathe such a life as degrading. She believes herself unfit to be a true wife and mother until she is able to share fully in the burdens and responsibilities of life. Therefore, she proposes to leave her husband. Helmar remonstrates with her on her duty to him, to her children, and to God. But Nora's reply is that her supreme duty is toward herself. We were left to decide for ourselves whether or not she does that duty.

DO YOU KNOW?

THAT: The 1923 Chilhowean is about to be put on sale

THAT: It contains more than 200 pages?

THAT: Eighteen of them are snappy athletic pictures?

Six of them are the six prettiest girls on the Hill?

Eight of them are devoted to a view section? The pictures for which were taken last fall when the campus was at its prettiest.

THAT: This annual contains a good picture of every member of the faculty?

THAT: Not only your class, but every class is amply represented?

THAT: A snap of yourself, of your girl, and of every one else is in this Chilhowean?

THAT: Every organization, every club, every gang have a page in this annual?

THAT: The first aero-view ever taken of this entire campus is in this annual?

THAT: This book is beautifully bound in Black and Gold; making it an invaluable collection of memories?

THAT: The sales Campaign begins Monday, January 29 and lasts for one week only?

THAT: "The Chilhowean" will be on sale to all at the unbelievably low price of $3.50?

SENIOR Y. W. C. A. CONSECRATION MEETING

(Continued from page two)

ment. Sarah Witherington, our Undergraduate Representative, read the letter. Also, Reva Rankin brought us greetings from Miss Clemmie Henry and told us of her great work. She told us of Miss Clemmie's attitude toward her work and we felt that the same thing should be true of ours. We will resolve to do our best and not worry about the results for the Lord will provide.

LOOKING AHEAD

Forecasting is not our line, but we will look ahead a little and tell you what we see down the "Y" Avenue.

First there is our wrestling and boxing group just started and from the sixteen or more husky fellows who answered at first call the other day we are going to have wrestlers and boxers of skill and endurance. And here we predict one of the best socials ever staged by the Maryville Y to take place in the College Gym one evning during the first week of February. Then we will have boxing, wrestling, contests of other nature and EATS for every fellow.

We predict a good year for the Y in general but most of all we are anxious to call to your attention our Life Work Conference of March 2, 3 and 4, at which time we will have men and women of experience to be with us and tell us where we are needed and how we might find the place we are most suited for. If you want a strong Conference and a helpful one just fall in and we will all pull to that end.

In the next and last place we humbly predict that College Hill will experience during the next five months a period which may be a stiff struggle but which will be one of the best five months or less experience here in a long time. And furthermore we predict that this wave upward is to come from both the Student body and the Faculty pulling together provided we do not take our eyes from the never failing splendor capping the mount of progress up which we are climbing.

Now, in conclusion we want to call every fellow's atention to our Bible Study groups in charge of Kinsler, King and Cathey, who expect the men to make the groups what they are supposed to be, namely, Bible Discussion Groups. You, young man, are welcome.

With a Happy New Year to all the "Y" will bid farewell leaving all forecasting behind and looking forward to the best for all.

LITERARY SOCIETIES

(Continued from page two)

becomes a girl's school it won't be Maryville any more, will it girls?

5. Vocal Solo "I Love Him", Ruth Gamble.

6. "The Three Best Looking Men On The Hill". J. Lynn McClung. For the benefit of Carnegie-ites whose curiosity and pride will be aroused, Miss McClung decided that Ed Hamilton with his rosy cheeks and perfumed hair was handsomest. Tubby Sullinger with the good looking twinkle in his eye, and hair of the right color was second best looking. The night watchman known as "Whiskers" was by far sweetest and probably third best looking when his back could be seen in the distance disappearing from view, leaving the coast clear behind him.

7. "Why Dark-haired Men Attract" Alice McAnulty. Because when dark-haired men approach they can be seen more distinctly outlined against the drab background than can blondes, and blondes are 'light-headed'.

8. Piano Solo, "McDowell's Praeludium", Lilah Hembree.

After reports of the literary critic, music critic and censor, the society was dismissed by the Mizpah benediction.

This program was a change from some of our former programs, and was thoroughly enjoyed.

This was a splendid program, for it necessitated careful, individual preparation. Let's have many more of its type and this year girls let's make our society one which develops every member and gives every member—old, new, experienced, or inexperienced a chance, for only thus can team-work, loyalty and genuine interest on the part of the entire society be developed.

Athenian

(Continued from page two)

ning the officers who had been chosen on December 16th were installed. The following officers were: Mr. Arnold, president; Mr. Buffat, vice president; Mr. Crow, recording secretary; Mr. Queener and Mr. Cornelius, critics, and D. F. Waddell, editor, and Mr. Moody who had been unanimously elected as sargeant-at-arms. The president gave his inaugural address in which he set forth the plans and value of a Good Literary Society. This address was followed up by an address by Mr. King, who took up in a very critical way the past work of the Society. At the same time giving suggestions for improvement. A Comical Number, "The Athenian" was given by Mr. Rohr which concluded the program.

THETA

Everybody enjoyed the Theta Program Saturday night. The meeting was opened with a prayer by Myrtle Ardis. Then Myrtle read for us "Entertaining the Minister", a humorous monologue. Everyone, the Theta girls more than any others, perhaps, know Myrtle's ability as a reader and we all enjoyed her reading.

Helen French rendered as an instrumental solo, that old, yet ever beautiful song, "The Rosary".

"Here Comes the Bride", a humorous selection, was read by Mary Hamilton. Judging by the hearty applause which followed we can truthfully say that it was enjoyed by everyone.

A debate, full of pep and interest, followed. The debaters themselves, have asked that the subject of this debate remain a secret except to those girls who were at Theta. If this is their wish, so be it. The affirmative was upheld by Lucile Crowder and Mattie Lee Couthen; the negative by Reca Gardner and Sue Veazy. The arguments presented by both sides were interesting and, judging by the amount of laughter heard in the room, we might say they were amusing. The subject of the debate was of vital interest to all Baldwin and Pearson girls especially. The decision of the judges went to the negative side amid the wails of the Baldwin girls.

Irene Curtis sang in her usual attractive manner, "Goodnight, Little Girl". It was indeed beautiful.

Girls! Let's all be at Theta next Saturday night.

The program closed with the Theta motto.

PALACE THEATRE PROGRAM

THURSDAY AND FRIDAY, JANUARY 11 AND 12

Gloria Swanson in THE IMPOSSIBLE MRS. BELLEW. Also Educational Comedy, "One Stormy Knight."

SATURDAY, JANUARY 13TH

Harry Carey in GOOD MEN AND TRUE. Also Art Acord in "The Days of Buffalo Bill".

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME EIGHT | MARYVILLE, TENNESSEE JANUARY 19, 1923 | NUMBER THIRTEEN

COSI FAN TUTTE AS LYCEUM

Wm. Wade Hinshaw Production Featuring Miss Irene Williams Highly Appreciated By Large Audience.

The third Lyceum number presented on last Saturday night was an unusually good number.

Miss Irene Williams, the celebrated American Prima-Donna Soprano as presented by Wm. Wade Hinshaw well deserves her wide spread distinction. She was ably supported by the cast of characters. The music as composed by Mozart to his Italian libretto was well interpreted by the Hinshaw cast.

The opera is said to have been founded on an actual occurence, the scene being laid in Naples, Italy sometime in the Eighteenth century.

The two pairs of romantic lovers, the bachelor philosopher and the piquant waiting maid each executed the heavenly Mozartean melodies as only real singers who are musicians could sing. Nor is all credit due the singers, the accompanist certainly showed his great skill at the piano.

The plot of the opera for all its simplicity worked out in a most complex and tremendously comical fashion. The story was that of an enchanting little romance including a rather complicated flirtation, when the two young ladies were supposedly left alone as their lovers were called to arms.

When the noblemen, implicated in the flirtation were found to be the original lovers in disguise, the plot thickened, but it is needless to say all ends happily for as the bachelor critic said ''It is impossible to be angry with women for flirting'', ''Cosi Fan Tutti''.

THE FRENCH DEPARTMENT OF THE COLLEGE PRESENTS TWO FRENCH PLAYS

On Saturday night, January 13, the Department of French presented two French comedies, under the careful supervision of Miss Mildred Wheelock. These plays were given entirely in French. They were, ''Le Chevalier de Blanchefleur'', and ''La Surprise d'Isidore.''

The first play was of more dramatic nature, and took us back to the days of knighthood. Salmon Brown as the knight ''Rudoph de Vincy'' portrayed the ancient French knight in true fashion. Dorothy Winters as ''Blanchefleur de Nevers'', made a most beautiful young heiress.

The second play was the knock out of French History. It was a laughable comedy and kept the audience in anxious anticipation from beginning to end.

Walter Bryon Swartz, better known on the Hill as ''Lord Byron'', played the part of Isadore, and in his unique way pulled down the house. His costume was flashy and his acting was in a class by itself. We predict a very bright future for Mr. Swartz if he keeps on with his Expression and Dramatics.

M. E. CHURCH, SOUTH

You will find a warm welcome at the church every Sunday at all services:

Sunday School 9:1 a. m.

Preaching by the pastor 10:30 a. m. and 7:00 p. m.

Intermediate League 6:00 p. m.

Epworth League 6:00 p. m.

The subject for the morning sermon will be THE CHRISTIAN SPIRIT. Evening subject NOBODY CARES FOR MY SOUL.

"CLARENCE" BY ALPHA SIGMA

Tarkington's Popular Drama Ably Presented By Alphas Continues Their Reputation For Good Midwinter.

Monday evening, the Alpha Sigs put on ''Clarence'', a four-act comedy by Booth Tarkington, the foremost of present day American writers.

''Bob'' Baldwin as ''Clarence'' was a knockout. He appeared to go through four stages of recuperation from his terrific army expereinces with the heavy artillery in Texas. In the first act it was his liver. In the second, he had come around enough to be able to tune the piano with a monkey-wrench. In the third act he comes out in evening togs and knocks the family for a row, especially Cora who hadn't gotten over it when the play ended but with the dropping of the curtain, utter a last, long despairing ''Oh Cl-ar-ence'' when that gentleman walks off for good with Miss Pinney.

In the fourth act his liver had entirely peared, together with himself and Violet.

Harry Gauding couldn't have made a better Bobby. ''Look, now listen, you've been in the army an' everything, what would you do if you kissed a woman—practically a life time ago—and then suddenly something higher and more spiritual came into your life and then that other, I mean the sensuous, said if you didn't marry her she'd sue you for her alimony—look, you been in the army what would you do?'' Bobby didn't have to wait long either before that crushing weight of responsibility was lifted by Clarence who soon Rudolph Valentined. Della who from then on forgot alimony watching Clarence eat pretty.

Clarence didn't have anything on Mr. Wheeler, when he said he didn't have to learn to swear to drive mules. The mules in Mr. Wheeler's own household provoked frequent dire. ''Oh Lords'' which rolled from Van's inward regions with a grace and beauty that bespoke long accustomed use.

Della and ''Andy'' made fine domestics. ''Oh bird'' was Andy's favorite form of salutation.

Myrtle Ardis carried her part of the much abused step-mother with pathetic reality and Poe was quite tame at the post of secretary.

Mr. Stem was all ''dudied'' up as large as life and twice as natural and provoked a good deal of mirthful sympathy from the audience.

All the actors together succeeded in giving us a most enjoyable evening.

ATHENIANS WILL CLOSE MIDWINTER SEASON

Will Present ''The Man From Home'' on Next Monday Evening.

The old students on the Hill will barely have to be reminded that the Athenian Midwinter will be presented on next Monay, for they are all familiar with the very high standard of Midwinters that the Athenians have always staged. No one that was here last year has forgotten ''The Man of the Hour'', which was acclaimed by every one as one of the best entertainments ever given in the Chapel. This particular one was only representative of what the Athenians always present. The

(Continued on page four)

TWO VICTORIES IN BASKET BALL

Highlander Basketeers Have Little Trouble In Winning From Both Berea and Tusculum.

Maryville had little difficulty in disposing of Berea on Friday, January 12th. The Maryville boys literally played rings about the visitors. Captain Jean and Riskey both had their eye on the basket, Rudolph caging six field goals, and Jean scoring ten field goals and seven foul shots.

The whole teams put up a great offense and defense, guarding the Bereans until they didn't have a ghost of a show.

The line-up:

Mayrville		Berea
Riskey, 12	12	Watson 2
McMurray, 27	f.	V. Sanders 4
McGinley,	c.	C. Johnson 2
Veach, 2	g.	Van Scyk
Musick	g.	S. Johnson 2

Substitutions: Maryville —Wyne? coop, Janoviczky, Sneed 2, Gamble.

Tuesday's game with Tusculum was a walk-away affair for the Maryville boys. Tusculum came down here with a good defense, but they found the Highlander defense something unexpectely strong. The Highlanders had their defense down sufficiently well to hold Blair's Tusculumites to ten points. Coach Honaker says he believes in defense first, but Tuesday's melee looked like he might have instilled a little offense into his basketeers.

Slim McGinley was the brightest star of the afternoon, playing a great game on the floor, and dropping long shots into the cage, with something approaching regularity.

The line-up:

Maryville		Tusculum
Riskey, 6	f.	Morgan
McMurray, 12	f.	D. Ramsey 5
McGinley, 12	c.	T. Iamsey, 2
Musick, 2	g.	Lawson
Veach	g.	Queener

Substitutions: Maryville— Sneed 4, Gamble, Watkins, Janoviczky. Tusculum: Alexander 3, Bryant, Register.

The season's scoring—four games

	f.g.	f.t.	Total
McMurray	14	18	46
McGinley	11	6	28
Sneed	11		22
Riskey	10		p0
Musick	5		10
Maryville	51	24	126
Opponents	21	19	61

GREENE—THARPE

Thursday, December 28th, in Palata, Florida occurred the marriage of Miss Lucille D. Tharpe of DeLand and Mr. Emett Greene of Detroit, Mich. The ceremony was performed by Rev. Monahan of that city. Miss Tharpe is one of DeLand's most attractive and talented young women. Mr. Greene is a graduate of Ann Arbor and is at present associated with the Wilson Cypress Co. of this state.

Immediately following the ceremony a dainty wedding breakfast was served, after which the happy couple left on a brief honey-moon to St. Augustine and other points in the northern part of the state. On their return Mr. and Mrs. Greene will make their home for a time in DeLand.

Miss Tharpe was a popular and talented student at Maryville in 1919-20. She is remembered by many because of her unusual musical ability.

UNION MEETING HELD SUNDAY

The Christian Associations of The Hill Unite In A Joint Meeting That Is Characterized By Spirit of Consecration.

Bartlett Hall was the scene of one of the very best meetings the Christian Organizations of College Hill have held in some time.

The theme of the meeting was Prayer and Service. From the time the pianist played softly that soul stirring song, ''Sweet Hour of Prayer'', to the last sentence spoken interest was shown by all.

Prayer and Service, a very timely subject indeed and the four talks given were helpful. Mr. Fritz spoke first on Prayer and his theme was ''The Unanswered Prayer'', and he left with us the thought that the tragedy of the unanswered prayer was within the individual's heart and life. He also said environment should not be permitted to keep us from praying.

Miss Ruth Allen talked next on ''Service'', and her message was that we should never be deceitful in our service, but we should be sincere; we should always be on the alert and ready for action; we should be joyful and repoice in the opportunity for service; and we should be humble and faithful, not boastful and unfaithful, and we should follow the best we could our Great Example, Christ.

Then Miss McDonald fired us deeply with her voice on ''Prayer''. She told us that prayer was conversing with God; that power is derived through prayer—spiritual power from on high; and in time of great necessity one goes to God in prayer; that prayer is natural and, finally, after saying prayer helps us to grow stronger she gave us Lincoln's testimony as to the value of prayer: ''In time of great responsibility I go to God in prayer because I have no other place to go.''

''Ran'' Wilson gave the broad interpretation of ''Service'' when he said that it was an act of overflowing; the expression of Christianity in terms of human need; and that service meant giving. He closed his remarks with the thought that complete resignation to the will of God was the true spirit in which to pray.

''In The Garden'' sang by the S. S. quartette, and a solo by Miss Mary Biles, were special musical numbers which added greatly to the tone and hlepfulness of the meeting.

The message of the hour seemed to be that life is a task and one for all to meet cheerfully and seriously and that a Life of Prayer and Christian Service was for all who would go that way, The Best Way. Yes, life must be faced with an optimistic seriousness which cannot be misunderstood or thwarted.

Even Zeus declares the excellence of The Athenian Literary Society. Last week when the white armed Hera viewed the bulletin and reported to Zeus that Athenian was not meeting, he immediately dispatched the swift-footed Apollo to post a sign for Athenian in the heavens. The result was that Saturday morn the coat of arms of Athenian was emblazoned on the eastern sky. At the time that Venus emerged from behind the moon, the ''star and cresent'' of Athenian once more spoke to her sons. Come to society Saturday, at the sign of the star and cresent.

THE DEITY OF CHRIST

The Oration Winning The T. T. Alexander Prize.

By Bertha M. Russell, '24

''Thou, Bethlehem, which art little to be among the thousands of Judah, out of thee shall come one forth unto me that is to be ruler in Israel, whose goings forth are from of old, from everlasting''.

Thus spoke the Prophet Micah, as over the crest of a rugged Judean hill he beheld a little city shining as a star of hope to a nation looking for its Messiah.

Some seven hundred years had passed since the prophet had spoken these words, and then, one evening, a travelworn carpenter of Nazareth with his wife, entered the gates of the little city, too late to find room at the inn. You know the story that follows: of how Joseph and Mary found lodging in a manger and how in the still night as shepherds watched their flocks on the surrounding hills there came the angelic announcement from heaven: ''Behold I bring you good tidings of great joy; for unto you is born this day in the city of David, a Saviour which is Christ the Lord.'' You remember how the shepherds left their flocks and found the new born babe wrapped in swaddling clothes, lying in a manger; how wise men, guided by His star came from the far East and offered gifts to the new born king.

This is an old story, and yet from the day of its occurrence until now, the world has asked, ''Is this Christ the Son of God?'' To answer this question we have studied the scriptures by whose authenticity we are persuaded that of a truth Christ is the Son of the Living God. In order to come to a definite conclusion we have considered the words of the prophets, the revelatmions of Christ's presence on earth, and the testimony of His contemporaries.

In order to identify the Christ rightly it is of much importance to consult the prophets because for hundreds of years they had been speaking of Him. So in accordance with prophecy the birthplace of Christ was fittingly appointed to be at Bethlehem of Judah, set in the midst of the nations of three mighty continents, over whose dominion should the ''Son of Righteousness rise with healing in His wings.''

The prophets also told of the miraculaus condition under which the Christ should be born, and even his naming. This sacred message the spokesman would not claim as his own, but declared, ''The Lord Himself shall give you a sign: Behold a virgin shall bear a son, and shall call his name Emmanuel.'' The interpretation of this name ''God is with us'' affirms the presence of God in the flesh. Consistent with, but in addition to this name the Angel Gabriel appeared to both Mary and Joseph and declared: ''Thou shalt call his name Jesus, for he shall save his people from their sins. This very intepretation of the name given contains the whole meaning, for in the Greek Jesus is a form of the Hebrew word meaning Saviour.

Not only was the birth of Jesus foretold by the prophets, all though his life we find instances that were described in minute detail by hose ancient seers centuries ago. Peering down through the years between them and the advent of Christ, they

Patronize Those Who Advertise. They Make The Paper Possible.

The Echo solicits news items, comments, and expressions of opinion from the students, and from interested alumni.

The historical revival of learning at the end of the dark ages had nothing on the one just now taking place on the Hill.

* * * *

On account of the rush of work, news items are few this week. And next week the same condition will exist. Because of this there will not be an issue of The Echo next week.

* * * *

The oratorical contest conducted by Alpha and Athenian are doing much for the promotion of oratory on the Hill. The societies deserve your support in this work. Come out to the contest, at the chapel tonight at 6:30.

* * * *

219 SAYS

The trouble with the flu is that it doesn't flee from us.

Bobbed hair surely looks sick when it is on the road to convalescense.

Our game with U. T. was the initiation of their new court. Have you any idea why they picked us?

Did you notice how the faces of the boys brigthened when it was announced that the ten bit entertainment for Saturday night was one of the regular lyceum numbers?

Guess we had better support that prep team, now. They have been supporitng us, and deserve all we give them.

NO. 219 CO-ED SAYS

Some of the boys in Carnegie are afraid to wear smoked glasses.

After listening to Professor Orr we are inclined to say, the 'expense' was terrible.

Some people are so dumb they think that Shimmy Brown is Riskey's publicity manager.

Now don't some of boys get the idea that these new ''SHEIK'' trousers will make us fall for you. YO, ALL SHO DOES NEED MO' PRACTICE.

All girls will please meet tonight in my room to decide on the best ''SHEIK'' in school.—Mary

MEAN BRUTE

''Cancer must come from talking too much'', remarked Mr. Grouch.

''Why so'', asked his wife.

''Well, doctors declare that it is twice as common in women as in men'', he replied.

Paradoxical as it may seen, the man who keeps his feet on the ground manages to mount the ladder of success.

Senior Sketches

LOUISE MARGARET SHEDDAN

Louise Margaret Sheddan brings to us from Florida, that Southern, sunshinny disposition. She has every characteristic of a Southern girl. She dislikes the rules of M. C. in particular, and when she gets rich, she's going to leave good to the school. She was brought up on the beach, so you can guess that her favorite sport is swimming. She has held two offices in Bainonian Literary Society. She is vice president of the Pre-Medical club, and is Secretary of the Class of '23. Louise spent last Summer at Winona Lake, Indiana. She is planning to enter John Hopkins next fall where she will take Nurse's training.

ALICE BENBOLT McANULTY

Alice Benbolt McAnulty is an important character in the Class for it is Alice who makes our parties what they are. Having graduated from Nicholas Senn High School in Chicago, and spending one year in a girls' school she at last found the right place—Maryville. Alice a native of Chicago, is a true Northern Girl. She a blonde, shows a particular liking for blondes of the opposite sex. Her present ambition is to keep house, and that's what she is going to do next year. In searching back through her store house of memory she finds the Spirit, the most attractive thing and this is a part of her contribution. She has served as Secretary of Bainonian, as vice president of Y. W. C. A. and as President of the 3 ''I'' Club, and is vice president of the Class of '23.

RUTH GAMBLE

There is a brown haired, brown eyed lass in our class by the name of Ruth Gamble and she has passed the most of her young life in and around Maryville.

The thing she dislikes most about Maryville is that lonely ''Knocker'' she runs across now and then on the Hill. To make this place better and more enjoyable would be to fire all said knockers and shed no tears over their departure.

Singing is her hobby in college and candy-making at home (say fellows, she lives out in town too!) Ruth is a member of our girls' quartette and she will regret leaving college because she will have to leave this one big pleasure of her course behind.

Ruth has a burning desire to be a kindergarten teacher and it looks as though she will be prepared if a person can judge by the amount of Child Psychology she has studied.

Her pet peeve seems to be when a ''Prof.'', who all unannounced, springs a test. But why bother yourself about that since she is now introduced to you and June 7th is not far off.

DOROTHY HERON

And the ''Buck-eye State'' is represented in our class by two or three students, one of whom is Miss Dorothy Heron. She seems to have been born in the year 19(?) in Glendale, Ohio.

She is a girl of 5 feet 6 inches, has gray eyes and wears a shoe size 5AAA. She is a member of the Theta Society, is fond of basket ball, and her college hobby is waiting for the bell to ring (dinner or class?)

She thinks the democratic spirit at Maryville is great but she can't say much for the looks of the fountain which brings tears to her eyes every time she sees it. And she is an advocate of Student Government but will not stick around long enough to see it in operation.

A warning to the fellows is: stay away from her if you are broke for only the man with the kale gets favorable glances from her grey eyes—but you can't tell women change their minds so sudden like.

Do You Know?

that in later years the Chilhowean will become one of your most Cherished Keepsakes.

What some of our most popular members of the faculty tihnk of their own college annuals, and what they think about our annual, ''The Chilhowean''? Do you know that we asked them some questions about it and they wrote their answers, abundant and pleasing? We only regret that on account of lack of space we cannot publish their answers in full. However, we shall quote some of them and by so-doing hope we can convince the students of College Hill of the importance and value of a ''Chilhowean''.

Mrs. McMurray says: ''Our annuals mean more to us each year. Re-living college days when reading them is almost as enjoyable as a visit there and not half as expensive.'' Now isn't that just like her?

In answer to the question, ''Should the student working his way through college buy an annual''?, Dr. McMurray answers: ''Yes, if possible, one every year during his course, as the annuals provide the most complete and permanent record obtainable of college activities, scenes and faces''. He also says, ''After a lapse of 26 to 30 years, I find pleasure in looking through my college annuals and living over again with my college mates of former days the happy period of my college course.''

Professor Hunter writes, ''The students should certainly express appreciation of the efforts of the 1923 staff to reduce the cost of the Chilhowean to the subscriber.''. ''The expenditure of $3.50 for a copy of the Chilhowean will secure a value that will last longer and bring more pleasure than that of any other $3.50 spent on College Hill.'' ''The only student who will not get his money's worth out of the annual is the student who has no college spirit at all.''

Professor Knapp: ''The Chilhowean sets forth conspicuously some of the best and most attractive features of the college and college life. The perusal of its pages, by reviving the memories of the most delightful and interesting period of one's life, will give immense pleasure to the former student and will quicken the heart beats and add zest end enthusiasm to life. The possessors of the annuals published during one's college course, with their pictures of interesting incidents and suggestive scenes of teachers and college mates may prove an aid in presenting the benefits of the school to prospective students and in convincing generously inclined people of wealth that Maryville College is of that type of colleges that is worthy of help.''

Mrs. Minton says that she knows of nothing that could take the place of an annual.

From the Preparatory Department Principal Ellis writes, ''The annual serves as a bond of cooperation and fellowship between the College and the Preparatory School''. ''The annual exhibits the activities of the Preparatory School in such an attractive way that it serves as an effective advertisement inducing students to come here for their high school course.'' ''A spirit of loyalty to school activities, an appreciation of friendship, and the pleasure of the memories of school days fully justify a preparatory sutdent in spending money for an annual.''

Do not forget that the Annual goes on sale one week from Monday. We must have your order before we order from the printer. Not one extra copy will be ordered. If you fail to order now you are sure to be sorry later on when it is about time to go home and the new book is being delivered to other students you are sure to want one. We know of students who have bought annuals from their fellow students at $5.00 per copy rather than go home without one. If they had only ordered in time they could have had it for $3.50. Don't be like that, order wihle you have an opportunity.

Verton M. Queener,
Business Manager.

PERSONALS

Baldwin girls seem to be using lots of oil lately, Midnight oil I mean. It's usually prescribed for term papers and final exams.

Miss Sue Powell, who has been absent from classes for the past week will probably be able to attend by the last of the week.

Rats in their places may be all right, but not in other folks beds, so say Baldwin girls.

Alice Johnson, Mary Biles, Lucile Heiskel were in Knoxville Monday.

We are pleasantly surprised to hear that Evelyn Sandine is to come back to M. C. before long.

COGNOMENS IS COGNOMENS

Some folks say that there isn't anything in a name. Well, maybe there isn't but what we started to say was that Heeza Nutt sells fruits and vegetables in Lima, Ohio.

The Candy Kitchen—
For Candies

ALPHA SIGMA ELECTS OFFICERS

The following officers were elected Saturday night: Janitor, Ralph Armstrong; Censors, James Jackson, James Anderson, Othel Armstrong; Sergeant-at-Arms, Hiero Griffitts; Editor, Arthur Kinsler; Program Secretary, Dewey Eitner; Assistant Recording Secretary, Clinton Puff; Recording Secretary, Francis Kinsler; Vice President, Henry Cox; President, Eugene Stanbery.

Most choices were unanimous, the only hotly contested office being that of Janitor in which Doris Musick ran a close second to ex-president Armstrong. A feature of this campaign was a long campaign speech by Clyde Wilson in favor of adhering to precident and to president for the office of Janitor. The applause was wild and Army caried the day much to the regret of Doris. John B. Kerr also ran.

Four new members were received Guy Sneed, Arthur Kinsler, Doris Musick and Raymond Anderson.

RESOLUTIONS

Whereas, God in His infinite wisdom has seen fit to call unto Himself the mother of our beloved classmate, Wilson McTeer, be ie resolved that the members of the Sophomore Class extend their deepest sympathy to him and his family in this time of bereavement.

Be it further resolved that a copy of these resolutions be sent to the family, that a copy be read in chapel, and that a copy be printed in the Highland Echo.

Committee:
Dorothy D. Roney,
Rebecca Bigger,
Robert M. Baldwin.

It's mighty hard to believe that the world is groinwg better, when we see the cake-eaters growing moustaches.

DAILY SENTENCE SERMON

We may speak well of the dead. but sereve of a dead one.

Lotta Paine, of Alcoa, informs us that while she has that kind of name, she uses very little of it.

AFFECTION

Men are forever getting stuck on me. Don't think I'm conceited when I tell you this, because I frankly admit I have no brains; nor am I fair to gaze upon. Perhaps it is my love of inconspicuousness that lures them on. You see, I'm a piece of sticky fly paper.—Pelicon.

Co:—My hair is a wreck.
Ed—No wonder. You left the switches open.

ROBERT M. BALDWIN
EDITOR 1924 CHILHOWEAN

Today the Sophomore Class elected Robert M. Baldwin Editor of the Chilhowean for next year. Mr. Baldwin hails from Hebron, Nebraska, and for that reason is sometimes known as "Big West" Baldwin. He is a member of the Forensic League, and the Alpha Sigma Society. He has the reputation of doing things, and therefore a good annual is to be expected next year.

ALUMNI NOTES

Louise Duncum, '21 was married to Mr. Benjamin Watrous on December 25, 1922.

Among the alumni who visited on the Hill during the recent Christmas holidays were: "Red" Hayes, '21; Charles N. Sharp, '22; Mildred Kimble, '22; Bernice Jones, '22; and Elizabeth Moore, '22.

Mr. and Mrs. Richard Yelton made a Christmas visit to Rev. Samuel Polk and family of near Maryville. Mrs. Yelton, known to alumni as Cerena Polk '20, is teaching in Forbes, North Carolina.

Mrs. Stanley M. Armstrong, formerly Aletha May, '16, of Texas, visited her mother in Maryville during the holidays.

News comes of the recent marriage of Dr. William Foster Fyke, of Springfield, Tennessee to Miss Lizzie Pike Trice of the same place. Dr. Fyke, a member of the Class of 1914, is also a graduate of Vanderbilt University School of Medicine. He is an eye, ear and nose specialist, and is reported to have built up a fine practice in Springfield, his native place. The Echo congratulate the newly weds and wishes the best of good things for Doc and Mrs. Fyke.

The Chattanooga News of January 5th carries a feeling account of the funeral services of Hon. James M. Trimble of that city. The service was conducted by Dr. E. A. Elmore, Mr. Trimble's pastor who spoke most earnestly in commendation of the high professional attainments, unselfish service, and devotion to his church which marked his life.

Mr. Trimble has been or a number of years a Director of Maryville College and in the midst of his many pressing interests has always held a warm regard for the work of the College. The students and faculty join the Directors in their sense of the loss that the College has suffered in his passing.

Stella McCall, '22 spent the holidays with home folks in Maryville. Stella reports interesting work in the school at Baxter, Tennessee where she is teaching.

Mrs. Anna Huffstetler Tedford died at her home in Maryville on Monday, January 15th. She was a member of the Class of 1894 and in 1912 married Baxter Tedford, Alumni and friends join in sympathy for the sorrowing family.

A LETTER FROM SAM. J. HALL '22 OF HILO, HAWAII

Hilo, Hawaii,
November 25, 1922.

Dear Editor:

As one of the Class of '22 I most heartily appreciate the invitation given me to contribute this letter and I trust that it may be of some little interest to the readers of The Highland Echo. Our class which so lately were so pleasantly associated together are now scattered to the four corners and I suppose I may rightly claim one of the corners, and not have my claim disputed. But from my corner out here in the Pacific I am still watching movements at Maryville, and like to think that I am one of you still. I often think of the friends I knew and the pleasant experiences I had there and I know that I shall always fondly cherish those College days spent at old Maryville. I think a palm tree is prettier than a cedar but still there is a fascination about the latter even though I stroll thru palm groves.

I left the States last August accompanied by His Royal 'Highness' Tom Vance. We crossed the continent when the railroad strike was at its height and experienced some annoyance and delay, but the trip was without incident, otherwise except that I got sea-sick while crossing Great Salt Lake on the train. During the ocean voyage we had

THE DEITY OF JESUS CHRIST

(Continued from page one)

foretold the appearance of his forerunner; they hailed Jerusalem as her King entered on his palm-strewn path of royalty; they predicted his rejection; they saw him a man of sorrows and acquainted with grief; with reverent eyes they beheld him on Golgotha, numbered among the transgressors; and though well-nigh one thousand years intervened they felt the crisping tongue to whose dryness even the bitterness of gall was a tmeptation in the unquenchable thirst of death.

Now turning from the prophetic proof of Jesus' deity we next find it in the revelations of His presence on earth. In a discussion with the Jews you remember Christ declared, ''Before Abraham was, I am.'' And many times we find Him speaking of the glory He had with the Father ''before the world was.'' So, on investigation we are convinced that He is an Eternal Being.

''In the beginning was the Word'', we read in the prologue of John's gospel, ''and the Word was with God, an the Word was God. An the Word became flesh and dwelt among us.'' According to Vincent, this Logos, or Word was not merely existent in the beginning, but it was the efficient principle; the beginning of beginnings. Then the menns of creation was a Co-Eternal Godship: God and the Word being one. And through Him were all things created; then the Word, in them, became that which he created, on flesh. Not a new Being, for the change merely consisted in a new mode of being which, as described by tne Greek signifies human nature according to its physical manifestations.

And in this manner he dwelt, on tabernacled among us. During the days of the wandering in the Wilderness the tabernacle was the abode of Jehovah. His meeting-place with Israel, but with the advent of Christ that meeting place had a more sacred meaning; it was accomplished by the Eternal Being assuming a community of nature with mankind, retaining the God-Spirit and bringing it into the closest contact with man.

The next reason revealed in the life of Jesus for believing Him to be the Son of God is, though He lived in the flesh, and was in all points tempted like as we are, yet was he without sin. Though of virgin birth, and begotten of the Father, we find our Lord exposed to universal temptation but remaining sinless both in principle and in works.

The sinlessness of Jesus' principle we find sufficiently exemplified in His teachings, contrasted to those of the Pharisees whose close adherence to the Law was likened to whitened sepulchures. By Jesus' interpretation of the law as it is given in that memorable sermon on the Mount, he shows that the purpose of the law is not merely to prohibit the culmination of sin on the law's violation, but the real purpose is to prevent the cause of violation. And when we say that Jesus was sinless we measure that sinlessness by the standard he himself set, a standard which has never been surpassed by man or God, yet to which he, the unique figure in history, measures in every degree of righteousness.

Of one possessing sinless principles we would noticeably expect sinless works, and according to Jesus' proverb, by one's works we know him. When Jesus knew that his disciples were prone to doubt his convincing admonition was: ''Believe that I am in the Father and the Father in me, or else believe for the very works' sake.'' ''This same work which I do bears witness of me that the Father hath sent me.'' Beside the many physical cures and miraculous works to which Jesus did not confine himself, but authorized his disciples to exercise. He did one work that caused his rejection, but nevrtheless proved his deity. This work was none other than the forgiveness of sin—a work which even his enemies declared none could do except he be of God. But the authority to exercise this work was not denied him even to the hour of death; and while He was hanging on the cross of Golgotha even as his limbs were stiffening in death, when his ears were pierced by the penitent cry of the thief beside him, in spite of the physical agony our Lord was enduring, he forgave sin, and promised paradise.

Furthermore, the deity of Jesus Christ was shown in his life by the miraculous occurrence in which the God-nature manifested itself. We see him on the Mount of Transfiguration, when suddenly the Glory of God shines from him; his disciples are awakened from slumber and behold, his face outshines the brightness of the sun; even his garments have a glitter above the whiteness of snow; but he is not alone—there stand beside him both Moses and Elias speaking with him, speaking of the divine sacrifice of his body as the event toward which both the law and the prophets had pointed. Then suddenly a cloud descends from heaven, an all is concealed, but from behind its veiling mist the voice of God declares the divine approval of the Son.

There is the sotry of the resurrection, of how our Lord descended into the grave but broke the bands of bondage and came forth bringing redemption to man. By laying down his life Christ signified God's judgement of sin, but by taking it up he proved the Father's acceptance of His mission and also offered his own claim to divine Sonship.

Finally when our Lord was humbled to the death on the cross God iHmself proved his presence in the Son by highly exalting him and giving him a name that is above every other name, for ''at the name of Jesus every knee shall bow and every tnogue shall confess that Jesus is Lord to the Glory of the Father''; for exalting Him God again received the Son into the Godship of Heaven after His mission to man, and restored the throne of David to One worshipped as God and joined equally with God.

But however, authentic the prophets may be, and however deeply we may be convinced by Jesus' life that He is the Son of God, we have another source of authority on which Jesus Himself realized would be placed much emphasis when he enquired of the Twelve, ''Who do men say that I, the Son of Man, am?'' The testimony of Jesus' contempororites comes from various sources, various view points, and on various occasions. The aged Simeon lifting the Christ child into his arms, declared his eyes had seen the salvation of the world; John the Baptist detected the Lamb of God as the dove-like spirit descened from heaven; the centurian was convinced as he witnessed the death of Jesus; but there were those of Jesus' comtemporaries that were convinced, not from an outward sign, but from the fact that he abode in the Father. Among these were his disciples for whom Simon Peter spoke when he declared, ''Thou art the Christ, the Son of the Living God.''

But the testimony of Jesus' contemporaries was not confined to those who loved him. It was given by the demons who trembled as they hailed the approach of ''the Christ, the Holy One of God!'' Then we cannot wonder at the testimony of the Father and the Heavenly Host. With fiend, friend, and foe declaring Christ to be the Son of God, the Light of Heaven shown as on the occasion of baptism and transfiguration the voice of God declared ''This is my beloved Son, in whom I am well pleased.'' Then some threescore years later when from the rugged Isles of Patimus the divine John was permitted to peer into the celestrial city he saw and heard the priests and the elders as they sang a new song: ''For thou art worthy to open the book and the seals for thou wast slain, and hast redeemed us by the blood.''

Finally, the substance of the testimony of Jesus' contemporaries is largely contained in an expression of Jesus when He said: ''I am the Way, the Truth and the Life. no man cometh unto the Father but by me—To this end was I born, and for this cause came I forth that I might bear witness unto the truth.''

Then with the three-fold evidence of the revelations of his presence on earth and the testimony of his contemporaries, ''know ye that the Lord He is God.'' Can one yet doubt? If so, Christ's judgment is, 'Ye have not his spirit abiding in you for him whom He hath sent ye believe not. Search the Scriptures for in them you think you have eternal life and they are they which testify of me.'' And he who acts accordingly, if tempted to turn aside shall answer as did Simon Peter, ''Lord, to whom shall we go? Thou hast the words of eternal life and we have believed, and know that thou art the Holy One of God.''

''THE MAN FROM HOME'' BY ATHENIANS MONDAY

(Continued from page one)

new students do not realize what they have in store, but they will only have to follow the crowds on Monday evening in order to see for themselves.

This entertainment will bring to a close the Midwinter season for the year 1922-'23. Yes, and perhaps the best season in the history of the four societies; and what could be a more fitting climax than Booth Tarkington's greatest play, 'The Man from Home'. Especially when the cast of characters is drawn from the Athenian Society, and its sister socity, the Bainonian. In this play we see Tarkington at his best, and every one knows that all his plays are of a high order. Too, most every one knows of the talent that these two societies might well boast, so considering it all, this is a very rare combination. This play is a comedy, yes, but not of that too light, silly type. Instead a more serious line of thought permeates it and this is broken by flashes of rare humor. But ''seeing is believing'', so come and see for yourself.

LETTER FROM SAM J. HALL '22

(Continued from page three)

an opportunity to observe the phenomenon of sea-sickness at first hand. Neither Vance nor myself was directly affected by said phenomenon, to any serious extent, but those interested in the phenonmenon should apply to Vance at Likue, Kanai, T. H. I think he availed himself of an opportunity to collect some data which might be of interest to prospective navigators. Of course as I said before he was not directly or personally taken in by the malady.

I am in Hilo, Hawaii, and am teaching in the Hilo High School. The school is not very different from any other large high school on the mainland except in the personel of the student body. It would be easier to name the Nationalities not represented than otherwise though they are Hawaiians and Japanese chiefly. I have heard of one school in which there are to be found twenty eight different Nationalities or combinations. Then for every Nationality or combination there is a language, but there are only three languages spoken to any great extent, viz: Hawaiian, Japanese and English. English, however, is the language spoken in all the schools except that the Japanese maintain their own language schools at present, but these are soon to be abolished for political reasons. It is doubtful whether the Hawaiian language may be heard in the next generation. It seems doomed to the scrap heap of dead languages. The present younger genration is forced to speak or understand both languages but it is not expected that such a situation will long continue. The Japanese children also have one language for their school life and another for their home life—usually. However, I know one little Japanese fellow who can scarcely speak a word of Japanese and his mother can not speak English, therefore they are unable to talk to each other. Such cases are quite common. I have received enquiry as to whether I teach in English and whether I have to have an interpreter. Of course I speak the mother tongue and the only case in which I have required an interpreter was in teaching a Japanese night school. If you have never undertaken to teach your lnaguage to a bunch who 'can't talk your talk at all' you can hardly imagine all the difficulties envolved. An interpreter is almost indispensable in such a case.

Active volcanoes are still present here and earthquakes frequently occur. There have been two earthquakes this week on successive nights. They were not violent enough to do any harm except to arouse any ordinary individual from his dreams. It sure does make one feel funny to be rolled and shaken about by a force over which he has absolutely no control. Still its great fun, especially after its all over.

Kilauea is the only active volcano on the Island at present. It is about thirty miles from Hilo. There is a great lake of smoking, smouldering lava in the crater which rises and spouts and overflows at irregular intervals. The report was given to Associated Press a few days ago the Hilo had been destroyed by an eruption of this volcano but we are still very much alive. Only tidal waves and slight shocks occurred at that time. But after all, my experiences here almost make me discredit the term 'terra firma' as a false illusion.

As to the products of thecountry, they are just about as represented. As I have observed them, they consist chiefly of sugar, pineapples, bananas, hula dancers, cocoanuts, centipedes, ukeleles, Japanese babies, mosquitoes, and rain in about the order named, although I have not taken pains to collect exact data on these commodities— or otherwise.

With aloha and best wishes to all, I am

Cordially,
Sam J. Hall, '22.

THE CHILHOWEAN

PALACE THEATRE PROGRAM

FRIDAY, JAN. 19TH.
Will Nigh's Photo-Drama, NOTORIETY. Also Educational Comedy, ''The Rainmaker.''

SATURDAY, JAN. 20TH.
Tom Mix in WATCH MY SMOKE
Also Last Episode of Buffalo Bill.
Also First Episode of ''Speed''.

MONDAY AND TUESDAY
JANUARY 22D. & 23D.
Constance Talmadge in EAST IS WEST. Kinograms.

WEDNESDAY, JAN. 24TH.
Betty Blythe in HIS WIFE'S HUSBAND. Also Century Comedy, ''The Kicking Fool.''

THURSDAY AND FRIDAY
JANUARY 25TH. & 26TH.
A William Christy Cabanne Production, TILL WE MEET AGAIN, with Mae Marsh. Also Educational Comedy, ''Rambling Romeo.''

COMING, JAN. 29TH. & 30TH
Thomas H. Ince's Production, HAIL THE WOMAN. With Florence Vidor.

SPASMS

Dinwiddie says the only reason he went out for foot ball was to get a girl, but he is sure foot ball is a failure.

''Oh, I've broken my Hart'', cried Miss Covington, after the Saturday night's performance.

Some people are so dumb they think ''KITTY'' Hill has the ''The cat's ankle.''

"Cosi Fan Tutte" was well worth the price of admission, wasn't it?

SHEAR NONSENSE

FROM NO. 234

Conductor: Change for Maryville.
Hick (drowsily): Don't know'er, but here's a dime.

Leila: Oh, Miss Molly! Did you have the parlor chairs painted yesterday?
Miss Molly: Why, no dear, why?
Leila: Oh, I had a date with Bob last night and he got his pants varnished.

FIGURE IT OUT

How many apples dit Adam ond Eve eat?

Some say that Eve eight and Adam two—a total of ten only.

Now we figure the thing out far differently. Eve eight and Adam eight also—total sixteen.

We think the above figures are entirely wrong.

If Eve eight and Adam 82 certainly the total will be 90.

Scientific men, however, on the strength of the theory that the antedeluvians were giants, reason something like this: Eve 81 and Adam 82—total 163.

Wrong again. What could be clearer than if Eve 81, Adam 812, which makes 893. —Exchange.

HARD BOILED

The black-haired waitress, very much out of sorts, sailed haughtily up to the table at which sat the grouchy customer. She slammed down the cutlery, snatched a napkin from a pie and tossed it in front of him.

Then striking a furious pose—
''Watcha want?'' she snapped.
''Coupla eggs'', growled the customer.
''How you want 'em?''
''Just like you are.''

NOT WORTH IT

Victim: ''Please don't take my watch, it's a keepsake.''
Hold-Up-Man: ''A dollor watch a keepsake?''
Victim: ''Yes; the last hold-up man I met let me keep it.''

IN ADVANCE

'He surely is a far-sighted man.'
'How's that?'
'He had a fire extinguisher put in his coffin.'

''BLEST BE THE TIE''

(With due Apologies)
Blest be the tie that binds
My collar to my shirt.
For beneath that silken band
there lies
A half inch of dirt.

ARC LIGHT

Egg: ''Where does the Bible mention electricity first?''
Plant: ''Well, it implies that when the elephant left it made the arc light.''

ANOTHER ONE

''Pa, what does Veni, Vedi, Vici mean?''
''Aw that's another one of those college yells''.

WE'LL SAY YOU CAN'T

You can always tell a Freshman
By his shy and timid looks.
You can always tell a Sophomore
By the way he abhors books.

You can always tell a Junior
By his airy ways and such.
You can always tell a Senior,
But you cannot tell him much.

THE CHILHOWEAN

The Highland Echo

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME EIGHT | MARYVILLE, TENNESSEE | FEBRUARY 16, 1923 | NUMBER FOURTEEN

DR. FRANK MARSTON LEADS MARYVILLE IN NEW CONSECRATION

DR. MARSTON, A MARYVILLE MAN, BY HIS MASTERFUL PRESENTATION OF THE SALVATION OF JESUS CHRIST, AND REV. STRINGHAM BY HIS INSPIRING SONG SERVICES MAKE THE FEBRUARY MEETINGS MOST HELPFUL.

Many Students Accept Christ As Their Saviour, Many Others Renew Their Consecration.

''I always look back with a good deal of satisfaction to the time I spent at Maryville College and especially to the February Meetings''. This and similar statements are constantly coming back to Old College Hill. These statements will continue to echo all over the world. They come from the Jungles of Africa, from missionaries in India, from Syria, and from practically every state in the Union.

It will be only a matter of a short time until we will have the same feeling. And especially will we remember those meetings which just closed Friday Morning. Their influence in our lives will continue to have its effects.

We were extremely fortunate again this year by having Rev. Stringham, (not ''Stingem'' as he was called last year) to lead our song service and to render his special solo selections. The service that he has rendered in the meetings during the last two years has been appreciated by every one. He worked many miracles on the Hill. The Echo could print a long list of names of people who sang for the first time this year. This was due to Rev. Stringham's ability to get every one to sing. There is a rumor around on the Hill that even Herrick Arnold and Clyde Wilson sang the chorus of one song. Rev. Stringham you have many friends on the Hill. Since you are pastor of a Methodist Church in our neighboring metropolis, Alcoa, we feel that it is your duty to visit us real often.

Our Leader, Dr. Frank Marston came to us from Cincinnati and we feel that he gave our song leader the greatest compliment when he said, ''It is such a help to have a leader in song who is always ready with something appropriate to sing.''

Dr. Marston is the Agency Secretary of the Central Agency of The American Bible Society. This Society cooperates with the whole Protestant Church in supplying scriptures to the people of the entire world. Dr Marston works in five states; Ohio, Kentucky, Tennessee, Alabama, and Mississippi. Last year he distributed 76,566 Bibles in 32 languages in the five states. He has been engaged in this work for five years.

It was the best service that Dr. Marston could render his alma mater when he came to lead our meetings. Dr. Marston told us that when he sat in the old chapel he never dreamed that some day that he would come back and lead the February meetings.

We shall never forget those messages that could have come from no other place than from God. As God's servant Dr. Marston brought messages that will be in our memory as long as we live. He soon convinced everyone of his love for all of us and of the hunger that he has to have souls saved.

The thoughts that he developed and presented to the unsaved ones and to those who were drifting could not be thrown heedlessly aside. He succeeded in making all

Dr. Marston

Rev. Stringham

think upon the greatest question that concerns the human soul.

Possibly the things that will stay in our memory the longest will be those fine, not crude as he called them, illustrations. Surely no one can forget his description of Christ appearing in the room of the student wearing the crown of thorns and purple robe. This and many other illustrations were invaluable in showing to us the points that he wished to bring to us.

Hiss messages were always plain, and clearly portrayed to us the ''Christ''. No one could go away and say that they had not been shown the way to Salvation. Dr. Marston succeded in making us forget him and listen to his message.

This meeting as all others not only succeeded in getting people to accept Christ for the first time but it also resulted in a number of reconsecrations. It was surely a spiritual treat to every Christian.

We surely thank you Dr. Marston for your coming to us and for the help that you have rendered.

Much may be said in regard to the inspirational songs and singing in the meeting. From the first song ''Love Lifted Me'', every one seemed eager to enter with full vigor into the enthusiastic song service.

Much praise is due our never-failing song leader Rev. Stringham. His solos were of tremendous importance to the services. Especially lingers in our memories the beautiful song he sang, ''Back to My Father and Home'', as he was so ably assisted by the Boys' Quartet.

And we do not fail to mention the faithfulness of the pianists and the choir.

May we not forget that through song the Gospel has been convincingly proclaimed as well as through the sermons.

If anyone had undertaken to write down every good thing that Dr. Marston said in his splendid messages and tried to publish them in this week's issue of the Echo, it would have resembled a copy of ''The Literary Digest''. However, this could not be done but the Echo Staff has kept a list of some of the most striking quotations from his sermons. It would indeed be interesting to have a list submitted by every student, of those statements which impressed them most. The Echo is publishing the following list which is by no means the best statements that he made.

Man creates nothing. He discovers. If we go on for 2000 years as we have in the past, perhaps we will know something. God makes things that you can see out of things you can't see.

If God made us he has a right to claim us.

The Life that is worth while is the life that glorifies God.

We can't get away from sin wherever we go.

The Bible is a young man's book.

A boy has to be a boy but that doesn't mean that he has to be a devil.

It's the one sin that sinks you.

You say that you are in the Army of God. Why are you wearing the Devil's uniform?

You will drift as sure as the world unless you anchor yourself to something that is stable.

Lots of men have been baptised and have not had a change of heart.

If a man admire Jesus it does not make you a new creature in him.

The Devil is so busy to thwart the intentions of a Christian.

You don't have to row with the stream and drift.

Our wills are ours to make them His.

Jesus Christ never became a thief to save a thief.

Knowledge may bring you to the boundry line and not bring you in.

Fools, and no others, make a mock of sin.

You can't put a man in jail for lying. If you did you would have to build too many jails.

The blood hounds of sin are on your trail.

The most terrific forces in this world are those you can't see.

God has a work for you that the archangels cannot do.

THEMES AND TEXTS

Tuesday Morning, Feb. 6th. —Text: Genesis 1:1. Theme In The Beginning was God.

Tuesday Evening, Feb. 6th—Text: Genesis 2:7. Genesis 1:26. Isaiah 45:9. Theme: Made in the image of God.

Wednesday Morning, Feb. 7—Texts:

(Continued on page four)

MISS CLEMMIE TELLS OF HER EXPERIENCES IN THE EAST

DURING HER STAY IN THE EAST MISS HENRY FOUND MANY PEOPLE, FORMER STUDENTS AND OTHERS, WHO WERE WARM FRIENDS OF MARYVILLE

Alumni and Others Pay Highest Tribute To Maryville And The Maryville Spirit.

Miss Henry

''No man liveth unto himself''. Quietly and perhaps unconsciously the young men and young women you have met today have made their contribution to your life, and you, in turn, are rendering a similar service to them. There is probably no factor that renders a stronger and finer influence in our individual lives than our true friends. It is they who share our joys and sorrows, our victories and defeats; it is they who, many times, help us in the solution of difficult problems, and make possible for us the things we cannot do for ourselves. Friends are indispensable to our happiness, to our progress, and to the development of our lives.

What is true of individual lives is also true of institutions of learning, and there are two groups of Maryville friends that I especially wish to mention here;

First, alumni and former students. For more than a hundred years men and women have gathered here at Maryville College to secure a Christian college training. They have enjoyed and appreciated the opportunities they have had here, and many of them have gone out into the world to express that appreciation by rendering valiant service in their chosen fields.

One evening after I had spoken in a church service a young woman whose face seemed rather familiar to me, said "Miss Henry, you make me homesick'', and in response to the somewhat puzzled expression on my face she said, ''I roomed in Baldwin last year.''

When I went into a Christian Endeavor meeting on another Sunday evening I found a keen and warm interest in Maryville College, and soon I discovered that the source of this interest was a Maryville alumnus, a young physician who has recently taken his degree from the University of Pennsylvania with honors. He has also just been elected deacon in one of the large churches. This friend is rendering a most helpful and loyal service to his Alma Mater in his chosen field.

Another alumnus is pastor of a very strong church in Philadelphia, and he is always willing and ready to assist Maryville College wherever he can find or make opportunity.

Wherever I have met former students or alumni of the College I have always found them deeply grateful for the opportunities they had here, and ready and willing to do what they could to help Maryville.

Certainly these friends—these men and women who are striving to live up to their Maryville ideals, many of them filliny places of responsibility and usefulness in the world—are one of Maryville's greatest and best assets.

Second, other friends and benefactors.

Each building on this Hill, Voorhees Chapel, Carnegie Hall, Pearsons Hall, Science Hall, Thaw Hall, and the rest, the equipment, and even the cmapus itself are tangible evidence of another group of friends, men and women who believe in Maryville, in its ideals, in its faculty, and in its students. They have invested a portion of their means that Maryville might offer the opportunity of a first-class college training at a minimum expense to the student, and might send forth men and women into the world equipped for service.

Certainly it is to this group of friends that we are indebted for making Maryville possible in a financial way.

On October 19th, I left the old Hill for Washington, D. C., Pennsylvania, New Jersey, New York and the New England States for the purpose of stimulating friendships already formed, and of finding new friends and additional funds for the scholarship, self-help, and loan funds.

Concerning the places visited I need not tell you here, for many of you have already seen them, and I hope others may have that pleasure and privilege later; but I am sure you will never see New England more beautiful than it was during the month of January (and perhaps is today), with the ground covered with the soft little snowflakes that fall so gently and quietly, and yet combine their powers so effecively that they defy the great engines of the N. Y., N. H. and H., and say to the trolleys, ''You shall not pass''. So I spent hours waiting for trolleys and trains.

I was much impressed and somewhat distressed at the large number of foreign people I saw, especially in the coast cities. I spent several hours down in the old historic section of one very large city, and I chanced to be in that section when school was dismissed. The streets were literally crowded with children, hundrds oef them, and not an American face among them. If I could have lifted my eyes and seen mountains that in any way resembled the Alps, I am sure I could have believed I was in Italy.

On the other hand one finds descendants of those old, substantial American families who made such large contributions to our American ideals and freedom. Many of these men and women who have taken advantage of the remarkable opportunities in education, culture, and refinement with which they are surrounded, have remained faithful to the ideals of their fathers, and are fighting today for truth and righteousness. Happily for me, my work brought me into close contact with this class of people.

Perhaps you would be interested to know what impression the people whom I met have of Maryville Col-

Patronize Those Who Advertise. They Make The Paper Possible.

The Echo solicits news items, comments, and expressions of opinion from the students, and from interested alumni.

It is difficult to express in words a proper appreciation of Dr. Marston and his matchless services. We are sure that we voice the sentiments of the entire student body when we say that Dr. Marston has brought us a message that has inspired us to a new consecration to our highest ideals, and that we thank him for his ministrations. We have enjoyed your visit Dr. Marston and hope that you may again visit our college home.

* * * *

We also regret that the Echo has not been published for two weeks. But we ask that you hear us in a brief word of explanation. Last year the Echo was published twenty-eight times. The numbers omitted every other week during the spring. This year we omitted the numbers at a time when there was less news. This makes it possible for the Echo to appear regularly from this time to the end of the year.

* * * *

The steps taken in organizing a basket ball league is a forward one. It points to a time when our athletics will be for the mass of the students, and will not be so largely confined to the Varsity Teams. Under such conditions the beneficial effects of athletics will be received by a larger number of students.

* * * *

Of course all the students have welcomed Miss Clemmie back to Maryville since her return from the East. Miss Clemmie is one of our very best friends. Her work is of great interest to all. We are fortunate in having an account of her eastern trip in the Echo.

* * * *

All are interested in anything that makes for a greater Maryville. Watch next week's Echo for further details in regard to a proposed Student Council for Maryville.

* * * *

219 SAYS

Would you call it auto-suggestion, when she looks at the moon and sobs out words to the effect that it is too pretty a night to spend in the parlor.

Air castles may be alright, but we never could see much sense to the hot air castles some people build.

Well boys, we're glad we don't have to marry two wives. If we did, where in the world would we hang our clothes?

I've just discovered that Easter Sunday falls on April Fool's day. What a shame. I guess we won't take our annual holiday.

Senior Sketches

AUGUST L. JOHNSON

Bradley County, Tenn. boasts of a city called Cleveland, and said city will some day, if not already, boast of one of its citizens who has made good. He is a member of our class, is 5 feet 8 inches in height, weighs 130 pounds, has grey eyes, and brown hair, and is seldom without a smile or grin which rolls back the curtains of his bouche revealing a rather permanent, and sufficiently large opening protected by a couple of rows of well kept dental architecture.

As the ''Y's'' Lyceum manager for two years, as Business Manager of the ''Chilhowean'', and as a member of the State Student Council of Y. M. C. A., he has made good. As a worker he is there and we feel sure he will make agood Y Secretary for his 17 months' record at Fort Oglethorpe during the war points that way.

Lots we could say about this man but we will let him spread for himself. Watch and listen!

ANDREW JANOVICZKY

Andrew Fodor Janoviczky was born in Hungary (Europe) November (?), 1899, and what time he is not on College Hill or there abouts he hangs out in ''little ole New York.

''J-visky'' is a court man—basket ball court—and he is a strong man for football, for which sports he has done some winning of Black Diamond. This was the practical side of his deep rooted ambition: to be a mining engineer.

He likes blonde girls with fuzzy hair and when he sees one his old stand by slang expression explodes, ''I'll be darned''. And he chips in here with a wish that the Seniors leave fish for ''the pond'' as their legacy to the College. Darn bright idea, eh what

He is an Athenian, has been for four years, and is not sorry of it, neither is he weeping because he is a Senior if Theism did get his goat.

Such is our standby ''J-visky''.

JAMES L. JACKSON

We are now going to knock you down to a Senior boy who has been Vice President, Secretary, Program Secretary, and Censor of the Alpha Sigma Society, but not all at once. He has been on the ''Y'' cabinet, is now president of the Student Volunteers, and is proud of the fact He comes to us from Birmingham, Alabama.

He claims to be a great teaser, and he is peeved because folks don't understand him. (How do you expect us to, Jimmy boy?)

In his life time Jackson has preached, taught, worked in a grocery store, been a newsboy and a student, and he expects more of it—studies of course—for he is off to Seminary next Fall.

Here is another advocate of student government and one who cocks his head to one side, lets a grinnish smile creep over his face, and knowingly says, ''The thing we need most is fewer apple preserves.''

Yep, 'tis just like Jimmy—meet him.

LILLIS HUFFMAN

Normandy is in Tennessee and it isn't but this Normandy is for Miss Lillis Edith Huffman, a Senior blue-eyed blonde, says so. And she stretches her full 5 feet 5 inches, throws her shoulders back and flashes fire of pride from her eyes when she lets this fact be known.

Naturally, she is displeased with the ''hash'' and at the same time is assistant in Home Ec. Wonder what that means, hope of better food some day, a man, or both? Can't prove it by me, ask her.

She has been a 5 year, sterling member of the Theta sisters; her hobby in college is sewing, cooking at home and in the meantime she evidently lives up to her favorite quotation ''To spend too much time in studies is sloth.''

Lillis would like to see a smoke consumer on power house smoke stacks, she says this because Pearsons Hall is covered by a smoke screen barrage (but the fellows do not charge every time) every time a high wind blows east over the power house.

But we have another Senior to expose to you. Call on Lillis and she will tell you more, probably.

R. B. HOUSTON

There was born in Knoxville, Tenn. in 1902 a baby boy who was later to receive a diploma from Young's Hi School at Knoxville and then shift southward, and, after four years of faithful college work he was (will be soon) called upon to peel out about five Kopecks for another parchment which summed up all the above in rusty latin.

Robert Benjamine is an Athenian, baseball is his favorite sport, he considers all Seniors a joke, dislikes all knockers, is business manager of the ''Echo'' and is desireous of making a million—that's a lot to say of a fellow whose childhood ambition has changed 100 times or more or less.

Ben says ''Labor conquers all'' is his favorite quotation and from what we know of Ben he labors.

Reader, meet Mr. Houston, another Senior, who, no doubt, is willing to stick by his class and be called one of it, therefore for that reason will you not refer to the first line or two in paragraph two again? Three guffaws for the Seniors!

Edna Kimble: ''Prof. Hyden, I'm doing my best to get ahead in Chemistry.''

Prof. Hyden: ''I'm prone to think you need one.''

SHAKESPEARAN DRAMA AUSPICES SENIORS

''Much Ado About Nothing'' To Be Presented Saturday.

Clifford Devereux, who with his company, will appear at the Chapel Saturday, February 17th is producing drama in a competent, refined and dignified manner, thereby encouraging and developing higher standards of education and enlightenment, and awakening a broader interest in the stage as an institution of thought, as well as recreation.

For us Saturday night they are to give Shakespeare's delightful comedy, ''Much Ado About Nothing.''

Efficient as a director, Mr. Devereux combines with this rare gift, an unusual personality and a remarkable sense of characterization. Naturalness and directness mark his acting with an outstanding greatness— his performances have the repose, ease and individuality of a great artist. He pours through the channel of his dramatic faculty such resources of intelligence, strength and personal magnetism as mark him a genius of the first order.

Tho still a young woman, Miss Zenita Graf has played many parts, and her irresistible personality permeates each of the great roles she interprets, stamping her one of the most interesting figures upon the American stage.

In producing drama, Mr. Devereux believes in an unobtrusive background that is suggestive and while he studies the psychological effect of light and color in his production he achieves the simple and avoids the distracting detail of realism.

This play will be given under the auspices of the Senior Class. All seats are reserved. Admission $1.00.

KEEPING TRYST

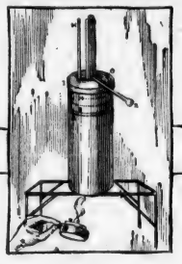
If every girl in school could only realize the spirit of fellowship, the high ideals, the real enjoyment obtained at Y. W. C. A. meetings, then every girl in school would attend every meeting. A large crowd, one that almost filled the room was at the last meeting, but others were needed and wanted.

Kathyleen Alexander had charge of the devotional exercises. Madeline Holmes played a beautiful 'cello solo and then the speaker of the afternoon, our well-known and well beloved, Mrs. McMurray, was presented.

Mrs. McMurray read a story from the ''Little Colonel'' series, Keeping Tryst. All were silent and thoughtful as the simple tale of olden times was read—the story of how Ederyn, the little page, remained faithful to his king in small tasks and large ones, in fair weather and stormy weather, in happiness and trouble—how he won a place by the king's side because he was always faithful.

Only a few words were needed to apply the story to our lives. If we would serve our King we must be ready for all duties, large or small.

Mrs. McMurray illustrated how a girl's life should be by a perfect rosebud, how carelessness and selfishness and wrong-doing tear the petals off and leave nothing but the bare stem. To keep tryst with our King, to keep all the petals on our rose—what a great task but how worth trying.



Reva: A fool can ask more questions than a wise man can answer.

John Hall: No wonder so many flunk on exams.

Prof. Orr (in Bible 1): Who wrote the Four Gospels?

Beulah Rankin: Why, the authors of them.

DENIS PAPIN'S

STEAM CYLINDER

They Weighed Air— *and* Charles II Laughed

SAMUEL PEPYS says in his diary that Charles II, for all his interest in the Royal Society, laughed uproariously at its members "for spending their time only in weighing of air and doing nothing else since they sat."

This helps to explain why Charles has come down to us as the "merry monarch."

The Royal Society was engaged in important research. It was trying to substitute facts for the meaningless phrase "nature abhors a vacuum," which had long served to explain why water rushes into a syringe—the commonest form of pump—when the piston is pulled out.

Denis Papin had as much to do as anyone with these laughable activities of the Royal Society. Papin turned up in London one day with a cylinder in which a piston could slide. He boiled water in the cylinder. The steam generated pushed the piston out. When the flame was removed, the steam condensed. A vacuum was formed and the weight of the outer air forced the unresisting piston in.

Out of these researches eventually came the steam engine.

London talked of the scandalous life that King Charles led, and paid scant attention to such physicists as Papin, whose work did so much to change the whole character of industry.

The study of air and air pumps has been continued in spite of Charles's laughter. In the General Electric Company's Research Laboratories, for instance, pumps have been developed which will exhaust all but the last ten-billionth of an atmosphere in a vessel.

This achievement marks the beginning of a new kind of chemistry—a chemistry that concerns itself with the effect of forces on matter in the absence of air, a chemistry that has already enriched the world with invaluable improvements in illumination, radio communication, and roentgenology.

ATHLETIC NOTES

A Brief Review Of Recent Athletics.

Maryville's road trip was highly successful. They began Saturday night by walloping the Knoxville Y. M. C. A. Tigers in their own den by the score of 26-22.

On Monday Coach Honaker and eight basket ball artists started on the warpath up through the wilds of upper East Tennessee. Tusculum was he first victim of the High'anders' outfit. They put up a sharp fight at the start and led Maryville boys a merry chase for considerably more han half the game. The Tusculumites were in the lead the first half, but the final whistle saw the Orange and Garnet on the top side of a 21-18 score.

East Tennessee State Normal furnished the next scalp. Normal put up a good scrap and finished only six points behind the Maryvillians, who accumulated a pointage of thirty.

Emory and Henry furnished the opposition for the next fracas, such as it was. But what opposition they could muster amounted to only a very small amount, for the Highlanders experienced little difficulty in rolling up 37 points and allowing the Wasps only an even dozen of counters.

At Milligan the choice of referee was exceedingly well made, and the Milligan team found in him a reliable ally. In fact the game and the decisions of that august gentleman and nominal referee became so rotten, that the Johnson City rooters turned their support from the Milligan team to the Maryville boys.

The Y. M. C. A. Tigers again furnished opposition, but only of a very mild sort and the Highlanders eased along to a 29-10 victory. The game was almost a farce, and a keen disappointment to Maryville fans who were looking for real basket ball.

Emory and Henry will be here Saturday, and prospects for a good game are good.

THETA EPSILON

Keith's Vaudeville may have given a performance in our neighboring city, Knoxville, last Saturday night, but it also gave a most interesting program in Maryville. Yes, in Maryville and right here on College Hill in Theta Hall. It is to the efforts of our program secretaries, Ethel Dorn and Kathleen Enloe, that we are indebted for this interesting entertainment.

The first number on the program was a scene in the old-fashioned garden. There, amid rose-covered trellises, sat the old-fashioned beau, Sydney Lamon, and his sweetheart, Ethel Dorn. Mary Biles sang in her usual attractive manner, "An Old Fashioned Garden."

This was followed by several selections by the "Jazz Orchestra" which were most enjoyable. The orchestra is composed of Theta musical talent, the members being Kathleen Enloe, piano; Margaret Bauman, saxaphone; Madeline Holmes, 'cello; Sara Given and Anna Lou Dorough, mandolins; Glyndon and Emma Brandon and Mary Helen Doisy, ukeleles.

The next number was the song "Tomorrow" sung by the chorus girls, Sara Kiskadden, Irene Curtis, Generva McDonald, Thelma Adam, Rena Mae Anderson and Sue Buell.

Then three Hawaiiain Maidens, Emma and Glyndon Brandon and Mary Helen Doisy, in native Hawaiian dress, sang several beautiful Hawaiian songs to the accompaniment of their ukeleles.

The last number on the program was a solo, "My Sweetheart, Sigma Chi", sung by Ruby Harrison. The chorus girls joined her in singing the chorus.

The meeting closed with the Theta motto.

Girls! You miss something when you miss these Theta meetings. Let's all be there next Saturday night!

Prof. Hyden: If H2O is water, what is CH2O?

George D. McCrary: Sea water.

THE CHEMISTRY CLUB TO GIVE A DRAMA

Thursday evening, February 1st. The Chemistry Club rendered its first program of the second semester.

Professor Hyden reported that the club was eligible for membership in a number of highstanding, National Chemical societies. The Club is shy of some of them for various reasons. There is one which is very desirable but we are shy of the required Ag and Au.

Miss Louise Sheddan read an interesting paper about the Chemistry of Preventative Dentistry. D. F. Waddell gave an instructive and rather entertaining talk on the Future possible uses of Radium.

Officers for this semester were elected as follows:

President - - - H. R. Arnold
Vice President - - Sue Veazey
Secretary - - E. W. Stanbery
Treasurer - - - Mary Tippet
Program Secy. - F. A. Griffitts
Editor - - - C. A. Wathen

The Dramatic committee of the Club has planned a play for next meeting. Admission free. Freshmen are especially invited as it will be an easy and intersting way for them to clear up the subject of Chemical Affinities and Valence.

The play is a romance of the elements.

PUBLIC SALES

We have purchased 122,000 pair U. S. Army Munson last shoes, sizes 5 1-2 to 12 which was the entire surplus stock of one of the largest U. S. Government Shoe contractors.

This shoe is guaranteed one hundred percent solid leather, color dark tan, bellows tongue, dirt and waterproof. The actual value of the shoe is $6.00 Owing to this tremendous buy we can offer same to the public at $2.95.

Send correct size. Pay postman on delivery or send money order. If shoes are not as represented we will cheerfully refund your money promptly upon request.

HERE AND THERE ON THE CAMPUS

Miss Elizabeth Montgomery who tore the ligaments in her shoulder while playing gym is now able to be back at classes.

Last Sunday the Baldwin girls decided that they knew just exactly how Dr. Gillingham felt, when he watched the moon come up—over the water.

Some professors as well as some students seem to show a fondness for social teas.

When the Y. W. sign appeared saying, ''Love is the greatest thing in the world'', some students expected to see written under it, ''Ask Prof. Mintier, he knows.''

Miss Perle Lambertson is attending the Student Volunteer Conference this week.

Mr. Harold Van Orden has been called home on account of the illness of his mother.

Mr. Sam H. Franklin, Jr. has recently attended a ''Y'' conference in Nashville.

Professor George Howell has installed a radio receiving apparatus in his room in Carnegie Hall. Prof. Howell has found that it works quite satisfactorily. He has received from many of the radio broadcasting stations, such as Detroit, Chicago, New York, Pittsburg, Kansas City, St. Louis and Fort Worth.

Since leaving school, Mr. Chas. D. Taylor has been in a hospital in Cincinnati, Ohio. He had an operation on his nose, and is coming along fine. Mr. Taylor is not sure as yet whether he will get to come back to school or not. It is hped that Mr. Taylor will soon be able to resume his college work.

A new student on the Hill is Mattie Mae Forkner, she rooms with Celia on third floor Pearsons and eats at table No. 28.

Maggie Lloyd was crippled, but now she is out again on the campus.

Miss J. Lynn went to Knoxville Monday afternoon in the rain, also she was in a taxi.

Mr. Bill Arnold's eyes have had put before them some glasses.

There is somebody on the campus named Babe Ruth. You might—ask Ruth Newton who it is.

TO PROF. ACTON

Lovingly dedicated to the memory of Burney Acton by his 11:15 History Class.

P-rofessor uBrney Acton,
R-id of his senseless class, is
O-n his way to baseball games
F-or he always craved action.
E-ach one here will think of him—
S-uccess his chief ambition.
S-o long as his days endure
O-n the field, he's sure to win,
R-eturning with great honor.

A-lways so meek and quiet
C-ompared with his utmost strength!
T-e-ars flow freely for him, so
O-ur class good-will we send to him
N-ow and forever after.

NEW SPIRIT NEEDED IN BAINONIAN

The meetings are over. Let us hope that the spirit left by them on the Hill will not pass. Every organization here needs it. Bainonian especially. Our meetings recently have been very good, but they can still be surpassed, if each Bainonian backs the officers and helps make the meetings what she thinks they should be.

On Saturday night, February 24, the program secretary is planning to present a short play, ''Hard Boiled''. There is that in it which will satisfy the craving for something different. Everybody out! Your society is what you make it!

DR. FRANK MARSTON LEADS MARYVILLE IN NEW CONSECRATION

(Continued from page one)

Romans 5:12; Romans 6:23. Theme: The most fearful fact of History.

Wednesday Exening, Feb. 7.—Text: Ecclesiastes 12:1. Theme: Remember thy Creator.

Thursday Morning, Feb. 8—Text: Exodus 32:26. Theme: Who Is On The Lord's Side?

Thursday Evening, Feb. 8—Text: 1st. Kings 20:40. Theme: While I was busy here and there.

Friday Morning, Feb. 9—Text: 2nd. Corinthians 5:17. Theme: New creatures in Christ Jesus.

Friday Evening, Feb. 9—Text: 1st. Corinthians 10:12. Theme: Drifting.

Saturday Morning, Feb. 10—Text: Matthew 22:42. Theme: What think ye of Christ

Saturday Evening, Feb. 10—Text: Colossians 1:23. Theme: A Last Hope.

Sunday Morning, Feb. 11, at New Providence Church. Text: Luke 16:25. Theme: The Memory or Pictures from the Past.

Sunday Afternoon, Feb. 11. Y. M. C. A. and Y. W. C. A. Texts: John 10:9; Revelation 3:8; Revelation 3:20. Theme: The Three Doors.

Sunday Evening, Feb. 11—Texts: Matthew 27:11; Matthew 27:22; John 19:5. Theme: What Shall I do with Jesus?

Monday Evening, Feb. 12—Text: Mark 12:34. Theme: Not Far From the Kingdom.

Tuesday Morning, Feb. 13—Text: John 8:12. Theme: The Light of the World.

Tuesday Evening, Feb. 13—Texts: Genesis 19:16; Exodus 8:10; Acts 24:25. Theme: Tomorrow.

Wednesday Morning, Feb. 14—Text: Numbers 32:23. Theme: Be sure Your Sin Will Find You Out.

Wednesday Evening, Feb. 14—Text: Mark 10:17. Theme: The One Thing Lacking.

Thursday Evening, Feb. 15—Text: Eph. 2:10; John 3:16; Hebrews 2:3; Rom. 15:13. Theme: Individual Without Christ.

Friday Morning, Feb. 16—Text: John 11:28. Theme: Christ Calleth for you.

The final service of the meeting was a time of great rejoicing. There was rejoicing because of the large number of those who became Christians for the first time and the still larger number of reconsecrations. Reenforcements for the Army of Christ surely came in large numbers during the meeting.

Dr. Marston and Rev. Stringham were the recipients of gifts in gold which were presented by Miss Green. These gifts were from the faculty and student body.

JOKES

I once knew
A girl.
Who was so modest
That she wouldn't even do
Improper fractions.

From the ''Washington Sun Dodger'':

''Lost my note-book''!
''Lost all you know, huh?''
''No, lost all my professors know.''

NO DOUBT

Out on the campus
No one nigh,
Moon light soft.
So was I.

Un lil' kiss.
No one to see.
I enjoyed it.
So did she. —''K. K. K.''

MY HIGHEST AMBITION

I wish I was a rock, a sitting on a hill,
I wouldn't do a thing all day but just sit still.
I wouldn't eat, I wouldn't sleep, I wouldn't ev'n wash,
I'd just sit still for a thousand years,
And rest myself, ''BIGOSH''.

DR. MARSTON LEADS JOINT MEETING OF Y. M. AND Y. W. C. A.

Besides the soul-winning and character-building sermons preached by Dr. Marston during the meetings, the Christain Associations are especially indebted to him for the splendid address he delivered Sunday afternoon. The topic was—The Three Doors. In brief, the outline was based on three verses of Scripture. The door of salvation, John 10:9, ''I am the door; by me if any man enter in, he shall be saved.'' The door into life-service, Rev. 3:8, ''I know thy works: behold, I have set before thee an open door, and no man can shut it.'' The door of the human heart Rev. 3:20, ''Behold, I stand at the door, and knock: if any man hear my voice, and open the door, I will come in to him, and will sup with him, and he with me''

With the door of salvation welcoming, with the door of life-service waiting open, may we let Him in our hearts' doors that we may joyfully pass through to receive he welcome and reward.

M. E. CHURCH, SOUTH

Rev. French Wampler, Pastor

College Students:

You are always welcome at this church, both for Sunday School and the preaching services, as well as at the Epworth League. You will find an interesting class when you come to Sunday School here, big and enthusiastic. The Pastor will discuss two unusually interesting themes Sunday: GLAD TIDINGS OF GREAT JOY, and WHY THE BIBLE IS THE WORLD'S BEST SELLER.

You are given a cordial invitation to worship at that church.

Girl (at boarding house): Can I see Mr. Edwards, please?

Lady: We lon't allow young ladies in the house. May I ask if you ore a relative?

Girl (boldly): Oh, yes; I'm his sister.

Lady: Well, I'm very glad to meet you. I'm his mother.

MISS CLEMMIE TELLS OF HER EXPERIENCES

(Continued from page one)

lege, and I think I shall repeat some of the things that came to me unsolicited.

''We are for Maryville, for it is built on foundations that will stand the test of time.''—From a women who stands at the head of a large and influential organization in her state.

''The Maryville ideal is altruism, service for others, and it has carried and still carries this ideal with a self sacrifice unrecorded.''—From an editorial written by a former Maryville man.

''Maryville is training American men and women in American ideals, and these men and women are the hope of our country.''—From the Superintendent of schools in a large city.

''My son is now in high school, but I hope to send him to Maryville when he is ready for college.''—From a prominent physician in a large city.

''Maryville is training its students along the lines that will make for success in the world, and happiness in their lives.''—From the president of a familiar chain of stores in the East.

Certainly friends are expecting large things from the men and women who are in Maryville College today, and I believe they will not be disappointed.

Any results that have come, or may yet come, from my trip will be due in a large measure to the loyalty of the faculty, students, and friends who supported the work and the worker by their interest, their encouragement, and their earnest prayers.

MARY'S LAMB

Mary had a little lamb
Her father killed it dead,
But she still takes her lamb to school
Between two hunks of bread.
—''S. O. S.''

JOKES

Prof. Mintier (in History): Who were the Friars?

Marjorie Lloyd: They were young pullets.

Wart Jones gets Cuba on his radio. Well, what's that? We got central on the telephone.

Congress has officially decided that ''guts'' is a nice word. Who said that college students couldn't coin words?

Girls, we're awfully sorry not to be able to enjoy the play with you Saturday night, but we have a pressing engagement elsewhere.

Leslie Poe has taken on his weakly avoirdupois.

We girls wonder why some young men on the faculty don't go through the boys' entrance to the dining hall.

Roy McCall seems even more interested in chickens now than usual. He's taking emeryalogy.

Do you suppose Keen will always have a mustache?

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME EIGHT | MARYVILLE, TENNESSEE FEBRUARY 23, 1923 | NUMBER FIFTEEN

LIFE-WORK CONFERENCE HERE ON MARCH 2-4

RECOGNIZED CHRISTIAN LEADERS OF MANY VOCATIONS WILL BE AT MARYVILLE TO GIVE THE BENEFIT OF THEIR EXPERIENCE TO MARYVILLE STUDENTS.

Second Annual Conference Places Maryville In First Place in Training Her Students For Leadership.

Last year Maryville College attracted attention throughout the Southland and in the North and East by her Life Work Conference held by the Students of the College Associations.

Colleges and Universities of the South and of this state are watching the outcomes of Maryville's Conerences and are seriously considering the adoption of her plans in some form. The idea of bringing to the whole student body men and women who know of the vocations and callings of Life, and who, in addresses and personal interviews, help many students to decide on some definite kind of Life Work, has been put into a reality which is past but which is, with renewed force and vision, soon to be again.

Christian Leaders and Workers representing nearly twenty fields of Life Service will be here on the 2nd, 3rd, and 4th, of this coming March to give their best and all to Maryville College Students who are highly favored by having such leaders of worth and power in their midst.

President Wilson says, "The Life Work Conference conducted last year by the Y. M. C. A. and Y. W. C. A. was a very useful contribution to the influences of the college year. The great question of one's life work was considered from many points of view and much light was thrown upon it. The addresses and interviews were earnest and sane and helpful. The students were assisted greatly in the correct solution of the mighty problem of the determining of their life's divinely appointed objective."

Men see things different from women at times so we will now read what Miss Clemmie J. Henry has to say about the matter:

"The Life Work Conference offers a remarkable opportunity for young men and young women to profit by the experience of others in making one of the most important decisions that will ever come into the individual's life. I most heartily endorse the Conference."

We are pleased to have these words of endorsement and praise and as students must not fail to make the most of the opportunities which are curs. Of all College Students of the Southland we will be about the most favored on next March 2, 3, and 4.

Book your intreviews now and be sure to keep your appointment. Study the following program and, "Who is Who" outline and you will better realize what is in store for Maryville College Students:

PROGRAM
Friday

8:10—Chapel
Conference Leaders Introduced.
8:20—Address by Dr. W. C. Crothers, "The Second Great Question."
8:50—Group Meetings—Service our Watchword.

TWO BASKET BALL VICTORIES FOR M. C.

Transylvania And E. T. S. N. Fall Before Highlander Attack.

Transylvania Game The Thrill Of The Season With Maryville's Team At Its Best.

The fans who were wanting a spectacular basket ball game full of all kinds of thrills, got exactly what they were looking for in the Transylvania scrap. It was decidedly the best game of the season, at least as far as thrills are concerned. The score see-sawed in every which direction, one team or the other leading by a very small margin, usually one point.

The end of the first half saw the Kentuckians leading 14-11. In the second half the Highlanders started in with a rush and took the lead. Their advantage was, however, short lived because the Transylvanians took a scoring spurt that left the Honaker crew behind. They kept thier advantage to within twenty seconds of the final whistle; then things began to happen, the like of which is not seen oftener than one time out of more than a thousand. Jean, who had been off his horses, as far as his shooting eye was concerned dropped two perfect shots into the basket from well past the middle of the court. The whistle blew as the ball was tossed up at center.

Both captains agreed to an extra five minute session. But five minutes of furious play produced no point-

(Continued on page two)

LEAGUE TEAMS AND PERCENTAGES

Initial Games of The Newly-Formed Basket Ball League Show Some Real Contests And Some Worth-While Talent Is Displayed.

The first game was between the teams of Bowles and Heiskell and the line-up was as follows:

Bowles' Team (24)		Heiskells (14)
Crookshanks	r.f.	Purdy
Burchfiel	l.f.	Heiskell (capt.)
Martin	c.	Kinsler
Henry	r. g.	Ellis
Bowles (capt.)	l.g.	Poe

Summary: Field Goals— Crookshanks 7, Burchfiel 1, Martin 3, Purdy 2, Heiskell 1, Kinsler 2, Poe 1; Foul Goals: Poe 2; Substitutions, Watkins for Purdy. Rerferee, Riskey.

(Continued on page two)

STUDENT COUNCIL PROPOSED FOR MARYVILLE COLLEGE

THE CONSTITUTION AND EXPLANATION OF A STUDENT COUNCIL THAT IS PROPOSED AS A PLAN FOR SECURING THE MAXIMUM COOPERATION BETWEEN MARYVILLE FACULTY AND STUDENTS.

Long cherished dreams of student self-government on College Hill suddenly began to approach reality when, on February 6th, a group of representatives from the College and Preparatory classes determined to begin an active movement toward securing for the students a voice in the management of affairs in which they are concerned.

The constitution which was presented to this body as a suggested first step in giving the students a voice in affairs of the campus is printed in full below. It was pointed out in the meeting that this constitution does not give the students any final power, it enables them only to recommend any proposed action to the faculty. It was further remarked, however, that such a plan does make possible the exchange of viewpoints between faculty and students, and the transmission to the faculty of any demand that is fully backed by student sentiment. The committee of the councils, and the delegates of the classes laid emphasis upon the fact that the proposed constitution is only a suggestion, that neither the faculty nor any group of students is interested in adopting this document or any other except as it is seen to be for the good of the school, and to this end the meeting determined to request through the medium of the Echo, that every students give it careful attention and criticism.

ARTICLE I.

Section 1. This constitution, having been adopted by a three-fourths vote by ballot of the Student-body and approved by the College Faculty, there is hereby constituted a Council to be known as the Student Council of Maryville College.

ARTICLE II.

Section 1. The object of this Council shall be:

a. To furnish a representative body of students, who, by virtue of their position and influence in students affairs, shall be able to express the sentiment of the student-body.

b. To cooperate with theFaculty in maintaining Maryville College ideals, and the traditions and customs of the College, to furnish a student organization with the welfare of the school at heart, to establish a body by whom proposals arising from the students for the betterment of the school may be heard, developed, and, when approved, by the Council and Faculty placed into execution.

c. To serve, by means of group representation, as a medium of communication between the students and any other party seeking to carry out a plan approved by the Council.

ARTICLE III.

Section 1. The Council shall consist of eight Seniors, Six Juniors, Four Sophomores, Four Freshmen, one member of the Senior Preparatory class, one member of the Junior Preparatory class, and one member from the Second year and First year Preparatory classes, voting as one body.

Section 2. One half of the representatives of each class shall be girls, and one half boys. The Preparatory representatives shall be alternately boys and girls.

ARTICLE IV.

Section 1. Preceding each election, the Registrar of the College shall divide the boys and the girls of the Freshmen, Sophomore, and Junior classes, respectively, into groups to the number of the representatives allowed each class. Each group shall elect one of its number to the Council. No grouping shall be made in the Senior class or in the Preparatory classes.

Section 2. The Registrar, in creating these groups, shall be guided by the alphabetical order of the names of the students. During the course of the year he shall make necessary tsransfers in order to preserve the equality of the groups.

Section 3. To become or to remain eligible for membership in the Council, a student shall be in good standing with the College as to scholarship and discipline.

ARTICLE V.

Section 1. Council members shall be elcted by a majority of the total membership of their group or class, the voting being by secret ballot.

Section 2. Election of the Council members of the Senior, Junior, the Sophomore, Senior Preparatory, and Junior Preparatory classes shall be held two weeks after the open-

(Continued on page four)

"MUCH ADO ABOUT NOTHING"

Appreciative Audience Sees Clifford Devereux's Production of "Much Ado About Nothing."

Senior Class Being Commended For Bringing Company To "College Hill".

Though circumstances prevented much extensive advertising for the play, the audience which assembled in the chapel on Saturday evening to see this representative of Shakespeare's comedies, was fairly large and unusually attentive. From the first rising of the curtain until its final fall, the interest of the play was well sustained. The plot, which seems rather artificial according to the modern conception, was made subservient to the characterizations which were in a few cases, excellent. Shakespeare's delicacy of character construction was especially well illustrated by the interpretations given to Benedict and Beatrice by Mr. Devereux and Miss Graf.

Miss Graf put into her Beatrice something of the independence and frankness of the modern girl, but with it all she did not conceal a certain delightful coquetishness which is certainly not prominent nor even exists in the 20th century co ed.

Mr. Devereux's Benedict was drawn vividly and surely only a deep understanding of the character could have made such a portrayal possible.

If admiration of such character indicates similarity of tastes, modern audiences have scarcely changed. In fact they must be quite like these that gathered at the London Globe to see the same play.

M. C. VOLUNTEERS AT STATE CONVENTION

"The Volunteer State Volunteering For Christ".

There were not more than twenty five Student Volunteers for foreign missions, in Tennessee, outside of Maryville, just four years ago. It was in that year that the first Tennessee Conference was held at Maryville College, the beginning of the Student Volunteer Union of Tennessee. The officers of this new organization were: President, Mildred Hoffman, of Maryville; Vice-President, Tom Maston of Carson-Newman; Secretary, Dorothy Dailey of U. T. (now Mrs. Tommy Loft); Treasurer, David Watts of Johnson Bible College.

On February 16, 17 and 18, at the University of Chattancoga the fourth conference was held represented by almost every College, University and Preparatory School in Tennessee. Maryville College was the best represented having eighteen delegates.

On Friday evening, February 16, the Conference opened at 7:40 the first session at the University Chapel, lasting until 10 o'clock. During this time there were two splendid addresses the first being a stereoptican address, "World Survey" by Dr. J. P. McCallie. With this address was opened the whole world as a field of service with no bourdary line. The second address, "The Challenege of Christianity", be a well known medical missionar of Labrador held the attention of the audience, in its interest and earnest appeal.

The Business Men's Club of Chattanooga was very kind in securing

Team Support

The Maryville-Transylvania game is conceded to have been the best game of the season. Second only to the work of the team in making it such was the support given the players by the students. The band and the cheer leaders led the students, and we had a splendid example of how well Maryville could support one of her teams. Now, let's keep this spirit!

* * * *

Life Work Conference

A word of praise should be said for the ''Ys'' and for the Life Work Conference. The February Meetings have a profound influence on the lives of Maryville students. So also has the annual Life Work Conference conducted under the auspices of the ''Ys''. This conference makes it possible for every one to consult a specialist in regard to the selection of a life-work. The value of such a conference is so apparent that it needs no further explanation. Cooperate with the Y in this work by taking advantage of the opportunity offered.

* * * *

A Student Council?

Maryville functions most efficiently when the cooperation between Faculty and Students is at its maximum. The attainment of this cooperation is of vital interest to every one. A plan for a Student Council is being advanced as one factor in securing this desirable condition. The Echo presents this week the full details of the proposed Student Council. Every student should give this proposed Student Council a careful examination. If this Student Council will promote the maximum cooperation between Faculty and Students it should be adopted.

* * * *

Dr. Marston certainly believes in altruism. When he was leaving the Hill on the sixteenth, he was presented with fifty-five dollars in gold as a token of appreciation by the students and faculty. While greatly appreciating the spirit in which the token was given, Dr. Marston preferred to do as he intimated he would do, that is, pass the gift on to some worthy cause. In accordance with this desire and purpose, Dr. and Mrs. Marston added five dollars to the fifty-five, and sent a check for sixty dollars back to old Maryville. Thirty odllars is to go to the Home Economics Department and thirty dollars to the Manual Training department, to help provide means of self-help for the students. Dr. Marston says: ''I do not know of any place where money can be used more for the glory of God than in Maryville College, and for the help of the students who are fighting their way through to an education. May God bless the faculty and the student body.''

ABOUT THE CAMPUS

Miss Alice McAnulty and Mr. Dewey Eitner wish to thank the student body publicly for the kindness shown them as they left here for Chattanooga last Friday morning. They had an excellent trip and attribute the spice of the send off to the students

Ask Mary McSpadden whose bracelet Leslie Poe had shining on his arm when he suddenly quit yelling Saturday morning.

The many friends of Miss Bertha Williams are glad to see her back on the Hill again. It makes the Old Hill seem more natural.

Rev. R. H. Gorham, a student of last year was a visitor on the Hill during the February Meeting. At present Rev. Gorham is doing community work in Eastern Kentucky.

Mr. Stuart Rohre is spending the week in the College hospital.

Results of the February Meetings have been tabulated in the office and the tabulation shows that there were 54 conversions and 267 reconsecrations.

TWO BASKET BALL VICTORIES FOR M. C.

(Continued from page one)

age, and the score was still knotted at 24 points all.

The next session produced results. Slim McGinley got hot, and with the aid of fast pass work by the whole team found the basket for three field goals. The Transylvania boys failed to count, and the final score was 31-24.

It would be a difficult task to pick an individual star, and we wont try to except to mention captain McMurray's feat of extra-ordinary dropping two long shots into the basket with only twenty seconds to go. As for the teams in general, too much cannot be said of the excellent brand of basket ball put up. The put out one of the best exhibitions of team work that have been seen on the local court in a long time.

The Transylvanians didn't fail to show some real first-class basket ball either. They were by far the best bunch of basket ballers that have visited the Maryville court this season. They showed enough sure 'nuff basket ball to throw a big scare into the Highlander camp, and even to make the fans give up the game as lost. We're much obliged to Captain Jean for changing the opinion of the fans.

The line-up

Maryville		Transylvania
Riskey, 6	f.	A. Powell, 6
McMurray, 15	f.	Adams, 8
McGinley, 6	c.	R. Powell 10
Musick, 2	g.	White
Veach, 2	g.	Thompson

Substitutions: Maryville— Janoviczky; Transylvania: D. Adams.

Referee: Schmidt.

After the thrilling affair with Transylvania, the East Tennessee State Normal fracas seemed quite a mild affair. The home team started off with a mad rush led by Riskey, and completely cow-tromped the up-state lads for the first-half, accumulating a score of 22, and allowing the Normal boys a measley 5.

In the second half the Maryville boys kinda lost their punch, and allowed the Normalites to outplay them. Their advantage was too great for the Johnson City bunch to overcome, and the end of the game found the Highlanders securely on the long end of a 30-20 score.

iRskey led the Maryville attack, caging seven field goals for 14 points. DeMarcus was the visitors' star.

The line-up:

Maryville		E. T. S. N.
Riskey, 14	f.	McNelley, 8
McMurray, 6	f.	Reese, 4
McGinley, 2	c.	DeMarcus, 6
Musick, 2	g.	Choate
Veach	g.	Thornburg

Substitutions: Maryville— Janoviczky 4. Sneed 2, Gamble, Wynecoop; Normal—Quillen 2. Anderson.

Referee: Schmidt.

M. C. VOLUNTEERS AT STATE CONVENTION

(Continued from page one)

enough cars for almost all the delegates to take sight-seeing trips to the points of interest about Chattanooga, mainly Lookout Mountain, Signal Point, Missionary Ridge and Chickamauga Park.

The leading speakers of the Conference were: Milton Stauffer of the Student Volunteer Movement who served in China for six years; E. J. Weeks, of the Presbyterian Board; Miss Sadie Buckland, an educational missionary from Korea; Prof. C. H. Mount, who for several years worked in Africa, and Dr. W. D. Weatherford, of Southern College Y. M. C. A. beloved by all students. Sunday morning at the regular church service, student speakers were sent to almost every church in Chattanooga to tell of the origin, of the Student Volunteer Movement, its purpose, and his or her reason for declaring a purpose to go as a foreign missionary. Maryville shared in this with Dorothy Winters, Dewey Eitner and James Jackson

Each delegation was asked to have prepared some form of music, to be rendered at some time during the Conference. Of course Maryville had her part in this, a mixed quartet composed of Dorothy Winters, Alice McAnulty, Dewey Eitner and Burl Pritchard sang, ''That's Why I Love Him'', singing the message of love into every heart.

The officers of the Union for the coming year are: President, Soville Clark of Vanderbilt; Vice President, Lolita Hannah of Carson-Newman; Secretary, Dorothy Winters of Maryville.

Those attending the Conference from Maryville were: Arthur Kinsler, Robert Clopton, Roy Buffat, Burl Pritchard, Henry Welbon, Henry Cox, Dewey Eitner, James Jackson, Dorothy Winters, Alice McAnulty, Mabel Higginbotham, Dorothy Roney, Alice Robison, Florence Kleinheun, Harriet Green, Edith Keen, Dolly Enoch and Perle Lamberson.

I'LL SWAR

He: May I hold your hands.

She: Of course not. This isn't Palm Sunday.

He: Well, it isn't Independence Day either.

FIRST WEDDING IN BALDWIN HALL

Baldwin's back parlor was the scene of a very beautiful wedding last Monday when Mr. Ruth Allen gave his daughter Miss Frank Galimore in marriage to Mr. Charlotte Allen. The bride was very charming in a long white veil, and the maid of honor Miss Curtis Newcomb wore an imported picture hat. The bride's maids were Misses Robert Strauss and James Harvey. The dainty little maids Everett Jackson and Phillip Johnson having jonquils reposing above their ears danced in in their sprightly way, scattering flowers before the wedding party. Mr. Lucile Crowder was best man. The ushers were Mr. Seda Given and Mr. Susan Powell. The impressive ring ceremony, performed by Rev. Ruby M. Harrison, was as follows:

''Dear friends we are gathered together for the purpose of tying

(Continued on page four)

OLD MARYVILLE

There are times when my heart is pining
With a feelin' I cannot down,
To return to the scenes of happy days
In a little Southern town;
Where a rolling hill holds mem'ries dear
And the scenes my vision fill,
While down in my soul a yearning burns,
To be back in Old Maryville.

On the campus crested with cedars,
So often in spirit I roam
Through historic halls or the college woods,
Contented as though at home.
And then again I am by the creek
In spots secluded and still,
Where in my dreams I enjoy once more
Happy days in Old Maryville.

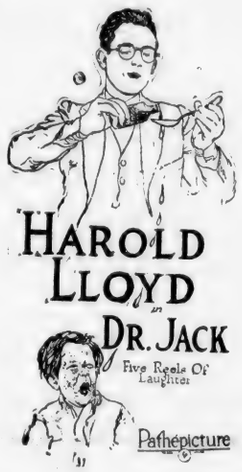
Friends' faces keep rising before me,
And friendships so tried and so true,
And whene'er I think what they mean to me
It makes me feel rather blue
To know that I cannot be back there,
Happy visions to fulfill,
And so I have to content myself
With mere dreams of Old Maryville.

Rich treasures were opened there for me,
Priceless gems wre laid at my feet,
And now into the great world I can go
Its problems and tasks to meet;
But while I'm fuifilling my mission,
Endeav'ring to do God's will,
I'll ever be true to the task He set
And true to Old Maryville.

(W. L. Jester).

NOTE—Students of last year remember Mr. Jester. He is now doing Seminary work at Louisville, Ky.

THIS WORLD'S A FINE PLACE AFTER ALL AS LONG AS EVERYODY PLAYS THE GAME FAIRLY.



The Chilhowean is well under way now. It's going to be a great book, too. The cooperation of all is making it possible. The town is backing us, too. You have a part to play and it's fair enough. Just about one of the easiest and most natural things in the world to do. Watch this space for a list of business men advertising with us and then ''patronize those who patronize us''. Show them we appreciate their interest and that it ''pays to advertise with us.''

Y. NOTES

There was a splendid Testimony meeting at the Y. M. C. A. Sunday. Led by Ed Hamilton the meeting served as a means for tying up the experiences of the February Meetings with our every day life. From the expressions of those present the meeting was helpful in that it gave a sort of vantage ground where the men saw that responsibilities and opportunities lay before them in the Christian Life.

Some special Sunday services are being planned for during the Spring. You can't afford to miss a single one.

What the Y is doing in Colleges and Universities over this country: University of Tennessee conducts a noon Bible class on the 'standard' Old Testament stories. The class, which began with three members, has grown to an average daily attendance of fifteen.

Carnegie Tech, with an Association only one year old, reports a membership of forty-five per cent of the entire school enrollment.

''How about the Ku Klux Klan?'' ''Comparative Religion?'' ''Suppose another War were declared, What Would You Do?''—these are among the topics which Kansas men have faced in discussion groups and forums during the past months.

Princeton Association has been inviting members of the faculty to speak on the contribution which their paritcular science renders to the welfare of the world, with special reference to its bearing on the Christian faith. These metings have been very largely attended.

LOVE, THE TOPIC AT Y. W.

Although Catherine Buell who had charge of Y. W. service Sunday afternoon was unable to be present, the service was well conducted by Henrietta Smith. There was a large crowd, in spite of the cold weather, and the coziness of one's own radiator. Each girl did her best to make the meeting a real benefit and a service.

Love, of God for us, of us for God, of home, of friends, of enemies, of virtue, of the unlovely, of refinement, of nature—love, the eternal theme, was the topic. Such a spirit of love as is exhibited by Y. W. girls for each other and all others proves that it is the greatest topic in the world.

JUNIOR Y. W. C. A.

Did you ever see the word "step children" in the Bible? Sunday at Junior Y. W. C. A. Hazel Bevan, the leader, said that certain people in the Bible could be called step children because we pay so little attention to them. Sarah Witherington told us of Miriam, the sister of Moses. She said that even if we are not heard of we can do just as much work quietly. Anna Ruth Whitfield told about the widow who fed Elijah. This widow may not have known that she was entertaining a prophet, and likewise we sometimes entertain angels unawares. In speaking of the brother of the Prodigal Son, Ethel Dorn said that if he had had the power of forgiveness we should have had another noble character in our Bibles since he was ready to serve his father, obeyed him, and was willing to stay at home. Helen Margaret Bowman told about Martha who was reproved by Christ for worrying about household affairs. But Martha had several noble qualities. She had faith, was always busy, and served God in her own way. The inn-keeper who helped the Good Samaritan was pictured to us by Dorothy Dickerson. He had power to finish or spoil the work of the Good Samaritan. Today may be a critical day in our lives as it was in the life of the inn-keeper. We have a sacred trust left in us. The Good Samaritan has been here in the form of the February Meetings, and it is up to us to finish the task. Freida Mylius added much to the program by singing ''Teach Me to Pray.'' Girls! unless you come to these meetings you miss much.

A PREVIEW

Given: a girl who has been shipped from three finishing schools, a mother who has no idea of true sympathy and very strong ideas on just what is proper, and a boy who seems to be very much the same type as the girl, what kind of story would you make?

Remember, the title must be ''Hard-Boiled''. If you're interested in such a group of people come to Bainonian's next meeting. If you're not interested, come anyway and you'll be interested before you leave. This short sketch, in three acts will be presented Saturday night, February twenty-fourth. Between the acts, you will be favored with selections of popular music.

PI KAPPA DELTA

All members of inter-collegiate debate teams or of the two forensic leagues are urged to be present at the Pi Kappa Delta meeting Wednesday, March 7th.

A question of vital interest to all debaters is to be put before you. Be curious. A few brief, informal discussions of the question will be given by some of the debaters and then every one will have a chance to talk. If you are nursing a pet idea concerning debate affairs, here will be your chance to make it the prize suggestion for the year. Come, and bring it with you.

PUBLIC SALES

We have purchased 122,000 pair U. S. Army Munson last shoes, sizes 5 1-2 to 12 which was the entire surplus stock of one of the largest U. S. Government Shoe contractors.

This shoe is guaranteed one hundred percent solid leather, color dark tan, bellows tongue, dirt and waterproof. The actual value of the shoe is $6.00 Owing to this tremendous buy we can offer same to the public at $2.95.

Send correct size. Pay postman on delivery or send money order. If shoes are not as represented we will cheerfully refund your money promptly upon request.

THERE'S A REASON

I never go with college girls,
I never make a date,
I'm never fussing on the street
Or saying, 'Ain't love great?'

I never toke one to a dance.
The reason's plain to see,
I never go with girls, because
The girls won't go with me.

SECOND ANNUAL LIFE WORK CONFERENCE

(Continued from page one)

10:20—The Negro Problem, Dr. Giffin, Bartlett Hall

Special group meetings with Conference Leaders. These meetings to be arranged for through those who book interviews. None of the special meetings for only a few students are to interfere with the Conference proper or with the College Classes.

Intrviews during vacant periods and after 3:00.

3:00—Girls in Y. W. Room, Thaw Hall, Miss Margaret Lewis

3:00—"The College Man's Responsibility" Bartlett Hall, Fred T. Barnette

6:30—College Sing, J. Alvin Keen in charge. College Quartette

6:50—The Christian Ministry, Dr. Horace C. Wilson

7:20—A Challenge to Youth, Fred T. Barnette

Special Group Meetings and Interviews.

Saturday

8:10—Chapel. Devotional, Scout John M. Gore

Address, Giving Self For Others, Dr. Henry H. Sweets

8:40—Chapel, boys only, Mr. C. B. Loomis, Wanted: Leaders for Young Boys.

8:40—Y. W. Rooms, all interested in Teaching, Dr. Stooksbury's addres.

Special Meetings at Noon.

Book your interviews NOW.

Watch the Posters.

3:00—Boy Scout Work, Prof. Orr's room, John M. Gore

3:00—All Girls in Y. W. Room. Three 12-minute addresses:

1. Miss Reeves, Y. W.'s Call for Workers.
2. Miss Lewis, The Young Woman and Her Life Work
3. Miss Reid, A Challenge to Womanhood.

Also Miss Janie McGauhey will meet all girls interested in Church Assistant work, in Young Peoples Work and in Social Service, in the Y. W. C. A. Reading Room.

4:00—Student Y. Work— Bartlett Hall, G. Noel Mayhew

5:15—Supper for Conference Leaders, Domestic Science Rooms.

6:15—College Sing. Keen in charge

7:25—Devotional, Dr. W. M. Cleveland

7:35—The Principles of Jesus For Your Vocation. Dr. Crothers.

8:00—Y Cabinets and Conference leaders meet in Thaw Hall.

Sunday

9:30—Conference Speakers before the City Sunday Schools.

10:45—Conference Leaders in City Churches

(Announcements as to Assignments made later)

1:00—Address to Y. W. C. A. by Dr. Sweets

The Y. W. Question Box Period following. All lady Conference Leaders present.

1:00—Y. M. C. A. Address by Dr. Crothers

The Y. M. Open Forum and Question Period. All men Conference Leaders present.

Vespers—What Shall The Answer Be —Dr. Cleveland

NOTICE—Use your vacant hours to advantage. Let us take notes freely, ask questions earnestly, take advantage of the Interview periods, and make this Conference of lasting value to us all.

WHO IS WHO

Those who will be here on Friday, March 2nd.:

Dr. W. H. Crothers, Presbyterian Board of Education, New York. For interviews with him see Emery C. Fritz.

Fred T. Barnette, Vanderbilt Medical School. A former lawyer, but now in Student Y Work at Vanderbilt.

Mrs. M. E. Blair and assistants, Knoxville General Hospital, Knoxville, Tenn. For interviews see Dorothy Roney.

Dr. W. L. Lynn, Medical doctor, Knoxville, Tenn. For interviews book with Decatur Waddell

Mr. W. R. Welorich, chemical and mechanical negineering, U. T. For interviews see Herrick Arnold, and L. Crawford.

Miss Ann T. Reid, Woman's Board of Foreign Missions, Pres. For interviews book with Catherine Wilson.

Miss Fannie Walton Reeves, Y.W. C. A., Knoxville, Tenn. For interviews see Mary Robison.

Miss Margaret E. Lewis, Woman's Board Missions, New York. Book with Alice McAnulty.

Dr. Henry H. Sweets, Christian Education and Ministerial Relief, Pres., U. S., Louisville, Ky. Book with P. G. Rice.

Dr. Wm. M. Cleveland, Board of Missions, St. Louis, Mo. A man who knows Fred Hope, who is under his Board. For interviews see R. A. N. Wilson.

Dr. Giffin, President Knoxville College for Negroes, Knoxville. For interviews see Cecil Crow, or Whitlock.

Miss Janie McGauhey, 1st. Pres. Knoxville. Young Peoples and Social Service Worker. For interviews see Inona Johnson.

Those who will be here on Saturday, March 3rd.:

John M. Gore, Scout Executive of Knoxville. Boy Scout Work. Book interviews with Edgar Cathey.

Mr. C. B. Loomis, Southern Field Secretary Y. M. C. A., Atlanta, Ga. Book with Sam H. Franklin.

Dr. Stocksbury, President Knoxville Business College. Will interview on teaching and on business in general. Book interviews with Hugh Blabough.

G. N. Noel Mayhew, State Student Secretary Y. M. C. A., Nashville, Tenn. Here for entire Conference. Book interviews with Roy Buffat.

Dr. Horace C. Wilson, 2nd. Presbyterian Church, Knoxville, Tenn. Book interviews with Flynn Humphrey.

STUDENT COUNCIL AT MARYVILLE

(Continued from page one)

ing of College in the fall. Freshmen of the College, and Preparatory Freshmen and Sophomores, shall elect their representatives one month from the opening of College in the fall.

Section 3. The class or group concerned shall have power to fill any vacancy arising between elections.

ARTICLE VI.

Section 1. The officers of the Council shall be a President, Vice-President, and Secretary-Treasurer.

Section 2. Four weeks prior to the close of the academic year, the Council shall elect, from the representatives of the Junior class, a President for the following year.

Section 3. Immediatley upon their election in the fall, the President shall call the members of the new Council together, for the purpose of electing the other officers.

ARTICLE VII.

Section 1. The Council is charged and empowered by the students to consider any constructive measure which may be given form by student opinion and transmitted to the Council, or which may occur to its members as they interest themselves in the common good.

Section 2. The members of the Council are hereby further charged by their fellow students to hold the welfare of the Institution constantly before them and to endeavor to prevent and restrain serious violations of College regulations. By casting the weight of its influence against such violations, the Council shall attempt to insure a change of conduct upon the part of the party responsible for them. In case the recommendations of the Council are not heeded, or in case the offense appears to the Council to endanger the welfare of the students or the reputation of the College, the offense shall be reported to the Faculty, either with or without recommendations.

ARTICLE VIII.

Section 1. After due and careful consideration, the Council may recommend specific measures to the faculty, which if approved by the latter, shall be placed into execution by the faculty with the cooperation of the Council.

Section 2. The Faculty, on their part, agree to give measures passed by the Council serious consideration, to act upon them as promptly as is conveniently possible, and in case the measure is not approved, to return it with an explanation of their veto, unless in their judgment there are weighty reasons for silence.

ARTICLE IX.

Section 1. Individual students may bring matters to the attention of the Council through their class or group representatives, who shall present them to the Council.

Section 2. Any organization may at any time, present any matter directly to the Council by a representative from its membership.

ARTICLE X

Section 1. The Council representative is responsible to the Council, to his group or class, and to the entire Student-body. Any member of the Council who betrays the honor and responsibility bestowed upon him may be discharged by a three-fourths vote of the Council, or recalled by a three-fourths vote of the body electing him.

ARTICLE XI.

Section 1. This Constitution may be amended by a two-thirds vote of the Student-body and a two-thirds vote of the Council, providing the faculty approves the amendment.

B Y-L A W S

1. Robert's Rules of Order shall be used in governing this Council, except as they may conflict with this Constitution and By-Laws.

2. The President shall preside at all meetings of the Council, appoint all committees, and act in conjunction with college officials and others concerned on special occasions, holidays, or whenever the services of the Council may be needed.

3. The President shall have the right to vote in all matters that come up before the Council.

4. In case the President's chair should become vacant during his term of office, the Council shall choose the new President.

5. The Vice-President shall preside at all meetings in the absence of the President, and he shall notify all members of the Council, with the help of the Secretary-Treasurer, of every meeting, regular and called.

6. The Secretary-Treasurer shall keep a record of every meeting and shall carry on all correspondence.

7. The Vice-President shall be chosen from the six Junior representatives.

8. It shall be the duty of the Secretary-Treasurer to publish officially in the Highland Echo the actions of the Council after their approval by the Faculty.

9. The President of the Council shall be permitted to appear before the Faculty with regular monthly reports and at any other time an occasion arises for an immediate report.

10. Each Council member shall be present at every meeting, and if not present shall be fined fifty-cents unless an accepted excuse is given.

11. The Presidents of the classes, except on the case of the First and Second Preparatory class shall be responsible for the conduct of the election of council members. If his class is divided into groups, he shall appoint a presiding officer in each group.

12. The Council President shall preside at the election of the representatives of the First and Second Preparatory classes.

13. Each Council member, upon his election shall deposit with the Secretary-Treasurer one dollar, which shall be returned to him in case no fines are assessed against him during his term of office.

14. The Council shall meet regularly once a month. the time to be determined by the acting members of the Council; and at such other times as the President shall see fit to call a meeting.

15. A copy of this Constitution and By-Laws shall be placed in the hands of every student.

16. The By-Laws may be amended by a two-thirds vote of the members of the Council.

First Wedding In Baldwin

(Continued from page two)

this he and this she in the awful state of purgatory. Wilt thou marry her, moonshine with her to snap, promise to be satisfied, or pretend to be, with the hash she provides after eating the delectable dishes of Pearsons, protect her from the cruelty of Miss Molly, and keep her on College Hill so long as ye both shall live

"If so, answer oo-wah.

"Wilt thou marry him, make hash as good as Pearsons', darn his sox, keep your hair curled, take charge of his pay and annoy him to the best of your ability so long as ye both shall live.

"If so, answer 'Heck Yea!

"Do you ushers solemnly swear to serve the wedding feast. If so answer Yes 'Word It'!

"Do you, the rest of the party promise to eat what is set before you and ask no questions for appetite's sake. If so answer. We'll try.

"If any one knows any just reason why this he and this she should not be tied let him keep it to himself or forever after suffer.

"What pledge or token do you give that you will break these vows.

"Take this ring, place it on the wrong finger of the fourth hand of your bride to remain as a reminder of this awful day. Please join wrong hands. Let those whom we have hitched up gee-haw together.

MARYVILLE BRINGS SUCCESSFUL BASKET BALL SEASON TO CLOSE

THE TEAM ONE OF THE BEST IN THE HISTORY OF THE COLLEGE WINS THIRTEEN OUT OF SIXTEEN CONTESTS. WHILE CO-ED TEAM IS BEATEN ONLY ONCE.

The Last Game of The Season A Hardfought Affair With Tennessee. U. T. Overcomes Maryville's Lead In The Last Three Minutes Of Play. Veach, Riskey and Musick Play Great Game.

The Highlanders dropped their last game of the season to the University of Tennessee at Knoxville. The defeat was a hart-breaker. To get a five point lead in the middle of the last half and then to lose out in the end, that is real tough luck. The Maryvillians fought every minute, from the beginning to the end. The team wasn't the only evidence of Maryville pep, although they showed enough to represent the whole school. Half of Maryville was there, and they didn't fail to make their presence known, especially to the referee, who to say the least, didn't always make his decisions like the Blount County fans thought they ought to be made.

Tennessee started the game in a rush and amassed an eight to two advantage in the first few minutes of the game. Then Maryville began to show some speed, and began to roll up pointage which reached a total of thirteen, before the half was up. Their defense was as good as their offense, the Knoxvillians being able to add only two more points to their count.

The rest between halves must have done the Tennessee basketeers good, because they startd out with a rush that was good enough to overcome the Highlanders' lead. Coach Honaker's crew weren't long in getting warmed up, and they in turn overcame their opponents' lead. With eight minutes to go the score twenty-one to sixteen in favor of the Highlanders. But that was where the tragedy began. Tennessee counted seven times, while the Highlanders were unable to locate the basket, and the end of the half and game left U. T. in the lead 23-21.

The work of Roe Campbell, who got seven field goals for fourteen out of Tennessee's twenty-three, and of Captain Johnson at guard was U. T.'s best. For Maryville the honors go to Veech, with Musick and Riskey coming in for a sizeable share of praise. Musick and Veech put up one of the best games of guarding that has been seen in Jefferson Hall, or anywhere else for that matter. In addition to his superb guarding, Veech waxed hot at the basket and caged three field goals for a half dozen counters, more than doubling his season's pointage. Veech said on the way over that he was going to pull some things, and he didn't fail to rally. Riskey and Musick put up an excellent exhibition of floor work, and sustained the reputation that they had made in the first game.

Maryville		Tennessee
Riskey, 8	f.	Campbell 14
McMurray, 3	f.	Harkness 2
McGinley, 4	c.	Hatcher 2
Musick	g.	Keister
Veech, 6	g.	Johnson 2

Substitutions: Maryville, Janoviczky, Tennessee, Beane 3.

Referee: Mabry. (Y. M. C. A.)

A Review Of The Season

The Highlanders have just closed one of the most successful basket ball seasons in the history of the institution. The material on hand at the beginning of the season was mostly of unknown quality, fans were wondering who would fill the shoes of John Hendrick, who had been one of the mainstays for the past three years. Others were mourning the loss of Cece McLaughlin, and indeed it did look as though there weren't many good prospects for the center position.

Among the mass of unproved material, Coach Honaker had four men of proven ability, Musick, McGinley, and Janoviczky, guards, and Captain McMurray, forward. Veech and Riskey were the best of the new men, and won permanent berths on the team. From these men, Coach Honaker organized one of the most formidable basket ball teams that Maryville has ever had, using Veech and Musick at guards, McGinley at center, Riskey, McMurray, and Janoviczky at forwards, Captain McMurray sometimes played center. Besides these six first string men, Coach Honaker had a very able bunch of scrubs in Wynecoop, Sneed and Gamble.

Maryville, minus the services of Riskey and Capt. McMurray managed to beat Johnson Bible College in the first game. The second game went to the University of Tennessee by the narrow margin of three points. Then the Highlanders took a winning streak of eight games before they were stopped by Milligan at Johnson City. Their list of victims included Berea, Knoxville Y. M. C. A., East Tennessee State Normal, Emory and Henry, Johnson Bible College, Tusculum twice and Milligan once. After this little recess in their winning streak, the team hit hteir stride again, walloping Knoxville Y. M. C. A. again, Emory and Henry for the second time, Transylvania, and Normal again, before they were stopped in the final game of the season by U. T. at Knoxville, 23-21. A game with King College was scheduled for March 1st, but has been canceled by the Bristolians.

The season's record is as follows:

M. C.	24	J. B. C.	21
M. C.	15	Tennessee	18
M. C.	51	Berea	12
M. C.	36	Tusculum	10
M. C.	30	J. B. C.	18
M. C.	22	Milligan	13
M. C.	26	K. Y.M.C.A.	22
M. C.	21	Tusculum	18
M. C.	30	E. T. S. N.	24
M. C.	37	E. and H.	12
M. C.	19	Milligan	23
M. C.	29	K.Y.M.C.A.	10
M. C.	44	E. and H.	15
M. C.	31	Transylv.	24
M. C.	30	E. T. S. N.	20
M. C.	21	Tennessee	23
M. C.	466		283

Captain McMurray led the team in scoring, both in free throws and in field goals. Rudolph Riskey ran him a close second for honors in scoring goals from the field, falling only one goal shy of Jean's mark of sixty-one.

Slim McGinley threw six free throws out of eleven attempts for a percentage of .545. Jean made eighty out of his hundred sixteen tries good, averaging .670. The opposition made their mark of .476 by locating the basket seventy-one times out of a hundred forty-nine chances.

This is how they stand in scoring:

	Field Goals	Total Pts.
McMurray	61	202
Riskey	60	120
McGinley	30	66
Sneed	15	30
Musick	9	18
Janoviczky	9	18
Veech	5	10
Gamble	1	2
M. C.'s Total	190	466
Oponents'	95	283

The Co-Ed Games With T.P.I., E. T. S. N. and Tusculum

Maryville girls completely overran the co-eds from the Tennessee Polytechnic Institute, piling up a 24-11 score. Thelma Adair, star forward of last year's team but who had been out of the game most of the season on account of illness, entering the game at the beginning of the second half proved to be the scoring star of the game. She accounted for ten of Maryville's twenty-four points. Both guards played an excellent game, and completely smothered the opposition, only three field goals being charged against them.

Maryville		T. P. I.
Headrick, 4	f.	Shipley, 5
Brown, 4	f.	Billingsly, 2
Robinson, 6	c.	Bush
Hieskell	g.	Smith
Doyle	g.	Derosset

Substitutions: Maryville, Adair 10, Painter, Farrar; T. P. I. Spec 4.

The co-eds invasion of upper East Tennessee was in the highest degree successful, fair baskt ball warriors experienced little difficulty in scalping Tusculum, and still less in walloping the Normal School.

The Normal girls either put up a fair exhibition of guarding for the first half or the Maryville forwards were decidedly off form. Any way, at the end of the first half neither side had registered a field goal, the only pointage was a free throw chalked up by the Maryville Maids. During the second half the Maryville forwards led by Grace Brown started scoring, and by the end of the game had accumulated eleven more points, making them a total of twelve. The guards had not been asleep either, and they succeeded in holding the Normal lassies to a solitary field goal. The final score was twelve to two.

Maryville		E. T. S. N.
Headrick, 2	f.	Cloyd, 2
Adair, 2	f.	Maddox

THE LIFE WORK CONFERENCE IS ON

Leaders Looking Forward To Visit. A Few Changes in Program.

Faculty And Students And Speakers Endorse Conference

Not all Maryville Students have had the opportunity to attend a Life Work Conference but it seems that not one has failed to have some part in the talks concerning our Conference of this week.

Important? Yes, but as Dean Barnes well stated, "The real value of this Conference lies in the personal touch. Take advantage of the interview and lecture periods and then the last move is up to you: Make your decision after the facts have been gathered."

To show that the Leaders who are coming here are looking forward to the Conference with eagerness we will give a few excerpts from letters received from them: Miss Ann T. Reid says, "I am looking forward to being with you. Your program sounds like three days of hard work and I am willingly at your service." Dr. Cleveland states that he is awaiting the pleasure of meeting the Maryville College Students", and one who will not be with us says, "My best wishes are with you in this work." Miss Fannie Walton Reeves tells us "That our program gives promise of a most interesting Conference." Dr. Giffin is earnestly hoping that he will be of some service to many students.

Forrest D. Brown, Y's President of last year, and the man who was instrumental in starting Life Work

FORENSIC NOTES

Maryville's Road Team Starts On Tour March 15th.

In a very few days the opening engagements of Maryville's debate season will be taking the center of the stage. On March 15, our traveling team takes the road for a trip on which they debate five times before returning bacon-laden to the Hill.

On the 15th they meet Carson and Newman and on the 16th they journey up to Bristol for an engagement with King College. Then on Monday, March 19 they are to meet Wake Forest College. These first three debates find Maryville defending the affirmative of the question: The U. S. should retain possession of the Philippine Islands permanently. At Carson and Newman all three of the debaters, Ralph Armstrong, Sam Franklin, and Ed Cornelius will speak. At King: Armstrong and Franklin will be our team, and at Wake Forest Franklin and Cornelius will defend the Orange and Garnet.

The fourth debate will find Armstrong and Cornelius on the negative of the same question against Presbyterian College, at Clinton, South Carolina. This debate will occur on March 21. On the following night Maryville has the affirmative again in a two-man affair against Newberry College. Just who will debate at Newberry is not sure as yet.

This is Maryville's most ambitious attempt in the forensic field up to date. Are you boosting this team? Tell them so.

M. C. HOST OF TENN. PHIL. ASSOCIATION

Language Professors From All Parts of Tenn. Here For Meeting of Tennessee's Philological Asociation.

Maryville Faculty Takes Prominent Part In Program. Prof. Davis Elected President.

The seventeenth annual meeting of the Tennessee Philological Association was held at Maryville last Friday and Saturday, in the attractive rooms of the Y.W.C.A. Language teachers attended from Vanderbilt, U. T., Peabody, University of Chattanooga, Carson-Newman, Sewanee, Girls' Preparatory School of Chattanooga, Tennessee College, Knoxville High, Central High of Rutherford County, Lincoln Memorial, and Maryville.

The sessions appeared to be thoroughly enjoyed by members of the Association, and by M. C. students and teachers who found opportunity to drop in. Spirited discussion followed most of the papers. The president of the Association, Dr. Ware of Sewanee, was much in evidence in the discussions, seeming to be at home in every part of the philological field, and ever ready with serious comment or philological jest. The night session was well attended. Dr. Ware gave some of his teaching experiences, humorous and otherwise, and Dr. D. R. Lee of U. T. gave a lecture with very interesting pictures of Rome, Greece, and Constantinople.

Maryville students were interested in papers given by some of our faculty. Dr. Hussey gave an account of changes that occurred in

SENIORS HAVE PARTY

Seniors Entertain Themselves And Their Guests at Dr. McMurray's Home Monday Evening.

"What care we for rain and
weather,
So long as our class can get together."

In spite of the rain last Monday night, the Senior class got together again in the form of a party, out at Professor and Mrs. McMurray's and had a jolly good time. Has any one ever been out there and failed to have a good time? No. And we didn't miss it either.

Professor and Mrs. Hunter, Coach and Mrs. Honaker, and Scot were our guests, of the evening.

As soon as Pearsons, Baldwin and Carnegie Halls were rid of their Seniors, the real fun began out on Wilson Avenue. A number of new games were played. Each person was given a letter of the alphabet, and asked to represent something which began with the letter which he had. As a result there were Apes, Owls, Thinkers, Scholars, Crocks, Vamps, and almost everything imaginable present. You know variety is the spice of life.

After this a contest, was held, and quite a number of new words were coined. Then came the Eats, which consisted of different kinds of sandwiches, punch and butter scotch pies.

Everybody had a good time.

A new couple is going to the recital Monday night. You'd better go and see who it is.

PERSONALS

James Hardin was called to Morristown last week by the death of Miss Katherine Reeve which was caused by burns received while cooking in her room at Tusculum College.

Watch for new hats Sunday, if it doesn't rain. Several Pearsonites went to Knoxville Monday. Little Edyth Moore for one.

Boys you'd better stay away from Pearsons. We know a middle-aged fellow that got knocked down on that hard concrete front porch. We won't tell on him if he conducts himself properly from now on. Very likely the night watchman wont tell either.

We wish to extend our sympathy to the merchants of Maryville, because so many of the students have been asked to remain on the Hill for the next two weeks.

Georgia Belle Kuhn had a week end guest from Knoxville and they made candy Saturday night and everybody painted up and had a good time. They also stirred up quite an excitement by giving a few yells in honor of the event. So much so that Dr. Wilson phoned over to find out if we had won the M. C.-U. T. basket ball game.

We are going to serve a Dinner Friday night. Miss Darby is coming. We are afraid she wont feel at home for no apple sauce or hash is to be served.

Miss Mary McSpadden spent the week-end in Knoxville buying her spring wardrobe including a new style tooth-brush.

Margaret McKinney and Babbie Blair went to Knoxville Monday.

Senior Sketches

EMERY FRITZ

Emery Fritz, from Covington, Ohio, has been in Maryville College three years, and is a member of the Alpha Sigma Literary Society. In 1915-1917 he was Secretary of The Rockford Paper Mills Co. in Rockford, Ill. In 1917-18 he served as Y. M. C. A. Secretary at Camp Grant, Ills. He was in the U. S. Army in 1918-19, spending almost one year in France.

In the year 1919-20 he entered Blackburn College as a Freshman and there spent his first year in college. Since he has been on the Hill he has taken great interest in the work of the Y. M. C. A.

IRMA GAMBLE

Irma Gamble, a resident of Maryville, has only one ambition and that is to get fat. She has spent four years on the Hill, and during this time her favorite sport has been Tennis. Next year she does not intend to teach, she says she's going to Florida to have a good time. Irma is a member of Theta Epsilon Literary Society. Her hardest course of study is English, but we didn't think any course could be hard for her. She has a hobby of going to the Movies.

LOUISE ELIZABETH FARRAR

Louise Elizabeth Farrar, who has been on College Hill for four years was born in India. This does not indicate, however, that she is an Indian, for a look into her blue eyes, and her light hair speaks louder than this that she is not. She likes the Christmas Holidays at M. C. better than any other time and we all wonder why? You might easily guess when you know that her hobby is moonshining and her slang word is "Good night". Louise is a member of Bayonian Literary Society, who is proud to claim her.

CATHERINE WILSON

There's only one in the Class like her because of her red hair. You can guess its Catherine Wilson of Knoxville, our president of the Y. W. C. A. She has spent four years in M. C. and next year she intends to launch out, and try driving a little knowledge into some school kid's head. Her hardest course of study is English, but you would never believe it. Catherine is a member of Theta Epsilon Literary Society.

JOHN GARNER

John Garner from Lenoir City, Tenn. has been here in M. C. no less than six years, spending two years in the Prep Department. He is a member of the Athenian Literary Society. His chief ambition is to be a useful citizen and next year he's planning to work like the devil. His favorite quotation is "Man is made of Dust. Dust settles, Be a Man".

YOUNG MEN'S TEACHERS' TRAINING GROUP

Is this Training Group a dead issue? The answer comes back clear and loud. Not by a long shot. This class of young men meets every Sunday morning at 9:30 in a large corner room of the annex of the Presbyterian Church.

In the prolonged absence of our regular teacher, Dr. Gillingham, the group has decided to appoint teachers for each Sunday from amongst their own number. By this method many individuals will get a practical knowledge of teaching through actual experience. The group extends a cordial invitation to any young men interested in this work and shall be ready and waiting to extend the hand of fellowship to all newcomers next Sunday morning.

Some girls that we know wish they had been Seniors Monday, when they were seen from behind that brick pile across the street from the show. The Seniors were exempt from the two weeks' sentence.

DR. MARSTON WRITES TO M. C. STUDENTS

Mr. Editor:

Complying with your request that I write a few words of greeting to the student body, I gladly avail myself of this opportunity.

It was, most certainly, a blessed ten days on the mountain top with God. I shall never forget those days. The choruses still keep ringing in my ears—"Whosoever will", "I Live for Him who died for me", "Sweeter as the years go by", "Let Jesus come into your heart", "While the sea billows roll", etc., how inspiring it all was. I am sure that since that meeting I shall find it much easier to "carry my cross with a smile".

I did so much appreciate the hearty co-operation of the whole faculty and student body. I do thank God for those who were led to the Saviour and who were led to a "closer walk with God" because of these days spent together. If I could just have another "interview" with each of you who began the Christian life in these meetings, I would urge with all my power that you connect yourself with some church of your own choice at the earliest possible moment. I think it would be well, possibly, for you to unite with some church of your choice there in Maryville, and when you leave college, for the summer, take your letter with you and place it in your old home church. Get anchored, somewhere, just as soon as you can. You'll drift if you do not. As you value your own soul, your peace of conscience, and the fullness of Christian joy, don't DRIFT. Make Jesus Christ the actual Lord of your life and witness for him always. This is the pathway to peace, and to power, and the real joy of the Christian life. Put God to the test and he will never fail you; NEVER. Remember that the "Lord God will help you" therefore set your "face like a flint" to fight the good fight of the Christian life and you will never be ashamed. Remember that the best friend a college student ever had, or ever will have, is Jesus Christ. "Play the game" with Jesus Christ, and play it fair, and you are on the winning side. Seek to discover where you can best invest your God-given powers for the largest returns, both for time and for eternity, get into the place where God wants you to be, keep close to him, and there "burn out for him". Then your life will be a blessing, an inexpressible joy, and no cup of bitter memories to drink at its close. "Brighten the corner where you are", "live for Him who died for you", and then your life will be "sweeter as the years go by".

Good bye, and fifteen "rahs" for o'd Maryville College.

Cincerely your friend,
Frank Heely Marston.

DYER—MILES

On Saturday, February 17th occurred the marriage of Mr. Frank Dyer of Sweetwater and Miss Emma Miles at the home of the bride's parents, Rev. and Mrs. T. J. Miles at Vonore. Mr. Miles is one of the directors of Maryville College and both Miss Emma Miles and her sister Miss Mary Miles were exceedingly popular and talented young women completing their courses in Music and the Liberal Arts in Maryville College. Mr. Miles has another daughter and also a son here now. Mrs. Dyer has been the Red Cross Nurse at Sweetwater and has made many friends there. Mr. Dyer is a prominent business man in Sweetwater and the newly married couple will make that their home.

A WICKEDE POME

A man named DuBoth
Met a girl
Who lisped thru teeth of pure pearl.
"I hug you or kiss you."
He swore with an oath.
She cried with surprise,
"Oh, Mr. Du Both."

SH! DON'T SAY IT

Johnny: Papa, what do you call a man that runs an auto?

Papa: It derends upon how near he comes to hitting you.

Article VII Discussed Discipline Not Chief End of Council.

The section in the proposed constitution for a Student Council which excited the most comment in the meeting of delegates was that which related to the student voice in matters of discipline, as given in Article VII, Section 2. As a result of this discussion the president, Mr. Ellis, appointed a committee consisting of Charles Partee, chairman, Richard Proctor, R. A. N. Wilson, Margaret McKinney, and Lawrence Crawford, to give this Article particular consideration. Their report is as follows:

After a careful consideration of Article VII, Section 2, the committee votes:

(1) That the matter of discipline is distinctly of secondary importance, and that if the purpose of the council is carried out its concern will be largely with constructive, non-disciplinary matters.

(2) That the Council in no case acts upon a reported offense unless in the opinion of a majority of its members the offense is "serious" and contrary to the best interests of the school.

(3) That ordinarily the only offense ever reported to the faculty will be those of which the parties responsible have failed to heed the recommndations of the Council.

The committee recommends:

(1) That each council member should be specifically required to report to the Council any offense that is brought to his attention by another student, or any offense which in his opinion is "serious" or contrary to the best interests of the school.

(2) That with this addition, the Article be adopted.

UNUSUAL PROGRAM FOR MONDAY EVENING

On Monday evening, March 5, 1923, at eight o'clock, a program under the auspices of Y. W. C. A. will be given in Voorhees Chapel. This program will consist of readings, music, both vocal and instrumental, and Booth Tarkington's one act play, The Trysting Place. Besides using the best talent on the Hill, the committee have secured Nellie Caldwell to read and the little Huddleston girls to sing. The entire program is of unusual excellence and the admission is only thirty-five cents.

The Switch-Board Girl: Honestly, some of the things that go over the wire aren't fit for me to hear.

The Lineman: Aw, shucks, you can't expect to work around electricity and not get shocked.

"Where did you stop when you were in New York?"

"I put up at the Porter House".

"Why, where's that?"

"In the tenderloin."

KING COLLEGE CANCELS GAME

Fracas Due To Have Been Played March First.

King College athletic authorities have cancelled the game, due to have been played here March the first. Coach Honaker was keen for a chance to avenge the defeat suffered by the football team at the hands of the Bristol gridders. Dame rumor, standing on pretty firm ground, has it that the Bristolians are afraid that the Highlanders are entirely capable of said revenge, and that they would just as lief keep out of the way. Of course the powers that be at King plead different. Two men they say are out because of scholarship dificiencies, a third is out for some other reason. In short the whole team is disintegrating, and it is our private opinion that the Bristol people figure that this is an opportune time for disintegration.

RESOLUTIONS

Whereas, God in His infinite wisdom has seen fit to call unto Himself the father of our beloved class mate, John Kesterson, be it resolved that the mmbers of the Freshman Class extend their deepest sympathy to him and his family in this time of bereavement, and

Be it further resolved, that a copy of these resolutions be sent to the family, that a copy be read in chapel, and that copy be printed in the Highland Echo.

Committee:
Julius Huffman,
Glyndon Brandon,
Curtis Newcomb.

ORIGINALITY

in design and expert workmanship are the features you will particularly notice in our new Spring Hats. We invite you to visit us often, for each day we have something new to interest you.

Y. NOTES

SENIOR Y. W. C. A.

"For there is no differene between the Jew and the Greek: for the same Lord over all is rich until all that call upon him. For whosoever shall call upon the name of the Lord shall be saved." Romans 10 12-13. This was part of the Scripture lesson read by Margaret Sheppard at Y. W. Sunday afternoon. Ruth Gamble sang beautifully and affectionately, "My Task".

What Y. W. C. A. is doing for Polish immigrants was discussed by Mariana Ilasz. This work is carried on through the International Institution. The people of Poland have been told of the wonders of America and they are anxious to see the great country. When they arrive they can not speak, much less read and write English, and sometimes they are not even acquainted with their own language. Settling in slums, discouraged and dissatisfied, they are truly grateful for the help rendered by representatives of Y. W. C. A. Miss Ilasz told the story of an illiterate woman who could get work only on condition that she pay the overseer. Through secretaries the injury was looked into and corrected. Other examples were given, showing the great work being done for Polish immigrants.

What Y. W. C. A. is doing for the natives of Poland was discussed by Christine Zduleczna. The 'W' in Y. W. C. A. stands for woman, work, wisdom, will, and world—even the uttermost parts of the world. Poland, though held captive for one hundred and forty-eight years by Russia, Prussia, and Austria is throwing off the shackles and is coming to the Light. The Y. W. C. A. workers have accomplished much in helping girls find their proper place and work. To manage the camps, to run the cafeterias, to establish colleges, to break traditions concerning woman—these are sme of the things being done. But many, many more workers are needed.

The fact that Miss Ilasz and Miss Zduleczna are both natives of Poland and know so thoroughly the conditions of their people made their service very effective. Our Y. W. C. A. thanks them most heartily for he interesting and helpful messages.

BAINONIAN

Past—Hard Boiled
Present—Boost
Future—The Glazing Globe

Do I dare say it? The grounds for the belief are good. Last week's meeting of Bainonian meant a turning point in this year's history of the Society. The first striking point about the meeting was the attendance. Certainly when the hall is overcrowded interest is reviving. The spirit of anticipation and interest encouraged the officers and added to their satisfaction. Finally, the program, itself, satisfied our expectations. The material presented was unusual, and, in the presentation, new talent was brought to light. Mildred Doyle makes a fine man. We want to see more of her. The whole effect of the program and meeting was pleasing. The humming of "Kiss Mama, Kiss Papa" after the meeting testified to that.

That meeting is over. The question now is, will it's effect last?

Let us hope so. Let every loyal Bainonian boost her society. That is her present and future duty.

For next Saturday, the biggest program of the year is planned. A one-act play, "The Gazing Globe", will be presented. The setting is unusual—an island in a Southern sea. Anyone who is interested in the pursuit fo glory is interested in this play. Anyone who likes good acting wants to see Annarine Atkins, Martha Mae Bover, and J. Lynn Mc Clung in "The Gazing Globe". Anyone who is a good Bainonian will boost for this and every meeting of Bainonian.

IT WAXETH LATE

Prof.: Now has anyone else a question?

Sleepy One: Yes; what time is it?

THETA EPSILON

On last Saturday night, Theta girls enjoyed a literary program of unusual interest. A James Whitcomb Riley and Carrie J. Bond program was presented by Theta talent.

The program was as follows:

Reading—Nothing to Say, My Daughter - - - - Ruth Barnette
Solo—I Love You Truly, Mary Biles
Reading—Little Orphan Annie - - - - - - Louise Gollmar
Solo—The Rosary - - Irene Curtis
Reading—That Ole Sweetheart of Mine - - - - Mary Whittle
Reading—I Ain't Goin' to Cry No More - - - - Myrtle Ardis
Solo—Just Awearing for You - - - - - - Sarah Kiskadden
Reading—The Runaway Boy - - - - - Dorothy Robinson
Solo—Their Yesterdays - - - - - - - Ruth Reagan
Reading—The Raggedy Man - - - - - - - Evelyn Fitts
Solo—Perfect Day - - Rena Mae Anderson

Thetas! You mustn't miss the good program our secretaries have promised us for next Saturday night. You must come!

A Mormon is a man with an exaggerated idea of his capacity.

"I dropped an egg, what shall I do?"
"For heaven's sake, cackle!"

ATHENIAN

For the past three or four weeks the Literary Societies have suffered very much on account of meetings and interests, and the Athenian Literary Society has been no exception. But last Saturday evening, February 24th, six p. m. the Society met, and displayed the usual pep and interest. The following program being rendered.

Jokes - - - - - Keith Fonde
Evolution as a Modern Science - - - - R. A. N. Wilson
The Psychology of Woman - - - - - - John Stockton
America in International Affairs - - - - - - - David King
Why Join the Athenian - - - - - - Lawrence Crawford
Is France Justified in Her Occupation of the Ruhr, Verton Queener

These topics were handled well and in fine literary style, for which the Owl and Crescent stands. We are satisfied only with the best of Literary Excellency, and that is possible only by regular attendance and interest. So don't forget we have an excellent program for next Saturday evening. Be out! Don't Fail!

I have only one objection to the long skirt.
It's length.

Maryville Brings Successful Basket Ball Season To Close

(Continued from page one)

keteers. Miss Brown again lead the attack, caging four field goals. The guards again did their part and allowed only one field goal to be marked against them. Coile for Tusculum was the leading scorer, caging eight free throws.

Maryville		Tusculum
Brown, 8	f.	Dowd
Adair, 7	f.	Kiser, 4
Headrick 1	f.	Coile 8
Robinson	g.	Conley
Doyle	g.	Harrell
Heiskell	g.	Rowan

Substitutions: Tusculum, Estill, Lotspeich, Hardin.

Referee: Brown. Umpire, Lloyd.

A Review Of Girls' Basket Ball Season.

Coach Bond had a wealth of material, some good, some not so good from which to pick his team. He selected his squad early in the season and began to put them through a strenuous and effective session of practice, with the result that he turned out the best girls' team in East Tennessee.

He had as a starting point around which to build his team, a half dozen or so girls from last season's machine. Headrick, Brown and Thelma Adair had all proven their worth as forwards. Mary Robinson and Lois Painter were both centers of recognized ability. Manager Harold Lloyd of King College fame, and Captain Heiskell had both played guard. But misfortunes awaited the coach, Adair and Manager Lloyd were out most of the season because of injuries. Doyle was the best of the new matrial and won herself a regular position with Captain Heiskell as guard, while Painter, alternating between forward and center, Brown and Headrick took care of the forwards' position. Robinson played center, starting every game.

From these girls, Coach Bond developed a machine that was truly a road roller, smashing everything it hit except Peabody and Nashville Y. W. C. A. Peabody was the only team that was able to raise their score above the mark set by the Blount County girls. Nashville Y. W. C. A. succeeded in holding them to an even score.

Maryville High School was the first victim, going down before a host of substitutes to a 19-14 score. Polytechnic was literally tramped under. Peabody took two games, 21-6 and 21-11. T. P. I. fell twice 11-24 and 5-25. Tusculum also tasted defeat at the hands of the Maryville co-eds a pair of times 14-21 and 12-16. Normal was victimized twice, to tune of 14-16 and 2-12. Nashville Y. W. C. A. and Maryville fought for a 4-4 tie.

The following girls will receive letters, Captain Heiskell, Manager Lloyd, Doyle, Robinson, Painter, Adair, Brown and Headrick. Misses Self, Morelock and Farrar while not receiving M's did very creditable work.

BASKET BALL LEAGUE STANDING MACRH 1, 1923

Team	W.	L.	Percent.
Sanchez	3	0	1.000
Watkins	3	0	1.000
Hamilton	2	0	1.000
Bowles	2	1	0.666
Schmidt	1	1	0.500
Partee	1	2	0.333
Clemons	1	2	0.333
Anderson	0	2	0.000
Heiskell	0	2	0.000
Holland	0	3	0.000

The games that were played this week were as follows:

Bowles vs. Sanchez, score 26-11 in favor of Sanchez. Referee Schmidt.

Watkins vs. Holland, score 30-20 in favor of Watkins. Referee, Wyncoop.

Partee vs Clemons, score 25-17 in favor of Partee. Referee, Wyncoop.

"Say, there's a football player out here wants his picture taken."

"Full face?"

"No, half back."

LIFE WORK CONFERENCE IS ON

(Continued from page one)

Conferences at Maryville says, "Your Conference as planned is far in advance of what we did last year. You have a splendid outline of Leaders. It is certainly progressive and far in advance of what is being done any place I know of."

Just at this time it is interesting to note, in addition to what a few of our Faculty members said last week, what other members of the Faculty have to say in regard to having a Life Work Conference on College Hill: "I think that the Y. M. C. A. does a real service in conducting their Life Work Conference. This opportunity for young men and women to learn more about lines of work in which they have begun to be interested, and to learn how to go about preparing for work which they have chosen is indeed an opportunity worth while". These words of Professor Davis throw an important light on the Conference work. Professor H. L. Ellis states, "The Life Work Conferences exert a most potent influence in giving the right bent and direction to the lives of the students." And Dr. McMurray says, "The L. W. C. is of vital concern to every boy and girl in the College", and his wife states, "Second in importance to the February Meetings is the Life Work Conference. The two go hand in hand. The meetings create the desire for a life service and the Conference leads to definite decision as to what that service shall be." Miss Caldwell says, "The Life Work Conference as conducted last year proved to be very helpful and inspiring to Faculty and Students alike. And—it seems eminently fitting to have another such Conference this year." We appreciate these willing, endorsing, and cooperative remarks, but most of all we appreciate the whole hearted support and best wishes back of these statements. The words of Professor Edwin R. Hunter reveal the true spirit behind last year's Conference: "There was no cant about last yar's Conference. It was sane and practical in the extreme. May the Conference grow into a permanent tradition of the College!"

"I know that the Life Work Conference last year was a great help to the Students," says one Senior girl and H. Arnold, another Senior, says, "The Conference is undoubtedly one of the most valuable features of the program of student activities. For informational and inspirational value it can hardly be excelled."

With such whole-hearted endorsement of our L. W. C. from friends, Leaders, Faculty, and Students, we, as a College, must necessarily feel the encouragement and support and incentive given and do our best to make this second Conference known around the world! Why not?

The changes and important notices concerning our Conference are: Dr. W. N. Lynn will be here Friday morning only. You medical students take advantage of this notice.

Mr. Woolrich will be here at 1:10 Saturday afternoon and will address the engineering students in the Chemistry lecture room at that hour (?).

Dr. J. K. Ginffin will not be here until Saturday afternoon at 1:10 at which hour he will address all students who are free. His theme will be on the Negro Problem. The address will be in the Chapel.

John M. Gore will not be here until 1:10 Saturday afternoon. He will meet all students interested in Boy Scout Work in Professor Orr's room at 3:00. Girl Scout Workers also.

Miss Margaret E. Lewis will not be at the Conference at all.

Sunday Appointments for Leaders

Dr. W. H. Crothers at New Providence Sunday School to address the Nu-Era Bible Class. He will preach for Dr. Graham Sunday evening.

Miss Ann T. Reid will give a short talk at Sunday School.

Dr. Henry H. Sweets will be in the pulpit at Dr. Francisco's church in the morning. G. Noel Mayhew will preach in the evening.

Dr. W. M. Cleveland will preach at Rev. Wamplers Church Sunday evening (?).

A Student's Obligation and Privilege

Every student has an obligation to fulfill during this Conference and he has a privilege which he should be grateful for. His obligation is: Be fair and open minded to all fields of service and, after getting all information possible and after looking at the matter of choosing a life work in the spirit of prayer and service, some decision should be made. A definite stand should be taken or a deep interest in some vocation should be aroused.

The privilege is bound in the fulfilling of the obligation. It is indeed an opportunity any thoughtful student would gladly take advantage of, and that with thanks.

So, Here is to our Second Annual Life Work Conference, may the echoes from this Conference be life everlasting.

Co-Ed: I found a button in my salad.

Second Co-Ed: Came off in the dressing, I suppose.

LAUGH AT THIS ONE

Lo—I din't understand that aeroplane joke. It went over my head.

Quacious—Well, let me tell you the one about the needle, and perhaps you will see the point.—The Orphan.

LIFE

A kiss, a sigh,
A fond goodby,
And she is gone—
A smile, a curl,
Another girl
And thus the world moves on.

M. C. HOST OF TENN. PHIL. ASS'N.

(Continued from page one)

Latin words as they passed over into Spanish, and called attention to some words of peculiarly interesting derivation. Mrs. Minton told of remarkable archaeological finds in Mexico and New Mexico, of discoveries, in fact, that rival in interest the now famous Tutankhamen. Professor Hunter described an experiment in applying certain mechanical tests to the externals of prose style, particularly in parts of the works of Lord Dunsany and John Masefild.

The Association will be entertained next year by Vanderbilt and Peabody in Nashville, and Professor Davis of Maryville is to be president.

Visiting members of the Association enjoyed two Pearsons Hall dinners, and were guests of the College Friday evening at a dinner served by the Department of Home Economics. Several of them were entertained Friday night in Maryville homes. As the time for their departure drew near, they were heard to utter words of warm praise for the hospitalities shown them by the Maryville College folks.

"This is the first time I've ever been kissed by a man."

"That's a sort of slam at the rest of 'em, isn't it?"

ATHLETIC FORECASTS

BASE BALL

Prospects Bright for M. C. Baseball.

To say that prospects are brighter for a better baseball team than last year is saying a mouthful. Still that is not saying more than is possible to be realized for a look over the baseball men out for the team will show that too much has not been said.

To maintain our reputation of last year we must defeat U. T., win from Transylvania, Oglethorpe, Centre, Georgetown, Emory and Henry, Milligan, King, Union, L. M. U., Cumberland University and Kentucky Weselyn. But what will be of most interest to the students and fans of Maryville College is he game with the Cincinnati Reds, the fifth of April. We held the New York Giants to a 5 to 2 score last year and we even ought to do better with the Reds.

We have sixteen men from last year back and they form a good basis for a real team. Sneed, captain is out for his old position in left field. Partee, manager for second base. Williams for catcher. Ruble for first, McCall for outfield and Mathews for the pitching department. There are only three positions to be filled and with such material as Riskey, Shanks, Ellis, Ham and McCarroll out for third, short and outfield besides Watkins, McClung, Bassel, P. Sneed and others who are out for the outfield, the vacant positions will be readily filled. The ones, besides Mathews, out for the hurling department are Burleson, Buel, Acton, Martin, Dinwiddie, Clay and Webster. Sometime ago we thought we were going to be weak on pitchers, but a look at the above mentioned will convince anyone that we are not.

The following is a review of the hitting averages of last year's men who are with us this year:

Partee, 339
Ruble, 333
Sneed, 313
Williams, 300
McCall, 250
Mathews, 200.

TRACK

Material For Best Track Team Of Years At Hand.

So far, cold weather has held up track practice. But as soon as the weather warms up, Coach Bond intends to start training with a vengeance. As yet the new men have not had a good chance to show their wares. Veech and Sanchez both have quite a reputation as distance men. As to the ability of Templin to tear off a mile or two of space in an almost incredibly short time there isn't a doubt in the world. Jimmy and Bob King are both what might be called super-excellent quarter milers. Shimmie Brown also shows some first class ability as a quarter and half miles. Slim McGinley is again out for the hurdles and dashes, and as soon as his duties as a basket baller are over we exepct him to resume his old time winning stride. Jean McMurray and Kinsler will run the dashes. Bob Thrower's ability as a shot putter is recognized and we expect at least forty feet from Bob before the season.

Coach Bond is a really first class track instructor and under his expert directions one of the best track teams in the history of the school.

Maryville-Milligan To Battle For Championship

Milligan Colege has had the impudence to challenge Maryville right to The East Tennessee Basket Ball Championship. To defend her championship Maryville will meet Milligan on the Johnson City court on Saturday night. The officials selected are Siler, referee and Bunting, umpire.

A lot is at stake on this game and let's show the boys we are with them. Everybody talk it up!

Many are sick at the present time. Among the boys on the sick list are Jas. N. Hardin, Ralph Vanderslice, Tom Anderson. Antonio Leal and Gordon Harold have just gotten out of the hospital.

TUSCULUM-MARYVILLE CO-EDS TO CLASH

Debate Season Opens Monday Evening.

Are You Interested In Intercollegiate Athletics?

Of course you are, if you're a college man! Of course you are a college maid! Of course you are if you're a member of the faculty!

Then you'll surely want to hear a peppy debate on that subject next Monday night, when our girls' team meets the girls from Tusculum. You konw what a reputation a woman has to uphold when it comes to talking and we'll guarantee that Maryville girls are not the ones to let it fall.

Our teams have been working hard and are equipped for the fray with a splendid store of information (not to mention native eloquence).

Last year our girls won a double victory over the Tusculum co-eds and now they're on our trail, crying for revenge. Shall thye have it? Come out and back those teams!

The question, Resolved: That intercollegiate athletics should be abolished in the United States, is one of popular interest. Our affirmative team, composed of Florence Whitfield, Geneva MacDonald, and Myrtle Ardis, defends the Orange and Garnet at home, while those who are to carry the war into the enemy's camp are Martha Mae Boyer, Alice Robison and Alice Johnson.

You can help to make this an all-round victory by showing these girls that you're backing them. Don't fail to be at the chapel next Monday night for the first debate of the year. Let's make it the initial success of a successful season.

Mass Meeting in Chapel Saturday Morning for Formation of Student Council

All students are urged to attend the Mass Meeting in the Chapel the first hour Saturday morning. Plans for the formation of a Student Council will be considered.

THE CONFERENCE

ITS ADDRESSES

Dr. Crother's Main Addresses

By E. C. Fritz

On Friday morning Dr. Crothers spoke on the Second Great Question. The Four great questions that should engage the minds of students in search for their life work should be; First, Whom Shall I Serve? Second, How Shall I Serve; Third, When Shall I Serve? and Fourth, Where Shall I Serve?

There are only two possible answers for the first question, and there is no doubt as to Whom we should serve. For the other ouestions there are many possible answers since there are fourteen hundred possible things a person might do, and the whole world to work in.

In order that we might know something of the needs of the world, for we all want to serve where we are needed most, Dr. Crothers told us about our world today:

In India 98% of the people never have a doctor.

In China there is One doctor to ever 660,000 people.

One-half of the people in the world never have a doctor.

More people will lie down hungry tonight than are found in all North America.

Onehalf of the people of the world do not know their own alphabet. Only 5 percent of the Chinese are able to read.

One-half of the people of the world have never heard of Christ.

There are more pepole now who do not know about Christ than when He lived on earth.

The United States is only fractionally Christian.

In another address, Dr. Crothers made us feel our responsibility to Discover Oneself. We are to do the biggest thing possible, even though we may be able to do some things exceedingly well.

The Decision must be ours—between us and God. Oh, God give us grace to see our duty and do it.

Addresses Of Dr. Sweets and Others.

Dr. Henry H. Sweets gave an inspiring address on the Challenge of the Christian Church. He said that the two functions of the church were Evangelizaion and Education; that there were great works to be done in our own land today among the foreigners and negroes, that there were calls for Ministers, Pastor's Assistants and mission workers everywhere today. The educational program of the Church is intensive, teaching the children in the home, Sunday School and from the pulpit.

In another address Dr. Sweets spoke on Giving Self for Others. Jesus came not to be ministered unto, but to Minister. It is a man's job, and Jesus did a man's job—his whole biography is written in five words—He went about doing good.

Mr. Fred T. Barnette gave several helpful addresses. In summing up the International situation, he said that Jesus Christ was the Hope of he World. There are more boys in College in America today than in all the rest of the world, and they are to be the leaders of the world.

In another discourse he said that

(Continued on page four)

ITS PERSONAL

Sketches of The Leaders of The Conference.

When anything worthwhile is "put across" we are generally interested in knowing who the folks are connected with the event or occasion. There is nothing which surpasses the human element in creating and holding our interest. Back of the great engineering feat is some man or group of men. Behind the great institution of learning is some character. At the turning point or time of awakening in many lives we find the influence or act of some person. In every event we will find the work of some personality.

The Life Work Conference held here last week is no exception. Maryville students were extremely fortunate in having brought to them leaders, from different parts of our country, prominent in Christian thought today.

Dr. W. H. Crothers, of the Presbyterian Board of Education U. S. A., of New York, is a strong factor in helping form student character today. For many years he has been working among students and his was advice worth while.

Dr. H. H. Sweets, Secretary of Christian Education and Ministerial Relief in the U. S. Presbyterian Church of Louisville, was another of our leaders. Dr. Sweets is one of the strong men in Christian Education in the South.

Another leader who helped up through the entire Conference and gave much aid to the students was Dr. W. M. Cleveland, of the Foreign Board of the Presbyterian Church U. S. A. from St. Louis. Dr. Cleveland helps to keep Southern students in touch with the needs and opportunities in the foreign fields.

Miss Ann T. Reid, of the Woman's Board of Foreign Missions of the Presbyterian Church U. S. A. came to us from New York for the Conference.

Fred T. Barnette, Y Secretary at Vanderbilt Medical School is keenly alive to present world affairs and through travel and study is well qualified to advise students.

Mr. C. B. Loomis, Field Secretary of Y. M. C. A. from Atlanta was here, also G. Noel Mayhew, our State Student Y Secretary. These men brought us messages from this great Christian Organization.

Dr. H. C. Wilson, pastor of the Second Presbyterian Church of Knoxville and also one of the directors of our college was here for two days of the Conference.

Mrs. M. E. Blair and her assistants from the Knoxville General Hospital presented the opportunities of the Nursing profession.

John M. Gore, Scout Executive of Knoxville told of this important work among boys.

Dr. Giffin, President of Knoxville College for Negroes addressed the students on the Race Question.

Miss Reeves of the Knoxville Y. W. C. A. was here for counsel during the Conference.

Miss McGauhey, Social Service Worker from the First Presbyterian Church in Knoxville was here during the entire Conference.

Dr. W. L. Lynn of Knoxville was here for one morning of the Conference and addressed the Medical

(Continued on page four)

MUSIC-EXPRESSION RECITAL

Maryville Music and Expression Students Appear In Recital.

Huddleston Kiddies Furnish Best Number.

The recital given for the benefit of Y. W. C. A. was exceptionally good in every respect. The piano department furnished two excellent numbers, Liebeswalzer by Moskowski, by Virginia Stribling, and Liebestraume by Franz Liszt, by Sallee Huffaker. A beautiful piano and 'cello duet, To The Evening Star Tannhauser by Wagner, was rendered by Vera and Edith Keene. Cadman's From the Land of Sky Blue Water was sung by the girls' quartet, Agnes Houghton, Irene Curtis, Charlotte Allen and Ruth Gamble. Little Minnie and Marian Huddleston sang "Old Mother Moon", a character song. For encore they sang "The Cat and the

(Continued on page four)

DR. SWEETS ADDRESSES Y. W.

Dr. Henry H. Sweets, President of the Board of Christian Education and Ministerial Relief, of Louisville, Kentucky, addressed the Y.W. C. A. Sunday afternoon. His great topic was: Service. Love must be the foundation of all service. As the Nile gets its great abundance of water from the high mountains in the distance, so we must go consantly to the source of all love, for God is love.

A great opportunity for service, probably the greatest for a girl, is the home. The morals, the work, the very life of any nation depends on its homes. Another great opportunity is the school. There are inefficient teachres all over the country and it is our duty to become so thoroughly prepared that we will not be numbered among these. There are many other places to serve—on the foreign field, in medical positions, in Y. W. C. A. work, and in countless other ways. Let us

(Continued on page four)

CHEMISTRY CLUB

Chemical Comedy Scores Big Hit.

In spite of the fact that it had been postponed, and also that here were oher events happening on the Hill at the same time, the recent meeting of Chemistry Club was attended to the full capacity of the lecture room. More than that, not one went away sad or feeling that he had wasted so many minutes.

Mr. C. R. Anderson's paper on General Methods of Chemical Research was well given and of wide general interest.

Then, that play! It at once appealed to the humor, intellect, and pathos of the entire audience.

Cast of Characters (in order of appearance)

Dwight Arnold and Roscoe Watkins - - as curtain
C. A. Wathen - Read the Prologue

Patronize Those Who Advertise. They Make The Paper Possible.

The Echo solicits news items, comments, and expressions of opinion from the students, and from interested alumni.

The Echo will not be published next week.

* * * *

Manuscripts for Bates Prize are due on April 18th.

* * * *

The rain of the past week will make us appreciate the sun of sunny Tennessee all the more. That is if it ever shines again.

* * * *

The debate season opens Monday evening with the annual encounter with the Tusculum Co-eds. It will as usual be a battle royal. Students on debate teams just as truly represent Maryville as do students on athletic teams. You owe them your support.

* * * *

The Life Work Conference held the highest ideals before Maryville College students. In all fairness to the splendid leaders of the Conference we should not store those ideals in some unused corner of our lives; rather we should put them to practical application.

* * * *

Our college Y has this year a President that is worthy of our highest praise. The recently held and very successful Life Work Conference alone makes our Y President deserving of commendation. But it is only one of the many things that Roy S. Buffat has given Maryville students as Y President. Count on our support in all undertakings Roy.

* * * *

Lights Till Eleven?

Just what is the reason that we have lights only till ten o'clock? Certainly many students would find it advantageous to have means to study till eleven. Carnegie Hall has now about two thirds of its rooms taken, and the inconvenience of having light only till ten is one of the causes, of this. Immediately before exams we had light till eleven and it was found very convenient. Why not the same now?

* * * *

Echo vs Chilhowean

Why are college organizations willing to pay for space in the Chilhowean; and on the other hand think it not worth while to use the space in the Echo that is theirs for he taking. Certainly all live organizations should be represented in the Chilhowean. Also they should be represented in The Highland Echo. The Echo is read by every student every week, thus it gives far more publicity to a college organization than dose the Chilhowean. Yet often the editors of organizations fail to turn in any copy at all. If you want your organization boosted, the Echo offers you the best means of doing it.

* * * *

Bates Prize Contest

Men of the Junior and Senior Classes are showing very little interest in the Bates Prize Contest this year. The contest is one of the biggest oratorical contests of the year. It offers the very best opportunity for a real live contest. The fellows of the Classes of '23 and '24 have the capacity to make this contest the outstanding event of Commencement Week. Let's have more interest in things oratorical in general and the Bates Prize contest in particular. Collegiate oratorical contests offer the highest type of training. We should take advantage of it at Maryville, and give our oratorical contests a higher standing. Manuscripts for this contest are due April 18th.

* * * *

Radio For Maryville?

Is it true that others lead while Maryville follows? We do not believe this is always true because we are well among the leaders as to Life Work Conferences, this cannot be denied by any one who spent Thursday, Friday and Saturday of last week on the Hill. Then again it isn't always true because great men who know our College praise it. All men who know our President love him and praise his work. Then why do we follow in any way? Is it because the students fail to do their bit? We believe that the students not only do their bit but that they are willing to go farther.

It is up-to-date for Colleges and Universities to have a Radio Broadcasting set. Let us buy one for Maryville College. Are you game? Maryville talent could furnish an excellent program once each week. Dr. Stevenson's Sunday evening sremons would be appreciated throughout the South. At the present time no single thing that we might do would be as great an advertisement for our College. Are you willing? A set might be bought for about five hundred dollars. We suggest that no student be permitted to contribute more than two dollars. Thus permitting every one to have a part in it.

Let us hear from some one else.

* * * *

ECHO EDITOR

This week is the time for handing in names for nomination for editor of The Highland Echo. All Sophomores and Juniors are eligible. The position is one that offers a great deal of experience, some responsibility, and a little work. The work is not excessive in any way, and is much more than repaid by the experience received. The present editor frankly admits that an opportunity exists for a capable editor to greatly improve the Echo. We do not wish to present any platitudes regarding the importance of work and service. We merely wish to state that editing the Echo offers them. If you feel the fire of genius smouldering in you, hand in your name for the editorship and thereby give said fire of genius an opportunity to burst into a flame of service for Alma Mater.

SHOULD A YOUNG LADY EDIT THE ECHO?

It has been said that the work of editing the Echo is more properly the work of a man than a woman. We make no statements as to which are better qualified. But so far as the work itself is concerned a young lady might just as well do it. The shop where the Echo is printed is an excellent one. Half the working force are women, and the men working are courteous gentlemen. A girl editor would be certain of receiving the utmost courtesy and consideration in the print shop. Her work would be merely the supervision of the composing work which is in no way difficult. The Echo has not had a girl editor since 1918-'19 when Marie Townsend served. Miss Townsend is generally conceded to have been one of the best eitors of the Echo.

H. R. Arnold and Raymond Anderson spent last week-end at their homes.

We rejoice with Dewey that Alice is well and out on the campus again.

CHEMICAL COMEDY SCORES BIG HIT

(Continued from page one)

Silly Con - - - - Eugene Stanbery
Two Gen Sisters
Oxy, a vamp and flapper - - -
- - - Evelyn Fitts
Hydro, a flapper and vamp - -
- - - - Sue Veazey

Whoever got up that cur-tain idea should have a patent on it.

What could be more pathetic than to see a brilliant man like Al Uminum cast down in despair by his affinity for Oxy, whom he can not live without and be happy, or amount to anything with. Oxy is up-to-the-second when it comes to electron jazz and Brownian motion. Then all must admit that the philosophy of old Silly Con is wise.

The following exerpts of the prologue originated on the Hill.

Puzzle—Find the Chemistry Department.
Try Hidin' in, try Hidin' out
There was never found a better scout
Dock your boats near lovely Bowers
Far away from sublimed sulfur flowers.
Stand bury your troubles in the sea
Where the White Caps Tip it merry and free
There are knolls here in height of knowledge
Ranking any in our College
Our Pose forever in the Vampire's Wake
But has not yet been roped to the Stake.
Then read Hyroglyphics therein you'll find
A jolly heart and fertile line.
If you ever need a worthy Pal
To get the best, by George! Howl.
Now a Sharp point more you must not miss
Is how hard Coal fell to perfect bliss.

We thank the visitors for their interest and welcome them back any time that they can come.

ALPHA SIGMA

The Seniors of the Alpha Sigma Literary Society will present a special program on Saturday night, March 10th, at 6:15.

Don't be one of those, who will have to say, "I'm sorry that I missed it."

Don't forget to bring a snappy quotation with you.

Let us make it the best program of he year.

Come one, come all.

To hear the Seniors, great and small.

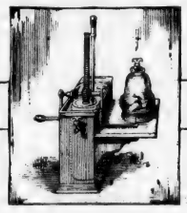
Program is as follows:

Invocation - - Ralph Armstrong
Vocal Solo - "Tubby" Sullinger
A Bit of Poetry - James Jackson
Reading - - - Leslie Poe
Stunt, Turner, Taylor, Anderson Co.
Debate—Bonus Question - - - -
Henry Cox, Eugene Stanbery

THIS WORLD'S A FINE PLACE AFTER ALL AS LONG AS EVERYODY PLAYS THE GAME FAIRLY.

The following have placed their advertisement with us in the Chilhowean:

First National Bank
Palace Theater
Mitchell Drug Co.
Ellis-Proffitt Co.
Rickett's Barber Shop
Claude C. Smith Co.
Badgett Store Co.
McCulloch, Jeweler.



This list has not been completed as the canvass is still in progress.

Have That Easter Suit Made to Order

Mr. J. Henry Moore, of the Storrs-Schaeffer Tailoring Company, will be here next Monday and Tuesday, March 12 and 13, with samples for Spring and Summer. Let him advise you just What is What in the way of style and quality.

H. N. BIRD COMPANY

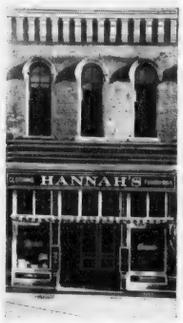
ROBERT BOYLE'S AIR ~ PUMP

The "*PRACTICAL*" Alchemist *and* "*THEORETICAL*" Robert Boyle

THE alchemists wrote vaguely of "fluids" and "principles." Copper was potentially silver. Rid it of its red color and the "principle" of silver would assert itself, so that silver would remain. With a certain amount of philosopher's stone (itself a mysterious "principle") a base metal could be converted into a quantity of gold a million times as great.

This all sounded so "practical" that Kings listened credulously, but the only tangible result was that they were enriched with much bogus gold.

Scientific theorists like Robert Boyle (1627-1691) proved more "practical" by testing matter, discovering its composition and then drawing scientific conclusions that could thereafter be usefully and honestly applied. Alchemists conjectured and died; he experimented and lived.



Using the air pump Boyle undertook a "theoretical" but scientific experimental study of the atmosphere and discovered that it had a "spring" in it, or in other words that it could expand. He also established the connection between the boiling point of water and atmospheric pressure, a very "theoretical" discovery in his day but one which every steam engineer now applies.

He was the first to use the term "analysis" in the modern chemical sense, the first to define an element as a body which cannot be subdivided and from which compounds can be reconstituted.

Boyle's work has not ended. Today in the Research Laboratories of the General Electric Company it is being continued. Much light has there been shed on the chemical reactions that occur in a vessel in which a nearly perfect vacuum has been produced. One practical result of this work is the vacuum tube which plays an essential part in radio work and roentgenology.

BAINONIAN

Have you been boosting since the last Bainonian meeting? Can you sing truly that you'll be true to Bainonian when you part from college if you're not true to her now? Put on your thinking cap and face yourself and Bainonian squarely. You may not realize your part till you get to be an officer, but that time may not be far off. The election of officers comes within two weeks. As members, each of us should feel as responsible as the other for the conduct of the Society.

If that conduct is not what you would like to have it, your suggestions will be gladly received and acted upon by the officers. It has been suggested that some night one feature on our program be the opening of a suggetion box to which all members may contribute. Get your suggestions ready for such a plan may be worked.

Don't forget, The Gazing Globe, coming Saturday night at seven o'clock in Bainonian Hall. It's the biggest program of the year!

A Place To Eat

"CHRIST—VOCATION VICTORY"

"What Shall The Answer Be?"

By Roy S. Buffat

There was opened unto us doors.
Verily, indeed, one after another
the doors of opportunity
Were opened unto us.
Doors through which we looked
upon fields
White already unto harvesting
And above each door was a cross,
For the Master of Men stood guard
Too wise were these Leaders and
Friends
To say, "This door you must enter
in",
But we were all implored to lift up
our eyes and look,
And then to obey the voice of God
within.

The ground upon which these Leaders came forth to sow
As one said, "Had been prepared by men of old".
One spoke unto us saying, "Work not for success.
That which honesty and toil seek for, will
Be denied no man, for
The laborer is worthy of his hire".
And to him who had found God's plan for his life
And to him who hath not,
Two rules of living, yea three, were given:
"Develop a capacity for hard work;
Love to labor and to wait, and
Seek not success but be deserving of victory
And to him who is honest and true, success will come unto,
And there shall be happiness and peace, and joy without end."

And there was opened unto us a door—
And the cross was above it too—
Through which we saw a field of service
That called for men with hearts as big as the Alps.
Men whose vision could see a soul beneath colored pigment;
A field often looked on through eyes of hate;
A field to which our Master has gone and
Stands beckoning us to follow:
It is the Field of the Blacks.
"Whom shall I send?" who will say
"Here am I, send me?"

They have gone from us, never to return as a body,
Each has taken his sojourn into his home country
And they leave behind that which has enabled us to see
That God Has a Plan for the Life
Of Each of His Followers and,
"What Shall the Answer Be?" is a question
Each one must settle
In fellowship with Christ,
Love for mankind,
Forgetting self!

MUSIC AND EXPRESSION RECITAL

(Continued from page one)

Fiddle", and the manager, their little brother, was introduced. For the next encore they gave, "Sleep, Baby, Sleep". They escaped a third encore by throwing kisses; and a fourth, by having the manager throw a kiss.

Nellie Caldwell, another star not belonging to the Hill yet, read a monologue by Phelps, entitled Daisy's Practice Hour. For encore she gave "Chewing Gum". No wonder she won the prize at Bristol! Annarine Atkins' interpretation of the popular play, Suppressed Desires, was only another proof of the unusual excelence of the program and her own great talent.

The second part of the program consisted of Booth Tarkington's one act play, The Trysting Place. All the characters, even if one was ?, did excellent work. A good laugh is what people need and a good laugh is what they got Monday night. Incidentally, people (which included moonshiners, of course) received a warning against moonshining in a private corner—of the hotel.

Dr. Sweets Addresses Y. W.

(Continued from page one)

study His Word—for our souls will develop only if we constantly feed them.

Madeline Holmes 'cello solo was beautiful and made the service much more impressive.

The latter part of the meeting was devoted to the question box. Miss Reid had charge of the questions, and Miss Reeves and Miss McGaughey were called on for many answers. Various and sundry but entirely helpful, questions were asked, such as: Does a person receive a call to other professions the same as the foreign field or the ministry? and, Is it wrong to play cards?

ITS ADDRESSES

(Continued from page one)

the great things of the world have been done by young men—Napoleon, William Pitt, Alexander the Great, Alexander Hamilton, Joan of Arc were all young people. Monye does not bring peace—official position does not bring satisfaction. In surrendering our lives to God, we surrender littleness for greatness, evil for righteousness, and death for life. A life worth while is one that gives out—the Dead Sea receives fresh water but gives out nothing and hence it is dead, stagnant and unhealthful. There is a great contrast in the lives of men who followed God and those who did not—Aaron Burr was a failure—John R. Mott, one of the greatest living men.

Dr. Horace C. Wilson gave a splendid address on the Call to the Christian Ministry. He said that if he were to live his life over he would give himself more enthusiastically to it, put more life and push and work int it. A young man may known that he has had a call to prach by his conviction, his desire to preach, and a longing for personal holiness, and through the Spirit of God growing in and through your life.

BIRTHDAY PARTY

Well, of all the funny things, that birthday party in forthy-three Pearsons Monday afternoon was the funniest and the nicest—but naturally it would be. Since Henrietta Jackson and "Don" Alexander were joint hostesses, one would expect nothing else.

To begin with we ate. There were various and sundry sandwiches and banana salad galore and when we thought we all had done what we could, we saw before us the most bonbon sundaes and cakes imaginable and in some mysterious way it disappeared.

Something had to be done after such self indulgence so we played "Grandmother Hobble Gobble", and "Simon Says" with the official Simon in charge. Afterwards we paid homage to Margaret McKinney and Mabel Higginbotham for that's why the party was given. And was that all? Why no! Efforts were made to break that Good Night habit and if ever you hear Margaret McKinney, or Christine Rockett, or Agnes Houghton, or Babbie Blair, or Henri Jackson, or Katyleen Alexander, or Lois Hayes say those words, just collect one cent, give it to Katy, and some day we'll eat again.

ITS PERSONEL

(Continued from page one)

Students.

Prof. W. R. Woolrich, of the Engineering Department of U. T. visited us twice during the Conference for interviews.

The personel of the Conference was the best to be had, and much credit is due our Y. M. C. A. President, Roy Buffat, for his efforts to make the Conference a success. The privileges afforded the students in the personal interviews with these interesting leaders is an opportunity seldom given a sudent body.

PALACE THEATRE PROGRAM

SATURDAY, MARCH 10TH
Boys and Girls' Matinee at 9:30 a. m. Wesley Barry in BOB HAMPTON OF PLACER, and a trained horse comedy.

Regular Saturday Program
Charles Jones in THE BELLS OF SAN JUAN, and Charles Hutcheson in SPEED.

MONDAY AND TUESDAY
MARCH 12TH AND 13TH.
Mary Pickford in TESS OF THE STORM COUNTRY and Kinogram News.

WEDNESDAY, MARCH 14TH
Agnes Ayers in A DAUGHTER OF LUXURY. Also An Al St. John comedy 'The City Chap'.

THURSDAY AND FRIDAY,
MARCH 15TH AND 16TH.
John Barrymore in SHERLOCK HOLMES.

PRINCESS THEATRE
SATURDAY, MARCH 10TH.
William S. Hart in THE MAN KILLER.

The girls in Pearsons wish that the lights would not stay off so long when they flash.

Girls, we're going to have the Y. W. banquet before long. Be saving your change for a ticket.

The moon was in eclipse last Friday night. Any girl in the teacher training Home Ec. class can tell you that.

The Highland Echo

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME EIGHT | MARYVILLE, TENNESSEE MARCH 16, 1923 | NUMBER EIGHTEEN

ATHLETIC NOTES

MARYVILLE BASKETBALL ''CHAMPS'' OF EAST TENN

Milligan Defeated In Post Season Affair.

We expect that Wicker and all of his Milliganites are satisfied by now as to who are the basket ball champs of East Tennessee. Maryville went about the game in a business-like way and caged seven field goals and four free throws in the first half, while permitting Milligan only two field goals and five free tosses.

Milligan came back in the second half and scored sixteen points to Maryville's eleven, but the Highlanders had too great a lead to lose—to Milligan.

Riskey and Jean were the outstanding stars for the Highlanders. Their floor work was especially good.

Maryville		Milligan
Riskey, 6	f.	Jarett, 13
McMurray, 17	f.	Hodges, 2
McGinley, 2	c.	McCormick, 6
Musick, 2	g.	Mitchell, 4
Veech, 2	g.	Sawyer

Substitutions: Maryville— Janoviczky; Milligan—Knife, Anderson. Referee, Siler.

DORIS MUSICK BASKET BALL CAPTAIN

Doris Musick has been elected captain of next year's basket ball team. Musick has played two years of varsity basket ball at Maryville and should be good for another pair of seasons. Captain Musick's work at guard, his excellent floor work and ability to get under the basket make his shot and get out made him one of the best guards that Maryville has ever had. As for pep, he has carried the pepper box the whole season, and he never fails to spill it. He was manager of the team this year, and a good one. Doris has the pep, he can play basket ball, he has the confidence of his team-mates, a knowledge of the game, and the initiative to insure a fair deal. We want to congratulate the team on the selection of their captain.

ANNUAL FIELD DAY APRIL SECOND

The Y. M. C. A. will stage the third Annual Track and Field Meet Monday, April 2d. This event under the Y is rapidly becoming one of our finest athletic events. Many contests are arranged and prizes are awarded. This year the event promises to be up to the standord of previous years. The meet gives an opportunity for the display of individual talent; and also as a first try-out for the men who are trying for places on the College track team. This year the U. T. meet will be Saturday, April 14th. Similar meets with King College and University of Chattanooga are pending.

TENNIS TOURNAMENTS

Two inter-class tennis tournaments will be started on Monday, March 26th,, one for the girls, and another for the boys. Due to the fact that only a few courts are in playing condition each class will be limited to a team of two players in each tournament. The first three preparatory classes may combine in forming a team if they desire. If you want to enter this tournament, hand in your name to your class president or to Marjorie Lloyd or John Hall by Tuesday night, March 20th.

MARYVILLE ADOPTS A STUDENT COUNCIL

The student body have voted to institute a Student Council at Maryville. Definie decision was taken by a ballot vote Tuesday morning. This vote had been preceded by a mass meeting Saturday in which the students had thoroly discussed the situation and the proposed council. The plan provides a student council composed of representative students elected by the various classes. This council of students has power to discuss, and to recommend to the faculty such measures as are deemed to promote the best interests of the College and the students.

Students favoring the proposed plan ore gratified by the specially large number of votes for it. However, aside from the voting the proposed plan received very little discussion on the Hill. The Council has the capacity to become an important factor in shaping and guiding sutdent opinion. But this will be attained only by the students who are members of it putting a great deal of their best effort into the underaking. The students should realize that unless the council members work hard the Council will soon become as unimportant as the other organizations on the Hill. Therefore the students should early resolve to make the Student Council a success.

THETA EPSILON

Did you ever hear of a backward party? Most everybody has, but few people have ever heard of a backward minstrel—that is, until Theta gave one Saturday night.

The players, themselves, presented a very backward appearance with their dresses on ''hind part before'' and their faces decorating the back of their heads instead of the front.

The opening number of the program was the song ''Georgette''. There were vocal solos by Louise Coln and Ruth Barnette and a harp solo by Virginia Sting.

An interesting part of the program were the performances of Lillion Dorough and Mary Lily Sossomon. Theta girls predict a brilliant future for these two talented artists along the line of—well, suppose we don't say.

After the program a business meeting was held to elect officers for the next trme. The officers elected were:

Catherine Wilson - - President
Mary Robison - - Vice President
Edyth Moore - - - - Secretary
Alice Hunt - - - - Treasurer
Genyth Starnes - - - - Editor
Mary Biles - - Music Chairman
Ruth Barnette - Dramatic Chairman

Let's make this last term the best ever, Thetas!

BAINONIAN

How did you like The Gazing Globe? This is your question, Bainonians. If you liked the last program, its up to you to promote such programs. If you did not like it, it's up to you to promote the kind you like. Whatever you promote, be sure it is best for the Society before you do it.

Certainly, the presentation of The Gazing Globe was one of the best programs we've had this year. Annarine, Martha May and J. Lynn showed us what real expression is. We only realize that they

(Continued on page two)

CHRISTIAN ASS'NS ELECT OFFICERS

Installation Service of Y. W. C. A. Impressive One.

Sunday night after Vespers the customary candle service of installation was held in the chapel. After the hymn ''Abide With Me'' by the congregation, Ruth Gamble sang ''Out of the Deep''. One by one the retiring officers, bearing lighted candles, advanced to the center of the stage where they were met by the corresponding new officers. As each girl lit the candle of her successor, she spoke a few well chosen words of encouragement and advice, closing with a Scriptural blessing on the work of the coming year.

The new president, Dorothy Winters, after expressing her appreciation of the efficient work of the old cabinet, gave for her policy and purpose as leader of the Y. W. C. A. girls, ''I will be true, for there are those who trust me.''

The following are the Cabinet officers for the coming year:

Senior Office		Junior
Dorothy Winters	President	Alice Robison
Lois Hayes	V. Pres.	Virginia Witherington
Ethel Sharp	Secretary	Lucille Heiskell
Lina Hodges	Treasurer	Rebecca Bigger
Mary Bigelow	Editor	Fidela Newman

Y. M. OFFICERS

Preidenst - - Sam H. Franklin
Vice Preident - Edward Hamilton
Secretary - - - - Edgar Cathey
Treasurer - - - Verton Queener

The retiring Secretary and President feel safe in forecasting the best year yet in ''Y Work'' at Maryville College with the newly elected men in charge.

nIstallation will be the first of April.

TENNESSEE PHILOLOGICAL ASSOCIATION RESOLUTIONS

The following resolutions were unanimously passed at the closing session of the meeting of the Tennessee Philological Association at Maryville College on February 23 and 24, 1923:

1. That the members of the Tennessee Philological Association extend sincere thanks to Maryville College and its President, Dr. Wilson, for their most gracious hospitality to the Association in this its seventeenth annual meeting.

2. That we are especially grateful to Professor E. W. Davis and the other members of the reception committee for their untiring attention to our comfort and their careful arrangements for our entertainment, to others of the college Faculty and the citizens of Maryville who have so cordially opened their homes to us and have entertained us so delightfully, to the Department of Home Economics for the delicious dinner on Friday evening, and to the students of the Y. M. C. A. and the Y. W. C. A. for the use of their rooms, their meeting of the trains and all their kindly courtesy.

Committee, E. H. Dutton,
J. D. Bruner,
V. W. Buffum.

Miss Lambertson—Now, I don't want to hear a sound for the rest of this period.

Neal J.—(a minute later) May I turn this sheet of paper over?

NOMINATIONS FOR ECHO EDITOR

Eight Nominess for 1923-1924 Editorship.

The following students are nominated for the Editorship of the 1923-1924 Highland Echo:

Mason Mann
Charles Partee
Virginia Paulsell
Verton Queener
Mary Robison
John Stockton
Elizabeth Torrey
Florence Whitfield.

Every student on the list is well known on the Hill. Any of them are capable of editing the Echo. A mass meeting for the election will be held soon. Every College student should be presnt at the election and vote for the person whom he thinks will best edit the College paper.

NEW YORK SPORTS WRITER LAUDS ACTON

Star Maryville Athlete Given Big Boost In Gotham—Will Report to Yankees.

By Morton L. Deitchs

''A prophet is not without honor, save in his own land.''

The writer refers to Burney Acton, star Maryville athlete for the past two years. While fans in this section regarded Acton as an excellent performer, no unusual fame has been attached to his feats.

This is at home where every one knows him. But listen to this eulogy pronounced upon Acton by a New York sport writer:

''Burney Acton, speed boy of the south, is ready to bid for big league fame.

''Fordham had its flash, Frank Frisch, South Carolina had its streak, Maurice Archdeacon. Hans Lobert was lightning, Ty Cobb is cyclonic, George Sisler sizzles.

''But Acton is Action—Alabama Action. He comes from Birmingham.

''The fastest man in baseball todays, says Bob Gilks, the famous Yankee scout, and Bob rarely is wrong.

''The Birmingham blast has been signed to play the outfield for the Yanks the coming season.

''Whitney Witt, Elmer Smith, Babe Ruth, Bob Meusel, Harvey Hendricks get out of the way. Here comes Acton. He can step.

''What's the use of speed if you can't get on the bags, say the oldtimers. But this boy gets on! He batted .331 last year and stole so many bases they called a moratorium in his league.

''Acton, according to Gilks, beats out smacks to the pitchers. He makes two bases on slams to shortstop. He takes three on hits to center field, and if anything gets past an outfielder, good night, says Robert. That's good for four.

''He played football at Howard University, is 5 feet 11 inches tall, weighs 170, bats left-handed and throws right-handed.''

We quote the above from the Sports section of the Knoxville papers. We all know Burney so well that further comment on his prowess as an athlete are unnecessary. We have seen him on both the football and baseball field, and know that Acton and action are synonomous terms in regard to Burney.

It wouldn't be so bad and a lot of trouble could be averted if some people would talk as slowly as they think.

Senior Sketches

MARGARET ELLEN GRAHAM

Margaret Ellen Graham, comes to Maryville from New Market, Tennessee. We have often wondered what the attraction at home was, for that is where most of her week ends are spent. Margaret is a loyal member of Theta Epsilon Literary Society, having held the office of vice President in 1922 and Secretary in 1920. She came to Maryville, after graduating from Maury High School in Dandridge, Tenn., and has spent four years here, however one year in between time, was taken up with teaching. Her brown eyes and black hair, makes you stand off and take notice

LILAH HEMBREE

Lilah Hembree, from Pikeville, Tennessee, has spent a good part of her college days practicing, and that time has not been spent in vain either, for Lilah is really a talented musician. Lilah dislikes hash and prunes more than anything else at Maryville, and she thinks a new gym would greatly add to the efficiency of moonshining at ball games. Lilah is going to teach Home Ec next year, and there is no doubt that she will make a success of it. Just ask the Seniors if she can't make butter scotch pies.

HERRICK RANSON ARNOLD

Herrick Ranson Arnold is a Senior that you all know but let me tell you a few things about him. He was born in Cleveland several years ago and graduated from the Cleveland High School. He was then out of school for several years, part of which was spent in France as a guest of Uncle Sam, but finally decided to get his Bachelor's degree with the Class of '23 at Maryville. Bill's pet peeve is Snap and his hardest course of study is foreign languages. His ambition is to be a good chemist and we all know that he is going to be that. Besht o' Luck Bill.

MARY HAMILTON

Mary Hamilton has spent three years in Maryville College, taking her Junior year at the University of New Mexico. She came back this year to graduate from Old Maryville. She doesn't know where she will be next year, or what she will do, but she firmly believes that ''while there is life, there is hope''. Mary is a strong advocate of equal rights for boys and girls on the Hill, and she thinks that an important step in that direction would be student government. Mary is one that can be depended upon to boost athletics, especially to support the cheer leader(s)!

ROBERT OWENS DEDMON

Robert Owens Dedmon is another of Class members. Robert has been with us for four long years according to his own words and he claims that Chemistry is the hardest story that he has to contend with. His ambition now is to get a M. A. from the University of Chicago but at one time it was to be governor of Kentucky. Go to it Robert for that M. A. is more important anyway. You never heard of any one saying that they would rather be Bo McMillin than the possessor of a M. A. Remember that motto of yours, ''Never get behind with a notebook.''

Patronize Those Who Advertise. They Make The Paper Possible.

The Echo solicits news items, comments, and expressions of opinion from the students, and from interested alumni.

Yes! We dislike this issue of the Echo just as much as you dislike it. However, circumstances are unalterable.

* * * *

We have a Student Council! It is up to us to make it a live organization or else let it become useless. Which are we going to do?

* * * *

The consitution of the M Club sounds like the M Club intends to do something. The Hill needs organizations of that type.

* * * *

The Y. W. Installation Service was an impressive service. Perhaps it contributes to Y. W.'c service on the Hill. What if our literary societies did likewise?

* * * *

The Echo is in desperate need of a capable editorial staff for next year. Give the list of Editor nominees your most careful consideration. Vote for the one you consider most capable.

* * * *

BAINONIAN

are not inhabitants of an island in the Southern Sea when we see them on the campus. We're glad, however, that they are here and we can enjoy more of their work.

Remember, the election of officers next Saturday night, and a good program besides.

IN SPANISH CLASS

Mrs. Minton:— Mildred, how would you say this in Spanish?

Mildred Doyle:I wouldn't say it.

CONSTITUTION FOR "M" CLUB

ARTICLE I.
Name

The name of this organization shall be, "M" Club of Maryville College.

ARTICLE II.
Objects

The objects of this club shall be:

1. To maintain and uphold the standard of athletics.

2. To persuade other athletes to enter this college.

3. To entertain visiting teams.

4. To uphold spirit and enthusiasm of students, encouraging college yells, songs, etc.

5. To award letters and rewards with formal presentation.

6. To enforce the regulation letter for the different branches of sports.

7. To abolish the wearing of letters, earned or awarded at some other place than this college.

ARTICLE III.
Membership

The active membership of this Club shall be restricted to college students who have been awarded a letter in some branch of athletics.

ARTICLE IV.
Officers

The officers of this Club shall be a President, a Vice President, a Secretary, a Treasurer, and an Editor. They shall serve for one semester and shall not be eligible to occupy the same office for more than two semesters.

ARTICLE V.
Amendments

This charter may be amended by a two thirds vote of the actual active members of the Club.

MARYVILLE CO-EDS WIN AT HOME BUT LOSE AT TUSCULUM

The fourth annual forensic contest between the Maryville and Tusculum College girls was held Monday, March 12th. The contest has come to be a classic in Maryville's debate season. This year the debate was a hotly contested affair. The question debated was that of the abolition of intercollegiate athletics in the United States. Maryville's team on the home floor consisted of Misses Ardis, McDonald and Whitfield. All three were on the debating floor for the first time; but they acquitted themselves as veteran debaters. And won an unanimous decision in their favor.

Maryville's team at Tusculum consisted of Misses M. M. Boyer, Alice Johnson, and Alice Robison. Miss Boyer is a veteran of last year. The other members of the team proved to be good deboters. Both teams ought to furnish winners for next year's contests.

"Ici" Crawford has a new hat. We wonder where his gray cap is.

Our little Geraldine will soon leave us. We hate to lose you Jerry and "Dug" too, but we wish you life long luck and happiness.

If there's anything in dieting, Mary Lillie and Mary Hamilton will be skinny ere a month is passed.

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME EIGHT | MARYVILLE, TENNESSEE MARCH 23, 1923 | NUMBER NINETEEN

THINGS ATHLETIC

Field Day, Gym Exhibition and Circus, and Tennis Tournament To Be Held.

Field Day

Time: 2:30

Medals will be given for first place in every event except the Relay Race, which is between the two societies. This has for its prize a silver shield to be kept by the Society. This shield was won by the Athenians last year. This shield must be won by one society three years in succession before it becomes their permanent property. A cup will be given to the man having the highest number of points from all events.

The events are as follows:

Races:
- 10 yard dash
- 220 yard dash
- 440 yard dash
- 880 yard dash
- 1 mile dash
- 2 mile dash
- 120 yard High Hurdles
- 240 yard Low Hurdles
- Relay Race

Field Events:
- Pole Vault
- Shot Put
- High Jump
- Discus Throw
- Broad Jump
- Javelin Throw

Gym Exhibition and Circus

Something new in the way of entertainment will be furnished on April 2nd. when the Bingling Bros.-Darn'em Dailey Circus makes its appearance. This will be a combination circus and gymnasium exhibition. There will be fancy, funny and frolicing clowns cavorting cunningly. There will be daring and dangerous dangling on the parallel bars. Tumbling by the world's best stumblers. Fancy pyramids built with speed and dexterity. Boxing and wrestling bouts will also have their place. There will be a strong man with ability overshadowing the combined efforts of Samson and Hercules. Spark Plug and Sassie Sue will race in the Blount County sweepstakes.

Altogether it will be a splendid, sparkling entertainment teeming with action. Don't miss this superb spectacle.

Tennis Tournament

If the weather man favors us with plenty of sunshine, our tennis season will start on Monday with an interclass tournament. Each class will be represented by a team of two players, who will play two singles and a double match. The class winning two out of these three matches, will advance a round towards the championship. Judging by the entries this affair promises to be of unusual interest. The classes are pretty evenly matched, and the winners will be forced to play their best in order to overcome their opponents.

With new nets and rackets, and someone to look after the courts, it looks as if we will have a better opportunity to enjoy this sport now than ever before.

WHACK!

Edna Kimble—Lilah, don't you think that you are going dippy over the dictionary?

Lilah Hembree—Why no; what makes you think so?

E. Kimble—Well, you often wake me up raving in your sleep about the Wonders of Webster.

Y. W. GRADUATION

Nineteen Members of Junior Y. W. Graduate, and Enter Senior Y. W.

The joint service Sunday afternoon was a program featuring the graduation of the nineteen girls who at that time passed from the Junior to the Senior section of Y. W. C. A. There was nothing wanting to make it a real commencement from the processional to the showering of flowers upon the fair graduates.

Catherine Wilson read the Scripture lesson, the latter half of Mathew 6. A member of the graduating class, Charlotte Allen, sang for us. The class oration was delivered by Frieda Mylius. After paying a tribute of affection to the Juniors for their big, sisterly kindness toward the new girls, and for their friendly attitude toward all the girls, she expressed appreciation for the spiritual uplift obtained from the Sunday afternoon meetings, and urged her hearers to take advantage of the greatest thing in college life, true friendship.

Henrietta Jackson read the Class Will, by which instrument the graduates bequeathed to the Juniors, among other things, their youth (O cruel time!) sufficient faith to uphold the standards of the blue triangle, and the hope that the Juniors will help the Seniors make the Association just one big, helpful organization.

Miss Clemmie Henry gave the Commencement address. Each of us, says Miss Henry, is seeking something from life, and what we seek sincerely, we are sure to find. Her earnest prayer for each girl is that she will seek first the kingdom of God and his righteousness. The things that shall be added are known as the fruit of the Spirit (Gal. 5:22-23).

The diplomas were presented by the retiring Junior president, Mary Robinson, and Lois Hayes, the new Senior vice president, gave the address of welcome. Louise Sheddan was allowed the privilege of handing each graduate a bunch of violets.

These exercises were planned by our new Senior Devotional Chairman, Mary Broady. We have no way of knowing how many more ''different'' ideas for Sunday afternoon meetings Mary has in the back of her head, but we feel sure that there is something good in store for us.

MARYVILLE GIRLS APPEAR IN KNOXVILLE CHURCH

Miss Myrtle Ardis and Miss Bertha Russell were the special attraction at the evening service at Second Presbyterian Church, Knoxville last Sunday, March 18. They delivered the orations which were used some time ago in the T. T. Alexander Bible Prize Contest. A record crowd, for an evening service, was in attendance and all listened with perfect attention throughout. Dr. H. C. Wilson, the pastor, characterized the service as a red letter occasion. The girls acquitted themselves with great credit, and succeeded in boosting the stock of Maryville College several points on the Knoxville market. They were kept busy for twenty minutes at the close of the program receiving the congratulations and appreciation of scores of Knoxville people. In every way the meeting was a success and constituted an advertisement of the best sort for Maryville College.

LYCEUM MARCH 30

Apollo Quintet To Furnish Final Number.

When the intellectual musical accomplishments of the various members of the Apollo Company are considered, it is little wonder that the company is enjoying the highly successful tour that it has this fall and winter.

The Apollos are to be here on the evening of March 30th at Voorhees Chapel, 8:00 p. m., and local people will have an opportunity to enjoy one of the leading entertainment companies of American Lyceum. Heading the organization is Art Wells, for fifteen years a platform favorite, and it is interesting to note that for a large part of this time he has been the active head of the Apollo Company. He is an artist on the Apollophone, Saxophone, Bassoon, Banjo, and a reader of note.

Mrs. Wells is particularly well-known for her musical monologue, and readings, her saxophone playing and her part in the Apollophone ensamble.

Mr. Carroll M. Peck, saxaphonist and cornetist, has done years of such work as a musician, and has handled the baton for leading orchesras in several parts of the United States. He plays the soprano saxophones in the Saxophone Quartet, and adds greatly to the program with his cornet solo, which by the way, is his own composition.

Mr. Raymond Cass has enjoyed ten years experience in Lyceum, chautauqua, and all lines of entertainment. He is in the front rank as an entertainer, and musician. He plays the tenor part in the Saxophone Quartet and handles the work in a style all his own. The ensemble Apollophone numbers are enlivened by his happy way of handling the bass section.

Miss Vivian Acton is a pupil of Edward Strong and Sargei Klibancky of New York City. She taught voice at the State Normal School at Mansfield, Pa. She entertained overseas in 1918, and has been in concert work since that time in this country. She is the soprano soloist and has a pleasing voice and a most gracious personality.

Maryville vs. Tusculum

Maryville And Tusculum, Ancient Rivals, Clash On Question of Government Coal Mines Monday.

The second forensic contest of the year occurs Monday evening, March 26, when Maryville and Tusculum lock horns on the question of government ownership of the coal mines of the country. This promises to be a first class forensic contest. Because the two colleges are ancient rivals in forensic contests, having many old scores to be settled Monday, and each having a strong determination to win. It also promises to be a high class contest because of the men who are to appear. Maryville's teams are composed of experienced debaters. Since Corry, Poe, Stockton and Wilson have all appeared in intercollegiate contest before this time, and Baldwin and Kinsler were already members of our Forensic League.

Our affirmative team debates at

(Continued on page four)

LITERARY SOCIETY NOTES

NEW OFFICERS ELECTED, AND WORK OF FINAL TERM STARTED.

Theta Epsilon

The new officers took up their official duties Saturday night, and many nice things are in store for Theta in a business and socila way. Just wait until you have finished this article and you will see what the new program committee is doing.

Sure and 'twas Theta that celebrated Saint Patrick's Day by having a program exclusively Irish. Theta Hall was transformed into Ireland itself with the Irish Insignia, that musical old harp, and shamrocks blooming everywhere. The chorus composed of three girls dressed in white shirts, green neckties, and green pantaloons, opened the program with the songs, ''Tumble Down Shack in Athlone'' and ''A Little Bit of Heaven''. Alice Johnson brought back memories of past experiences by reading ''The Courtship of Paddy O'Dee'' in her usual charming way. Two solos were rendered beautifully, Mairia by Rubye Harrison and Mother Machree by Irene Curtis. The girls, Mary Sossoman, Edith Jarvis, Lillian Dorough and Helen Doisey looked more like Irish fairies in the lilt than colleens. ''Anybody Here Seen Kelly'' was sung and dramatized by Theta chorus, Rena Mae Anderson, Thelma Adair, Sarah Kiskadden, Geneva McDonald, Irene Curtis and Alice Johnson.

Alpha Sigma

The Society met as usual Saturday night and a fine program was rendered which ran as follows:

Piano Solo - - - Byron Swartz
Extemporaneous Reading - - - - - - - - - Harry Gauding
Vocal Solo - - - Burl Prichard
Extemporaneous Debate: Resolved, that student government should be adopted by Maryville College. Affirmative, Clyde Wilson; Negative, Wick Bromall.

Decision was in favor of the affirmative.

New offcers for the remainder of the year were sworn in and took their respective places. The meeting was closed with prayer by James Jackson.

Bainonian

St. Patrick lived again in Bainonian Saturday night. Virginia Paulsell made him live in her review of his life. Mary Elizabeth Clements furnished the good Irish Spirit by singing Mother MaChree. Members of the society added variety to this spirit by telling Irish Jokes and Felice Morgan capped the climax entertaining you with her Irish jigs. It does everyone good to get acquainted with Pat and Mike on St. Patrick's Day.

After the program the following officers were elected:

President - - - - - Ruth Allen
Vice Pres. - - - - Reva Rankin
Secretary - - - - Helen Sweeton
Program Secy. - - Lina Hodges
Music Critic - - - - Edith Keen
Literary Critic - - Ethel DeHaven
Censor - - - - - Stella Taylor

The old officers gladly surrender their duties, privileges and pleasures to the new ones. You, too, will be true to this latest and best group of Bainonian officers.

Show your endorsement of the last term's work and your cooperation and support to the new next Saturday night. A musical pantomime will be presented under the direction o fthe old and new program secretaries.

Athenian

The election of the new officers was the business of the last meeting of the Athenian Society. However, before the election occurred the society was favored by a short musical program. Our incomparable ''Scotty'' sang Scotch dialect songs of just the right kind, and in just the right way. Then ''Ham'' sang his latest hit. It's a good one to—called: ''Oh Just Anything''. Finally Raymond Anderson led the house in song.

The officers elected were as follows:

R. A. N. Wilson - - - President
Lawrence Crawford - Vice President
Edgar Cathey - Recording Secy.
Verton Queener - Program Secretary
James Brown - - - - - Editor
Charles Ellis, Herrick Arnold - - - - - - - - - Critics
Barbee Simpson - - - Sgt.-at-Arms

TWO GREATEST RELAY CARNIVALS

PENNSYLVANIA'S RELAY CARNIVAL

An International Event Again Oxford University, England, Will Run In Two-Mile Relay Championship.

The 29th Annual Relay Race Carnival under the auspices of the University of Pennsylvania will be held this year on Friday and Saturday, April 27th and 28th. This great Carnival, which is now acknowledged to be the greatest annual track and field meeting held any place in the world annually, will again have international importace. This is due to the fact that Oxford University, England will send a two mile team to compete in the American college two mile relay championship. This will be very welcome and interesting news to the thousands who were present in 1914 when a four mile team from Oxford was here and in

(Continued on page four)

SOUTHERN RELAY CARNIVAL GA. TECH,

Atlanta, Ga. April 28, 1923

The Georgia School of Technology will hold its first annual Intercollegiate Carnival April 28, 1923 Grant Field, Atlanta, Ga.

Invitations have been issued to 71 colleges and 131 Prep Schools throughout the South and Southeast. They will be modeled closely after the games held at the University of Pennsylvania. And it is the hope of the promoters of these games that they will become for the South what the Penn Relays are for teams in that section of the country.

Along wih the Usual Relays will be given five special events namely: 100 yard dash, 120 yard High Hurdles, Javelin throw, High Jump and the Pole Vault. These events are open only to Collgee undergraduates and each school will be

Patronize Those Who Advertise. They Make The Paper Possible.

The Echo solicits news items, comments, and expressions of opinion from the students, and from interested alumni.

The Echo Editor is to be elected at a mass meeting Wednesday the twenty-eighth. Be there to cast your vote.

* * * *

We are back to the usual size Echo this week. Soon we hope to be able to run the usual size every week.

* * * *

Tennis is starting with a rush this year in an inter-class tournament Monday. Get busy you tennis sharks, and we'll have some real tennis this year.

* * * *

Our Y is doing a real service in holding a field day each year. Let's show our appreciation by giving our support and making this field day a success.

* * * *

Why should orngе peels be scattered so carelessly over the campus? Should we not care just as much for our College campus, as for our lawn at home? Surely we should, and could easily, refrain from scattering orange peels all over the campus.

* * * *

The support given our circuit debate team now on the road is one of the finest examples of Maryville College spirit. Our team has been supported by letters, postals and telegrams from individual students and professors, and from debate teams and literary societies. We have a spirit here that supports the teams of the College.

* * * *

I hear someone say: ''This old College is the same as it was a hundred years ago''. Do you believe that? It isn't true, for three years ago when I came to College Hill there was a different spirit—There has always been a democratic spirit, and may there always be one—but what you will find today, is a different attitude.

Things were good then, they are better now—the College Department is larger—the standards have been raised in scholarship—the Faculty has been increased, and the faculty assistants are now possessors of degrees—the College is now a member of the Southern Association of Colleges.

We would not have some things changed if we could on College Hill—the February Meetings—the Fred Hope Drive—the Easter and May Day Services, and now the Life-Work Conference.

Some things have been happening lately—have you taken notice? The organization of the Student Council, and the M. Club are evidences of a new spirit and a good one—it is a desire to become more democratic—a willingness to cooperate—and to be active in all branches of College life.

Three years ago Athletics had a bad name—does it now? I should say not—everybody is behind it now, and as Don Taylor says ''If they're not, we'll make 'em.'' Why the difference between now and then? First of all, the good, clean, square fights that our teams are putting up for our Alma Mater demand the respect not only of Maryville students, but also the students of other colleges and universities. Second, an athlete is put on the team because he can do the work, and not because he is a good sport—so called. Third, the athletes are taking an interest in putting over the February Meetings, the Life Work Conference, and the program of the Y. M. C. A.

Boys, did you attend the Y. M. C. A. metiengs the past two Sundays? If you did not, you missed two of the best meetings of the year. There are two more Athletic meetings to be held, so, come on boys and show the teams that we are for them—they're for us. Let us all push and work together, and make the old College Hill an even more democratic place than it is now.

BURSON—LONGSWORTH

Mr. and Mrs. S. N. Longsworth announce the marriage of their daughter
Edith Jean
to
Mr. Sherman LeRoy Burson
on Thursday, February the fifteenth
Nineteen hundred and twenty-three
Fort Wayne, Indiana

At Home
6034 Woodlawn Ave.
Chicago, Ill.

It's hard to find an orange, a lemon or a girl that is not one of the Sunkist variety these days.

Senior Sketches

MABLE IRENE BAKER

Mable Irene Baker, a member of the Theta Epsilon Literary Society, has spent three and one-half years in Maryville. She was born in Brookville, Ohio, but has lived most of her life in Harriman, Tenn. Before coming to Maryville she graduated from Harriman High School, and in the meantime she has taught school, been a stenographer, and done inspection work at the Delco in Dayton, Ohio.

JOSEPH ROSCOE WATKINS

Mr. Joseph Roscoe Watkins is a member of our class from Loudon, Tennessee and his eye is set on getting a M. D. from either Vanderbilt or Johns Hopkins. Doc is a baseball fan and is longing for the time when he and a certain little girl can sit out on the bleachers and throw pop bottles at the umpire. His idea of a fitting memorial for the present class to leave is a sufficient number of benches to accomodate all the moonshiners on Monday afternoon. Go to it Doc, we are for you and may you never get a girl with bobbed hair.

VIRGIL C. McCLUNG

Mr. Virgil C. McClung is from Petersburg, Indiana is 5 feet and 7 inches tall, has gray eyes and dark brown hair (stand back girls, don't crowd!). Mac says ''By Gar'' the thing Maryville needs most is a new brand of 'Old Lady'. He also dislikes the muddy streets on the campus and would like to see them changed. He says his hardest course of study is his girl and most of the class will agree with him. Look out Mac old boy or that course will cost you a lot more than all the rest of your school days put together. Remember that favorite quotation of yours from Shakespeare, ''He who yields to puppy love will lead a dog's life.''

HOWARD H. SULLINGER

We have in our midst one Howard H. Sullinger who has born in Continental, Ohio but later moved to Maryville. Howard, better known as ''Tubby'' has been with us for four years and we hate to think of leaving him for he has helped to make our class the best one that has ever graduated. He has played on the foot ball team for 3 years and was captain in '22. He has been on the College Quartet and Glee Club for two years and is a good man to have in the class. Tubby would like to see one change made and that is for the realization that this is the 20th Century here on the Hill as same as elsewhere. Tubby is an Alpha Sigma and they are mighty proud of him.

AGNES ISAAC THOMPSON

Agnes Isaac Thompson has been a member of the Class for only two years, spending her first two years of college life in Missouri. She graduated from Fairfax High School, Fairflax, Mo., and has already had some experience in teaching. She thinks she will teach next year. We wonder if there is a vacancy in Dyersburg? However, she seriously awaits the day when she will find herself a missionary among the Chinese.

T. J. MARLER

T. J. Marler comes to Maryville College from Cleveland High School, Cleveland, Tennessee. After spending four years here he has at last risen to the dignity that he has long longed for. He has a hobby of hanging out around the Palace Theatre in Maryville, but at home his hobby is ''Old Buck''. We've tried to persuade T. J. to tell us what his name is, but he's too timid to tell us. We call him Theopolis Jeremiah though. His favorite type of girl is a small brunette and his favorite sport is moonshining.

(Continued on page three)

THIS WORLD'S A FINE PLACE AFTER ALL AS LONG AS EVERYODY PLAYS THE GAME FAIRLY.

All business men in Maryville do not advertise with the Chilhowean. Some advertise with the Echo and some advertise in nothing. Let us not knock any business but simply patronize those who help us by advertising. These are helping to make the '23 Chilhowean a better book.

Just Good Values!

There are many ways to skin a cat. It is impossible for a store to stay in business without a profit. Some stores will make an occasional "squeeze" to stimulate business. We make ours on volume---when sales go up prices come down. A customer that comes often and spends wisely is better than the occasional big spender.

A Special Purchase Sale of Coats Capes and Dresses

$17.50

Coming at a time when your thoughts are turning to a new frock, coat or cape for the Easter parade—this sale offers you the best opportunity to gratify your wish that you could hope for. In the purchase of this special lot we were considerate of your requirements and selected the most charming styles available. The manufacturer advised us to sell them at $24.95. We thought different and priced them at a ''profit sharing'' figure. Come to our Ready-to-Wear Department tomorrow expecting much—we personally guarantee that you won't be disappointed.

Chandler-Singleton Company

We could say a good deal about FLORSHEIM SHOES, but the Shoes themselves can tell you more.

Their good looks, long service and satisfying comfort speak louder than words.

Faster than ever rode Bud Boble
Speeding along in his Auto-Mo-Bel,
He went along so nobily
In his brand new Auto-Mobily.

There he rode for many a mile
In his dashing Auto-Mo-Bill,
Thus he went across the lea
In his swift Auto-Mo-Blee.

Faster speed each whirling wheel
Of his flying Auto-Mo-Beel,
So do not pick me up for a fool
About this fangled Auto-Mo-Bool.

It's cost you five to hear me say
It might be called Auto-Mo-Blay,
You bet I'm right, you hear me sneeze,
Pronounce it any old way you please.

THE MODERN GIRL

Blessings on thee—little dame.
Barebacked girl, with knees the same
With thy turned down silken hose
And thy thin transparent clothes
With thy red lips reddened more
Smeared with lip stick from the store
And thy bobbed hair jaunty grace
From thy heart I give the joy
Glad that I was born a ''boy''.

SENIOR SKETCHES
(Continued from page two)

MARY LUCRETIA McSPADDEN

Mary Lucretia McSpadden, former president of Bainonian Literary Society, lives in Concord, Tennessee. Before coming to Maryville she graduated from Farragut High School in Concord, where she had the ''rep'' of breaking rules and getting by with it. She has held positions in the Y. W. C. A., Bainonian Literary Society. The Highland Echo and the Athletic Association. Mary is an all-around good sport and she is the senior candidate for May Queen this spring. It is the hope of all the class that she will be the May Queen for there is no girl on the Hill who would make a better one. We're for you Mary, in every way.

BOB KING

Who knows a better all round boy in the class than Bob King, from Sturgis, Ky. His hobby at home and at school is singing, so we don't wonder that he has been a member of the boys' quartet and Glee Club for four years. He has been vice-president of the Ministerial Association, a member of the Y. M. Cabinet, President of Kentucky Club, and then with all this he wears a Football M. He's good at most any kind of work from shoe shining to moonshining. He is a member of the Athenian Literary Society.

AGNES LEWIS

Agnes Lewis was born in Denver, Colorado, but the lapse of a good many years has brought her to claim Chattanooga as her home. She has been in Maryville four years, summer as well as winter—and has made a name for herself as a stenographer in the eyes of the office force. She's good at moonshining, they say, however, she will not admit it. She has made wonderful plans for the following summer. She expects to spend 10 weeks in a girls' summer camp in Alabama. Agnes has held the office of vice-president of Bainonian, and the society is proud of her.

RALPH A. ARMSTRONG

Ralph A. Armstrong is the man that wakes you up at six o'clock in the morning but he won't worry you next year for he is also a Senior. Ralph hates to leave this year and the thing that he dislikes more than anything else is the fact that you are only allowed to stay four years. 'Army' plans to enter Seminary next Fall and his life-long ambition to be a "Sky Pilot" is soon to be realized. We do not claim to be a prophet or the son of a' prophet but we will venture to say that in a few years he will be a sure enough 'Ace' and old Maryville is going to be proud to number among its Alumni Mr. Ralph A. Armstrong.

RUTH ALLEN

It gives us great pleasure to introduce to you at this time, Miss Ruth Allen. She is from Oregon, Missouri, and seems to like the place well for she has claimed that place as her home town for—well, now, she did not give her age—but every since she could see.

Ruth is an advocate for some form of social hall where boys and girls of the Hill could have better and more enjoyable social hours together.

Now Ruth is a reasonable girl, progressive and all that. ''Onward ever onward'' seems to be her motto.

As an orator Ruth holds one crown and she can debate too. But what matters that to her, she wants to do what she can to keep things alive at M. C., and too, she is another Senior of 1923.

We can't imagine anything that would stir up as much trouble in this country as to have a national ''Tell-the-Truth-Week.

Pennsylvania's Relay Contest

(Continued from page one)

1920 when a combined Oxford-Cambridge two mile team appeared on Franklin Field. The 1914 race was the most sensational race that has ever been seen in this country as Oxford won by a hair. The 1920 race produced a new two mile relay record, though this record was effaced from the books last season by the wonderful team which the University of Pennsylvania then produced.

Wonderful records are being made in all the events. For instance, last week, Charles Paddock of the University of Southern California ran the 100 yards in 9 4-5 seconds, wonderful time for so early in the season. ''Boots'' Lever of Pennsylvania was beaten only a foot by Murchison of the Illinois A. C. at 60 yards at a new world record time of 6 1-5 seconds. Brown of Dartmouth recently cleared 6 feet 5 1-4 inches, a new indoor high jump record. A dozen men have gotten over 12 feet 4 inches or better in the pole vault, the most notable performance being that of Owen of Pennsylvania, who cleared 12 feet 7 inches recently. Seven or eight men have put the shot better than 42 feet, while Meyers of Rutgers recently defeated Thompson, formerly of Dartmouth, in a 70 yard hurdle race in new record time. Hellfrich of Penn State came within 2-5 seconds of the world's 600 yard record at the Millrose games, and on the same evening Connolly of Georgetown made new world's figures at two-thirds of a mile. Taylor of Princeton, Woodring of Syracuse, the Olympic 200 metre champion, Poppisch of Columbia, and Baker of Virginia have all done close to 50 seconds indoors for the quarter mile. Brilliant performances have been seen all over the country, but especially in the East and Middle West. All of the above men will be seen at Pennsylvania's Relay Carnival. In addition, the relay racing has been up to a very high standard, so that new records may be expected in more than one of the College relay championships that will be run, as usual, in connection with Pennsylvania's classic.

CHEMISTRY CLUB

Some one under the false impression that, to be a good Chemist one must have a natural liking for the odor of H2S and kindred fumes. They believe that the science has nothing in it which lifts one up into the nobler and higher plane of inspiration, altruism and self-sacrifice. If any of the above misled individuals had been at the meeting of the Chemistry Club Thursday evening, March 15th, they would have changed their minds.

Miss Veazey gave an inspiring address on the Life and Works of Louis Pasteur. None of us know much of what we owe this great man. He is often called the Father of Modern Anticeptic Medicine.

Mr. Griffitts' paper on The Training of An Industrial Chemist was very interesting and practicable. He brought the points that, 1. The demand of industry is methods that promise immediate and certain cash profits. This has caused much routine work and hampered research work. 2. Training in lab should be instructive rather than a copy of a factory.

During the discussion it was brought out that there is a great demand for Chemists, and that some of the great industrial firms are now supporting research work which was formerly left for the universities. It may be interesting to note that The American Chemical Association is the biggest scientific organization in the world.

A good program is promised again next Thursday. It does not take much time. Drop in, lend a hand and take one.

There was a young lady away from her mother
Who fell for an eyebrow's twin brother,
When he spoke, oh my!
She found him all I,
And now she's in search of another.

Georgia's Relay Contest

(Continued from page one)

allowed to enter two men in each event. Gold, Silver and Bronge medals will be given as prizes in these events.

Tech Relays offered will be the 1-2 mile, 1 mile relay, 2 mile relay, 4 mile relay, and the sprint Medley relay in which the first two men run 220 yards, the third 440 yards and the fourht man 880 yards.

For the last two or three years Vanderbilt has had the best mile Relay time in this section of the Country, closely followed by Mississippi A. and M., Louisiana State University, Sewanee, Ga. Tech., University of Georgia, and University of Kentucky. Clemson College's 1-2 mile relay team of last year was a bear in action led by the brilliant Sallee. Emory University of Atlanta always puts out a cracking good team which gives the other teams of the state a hard fight every year.

In the Special Events it is hoped that L. S. U. can arrange for Helm the winner of the 100 and 200 yard dashes at the S. I. A. A. to appear against the best that the other Colleges can offer in the Championship Hundred. Waite of South Carolina is one of the greatest Javelin throwers in the country. Cochran of Mississippi A. an M. is one of the greatest quarter men and the winner of the quarter at the National Intercollegiates held at Stagg Field University of Chicago last June. Ellis, of the same school, Helm of Kentucky and Coughlan of Sewanee closely followed by Mawbrey of Georgia are all great Hurdlers.

The authorities in charge of the meet have great hopes for it and extend a hearty invitation to any to enter. You will have he opportunity of visiting Atlanta one of the most progressive and hospitable cities in the south and a city that is wild about High Class Intercollegiate Athletics.

A NEW ORGANIZATION ON COLLEGE HILL

The C. K. T. S. Club newly formed on College Hill means little as some pepole see it, but those who have been admitted have received great benefits. This club was formed in order to make it possible for its members to become better acquainted, better fed and better clothed. Its claim is also to raise the scholarship of its members from perfect to plu-perfect.

The members of this club wear a pin which signifies the aim, hope, desire and ambition of the whole student body and faculty of the college. This pin is patterned after the first club pin worn by the great discoverer Christopher Columbus.

A morn, an eve, a college year is spent
No one can tell just where it went
Our fun is first, and study is last;
In June we'll mourn o'er bitter past.

The teacher would mar this bright day
If C. K. T. S. would heed what he doth say;
''This way for fun, count not the cost.''
Thou countest not, thine grade is lost.

In rules and studies joy goes down
College life is lived—no pleasure found.
What! on grade cards no A's are won,
Don't worry C. K. T. S. have their fun.

This is to announce the birth of a new organization on the Hill. As yet, very little is known about it except that the name of it is the ''Whiz Bang Club'' and that the president is called Captain Billy.

The club which is very exclusive, is composed of a very few boys in Carnegie and they say they made Mr. McCurry an honorary member, the club is to promote the welfare of its members and assist in their enjoying their stay in Maryville.

FRIEND ROOM MATE

Says some girls sure have a huge sense of appreciation. She says she wouldn't be like some girls what she knows for any money. Only the other day, she says one girl received a huge box of American Beauty roses and although there was a card with them, this said girl just calmly picks up her fountain pen and writes six of the handsomest notes of thanks than any feminine woman could concoct—each note for a different man.

My room mate says that was to make the six boys feel bad so they would send her some—sometime later. My room mate thinks that's as bad almost as for girls to write boys and delibertly tell those boys when her birthday comes or even writes that she is dying for some of those delicious chocolates like what they used to send her. Only my room mate says, she uses a different line for each man—''Playing up to them''—she calls it. I call it diplomacy and here's one girl what wishes she was a diplomat like some people she knows.

PERSONALS

We are all very sorry to learn of the illness of Emma Sexton and Hazel Richardson.

Perle Lambertson is now able to be back at classes again, we are glad to say.

Miss Ceda Given and Miss Irene Sharp are now recovered from their recent illness.

James N. Hardin has resumed his classwork after a brief stay in the hospital, and a week of recuperation at his home.

Cecil Timblin has quite recovered from his recent attack of flu.

BASKET BALL LEAGUE

The All-Sar basket ball league finished up with Sanchez's steam roller crew having won all their games. This team of basketball tossers showed some remarkable playing and are to be complimented for their fine team work. They won five games and lost none. Hamilton and Watkins had the best teams aside from the winners. The league, although getting a late start furnished many interesing games and next year a similar league will get into operation.

Maryville vs. Tusculum

(Continued from page one)

Tusculum. It is made up of Floyd Corry, John Stockton and Clyde Wilson. All of whom are veteran debaters. Therefore Tusculum has as well prepare to lose. Our negative team is composed of Robert Baldwin, Francis Kinsler, and Leslie Poe. We know the ability of these men as debaters. They are good. Come out to the debate Monday evening, and hear a good debate—also come and root for the team.

ANY ROOM IN BALDWIN

Surprised Matron:— Why do you have so many girls in your room all the time dear?

Baldwin Bill:— It's this new animal heat idea. We figure if we get the house full enough we'll be warm once this winter.

BASE BALL! BASE BALL!! BASE BALL!!!

SPLENDID PROSPECTS AND EXCELLENT SCHEDULE.

Jack Frost has had things pretty much his own way so far. However, Old Sol has chased him away on several occasions. Coach Honaker has taken advantage of warm weather offered by Sol, and has put his baseball aspirants through strenuous exercise and practice with the result that a first-class baseball team is rapidly taking form.

Using the six veterans from last year's championship team as a nucleus Coach Honaker is building a team that bids fair to equal the performance of last year's aggregation. Captain Sneed will be in his old position in left field, and we know that the left garden will be well cared for. Shorty is a dangerous and visious swatter. He was lead off man for part of the last season. Centerfield will be well taken care of by Roy McCall, a veteran of three seasons as a regular outfielder. Right field, the place filled last year by the lamented Reed Rowan will be capably taken care of. Watkins and McCarrol seem to be the most likely looking of new men.

The infield is not causing the coach any paritcular amount of worry. Two veterans of last year's campaign are back. Partee, the leader of the old squad will hold down the keystone sack. He led the team in batting, and should hit for at least 350 this year. Charlie is a good fielder with a fast accurate peg. Speedy Ruble, runner up to Partee for batting honors, will again play first base. Speedy's rise to base ball fame has been rapid, and from all appearances he is still rising, at least in ability. Speedy is the youngest man on the team and one of the best. He is a sure fielder, a certain and heavy hitter, and a fast man on the bases. He will probably ball as clean up man. The other two positions will be filled by new material. Shanks at short stop seems to have the matter pretty well in hand. He has the ability to cover ground and field the horse hide. He has one of the deadliest pegs shown on a Maryville diamond in a long time. Third offers a free for all scramble. Riskey and McCarrol having the upper hand. Both men are good hitters and show ability on the bases. Riskey has been suffering from a sore arm, and has been taking his pegs rather lightly. With the coming of warm weather, his trouble should disappear, with an excellent throw as a result. McCarrol is the most versatile man on the squad. He was originally a catcher, but will probably be used on third or in the outfield. Riskey has the edge infielding but Mc hits a little harder and oftener.

Baxter Williams will play his third season as back stop. Bax is one of the best college catchers in this part of the country. He hits about .300, and we know the place behind the plate will be well filled.

The pitching staff is something of a problem. ''Rookie Jack'' Mathews was with us last year, and no apprehension is felt as to his ability. Jack has been going good and is showing better form than ever. We expect great things out of Rookie. The remainder of the pitching squad will be made up from Webster, Guy Acton, Burleson, Wyncoop, Martin, etc. Webster is showing some good form. He has good control, a fair bunch of speed, and a pretty good break to the ball. Guy Acton, brother of the famous Burney, is one of the best looking is a well controlled fast ball. He of the new pitchers. His best asset will probably make the Highlanders a good twirler before the season is over. Burleson has a good break to his curve, but lacks ability to control it. Wyncoop, the only pastsider on the staff hurls a wicked ball but shares the same difficulty that Burleson does—trouble in control. Wyncoop will probably get over some of his wildness, and if he does, he will be one of the most valuable men on the staff. ''Little George'' Dinwiddie is also trying to make a place on the squad. Little George has plenty of size, but needs more practice.

Besides these more prominent members of the squad, Coach Honaker has plenty of good reserve material to draw from. The Scrubs will have an especially good outfield with Jean McMurray, Schmidt, and Doris Musick. Joe Gamble at second and Tom Anderson at short give the coach some really first class reserve material for the territory around the middle bag. Porter Turner and Windy McClung are the best of the second string backstops. Specs Cortner, if he keeps up his admirable and excellent work will be able to offer some body a good race for the position of water jack or pigtail

The Highlanders go into action for the first time this year against Transylvania. Mathews will probably start the game Friday, and Acton or Webster will likely get the assignment for Saturday's job of hurling.

Next week, the team will meet the Cincinnati Reds in Knoxville. Let's every body back the team.

VERTON M. QUEENER ELECTED ECHO EDITOR

The mass meeting held Wednesday for the election of the new Echo Editor resulted in the election of Verton M. Queener. Mr. Queener was elected by a high majority on the first ballot. Such a result indicates that the student body regard Mr. Queener as the man for the position. Comments on the qualifications of the new Editor are superfluous. He is well known on the Hill as a leader in all forms of student life. We believe the Echo has an entirely capable Editor for next year, and prophecy that next year's paper will be a better Echo.

Graduate Recital Monday

Misses Carson and Stribling To Appear In First Graduate Recital.

The first Graduate Recital of the year will take place Monday night April second in Voorhees Chapel.

Miss Susan Carson, the reader for the evening is already well known to the student body through her frequent appearances in dramatic work. Her program will consist of Sweethearts by Gilbert, a two-act Romance and Mansions by Flanner, a new one-act play.

Miss Virginia Stribbling the pianist for the evening has recently proved her capability at the piano. Her program will consist of the following interesting numbers:

Gavotte-Intermezzo (for 2 pianos) by Louis Saar.
Liebeswalzer by Moszkowski
Capriccio by Doknanyi
Rondo Capriccioso by Mendelssohn
The Prophet Bird by Schumann
Polanaise Op. 53 by Chopin

Y. W. NOTES

Cabinet Conference

If any new Cabinet member has had the idea that her office meant just a chance to look pretty in a candle service, she has discovered by this time that her job spells WORK. When Dorothy Winters suggested spending a whole Monday at Montvale to work out Y. W.'s plans for the coming year, there was a chorus of, ''I can't go''. But in the end our obligations as Y. W. C. A. leaders prevailed, and everybody was on hand at 7:30 Monday morning, ready to board the truck.

Three hours of close application to business followed immediately upon the arrival at Montvale. Policies were submitted by all committee chairmen, and after discussion were amended or enlarged as the needs were brought up. Perhaps the plans made are so great as to be humanly impossible of carrying out in full, but with the help of our Great Captain Y. W. C. A. purposes to become a more vital force for spiritual growth in the life of every girl in Maryville College, and incidentally to be more than ever a channel of blessing to the institution as a whole.

Such concentrated thinking made us all hungry, so at the call of our Social Chairman, Margaret McKinney, we followed our noses to where she was waiting for us with an abundance of spaghetti goulash (or whatever she called it) and accessories.

After dinner the remaining cabinet business was completed, and then the gang scattered over the 250 acre mountain park, some in the direction of Lake Sidney Lanier, others toward Look Rock, and the more ambitious hikers started back toward College Hill.

The Conference was in every way a success, and the cabinet members feel that the inspiration gained is worth many times the effort put forth to plan it and attend it.

THE SENIORS AT PARTY

On Wednesday night, March 21st. those blooming Seniors had another party. Dr. Wilson opened his house and the Seniors reigned supreme for the evening. Games, contests and EATS were enjoyed by all. Then, after getting the approval of Dean Jasper C. Barnes, one of our caperons, a literary farce picturing the Seniors in Ethics class was read.

On request the article will be printed in the Echo and Buffat pleads guilty so no one else will have the expected maledictions heaped on his innocent pate.

So, with sincere apologies to all poets, authors, and writers, who are, have been and will be I will lift the curtain and let you read Seniors In Ethics, next week.

News of the untimely death of Reed Rowan is indeed sad. Reed graduated with the Class of '22. While on the Hill he took a prominent part in student activities and was therefore known and liked exceedingly well by a very large number of students. His death was due to apendicitis, and occurred last Wednesday.

The gym circus and exhibition is postponed one week. It will occur Monday, April 9. Watch for further announcements concerning it.

MARYVILLE'S FIRST DEBATE TOUR

MARYVILLE LOSES TO C. N., KING COLLEGE, WAKE FOREST, AND WINS FROM PRESBYTERIAN AND NEWBERRY.

In Dual With Tusculum Maryville Won At Home and Lost At Tusculum.

The first extensive debate tour made by a Maryville team is now a matter of history. Starting on March 15th with a debate against Carson and Newman College, the team met successively King College on March 16, Wake Forest College on March 19, Presbyterian College of South Carolina on March 21, and Newberry College on March 22. All of the debates except the contest against Presbyterian College found Maryville upholding the affirmative of the proposition: The United States should retain possession of the Philippine Islands permanently. The first three debates all resulted in 2 to 1 decision against our men; the last two debates were unanimous victories for Maryville.

The debate at Carson and Newman was a three-man affair on both sides. The Parsons were represented by J. D. Hale, W. W. Chandler, and A. S. Hale, all of whom possessed real oratorical ability. The Maryville team put up a magnificent debate which won for them the respect of the large audience of Carson and Newman supporters.

The King College debate was a rousing affair. Armstrong and Franklin were our team and in Edgar Gobble of K. C. they met one of the best debaters encountered on the trip. Although the vote was two to one against us, we left Bristol with a most kindly feeling for King College and its fine spirit of cordial courtesy. We recall with particular pleasure the splendid hospitality of Professor Orville Post and Mrs. Post, at whose home Ed Cornelius and the rest of us had the best meal of the whole trip.

Saturday was spent on the road and Sunday was spent in Raleigh. Monday, after strenuous forensic workouts in the Raleigh Y. M. C. A. gymnasium, we invaded another Baptist stronghold, Wake Forest College. When shall we cease to sing the praises of Wake Forest? What debaters they are! What hosts they are! It was the best debate of the trip; so far as the writer knows, the best debate in the history of Maryville Forensics. Chief Justice Walter Clark of the North Carolina Supreme Court, called it the best debate he had ever heard, and by the way, he voted for Maryville. The judges of this debate constituted the most distinguished jury a Maryville team has ever faced. The other two judges were Associate Justice Stacey of the North Carolina Supreme Court and Judge Crammer of the Superior Court for the Eastern District of North Carolina.

S. N. Lamb and G. H. Morton were the opponents of Franklin and Cornelius. Both are unusually strong debaters, and both are real gentlemen. The president of the college, Dr. W. L. Poteat and his faculty extended every courtesy to us. We want to go back to Wake Forest even if we have to lose again.

The journey to South Carolina halted at Clinton, the seat of Presbyterian College. The debate against P. C. was our first opportunity to defend the negative side of a somewhat negative question. Armstrong and Cornelius won handily over Perry and Hudson of P. C. This was the first unanimous decision of the trip.

The last stand before the homeward flight was at Newberry. Here again we met real Southern hospitality. The fact that Franklin and Cornelius won unanimously over Derrick and Harris of Newberry is a secondary sort of pleasant memory of the visit there. The thing we shall all remember longest is the cordiality of every one, faculty and students alike. We had a great time in Newberry.

Was the trip worth while? If you count the debates won and lost, it may seem doubtful, for two loses and three wins is not a great percentage. If you count the votes of the judges, favorable and unfavorable, it looks better, for nine out of fifteen is not bad. But the real value of the trip lies in the fact that Maryville's men everywhere were hard, clean fighters winning for themselves and for the College the highest respect and honor. "The best college debaters ever here", they said at Newberry. "A truly great team'', Wake Forest commented. ''A gallant trio of losers, never losing heart, fighting harder each new opportunity'' says the coach. Decidedly the trip was worth while.

An account of this trip would be incomplete without a word about the truly wonderful support from the folks back at home. At Presbyterian College we received our baptism of mail. Armstrong had one or two letters earlier, but the real deluge of letters and cards from the Hill was for all of us and we simply couldn't lose after that.

When the debate at Presbyterian College closed, Ralph Armstrong's college debate career closed with it. One year as alternate and three years as principal he has served the forensic cause most faithfully. Maryville debate has never had a more faithful and conscientious worker and in recognition of this sterling worth his colleagues in the Forensic League chose him last spring as president of the League. His work in the three debates on the trip was of the highest order.

Sam Franklin and Ed Cornelius are among the top liners of all time in Maryville debate circles and on every occasion on the trip when they were called upon they performed with brilliant effectiveness. It was a great team, a great trip, a great boost for Maryville forensics.

VOLUME EIGHT | MARYVILLE, TENNESSEE APRIL 6, 1923 | NUMBER TWENTY-ONE

TRANSYLVANIA GAMES OPEN THE SEASON

MARYVILLE TAKES FIRST TWO GAMES OF SEASON FROM TRANSYLVANIA. MATHEWS AND ACTON STRUT THEIR STUFF AS PITCHERS.

The active base ball season opened last Friday with the Transylvania game, and it was an auspicious beginning in every way. During the two game series Transylvania was able to cross the pan only once, and that was the result of an error in the out field. Both Mathews and Acton were masters of the situation at all times, holding the Kentucky crew to seven safe bingles in two games and striking out fifteen. While the pitchers were showing their ability, the rest of the team was on hand for their part. The cold weather slowed up the defense some, and was responsible for the errors chalked up against them. But they more than made up for any slowness in defense by their vigorous offense. The Highlander batsman landed on three Kentucky pitchers for twenty three safe blows in the two games.

The first game was by far the better of the two, partly because of more favorable weather conditions, but chiefly because of the ability of Halbert, the Transylvania hurler to keep the Highlanders' hits fairly well scattered. He had an awfully mean slow ball that he mixtd with his fast ones and kept the Maryville batsmen guessing with his change of pace. Mathews easily had the upper hand though and allowed only three hits.

All doubt as to whether Maryville had more than one good pitcher vanished in the second game. We can rely on at least one, Guy Acton—to share the pitching burden with Mathews. In spite of freezing weather, Guy had his curve working almost to perfection and allowed the Transylvanians only four hits. Guy says he's greatly indebted to Speedy for keeping the hits down to four instead of six. Speedy made a stop of a hot grounder down first base line that would be a credit to any body, and a peach of a catch of a little fly back into right field.

TRACK MEET HELD

McGinley, Rohre and Templin Take First, Second And Third Places.

The third annual track meet under the auspices of the Athletic Committee of the Y. M. C. A. was held Monday, April 2nd. at 2:30. The meet was conducted under the direction of Coach L. E. Bond and P. G. Rice, athletic chairman of the Y.

Appropriate medals will be awarded the winner of each meet and a gold medal or cup to the high point man.

''Slim'' McGinley was high point man with a total of fifteen points, taking first place in five events. Stuart Rohre was second man with ten points, by taking one first, three seconds and one third. W. L. Templin third with six points, taking two first places.

The Sophomore Class led with a total of over 40 points; Freshman second; Seniors third and Juniors fourth.

Events: Time: Winners:

100 yard dash—1st. McGinley; 10 seconds; 2nd. Rohre

220 yard dash—1st. McGinley, 24 1-5 seconds; 2nd. Rohre; 3rd. Acton.

120 yard high hurdles—1st. McGinley 18 1-5 seconds; 2nd. Holland

220 yard low hurdles—1st. McGinley 28 4-5 seconds; 2nd. Holland.

440 yard dash—1st. James (Shimmie) Brown 58 1-5 seconds; 2d. Jimmie King, 3rd. Greene.

880 yard dash—1st. Robt. King, 2 min. 21 2-5 seconds; 2d. James Brown, 3d. Greene.

One Mile Run—1st. Templin 5 min. 6 sec.; 2nd. Sanchez; 3d Slemons

Two Mile Run—1st Templin 11 min. 45 3-5 sec.; 2d. Sanchez.

Relay Race—1st. Athenian Society: J. Brown, Rohre, R. King, J.

(Continued on page four)

OPENING RECITAL

Miss Virginia Stribling—Pianist. Miss Susan Carson—Reader.

Miss Stribling the pianist had ben heard in public here only once previous to her Recital. She delighted her audience with her rendition of the numbers and they showed keen appreciation.

The ensemble work in the very quaint Gavotte-Intermezzo (for two pianos) by Louis Saar, was very perfectly done.

Liebeswalzer by Moszcowski is full of delightful melody and made a good opening solo number for the program.

Of the modern compositions the Capriccio by Dohnanyi gave evidence of Miss Stribling's fine technical skill and was highly professional in rendition.

More classical part of the program was the Rondo Capricciaso by Mendelssohn, the slow and dignified introduction folowed by the delicacy of the succeeding parts displayed great variety and style.

The Prophet Bird of Schumann was succeeded by the Polonaise in A Flat Major by Chopin. This was the composition of the program, it being one of Chopin's master pieces and requiring such fine technic and interpretative ability.

Miss Carson, a very talented and attractive reader gave two numbers, the first, Sweethearts by Gilbert; the second, Mansions by Flanner. Both numbers met with the approval of the large audience and showed Miss Carson's skill as a reader.

During the past years Miss Carson has made many appearances on College Hill and each time has pleased her audience. But never has her work shown so much artistic finish, poise and grace as marked

(Continued on page four)

GLEE CLUB ON TOUR

Men's Glee Club In Its Annual Concert Tour.

Maryville College has been able to boast one of the best Glee Clubs in the State for the past three years. The Club has been steadily improving each year, and promises to give the best program of its history this season.

Since its beginning it has had the support of Maryville students, many of whom have proclaimed it's program the best of each year's series of entertainments. The Glee Club is the one organization on the Hill which practices eight months in order to give the students a high class program.

This year's season began with a concert in Friendsville on March the fifth. The second concert was given in Louisville on March the sixteenth, and the third in Walland on March twenty-eighth.

The Club begins its fourth annual concert tour on April the sixth at Lenoir City. From this place they will go to Kingston. These are cities which have heard the concerts in past years have all expressed a desire to have them return.

After the tour the Club will give several concerts in nearby cities before appearing in its Home Concert about the first of May.

The director, Miss Gregg, says that the program is better than last year's. Any one who heard last year's concert will consider this sufficient recommendation of the program.

The Club has seventeen singing numbers, a reader, and a cornetist. Under the management of Mr. August Johnson, Student Manager, Prof. E. R. Hunter, Graduate Manager, Misses Alice Johnson and Louise Gollmar, sponsors, and Miss Gregg,

(Continued on page four)

ORATORICAL CONTEST

Intercollegiate Oratorical Contest Friday at 7 P. M.

Edward G. Cornelius to Represent Maryville.

The fourth of the annual oratorical contests of the Tennessee Intercollegiate Forensic League will be held at Maryville Friday the fifth of April. The institutions represented in this contest are: Carson and Newman, Lincoln Memorial University, Maryville, Milligan and Tusculum. The contest promises to be a live one. Our orator for the occasion is to be Edward G. Cornelius. It is an indisputable fact that Mr. Cornelius delivers the goods in forensic affairs. His ability is so well known that there is no need to say more than that he will appear at his best Friday evening with his oration entitled: ''The Discovery of America''. This is the first time Maryville has been the host for this Intercollegiate contest, and she must win. Be out to support our orator.

Miss Heron asked her English class to take a sentence beginning with the letter I.

''Is is,'', began one student.

Miss Heron—''No that is wrong you should say am''.

Student—''I am the ninth letter of the alphabet.''

STUDENT COUNCIL

Recently Instituted Student Council Now in Operation. R. A. N. Wilson, President.

The Student Council held its first meeting Tuesday night and the following officers were elcted:

President, R. A. N. Wilson; Vice President, Sam Franklin; Secretary and Treasurer, Mary Robison. The council is composed of representatives from each class of the entire student body. In order that the Council may know the will of the students and may act upon those interests which are affecting the students at this time—a question box has been placed in Anderson Hall. Put your suggestions in this box.

The following are members of the Council:

Seniors—Ruth Allen, Roy Buffat, Charles Ellis, Herrick Arnold, Alice McAnulty, Mary McSpadden, Catherine Wilson, R. A. N. Wilson, Jr.

Juniors—Thelma Adair, Sam Franklin, Alice Johnson, Malcolm Miles, Verton Queener, Mary Robison.

Sophomores—Myrtle Ardis, Edgar Cathey, Carl Schmidt, Virginia Witherington.

Freshmen—Evelyn Fitts, Edward Hamilton, Christine Rockett, Earl Riskey.

Preparatory—Alice Gilingham, Emily Minton, Harold Newman.

APOLLO QUINTET

Closing Number of Lyceum Furnished by Apollo Quintet.

The last number of the Lyceum Course for this year on last Friday evening, March the thirtieth.

The program was miscellaneous and showed unusual talent on the part of the performers. Especially do the Mr. and Mrs. Wells deserve mentioning. His performance on the basson, saxaophone, the Apollophone, as a Reader, and most especially on the banjo showed his unusual skill on these various instruments.

Mrs. Wells showed great efficiency at the piano as accompanist, also as a Reader. Her musical Readings were light but interesting.

The Cornetist seemed to charm the audience with his clear and artistic solo work. He was especially proficient on that instrument.

Also the Saxophone quartet was out of the ordinary. The quartet from Rigoletto, Our Directors March, Stars and Stripes Forever, and Laughing Gas will not soon be forgotten as they were rendered by the performers.

The Selections played on the Apollophone were of most interest and importance including such numbers as The Anvil Chorus from Il Trovatore, Morning, Noon and Night, and Sweet and Low and a few popular numbers.

EASTER SERVICE

Y. M. and Y. W. Hold Joint Sunrise Service.

''Jesus Christ is risen today, Alleleuia!''

In sharp contrast to the bitter grief and disappointment that flooded anew the hearts of His followers as they awakened on that first Easter day, we on the Hill were roused to consciousness last Sunday morning by the Y. W. chorus singing the glorious message of our Lord's triumph over death.

The joint sunrise service held by the Y. M. and Y. W., although brief and simple, enabled those who attended it to begin the day in proper spirit of thankful worship. After the opening hymn, many took part in the circle of prayer. The Scripture lesson, read by Mary Bigelow, was the resurrection story from John's gospel. The mixed quartet, composed of Agnes Houghton, Charlotte Allen, Robert King, and Raymond Anderson, then sang the Easter message, in the words ''Up from the grave he arose; With a mighty triumph o'er His foes''.

Readings by Hazel Bevan and Mary McSpadden wer also in keeping with the day. Miss McSpadden read ''The Neighbor'', an imaginative description of the raising of Dorcas by Peter. Two short poems,

(Continued on page four)

LITERARY SOCIETIES

Girl's Societies Have Varied Program.

Theta Epsilon

It has been said that variety is the spice of life and Theta believes in the old maxim. In the place of the regular formal program being given a rainbow reception was given.

The decorations were of every color of the rainbow and the afternoon frocks of the girls blended beautifully with the decorations, giving the air of a mid-summer festivity.

Miss Sossomon entertained the girls by interpreting with her mystical powers messages written on small pieces of paper, but she soon came to a blank piece of paper and her mystical powers ceased.

Mary Hamilton hypmotized the audience by reading ''Billy Brad and the Big Lie''.

Games were played and a joke contest held and the guests, Mrs. Keen, Mrs. Kiskadden, Mrs. T. N. Brown and Miss Louise McKelvey served as judges.

Then came the climax of the evening. Refreshments were served, Strawberry Ice, dainty wafers, and punch spiked with good old Gordon Gin.

Everybody out for Thet next Saturday nite.

R. B. Houston - Business Manager

Patronize Those Who Advertise. They Make The Paper Possible.

The Echo solicits news items, comments, and expressions of opinion from the students, and from interested alumni.

John Brown says he wishes for the love of Mike people would use a little more discrimination in their selection of places on the campus for the parking of waste paper and other refuse.

* * * *

The Size of The Echo

The Edior of the Echo regrets very much that occasionally half size issues of the Echo must be published. No special person is to be blamed for it. It is due to the fact that the College paper is getting relatively too small a share of the student activity fee. It is imperative that before next year some action be taken that will assure the college paper sufficient funds for regular publication.

* * * *

TOWN VERSUS GOWN

''Town vs. Gown'' is an expression used to devote the state of affair in most college towns when there is a feeling of hatred between the people of the town and the college sutdents. We have always been proud of the fact that no such feeling exists here. Without a doubt town people give the student body their heartiest cooperaion.

But during this school year a great number of students seem to be unappreciative of the help we receive from our friends in town. Utterly refusing even to look at material shown in Maryville stores, a number of young ladies have purchased their spring clothing in Knoxville. The goods bought there were exactly the same in quality and price as those on sale in Maryville.

Students, let us be just a little more thoughtful to extend the courtesy of examining and pricing macrial in Maryville before going elsewhere. Maryville merchants do not ask for trade when we can get better prices and quality but they do ask that we give them a call before purchasing.

Our college paper is made possible by the help of Maryville merchants through advertising. Without their help our paper would have to be published semi-monthly instead of weekly.

Help those who help you—and may there never be a feeling of hatred between the town and the gown or in other words may the students and the people of the town always be friends.

Business Department.

IN PSCHOLOGY CLASS

Dean Barnes: Are there any questions:

Catherine Wilson: Yes. How long 'till the bell rings?

Senior Sketches

JONNY ALLICE TROTTER

Maryville has furnished some fine old Seniors this year and among them we find Jonny Trotter. We can't say that Maryville has first claim on her for she was born in Sevierville some time during the 20th Century. She says her hair is red and that her eyes are green but we wonder just what kind of a mirror she uses at home. Can you imagine a woman weighing 200 pounds and wearing a 2 1-2AAA shoe. She has been here eight years and she must surely have seen many changes in that time. Early in the year she liked little men, blondes, curls and rosy cheeks. She even wanted an elveator put to 4th floor Science, but now we all think she'd rather have a ''Wyn Press''.

WINONA WADE JOHNSTON

Winona Wade Johnston has spent only three years in Maryville College. She's the kind that takes one summer course and gets through college in 3 years. She was born in North Carolina, but her home is in Florida. She graduated from Meridian High School, Meridian, Miss. She has held prominent positions in the Y. W. C. A., and Bainonian Literary Society. She has a burning ambition to see elevators put in all the campus buildings. From this one might be misled in their judgment of her, but to know her, you would find out that she has more energy than the average student on the Hill.

LENNA COWDEN BOWERS

Lenna Bowers comes to us from Sevierville, Tennessee, and has spent 3 years in Maryville. When we say Lenna we always think of another member of the class too, and since brunettes are her favorite type, you might not have a hard time guessing who it is. Lenna wants more than anything else to see a larger parlor in Pearsons hall. She knows what they need. She is a member of the Bainonian Literary Society. Next year she thinks she will teach English and Home Economics, but some day she's going to Columbia University.

FLORENCE EMILE KLEINHENN

Florence Emile Kleinhenn is a member of the Theta Epsilon Literary Society. Her home is in Morrou, Ohio. She was a student in Wilmington College, Wilmington, Ohio, for several years, where she finished her High School work, and two years of college work. She has been in Maryville only 2 years, but within that time she has become an important member of our class, and we're proud of her. Her present ambition is to teach on the Foreign Fields. She has had experience in Teaching.

RACHEL MAYME WILLIAMS

This young lady is a native Maryvillian. She does not hesitate to say that she has lived here since 1900. She likes the Lyceum Courses and the Midwinters of Maryville but she will be, blankty-blank, if she can say the same thing about a certain menu not well thought of.

She graduated from the Prep. Department here and liked the Hill so well she put up for another four years. After teaching for a while Rachel will don the white cap and apron, and assume the role of a nurse. Assume it nothing, it will be a reality for her.

Outside of being a member of the Theta society she is fond of riding and Theism, especially not the latter.

Friends, meet Miss Williams.

CLARENCE RAYMOND ANDERSON

Clarence Raymond Anderson or rather ''Big Andy'' is another familiar landmark on the Hill. Andy is 6 feet 2 inches tall and weighs 190 pounds. His pedal extremities requires a size 11 shoe, so we believe that he deserves the title we have fondly given him of ''Big Andy''. Andy's pet peeve is ''Beans 21 times a week and the bellyakin of the students.'' Chemistry is his hobby here on the Hill and his ambition is to get through a Dental School. Ten years from now when you have the toothache just see Andy, he will fix you up.

LORENE EDITH SMITH

Did you ever hear of Wood, Oklahoma? Lorene has but she seemed not to just exactly like the place so she sauntered forth to Dawson Springs, Ky.

Despite the fact we do not have Student Government she is greatly impressed with the spirit of friendship which exists between Faculty and students.

She is a Bainonian, her hobby is ''attempting everything'', her chief ambition is to be a Foreign Missionary, and she intends to realize this ambition by living up to her favorite quotation, ''To thine own self be true.''

Why say any more about a girl who attempts everything in College?

RICKETTS DONALD TAYLOR

Donald dislikes the Boarding Club and the Saw Mill. (Wonder if the noise element has anything to do with this dislike?) His pet peeve is a silly girl, and still he favors, ''Silence gives consent.''

Taylor hails from Alabama, Birmingham. For four years he has been in Maryville College and next year his nose is to be turned westward, and Don says he intends to follow his nose. Why worry about distance when one's desire is to see the globe, be it on a train or on the wing,

So here is wishing Taylor that trip and also hoping that he gets that ''Sensible Blonde'' he has in mind or out.

Reader, meet Mr. Taylor.

FRIEND ROOM MATE

Says she can't see why girls have such an abominable sense of curiosity. Every girl pictures herself as the second Sherlock Holmes and goes forth on a campaign for new gossip, and the latest scandal. The amusing point about this awful curiosity is the way in which it makes the girls act—though it isn't always girls what are so curious, its just as often, or oftener, full-grown women in size, dignity, and age. It just must be part of their make up but as Roomie was saying, it is queer the way girls act when they think there's a bit of latest scandal on the market what they ain't yet heard about.

The inquisitive girl catches a rumor or the air of a rumor about some scandal and by some delicate manauvering she will unearth the names of the scandalines then she will snoop up into the room of the best girl friend of the to-be-pitied or commended one and by methods too intricate and unintelligible for masculine minds to comprehend, solves the mystery, but the would-be-detective very seldom fails to get the desired information, and in getting proceeds to whisper the story into the listening ear of a kindred spirit—her best girl friend— or next best friend—and so on until every one has had a chance to detect and divulge.

My room mate says all police forces should be composed of women—or at least the detective department should.

Prof: Orr: If a man should forge a check on me, it would be an example of faith. Faith that I had money in the bank.

H. R.: Huh! that wouldn't be faith that would be foolishness.

SENIORS IN ETHICS

In Class
By Roy S. Buffat
Class of 1923

Two guys,—Dewey, John and Tufts, James
To an Ethics book attached their names.
This text is taught—its contents are—
By Jasper C. Barnes known wide and far.
And notes, rusty with age, but dear to the sage,
Are used by him, the Dean, as stimuli for his bean.
A pedagogue keen is this man we deem
Worthy of our best in attention each day
We hear him expound on ''The Moral Way''.
But August Johnston with mind alert
At times doth openly with Dean's theories flirt;
Always to return to the reasonable way
For, ''It's no use arguing with you'', Sir Jasper will say.
Luck, custom, superstition or fear,
Are subjects which he, to his heart holds dear.
But—,
Let's to the scene of the Class to seat!
Gosh—such a stunt can never be beat.
In chairs of dairy-lunch fame—
Used in College Classes the same—
For in both places who sits doth eat—,
But my, in the latter, what a demonstration
The majority seem on the verge of utter starvation!
But to seating the Seniors, young and old
(Many a seat the Dean could have sold)
In front ''the Choir'' of ten to the right,
But they dare not sing for fear of eggs over ripe.

The class as a whole is a mass of greatness
And to be seated involves elaborate stateness.
Yet, to save time and trouble, each Himself did seat
And to all that was a little treat,
For each himself did place by number
And the noise went forth like a peal of thunder.
''Moral conduct may not be based on moral judgment'',
Says Dean
But Mary ''Mac'' insists, and so does Claribel
That a seat on the radiator serves just as well.

Yep—but see the shell-rimmed, goggle-eyed, non-skid specs
Worn by many of Our Number. by heck.
To see from the choir the positions of all
Long ones, the large ones and small—,
Why some sit straight and ramrod like
Forsoothe, this Class is a motely sight.
Crawford, Jackson, Garner and Cox
Remind me, at times, of those out of place in a theatre box.

While there's ''Buck'' and Poe and Geraldine, and Farrar
Who fill their seats with an uncommon care (?)
But Ethel, on the front row, is well concealed
Her head to those in the rear is surely not revealed.
What cares she of position or poise,
This blooming Class makes too much noise,
And that to her is music sweet,
For then she can't hear ''Andy'' shuffle his feet.
As others pass strings, notes or strands of hair
Taking advantage of the noise made by breaking of a chair.
Others of us are just as bad, some look happy, some sad.
A few enter angry and Ethics deplore,
Others are sleepy and can hardly see the door.
But all are alert when the bell doth ring,
''And It's so long Ethics'', Tubby doth sing!
On Tuesdays, Wednesdays and Fridays at eight-thirty sharp
The Dean doth rise, and on his desk lean, the class to start.
And It's many a mind that's alert and keen
To do its best to side track the Dean, who
Is a wise Old Proff of pedagogue fame
And makes one feel an intellectual shame.
And we feel cheap and want to crawl in a shell
When the smoke from these words we smell:
''May I suggest, and not demand,
That the mind, each of you command,
Be really used for honest work—
And not at how your duty to shirk?''

Oh shucks, why reveal our faults and foolish ways
When we have so many ''salts'' which preserve our days?
Of study, work and camoflague too—
My, but we reveal many traits of the human zoo—
Still, there are poets, singers, cooks, musicians of heir
Artists, loafers, nurses, and girls with false hair—
Chemists, doctors, and lawyers to be
Engineers, printers, engaged ones and free.

We are stylish and all o' that:
Why in winter we wear spring hats,
When it is cloudy and cold, and the campus is covered with muddy holes,
We wear our silk of colors bold and satin slippers and silken hose.
Then in summer, when it's warm and comfy and all o' that
We wear our furs, and overcoats, and silly spats.
Then, next thing we know, we don our robes of mourning
And motor-board hats.
And with speed not slow but with spirits a soaring
We grab our ''sheepskins''—Then taps!

So here's to the Seniors of Highland fame.
God grant that we will not remain the same,
But that from Ehics our thoughts may soar
To heights we have dreamed of years before
These halls of learning our eyes did see
Or e'er we heard of the cedar tree.
And here's to our Dean, an Honorable man.
Our respect and our esteem he doth demand.
Not in words of accent bold, in righteousness nor pride
But by his life to us sold, and this we never deride.

RESOLUTIONS

Maryville College,
Maryville, Tennessee.
March 29, 1923.

Be it known,

That we, the Class of 1922, scattered over the face of our land, yet bound together by the strong tie God has given us through Christ Jesus our Lord, adopt the following resolutions:—

Be it resolved that we mourn the loss of our deceased brother and class mate Reed Rowan who has thus strickened so suddenly and has gone to God and Eternal Life;

Be it further resolved that we express to the members of his bereaved family our sincere sympathy recommending God as the Comforter who in His Infinite Mercy and Compassion will wipe all sorrow away;

Be it resolved further, that a copy of these resolutions be read in Chapel, a copy be printed in the Highland Echo, a copy be sent to the bereaved family and to each member of the Class of 1922.

Signed,
Committee of Class of 1922.

Alumni Notes

Miss Christine Alexander, '13, has recently been chosen to serve as Assistant Curator of the Metropoiltan Museum of Art, New York City, in the department of Classical Antiquities. This is a valued appointment and is an indication of the high estimation in which the appointee is held.

News has reached us of the marriage of Addison S. Moore, '14 to Miss Grace Beatrice Campbell on February 1 at Albuquerque, New Mexico. Mr. Moore has been Physical Director and Coach of Athletics at the Albuquerque High School for the past three years. Alumni unite in wishing for Professor and Mrs. Add Moore, much happiness.

The entire body of alumni unite with the Class of 1922 in their grief at the loss of their classmate Reed Rowan. Mr. Rowan was one of the finest members of a fine class. As a varsity baseball man for three years, as a member of the College Glee Club, as a valued member of the Ministerial Association, as a thorough and conscientious student, and as a cordial yet modest friend of everybody, Reed Rowan's passing is most sincerely mourned. Dr. Stevenson, speaking for us all, expressed our united thought when he said that although the taking off of one so full of the best promises of life is a mystery beyond our solving, yet our consolation is sure in the fact that Reed's whole attitude of life and his whole purpose for the future made him ready for his great change.

THE FRESHMAN'S LAMENT

''It's fun to be a Freshman'',
Everyone would say.
''No work at all,
No signs of toil,
Will ever come your way.''

Now I am a Freshman!
For myself I see
No workless days;
Few hours of play
Ever come to me,

There high up above me,
Gloried in their plane,
The Senior sits,
My teeth I grits
And vow that height I'll gain.

The upper classmen, whom I thought
Would always envy me,
Gaily flaunts
Their granted wants
Just for me to see.

And so I am a Freshman,
A dumbly driven beast,
Always caught
When I thought
I'd cut and have a feast.

But struggle on, my Freshies!
We'll get there, you bet.
The Seniors' plane
We'll some day gain
And win the honors yet.
—Cumberland Kick-Off

Sneed—Class started before I got here.

Prof.—Why are you late?

''I have only one objection to the long skirt.''

''What?''

''The length of it''.—Exchange

PREAMBLES AND RESOLUTIONS

By Roy S. Buffat

The nature of man is interesting. His actions amuse and abuse, encourage and disgust, and he is excused because it is his nature.

Man is constantly resolving. His resolutions are weighty and are of great importance, so he thinks. They take first one form and then another, but most of them meet a similar fate. Waste baskets are valuable articles.

A situation arises. The public wants definite action. Relief is needed by the hungry, sick and cold. Rotten politics must go. The Church must do its duty. There must be no more war, we must 'stand by' and have peace.

''Something must be done; has got to be done'', loudly and boldly proclaim many. Delegates gather, and after much wrangling and bombasticism there is placed on paper in preambles and resolutions the fruits of their labors and with a feeling of duty done and a task well handled. Man folds his hands in contentment, leans back in ease and says, ''Your move''. The burden of action is on the other fellow, and I am free, is his attitude.

''Whereas—Therefore be it resolved'' and the task is done. Great thinks have been accomplished, NOT this way.

The spirit of our Leaders of '76 is needed by the men and women of today. Preambles and resolutions did not win America her liberty and freedom. It was the will of the people. They meant business and did not stop with, ''Whereas, Therefore be it resolved.''

The time has passed for man to think he can boldly and honestly express his convictions today and forget them tomorrow.

Plenipotentiaries of the foremost Nations gathered at Versailles a short time ago and on paper and in secret sessions sought to heal the deep, bleeding, wounds of a stricken, weakened world. A 'Whereas. . .Therefore be it Resolved' resulted. In an ecstacy of self-flattering pride the representatives returned confident all had been settled. But, the Earth's wounds still ran with gore and the hearts of Mankind longed for peace as before.

The Conference at Hague went down in the maelstrom of preambles and resolutions. The disarmament Conference at Washington followed suit, and today newspapers have no front page space to spare Conferences of any sort.

''Whereas. . .Therefore be it resolved'' will get Man nowhere. If his preambles and resolutions are his convictions his will and manhood must uphold them.

War, strife, rotten politics, economic disasters, and social unrest, and all other problems of our reconstruction days will never be solved by, ''Whereas. .Therefore be it resolved.''

The need of the hour is for College men and women to supply. This is no time for trivial, willy-nilly, individuals or things. A united people with a will to do, with a resoluteness of purpose, and with courage of conviction can do no other than bring to pass that which we all long for: ''Peace on earth, good will toward men.''

Miss Gamble—When was the revival of learning?

Donald Taylor—(from the wisdom of experience)—Just before exams.

IN LECTURE

Prof.—Wake up that fellow next to you.

Student—Do it yourself. You put him to sleep.

Coup—What is the difference between a fish and a fool?

Guy—I don't know. I'll bite. What is the difference?

Coup—Well if you'll bite there isn't any difference.

Mintier—Mary, why do you continue asking me if I was wounded in the war?

Mary—Because you seem to have lost the use of both your arms.

TRACK MEET

(Continued from page one)

King, 3 min. 42 2-5 sec. 2nd. Alpha Sigma Society: Schmidt, Thrower, Templin, McGinley.

Pole Vault—1st. A. Milling, 8 ft. 6 in.; 2nd. L. E. Milling; 3rd. Holland.

Shot Put—1st. Thrower 36.6 feet; 2nd. Robinette; 3rd. Hamilton.

High Jump—1st. McGinley 4 feet 1 in.; 2nd. Rohre; 3rd. Acton.

Discus Throw—1st. Robinette 86.4 feet; 2nd. Edsall; 3rd. C. R. Anderson.

Broad Jump—1st. Rohre 18.3 feet 2nd. R. King; 3rd. Acton.

Javelin Throw—1st. Hamilton 132.6 feet; 2nd. McClung; 3rd. Rohre

The results of the meet are not of the best but yet there is time for improvement before an intercollegiate track meet. The records set were so because of lack of practice and the slow track which has been in use only a few days and other improvements were lacking to make the best of what our track team really possess. They will yet show U. T. there is something to fear when they meet Maryville, so we may expect a good team in the near future.

OPENING RECITAL

(Continued from page one)

her recital on Monday evening.

The Expression Department will miss her work but they are sending forth a delightful but competent reader.

This Recital was an attractive opening program for the series of Graduate programs that are to be given by the Music and Expression Departments of the College.

MEN'S GLEE CLUB IN ITS ANNUAL CONCERT TOUR

(Continued from page one)

director the Club is certain of a successful season, in its trips and at home.

The program this year has a great variety of novel numbers which are sure to be applauded. It is a program which our college may be proud to claim as having been arranged by its own members. They ask the students to boost them as they do our Athletic teams, and promise in return to give them a program which they will remember for years.

Those preachers who advocate rewriting the Bible should let the old book alone and try writing a better one.

EASTER SERVICE

(Continued from page one)

"The Ballad of the Trees and The Master" and "He is Risen" were given by Miss Bevan.

The cold weaher made it impossible to hold the service outdoors, as the custom has been. But why restrict ourselves to just one outdoor sunrise service during the year? Spring is coming eventually, and no better time or place could be selected to worship our God than in the early morning, surrounded by all the freshness and beauty of our wonderful outdoors.

BAINONIAN

(Continued from page one)

As Mr. Wells says, and as our literary critic says, a program to be good must be educational, inspirational and entertaining. The last program certainly came up to this standard, for some of us learned more about Tennessee around Maryville than we ever knew before. Five good Bainonians opened the program singing the Tennessee State Song. Jo Neal amused and interested us giving general information about Tennessee and praising Arkansas. Winona Johnson added her inspirational touch, reading "Little Giffin of Tennessee". Ruth Newton furnished music and entertainment, singing "Sunny Tennessee". Reva Rankin educated us further with a short review of the History of Tennessee. The reading of "The Hermit that Walks Chilhowee" by Mary McSpadden, added life, natural and almost supernatural, to the program. Indeed last Saturday's meeting left us admiring and understanding Tennessee more, though some of us with Josephine may still prefer Arkansas to Tennessee.

JUNIOR ATHENIANS HAVE MOCK TRIAL

Saturday night, March 31, 1923, The Junior Athtnians met in their hall. The only number on their program was a mock trial. Richard Proctor was tried for bigamy, he was represented by Joe R. Brooks a. prominent plaintiff attorney, while Walter D. Buchanan and Thomas Kent represented the State.

The witnesses for plaintiff were J. W. Ladd and Walter W. Buchanan, and for the State the witnesses were John Brown and Paul Matlock. An attorney's unusual argument echoed the hall between Brooks and the other two attorneys, while Judge Murphy used his hammer in quieting the attorneys in a dignified manner. During this Procession the entire audience was held spell-bound, they were moveless and noiseless.

The Jury consisted of Mr. Welbon, Mr. Curtis, Mr. Edgar Buchanan and Mr. Hinch. The attorneys showed much legal ability in delivering speeches to the jury. The Jury had a hard decision and at last they returned, having found the Plaintiff not guilty of bigamy.

RESOLUTIONS

Whereas, The Allwise and loving Father in his tender mercy and loving kindness has deemed it best to call unto Himself the father of our classmate and friend, Henry Cox. Be it resolved that the members of the Senior Class of Maryville College extend heartfelt sympathy to its bereaved classmate in his sorrow and commend him to the Father who will wipe all sorrow away,

And be it further resolved that a copy of these resolutions be read in chapel, a copy be printed in the Highland Echo, and a copy be sent to the family of the deceased.

Louise Sheddan,
Leslie Poe,
Charles J. Ellis,
Committee.

Bubbles—The awfullest costume I ever had to wear was a green velvet knight costume.

Peanuts—Eh, what—pajamas?

Y. W. C. A., 1923-24

By Ethel Sharp

(Apologies to Edgar A. Guest)

Oh, may we know, when the year is done,
That Y. W. has filled a needed post;
That here and there her girls have paid their fare
With more than idle talk and boast.
That they have taken gifts divine
The breath of life, and girlhood fine
And tried to use them now and then
In service for their fellow-men.

How pleasant 'twill be when the year is gone there shall remain
A happier spot that might not have existed.
Had not Y. W. spirit been maintained;
That some one's cheery voice and smile
Shall prove that Y. W. has been worth while,
That her girls have paid with something fine
Their debt to God for life divine.

CARD OF THANKS

We wish to express our appreciation for the kindness and sympathy of the Maryville people during the brief illness and death of our beloved son and brother—Reed. Also we want to tank you for the many beautiful flowers. It was only through such kindness as yours that we have been able to bear our great burden of sorrow.

Mr. and Mrs. J. C. Rowan
and Family.

SMALL REUNION OF CLASS OF 1922

To the Highland Echo, Maryville College, Maryville, Tennessee:

A small reunion of members of the Class of '22 took place at Vanderbilt University, Nashville, Tennessee, on the afternoon of Easter Sunday. Of what used to be fifty-seven four were present: Lee Roy Henrdon, now teaching in Lewisburg High School, Stella Henderson Graduate School of Peabody College, Forrest Brown, Southern College of the Y. M. C., and Fount Robinson, School of Medicine, Vanderbilt University.

All together a most happy afternoon was spent, as we strolled over the beautiful Vanderbilt Campus, recalling many pleasant experiences and precious memories of our college days so quickly spent at dear old Maryville. We appreciate our Alma Mater as never before now that we are no longer under her protecting care; this no doubt is an experience common to all who have once come under the almost tangible Spirit of the great institution and then gone out into the world.

The sad news of the untimely death of our friend and classmate, Reed Rowan, came as a severe shock to us. We cannot realize that one of our number is gone. Our loss, however sad and lamented it is, comes as a challenge to each one of us, who is left, to exert renewed effort in behalf of our fallen comrade that the ranks of Truth and Righteousness, with which he chose to enlist his power, may not be weakened by the gap caused by his falling thus early in the battle.

April 1, 1923.

Fount B. Robinson,
33 Ratledge Street,
Nashville, Tennessee.

N. Haworth—I shall marry a girl my exact antithesis.

B. Carr—You have plenty of chances. There are lots of intelligent girls about.

Miss Wheelock (in class)—Order! Order!

Lucille Fondren (just awakening)—Glass of milk and a piece of pie, please.

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME EIGHT | MARYVILLE, TENNESSEE APRIL 13, 1923 | NUMBER TWENTY--TWO

WE BEAT OGLETHORPE 11 TO 5
NOW LET'S BEAT TENNESSEE

OGLETHORPE GAME IS WON; BUT MILLIGAN GAME IS LOST

THE OGLETHORPE AND MILLIGAN GAMES SHOW THAT MARYVILLE BASEBALL TEAM HAS PROSPECTS FOR GOOD SEASON.

Maryville batters hammered two Oglethorpe pitchers for thirteen hits and eleven runs in Monday's game with the Georgians. Both Maryville and Oglethorpe bunched their hits when hits meant runs. Oglethorpe made their six hits count for five runs, three of which were earned, and two as a result of some of Maryville's errors. The Highlanders presented an excellent exhibition of attack, by both their slugging and base running, but their game in the field was absolutely rotten, no less than eight errors being chalked up against them. However fortunte was with them, or maybe Jack Mathews, because their errors didn't do much damage, Jack almost always pulling out of the hole that the lax playing of his team mates put him in.

Speedy Ruble started a batting streak that seems likely to put him at the top of the list, getting four hits, and one free tickee out of five times up. Shorty Sneed and Bax Williams each got a beautiful triple, each coming with the bases loaded to capacity.

Summary: Three base hits:—Sneed, Williams, Parrish; two base hits: Morrow, Kemp, Peace; Stolen bases: Ruble 2; Struck out: by Peace 1, by Kemp 6, by Matthews 7; Bases on balls: off Peace 1, off Kemp 4; Hit by pitcher: Ruble by Kemp, Riskey by Peace; Hits off Peace 7, and 9 runs in 4 innings, off Kemp 6 and 2 runs in 4 innings; Umpires: Ford and Henderson.

The Highlanders dropped their first game to Milligan by the score of three to one. All the runs were earned, the Milliganites making their six hits count for three runs. And Maryville scoring on Williams' triple and McCarrol's sacrifice. Millsaps clouted the first ball Acton pitched to deep left center for three bags. The next man fanned, and McCarrol made a peach of a peg to the plate on Hartsell's long fly, in time to catch the runner at home. Milligan counted twice in the third frame. McReynolds first man up, singled to right and took second when Watkins let it go through line, Millsaps bunted, and Acton failed to get the runner on third, both men being safe. McReynolds scored on Anderson's sacrifice, and Millsaps scored on Hartsells. Milligan put over their final tally in the sixth. Hartsell first up tripled and scored on Feathers' hit.

The game was by far the most exciting seen in Maryville this season. Both teams played great ball in the field. Mililgan played airtight ball, while Maryville's two errors did not count in the score. Shanks and Hartsell both made excellent catches of would be Texas leaguers. Speed continued his batting streak, getting three of Maryville's five blows.

THE TEAM'S AVERAGES THUS FAR

The Highlander Sluggers have been getting in some good work with the stick in their early games. In the four Collegiate contests the Highlanders have hit safely forty-one times out of a hundred twenty eight chances for an average of .329, while their oponents have faced the Maryville hurlers a hundred thirty-eight times and touched them for nineteen bungles, making an average of .137.

Speedy Ruble and Roy McCall top the list with an average of .714 apiece. Speedy has made ten safe hits out of fourteen trials; Roy injured his ankle last week and has played in only two games, he hit safely five times out of seven. Jean with two hits out of four times up is hitting .500. Partee with six hits

(Continued on page four)

SECOND GRADUATION RECITAL MONDAY

Miss Huffaker—Pianist; Misses Bevan and McSpadden—Readers.

The Second Recital of the year will take place in Voorhees Chapel Monday night, April 16th.

The pianist for the evening Miss Sallee Huffaker needs no introduction for she has already appeared a number of times this season. Her program consists of the following numbers:

Minuet a l'Antico (for two pianos) by Seebaeck, Misses Huffaker and Enloe

Sarahaude) from Holberg's Suite
Rigandon) by Grieg

Czardas by MacDowell

Prelude Op. 28. No. 21)
Prelude Op. 28, No. 15) Chopin
Prelude Op. 45.)

Liebestraume No. 3 by Liszt

Miss Hazel Bevan one of the readers for the evening is also well known to the student body. Especially is she remembered by the remarkable way she portrayed the role of Lady Creech in the Athenian Midwinter "The Man From Home". She will read:

England to America by Margaret Montague

Echo and The Ferry by Jean Ingelow

Miss Mary McSpadden one of our most talented seniors who forms a third member of the prefomers for the evening has always delighted her audience by her artistic style of reading. Her numbers are:

The Minuet by Louis Parker

Jeanne d'Arc by Percy Maccay

MUSIC DEPT. GIVES CHAPEL PROGRAM

The unusual program which was presented by several pupils of the Music Department in chapel on last Saturday morning was indeed a rare treat.

It consisted of such interesting numbers as the following.

Piano Solo—Dance of the Gnomes by Liszt - - Nannette Walker

Two Harp Solos—Hanging Gardens by Evan Davies and a Lullaby by Pinto - Virginia Sting, accompanied by Miss Hale.

Cornet Solo—Thoughts of Yesterday by Clay Smith - Harry Bannister, accompanied by Miss Sullinger.

A Piano Duo(for eight hands)—Valse Brilliante by Gurlitt - - Kathlen Enloe, Sallee Huffaker, Lilah Hembree and Margaret Weeks.

The students and faculty both appreciated and enjoyed this program. Why can't we have such programs oftener?

It is unfortunate that the rain of to-day prevented the Maryville-Tennessee game as scheduled for this afternoon. Tenenssee must have been wondering after the Oglethorpe game.

We're backing the team when the game comes off.

MANY GAY PARTIES DRIVE COLLEGE CARES AWAY

THE INMATES OF THE HAM HOUSE, THE SENIOR CLASS, THE MOONSHINERS OF BALDWIN HALL, AND OTHERS ENTERTAIN WITH PARTIES.

Ham House Cellar Scores A Big Hit.

This is not a bootleg ad nor an open invitation to any and all who should wish to visit the dark yet shining depths of this cavity of Old Mother Earth. Goods friends are always welcome at the Ham House, but on Monday night special friends were especially honored. After all guests had arrived, the ladies having adjusted the roses "on" their cheeks to the right position, angle and splendor, the first splurge was made as the company, led by Dr. and Mrs. Minton, was directed to the cellar to the tune of "The Alcoholic Blues". The only audible sounds were the tinkling of glass and the smacking of lips. Floating among the ethereal spirits all were able to ascend to the Ballroom where to the strains of "Hold Me" the excitement started. Miss Claire McMurray carried off all prizes as she was unanimously declared the most graceful chewing gum chewer— successfully manipulating her gum and taking on the heavy refreshments at one and the same time. At the late hour of 9:30, while the Phono pealed "Nobody Lied", the guests expressed themselves to the Chaperons and departed for elsewhere. The commanding figures of the evening being Professors Minton, Minton and Sheffey. The other prominences being: Misses Marjorie Lloyd, Mario Griffitts, Mary Tippit, Sue Veazey, Claire McMurray and Irene Sharpe; and Messrs. W. L. Hyden, Bill Arnold, Dwight Arnold, Eugene Stanberry and C. L. Edgemon.

Flynn Humphreys Honored

Baldwin Hall was the scene of an elaborate birthday party Monday afternoon in honor of Mr. Flynn Humphreys. The parlor was beautifully decorated with ferns and spring flowers. Miss Frieda Myluis acted as hostess. She was attired in a charming scarlet afternoon dress which was especially adapted to her type of beauty. Misses Anna Ruth Whitfield and Maud Calloway assisted. Miss Whitfield was dressed in a beautiful pale yellow gown made with extremely long lines, an exquisite jet girdle gave the costume a rich finish. Miss Calloway was charming in pale blue satin, with chiffon sleeves and draperies.

During the afternoon games and music were enjoyed. Late in the afternoon delightful refreshments consisting of sandwiches and coffee were served from a tea wagon, concealed during the early part of the reception by a trap door in the floor.

The guests were from the most distinguished members of the college set of Maryville. Among them were:

Miss Florence Whitfield, with Mr. John Stockton, Miss Helen Browning with Mr. Decatur F. Waddell, and Miss Tommie Rose Lewis with Mr. H. C. Clabough.

Senior Party

"Come ye Seniors in bright array
For Spring has come, and we must play
Out in the Woods where the flowers grow—
There'll be violets, and daisies, and pansies I know.
So dress in your brightest like the flowers of Spring
And with gay music, we'll make the house ring."

And on Wednesday night, April 11, the Seniors did go, and had a jolly good time as usual. After the storm and blowing in of the couples had ceased the rainbow was formed Yet the bag of gold was by no means discovered. As the class passed in review before the most honorable judges, it was discovered that Catherine Wilson was most successfully disguised as a dainty Sweetpea, and Alice McAnulty as the "Little Pink Rose"!

During the evening great poetic talent was displayed in Springtime rhymes and verses. Each Senior come away with a string of new and flattering adjectives tacked on to his name. After a number of games dainty refreshments were served, which consisted of sandwiches, tomato salad, ice cream, cake and coffee.

Co-Eds Give Dinner

Misses Hamilton and Boyer were joint hostesses at a six o'clock dinner given on Wednesday evening, April 11, in the Home Economics rooms. Covers were laid for ten guests. The table decorations were carried out in orange and white. The center piece was white fruit blossoms. The guests were: Mrs. McMurray, Misses Weeks, Cline, Johnson, Gardner, Sossomon, Biles and Atkins.

ORATORICAL CONTEST

Carson Newman First Place; Maryville Second.

The Oratorical Contest staged here last Friday was one of unusual interest. Mr. A. S. Hall of Carson-Newman took first place. His subject was, "The Southern Mountaineer". Mr. Edward Cornelius of Maryville a close second had as his subject, "The Discovery of America". The other speakers were as follows:

O. J. Sowell, Milligan, "American Ideals"

W. A. Sowers, L. M. U., "The Age of Progress"

W. H. Simpson, Tusculum, "Hail to the Conquered."

According to last reports, Miss Myrtle Ardis is resting well and receiving her visitors with her accustomed grin.

Patronize Those Who Advertise. They Make The Paper Possible.

The Echo solicits news items, comments, and expressions of opinion from the students, and from interested alumni.

Maryville beat Oglethorpe. Oglethorpe beat U. T. We play U. T. today. Eh what?

* * * *

Bates Prize Oration manuscripts are due Wednesday. Fellows of the Junior and Senior classes let's make this the best Bates' contest.

* * * *

Suggested work for the Student Council: keep hard bolled eggs and sweet potatoes from being thrown in the dining room and on the campus.

* * * *

The Student Council asks that students drop suggestions in the Echo box. We have been asking for material to be dropped in the Echo box for a year now. Hope the Council gets a hearty response.

* * * *

The first work undertaken by the Student Council is the thing that is most needed on the Hill. If it succeeds in this act it bids fair to do a good work on the Hill, and make itself a useful factor in college life.

* * * *

The Y has been furnishing two rtels of movies each week for some time. Next week they are to be shown in the chapel. Let's show our appreciation by proper attendance and deportment. Better movies are promised.

* * * *

WHY NOT?

Why not what?

Simply This:

A paper, college weekly, with six to eight pages and with editorials, and articles which ''Echo'' something besides social activities.

—Nothing against the management, but everything against the student body and other elements curtailing our College publication.

—There can be a lively paper and will be if more interest is manifested by students and faculty alike.

—Student thought in the ''Echo'' is as scarce as the money for its publication.

—Come out of your shell, fellow-students, and show that you want an ''all-round Echo'' published.

ENGLISH PRIZE CONTEST

The English Prize will be offered as usual this year. The contest is open to any student of the college department. The subject and the kind of discourse are opional, the only requirement being that three type-written copies of the manuscript be submitted. The prize, offered by the English faculty, will consist of fifteen dollars' worth of standard books. The judges will be selected from outside the department conducting the contest. All manuscrips must be submitted before or on Tuesday, May the eighth.

SENIOR SKETCHES

ROY S. BUFFAT

Roy S. Buffat is a well known member of the class because of the string of offices that he has held. What is it that he hasn't been called on to give advice for? Aside from class problems he has helped to solve problems for the Athenian Literary Society, the Chilhowean, the Y. M. C. A, the Echo and he even knows about moonshining, so we wonder where this young gentleman comes from. His home is in Knoxville, Tennessee. Roy's hobby in college is Class Discussions. He has been in Maryville four years so it may be that some of the members of the class can tell you more about that. His plans for the following year are to be worked out in Seminary, and we are all sure hat he will make the most of his opportunities.

RUTH ELIZABETH NEWTON

Ruth Elizabeth Newton, a native of Harriman, Tenn. is about to end her sixh year in Maryville. Ruth is an all round good sport. Everybody likes her because she can do anything there is to do. She is a member of Bainonian Literary Society where she has spent many of her Saturday nights entertaining her audience with song. She's not like the Ruth the Glee Club sings about for we believe her to be a really truthful Ruth. Ruth dislikes the food at Maryville more than anything else, but still she wants to see a reception hall on first floor Pearsons. Her favorite sport is foot ball, and she didn't say but we can guess that her favorite type of boy is a tall brunette.

ANNARINE ATKINS

Annarine Atkins, claims Maryville for her home and Maryville for her College. The Class is proud of Annarine because of her Dramatic ability. When we see her we always think of the ''Doll's House'', because it was Annarine who gave Bainonian Literary Society the name it got from this Midwinter. She has taught Expression two years in Polytechnic High School, but she does not know yet where next year will find her. She is not only good in Expression but she likes Hiking, and believes in a good time. Maryville has had four years of service from Annarine and will be sorry indeed to see her go.

GERALDINE MICKLE O'DELL

Geraldine Mickle O'Dell was born in Bessemer, Ala., November 16, we won't say when. She has been in Maryville four years and for four years has been a faithful member of the Bainonian Literary Society. When a Sophomore she was intrusttd with the office of Treasurer of the Class, and has just given up the office of vice president of the Junior Y. W. C. A. There was some attraction in Knoxville for Geraldine last summer for she spent the whole Summer there doing stenographic work. Geraldine has always had a special liking for red Heads and some how they have always liked her. She prefers red heads, so long as there is no member of the Royal Family around.

MARY ELIZABETH BASSEL

Kind reader, may we not introduce to you a young lady who says, ''I may, I can, I will''?

She was born in Clarksburg, West Virginia, near 1901 but she now lives in Maryville. She comes to us from Professor Ellis' department and knows a good deal about the things on College Hill so what she dislikes most is ''Both Kinds of Moonshining(?)''. Probably she has the Chemistry Department in mind.

Elizabeth is a graduate in music, enjoys playing but prefers teaching.

Oh yes, we forgot to give her name which is Mary Elizabeth Bassel who delights in Drawing, Tennis and Theism, especially the latter when Dr. Gililngham could not meet his class.

PORTER HAMILTON TURNER

Here's a good man, Porter Hamilton Turner is his name and, as he says, he first saw light in Owensboro, Kentucky, but that he would receive all mail and callers at Auburn, Ky at present.

Porter, a blue eyed, brown haired, 5 feet 10 inches man prefers football as a physical sport and teasing the co-eds as a side issue.

He is another Senior who is plainly in favor of doing away with the ''College sawmill''—remove it away from campus buildings at lesat, and he would like to see more tennis courts.

If you do not know Porter, look m up, he's O. K.

MARY VIRGINIA RIDGWAY

(Miss) Mary Virginia Ridgway is a native born of Birmingham, Alabama, but for some time Savannah, Ga. has been her parking place.

With raven hair and inky eyes and with pedes carrying 3AAA coverings, and just a little underweight, as she affirms, she delights in being a Senior, and longs for the day when Miss will not be for her motto is ''Early to bed and early——'' you know the rest.

Mary is anxious for her sheepskin so as a vacaion will be welcomed.

Nuff said about our attractive Mary who has worked in Y. W. and in several college clubs and who now rattles a Spanish tongue.

Mrs. G. J. Lane, sister of Miss Sarah Sheffield is visiting her this week.

Alumni Notes

The Class Bulletin of the Class of 1916, The Gold and White, made its appearance several weeks ago. It is a very creditable sheet of notes in regard to all of the members of that famous class. The editor of the bulletin is Professor Rolfe M. Rankin, of the Rolla School of Mines of the University of Missouri, Rolla, Misouri. Among the items of interest which it contains and which have not been noted in this column are the following:

Wm. A. Powell, '16, is pastor of the Presbyterian Church of Yardville, New Jersey. He graduated from Princeton Seminary last June.

Coy McCurry, '16, is teaching Mathematics at the A. and M. College of Texas.

G. Oscar Robinson, '16 and Mrs. Robinson are at Chiengmai, Siam, where they are both engaged in teaching in Prine Royal College.

THE WORD ''MAN''

Ordinarily, the word ''man'' is used in a sense that merely denotes gender. We do not stop to consider just what a man is, or should be. In the rush of conversation and thought, we consider him and his composition as merely common-place.

''Man'' in the deeper sense does not mean merely a male, for a real man is a gentleman—one who possesses the truer characteristics of gentility, and a gentleman is one who has the respect and admiration of gentlemen and gentlewomen.

It should in no way be considered lightly, for the man who does, will find himself, sooner or later, a victim of continued embarrassment. His friends consider him lightly and of no consequence; he will find himself unwelcome where once he was welcome.

Nothing can prevent ungainly manners or an unpleasant disposition except a continuous fight within one's self for the ideals, the gentleness, courteous consideration for others, and even self denial, that mark a gentleman wherever he goes.

Particularly does this apply to the young man in any walk of life, where he comes in contact with people of culture and refinement, who recognize him immediately by his manners and bearing, his cleanliness of character and person, his speech, yes, and even the least important little actions and mannerisms.

Men at college many times regard themselves with little or no concern and are wont to drop into unbecoming, and, frequently, beastly ways. Temptations or work sometimes overbalance will power, and they do not take the time to stop and think.

To be courteous, considerate, and composed are three most important requisites of bing a gentleman, but to be honorable is the most beautiful trait man ever had. Honor and loyalty to self, government, friends, family and acquaintances are the MOST IMPORTANT, MOST NOTICEABLE characteristics of a gentleman. If we do not get these, or do not have them, then we can never hope to make the greatest success or the widest circle of worth while friends. Link these with duty and you have a lovable character—without them, nothing.

Some sage remarked; ''after man the Lord made woman and she's been after him ever since''.

Some bologne makers put pepper in their frankfurters to make the hot dogs bite.

~ VOLTA EXPLAINING HIS BATTERY TO NAPOLEON ~

How Electrical Engineering began

IT IS not enough to experiment and to observe in scientific research. There must also be interpretation. Take the cases of Galvani and Volta.

One day in 1786 Galvani touched with his metal instruments the nerves of a frog's amputated hind legs. The legs twitched in a very life-like way. Even when the frog's legs were hung from an iron railing by copper hooks, the phenomenon persisted. Galvani knew that he was dealing with electricity but concluded that the frog's legs had in some way generated the current.

Then came Volta, a contemporary, who said in effect: "Your interpretation is wrong. Two different metals in contact with a moist nerve set up currents of electricity. I will prove it without the aid of frog's legs."

Volta piled disks of different metals one on top of another and separated the disks with moist pieces of cloth. Thus he generated a steady current. This was the "Voltaic pile"—the first battery, the first generator of electricity.

Both Galvani and Volta were careful experimenters, but Volta's correct interpretation of effects gave us electrical engineering.

Napoleon was the outstanding figure in the days of Galvani and Volta. He too possessed an active interest in science but only as an aid to Napoleon. He little imagined on examining Volta's crude battery that its effect on later civilization would be fully as profound as that of his own dynamic personality.

The effects of the work of Galvani and Volta may be traced through a hundred years of electrical development even to the latest discoveries made in the Research Laboratories of the General Electric Company.

General Electric Company
General Office Schenectady, N.Y.

93-63 D

CHEMISTRY CLUB

The meeting Thursday, April 5th. was short but interesting.

Mr. Arnold gave a very thorough paper on Radio Activity. It was announced that there are three prizes offered this year of $25.00 each. The contest is open to girls of the Department who have had three semesters of Cehmistry. Two of the prizes are for papers and one for the preparation of a compound.

Next meeting, Thursday, April 19th there will be a special program. Mr. Stanbery will play a blowpipe solo. Mr. Greenlee will give a very valuable talk on the Service of Chemists. He will take up varied fields of the work. Mr. Wathen will discuss Chemical Warfare (chiefly gas). We are in possession of a secret pamphlet, 'Gas Warfare', from the War department.

WE'LL SAY SO

iWth the advent of the automobile, manufacturers of front porches went out of business.

M. E. CHURCH, SOUTH

Rev. J. E. Wolfe, the Presiding Elder of the Cleveland District, will preach at the morning hour, 10:30, after which he will conduct the second quarterly conference of the year.

Sunday School meets at 9:15 with an opening program by four adult classes.

The Epworth League meets at 6:30 p. m.

The pastor will preach at the evening service, 7:30.

"Y" CABINET CONFERS AT MONTVALE

The ''Snappy Sixteen'' embarked for Montvale Sunday at 2:30 p. m. Conferences were held Sunday afternoon and evening. Commitee Reports and plans for a record year were made.

One of the feaures of the conference was the presence of Mr. Mayhew, Student Secretary of the Y in Tennessee. His suggestions and comments gave us all added zeal for our work.

A daybreak scramble up to Look Rock and return for breakfast terminated the conference.

The new cabinet is as follows: Sam Franklin, President; Ed. Hamilton, vice president; Ed. Cathey, secretary; Verton Quener, treasurer; W. S. Smythe, program secretary; M. B. Pritchard, Study classes; Ed. Cornelius, Deputations; Hugh Clabough, Lyceum; P. G. Rice, Delegations; H. Y. Van Orden, Publicity; Riskey, Athletics; S. Brown, Social Service; Puff, Missionary; Eitner, Music; Rohre, Membership; Crow, Motion Pictures.

We are all very glad to hear that Miss Thyra Downing is now fully recovered from her recent illness, all due to the kind efforts of Dr. Bec Bigger. Kind assistance was also rendered by Dr. G. Starnes. Miss Charlotte Allen also had to call for their advice and assistance.

Prof. Orr—We will now read a chapter in unison.

Ruth Thacker—Tell me is Unison in the New or Old Testament?

Y. W. NOTES

SENIOR Y. W. C. A.

(A Freshman's letter)

Dear Folks-at-Home:

Just back from Y. W. My, but that bunch keep me guessing! My New England conscience is satisfied if I attend Sunday School and church, but my bump of curiosity gives me no rest until I am settled on a front seat over in the Y. W. Assembly room.

This time, the Home Ec girls had charge with Lillis Huffman as leader. Her theme was ''The Food Requirements of the Soul''. She said that without an adequate diet the soul grows weak and flabby, just as the body does on improper or insufficient food, and like the body fails to attain its normal growth. A balanced ration for the soul must include as its two great staples Bible reading and communion with God, and like the body, the must be fed at regular intervals, not given a banquet on Sunday and allowed to starve for the rest of the week.

Four other girls helped Lillis set forth the laws of Soul Dietetics. Sarah Witherington spoke of that mystic feast of the soul, the Lord's Supper, tracing it back to its origin in the Passover, and pointing out its symbolic reference tt the hope of immortality. Margaret Graham drew a picture of a perfectly nourished soul, that of Jesus, whose meat was to do his Father's will.

That old H. C. L. does not affect the price of spiritual food values was proved by Lilah Hembree; she found the basis of her argument in Isaiah 55:1-3. Stella Taylor spoke of Jesus, the Bread of Life, the one perfect, all-sustaining food for the soul of the Cristian.

Quite in keeping with their reputation, the Home Ec girls provided real ''eats'' in the form of sweet wafers that were served with the Bible verses they passed around. The verses made me realize as never before that the Bible is the one great authority on Soul Dietetics.

You know how disappointed I was when I found we did not have C. E. meetings here? I still feel just a wee bit homesick for them, but Y. W. is a better substitute than I ever dreamed was possible.

Lovingly,
Soosie.

JUNIOR Y. W. C. A.

The Junior Y. W. meeting Sunday was in charge of the World's Fellowship Committee, Virginia Paulsell was the leader. Ruby Harrison sang for us.

The object of the program was to show that thrughout all time World Fellwship has been needed, but has failed.

In the beginning Adam and Eve watched their two sons, Cain and Abel depart with World Fellowship, only to see them return quarreling. Then the Jewish High Priests paid Judas Iscariot for the betrayal of Christ. This was the second, but greatest crime in which the efforts of World Fellowship failed. It was also shown how World Fellowship failed in the War of the Crusades, the Civil War and the World War. At last Y. W. has come in and offered her assistance to World Fellowship.

A large group of Volunteer girls attended the Union Presbyterial at the Greystone Church in Knoxville last Tuesday. They seemed to be the center of interest, being introduced to the other delegates and entertained at a special table at lunch. The girls were Margaret Duke, Beth Torrey, Dorothy Winters, Pat Farrar, Edith Keen, Catherine Wilson, Harriet Green, Alice Robinson, Henrietta Smith, Mary Tippet, Lorene Smith, and Ruth Buchanan.

Father says he can't understand the young man of today. About twelve o'clock at night they are hanging on the front gate, saying, ''Just one''.

Flapper (suffering first-time embarrasment): ''G—give me a pack of cigarettes.''

Clerk: ''Scent?''

Flapper: ''No-o-o; I'll take them with me''.

MARY BLOUNT
A Place To Eat

JOKES AND NEAR JOKES

Fresh: "Hawaii?"
Soph: "I Hayti tell you."
Senior: "Aw Guann".

Excited Fresh: What is that bell?
Wise Soph: The one right up there in the tower.

Oh Lady: I see that tips are forbidden here.
Attendant: Lor' mum, so were apples at the Garden of Eden.

"All right behind there?" called a conductor from the front of the car.
"Hold on!" cried a shrill feminine voice. "Wait till I get my clothes on".
The passengers craned their necks expectantly. A small girl was struggling to get her laundry aboard.—Baptist Student.

John—My uncle died from hard drink.
Henry—How was that?
John—A piece of ice fell on him.
—The Yellow Jacket.

DROWSY

Stranger to McDoodle:— Son are those up to date newspapers are you selling?
"Why sure they're so Late that a fellow falling out of a two story building advertised for a rope, and got it before he hit the ground".

STOP—"Well, what are you stopping for?" asked Peso Warrith as the taxi driver came to a halt in the middle of the block.
"I heard the lady say 'stop'" said the taxi driver.
"Well she wasn't talking to you if you did".

"You're stuffing me", said the mattress to the factory hand.—Octopus.

A diplomat is a man who can remember a woman's birthday and forget her age.

FROM FRESHMAN THEMES

A Long Hike

Ruth grabbed the dust pan and a long stick, which she used when taking a hike, from the corner of the room.

Well Earned Repose?

Our cots surely slept comfortably.

Poor Bruised Lights

After two hours of falling and bumping into everyone on the floor, the lights flashed.

Call The Humane Society

There were rubber dolls for the little children hanging from the tips of the branches.

Highbrow For Hash

Some of our very delectable dishes were rather confusing in their constituency.

FROM ROOM 202 BALDWIN HALL

"There's one thing the prohibitionists haven't prevented yet."
"What's that?"
"The street cars from getting full."

Judge: Ten days or ten dollars—take your choice.
Mortimer Fleming: I'll take the money, your honor.

Conan Doyle has nothing on the Bootlegger; Doyle tells us of the other world, the Bootlegger gets us there.

Ted: When is a man in love?
Tim: When he will not break a date with a girl to visit an uncle, who boasts some new stock.

"Well", said the parrot, after listening to the lecture on evolution, "at any rate no one can make a monkey out of me".

Where is old Petroleum?
Kerosene him last week, but he ain't benzine since.

THETA EPSILON

Every member of Theta who was present last Saturday night had the privilege of taking part in the program. A miscellaneous program was given. Slips were handed to every person and each person had to follow the directions written on the slip. Musical numbers, vocal solos and readings were given.

More of the town girls were there than usual and all of us are glad to see them out. The town girls are to give a program Saturday week, and every one is looking forward to it, for we remember the good play that they gave last year, and of course the program that they are to give this year will be even better than that and that is saying a whole lot.

Saturday night a Shakespearean program will be given and something else too, that isn't Shakespearean, but girls, you come out and find out for yourselves what that is. Perhaps then, you'll enjoy the program more.

ATHENIAN

The Athenians had a short but snappy program last Saturday night Robert Johnston played a piano solo. This was followed by Harold Van Orden whose subject was "Killing Time". He pointed out the ways the student kills time and showed us how this time might be put to some use; by doing something that would be more enjoyable and would be a much greater value to us.

Bishop is interested in politics and discussed some of the presidential possibilities for 1924.

The program ended with one of Watkin's humorous numbers.

Next Saturday night every fellow is to bring a fellow. Let's fill the hall. The programs are short, but contain the qualifications of an interesting program.

Come yourself and bring a fellow.

GYM CIRCUS AND EXHIBITION

A very brief review of the program presented offers perhaps the best possible account of the gym circus of Monday nite.

Preceded by pretty and picturesque promenade of performers, including parade of animals, Acrobats, freaks, clowns, band, etc., all completely and cunningly costumed.

Maryville Stumblers—A fascinating, furious, fugacious and flittering act by the World's most skilled Mat Wipers.

Japanese Dance— The vertiable Ultima of Spectacular pageantry.

4 Round Boxing Bout—"Kid" Seaton (135 lbs.) Pride of West Side vs. "Sneezer" Buchanan (135 3-5 lbs) The Italian Flash. These Masters of the Padded Mits vied for honors in the Squared Arena, and were fairly evenly matched. Buchanan a little the better.

Aquillo Bros.— Starring Riskey and Sneed. An incarnation of the ingenuity and invention of illimitable intrepidity, by artists who had performed before the crowned-heads of Europe.

Bob Thrower as 20th Century San-Dough. Here wonder itself was lost in wonder and one gazes dumbfounded at the accomplishment of the seemingly impossible. He juggled huge dumb bells as though they were made of rubber. The man with the Boiler Iron Stomach. He ate dishes instead of food.

King Tut's Pyramid Builders—Wonderful human pyramid builders with the Ubiquitous Sphinx. Intensely interesting and ingenious.

Scare Crow Dance—An Eccentric Fantasy.

Wrestling—Two of the World's most famous Backbreaking Fumblers wrestled for the Fumbler's Championship of the world. Lahib Rungannadan vs. Rauschenschlimmer von Hashenslaugh or in the venacular of the Hill Parte vs. Clabough.

The Parallelopipers— Difficult deeds and Stunning Stunts performed with the most charming grace and ease on the Parallel bars. These feats had never before been seen and were of such a perilous character as to be positively breath-taking. This act introduced deeds of delicate and dextrous daring, deliberately and delightfully done by distinguished demonstrators.

The Blount County Sweepstakes—A special added attraction was a race between the two greatest horses of the age. Spark Plug of Google stables and Sassie Sue, the wonderful trotter. This race furnished a fast close to a fast program.

PALACE THEATRE PROGRAM

Thursday and Friday, April 12 and 13

Elaine Hammerstein and Conway Tearle in ONE WEEK OF LOVE. Also an Educational Comedy, 'Danger.'

Saturday, April 14th

Charles Jones in WEST OF CHICAGO. Also Charles Hutchison in SPEED.

Monday and Tuesday, April 16 and 17

Norma Talmadge in THE VOICE FROM THE MINARET. Also Kino grams.

Wednesday, April 18

J. Parker Read, Jr. presents PAWNED with Tom Moore and Edith Roberts. Also an Al St. John Comedy, OUT OF PLACE.

Thursday, April 19

Jack Holt in NOODY'S MONEY. Also a Bible Subject, The Deluge.

—Coming—

Monday and Tuesday, April 23 and 24

John M. Stahl Production, THE DANGEROUS AGE, with Lewis Stone and Ruth Clifford.

THE TEAM'S AVERAGE

(Continued from page one)

out of fourteen times up has an average of .428. Jack Mathews with four hits out of ten comes next for a .400. Bax Wililams with five hits out of fourteen trips follows with an average of .357. Six men batting above three hundred isn't bad is it? And five of them are regulars! There are a few others who got off to a bad start that are practically sure to join the ranks of the .300 swatters. Captain Sneed is only a little below par now and may be expected to step up into the realms of swat at any time. Shorty is counted as one of the surest swatters on the team.

Not very much can be said as to the teams' fielding, anyway not very much that would be complimentary. The team has a hundred and two putouts and thirty-three assists with fifteen errors, making a percenage of only .900. We will not give individual fielding averages yet, because several members of the team might feel embarrassed. Extremely cold weather has been largely responsible for poor fielding, and already the team has shown marked improvement. However, there is still an abundance of space available for further improvement.

All those having billets-doux to be delivered by a most trust-worthy messenger see Miss E. Virginia Paulsell before making contracts. All transactions made with greatest possible discretion. For reference see Martha Boyer, Margaret Weeks, Harrison Bowles, Peg Thompson, Harold Y. Van Orden and friend roommate. Appointment only. Office hours between classes and before and after school. No work done during noon hour.

THE WESTERN THEOLOGICAL SEMINARY
Pittsburg, Pa.
A Seminary for College Graduates

Offers a complete modern theological curriculum, with elective courses leading to the degree of B. D. Graduate courses of the University of iPttsburg, leading to degrees of A. M. and Ph.D., are open to properly qualified students of the Seminary. Exceptional library facilities—Seminary library of 40,000 volumes and the Carnegie collections. All buildings new with modern equipment. Social hall, gymnasium, and students' commons. Next term opens September 18, 1923. For information apply to

President James A. Kelso, Ph.D., D.D., LL. D.

Easy, indeed, will modern shoppers find it to select an appropriate dress from our new line of Linens and Ratines, just arrived. Specially priced $10.98

The Highland Echo

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME EIGHT | MARYVILLE, TENNESSEE APRIL 20, 1923 | NUMBER TWENTY-THREE

TRACK MEET

Saturday, April 14th, the track team journeyed over to Knoxville to compete with our noted rival U. T. Although we lost the meet we were not without distinction for ''Slim'' McGinley was high point man of the meet.

The showing of the team was a surprise to U. T. who expected to win without any effort. After seeing first place of the first event go to Maryville, U. T. realized she had to work.

The two outstanding men for Maryville were McGinley and Templin. ''Slim'' captured first in the century and 220 yard dashes, and second in the 120 high and 220 low hurdles. Templin captured first honors in both the mile and two mile.

Individual point scoring was as follows:

McGinley—16 1st., 100 yd., 10,2-5; 1st. 220 yd. 23,4-3; 2nd. 220 low hurdles; 2nd. 120 high hurdles.
Templin—10 1st. mile run 5,2-5; 1st 2 mile run 11,1-5.
Brown—6 2nd. 440 yd; 2nd. 1-2 mile
Milling—5 1st. Pole Vault, 9 1-2 feet
Thrower—5, 1st. Shot Put 35 feet 1 inch.
Williams—3, 2nd. Javelin
Justice—2, 2nd. High Jump
Rohre—1, 3rd. 100 yard
Holland—1 3rd. Pole Vault
Jimmie King—1, 3rd. 440 yard
Robinett—1, 3rd. Discus
Horton—1, 3rd. Broad Jump
Bob King—1-2, 3rd. Half Mile

PREPS DEFEAT DRAUGHON'S BUSINESS COLLEGE

The Preps nosed out a victory over Draughon's Business College Monday by the score of 12 to 11.

Johnson's catch of the long fly to center field in the 9th inning saved the old ball game for the preps for the score was 12 to 11 and there were three men on the bases.

Burleson pitched a good game for the Preps until the fatal 9th inning when he let the visitors hit him for seven safe hits and run in seven scores. Godwin was substituted for Burleson in the 9th after there was two outs and he succeeded in retiring the third man.

The visitors used two pitchers, Spencer and McPherson.

Batteries: Maryville Preps—Burleson, Godwin and Ellis. D. B. C.: Spencer, McPherson and Ryan.

Summary:	R	H	E
Maryville Preps	12	9	3
D. B. C.	11	12	6

Monday was a popular day among the co-eds for extensive shopping tours of Knoxville. Among those who spent the day in the city for that purpose were Misses Hembree, Brown, Standish, Bigelow and Green.

Mrs. Huffaker of Bald Knob, Arkansas has been visiting upon the Hill during the past week. Mrs. Huffaker was the guest of her daughter, Miss Sallee Huffaker.

Among the out-of-town people present at the recital Monday evening were Mr. and Mrs. Bevan of ing were Mr. and Mrs. Bevan of Westbourne and Mr. James Bevan who is enrolled in the School of Engineering at the University of Tennessee.

The action of the Student Council seemingly has done some good. How about some action in regard to walking on the grass on the campus.

MARYVILLE-MILLIGAN

Soldier Bonus Question To Be Debated Tonite.

After a lapse of nearly a month the College debate schedule resumes public operations on Friday night of this week. The debate this time is a dual engagement with Milligan College. Last year Maryville debated Milligan for the first time and although Maryville won both of the debates it was voted by everyone to be the closest and most spirited forensic affair of the season.

The Milligan debate this year is a discussion of the merits of the recently vetoed Soldiers' Bonus Bill. It is a timely and vital question and will be thoroughly discussed Friday night. Roy Buffat and Eugene Stanbery debate for us at Milligan. Both are debating for the second time with a record of victory behind them in their single previous engagements. They are in fine fetter for the debate and should win for us at Milligan.

Henry Cox and A. D. Moody are our white hopes for the home debate. They are not without forensic experience although this is the first College debate for them. Milligan is sending two experienced debaters down here in a strong effort to retrieve last year's defeat. But both of the Maryville men are sturdy fighters and will give the Milligan veterans all and more than they can cope with.

The Echo is off the press just a day too soon to give you the result of this debate so it must be content to bid ''everybody out'' to back the team and to hear the news of victory at first hand.

PREPARATORY DEBATE NOTES

The first Preparatory debate of the season was with Johnson City on the ownership of public utilities. The contest resulted in a draw. The home team consisting of Misses Hunnicut, Landis and Huffman won, while the traveling team consisting of Messrs. Murphy, Marshall and E. Buchanan lost.

The second preparatory debate occurs Monday. It is with Johnson Bible College on the Philippine question. The home team is to be Cofer, Fouttes, and Welbon; and that traveling to be W. Buchanan, Huffman and Kent.

Give your support to these prep debates. They form the foundation of the college league.

Robert M. Baldwin, President of The Maryville College Directory Company, has just returned from Lexington, Ky. where he has been visiting in the interests of his company. He reports much success. And may return again in the near future.

A little bit of love was manifested Monday afternoon by Kathleen Hunnicutt and 'Dot' Robinson, in giving a surprise birthday party for Miss Virginia Sting. It was indeed a surprise for Miss Sting who was interrupted during a very interesting game of tennis.

Robert Baldwin, Editor and Ned Stewart, Business Manager of the 1924 Chilhowean, have signed the engraving contract for next year's work with the Bureau of Engraving of Minneapolis, Minn. The printing contract has not been signed.

King College lost to our baseball playing Highlanders.

GRADUATE RECITAL

Miss Bevan and Miss McSpadden, Readers; and Miss Huffaker, Pianist.

Miss Bevan who wore a charming frock of rose crepe read two selections, both of which were English in atmosphere and setting. The first was a story, ''England to America'', by Margaret Montague; the second, a poem, ''Echo and the Ferry'' by Jean Ingelow. ''England to America'' is one of the best short stories produced during the war period and Miss Bevan's interpretation of it evidenced a thorough understanding of the characters and a delicate sympathy without which the reading would have been incomplete. ''Echo and the Ferry'' was full of youth and confidence, the vigor of an English springtime and the Echo was realistically imitated by the reader.

There was a sincereity about Miss Bevan's work which the audience was quick to appreciate.

Miss McSpadden, who was becomingly gowned in white, gave two numbers, which were in sharp contrast to Miss Bevan's, being French in setting. They were: The Minuet by Louis Parker, and the first act of Percy MacKaye's, Jean D'Arc. Miss McSpadden succeeded in interpreting well a particularly difficult piece of work, for the ''Minuet'' was written in verse and the characters were of a type not readily understood by a present day audience. Miss McSpadden handled this as well as the portrayal of Jean D'Arc, the little maid of Domreny with much skill and unusual vitality.

Miss Huffaker, the pianist for the evening, was gowned in blue chiffon embroidered with silver beads. As usual she delighted her audience with her rendition of the numbers.

Minuet a l'antico by Seeboeck as played by Miss Huffaker and Miss Enloe displayed fine ensemble work and was beautifully done, being played entirely from memory.

The Sarabande and the Rigandon represent the time of Holberg 1684 to 1754. Holberg was a Danish master of Literature and one of the greatest of Danish authors.

Grieg in his arrangement of this suite endeavors to reflect the light mood of Holberg's comedies. Miss Huffaker entered into the spirit of these and played them with fine technique and finish.

The Preludes of Chopin always appeal to popular taste. Chopin being a romanticist and breaking away from the old formal type of composition never fails to interest an audience. In her group of three preludes Miss Huffaker was at her best in her exquisite interpretation of the Raindrop Prelude. The predominating characteristic of these preludes is in the tone work required in their execution.

The Czandas of MacDowell frolicsome and capricious formed a good contrasting number to the Leibestraume No. 3 of Liszt, which was done in an unusually artistic and professional style.

The keynote of Miss Huffaker's program was in the extreme finish and art which she showed in the interpretation and execution of her numbers.

The first issue of the new publication, the ''Y Bee'' was good. Let's see more of it.

U. T.'s second Track Team is to be here Monday. With the showing we made there we will beat them.

LYCEUM AUSPICES Y

Special Attraction For Saturday Evening, April 21, the Bertha Walburn Clark Trio.

Bertha Walburn Clark, from which the trio gets its name, was for many years a pupil of the distinguished Belgian violinist, Jose Marien at the Cincinnati College of Music.

She has had great success in her public appearances and her playing has received very high praise from such eminent musicians as Walter Damrosch, director of the New York Symphony Orchestra; Victor Herbert of light opera fame, Albert Spulding, the foremost American violinist, and others.

Pearl Hawkins, pianist, is a graduate of the ''Olivet Conservatory of Music'', Olivet Mich. under Mrs. Elizabeth Bentliff. Miss Hawkins is a pianist whose playing is characterized by fine artistic interpretation and finish. She will contribute to this program a number of piano solos as well as all the accompaniments and ensemble work.

Harold Clark will appear in the double role of Flutist and Celloist. He has toured with several orchestras and bands and numbers among his Musical associations some of the finest organizations and musicians in this country.

Among other numbers presented will be selections from the opera ''Mignon'', from the opera ''Ata lanta'', and Vissi D'arte and Vissi D'amore from ''Tosca''. Appreciators of a genuine classical program will hail this entertainment as an unprecedented treat.

Y. W. C. A.

Junior and Senior Y. W. combined forces Sunday afternoon in what was announced as a ''Mystery'' meeting. The cabinets are anxious that the girls as a whole shall be acquainted with the plans and the policies of each cabinet officer and committee chairman, and not get idea that the cabinets constitute a selfish clique who are trying to run Y. W. to suit themselves.

Margaret Shepherd, who is Undergraduate Representative on the Senior Cabinet, explained how her work and that of her Junior Colleague is to keep our local organization in close touch with the National Y. W. C. A. and with the World Student Federation. It is inspiring to know that we are really a vital part of a great world association of Christian students.

The policy of the Social Service Chairman, Tommy Rose Lewis and Beatrice Wilson, was read and discussed. They have planned great things, and their success depends on whether or not the rest of us back them up sufficiently.

One of the questions brought up in the discussion was: ''Is anyone who is not a Cabinet member allowed to attend Cabinet meetings?'' The answer is YES, both cabinets cordially welcome to their meetings any girl who has constructive criticism, live suggestions, or new ideas of any kind to offer.

The Cabinet advisers were invited to attend this meeitng, and most of them were present. They are: Miss Caldwell, Miss Henry, Mrs. Bond, Mrs. Hunter, Mrs. S. H. Franklin, Mrs. Stevenson, and Mrs. Will Caldwell. There will be a meeting soon where all the girls will have a further opportunity to become acquainted with the advisers. Watch for the announcement girls, and don't lose the chance to know better those who are willing and anxious to help Y. W. in every way.

LITERARY SOCIETIES

Bainonian

''Oh, I wish I was in de lan' of cotton,
Old times dar am not forgotten',
Look away! Look away! Look away! Dixie Land!''

Bainonians from North and South alike are not likely to forget soon the time of seeing the inside of an old darkies' cabin last Saturday evening. Every daughter of Dixie can testify that it was truly a typical cabin,—with the walls covered with newspapers, the line hung with clothes, the straw hats about, and the darkies themselves.

Bainonian resolved to begin a good work by inviting her brothers, the Athenians to formal tea last Monday afternoon. The affair proved a delightful surprise to those who were frightened by the word ''formal''. The opportunity to form an opinion other than that formed in classroom of each other was appreciated by both faculty members and students. Comments like, ''let's have some more'', were heard. So Bainonian asks the help of the other organizations in riding our college of this opening for criticism and in making other improvements.

Theta

Theta girls had the privilege of enjoying a purely literary program last week with the exception of one number, and even the program committee as well as the other girls were surprised at the first number which was quite unexpected and given by— well, girls, if you were there you know all about it, and if you were not just ask Rena Mae Anderson or Susie White.

We wish we might have the pleasure of having Ethel Dorn read more often just as she did last Saturday night.

No matter how old the comedy Romeo and Juliet, we appreciate it more and more every time we see it. Louise Golmar made a most attractive Juliet (especially so, with the green band around her head). The costumes of each aided the characters in portraying their parts.

Be sure and come out for the town girls' program this week!

Athenian

The last Athenian program was somewhat different from the usual society program.

After a violin solo an old time spelling match was staged. The society chose Verton Queener and Ed. Cornelius for captains, the men were divided equally and the fight was on.

The first to meet defeat was Captain Queener. It was rather discouraging to Captain Queener's team to see their leader slain so early in the battle, but First Mate ''Red'' Brown took charge of the team and led them to victory. He being the only man left standing when the last one of his enemies choaked to death on the word Kwityerhellyakin.

JUNIOR-SENIOR BANQUET

SENIOR SKETCHES

KATYLEEN ALEXANDER

Katyleen Alexander, a member of the Bainonian Literary Society has spent three years in Maryville. She was born in Oneonta, Alabama, but she claims Mississippi as her native State since her home is in Louisville. She likes Maryville, but there's one thing that she would like to see namely, more Class Spirit. Katyleen is a good hiker. Everybody knows that, and we don't wonder for hiking is her favorite sport. She has a hobby of yelling "Henri!", and an ambition to help straighten out the wrinkles in the world. Brunettes seem to be her favorite type of boy, but you know there are exceptions to all rules.

ROLAND CARL ELZEY

Roland Carl Elzey from Seaford, Delaware, has something that only one other in the class has—a wife. Mr. Elzey graduated from Seaford High School, Seaford, Deleware. Seeing great opportunities in the South he came to the University of Chattanooga, where he was president of one of the Literary Societies. The scenery in and around Maryville attracted his attention and the last two years of his school life have been spent here on our own college hill. He knows how to farm and he knows how to preach. There's not much of anything that he does not know how to do. He is planning to attend Seminary next year.

HENRY CLAY COX

Henry Clay Cox comes to us from Nutter Fort, West Virginia, where he has the hobby of ice skating, yet he has spent four years of his life down South, in Mayrville, and within these years he has become quite an important personage. He has held positions in Alpha Sigma Literary Society, of which he is a member. He belonged to the debating team of '22, and has for several years been Assistant Librarian. He has a very high ambition, "Some day to walk around the world." His plans for the next year have not been fully made. He is undecided as to whether he will enter graduate school or become a teacher.

Just think—this country is so poor we eat only about $225,000,000 worth of ice cream and candy each year.

PALACE THEATRE PROGRAM

Friday, April 20
Betty Compson in THE WHITE FLOWER. Also an Educational Comedy, Toonerville Blues.

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME EIGHT | MARYVILLE, TENNESSEE APRIL 27, 1923 | NUMBER TWENTY-FOUR

THE QUEEN OF MAY

MISS MARY LUCRETIA McSPADDEN

MAY DAY

Have you at some time or other in your wildest dreams, simply longed to have lived in the time of fairies? Have you ever imagined how it would be to watch gnomes and elves dance on the green? Have you ever ''just craved'' to see a processional headed by the Queen of Queens?

Then you will have your desire satisfied next May Day when everybody on the old Hill joins with the author who said:

''Welcome, sweet Springtime,
We greet thee in song!''

To you who have not been here before in the Spring, May Day celebration will be a revelation. It is the one day when ''joy is unconfined; when the spirits of youth, good will and hearty laughter prevails''.

M—is for the many things to bring you,
A—is for the afternoon of play,
Y—is for the years that you'll remember
The crowning of our Mary, Queen of May.

D—is for the dower of the fairies
A—is for the apple pies you'll buy
Y—is for the youth you'll keep with you.
If you do not let this May Day pass you by.

—Anonymous.

This year the whole program promises to be especially good, and of course the crowning event of the day will come with the Queen.

So come out, all ye scribes and book worms and let's make the carnival spirit prevail o'er all.

RECITAL MONDAY

Miss Walker, Pianist; Miss Dorn, Reader.

The third graduate recital of the season will be given Monday evening, April 30th., with Miss Ethel Dorn, reader, and Miss Nannette Walker, pianist.

Miss Dorn has made a number of appearances in public this year. She played the role of ''Meg'' in the Theta mid-winter ''Little Women'', and she beautifully read two poems at the Memorial service in chapel on Armistice Day. Miss Dorn's audience always shows keen appreciation of her ability as a reader. Her program will consist of:

''Hearts To Mend'' - - Overstreet
''The Lion and the Mouse'' - Klien

Miss Walker needs no further introduction for she has appeared a number of times in the previous years. She always delights her hearers with her artistic playing.

Her program will consist of the following numbers:

Valse - - - - - Chopin
Intermezzo - - - Leschetiyky
Etude Fantasque - - - Godard
Liebestraume - - - - Liszt
Dance of the Gnomes - - Liszt

Miss Celia Kline who was severely burned about a week ago is improving rapidly.

CLARK TRIO CONCERT

The leading musical number of the year was held in Voorhees Chapel on Saturday evening, April the twenty-first.

The Bertha Walburn Clark trio came to Maryville with the highest of recommendations and the audience was not disappointed.

Bertha Walburn Clark from whom the trio gets its name is, in the truest sense of the word, an artist. She did credit to the distinguished Belgian violinist under whom she studied for a number of years. Both her playing and her singing delighted and inspired her hearers.

Miss Clark was ably supported by Miss Hawkins pianist and accompanist and by Mr. Harold Clark, cellist and flutist, who is of musical fame, having travelled with some of the best and ablest bands and orchestras in this country.

Some of the numbers deserving special mention are, Selection from the Opera ''Mignon'', by the trio; Selection from the Opera ''Atalanta'' and the Blind Ploughman, Miss Clark soprano.

The encores all found favor with the audience especially the violin solo, "Annie Laurie" by Miss Clark.

Let us then thank the Young Men's Christian Association for being instrumental in bringing such talent to Maryville College.

DEBATE NEWS

MARYVILLE-MILLIGAN DEBATE

Messrs. Cox and Moody composed our team. Mr. Cox's chief characteristic was coolness and a close application to the statement of the question. Mr. Moody was making his first appearance on the intercollegiate debating platform, and he gave a good account of himself; in that he had a fair grasp of the subject being debated. Had our team had perfect control of their subject matter they might have won on the weak side of the question.

The opposing team from Milligan was composed of Messrs. Meadows and Crouch. Each were veteran debaters. Each possessed a smooth and convincing delivery. This was specially so in regard to Mr. Meadows. Having the advantage of the long side of the question, and the powerful argument that some reward should be given the ex-soldier the visitors easily won.

The music for the evening was furnished by the Misses Keen and Miss Charlotte Allen.

The report has it that Gene and Roy just walked away with Milligan on their home floor.

FINAL DEBATE OF THE SEASON SATURDAY NIGHT

When Maryville's Debate Schedule for the year was still in the making an invitation came from Parsons College of Fairfield, Iow: for a debate with us for their team which was to tour the country. Such a suggestion could not but be gladly received and accordingly a team was selected to meet the redoubtable Parsons' team. This team consisted of Herrick Arnold, David King, and R. A. N. Wilson, and work went forward to the end of preparing the prefalls for the Westerners.

Then, just a bare month before the date set for the Parsons' battle, word came from them to the effect that they were forced to cancel their trip because of several of their prospective opponents' withdrawal from their agreements.

Among the colleges which Parsons was to have debated on the trip was Berea College, our comparatively near neighbor. Hasty word went forth to Berea, therefore suggesting a debate to be built out of our mutual wrecked hopes of the Parsons visit, and within a few hours the plans for a dual debate were settled.

It was necessary however, to recruit one more debater for the two teams and in accordance with this need, Verton Queener, who was at the time captain of one of the teams preparing to debate Milligan, was commanded to make up the full quota of anti-Bereans.

Berea and Maryville meet on Saturday night. The question is the official Pi Kappa Delta question: The United States should adopt a cabinet-parliamentary government. David King and R. A. N. Wilson carry the affirmative argument to Berea and Herrick Arnold and Verton Queener defend the negative here.

Berea has an enviable forensic record. Her orators have an annual or perennial habit of winning the Kentucky Oratorical Championship; her debaters cope successfully with Centre and Kentucky State, and last year they won a victory over the strong team of Colby College which made a successful trip from Maine most of the way across the continent to be defeated by only two or three other colleges besides Berea.

BASE BALL NEWS

Baseball Trip Ends With Three Victories and Two Loses For Maryville.

Monday morning our varsity journeyed to Johnson City to lock horns with the East Tennessee Normal. Every player was in the best of form and we had very little trouble in trouncing the Normal that afternoon nine to three. Webster started the game in the box, but being hit rather freely, was relieved by Schmidt who was a little wild at first, but after pitching to several men he settled down and finished the game without allowing a single run.

Tuesday our team went over to Milligan but on account of the rain the game was called off. This was fortunate for Milligan for Matthews was going to hurl this game.

Wednesday we played King College at Bristol before a large number of fans who had come out to see their idol play. They thought that because King had a good foot ball team and won in foot ball from us that they would do the same in baseball, but they were doomed to disappointment for Maryville had little trouble in piling up a 9 to 5 score. Mathews was in rare form this day and was well supported by his team mates. Sneed our captain, started the game off with a triple on the first ball pitched, but sprained his ankle going to third and had to retire from playing the rest of the trip and the team greatly missed him from the line-up.

The next day at Emory we were unfortunate in that Acton's curve ball was not working as it should and in that near the first of the game the umpire made several bad decisions which was undoubtly the cause of this game being lost. However, the next day we got revenge and walked away with a 15 to 2 score.

The last game of the trip was played on Saturday at Tusculum and there we got our second defeat. In behalf of the team we might mention the fact that they had to play on a hill and when a ball got started there was no stopping.

All in all the trip was very successful for it showed the team's strong and weak spots. Coach Honaker in a few days will iron these spots down and we should lose no more games this season.

NORMAL LUCKS OUT ON MARYVILLE

Burleson, pitching for the locals, held the Normalites under the spell of his right arm for seven innings, allowing only two safe hits and neither of these resulting in a run. The support behind Burleson was air-tight and not an error was made during the first seven innings.

Smithy was substituted for Burleso in the first half of the eighth but the visitors soon had their eye on the old ball and with the aid of three passes issued by Smithy and two safe hits, they succeeded in getting six runs across the plate. Webster was sent in to relieve Smithy but he, also was ineffective and Normal scored two more runs on him. Ted Hawn was then sent in and he succeeded in retiring Normal after they had made two runs off of him.

In the eighth inning, the Highlanders made two runs on a nice single to right field by Hawn. Watkins and Riskey were on base when Hawn made his hit. The Normal also chalked up another score in the ninth inning and this score proved to be the winning run.

A ninth inning rally which nearly proved successful liked to have spelled defeat for the visitors. With only one man down, Shanks was given a base on balls. Partee got a nice single, advancing Shanks to second. Sneed knocked a hot liner to first base and after a fumble on the part of Normal's first baseman, all three men were safe, thereby filling the bases. McCall knocked a line-drive to second base and by an error on the second baseman, the bases were again full and Shank had crossed the plate. McClung went in as a pinch hitter, hitting for McCarrol. McClung also got to first on an error and scored Partee. Watkins flied out to the pitcher. Sneed was caught off of third and Riskey grounded to shortstop for the third out.

Partee's hitting was the feature of the game. Out of five times at bat, he got a home-run, a triple and a single. When he drove out his home-run to right field, the bases were full.

RESERVES LOSE TWO GAMES TO ATHENS SCHOOL

The Maryville College Reserves, fourteen in number, journeyed to Athens Friday morning to play Athens School two games of Baseball.

The first game resulted in a victory 4 to 0 for Athens. The Reserves played a good game but failure to hit in pinches and a few costly errors lost the game for them. Burleson pitched a nice game allowing only four safe hits. Burly also got one nice hit and was credited with three stolen bases.

The second game also was a victory for Athens 8 to 0. The reserves were only able to get one infield hit off of Smith, hurling for Athens. Captain Joe Gamble gets credit for the lone hit.

The inability of Musick to field and hit was due to the fact that seventeen girls were watching him with fixed eyes and piercing glances. Musick and his M sweater made quite a hit with the Athens girls and he got so conceited over the fact, that he wanted to race 'Spec' Cortner at the hotel. The funny part was that Musick won the race.

The work of Manager Turner at first base is desirable of mention for Porter handled 17 put outs and five assists in the two games and never made an error.

Burleson also pitched the second game until he was relieved by Bishop in the 7th inning.

Summary:

First Game:	R	H	E
Reserves	0	5	6
Athens	4	4	2

Batteries: Maryville Reserves: Burleson and McClung; Athens: Weisner and Jones.

Second game:	R	H	E
Reserves	0	1	3
Athens	8	6	1

Batteries: Maryville: Burleson, Bishop, and Ellis and McClung; Athens: Smith and Jones.

Those making the trip to Athens were: Coach A. M. Mintier, Capt. Joe Gamble, Manager Porter Turner, McClung, Burleson, Bishop, Godwin, Hawn, Riskey, Ellis, Musick, Poe and Cortner.

Miss Louise Sheddan and Miss Mary McSpadden while in Knoxville Monday, spent a few hours with Miss Manilla Ruble, who is rapidly recovering from an operation for appendicitis.

Patronize Those Who Advertise. They Make The Paper Possible.

The Echo solicits news items, comments, and expressions of opinion from the students, and from interested alumni.

Just why should a very few people make themselves generally abnoxious at a musical program? Of course, the reference is to the happenings at the program of Saturday evening. Perhaps you may not care for the music being given. But that does not in any sense release you from your duty to play fair with the other persons who do like the music and permit them to enjoy it.

* * * *

Our chapel services are being prefaced by a continually increasing number of distracting announcements. We have pointed out time after time that the Echo reaches each student each Friday of each week. Why do not Faculty and students alike use the Echo for the presentation of these announcements? Obviously such an arrangement has many advantages. Why not do it?

GLEE CLUB CONCERT

Maryville College Glee Club in Fourth Annual Concert, May 1, 1923.

PROGRAM

Part One

The Sword of Ferrara - - *Bullard*
Cradle Song (after a Swedish Folk Tune) - - - - - *Saar*
Violin Obligato by Mr. Keen
Glee Club
Bass Solo—The King of the Deep am I - - - - - *Petrie*
Mr. Hamilton
The Postillion - - - - *Molloy*
I Heah de Voices Callin' - *Gaines*
Anderson, Sullinger, Keen, King
Violin Solo—Souvenir de Wieniawski - - - - - - - *Haesche*
Mr. Keen
Ma Little Banjo - - - - *Dichmont*
Cavalry Song - - - - *Brackett*
Glee Club

Part Two

Elite Polka - - - - - *Boardman*
Mr. Bannister
Reading - - - - *Selected*
Mr. Gauding
O Lovely Night (from Tales of Hoffman) - - - - *Offenbach*
Messrs. Keen, Bannister, Sullinger
Miss Gregg

Part Three

Hunting Song from Robin Hood - *DeKoven*
Tinker's Song
Glee Club
Violin Solos - - *Scotch Folk Songs*
Mr. Cowan
Bass Solo—Run on Home *Strickland*
Mr. Keen
Refined Specialties (Harmony Four) - - - - - - *Divers*
Marquis, Sullinger, McMurray, King
Snores - - - - - *Wildhack*
Mr. King
Roamin' in the Gloamin' - *Lauder*
When I was Twenty-one - *Lauder*
Mr. Cowan
Ill-Treated Il Trovatore (burlesque in one act)
Cast, in order of appearance
Sentry - - - Mr. King
Count - - Mr. Hamilton
Servant - - Mr. Sullinger
Leonora - - Mr. Marquis
Manrico - - - Mr. Keen
De Copah Moon - - - - *Shelley*
Old Maryville - - - - - *Hall*
Glee Club

PERSONELL

First Tenors—F. Raymond Anderson, James F. Chapman, Rollin H. Marquis, Harry L. Owen, Ray H. Sullinger.

Second Tenors—Thos. B. Cowan, Dewey W. Eitner, Virgil C. McClung, Howard H. Sullinger, E. Baxter Williams.

First Basses—Everett B. Jackson, Giles E. McGinley, Jean G. McMurray, Decatur F. Waddell.

Second Basses—Edward H. Hamilton, J. Alvin Keen, Robt. L. King.

Director and Pianist, Harriet L. Gregg; Reader, Harry H. Gauding; Cornetist, Harry E. Bannister; President, Robt. L. King; Graduate Manager, Prof. Edwin R. Hunter; Student Manager, August L. Johnston.

The Maryville College Players are in activity now. Although they have not appeared on the home stage yet, they nave prepared an evening's program and have appeared on the Lenoir City stage and also on the Polytechnic stage. Both performances were surely a success for the audiences were constantly in a mode of applause and laughter. The players are planning to make a number of trips and display their skill as performers on different stages. Among the places to be visited by them are Vestal, Alcoa and Newport.

Prof. R. F. Souter, a graduate of Hamilton College and until recently a member of the faculty of Haonver College lectured to the students of the Shakespeare and Browning classes, Wednesday. Prof. Souter's lectures were well received by every member of the two classes. Certainly Prof. Souter challenged those with a real interest in his subject to a more careful and idividual consideration of its phases.

Y. M. C. A.

Keep your eyes on the Juniors next Sunday, fellow-students, because your turn may come soon to take charge of the Sunday afternoon meeting at the Y. The Juniors are to be led by Othel Armstrong. You remember how well the 'Senior' meeting went? Well, this Junior bunch promise something even better than that in the way of an interesting program.

Miss Mary Hamilton and Miss Mary Sossoman shopped in Knoxville Monday.

CHRISTIAN ASS'NS

SENIOR Y. W. C. A.

When Jesus returned to his Faher, he left with his disciples a promise that he would send another Comforter, the Holy Spirit, who should take for his dwelling place the heart of the Christian. Some of us who are professed followers of Christ are prone to forget, at times, that we are the temple of the living God. Suppose the Master should return in the flesh to be your guest for a week, what would you think about during his visit? Would your conversation be about the same topics as it is ordinarily? What would you wear and how much time would you give to your personal appearance? Would the frequency, length, and content of your prayers be the same as usual?

Dorothy Dickerson, Pearl Tweed, Perle Lambertson and Ethel Swindler led the discussion of these and similar gripping questions at the meeting last Sunday. That they were of interest to all present is evident from the large number who took part in the meeting. Margaret Duke showed her ability as a leader by encouraging others to talk while saying very little herself.

Next Sunday's meeting is going to be a surprise that every one is sure to like, something unheard of before in the way of a Y. W. service, so don't miss it.

JUNIOR Y. W.

Beatrice Wilson was leader at a very interesting and helpful meeting last Sunday afternoon. In her talk she compared our lives to clocks showing us that the key to all these clocks is prayer. Dorothy Robinson talked to us about allowing ur clocks to run down, and Clara Robison brought out the fact that we often let our prayers take an unimportant place in our lives and thus the key becomes rusty. Margaret Gray made the last talk reminding us that we sometimes allow prayer to become a form and in doing this we make our keys not fit. An unsually interesting program is being planned for next Sunday. Come out and let's have a good meeting.

SENIOR SKETCHES

ETHEL SWINDLER

Miss Ethel Swindler is very well known to most of the students on the Hill just because of her cheerful disposition and willingness to do something for someone else. Her favorite type of boy or girl is those with the corners of their mouth turned UP. Ethel has been with us for four years and three of them were as a member of the Y.W.C.A. cabinet. She is going to teach next year but not like so many of the other members of our class she has some experience along that line. The Seniors will always have a warm spot in their hearts for her for our class could never have been the same without her.

ETHEL MAY DeHAVEN

Miss Ethel May DeHaven is from Osborn, Ohio and has spent four years at Maryville. Probably we all remember her best as the little girl in the book-room that takes our money when we pay our book rent. Ethel has had a multitude of honors and a multitude of jobs thrust upon her but when she gets peeved she pays Bill Arnold to do the talking for her. Her ambition for next year is to teach and to re-learn to cook. One thing you had better learn, Ethel, and that is how to express yourself when you get mad. You might not have Bill around sometime when you hit your finger pretty hard.

JESS D. WARRICK

A very lucky member of our class is Mr. Jess D. Warrick of Washington College, Tenn. When it comes to playing Fan-Tan he sure is in a class by himself. (Mason Mann can give you details on the subject). Jess is an Athenian and has been a member for three years. Next year he is to teach but his present ambition is to get into banking. There is one change he wants on the Hill that I think would satisfy all of us and that is a later breakfast hour. Go to it Jess, old boy, talk it up; we are all for you.

THE WESTERN THEOLOGICAL SEMINARY
Pittsburg, Pa.
A Seminary for College Graduates

Foreign Missions are emphasized. During the present term the L. H. Severance lectures on ''Religious Lead- of China'' were delivered by the Rev. J. S. Kunkle, Ph. D., President of Union Theological Seminary, Canton, China. Next term opens September 18, 1923.

For information apply to

President James A. Kelso, Ph.D., D.D., LL. D.

SENIOR SKETCHES

(Continued from page two)

LENA MAE WILSON

Ladies and Gentlemen meet Miss Lena Mae Wilson. Her home is in Gallatin, Tenn. and she has spent three years in Maryville. Her ambition for next year is to teach and I am sure she will be a success. The thing she dislikes most about Maryville is the walks in rainy weather and during some of our recent young floods you could often hear that pet expression of hers, ''For the Love of Mike''.

W. CLYDE WILSON

Mr. W. Clyde Wilson is a member of our class that we are proud to claim. He was born in Woodbine, Pennsylvania but now claims Delta, Pennsylvania as his home. His life has been a varied one for in his time he has been a fisherman, carpenter, farmer, teacher and soldier. His present ambition is to be a minister, 'a workman that needth not to be ashamed' and with that goal before him he is to enter the Seminary next fall. Best o' Luck Clyde, we will always watch your life with interest.

HILDA SIMERLY

Have you ever heard that very eloquent phrase ''Heck Gee, sezs Pop''? Well, that little girl is a Senior. Her name is Miss Hilda Simerly and her home is in Okeava, Ohio. She is only five feet and two inches tall with a weight of 115 pounds so you can readily see why her pet peeve is 'being pushed about'. Hilda is to teach next year but there is one more thing that she wants our class to do and that is furnish enough money to put the fountain in good shape for succeeding generations. We admit that the lady has a very laudible purpose to put before the class and will give it our moral support.

GRACE AZALIA McNUTT

Grace Azalia McNutt, has lived in Maryville all of her life and we all agree that it is a good place to live, and wonder why some of us didn't find our way here sooner. Grace finished High School from the Maryville Preparatory Department four years ago. She is a member of the Theta Epsilon Literary Society, and they are truly proud to claim her, in their midst. She has great ambitions, ones that will lead her to travel over foreign lands, however next year she is planning to teach. She says her favorite type of boy is a good sport, perhaps its because she's such a good sport herself.

Line Hodges sure has tough luck. Her life is all a Gamble, and she rolled 'little Joe' the first time.

BLUE RIDGE NEWS AND VIEWS

WHY NOT GO TO BLUE RIDGE THIS SUMMER?

BLUE RIDGE AND THE AVERAGE STUDENT

Nobody doubts that members of the Y Cabinets, future Association Secretaries, and all others of their like should go to Blue Ridge. This is taken for granted, just as it is assumed that teachers will attend normal school and Sky Pilots the Seminary. But what of the average student, preparing at Maryville for professional or business life— of what value will ten days at the summer conference be to him? There must be some good reason to draw hundreds of students from colleges all over the South—regardless of their present or future connection with Association work, and in spite of time lost from summer money-making— to swell the ranks of these conferences year after year.

It would seem that the result of the attraction of Blue Ridge for them is two-fold. In the first place they turn to the summer conference because they find it to be the gathering place of the cream of southern students. The men and women with vision and ideas—the students of today who will really be the leaders a short time from now, just naturally gravitate to these gatherings.

Then the second reason is that the classes, addresses, and interviews which are offered during this greatest of all student meets are such as to make every one who attends better, stronger, and broader, whatever his future vocation may be. A conference at Blue Ridge is to the average student somewhat as a college education is to the average man—he's sure to do better whatever he does because of it.

BLUE RIDGE AS AN INSPIRATION TO CHRISTIAN WORKERS

Blue Ridge was primarily established for the purpose of training Christian workers. To this end has it been situated in the beautiful North Carolinian mountains, and every attempt is made to get the fullest good from the natural beauties surrounding it. So, too, are the foremost leaders of Christian work of all kinds glad to direct and to cooperate with the people assembled there. One may go to Blue Ridge for almost any reason, but he never comes away without experiencing a broadening of vision, a strengthening of purpose, or perchance a new vision of world service waiting to be fulfilled. Whether one's work be well in progress, thoroughly planned for, or not yet conceived, Blue Ridge has a strengthening message for it.

The best of luck to you "Slim", while you are at Atlanta. Show them how to do track work.

Mr. Newman of Johnson City was the week-end guest of his daughter, Miss Fidelia Newman.

If Sara Kissed Cadden, would George Howl?

Athletics at Blue Ridge

Athletics in a ten day conference? Sure Mike! You men that are as swift footed as Achilles come to Blue Ridge and show your prowess in the races there; or if you crave baseball and consider yourself a George Sisler, you won't lack the opportunity to swat the pill and advance your team towards the pennant. All you who are as graceful and agile as sea nymphs can perform in the crystal waters of the large open air pool; or if you aspire to be a Tilden or a Mallory, there are a dozen splendid courts on which to practice and a tournament in which to match your skill with the best in Dixie. But you say you aren't a duck to flop about in water; or a dog to be interested in tracks. Very well, sweetness, just hop along anyway and get in on the volley ball or try your luck with the basket tossers.

Mr. La Fon Weeks of Charleston Tennessee was the week-end guest of his sister, Miss Margaret Weeks.

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME EIGHT | MARYVILLE, TENNESSEE MAY 4, 1923 | NUMBER TWENTY-FIVE

ATHLETICS

''Rookie'' Mathews Holds Famous Praying Colonels To Four Hits.

Maryville defeated Centre College 4 to 3 Monday afternoon at Danville, Ky. The feature of the game was the pitching of Mathews, who held the Praying Colonels to four safe hits. (Watch out, U. T.)

The Orange and Garnet Highlanders touched Hicks, who started for Centre, for three hits and three runs in the first inning.

From reports received from the squad at Danville, this was the hardest fought game of the season and the result was in doubt until the last man was out.

Batteries: Maryville— Mathews and Williams. Centre— Hicks, Holland and Miller.

Centre Cops Second Game 7-1

The Highlanders lost the second game to Centre College at Danville, Ky. Score was 7 to 1. Reports from the team are to the effect that Acton pitched a great game but was unable to overcome the opposition offered by the Praying Colonels.

Batteries:

Maryville: Acton and Williams, McCarroll. Centre: Hicks and Miller.

Transylvania 4, Maryville 9

A meager report from the Transylvania game at Lexington, Ky. was that Maryville won by the score of 9 to 4. Burleson pitched for the Highlanders. Good Boy, Burly, we know you've got the stuff.

Track Meet With Centre Saturday

Coach Bond's track men will engage the praying colonels of Centre College in a dual track meet Saturday afternoon. This promises to be the banner event of the track season as Centre has a highly touted track team.

''Slim'' McGinley and Templin are the two outstanding stars of the Highlanders. Slim will be counted on to break the tape in the dashes and hurdles and Templin in the distance runs.

Coach Bond will enter the following men in events:

Dashes: McGinley and Rohre.

Hurdles: McGinley and Holland.

iDstance runs: Templin and Sanchez.

Middle distance runs: Bob King, Jimmie King, and Brown.

Broad and high jump: Bob King, Justice and Horton.

Weights: Thrower, Hamilton, Edsall, and Robinette.

Javelin: ''Bax'' Williams.

Pole Vault: Milling and Holland.

U. T. Again Rained Out

Fer the third consecutive time, rain caused the Maryville-U. T. game to be called off. The game was to have been played on Shield-Watkins field at 2:30 p. m. Saturday and although the Highlanders reached the Tennessee gymnasium, that was as far as Jupiter Pluvius would permit them to go.

The date for the first game has been arranged for May 14th at Maryville. The second game is to be played May 17th at Shields-Watkins field. In the case of a tie, the third game will be played on neutral grounds, probably at Caswell Park in Knoxville.

Reserves Defeat Maryville Hi

The Maryville College Reserves defeated Maryville High School Tuesday afternoon by the score of 9 to 4. The game was loosely play-

(Continued on page two)

JR.-SR. BANQUET

Upper Classmen Enjoy Banquet at Montvale Springs.

It will be remembered that the Junior-Senior banquet of last year was held at the Hotel St. James in Knoxville, but the affair of last Friday evening given at our own Montvale Springs Hotel left nothing to be desired in any respect. There were about one hundred and fifty present. The large dining room was massed with hemlock branches with brilliant butterflies suspended; the tables were centered with mirrors outlined with mosses which reflecting the lights and butterflies presented quite a dazzling picture. The bon-bon holders were bird nests placed in forked sticks upon which butterflies balanced, an alluring scene for city tired eyes. Ginger cocktails were served in the summer house which was also attractively decorated with hemlock branches, and proceeding to the dining room the following menu was served:

Ginger Cocktail Pimento Canapes
Radishes Nuts

Veal a la Maintenon
Maitre d' Hotel Potatoes
Asparagus in Pastry Shells

Jellied Cherries Dinner Rolls
Stuffed Tomato Salad
Noisette Crisps

French Ice Cream Crushed Strawberries
Gateau de Fantaisie

Cafe Noir

Professor Knapp was an ideal toastmaster introducing the following speakers: Miss Margaret McKinney who toasted the Seniors, Mr. Charles Ellis, class president responding; Miss Martha Mae Boyer, The Mountains, Miss Sarah Witherington giving the response; Mr. Othel Armstrong, We'll get you yet, Mr. R. A. N. Wilson responding; Miss Caldwell gave the Goodnight, closing a program of most witty and most wise sayings, and an evening of rare enjoyment.

SENIOR PARTY

On April 25th, the home of Dr. Wilson was the scene of an unusually gay affair.—Just another Senor party—? Yes, but not only, for there was just as many underclassmen as seniors.

The open party was a great success for all nature was in tune to this gaiety. There was never a place more glorious than Dr. Wilson's yard in the moonlight. And judging from the shadows that flitted in and out, it was realized too.

After an hour of this joy in the moonlight, the air grew chill and the strollers sauntered in, to the fire.

The track meet held between Harvard Yale, Princeton and Maryville was close, but of course Maryville came out victorious.

The eats which are always climatic points at senior parties, were not otherwise on this occasion. When the eats had disappeared and everywhere there was silent satisfaction—a loving cup was brought forth and presented to the captain of the team of Maryville College.

MUSIC GRADUATES ENTERTAINED

April had a very delightful ending for at least twelve girls. On Monday morning Miss Edna Kimble gave a breakfast hike in honor of the piano graduates, Misses Kathleen Enloe, Lilah Hembree, Sallee Huffaker and Virginia Stribling. The hike to McIlvaine woods served as a splendid apetizer. After breakfast a trip through 'Lover's Lane' and to the 'Haunted House' completed the entertainment. The other guests were: Misses, Rankin, Taylor, Dickerson, Stivers, Greene, Fain and Brown.

GLEE CLUB CONCERT

Annual Concert of Tuesday Most Popular Number of The Year.

The Annual Glee Club Concert on last Tuesday evening was one that will not soon be forgotten. Such talent as was shown by the participants in this event is rare.

First, the Glee Club as a whole merits commendation. Their numbers all being of a classical nature showed great expertness and skill which was a proof of careful and faithful practice.

Mr. Hamilton's Bass solos, ''The Two Grenadiers'' also ''On The Road to Mandalay'' were greatly appreciated by the listeners. All through his selections he seemed to hold the audience spell-bound with his mighty voice.

As usual the quartet, Messrs. Anderson, Sullinger, Keen and King delighted their audience. The two interesting selections which they sang were ''The Postillion'' and ''I Heah de oices Callin'.''

The violin solo from the Opera Wagner's Lohengrin as played by Mr. Keen deserves an important place in the selections of the evening.

Everyone welcomes Mr. Bannister to the stage. His ''Elite Polka'' by Boardman was unusually interesting. His pure tones and artistic finish are always predominant.

''Variety is the Spice of Life'', so a bit of spice was inserted here. Mr. Gauding read ''The Cremation of Sam McGee'' by Robert W. Service. Not only do we find ''June'' a star in Maryville plays but he proved himself an interesting and entertaining reader.

''O Lovely Night'' (From Tales of Hoffman) as rendered by the Glee Club Orchestra, Messrs. Keen, Bannister, Sullinger and Miss Gregg, was very impressive and interesting.

Who built the Ark? If you shouldn't happen to *Noah* you might ask the (Harmony Four) Messrs. Marquis, Sullinger, McMurray and King, they seem to be very familiar with this particular portion of the Bible. They soon convinced the audience of this knowledge too. Their Refined Specialties succeeded in opening the eyes of the very sleepiest.

At least we know that Mr. King has one outstanding talent. Surely no one realized that there were so many different types of snores. The quality of this work gave evidence of hours of faithful practice.

Mr. Cowan's vocal selections 'Roamin' in the Gloamin'' and 'When I was Twenty-one', also the Scotch Folk Songs, Mother Machree and others as he played them on his one string violin were all very important features of the Glee Club Concert. Scotty's interpretation of these songs gave the audience a clearer conception of the Scotch customs and dialect.

Ill-Treated Il Trovatore, we must admit was ill-treated. This little burlesque in one act was quite amusing in several respects and was very clever as a whole.

The Glee Club made their last appearance in which they sang ''De Coppah Moon''. They concluded with our ''Dear Old Maryville''.

The Glee Club Concert was one of the most important and entertaining events of the entire school year. Every student looks forward with pleasure, all year to May 1st. which is the Glee Club's established date of performance.

Miss Gregg deserves highest

MAY DAY FETE

Baldwin Lawn Becomes Fairyland for The Coronation of The Queen of May.

A long time ago, when you and I still believed in fairies,—before the chilly atmosphere of our grown-up wisdom had banished them to a happier star, it was the custom once each year, in the merrie month of May, for the elves and fairies, the dwarfs and sprites, and the other Little People of the forest to come out from their sylvan haunts to dance and frolic on the green in honor of the winsome Queen of May, who chose her king and donned her crown that day.

The Y. W. C. A. girls, being wise in their day and generation know that even the most skeptical of Human Folk cherish a scret hope that some time they may be able to pass the gates of the enchanted forest and surprise the Woodland Folk in the midst of their elfin glee. And so, willing to satisfy this universal curiosity, they planned the May Day Fete that was held on Baldwin Lawn last Monday.

After a musical prelude that left the spectators thrilling with the certainty that something wonderful was about to happen, the Queen's attendants, familiarly known as Misses Standish, Heiskell, Franklin, Biles and Ellis, each with her chosen knight, entered and formed a group about the throne. Next came the Queen herself, borne in a chair of state and attended by her maid of honor and her two petite train bearers. The Queen is known to her friends as Miss Mary McSpadden, her maid of honor goes by the name of Alice McAnulty, and her train bearers are the little Misses Minnie and Marian Huddleston.

When the Queen had taken her place, a king's son, known in every day life as Mr. Alvin Keen, entered in the guise of a wandering minstrel, hoping to see the Queen. While he waited he drew such witching strains from his violin that all the Little People were charmed from their hiding places in the greenwood. First came a woodland sprite, otherwise Virginia Sting, who danced in time to the music, then played her harp, which was brought her by another sprite, Ruth McMurray.

Then the minstrel's music brought forth a troop of goblins, who sang and there performed their elfin antics on the green. Soon the music called out all the bolder among the fairies, and those present were allowed to watch a ''really-truly'' fairy dance. Next came the dwarfs, queer looking little old men with very red noses and long gray beards, dressed in green and with hatchets in their hands. We heard it whispered that they are the children of some of our town friends every day except May Day. After a drill they had learned in Elfland, the dwarfs told how they had prepared and set up the May Pole for the pleasure of the Queen of May.

After the dwarfs came the May pole dance, by another company of fairies. As the graceful figures in green and white wove the ribbons in and out in time to the music, and accompanied by the tinkling of the tiny bells they wore on their fet, fairyland seemed a fact and not a fancy. The roses, unable to resist the witchery of the minstrel's music, sent out four of their number to render a tribute of song.

The music grew sweeter and more compelling until the Queen stepped down from her throne and moved

(Continued on page two)

GRADUATE RECITALS

Recital of Monday Evening by Miss Walker, Pianist and Miss Dorn, Reader.

Miss Walker's opening number Etude Artistique was a brilliant beginning for the delightful program which followed, giving evidence of her splendid technical ability contrasting with the lovely Valse of Chopin which followed it.

The Intermezzo by Teschetizky usually so dreaded by musicians because of the heavied technical demand necessary in its rendition was masterfully rendered and artistically interpretated.

The Dream of Love by Liszt is probably one of the most universally loved and appreciated of all the compositions of this master. Miss Walker brought out in a beautiful way the singing quality necessary in the interpretating of this composition.

The Etude by Mendelssohn with its Arpeggio effects in the right hand against the melody in the left is a beautiful evidence of this composer's skill in passage work. Miss Walker intepreted the study with much feeling and art. Her Dance of Gnomes by Liszt capricious and playful was the crowning evidence of her wide range of her technical execution and interpretative power. This number made a brilliant and effective close for this very delightful program.

The Expression Department is justly proud of Miss Ethel Dorn who delighted a large audience last Monday evening with her graduation recital. When she first came out on the stage she won the admiration of her audience by her pleasant manner and friendly attitude. Then her audience was further pleased by her impersonation of sweet Pierette and her baby. After this successful beginning the interest in her readings did not lesson until her last word was spoken.

Miss Dorn's work in expression has certainly been a success and as we watch her in the years to come we will see and hear even greater success as she continues her profession as a reader in which she is so very talented.

Fourth Recital To Be By Miss Enloe, Pianist; Miss Gollmar, Reader.

Three Graduate Recitals have already been given this year and there are only two remaining. The fourth and next to the last Recital will occur Monday evening, May 7th. presenting Miss Kathleen Enloe, graduate in piano and Miss Louise Gollmar, graduate in Expression.

These girls are both well know on the Hill by their frequent appearances in various events that have been presented in the chapel.

Miss Enloe has an artistic finish and a calmness of poise that is not common to every performer.

Miss Gollmar may be remembered by her role as Cora in ''Clarenec'', in the Alpha Sigma Midwinter and as ''Amy'' in 'Little Women'' the Theta Epsilon Midwinter.

Miss Enloe's program will consist of the following numbers:

Praebedium Op. 10, No. 1, MacDowell
Japanese Etude - - - Poldini
Shepherd's Hey - - - Grainger
Fantasia - - - - - - Mozart
Nocturne Op. 9, No. 2 - - - Chopin
Polonaise - - - MacDowell

Miss Gollmar will read to us the familiar story, 'Just David'' by Eleanor H. Porter.

PALACE THEATRE PROGRAM

FRIDAY, MAY TH.
Marian Davies in ADAM AND EVA. Also an Educational Comedy, 'Tis The Bull.

SATURDAY, MAY 5TH.
Tom Mix in ARABIA. Also First Episode of 'The Oregon Trail'.

MONDAY AND TUESDAY, MAY 7TH AND 8TH.
Charles Chaplin in 'The Pilgrim' Also Kinograms.

WEDNESDAY, MAY 9TH.
Priscilla Dean in THE FLAME OF LIFE. Also a Chester Comedy, ANY OLD RAGS.

THURSDAY, MAY 10TH.
A George Melford Production 'JAVA HEAD' with Learice Joy, Jaculine Logan, Raymond Hatton, George Fawcett, and Albert Roscoe Also Larry Semon in 'The Counter Jumper'.

—COMING—
MONDAY AND TUESDAY, MAY 14TH AND 15TH
Booth Tarkington's Masterpiece, THE FLIRT.

Our friends the Seniors once again remind us that Commencement is near. Their caps and gowns certainly do enable them to play their role of seniors much better.

Reserves Defeat Maryville Hi

(Continued from page one)

ed throughout and both teams had five errors marked against them. Ted Hawn, pitching for the Reserves, was touched for nine safe hits but the hits were scattered and only counted for four runs. He allowed two passes and struck out seven men. Delaney, pitching for Maryville High, allowed ten safe hits but most of these were bunched and counted for nine runs. He walked six men and struck out eleven.

Manager Turner was the leading slugger of the day, securing a triple and two singles out of four times at bat.

McMurray also had his eye on the old ball, securing a triple and a double out of three times at bat.

McClung got two nice singles, Hawn a two-base hit and Gamble and Musick each contributed a single.

For Maryville High, Bogle, Delaney, and Wallace each got two singles while Bird, Blankenship and McCall got a single each.

Summary:	R	H	E
Reserves	9	10	5
Maryville High	4	9	5

Batteries:
Reserves: Hawn and McClung, Turner.
Maryville High: Delaney and Wallace.

McGinley Represents M. C. At Georgia Tech. Relays

Slim McGinley represented the Orange and Garnet at the Georgia Tech. relay games, held in Atlanta last Friday and Saturday. Although Slim did not win any first or second places, still he made a creditible showing, taking into consideration the fact that the fastest men of the largest southern colleges were entered in the meet.

Slim was unfortunate in as much as he drew three of the fastest runners at the meet for his heat in the preliminary race. He was running against Red Baron of Georgia Tech., Anderson of Georgia Tech., and Chandler of Clemson College. Chandler was the winner of the final in the one hundred yard dash.

In the High Hurdles, Slim also drew the winner in the final, Brunson of Mississippi A. and M. College. Slim came out third in the preliminary but in as much as only the first two were qualified, therefore he was not eligible for the final.

Coach Bond accompanied McGinley to Atlanta. They left Thursday night and went to Chattanooga and from there drove through to Atlanta. Both report a fine time.

Watch Slim go in the meet with Centre College Saturday. We are all behind you Slim, Old Boy.

MAY DAY FETE

(Continued from page one)

toward the player. She too had fallen under his spell, and had chosen him for her King. When they reached the throne, he crowned her with a wreath made of Spring's brightest blossoms.

The festival closed with an elfin chorus by all the Fairy Folk, then the King and Queen went back to their forest retreat. To appear no more for a whole year.

MARYVILLE WINS HERE BUT LOSES AT BEREA

The last Forensic contest of the debate season, between Maryville and Berea, was held Saturday, April 28th. This debate may easily be conceded to be the hottest fight of the season. The question debated was that of the adoption of a Parliament Cabinet form of Government by the United States.

Maryville's team on the home floor consisted of "Bill" Arnold and Verton Queener. Both men were veteran debaters of two seasons or more and the way they handled that "ever ready line" defies description. Needless to say they won an unanimous decision.

Maryville's team at Berea consisted of R. A. N. Wilson and David King. David is a veteran of two years and R. A. N. proved to have all the ear marks of one

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME EIGHT — MARYVILLE, TENNESSEE MAY 11, 1923 — NUMBER TWENTY-SIX

THE ATHLETICS OF THE WEEK

CENTRE TRACK MEN DEFEAT MARYVILLE

The praying Colonels of Centre College, by taking first place in eleven of the fourteen events and adding an additional five points by copping the mile relay, defeated the Orange and Garnet Speed artists by the score of 81 to 49.

The meet was oringinally scheduled to be held on the Maryville College track but on account of the heavy rains of the two days before, it was transferred at the last minute to Shield-Waktins field at the University of Tennessee.

The outstanding star of the meet for Maryville was Slim McGinley who was also high point man, scoring 17 points. He was first in both hurdles races and second in the 100 and 220 yard dashes, and third in in the high jump.

Berryman and Kimball were the two stars for Centre, Berryman winning the 100 and 220 yard dashes and the quarter mile run. Kimball won first place in the mile and half-mile and ran one lap in the relay race.

Sanchez took first place in the two mile run and with McGinley taking first places in the low and high hurdles, were the only three firsts that the Highlanders could capture.

Results:

100 yard Dash—Berryman, Centre 1st.; McGinley, Maryville, 2nd.; Miller Centre, 3rd; Time 10 1-5.

Mile run—Kimball, Centre, 1st.; King, Maryville, 2nd.; Templin, Maryville, 3rd.; Time 4 min. 49 3-5 seconds.

220 Yard Dash—Berryman, Centre, 1st.; McGinley, Maryville, 2nd.; Rohre, Maryville, 3rd.; Time 22 3-5 seconds.

Running Broad Jump— Leonard, Centre, 1st.; Miller, Centre, 2nd.; Hortin, Maryville, 3rd.; Distance 20' 9".

Javelin— Sharon, Centre, 1st.; Williams, Maryville 2nd.; Hamilton, Maryville, 3rd.; Distance 137' 8"

120 Yard High Hurdles—McGinley, Maryville, 1st.; Mountjoy, Centre, 2nd.; Time 16 4-5 seconds.

440 Yard Dash—Berryman, Centre, 1st.; J. King, Maryville, 2nd.; Brown, Maryville, 3rd.; Time 53 4-5 seconds.

220 Yard Low Hurdles—McGinley, Maryville, 1st.; Leonard, Centre 2nd.; Rohre, Maryville, 3rd.; Time 26 4-5 seconds.

16 Pound Shot Put—Gordy, Centre, 1st.; Leonard, Centre, 2nd.; Thrower, Maryville 3rd.; Distance 38', 8 1-2".

Pole Vault— Mountjoy, Centre, 1st.; Milling, Maryville, 2nd.; Sharon, Centre, 3rd.; Height 9' 9¼.

Half Mile—Kimball, Centre, 1st.; King, Maryville, 2nd.; Simmons, Centre, 3rd.; Time 2 min. 7 2-5 s.

Discus—Gordy, Centre, 1st.; Leonard, Centre, 2nd.; Robinette, Maryville, 3rd.; Distance 111' 6".

Two Mile Run—Sanchez, Maryville, 1st.; Templin, Maryville, 2nd.; Hughes, Centre, 3rd.; Time 11 min. 19 4-5 sec.

Running High Jump—Mountjoy, Centre, 1st.; Leonard, Centre, 2nd.; McGinley, Maryville, 3rd.; Height 5', 9 1-4".

One Mile Relay—Centre, 1st.; Maryville, 2nd.; Time 3 min., 39 sec.

FRED HOPE FUND DRIVE NEXT WEDNESDAY

To be presented by R. O. Franklin a classmate of Fred Hope. This is one of the finest traditions of the College. Let's put this drive over the top, and make it a record one.

SUMMARY OF KENTUCKY TRIP

Coach Honaker and his baseball team returned Saturday morning from a five day trip through Kentucky. They won three games and lost two. Those making the trip with Coach Honaker were Captain Sneed, Manager Partee, Williams, Mathews, Acton, Burleson, Ruble, Shanks, Riskey, McCall, Watkins, and McCarrol.

The first game on the trip was with Centre College at Danville, Ky. "Rookie" Mathews, pitching for the Highlanders, held Centre to four hits and Maryville emerged victorious by the score of 4 to 3.

Box Score:

GRADUATE RECITAL

Miss Enloe, Pianist; Miss Gollmar, Reader.

Miss Louise Gollmar's appearance in her graduate recital in expression was a delight to a very large audience. She has appeared many times before on the chapel stage and always she has won the admiration of the audience by her natural talent as an actress. In her reading of "Just David" she even surpassed her established ability and we may say it was her master piece. Her impersonation of David and the pictures of different events of his life seemed so real that tears filled the eyes of many who listened and then with a bit of humor the tears disappeared and laughter filled their places. For forty-five minutes Miss Gollmar held the attention and interest of her audience which proves her unusual excellence as a reader.

Miss Enloe's first number was a Praeludium by MacDowell. The very dramatic introduction of this piece is followed by a quiet movement through which the melody is carried by the left hand and Miss Enloe brought out to splendid effect the beautiful tone work required in the Praeludium.

One of the very popular numbers on Musical programs at the present time is the Japanese Etude by Poldini. This number seems filled with the very laughter and joy of the people in the land of Cherry Blossoms. It is capriccious and playful and requires much lightness and delicacy of technique which Miss Enloe did with exquisite art reflecting beautifully the mood of the composition.

The Shepherd's Hey by Percy Grainger is taken from one of the old English Morris dances. These tunes are still danced by teens of "Morris Men" decked out with bells and quaint ornaments to the music of fiddle and pipe in some of the Agricultural districts of Northern England. The tune of Shepherd's Hey is very well known throughout England. The word "Hey" devoting a particular figure in Morris dancing. The great American painist Percy Grainger has made a striking success of this and other British folk songs and dances. Miss Enloe interpreted this with much enthusiasm and understanding of the nature of the composition and its background.

Her heaviest number was the Fantasia and Sonata XVIII by Mozart. This classic composition requires an intelligent understanding and appreciation of the best in music to bring out the beauty which Mozart music should express. Miss Enloe demonstrated her ability not only to interpret a classic intelligently and correctly but also lent to it the warmth and color to make this long and difficult number interesting. Her phrasing was clear cut and artistic throughout all the changing moods of the Fantasia.

How an audience responds to the music of Chopin! In nothing does he express himself more beautifully than in this Nocturne. Even the uneducated musically rise to an appreciation of this exponent of the more modern music. This exquisite Nocturne Op. 9 No. 2 reflects most truly the spirit of the night. Its lovely melody makes a peculiar demand upon the listener while he marvels at the beauty of the more highly embellished phrases which Miss Enloe handled with such delightful art that one forgot technique in the appreciation of the

(Continued on page three)

FORENSIC SEASON OF 1923

A REVIEW OF THE DEBATES; AND THE GRADUATING DEBATERS.

The 1923 Forensic Season at Maryville has been marked by a considerable extension of the program of interscholastic debate and oratory. Two notable new features have been (1) the first debate tour ever made by a Maryville team and, (2) the revival of the Tennessee Oratorical League with Vanderbilt University, The University of the South, Chattanooga University, Cumberland University, and Maryville College as the membership.

Perhaps nothing in the recent history of debate on the Hill has created more interest on the part of every one in forensic activities than the debate trip made by our team in the latter part of March. The Echo has already given a full account of the trip.

The season opened with the traditional girls' debate with the Tusculum coeds. This debate was of unusual interest because of the question: Intercollegiate athletics should be abolished. The home teams won the decisions in both cases. The Maryville girls presented excellently prepared cases at both ends of the line.

The trip with its five-debate itinerary came next on the season's program. Losses by 2 to 1 verdicts to Carson and Newman, King, and Wake oFrest, were followed by unanimous victories over Presbyterian College and Newberry.

The second debate at home was the men's dual debate with Tusculum. This debate was also divided with the home teams winning. Government ownership of coal mines was the proposition discussed.

The dual debate with Milligan came next and was another 50-50 affair except that in this case both home teams lost. The proposition discussed was the Soldiers' Bonus bill.

A new opponent, Berea College furnished the last debate of the season. Again the decisions were divided, both home teams winning. The debate here was one of the best ever staged on the Hill.

On April 6, the Tennessee Intercollegiate Forensic League Oratorical Contest was held here with five colleges entered. Edward Cornelius, our orator was accorded second honors. Mr. Hale of Carson and Newman was first place man.

Leslie Poe represented Maryville in the Tennessee Oratorical Contest at Lebanon on May 4. Reports credit Mr. Poe with an excellent performance. The Vanderbilt orator won first prize and the University of Chattanooga man second. This contest will be held here next year.

So much for the events of the season. For the first time in several years we have a balance of victories against us. Alibis are bad form, and furthermore we have none. The season's record is, after all, a creditable one. Nine of the thirteen debates were held on foreign floors. Only one question debated was a genuinely two-sided proposition but, in spite of this, our teams fought valiantly and the closeness of the battles is indicated by the fact that of the thirty-nine judges' votes for the season, 21 were favorable to us and 18 were cast for our opponents.

Next year is before us. And those of us who believe Maryville has a right to a place in the forensic sun are ambitious for a strong schedule and some earnest work. Plans are under way for the holding a forensic meet to determine the forensic championship of East Tennessee, and hopes are high that we may be able to send a debate team to the national convention of Pi Kappa Delta. These are some of the plans now a-brew for next year. It is all vision yet, however, and its fulfillment will depend in a large measure on the number of recruits who enlist for forensic honors and in the sort of platform talent which next fall will disclose.

Ten veteran debaters will be lost by graduation in June: Two girls and eight boys. Their places will have to be filled by enthusiastic volunteers if the old records are to be kept alive and Maryville continues her present forensic traditions.

The record of the ten seniors follows. In addition to the ten who have actually represented Maryville in debate, five other Seniors may properly be counted as members of the forensic fraternity. Emery Fritz was an alternate last year on the team debating against Milligan, and Ruth Allen, Annarine Atkins, Ruth Gamble and J. Lynn McClung were all members of the girls' team which was preparing to debate Elon College only to have their hopes dashed by Elon's cancellation of the debate.

SENIOR DEBATERS

Armstrong, Ralph A., 1920 Affirmative alternate vs L. M. U.; 1921, Affirmative vs. Carson and Newman at Jefferson City, lost; 1922, Negaitve Captain vs. Milligan at home, won; 1923, Affirmative vs. Carson and Newman at Jefferson City, lost; Affirmative vs. King at Bristol, lost; Negative vs. Presbyterian College of South Carolina at Clinton, won. 1922-23 President of Forensic League P. K. D.

Arnold, Herrick R. 1920, Affirmative vs. Tusculum at home, won; 1921, appointed affirmative captain vs. Tusculum, prevented from debating by illness; 1922, affirmative vs Roanoke at Roanoke, won; 1923, Negative captain vs. Berea at home, won. P. K. D.

Buffat, Roy S. 1921, Negaitve vs. Tusculum at home, won; 1922, affiramtive alternate vs. Tusculum; 1923, affirmative vs. Milligan at Miligan, won. P. K. D.

Cox, Henry C. 1922, Negative alternate vs. Roanoke; 1923, Negaitve captain vs. Milligan at home, lost.

DeHaven, Ethel M. 1921, Negative vs. Tusculum at home, won; 1922, affirmative captain vs. Tusculum at Tusculum, won; 1923, appointed affirmative captain vs. Elon at Elon, debate cancelled. 1922-23 President of Girls' Forensic League. P. K. D.

Poe, G. Leslie. 1921, Second place in Second Tennessee Intercollegiate Forensic League Oratorical Contest at Carson and Newman; 1922, Affirmative vs. Roanoke at Roanoke, won; 1923, Negative captain vs. Tusculum at home, won; Represented Maryville in Tennessee Oratorical Contest at Cumberland University. P. K. D.

Rankin, Reva E. 1921 Negative alternate vs. Tusculum; 1922, Affirmaitve vs. Tusculum at Tusculum, won. P. K. D.

Stanbery, Eugene W. 1922, Negative vs. Tusculum at home, won; 1923, Affirmative captain vs. Milligan at Milligan, won. P. K. D.

Wilson, R. A. N. 1923, affirmative vs Berea at Berea, lost.

Patronize Those Who Advertise. They Make The Paper Possible.

The Echo solicits news items, comments, and expressions of opinion from the students, and from interested alumni.

The value of the Blue Ridge Conferences has been ably presented by the Y officers by means of the Echo, motion pictures and speakers. How about being a part of Maryville's delegation?

* * * *

If the College had a radio-telephonic station installed in the chapel the Glee Club would not have to go away to give their excellent programs, our chapel speakers could be heard, etc., etc. Why not?

* * * *

The Y intends the reading room for the benefit of every fellow. Use it. Yet at the sam etime remember that the other fellow desires its use also. Let's cooperate with the Y in the upkeep of this reorganized reading room.

* * * *

One of the ideas of the Student Council seems to be a neat campus. Our biggest eye-sore is the fountain. Why not let it help to make our campus more beautiful, thus giving the student some incentive to help beautify the campus.

* * * *

THE CHILHOWEAN

You may be interested to know that the 1923 Chilhowean is completed and will be delivered to the Junior Class Tuesday or Wednesday of next week. However, the books will not be delivered to the student body until all accounts are settled. Most classes and clubs have paid for their space but a few still owe all or part on their pages. This must be paid now. Remember that the Chilhowean cost a lot of money and that the Junior Class consists of students just like yourself. They can or at least they have paid their own bills but they can not and, you have no right to expect them to pay your bills. If you owe your class or club dues you may be sure that your class or club is in debt and that you will be withholding the book not only from yourself but from your classmates and friends who have paid. Your part is small but it is a debt just as your board or doctor bill is a debt. Pay now and avoid further delay or publicity.

We wish to express our thanks to the Expression Department for the help in arranging the May Day program. We realize that words are futile in showing our appreciation to Mrs. West, who always so willingly and unselfishly offers her aid Her loving help enables us to do many things we could not accomplish unaided and her compensation can never be complete.

—The Y. W.

Perhaps they call it the 'almighty dollar' because it takes an almighty lot of hustling around to get hold of 'em.

The Forensic Season of 1923

(Continued from page one)

Wilson, W. Clyde. 1921, Negative alternate vs. Carson and Newman; 1922, Negative vs. Milligan at home, won; 1923, Affirmative vs. Tusculum at Tusculum, lost.

Total Debates Won 6	Total Favorable Judges	21
Total Debates Lost 7	Total Unfavorable Judges	19

THETA EPSILON

Theta girls little dreamed that they would attend two chapel exercises Saturday, but those that came to Society had that pleasure. We had a young man to speak in chapel that morning and Mrs. Wichalas Gasilino (Sue Veazey) spoke in chapel that evening at Theta. Her subject was Scotland and her talk was made more impressive by the old Scotch songs that the Theta chorus sang. However, Dean Barnes (Susan Carson) and Professor Orr (Mary Biles) didn't seem to approve of the costumes of the chorus, and advised them to consult Miss Molly. We wonder if they did this.

Girls, don't forget Theta next Saturday night.

BAINONIAN

The girls of Bainonian were glad to meet after the two weeks' vacation and were agreeably surprised to find quite distinguished company present. Miss Ethel DeHaven, a Senior with literary tendencies introduced the visitor, Mr. Geoffrey Chaucer, writer of Canterbury Tales. She neglected telling us all about his ma and pa, and interesting things like how many times he was married, but impressed upon our mind that he "shuffled off this mortal coil" ninety-two years before Columbus discovered America, and that he wrote Canterbury Tales. She explained that a long time ago, before the matter evoluted so far, people used to get pricked so hard by their consciences that they started right off to church to repent. Canterbury Tales is the collection of stories told by the people going to the shrine of Becket. Now the knight, the prioress, and the priest consented to tell us their tales and made their appearance in order.

In this program we found satisfaction for our romantic, supernatural and moral likes—to say nothing of the musical number which balanced the program so well.

Would you like to come this Saturday night and live over the memories of your early school days?

CABINET BANQUET

Covers were laid for seventy, in the Home Economics rooms in Science Hall. The eats were prepared and served by the Teacher's Training Class of the Home Ec. Department. May they live long and prosper! The menu was as follows:

Veal Birds
Green Beans New Potatoes
Dinner Rolls

Tomato Cheese Salad
Saratoga Flakes

Apricot Ice Devil's Food Cake
Coffee Nuts

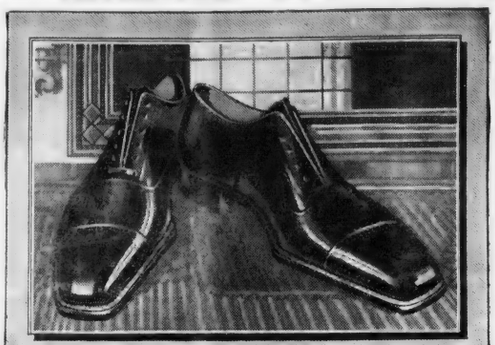
Dr. and Mrs. McMurray were the hosts, and Dr. McMurray acted as toastmaster. The Y. W. C. A. was toasted by Roy Buffat, and response was made by Dorothy Winters. Katherine Wilson then proposed the Y. M. C. A., and Sam Franklin replied. The Junior Y. W. was the subject of Mary Robison's speech, to which her successor as Junior President, Alice Robison, replied. Mrs. McMurray gave the Good-Night toast. Her message was, "Do the biggest thing you can; you always can if you think you can."

Our idea of a kill-joy is the fellow who has already started to predict hard times for 1924 because it's a presidential year.

"What do you think of that joke?"

"A bit shady, I should say."

"Well, no wonder, I wrote it under a tree."



ANNUAL HIKE GOES TO ELKMONT THIS YEAR

Measured in terms of numbers 310 M. C. boys and girls left Monday morning for Elkmont; measured in enthusiasm and pep, a thousand measures. The engine seemed to be the only ani-mule around these parts that didn't like the trip; it puffed and blowed all the way and once even kicked the traces and left us and the train behind.

What did we see up at Elkmont? Oh, a bridge and a river and a lawn and a camp and some mountains— but wasn't that enough? There were benches along the bridge,— erhem!—a seesaw on the lawn and enough slippery stones in the river to make passage by any means exciting to say the least, and trails leading straight to campfires on the tops of the mountains.

JUNIOR Y. W. C. A.

Margaret Bauman was leader this week; the topic was, 'Do you really mean it?" The Lord's Prayer was divided into four parts and discussed. Sarah Given had the first part: Our Father who art in Heaven, hallowed by thy name; Martha Anderson: Give us this day, our daily bread; Anne Shockey: Lead us from temptation; Jewell Coleman: For thine is the kingdom and the power and the glory. These girls made us think about how often we had said the Lord's Prayer in a meaningless way. Girls, next Sunday is Mother's Day, so let's all go to Y. W.

FOR THE MAN — The Florsheim Shoe — WHO CARES

DAVY EXPERIMENTING WITH

GARNETT IN THE ROYAL SOCIETY

The First Electrochemist

NITROUS oxide, according to the science of a century ago, was "the principle of contagion when respired by animals in the minutest quantities." Mere say-so.

Imaginative yet skeptical Humphrey Davy, who believed in experiment rather than in opinion, "respired" it and lived.

It was this restless desire to test beliefs that made him one of the founders of modern science. Electricity was a new force a century ago. Davy used it to decompose potash, soda, and lime into potassium, sodium, and calcium; thus laying the foundations of electrochemistry. With a battery of two thousand plates he produced the first electric arc—harbinger of modern electric illumination and of the electric furnace.

Czar Alexander I and Napoleon met on a raft to sign the Treaty of Tilsit while Davy was revealing the effects of electricity on matter. "What is Europe?" said Alexander. "*We* are Europe."

The treaty was at that time an important political event, framed by two selfish monarchs for the sole purpose of furthering their personal interests. Contrast with it the unselfish efforts of Sir Humphrey Davy. His brilliant work has resulted in scores of practical applications of electrolysis in industry and a wealth of chemical knowledge that benefit not himself but the entire world.

In the Research Laboratories of the General Electric Company, for instance, much has been done to improve the electric furnace (a development of Davy's arc) and new compounds have been electrochemically produced, which make it easier to cast high-conductivity copper, to manufacture special tool steels, and to produce carbides for better arc lamps.

The last game on the trip resulted in a 8 to 0 shutout against Georgetown. Burleson, pitching for the Orange and Garnet machine, let the Kentuckians down on four hits. This was Burleson's second victory on the trip. Burly says that he would sure like to go up against the Tennessee Vols. We sure like to hear that kind of talk.

GRADUATE RECITAL

(Continued from page one)

beauty underlying it.

The Polonaise by MacDowell made a strikingly interesting ending for this very delightful program. The military character of the composition with its suggestion here and there of the wild Hungarian melody which MacDowell reflects through certain parts of the composition give it a warmth and beauty sometimes lacking in the more formal type which a polonaise reflects. The difficult runs of this masterpiece as well as the contrasting delicate passages gave evidence of Miss Enloe's diversity and wide range of execution and interpretation.

THE BATTLEGROUNDS OF BLUE RIDGE

By R.S.B.

Every student who has enlisted in the army of Christian Soldiers must be ready and willing to march out on many battlefields; train consistently, and obey the Captain.

But what has that to do with Blue Ridge?

From all over the Southland students turn their faces to the Blue Ridge Mountains in whose care and protection is the training camp for Youg Men and Youg Women. This pilgrimage happens the latter part of May and during the month of June for the Y-students.

On leaving Black Mountain, N. C. and in answer to the call of the mountains, which lift their peaks high, and in whose shadows and protecting walls one can see Robert E. Lee hall, the outstanding impression is, ''A Haven of Rest and Seclusion''. Yes, so it is, and it is in just such places that the greatest battles of life are fought, the broadest visions are seen, and the deepest resolutions of life are made.

A Call to Blue Ridge is a call to the Mountains, a call to enter into that world fellowship which knows no barriers and seeks to do the Master's will.

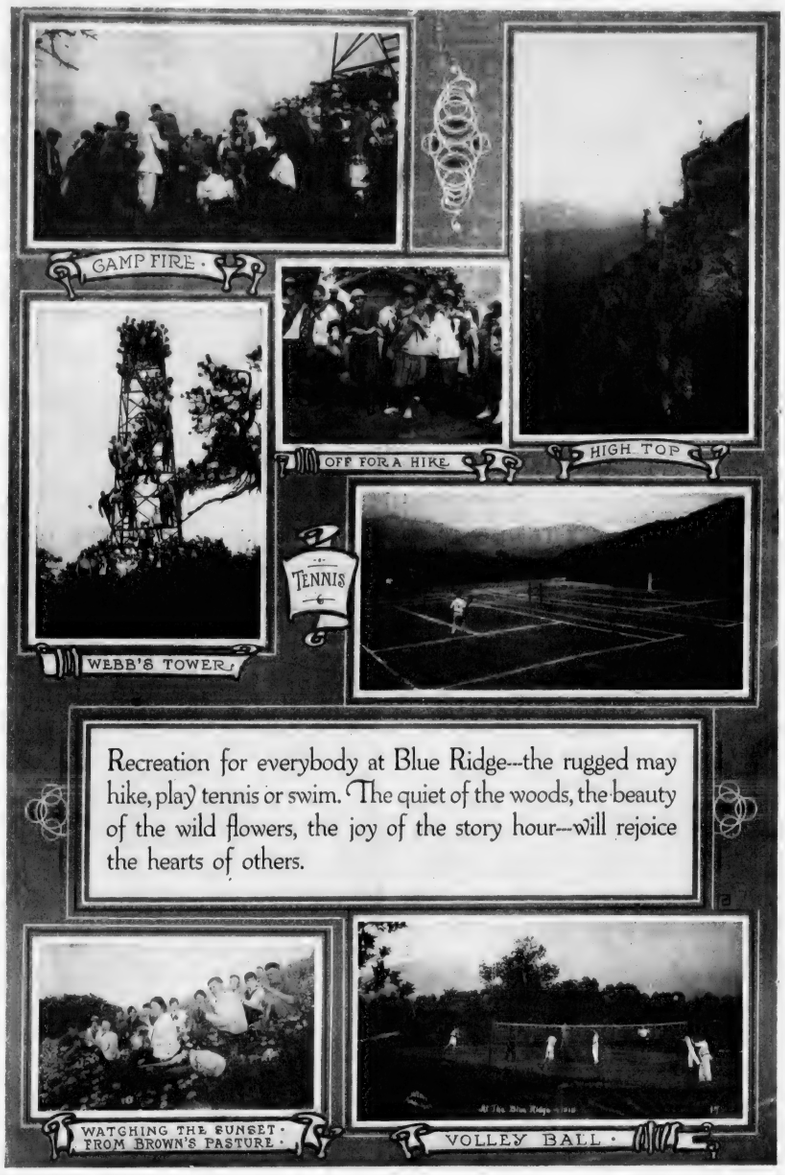
But narrow self often bars the way, and so it is that the battle begins. A struggle of the spirit, and a wrestling with those things vital to the deepest needs and cravings of the soul of men.

Men of age, experience, character, and mind fearlessly proclaim the Truth and youth is prompted by the Holy Spirit to act. Prompted to make that decision which will mean the choice of a Life Work.

And so it is that alone on the Mountain side, or it may be another ''Battle Above the Clouds'', or deep in some gorge beside a rippling brook, unheard of battles are fought and on the Alter of Service and Love another living sacrifice is placed, and anther Victory is won.

And to the Student soldier who is not afraid of such mountain top experiences, and who is anxious to be inspired, uplifted, and strengthened in body, mind and soul, I would say, ''Go To Blue Ridge''.

The Student who attends the Conference at Blue Ridge this summer will be brought in contact with men and messages with personalities and views that he will never be brought in school life. You will meet men that you would never meet at any other place.



Some of the speakers who will be there this summer are: Dr. Hurbert Gray, the great preacher of Scotland, Robert E. Speer, of whom we all know, Arthur Rough, a man whom is a lover of men of this generation, to know him is to love him, Eugene Barnett, Student Secretary of China, J. Still Wilson from California, Dr. O. E. Brown, and Dr. W. D. Weaherford whom we all know.

Attendance at the Conference will afford you the opportunity to meet many fellows from different Colleges and Universities. Many of these men are the picked men of student groups, all interested in the welfare of the students of today.

SENIOR Y. W. C. A. PRESENTS A PLAY

The plot of 'The Two Masters'' is simple enough. The daughter of missionary parents in China is sent to America to complete her education. She makes her home with friends of her mother,—her dearest chum of college days, who was once deeply interested in foreign missions but who has now given Society the first place in her life, and the chum's mother, who still has an eye single to her Master's service.

The girl has a vision of her own hard-working, slef-denying mother, and instead of giving her talk on ''Picturesque Pagodas'', she tells the Club that from henceforth she is determined to serve but one Master, and that in His service she will return to China to help in her mother's great work.

HIKES AT BLUE RIDGE

One of the happiest experiences during a ten days conference is the hikes. A trip to Blue Ridge would not be complete unless you see some of the scenes while there. If you like to climb the mountains, breathe the fresh mountain air, see the sun rise in the East, the sun set in the West, there is no prettier scene than this from the mountain top. High Top is very much noted for a beautiful mountain top experience andthe rising sun on a clear morning, and more than this when the clouds are red. It makes you think of the great wonders God has for us to enjoy. You may experience the same scenes at Webb's Tower.

There are some other trips or scenes you should not miss during a ten days' conference. Chimney Roch has a variety of scenes which will interest any one from the youngest to the oldest. Mount Mitchel is another wonderful scene. It is now accessible by an automobile road. There are numerous other places of interest near Blue Ridge. If you are in doubt about these scenes, go to the Conference this summer June 16 to 26.

Prof. Minton: Now Mr. Kinsler you may read next.

Arthur Kinsler: Well, this young lady next to me is making me laugh.

Prof. Minton: Miss Keen yo u behave yourself.

PALACE THEATRE PROGRAM

Friday, May 11th
THE KINGDOM WITHIN, a story equal to The Miracle Man, with the Heart interest of Over the Hill. An Educational Comedy, 'The False Alarm'.

Saturday, May 12th
THE HALF-BREED, the love-drama of an Indian and His Mate. Also 'Oregon Trail' No. Iwo.

Monday and Tuesday, May 14th and 15th
Booth Tarkington's Masterpiece, THE FLIRT, with Eileen Percy. Kinograms.

Wednesday, May 16th
Special SHADOWS with an all star cast. A Chester Comedy 'Two Races West'.

Thursday, May 17th.
Dorothy Phillips in THE WORLD'S A STAGE. An Educational Comedy, 'Any Old Port'.

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME EIGHT | MARYVILLE, TENNESSEE MAY 18, 1923 | NUMBER TWENTY-SEVEN

ATHLETICS FOR THE WEEK

MARYVILLE HOLDS UNION TO A 6-0 SHUTOUT; BUT LOSES TO UNIVERSITY OF TENNESSEE.

The Union College baseball team suffered a 6 to 0 shut-out at the hands of the Maryville College Highlanders Saturday. The game was an eight inning affair, being called in the first half of the eighth on account of rain.

Mathews hurled the first six innings for the Highlanders and was master of the situation at all times. He held the Unionites to two hits. Burleson pitched the 7th and 8th frames and never allowed a man to reach first base. The support behind Mathews and Burleson was errorless and the infield man looking swell.

Howard, the visiting pitcher, was touched for ten safe hits, four of which were bunched in the 7th inning, counting for three runs. With two men out, Shanks got an infield hit. aPrtee singled to right field and Ruble got a single which scored Shanks but Partee was held on second. Partee and Ruble then pulled a double steal. ''Bax'' Williams then singled to right, scoring Partee and Ruble. Burleson was safe at first by an error on the shortstop. Williams and Burleson then tried for a double steal but Williams, although making a beautiful slide, wasm caught at third.

The Highlanders made one sally in the 6th on a single each by Williams, Watkins, and McCall. The two other runs were annexed in the 4th inning on errors and a base on balls.

The visitors threatened to score only once and that was in the 5th inning when Dishman and Blair singled, Tye advanced both with a sacrifice hit. However, ''Rookie'' tightened down and struck out the next two batters. The other seven innings, the Unionites were retired in one, two, three order.

Box Score:

Maryville	ab	r	h	po	a	e
Sneed, l.f.	4	0	0	0	0	0
Shanks, s.s.	4	1	3	1	1	0

Summary: 2 Base Hits—Shanks; Singles, Shanks (2); Mathews, Partee, Ruble, Willilams (2); Watkins, McCall, Barker and Dishman. Sacrifice Hits: Ruble and Tye. Base on Balls: off Mathews 1; off Howard 1; off Burleson 0. Strike Outs: by Mathews 6, by Burleson 1, by Howard 4. Stolen Bases: Partee, Ruble and Williams. Umpire: Willis Time of game: 1 hour, 10 min.

Maryville-U. T. Game

Highlanders lost to Tennessee Vols 5 to 0.

Too much Bishop is all that is needed to be said in regard to the Tennessee-Maryville Baseball game here Thursday afternoon. Bishop held the Highlanders to one lonesome hit, for which ''Bax'' Williams gets credit. The support behind Bishop was errorless.

Mathews was touched for ten hits, most of which were infield hits beat out. Fast fielding could have prevented several of the hits. ''Rookie'' struck out nine batters. Bishop was credited with eleven strike outs.

Tennessee scored their first run in the second inning on a hit by Williams, Smith was hit by a pitched ball, and Keister scored Williams on a single to center field. They scored one more run in the sixth inning on hits by Williams, Smith, and Keister. Three runs were made in the seventh when Bowe singled, Cantwell was safe on an error, and Tinkler hit to left field bringing in Bowe and Cantwell. Bishop scored Tinkler.

The nearest Maryville came to scoring was in the fifth inning when Williams hit safely to right field. Watkins advanced Williams to second on a sacrifice hit. McCall advanced Williams to third on a sacrifice hit. Mathews then knocked a hot liver down the first base line but was robbed of a hit when Cantwell made a sensational stop of his grounder.

Tennessee always has their old luck with them whenever they play Maryville.

Batteries:

Maryville: Mathews and Williams.
U. T.: Bishop and Powell.

PREPS DEFEAT CENTRAL HIGH OF KNOXVILLE

The Preps defeated Central High of Knoxville last Thursday at Knoxville by the score of 5 to 3. Godwin, pitching for the Preps, was in midseason form, allowing only two bingles. The team played a nice game, not having a single error chalked up against them.

The infield combination of Clark Dunn, Ellis and Mims especially looked good and all were credited with spectacular playing. Acuff, pitching for Central Hi allowed five hits but lack of support by his team-mates counted for three of the Prep's scores. The other two scores were earned on a single by Dunn and a triple by Captain Mims.

Johnson led the batting for the Preps, securing two of the five hits. Mims, Dunn, and Cox each were credited with a hit.

Batteries: Maryville Preps: Godwin and Sneed; Central High: Acuff and Ault, Harrington.

COURTING SEASON OPENS

Tuesday McMurray and Hall went to Sewanee to play the University of the South. It rained them out that day, but they got into action the next morning. The scores were as follows: McMurray and Hall lost to Allen and Nauts 6-1, 4-6, 7-5. Hall lost to Nauts 7-5, and 6-4, and McMurray to Allen 6-2, 6-4. Considering the fact that Sewanee has won from every school they played except the University of Illinois, having beaten Univesity of Chattanooga, University of Tennessee, and Vanderbilt, and that we made them play hard to win the result isn't so bad.

If the weather permits we wil' play U. T. at Knoxville Friday an here Saturday. Come out and see the contest.

SENIORS IN GREAT SMOKIES FOR WEEK-END

Class of '23 Has Three-Day Holiday in the Mountains.

Every one on the Hill knew Tuesday morning, when the train rolled in from Calderwood that the Senior Week-end Hike had been and was still, a howling success. They didn't have to be told. They know Friday afternoon that it was going to be a success, when they saw that gang of dignified Seniors pull off their dignity and leave for the mountains.

Good times, Good eats, Good spats, good weaher, good duckings, good jokes, good rowing, were all their own and these were used to the best of advantages.

No sooner had supper been served Friday night before certain ones began making explorations, as to the whereabouts of the place, and even though the moon didn't shine, the river front made a wonderful place to while away a few hours. That very first night wild and strange things were experienced. Johnny Trotter and McClung will tell you that the place is inhabited with various wild animals, which are no respector of persons.

Most of Saturday was spent in hiking. Groups went out in different directions, exploring the 'Narrows', the 'Falls', the 'Swinging Bridge', and other places of interest. Ran Wilson and Mary McSpadden spent the afternoon rowing up and down the Little Tennessee river. Even the rain Saturday night did not keep down the spirit, for with chaperones like Dr. and Mrs. Barnes, Mrs. West, and Marguerite Sullinger and Professors Mintier and Hyden, it was impossible not to have a good time.

Sunday morning, Porter Turner and Donald Taylor became distinguished because of the Pan Cakes and Maple Syrup they furnished for breakfast. One member of the gang liked them so well that he managed to get twenty-one of them down, without stopping. All of the meals were ones never to be forgotten.

Sunday night a Mother's Day service was held in one of the cottages, lead by Alice McAnulty, which helped to make the day a perfect one.

Monday morning was spent at the dam at Cheoah, N. Car. about ten miles up the river from Calderwood, and really 'nothing could be finer than to be in Carolina in the morning''. Monday afternoon, the crowds scattered again in different directions. Some across the river to the falls, and it was here that the girls fell—yes fell, in the creek because the boys were determined that these girls should be ducked. Yes, they fell—fell against—well the truth is, they fell against their wills, but what difference did that make. You can ask any of the foolish ten about what followed.

Everybody had the best time they have ever had in their lives, perhaps because they remembered that ''Early to bed and early to rise makes a man healthy, wealthy and wise.'' But the fact was that ''to bed'', and ''to rise'', were both early in the morning.

If you want to have a good time, hurry and get to be Seniors, and go as a class to Calderwood for the week end.

We've also gotten around to the point again where it doesn't pay to leave sugar in the bottom of the cup.

Y. W. HAS A BLUE RIDGE BANQUET

Ever hear of a Blue Ridge? The girls who went to the banquet last Wednesday night know that it is the place in the ''Land of the Sky'' where you go for a ten days' Conference, and that it is the place where you get such eats as chicken a-la king, and where you revel amid all the beauties of nature's very wonderful-est wonderland, and best of all, where you get inspired and thrilled almost to the busting point by hearing world problems discussed by such leaders of Christian thought as Robert E. Speer and others of his kind.

The function was held for the purpose of working up the enthusiasm necessary to send a large number of girls to the Conference this year, and if the pep generated at the banquet is any sign, Maryville will have a large representation.

The program, exclusive of the eats, (which were second only to those to be obtained at Blue Ridge), consisted of music, Blue Ridge songs, miscellaneous yells and toasts.

Irene Curtis rendered a solo, accompanied by Madeline Holmes at the 'cello. Virginia Sting played a selection on the harp. The first toast was to the Cabinet advisers; Miss Clemmie Henry responded. Other toasts were ''Y. W. C. A.'', by Lois Painter and ''Blue Ridge'' by Dorothy Stivers. A number of very interesting letters were read from girls who had attended Conferences at other places. There were Blue Ridge songs—and some others for good measure—led by just anybody who happened to think of them first. Helen Sweeton led a number of yells in which every one joined as well as she could after having attended a banquet. Margaret McKinney raised the Blue Ridge enthusiasm to its highest pitch by telling about the ups and downs of life at a Blue Ridge Conference.

A Blue Ridge experience is mostly ''up'', girls, up on the mountain tops with Nature, with great Christian leaders, and with God. So—Let's Go, Girls!

Y. W. C. A.

There could be but one subject for a Y. W. C. A. program on Mother's Day. The poster said:

''My Mother
Let's Honor Her by Going to Y. W. Sunday'',

and the result of the suggestion was a large number of girls assembled to pay a tribute of love to the one who loves us first, last, and all the time.

The meeting was lead by Virginia Witherington. After the opening song and the Scripture reading, Lina Hodges spoke a few words of gratitude for what mothers have done and what they have always meant to their children. Our own College Mother, Mrs. Stevenson, responded by telling something of what the daughters mean to their mothers, especially if those daughters are ''stepping heavenward'' day by day.

Then, right before our eyes, we saw unfold the Rose of Mother Love. It's petals are pure white, and they are called Cheerfulness, Wisdom, and Unselfishness. As symbols they remind us that mother is a Good Sport, she is a Confidante to whom we can whisper our holiest

(Continued on page four)

PROF. AND MRS. HUNTER HOSTS FOR DEBATERS

Prof. E. R. Hunter and Mrs. Hunter were host and hostess to the members of the Forensic League at dinner on Thursday evening, May the tenth. Covers were laid for forty guests. The occasion marked the close of a very successful season.

Sam Franklin was the toastmaster and the following toasts were made:

The Season - - - Prof. Mintier
Another - - - - - Prof. Hunter
The Seniors - - - Verton Queener
Response - - - - Reva Rankin
The Honorable Judges - - - - - - - - - - Alice Robison
The Last Rebuttal - Herrick Arnold
Coach and Mrs. Hunter - Roy Buffat

An atmosphere of fellowship and cooperation within the organization was evinced in each speech, and in the manner in which each one was received.

Fourteen members of the Forensic League will receive their degrees this June.

In fact the Class of '23 has contributed more debaters to the college than has any previous class. The places left vacant by these veterans of Forensics will be difficult to fill and Prof. Hunter urged that all old debaters should recruit new material for the next season.

Prof. Hunter has coached debating at Maryville for a number of years and each year has witnessed a steady improvement. Largely because of his vigorous personality, a spirit of team work exists which is one of the unforgettable things Maryville Forensics contributes t the debater.

MEN'S FORENSIC LEAGUE ORGANIZES FOR NEXT YEAR

The Men's Forensic League perfected its organization for next year a short time ago. The men who will serve the league as officers next year are;

President - - - Edward Cornelius
Vice President - - John Stockton
Secy.-Treas. - - - Floyd Corry
Editor - - - - - - - David King

Despite the fact that many veteran debaters are graduating this year the league is making plans for a good season for next year. To this end there is an attempt to perfect the organization of a Forensic Council composed of representatives of the Faculty, the Men's League, and the Giris' League; which will have general charge of the Forensic activities of the College. Such a council will no doubt prove useful in the management of the schedule and will bring an era of better forensics for Maryville. Just to show their pep the Men's Forensic League has challenged the Ministerial Association to a baseball game. Watch for this classic!

PI KAPPA DELTA

At a special call meeting a few days ago Pi Kappa Delta acted upon applications for membership of those seeking to join the fraternity; and elected officers for next year. The officers elected were:

President - Sam H. Franklin, Jr.
Vice- President - Mary C. Broady
Secy.-Treas. - - - Floyd Corry
Corres. Secy. - - - David King

We suggest that the Weather Bureau study our baseball schedule instead of the constellations to determine the date of foul weather.

Patronize Those Who Advertise. They Make The Paper Possible.

The Echo solicits news items, comments, and expressions of opinion from the students, and from interested alumni.

Fred Hope Fund drive secures $425.00.

* * * *

The semester closes soon! Let's go on those notebooks!

* * * *

Next and last issue of Echo published by the new Editor on June 1.

* * * *

There will be a play instead of Vespers Sunday evening.

* * * *

Maryville produced a great man in Fred Hope, African missionary.

* * * *

Joint meeting of literary societies Saturday will furnish one of best programs given by the societies.

* * * *

The drinking fountain at Anderson Hall was a needed improvement. A few more similar improvements and our campus will be worthy of pride.

* * * *

Make next week pay-up week!

Return all borrowed articles such as raincoats, umbrellas, sweaters, dresses, books, ink, paper, et centera; and incidentally pay all bills. Finish the year right!

* * * *

Notice the recent changes in the fountain? In a short time with the proper care it will rival the marine garden in front of Science. The students can contribute the "proper care" if they will be more careful about not throwing refuse in it.

* * * *

Volume eight of the Highland Echo is now history. The present editorial staff presents in this issue its last number of the Echo. The last number of the year that of June 1st will be published by Mr. Queener, the editor for next year. And, may we make a very sincere plea to the student body that they give the fullest coperation to the new editor in his work of publishing the college paper. Your college paper will be a success in proportion as you cooperate with its editor.

We thank the students that they honored us with the task of editing the college paper this year. We have made a consciencious effort to discharge that duty to the best of our ability. We thank those students who have served on the editorial staff and as editors of the various organizations for their assistance: for we ascribe whatever success we have had to their assistance.

Annual Inter-class Swimming Meet Will Be Held

Wednesday afternoon, May 23rd. the Annual Inter-class Swimming Meet will take place. The feature event will be the relay race, each class being represented by both a girls' and a boys' team.

PREP FORENSICS:

REVIEW AND SUMMARY OF JUNIOR FORENSICS

The Preliminaries for the Junior Forensic League were held early and eight boys, four girls and one girl alternate were chosen. These people went to work immediately and with the coaching of Verton Queener and Ralph Armstrong the Preps had a successful debating season.

Johnson City High School, was the first Opponent. This debate being April 13, on Friday with boys debating girls, through a mistake in arranging the contest. Maryville's team at home was composed of girls and they won a 3 to 0 decision over Johnson City's boys. This being Friday the 13th. and it is always hard for boys to win over girls anyway, the Maryville boys lost to the Johnson City girls 3 to 0. This being the only debate lost by the Preps.

The next debate was with Johnson Bible College, April 23rd. Boys versus Boys. Maryville Preps came back strong in this debate and won the decision at Kimberlin Heights 3 to 0., while at Maryville the decision was 2 to 1.

This closed the Prep Debating season with three victories and one loss out of four debates. This being a better record than made last year.

The members of the Junior Forensic League that finish the Preparatory School this year and intend to push the other fellow for a place in the College Forensic League next fall, with their records are:

Buchanan, Edgar—1922, Affirmative, versus Knoxville High, at home, won 3 to 0; 1923, Affrmative versus Johnson City High School iGrls, lost at Johnson City 3 to 0.

Buchanan, Walter—1923, Affirmative Captain versus Johnson Bible College, at Kimberlin Heights, won 3 to 0.

Cofer, James—1923, Negative Captain versus Johnson Bible College at home, won 2 to 1.

Huffman, Mary— 1923, Negative versus Johnson City High School, at home, won 3 to 0.

Hughman, Hugh L.—1923, Affirmative versus Johnson Bible College at Kimberlin Heights, won 3 to 0.

Hunnicutt, Katheleen— 1923, Negative captain, versus Johnson City High School, at home, won 3 to 0.

Landis, Nina Lou—1923, Negative versus Johnson City High School at home, won, 3 to 0.

Marshall, Merle G.—1923, Affirmative versus Johnson City at Johnson City, lost 3 to 0.

Murphy, Wililam H.—1923, Affirmative versus Knoxville High, at home, won 3 to 0. 1923, affrmative captain versus Johnson City High School Girls, at Johnson City, lost 3 to 0.

Welbon, Henry—1923, Negative versus Johnson Bible College, at home, won 2 to 1.

Season's Score Sheet

April 13, Maryville Preps vs. Johnson City High School, home 3-0; abroad, lost 3-0.

April 23, Maryville Preps versus Johnson Bible College, home 2-0; abroad, won 3-0.

Debates, won 3; Favorable Judges 8; Debates lost 1; Unfavorable Judges 4.

ADELPHIC UNION BANQUET MAY 25TH

If you want to really get acquainted with King Tut you will have the opportunity Friday Evening, May 25th.

The Annual Adelphic Banquet is to be held at that time amidst an Egyptian atmosphere that will carry you back to Rameses and Seti.

This year due to some unusual good luck we are able to offer to every one that comes eats worth one dollar and a half, music worth a dollar, all for the sum of one dollar or two dollars for two. Many good laughs over toasts that will be given, can be had free of charge.

You cannot afford to miss the biggest social event of the year.

MICE AND MEN

Mice and Men is a romantic comedy in four acts. This is a play full of humor and interest, and brings forth a truth well worth the notice of every man interested in any girl or girls in general; also worth the notice of every girl so that she may see what men think of her.

You must not miss Harry Gauding, the Bachelor who adopted and attempted to father an orphan girl; Louise Gollmar, the orphan girl who judiciously obeyed the Bachelor adopted father. The young hopelessly alive young nephew, Walter Swartz. Even Professor Mintier the man who is willing to tell things takes a live funny part.

Come see all of these and the others in Mice and Men in the chapel, Tuesday night, May 22. Admission 35 cents.

MARYVILLE PLAYERS

The Maryville College Players took their popular two short plays to the Springbrook High School on Thursday night and met with great success. They had a full house and a hearty appreciation from all.

This is the last of their trips with these two plays. They have been heartily welcomed everywhere and asked to come back again next year.

There is a rumor that some of the students wish to see these plays, to hear Bertha Russell sing "How Firm a Foundation", and see Harry Gauding take the part of an embarrassed young clergyman. If you wish to have this play produced here on the Hill some afternoon next week tell Miss Holland or J. Lynn McClung.

DON'T FAIL TO SEE "MICE AND MEN", TUESDAY NIGHT. **Don't Forget The Adelphic Union Banquet!**

The FLORSHEIM SHOE

FINDING the style of shoe peculiarly yours is like finding the right girl; doesn't have to be done over again. Perhaps your "intended" is—

SENIOR SKETCHES

LUCILE CAMPBELL

Lucile Campbell is about the luckiest member of our class, because her home is at Calderwood, Tennessee. If any of you have ever been there you'll think so too. You might guess from this that her favorite sport is Swimming. Lucile has spent four years in Maryville, and during that time she has been a member of the Theta Epsilon Society. Her present ambition is to be a nurse, and here pet peeve is the chapel bell. She is especially fond of tall girls and bald headed men. Lucile graduated from Scottsboro High School, Scottsboro, Alabama, and we're glad to have her in the class.

CLARABEL SMITH

Clarabel Smith, known by her pretty eyes and dark hair came to Maryville four years ago as a Freshman. You would believe it to hear her tell some of the bones she pulled. This Senior comes from Concord, Tenn. where she graduated from Concord High School. Clarabel is especially interestd in little men—so her favorite type of boy, of course, is a Brunette. Clarabel has specialized in Chemistry and Home Economics. She has assisted in the Chemistry Lab. for two years and next year she says she's going to teach.

STELLA TAYLOR

Stella Taylor, has been in Maryville College for four years, and it is no doubt true that they would like to keep her longer. Her home is in Calhoun, Tenn. She graduated from M. S. McMinn County High School, Athens, Tenn., before she came to Maryville. Stella is a member of the Bainonian Literary Society, and claims Hiking as her favorite Sport. Ever since she was a mere child she has longed someday to become a good cook, and we all believe that she is about to realize this ambition. Stella likes a boy if he is a good Athlete, and she likes a girl if she is glad that she is a girl. Stella is planning to teach next year.

JAMES ARTHUR MILLING

James Arthur Milling comes to Maryville from Duck Hill, Mississippi. He has spent four of the years of his life in Maryville helping to make thigs move. Arthur was Overseas from September 1918 to August 1919, and if you could hear him recite his French you would imagine he had been raised in France. In '21-'22 he was president of the Mississippi Club, and in that same year he won an important place on the Tract Team. His chief ambition is to paint 'em with Iodine and mark 'em Duty. Arthur is a member of the Athenian Literary Society.

Graduation Program of Junior Athenians

The Junior Athenians met in regular session in their hall Saturday night, May 12th, for a few minutes before Snap to allow the Fourth Preps of the Junior Athenian to graduate into the Senior Athenian, and for a program and the presentation of the diplomas. President William Murphy called the meeting to order and Henry Welbon led in prayer.

Prof. E. R. Walker was present and delivered a splendid address on ''The Value of Society''. A number of the members appeared on the program, which was short because of the snap. Prof. Ellis gave a speech on ''Fourth Preps'' and presented the diplomas to the graduates. Society was dismissed with prayer by Lowell Curtis.

''Father, when I graduate I'm going to follow my literary bent and write for money.''

''Well, my son, you ought to be successful. That's all you have been doing since you started to college''.

joys and our most sacred sorrows, and she is everything that is comprehended in the two words, ''My Chum''.

As special numbers the program included with ''Mother O' Mine'' read with deep feeling and earnestness by Ruth Barnette, and that old but ever new mother-love song ''Mother Machree'', sung by Mary Biles.

LAST GRADUATE RECITAL

The last Recital of the year will occur on next Monday night, May twenty-first in Voorhees Chapel presenting Miss Winona Johnston, reader and Miss Lilah Hembree, pianist. Both Miss Hembree and Miss Johnston are popular members of this year's Senior Class and are exceedingly talented. The College will miss them next year.

Miss Johnston will read ''The Traveling Man'' by Lady Gregory, an Irish miracle play, also ''Cherry Blossoms'' by Sutphen, a Japanese Tragedy.

Miss Hembree's program will consist of the following numbers:

Le Matin, Op. 79, No. 1 - - Chominade

Misses Hembree and Weeks

Prelude from First Modern Suite - - - - MacDowell

Waltz, Op. 70, No. 1 - - Chopin

Polonaise, Op. 9, Book 2, No. 6 - Paderewski

The Lark - - - - MacDowell

Concert Etude - - - MacDowell

GIRLS' QUARTET BROADCASTS PROGRAM

Our Girls Quartette put on their most extensive program Thursday evening when they sang for the Journal and Tribune Radio Broadcasitng Station. Conditions seemed to be favorable and their selections were heard very clearly in Maryville. No doubt all radio fans within the range of Knoxville considered it a real treat. Their work certainly speaks well for the College and they and Miss Gregg are to be congratulated.

BATES PRIZE CONTEST

The annual contest of members of the Junior and Senior Classes for the Bates Oratorical Prize will be held during commencement week. This year the contest is between the men of the two classes. The following are the orations that are to be delivered.

The Golden Rule in International Affairs - Herrick R. Arnold

The Golden Rule in International Affairs - - Henry Cox

The Call of the Ministry Sam H. Franklin, Jr.

Human Values in the Southern Highlands David King

The Problem of Capital and Labor Leslie Poe

The Call of the Ministry W. Clyde Wilson

Rag-Doll Society Entertains

Last Saturday evening, the Baldwin parlor was the scene of a lovely reception given by the gracious hostesses of LaFollette. The guests were met by the receiving line who led them through the rites of initiation into the rag-doll society. Although dignified, the entertainment was by no means stiff, and music was a pleasant accompaniment and the delicious refreshments were a delightful close to the evening. Miss Ivya Donnally was attired in pink voile and Miss Sarah Timlock in green swiss. Each of the guests, also, was beautiful in her latest evening creation.

DARWINISM

Don't be discouraged, poor little fly,
You'll be a chipmunk by and by.
And years after I can see
You'll be a full grown chimpanzee.
Next, I see with prophets ken
You'll take your place in the ranks of men.
Then in the great sweet by and by,
We'll be angels, you and I;
Why should I swat you, poor little fly?
Prophetic chum of my home on high.
That's what Darwin says, not I.

BIRTHDAY PARTY

Last Saturday evening, in spite of the lights going back on us, a most enjoyable time was had at the surprise party, celebrating the birthdays of Misses Pearl Tweed and Lois McCulloch, given by their respective room-mates, Misses Bertha Russell and Estelle Wynn.

Baldwin parlor was attractively decorated with flowers and greenery. At one side was a shrine upon which resided (in form, if not in life), the guests of honor, Mr. Shuford Jenkins and Mr. John L. Ray, who are in some way interested in the young ladies for whom the party was given.

The evening was spent in amusing games and stunts, and all too soon (?) refreshments consisting of dainty wafers and ice cream were served. Perhaps the most striking feature of the evening was last. After Miss McCulloch and Miss Tweed were seated in chairs at one end of the room Miss Russell and Miss Wynn entered from opposite direction, each bearing a lovely, white, birthday cake illuminated by tiny candles. They looked scrumptious, and for once looks didn't deceive. Yum! Yum!

After disposing of their share of cake, along with plenty of punch, the guests took their leave, wishing the two young ladies many happy birthdays, and expressing to the hostesses their enjoyment of the evening.

Those present were: Misses Lois McCulloch, Pearl Tweed, Estelle Wynn, Bertha Russell, Christine Zdulechna, Mary Anna Ilaz, Margaret Shepherd, Dot Robinson, Blanche Moore, Clare Robinson, Addie Larkin, Mary Bigelow, Marian Bigelow, Lorene Smith, Mabel Smith, Martha Turner, Anna Ruth Whitfield and Mrs. Snodgrass.

PALACE THEATRE PROGRAM

Friday, May 18th.

The Cosmopolitan Corporation presents, THE GO-GETTER. Also a Century Comedy, 'The American Plan'.

Saturday, May 19th.

William Farnum in WITHOUT COMPROMISE. Also Oregon Trail No. 3.

Monday and Tuesday, May 21st. and 22nd.

Pola Negri in BELLA DONNA. Kinograms.

Wednesday, May 23rd.

Katherine MacDonald in MONEY, MONEY, MONEY. Also a Chester Comedy, 'Love is Blonde.'

Thursday and Friday, May 24th and 25th

Thomas Meighan in THE NE'ER DO WELL. Also Johnny Hines in 'Terchy's Nut Sunday'.

Saturday, May 26th.

Charles Jones in BOSS OF CAMP FOUR. Also Oregon Trail No. 4.

Professor: What is the best conductor of electricity?

Soph: Why - er-

Professor: Right, and what is the standard for measuring electricity?

Soph: The what, sir?

Prof.: A very good recitation.

On last Wednesday evening at six-thirty o'clock at the Gibbs-Thomas Cafe, the graduates in piano had as their guests Miss Laura Hale and Miss Marguerite Sullinger. A five course dinner was served. The girls who so carefully planned the delightful evening are Miss Lila Hembree, Miss Sallee Huffaker, Miss Kathleen Enloe and Miss Virginia Stribling.

Dewey gave Alice some flowers.

Alice: How kind of you to bring me these lovely flowers. They are so beautiful and fresh, I think there is some dew on them yet.

Dewey: (embarrassed) Yes, there is, but I'm going to pay it off tomorrow.

MARYVILLE COLLEGE SERIES

Experiment LX.

A. Object: To make our campus the best that Maryville College can possibly have.

B. Description: Found in College Bulletin.

C. Method: 1. Look over the description and find where the paths should be. 2. Walk on these paths or sidewalks.

D. Conclusion: We can do it if we try. —A Student.

Better get ready for exams.

Things could be worse. If you get restless this spring just think of the fellows in jail.

A "BILLY" SUNDAY BOOK

A SPECIAL OFFER INTRODUCING

"FACE TO FACE WITH SATAN"

The Highland Echo

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME EIGHT | MARYVILLE, TENNESSEE JUNE 1, 1923 | NUMBER TWENTY-EIGHT

ATHLETICS PAST AND FUTURE

SUMMARY OF THE BASEBALL SEASON

Although the baseball season did not close exactly like we would have liked to seen it close, namely that 5 to 0 defeat at the hands of the Tennessee Vols, still we must not overlook the fact that our team had a successful season, winning eleven out of eighteen games.

The Baseball Schedule was indeed a strong one and would do credit to any southern college.

Batting Averages

To Arthur Ruble, alias ''Speedy'' goes the credit of leading the Highlanders in hitting for the year. Out of 66 times at bat, he connected with the old pill for 27 safe hits which gives him a percentage of 409. Speedy is closely folowed by ''Bax'' Williams with an average of 400. Roy McCall also has an average of 400.

The following is the batting averages of the team:

	AB	H.	Average
Ruble	66	27	400
Williams	60	24	400
McCall	30	12	400
Watkins	53	18	339
Mathews	39	13	333
Sneed	58	17	293
Shanks	65	19	290
Partee	74	20	270
Burleson	12	3	250
Anderson	27	6	222
Schmidth	10	2	200
Riskey	36	6	166
McCarrol	32	4	125
Acton	10	1	100
McMurray	12	4	333
Webster	7	3	428
Hawn	4	3	750

FOOTBALL PROSPECTS FOR NEXT YEAR

Did you see that football schedule in the last issue of the Echo? If you didn't, well you had better hunt an Echo up and look it over, because it is well worth looking over. Eleven big games and six of them at home, and with such schools as Tennessee, Kentucky State, Transylvania, Georgetown, King, Cumberland University, and five other large schools.

Now, that we have such a good schedule, the question arises, what kind of a team are we going to have?

We are only losing four men by graduation, namely: Tubby Sullinger, Burney Acton, Bob King and Roy McCall. Proffitt left school at the end of the first semester and nobody seems to know whether he will be back next year.

However, in the line, we will have eleven letter men besides what new material may come in. With such men as Captain Thrower, Dinwiddie, Musick, Bowles, Clemens, Wyncoop, Rice, Schmidt, Williams and Brown, why can't we have a fighting line? Not a reason in the world why we can't.

In the back-field we will have five letter men, namely Hamilton, McMurray, Sneed, Partee and Riskey. Jimmie King, Captain of the Scrubs will also be back bidding for a place in the backfield.

Hobart Ford and ''Cec'' McLaughlin, are thinking of the Orange and Garnet and word comes from them to the effect that they

(Continued on page four)

SWIMMING MEET

The annual inter-class swimming meet last Friday afternoon resulted in a win for the Freshman team. It was a nip and tuck affair throughout, the Freshman winning the relay at the very end and thus copping the meet. Three classes were represented: the Preps, Sophs and Freshmen. The final scores were Freshman 29, Sophs 27 and Preps 11.

Justice was the highest individual point winner taking two firts and two seconds for sixteen points total.

Summary of Events:

100 Yard Free Style: Riskey (f); Justice (S); Crokshanks (P). Time 1:07.

Plunge for Distance: Vanderslice (F); Cragan (F); Schmidt (S). Distance 42 feet.

50 Yard Free Style: Justice (S); Sneed (P); Schmidt (S). Time 30 seconds.

25 Yard Back Stroke: Justice (S); Post (S); Cragan (F). Time 19 seconds.

25 Yard Breast Stroke: Schmidt (S); P. Buchanan (P); Post (S) Time 19 seconds.

Fancy Diving: Riskey (F); Crookshanks (P); Ellis (P).

Relay Race 100 Yards: Freshman 1st.; Sophomores 2nd.; Preps 3rd. Time 1 minute.

Individual Points: Justice (S) 16; Riskey (F) 10; Cragan (F) 9; Schmidt (S) 7; Vanderslice (F) 5; Post (S) 4; Sneed (P) 4; Crookshanks (P) 4; Buchanan (P) 3; Wininng relay team 5 points.

In the girls events Miss Buchan-

POLITICAL REVIEW

THETA EPSILON

The last Theta meeting of this year was held Saturday evening at seven o'clock. Because it was the last meeting it was none the less important. First a business meeting was held at which the following officers were elected for the next year.

Mary Robinson, President; Alice Johnson, Vice President; Ruby Harrison, Secretary; Blanche Moore, Treasurer; Dramatic Chairman, Seda Given; Music Chairman, Margaret Weeks.

Mary Robinson presented diplomas to all the Seniors belonging to Theta. Each Senior responded expressing her regret in leaving and wishing the society much success in the future.

Here's to the Seniors, ''May they live long and prosper.''

ALPHA SIGMA

The success of Alpha Sigma for next year was assured by the election of the following officers:

President - Sam H. Franklin, Jr.
Vice President - - James Hardin
Program Secy. - Robt. M. Baldwin
Recording Secy. - Francis Kinsler
Asst. Record. Secy. Julius Huffman
Treasurer - - - - Dewey Eitner
Editor - - - - Malcolm Miles
Critics, Harry Gauding, Ralph Vanderslice, and Arthur Kinsler
Janitor - - - - Clinton Puff

With such officers the Senior Alpha Sigmas are expecting to hear of great things next year.

Saturday evening, the annual oratorical contest will be held.

CLASS OF 1924 ELECTS OFFICERS

At a recent meeting of the Junior Class, the Senior Class of '24, the following officers were elected for the year:

President - - - - Malcolm Miles
Vice-President - - Mary Robison
Secretary - - - Marie Griffiths
Treasurer - - - - - Floyd Corry
Editor - - - - - Lina Hodges

ATHLETIC BOARD OF CONTROL ELECTS OFFICERS FOR NEXT YEAR

At a mass meeting of the student body, and with the assistance of T. J. Marler the officers of the year for the Athletic Board of Control were elected as follows:

Schmidt, President; Sneed, Vice President; Thelma Adair, Secretary; Lucile Hieskell and Margaret McKinney, Girl Representatives; Musick and Riskey, Men Representatives; Dr. Burchfield, Dave Proffitt, Town Representatives; Dr. McMurray and Daddy Knapp, Faculty Representatives; Professor Proffitt, Treasurer.

A new constitution was drawn up and approved by the assembly.

RESOLUTIONS

We, the members of the Fourth Year Preparatory Class extend to Miss Ruby Teffeteller, our classmate, our heartfelt sympathy, in her grief, caused by the sudden death of her brother.

Signed:
Maynard Dunn,
Myrtis McCulloch,
Richard Proctor,
Committee.

Lost: The upper part of a Silver plated Eversharp Pencil. Finder please return to No. 36 Baldwin Hall.

BAINONIAN

Bainonian Literary Society realizing that the present Senior officers must soon leave Bainonian Hall never to return again as members, thought it fitting to devote this last meeting of the year to two important actions, the election of the Bainonian officers for the coming year and the graduation of the members who are graduating as 1923 Seniors.

The new officers of the society are Lina Hodges - President; Virginia Witherington, Vice President; Helen Farrar, Secretary, Katherie Buell, Program Secretary; Herriett Green, Treasurer; Mary Broady, Editor.

The election of critics and censor is postponed, pending an amendment to the constitution.

There are some girls who have given throughout their college life at Maryville the best of their energy and talent. We are sorry to lose them, yet we are glad to think that we may give some of our very own to the outside world. It is to them we gave diplomas in token of the esteem and value we hold for them.

ATHENIAN

There are prospects for the Athenian Society next year even though many of our loyal members are graduating.

Listen to the roll call of the officers for the opening session of school.

Edgar F. Martin - - - President
Floyd T. Corry - Vice President
Charles R. Black - Recording Secy.
Wm. Sterling Smythe - Prog. Secy.
J. Burr Bassel - - - Treasurer
Penn G. (Peanut) Camp - Editor
C. Edgar Cathey, Edward Cornelius - - - - - - - Critics
John Robt. Stockton - Sergeant-at-Arms

Considerable discussion arose over combining the Midwinters. The house stood almost as a body against such an act.

May every member come back this fall with many new ideas for greater interest in literary work.

Mathews Elected Captain of 1924 Baseball Team

Jack (Rookie) Mathews was elected Captain of the Baseball team for next year. The close of the baseball season this year marks the end of two years of successful baseball that Mathews has pitched for the Orange and Garnet. He is very popular among the student body and his many friends were glad to hear of this honor conferred upon him. May Mathews as Captain next year, lead the Highlanders to victory and make the 1924 team the best that Maryville has ever had.

''Speedy'' Ruble, star first baseman and leading slugger of this year's team was elected alternate Captain. Ruble is one of the best first basemen the team has ever had and we are expecting Speedy to hold down the old first sack again next year and here's hoping he is hitting the old pill as well next year as he did this year.

On last Saturday evening, May 26th Miss Hale and Miss Sullinger were joint hostesses at a delightful dinner party at the home of Mrs. Dunn on Court street. The party was in honor of Misses Elizabeth Bassel, Lilah Hembree, Virginia Stribling, Sallee Huffaker and Kathleen Enloe.

THE ADELPHIC UNION BANQUET

If another king should be excavated and made to reveal all his family secrets, would we have another banquet in his honor? If we do, let's get Katherine Buell to do the decorating.

And let's have the Keene trio to furnish the music. With Vera at the piano, Edith at the 'cello, and J. Alvin at the violin, it's royal music indeed.

Fitting was it that an alleged descendant of King Tut, a descendant more famous even than his ancestor, should have been chosen toastmaster.

The toasts of the evening were, true to proper Egyptian manners, backward. Is it a sign that the spirit of rivalry has become extinguished, or that the Egyptian way is best, when Alpha Sigma calls Bainonian sweet, and Bainonian points out the greatness of Alpha Sigma; when Athenian calls Theta Epsilon 'little sister'', and Theta Epsilon sees glorious things in the future for Athenian? Everybody knows that Professor Davis is an encyclopedia of knowledge on all questions pertaining to Greek and Latin—but how did he ever find out so much about King Toot? If there's any person who has a passion for being original, both in examination questions and toasts, that person is Mrs. Alexander. What a tragedy it would have been if the good old king had not had a wife.

SENIORS HAVE FINAL PARTY

(C. Vocabulary in Senior Class Role page 83 in the new catalog).

One August day as Clarence Raymond Anderson was Waddelling through King Alexander's gardens and Bowers he saw Mary Elizabeth Clements sitting on a Ridgway eating Graham crackers and feeding the crumbs to her little dog Fritz.

Andy Greeted her Andrew from his pocket a letter of recommendations from M.(a)C. She accepted his Arms(o)trong and they R.A.N. down the Hildagether to De Haven of Rest where Winona was Sheddan her shoes and hose. They stayed to watch Winona Wade in the creek. Mr. Houston had Ben there for quite awhile. Soon they espied the King's daughters, Irma and Ruth Gambleing over some choice Fig Newtons found in a Dedmon's Pockets.

They laughed so Ruth Leslie that they scared a Jay and a Heron that were feeding on some crumbs which T. J. the Baker had dropped as he was slowly wending his way toward the Dean's office because he had Cut too much (bread). They greeted T. J. saying, ''Grace be with you always.''

Just there it began raining and Buffeting the storm they R.A.N. to a Ricketty Sheddan there they found Stansbery the Village Smith, and Stella the Spinster Taylor. They were working and moonshining. He was repairing an Emery wheel

Robert M. Baldwin - - Bus. Mgr.

OUR POLICY

Our policy throughout the coming year will be to serve the most people possible in the best way. We are working on some new features which we hope will be of interest to the students. Our aim is to get student opinion and student interest and we are not only going to solicit student expression, we are going to get student expression, if not pro it will have to be con. It has been said that nothing short of an earthquake will move the average American. We realize that the average Maryville student is ten percent more apathetic than the average American, but whatever it tkes to arouse him we are going to get it. If you are not a member of the Senior class just return to the Hill feeling that you have a definite part to play with this publication and that you are going to play it. We have added to our staff a paragrapher who is good at characterizing and his entire attention will be given to prominent people on the Hill. If you get in his column you may not be flattered but you will be prominent.

* * * *

THE STAFF

As yet the staff is not complete and will not be until fall. The six members selected so far are known to the entire student body and we hope will meet their approval. Miss Lina Hodges was recommended to the editor as one of the four genius on the Hill. She has done many things here, can do any thing she desires, and all that she does is done well. Mr. Kinsler, the other Associate Editor is noted for absolutely nothing but we believe he has remote possibilities, and it will be interesting to watch him do something besides get a super abundance of ''A's''.

Mr. Stewart and Mr. Carr have both had experience. Their best recommendations are that their work has been entirely satisfactory in the past. If their work pleases you tell others, if not, tell them. Mr. Miles' place has not been defintely decided on yet. We regard him as an undiscovered force on the Hill. He has the honor of being President of the Senior Class next year, is a good student, hard worker, has plenty of common sense and goes with one of our nicest girls. The position assigned to him will be filled.

Jimmie Harvey will be our staff artist and if you can't laugh at your own cartton as he draws it, every one else will.

Bob Baldwin, the notorious humor dynamo, the life, energy and action of the Maryville College Directory Co. will be in charge of the business end of the Echo next year. We feel sure that a better could not have been chosen. If the Echo is not a success, it will not be because he lacks ideas, energy and action.

* * * *

GET BACK ON TIME

Other schools, about this time of year, put on a ''return to school campaign''. We can't be like other schools for a thousand reasons but wouldn't it be nice if all but the Seniors would return? King Heiskell says they should return. We all know that it is better to have old students back than to break in new ones, so why not prevail upon that roommate or friend to return next fall, neither of you will be sorry.

* * * *

WHERE ARE YOU?

Charles Lamb divided men into two classes, those who borrow and those who lend. At the end of the year it is interesting to note that Maryville students have divided into just two classes. There are of course several degrees or ranks in each division but there are only two divisions. There are several reasons, some good reasons, for being in one or the other but whether the reason is good or not we are there. Whether we are happy and in high spirits or whether we half slip away with an imaginary ghost of some collector following depends on what we have done about our class or club dues. What class of the two are you in?

* * * *

OLD KING TUT

This here old King Tut feller is sure raising a considerable stir over here in this part of the country. I ain't seen a newspaper in the last six months but what's got to always be a-writing a whole lot about him. I ain't never quite catched on to just exactly, what it was all about. But I've sort of picked up from the papers that he ain't no real king—just a old carcass that somebody has dug up, or something. I kind of think that maybe he was once a old king, away back before he was just a old carcass.

The papers says he used to be a old king or some high falutin' sort of something over in Egypt. He was the boss or something like that away back in the times when ever body was heathens.

I always kind of wondered what them old Egypt fellers that he was the bell weather of was a doing. The papers sort of let on like they was most always a having a pretty big time. The pictures shows them a laying around on easy chairs and big sofa-like contraptions, and a havin' some body a fannin' him with a feather duster on a brown handle, and a eatin' grapes and such trash, and a drinking milk and red lemonade. They was just naturally havin' a high time in general, all of them excepting them as was a doin' the fannin'. I don't know if any of them worked any or not. I reckon some of them must of worked a little or they wouldn't of had nothing to speak of.

It don't matter much if they worked or just had a big time; I don't see how they done it. They never had nothin' to do with.

If he wanted to go any where he never cranked up his old tin lizzie and started off and got there. But he had to go out and lasso one of them little jack ass sort of things and climb up a straddle of him. Most of the time he never got no where with him no how. Them things was powerful good hands at balking and least-wise at going slow. About two-thirds of the time a feller would have to get off and walk, and about one-half of the time he would have to drag that little jackass of a thing along with him to boot. That there business of having them little animals instead of flivvers kind of had a few good points to it. All the time a having blow-outs and a running out of gas and a letting their radiators get dry. A feller wasn't having to all the time be a wallering around in the mud a trying to jack-up a hind wheel to put chains on it when they wouldn't pull to do no good. Mighty nigh any fence picket would do to make one of them little jackass things step about more than tolerable lively.

They is another thing I can't figger out to do no good, and that is how them Egypt fellers figgered the time of day. They never had no alarm clocks or no clocks of no sort as I know of. They wasn't even no Ingersols. They just had to sort of guess at it like. I sort of expect they learned to guess tolerable fair like. Any how they got along without none.

They never had no sewing machines, course that ain't more than one-half as bad as it sounds. Them Egypt women folks never needed them much bad as now.

They ain't no mention made as I know of, of no books or nothing. They didn't need them. I bet they wasn't one in 37 as could read any ways. Course I reckon they all had a Sears and Roebuck catalogue, least wise, all them as could read it.

But they is one thing they never had that I can't never see how come them to get along without them. I can sort of see how them Egypt fellers kind of made out tolerable fair without lots of things, but I can't for to save me see how they got along without no silo fillers. Filling a silo is one thing that I don't see how a feller is a going to manage without a silo filler. Them fellers never had no silage cutters of no sort. They must of just had to whittle them cornstalks up one at a time, but I'll be dogged if it don't look like the stuff would rot before he could cut up enough for a tromping. They must of about 40 of them perched their selves around the top and whittled like killing snakes; and about 6 or 7 fellers a doin' nothing but just a keeping them other fellers in cornstalks. Course that don't look like it would work much good, but they ain't no other way as I can figger out as how them fellers could of filled a silo.

I started out a writing about King Tut, but I kind of jumped the track and got talking about them Egypt fellers in general. So I reckon I might a better get back on my subject and enhance about the Old King for a spell. Not knowing nothing about him while he was alive I ain't a-going to do no writing about him before he was dead.

They holed him up in a sort of a cave dug-out like. He had mighty near it a whole house hollered out in the ground plumb down deep. They was 3 or 4 parlors or front rooms like of some sort or tother. And 2 or 3 spare bedrooms. They was powerful nigh to all sorts and kinds of rooms except they wasn't no kitchen or no bath house, and they kind of had the old feller's carcass crammed down in some curious kind of a box stuck back somewheres in one of them back rooms. They had some sort of a funny name stuck on to the box. I forgets what they called the thing, it sounded kind of high falutin' like. I believe it was a Aesophagus or something on that order like. They was a whole passel of stick-horses and such trash a layin' all around where he was at and piled all over this Aesophagus thing.

I don't see no sense in digging up all this trash and carcasses. The papers says how much it cost for to dig him and all his accouterments up, but I forget, but any way it was a powerful sight of money. And it kind of looks to me like it wasn't nothing but just plain low-down waste. They ain't no sense to just be a spending just for to only be a spending it. Wy all the digging them fellers done a scratchin' up that old carcass would of took ever stump and mighty nigh ever root out of that ornery new ground up the holler.

Lost: At the beginning of the Christmas holidays, a smal,l gold, Masonic slipper. Lost between Baldwin Hall and Pearsons. Will the one who found it please return to Baldwin Hall, at the office. A liberal reward will be given, as it was valued as a keepsake. Thank you for returning it.

STUDENT COUNCIL

In considering what the Student Council has done in these few weeks this spring it must be kept in mind that this is an entirely new organization. Its process has perhaps been slow but with a start this spring it will no doubt be able to show a greater degree of efficiency next fall.

The council has expressed the sentiment of the entire student body when it mentioned some campus improvements. Our front yard looks better with fewer peddlar, doesn't it? And we enjoy drinking from the new fountains.

It was largely through this organization that the trip to Elkmont was arranged this spring.

The Council has had many plans which we are not able to publish and while some have been thwarted others are not yet given up. At the election one month ago Mr. Queener was elected president for next year.

Y'S DEPUTATION SQUAD ADVANCES

Clover Hill, the first objective of this squad, was captured with one engagement and Sergeant Cornelius says the squad of nine will revisit the first battle grounds soon.

Solos, readings, instrumental music and orations all won the thanks and appreciation of the Clover Hillers, who insist on the Y-men coming agin.

Hart, Underwood, Cornelius, Cathey, Cowan, Johnson, Jackson, Harvey, Humphreys and Professor Jones, at whose church the service was held, composed the Squad and encouraged by their first victory they will attempt greater things

Ask Miss Green if her heart went where her keys did?

PORTRAIT OF SIR ISAAC NEWTON

James II is Dead—
NEWTON Lives

IT has always been known that free bodies fall. The earth has a strange attraction. How far does it extend? No one knew before Newton, sitting in his garden, one day in 1665, began to speculate.

"Why should not the attraction of gravitation reach as far as the moon?" he asked himself. "And if so, perhaps she is retained in her orbit thereby." He began the calculation, but overwhelmed by the stupendous result that he foresaw, he had to beg a friend to complete it.

In Newton's *Principia* were laid down his famous laws of motion—the basis of all modern engineering. The universe was proved to be a huge mechanism, the parts of which are held togetner in accordance with the great law of gravitation.

James II was reigning when the *Principia* appeared in 1687. He is remembered for the Bloody Assizes of Jeffreys, for his complete disregard of constitutional liberties, for his secret compacts with Louis XIV and the huge bribes that he took from that monarch, and for the revolution that cost him his crown; Newton is remembered because he created a new world of thought, because he enabled scientists and engineers who came after him to grapple more effectively with the forces of nature.

When, for instance, the Research Laboratories of the General Electric Company determine the stresses set up in a steam turbine by the enormous centrifugal forces generated as the rotor spins, they practically apply Newton's laws in reaching conclusions that are of the utmost value to the designing engineer.

JOINT Y. W. MEETING

A joint Y. W. meeting was held at the House in the Woods Sunday afternoon, with Ethel Dorn as leader.

The subject of the meeting being Nature, the first chapter of Genesis made a most appropriate Scripture lesson. Short talks on different phases of Nature were made by four girls. Josephine Neal spoke of Birds, with their various human characteristics. Estelle Wynn's subject was Flowers, and Beth Torrey told how our Universe, with its boundless spaces and infinite variety of created things, was all planned for man. Henrietta Smith showed how all nature is a revelation of the love of God.

The special treat of the meeting was a poem read by Mrs. Alexander.

It was a glad surprise to find Mrs. Bassett at the meeting. The Y. W. girls are always thankful for an opportunity to become better acquainted with their dear College Grandmother.

Prof. Hyden: What's the difference between amonia and pneumonia?

Joe Gamble: One comes in bottles, the other in chests.

Have you read that essay on King Tut by a prominent member of the Senior class?

THE WESTERN THEOLOGICAL SEMINARY

Pittsburg, Pa.

A Seminary for College Graduates

Pittsburgh is a typical industrial city with all the problems of a modern American city. The strong churches and the well equipped social settlements are striving earnestly to solve them. A young minister can become acquainted with these problems and their best solution at Western Theological Seminary located in the heart of Pittsburgh. Next term opens September 18, 1923.

SENIOR SKETCHES

ROY ALEXANDER McCALL

Roy Alexander McCall has spent most of his years in and around Maryville. He entered Maryville College as a first prep, and can tell you most anything that has happened here since then. For several years Roy has played in his old position, of Center Field on the Varsity Baseball Team, and for the last year or two he has played on the Varsity football team. Maryville looses a good athlete in Roy this year. You'll have to ask certain girls on the Hill about the publication of the McCall's Magazine, during the summer months. Roy is going to go to medical school next year.

EUGENE STANBERY

Eugene Stanbery from Newport, Tennessee is a meber of the Alpha Sigma Literary Society. He has appeared several times, before the Maryville audience, in the annual Midwinters of the Literary Societies. Gene likes Chemistry better than any other subject. For several years he has been an assistant in the Chemistry Laboratory. We often wonder if its the Chemistry work or the other assistants that makes this position so attractive for him.

REVA ETHYLENE RANKIN

Reva Ethylene Rankin, the only girl in the class who is really an Athenian, not because she is a member of the Athenian Literary Society, because she is a real member of Bainonian, but because she comes from Athens, Tennessee. Reva has been in Maryville College four years, and these years have been well spent. She has held positions in her class, in her Literary Society and in the Y. W. C. A. She spent several weeks, before Christmas, with Miss Clemmie Henry in the North in behalf of her college. Reva is planning to teach next year.

ROBERT ALLEN NEWTON WILSON

Robert Allen Newton Wilson, better known on the Hill as "Ran" was born at Pueblo, Colorado. He has lived most of his life in Missiissippi, he has spent most of his college days in Maryville, and now claims Arkansas as his home. Ran was a student in Miss A. and M. before he came to Maryville, but he has spent two and one half years here, and he has surely made those years count. He was the first president of the Student Council, he is now president of the Athenian Literary Society, and has held important positions on the Y. M. Cabinet. He claims foot ball as his favorite sport, but we believe he can have more fun hiking or rowing. He is planning to go to Seminary next year. We're expecting great things from Ran.

LAST GRADUATE RECITAL IN MUSIC AND EXPRESSION

On Monday evening, May 21st, the last graduate recital of the departments of Music and Expression was given. Miss Lilah Hembree performed at the piano and delighted the good-sized audience with a number of selections. Several compositions of MacDowell were rendered well by Miss Hembree. Miss Weeks assisted the performer in her recital.

The reader was Miss Winona Johnston. With an attractive stage setting the beauty of which was due to the untiring work of Mr. Cathey, Miss Johnston interpreted two readings with all the polish of an experienced reader. The Traveling Man, by Lady Gregory, and Cherry Blossoms by Lutphen were both delighftully presented before an interested audience.

HOW STRANGE

Dr. G.: What is a pullman?

Mr. B.: Well, the Railway pulled the cars.

FOOTBALL PROSPECTS
(Continued from page one)

are sending one of the best backfield men in the south to Maryville College for next year. Good for ''Hobe'' and ''Cec''.

There also comes the news from Michigan that an old Maryville Prep man who has played on the Michigan team for two years, will come to Maryville next year to finish here.

There is one thing that is certain—we have a real captain for next year, namely Mr. Robert C. Thrower of Lytle, Texas and he says that he means business for next year. When Bob says a thing he usually means it too.

With such a captain as Bob Thrower and a coach like we have, it begins to look like Maryville is going to have a real footbal team for next year.

SWIMMING MEET
(Continued from page one)

an won three firsts and one second place for a total 18 points. Miss McGrath had 8 points; while Miss Morgan and Miss Minton each made 5 points.

Summary:

25 Yard Free Style: Morgan (S); Buchanan (P); McGrath (P).

25 Yard Back Stroke: Buchanan (P); Minton (P); McGrath (P).

Plunge for Distance: Buchanan (P) McGrath (P); Minton (P).

Fancy Diving: Buchanan (P); McGrath (P); Minton (P).

Seniors Have Final Party
(Continued from page one)

which he used in Milling the grain. Stella arose with Grace and greeted them and Gene wanted to ask her a question. Soon it became Farrar and John the Gar(d)ner showed them about the grounds. They saw a Jay, a Heron, some fish that John called Bass-el, a Klein Henn, some flowers transplanted from the bonnie banks of Clyde, and last of all they came to a load of hay that weighed exactly 2000 pounds. It was sitting in the Hot Hot sun. Andy stepped up to it and said, ''What is this?'' The Hay spoke saying, ''I am a Witherington of Hay''.

Just then they heard McCall and Ruth said she guessed that all had better go to the King's Mansion of Clay. Little Rachel Wililams cried Mayme go too. Mary Hamilton, the nurse, took care of her and MacClung to Annarine. Lillis the Queen was greatly (be)Reva(d) because Alice in Wonderland was lost. She offered Herrick Arnold a large Ransom if he would find her. Donald Ricketts Taylor knowing that Winona favored Alice decided to take her to Lillis and Swindler and Win the Ransom.

When he brought his Swindle to the Queen she was reading Poe's Essay on ''How to Moonshine Effectively at Calderwood. Poe's works were Rankin' next to Theism and Ethics as literature for people of the Choice Set. The Porter looked Winona over then turned to the maid saying, ''Johnnie Trotter up to the Queen and see if this is really our sweet Alice. The Queen decided to Turner down saying ''Lena Mae do but this girl can't Win''.

Buck and Herrick the King's sons asked him to get Miss O'Dell to dine with them. He told them, ''I Wilsons,'' and to Miss Odell he said, ''Please Geral Dine with us which she did for just then the door opened and Ici Crawford the Chef served Campbell's Soup, a Klein Henn, and a Gillespie in a Tub. The eats relieved their Agnes very much.

After luncheon the King made a toast. He Jess D. quite a bit but all I remember was his telling Carl Elzey that a Roland stone gathers no Moss so he would never be a Mossbacked fellow. Doc Watkins tickled me so I laughed. The King ended by saying 'Absolutely Mr Sullinger''. Mr. Sullinger was to toast in reply on the ''Postively Mr King'' but it started raining so Mary called a Taxi and we all went to our respectful homes.

by Farrar, McClung and Co.

Prof. Ellis: What makes your history students look so worried and care-worn?

Queener: Well, you see they have to learn by heart the names of all the towns where conferences have been held since the world war.

Neighbor: But how do you know Old Doctor Quack is such a good doctor?

Enthusiastic Patient: Well last winter when my old man was sick we had him. He told me my man was going to die and die he did.

Allen (driving car): Gee, my clutch is weak.

Johnny: So I've noticed.

LAST APPEARANCE OF COLLEGE PLAYERS OF 1922-1923

Madelein Ryley's love story, "Mice and Men" was beautifully dramatized by the College Players on the evening of the twenty-second.

Mark Embury (Harry Gauding) brought tears to the eyes of many because of his heart-breaking sacrifice. The charming ways and sweet voice of ''Little Brittain'' (Louise Gollmar) would win the heart of any guardian or guardian's nephew. This nephew, Captain George Lovell (Walter Swatz) proved himself worthy of applause and esteem. Roger Goodlake (Edward Hamilton) friend and neighbor to Embury, found himself well-matched, both in appearance and manner, with his fiancee, Joanna Trimblestone (Susan Carson). The two servants, Peter (Arthur Mintier) and Mrs. Deborah (Bertha Russell) were irresistible. Sir Harry Trimblestones (Franci Kinsler) and Kit Baringer (Robert Johnston) made the ball scene very realistic. Of course, the matron of the foundling hospital (Mary Hamilton) and her darling little foundling made their ways into the hearts and awakened the sense of humor of all.

Miss Wilhemina Holland and her committee deserve and have obtained much praise for the good work, picturesque scenery, and charming costumes. Everyone joins in the hearty praise.

''What's the matter with Schmidy'' said Prof. Mintier. ''hasn't he any spirit or backbone at all''?

''No'', replied Coach Honaker. ''He learned to crawl when he was a baby and he never seems to have gotten over it''.

Student: May I wear your straw hat?

Roommate: Sure, why all the formality?

Student: Well, I can't find it.

VOLUME NINE | MARYVILLE, TENNESSEE, SEPTEMBER 12, 1923 | NUMBER ONE

Big Athletic Year Predicted

MARYVILLE LOOKS FOR BIG YEAR IN ATHLETICS

Three Major Branches of Athletics To Be Unusually Strong

All summer long Coach Honaker has hammered a typewriter, shoved a pen, guided a paint brush, patched football togs and what not, drumming away constantly with one outstanding thought permeating that ole scheming brainworks of his, namely; what sort of a gang of athletes are we going to have this year to whip into shape and fight for old Maryville?

Coach's efforts have been amply rewarded in the addition of a number of last year high school football men,a mong whom there are some brilliant prospects. Coach Honaker is well pleased with the number and the character of the material which has come to him from various high schools this fall. In addition to the new aspirants for places on the Varsity Eleven this fall, there are some eleven letter men back and the general outlook now is a peppy hot scrap for places on the team. We've got a big job to tackle inasmuch as we have such teams as Tennessee, Kentucy State, Georgetown College

(Continued to page three)

Mrs. McMurray Improves Home Economics Dept.

Mrs. McMurray in her capacity as Head of Department of Home Economics of Maryville College has succeeded in having this department qualified to train home economics teachers under the Smith-Hughes Law.

The Smith-Hughes Law is a Federal law and provided for the following improvements in this particular branch of education:

1. The Smith-Hughes Law sets the standard for home economics equipment.
2. The Smith-Hughes Law sets the standard for requirements for home economics teachers thruout the country.
3. The salaries of Smith-Hughes teachers must average a minimum of $1,200.
4. A third of a teacher's salary is paid by Federal Government, a third by the state, a third by the school in which one is teaching. This method makes it possible for many small schools to institute this method of instruction. inasmuch as it is more economical, the expense being pro-rated to the Federal Government, the state and the locality.

Any school teaching this form of

(Continued to page three)

Captain Bob, The Gridiron Idol

CAPTAIN BOB THROWER

Bob Thrower, Captain '23 Highland Grid Machine.

This fall witnesses the third successive year that Captain Bob Thrower, the big, scrappy right tackle from Texas will perform for old Maryville.

Captain Thrower came to Maryville from Texas, having had one year of football experience at Southwestern University, Georgetown, Texas before his advent on the Hill. He performed brilliantly as a tackle on the hurricane machine which Coach Honaker succeeded in moulding together in 191. Last year Bob was a little dubious as to his return to College but ere a few days of the practice season was over, dear old Bob came rolling in. As usual he was a tower of strength in the line last year. Thower is about the best tackle in the state, it is said.

In the selection of Bob Thrower as captain of the Highlander Varsity for '23, last year's letter men surely displayed a world of tact and good judgment inasmuch as Captain Thrower knows the game thoroughly, is a good leader, a faithful scrappy, loyal chap and one who will cherish the trust the students have placed in him.

Captain Thrower says little, but at the critical moments he's always there with the old punch. He reports that his summer's work has put him in good physical condition and he is now ready to dive in with all his heart and soul to help build together a smooth—working loyal, scrappy grid machine that will carry the old Orange and Garnet on to victory this year. We can count on Captain Thrower.

BOOST

Matriculation

In order to alleviate any unnecessary congestion during matriculation of students on Tuesday and Wednesday, the following notice should be carefully read and remembered.

All preparatory students will pay their bills in Treasurer's Office before repotring to Prof. Ellis, principal of the Preparatory School for their schedule of studies. Thus, their first procedure is to line up in front of Treasurer's Office immediately following breakfast Tuesday morning. After Tuesday morning, the next opportunity a preparatory student will have to pay his bills will be Wednesday morning. No preparatory students will pay bills Tuesday afternoon.

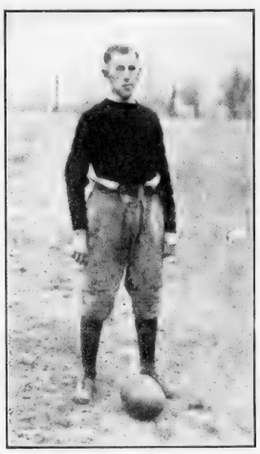
College students will arrange their schedule of studies before reporting to Treasurer's Office to pay their bills. No College students will be allowed to pay their bills until after lunch on Tuesday, the Treasurer's office opening at one o'clock. TUESDAY AFTERNOON WILL BE DEVOTED TO PAYMENT OF COLLEGE STUDENTS' BILLS.

Wednesday the preparatory and college students will pay their bills together, according to when they appear in Treasurer's Office.

THURSDAY, SEPTEMBER 15th IS THE LAST DAY FOR REGISTRATION WITHOUT THE USUAL FINE.

COLLEGE ENROLLMENT LARGEST IN HISTORY

Record-breaking Freshmen Class



The general prospectus based upon what has been going on in the Registrar's office during the summer months points strongly to a greatly enlarged enrollment in the College Department this year. Quoting Dr. Gillingham, "In fact this has been, without a doubt, one of the busiest summers ever experienced in the Registrar's office. Instead of our applications being three-fifths preparatory and two-fifths college, the tables have been completely reversed, enrollment applications being almost exclusively College."

The present prospect indicates a freshman class numbering between 250 and 275 students, with the entire College enrollment exceeding the 600 mark.

It is interesting to note that the first of August witnessed the girl's dormitories filled to capacity. At present the Registrar is receiving girl entrance applications for the year 1924-1925 inasmuch as they are unable to secure accommodations this year.

Indications point to the fact that Carnegie Hall will also have a much larger habitation than last year, practically all the rooms having been taken.

The Grey-Eyed Man of Destiny

COACH LOMBE S. HONAKER

"I Here For a Successful Year"

Coach Lombe S Honaker begins his third year as director of Maryville's athletics. Coach has been signally successful in placing old Maryville in the front in athletics for the past two years having produced winning teams in football, basketball and bareball.

With the assistance of Coach Bond, Coach Honaker has remarked that he is hoingo for the greatest year that Maryville has experienced in athletics in many seasons. He is particularly pleased with the host of last year high school athletes who are entering Maryville College this fall and right here let it be known that Coach wants to give these chaps the best of opportunities to gain for themselves a wealth of experience in various branches of athletics.

Coach Honaker came to Maryville College in 1921 from Southwestern University at Georgetown, Texas. He is an alumnus of College of Virginia, having had several years of tutoring under Coach Zupke of Illinois.

Coach Honaker has the utmost confidence and support of those interested in the athletic destiny of Maryville and he is guarding this trust as honestly and conscientiously as possible.

Below are some of the outstanding high spots in the Coach's personality which compel a chap to like him immensely:

"Play the game square."

"The more a fellow thinks he knows, the less value he is to me."

"If a chap deceives me in his training rules he is mostly kidding himself."

BOOST

ASSOCIATIONS HOLD CONFERENCE AT MONTVALE

Y. M. and Y. W. Open Three Day Conference Saturday

On last Saturday Sept. 8, Officers, Committee Chairmen, and members of the two Christian Associations of the College journeyed out to Montvale to make plans for the coming year. The afternoon was taken up with Individual Conferences between the Cabinet Members and Officers preparatory to the main Conference which began on Saturday night. At 6:30 the students who had gotten there on the 2:30 Bus gathered on the lawn for a Sing which was led by Dewey Eitner, the Music Chairman of the Y. M. C. A., and Sarah Kiskadden of the Y. W. C. A. Then the second bunch of students arrived at 7:00 and supper was served at 7:10. Devotions at 7:45 led by the President of the Y. M. C. A., Sam Franklin, lasted until 8:10 and then an hour was given over to separate conferences of the two Associations. The Main Objectives for the year were set forth by Sam Franklin and a short resume of the

(Continued to page three)

Maryville Alumni Building New Gymnasium

Below is a bit of the most welcome news in many moons to Maryville students, alumni and otherwise, who are interested in old Maryville's athletic progress.

The new gymnasium building is going up radily. The concrete foundations are completed and the frame work is being constructed at such a rate as to assure its completion by November 1st.

The building is to be 110x108 feet in area. The playing floor is to be 60x90 feet, the regulation dimensions for basketball. There is to be a space 108 feet long and 25 feet wide on each side of the court where the bleachers are to be placed. There will also be space in the clear between the ends of the floor and the end walls, twelve feet at the front and six feet at the rear.

The floor itself is to be of maple with sub-floor and joists resting on concrete walls twelve feet apart. The building is set on a solid concrete wall 14 inches thick with the five outer inches of thickness left exposed to receive the brick veneer which should be added soon.

The building is close to Bartlett Hall on the side next to Court Street Located as it is only 60 feet from Bartlett, the dressing rooms and baths in the old building will be

Let's hit the line hard and help Bob's team to win.

Mitchell's DRUG STORE

Welcome Students!

This store extends you a hearty welcome. As the "Highland Echo" is the official organ of the Student body--so is this store the "official clothiers."

Come in and feel "homey"--inspect the new arrivals for fall--use our telephones--make our Rest - room yours. Our efficient sales people are always at your service to show you just what's new and "being worn."

Yes, we have Maryville College Pennants and Pillow Tops.

"Our prices are never high."

Chandler-Singleton Co.

"The Home of True Economy"

Say Fellows!

You are wondering about the new Fall Models—and here they are—and they are wonderful.

Fall 1923 is going down in Clothing History as the Sir Walter Raleigh season in a decade.

Such polite fashions—such a relief from belts and buckles—such a safe and sane showing of unadorned elegance has never been put forth in one season since the Centennial.

Coats are fuller in shoulders—trousers roomier of leg—and range of patterns is miles wider and fathoms deeper than clothiers sprung this Spring.

Come—it doesn't cost a cent of money to try on and find out what to discard and what to keep on.

A Royal welcome awaits every man who is willing to put his shoulders against our time.

MICHAELS STERN SUITS

BERG HATS

MARYVILLE LOOKS FOR BIG YEAR IN ATHLETICS

Continued from page one

of Kentucky, King College and Cumberland University appearing on the schedule.

In basketball we have four of last year's team back, composed of McMurray, forward, Riskey, forward, Veech and Music, guards. It is reliably reported that we have two new centers in College this year, one fellow towering six feet, three inches in height, the other chap just one inch lower—whoosh- Also, there is some other good material on hand for basketball, and with the inspiration of a new gym in which to play, surely we are going to be a mighty hard crew to stop.

Baseball prospects for 1924 look a great deal more cheerful than they did last spring. Both Matthews and Burleson return to us, each having pitched fine baseball the entire summer. The writer doesn't claim to be responsible for what's coming, but it is reported that Burleson hasn't yielded over six hits in any of his games this summer, and he's been in some mighty fast semi-pro ball too—and so has Jack Matthews. Among the baseball letter men who are returning are: Baxter Williams, Partee, Sneed, Ruble. Riskey, Burleson, Jack Matthews Watkins. This is a mighty fine nucleus to start the ball rolling in the springp of 1924.

There is one thing that every student in Maryville should recognize and remember, and that is the faithfulness of our athletes to the College and to their Coach. Practically all of our baseball men could play professional ball, most of them are actually sought, but they play square and much to the gratification of Coach Honaker to whom the credit must go for their training and development, they remain out of organized baseball, continue eligible for college athletics and are back in old Maryville each year whanging away with all the vim they can garner to do their bit in winning a bit more prestige for the old College in athletics.

Athletic schedules are getting a bit heavier each year and this year is no exception. Basketball and baseball schedules will be much heavier than last year and in general students and suporters in the City stand a mighty fine chance of seeing some great games this year.

The football schedule is as follows:

September 22, Mars Hill College at Maryville.

September 29, Tusculum College at Maryville.

October 6, University of Tennessee at Knoxville.

October 12, Milligan College at Johnson City, Tenn.

October 20, Kentucky State at Lexington, Kentucky.

October 27, Transylvania College at Maryville.

November 3, Georgetown College of Kentucky at Georgetown, Ky.

November 10th, King College at Maryville.

November 17, Sewanee at Sewanee, Tenn.

November 23, East Tennessee State Normal at Maryville.

THANKSGIVING, Cumberland University at Maryville.

DEATH OF MRS. J. C. ECKLES, MOTHER OF MRS. NITA ECKLES WEST

On Monday, August 6th, Mrs. J. C. Eckles, mother of Mrs. Nita Eckles West, passed away at the home of her daughter, Mrs. Burall near Dayton, Ohio. Death was caused by heart trouble and presumably hastened by the severe heat. Mrs. Eckles had only recently gone to Ohio to visit with Mrs. Burall and her death was a great shock to those of her family and friends in Maryville.

Mrs. Eckles had reached the ripe age of seventy years.

We indeed sympathize greatly with Mrs. West and her family in their great loss.

MRS. McMURRAY IMPROVES HOME ECONOMICS DEPT.

Continued from page one

home economics must have standard equipment and their teachers must have degrees which have been officially qualified by State Board of Education to train teachers. Each state sets its own standard of requirements for Smith-Hughes teachers. The standard in Tennessee is equal to a B S degree from Department of Home Economics in University of Tennessee. Our course has recently been submitted to State Board of Education and approved. It is exceedingly interesting to note that only one other college in the State is at present qualified to teach under the Smith-Hughes Law, other than the State University, that college being Peabody in Nashville.

At the present time there are only twenty-five qualified Smith-Hughes teachers in the entire State. The demand at present is far in excess of the number qualified to teach.

If a young lady intends teaching home economics, she should by all means qualify herself for a Smith-Hughes position, inasmuch as she thereby meets the requirements of any state in the United States to teach home economics under the Smith-Hughes Law.

Mrs. McMurray is to be congratulated for this attainment and the College is proud of the prestige this adds to its curriculum.

FOOTBALL LEAGUE

An Inter-class football league is being considered by the athletic committee of the Y. M. C. A..

This year the Freshmen Sophomores, Juniors and Seniors will each play the others twice, a league standing and averages being kept. Members of the varsity will coach the teams and when a game is to be played, suits will be available.

ASSOCIATIONS HOLD CONFERENCE AT MONTVALE

Continued from page one

Financial side of the Association, by Verton Queener the Treasurer were the main topics civered during this hour by the Y. M. C. A. Considerations of Nu Gamma Sigma was begun by the Y. W. C. A. at this time. Sunday morning at the side of Sidney Lanier Lake, the morning devotions led by Dr. McMurray were very helpful and gave inspiration for the work to be taken up during the day, Sunday was spent principally in separate conferences of both the Associations and one joint conference in which the discussion was led by Dorothy Winters on "How to Obtain a World Outlook" and Mary Broady on "Co-operation." The day was fittingly closed by Dr. Wilson's address, a charge to Cabinet men.

Important changes have been made in the various activities over which the Associations have control. The Y. M. C. A. announces that Stuart Rohre will be in charge of the Y store in Bartlett this year, while William Smythe and Dewey Eitner will supervise the reading room. The latter will be refurnished with magazines and a new music box.

On Saturday night the Y. M. C. A. will hold its opening reception for the new men in the college wood, and, on the following Sunday at 1:00 P. M. Dr. Wilson will open the Sunday meeting with an address to the men. This address, which has come to be a tradition on the Hill will carry a message which no one can afford to miss.

The men will be interested to hear that the Announcement Sheet of the Y. M. C. A., the "Y Bee" will continue to appear under the direction of its Editor, H. Y. Van Orden.

The Y. M. Association rooms will be occupied by the vice-president, Edward Hamilton, and the secretary, Edgar Cathey. All men will be welcome at these rooms at all times

MARYVILE ALUMNI BUILDING NEW GYM.

Continued from page one

conveniently available for all the uses of the new building.

Oh say—and don't overlook such an important fact as the appearance on the Hill again this year of Music, Veech, Riskey, McMurry of last year's basketball team, together with the addition of some sterling material from various high schools over the country whose ability will leek out later. Especially we have two prospective centers whose reaching prowess, according to measurements, ought to touch the ceiling of the new gym. In other words, Maryville may not present a world beater in basketball this year, but—we ought to be mighty hard to stop.

PRE-ENGINEERING COURSE STRENGTHENED BY ADDITION OF COURSE IN MECHANICS

The Department of Physics and Mathematics which heretofore have been growing by the constant addition of new courses will again get a decided boost by the addition of a course in Mechanics. Our pre-engineering course is a strong one and is directly in line with the requirements of the principal schools of engineering thruout the country. Indeed by the gradual addition of new courses in mathematics and physics preparatory for engineering the College is strengthening its hold upon the inclination of male students to enter Maryville and under the instruction of Professors Knapp and Hyden, the two deptartments are assured of great results in training students for advance entrance standing in the best engineering and mechanical schools thruout the country.

Every body is invited to make these rooms his loafing place from supper until study hour. The store and the reading rooms will be open this year after supper.

WELCOME FRESHMEN

True it is—this is your first year in college, and chiefly for this reason, Maryville wants to welcome you to its midst—to be a part of the big family. Sure, it is with you as it was with the rest of us who have gone the same route, we always experience a few thrills, a sort of lurking sensation as to what's coming next. You are a part of Maryville now—in fact, according to the number of freshmen who have matriculated—you are the biggest individual unit among us, so just buckle down and life will settle its own little problems as they come before you day by day. We wish you lots of luck in your climb to another rung in the ladder of college life.

By all means, it should be most noticeably impressed upon the students that during the summer there has been a wonderful display of intense interest and good spirit on the part of last year's athletes. These chaps have all worked hard to bring some good athlete back to college with them, in several instances they have been successful. We wish to commend the fellows for such a spirit It is by such good cooperation and college spirit that old Maryville will grow in the future, so let's everybody get the same feeling around the Hill and make the old premises ring with good will toward one another and by means—the staunchest kind of support for Coach Honaker, his athletes and all things pertaining to athletics.

The fact that Maryville graduated quite a number of her first class inter-collegiate debaters last year cannot help being noticed by those of us who know them. Maryville has four literary societies, two for boys and two for the girls It is thru the medium of these literary societies that high grade material is provided for inter-collegiate debate teams. Literary society work is important vitally so in the life of any fellow who ever intends to buck the world and be a man among his fellows inasmuch as it drills a student in the rudiments of speaking straight from his shoulder that which lurks in his mind. It is hoped that the freshmen and those students who did not enter into literary society work last year, will this year get a different attitude and enter wholeheartedly into the work of the literary societies.

The Y. M. C. A., Y. W. C. A. Conference was held at Montvale Springs on Saturday, and Sunday before opening of College again this year as usual. Our Y. M. C. A. and Y. W. C. A. workers are to be congratulated upon their forward motives and initiative in arranging and successfully carrying to completion these sterling conferences which result in much good for those who attend them. There will be a complete account of the Conference in next week's issue of the Highland Echo.

In publishing this issue of the Echo, which was started more than a week before school began the staff was up against it for a man to collect and write up the articles which appear in this pre-season number. Maybe you think it would be a hard job to find a man to do this. We thot so too. But it wasn't a very hard job after all. Just at the critical moment, E. W. Hunter, better known on the hill as "Van" came to our rescue. Now Van is about as loyal a man as ever went to Maryville. He has been connected with the college for four or five years, and feels a very great love for the old school. Altho Van is going to the University of Tennessee to take up some special studies this year he gave his time for one entire week in order to make the first number of the Highland Echo a success For reasons which cannot be made public here, it is rumored that Van would rather be in Washington, D. C., this winter than anywhere else on the face of the globe. Altho the chap ran around here some four years without falling victim to the wiles of the fair sex it is rumored that he has at last fallen "hard" for one certain "fair" Co-Ed who was on the Hill last year but who will not be among us in '23.

There are over six hundred matriculated in the College Department this year. The most appropriate comment regarding this fact is "Watch Maryville College Grog.

SH!! FELLOWS??

Say now—the guy that's got the nerve to bumb around the Hill all by his lonesome sort o' like he'd lost his last friend, stag to football games, entertainments, etc., this year enter be electokooted. You see, it's this way—there's some hundred and fifty or more new faces among the feminine element this year—so by gum, it's just up to you. If this hint isn't sufficiently impressive, well. I'd hate to see your rating after you've gone thru Dean Barnes' mental test??

COLLEGE SECURES NEW BLEACHERS FOR ATHLETICS

Sufficient Seating Capacity for Any Crowd.

Thousand Seating Capacity

Orders have gone forth for knock-down bleachers, capable of seating a thousand people. Delivery is hoped for by October 15th, but this is an indefinite note in the receipt of this bit of good news. However, we are assured of these bleachers by November 1st as delivery has been guaranteed at that date. The bleachers will be used both on the football grid, the baseball diamond and in the new gymnasium, thus facilitating a relief in the heretofore grueling task of standing at athletic contests in order to get a good view of the games. Knockdown bleachers are a great advantage inasmuch as they can be easily placed in the most desirable position for various sports, thus adding to the comfort and pleasure of the spectators as well as affording a more intense interest in the games and a greater support of the players.

Please rush those bleachers—we want a "soft" seat!

AN ALUMNUS SONG

(Written with a view to possible use at alumni reunions)

Dear Maryvil'e, thy call we've heard,
Fond memories in our hearts are stirred,
And praise to thee in loving word
We bring, dear Alma Mater.

The truth thou taught'st in other days
Has been our light in life's dark ways.
That fame may fade but goodness stays
We've proved, dear Alma Mater.

And may thy present younger sons
Learn well the truth that constant runs
Through all thou teachest to thy sons,
And serve, oh, Alma Mater.

Where hills surround thee, massive, grand,
And ivied cloisters guarding stand,
Our love to thee from every land
Comes home, dear Alma Mater.

—1914.

To our old friends and the new friends we hope to make—

GREETINGS:

We are glad to see you. We want you to know us and we want to get acquainted with you. Come in any time and whether or not you buy from us we assure you that a warm welcome and courteous treatment awaits you.

We pride ourselves that our stock of stationery, toilet articles, candies, kodaks, fountain pens, school supplies, drugs and sundries is new and up to date and we invite your inspection.

At our fountain we serve satisfying drinks, confections and sandwiches in ways that make them more appealing.

WE ARE WITH YOU

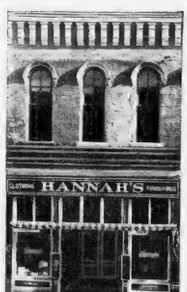
HOBART FORD ON HILL



To Assist Coach Honaker For Period of Two Weeks

"Hoby" Ford who is familiarly known to the majority of students on the Hill has been in our midst since last Friday. "Hoby" is remembered as the stalwart left tackle on Maryville's 1921 steam roller and also as having played four years in a Maryville uniform. Hobart is now a student in the Tennessee Medical School at Memphis, preparing himself for the profession of dentistry.

Ford will remain on the Hill some two weeks, during which time he will devote his utmost energy and knowledge in aiding Coach Honaker to develop an exceptionally strong line to withstand the hard strain awaiting it in the forthcoming games.

Hobart is one of the main cogs in the Tennessee "Doctors" Grid Machine and since leaving Maryville a year ago, has continued to make a name for himself on the gridiron. He is well versed in football tactics and is greatly qualified to assist Coach Honaker in wielding together an exceedingly hard-fighting, stalwart line to rip holes in the opponents' line of defense during the coming season.

We are all mighty glad to see "Hoby" back on the Hill, we only wish he was going to remain with us permanently.

WELCOME IS THE WORD!

Faculty Diversions During Summer

Below we get a bird's eye view of some of the doings of the Faculty since June. Of course we humans are all alike in some particulars; we students don't mind exposing some of our activities during the off season, but, there are some meager bright spots we always prefer to keep more or less secret, thus with the Faculty.

Dr. Wilson seems to have had a rather strenous session, religious interests, educational duties and vacationing contributing to his three months of activities. He attended the Presbyterian Synod at Ovoca, Tenn., also the Executive Commission of Prebyterian Church in New York City, of which he is a member, and now the fun begins. Our beloved President inevitably turns to motoring as the best source of real invigorating, pep gathering pastime. This, with the past two summers, constitute the third successive extensive motor trip of Dr. Wilson. This summer his tours comprised two auto trips, one to Washington, D. C., the other up into Michigan and around the Great Lakes. He was accompanied by Mr. Wilson McTeer, who acted in the capacity of chauffeur and who is a Junior in Maryville this year. Dr. Wilson reports a wonderful trip, says he is feeling fine and is now ready for what's coming.

Dean Barnes seems to have had an excess of energy and pep this summer, having taught Education in the University of Tennessee Summer School. Says he derived a great deal of pleasure from it and says he is now ready to take on his regular burden of issuing excused absences, teaching psychology, etc.

Now Dr. Gillingham says—well, he says he's been following the great "avocation" of doing nothing, but translated into vocation, means that he has remained in the Registrar's office eight hours every day since June, attending to the mountain of correspondence, inquiries, etc., arranging programs of studies for the forthcoming year, filling various pupits during the summer and what not.

Prof. Knapp is one of the greatest vacationists ever. He gets his grip and starts away, nobody knows where, but he inevitably lands and to be sure, he gets his share of the fun. This summer he spent quite sometime with his daughter, Mrs. Keifer, in Columbus, Ohio, thence back to East Tennessee and up to Calderwood with another daughter, Mrs. Barrett and his little grandson. Prof. Knapp reports a very enjoyable summer.

Prof. Davis as usual sauntered off to his orange grove in Florida, he surely must like the heat. In August he joined Mrs. Davis in Marshall, Mo., and together they motored back to Maryville about the first of September.

Prof. Hunter—gee whiz! Here comes several interrogation points. Dame rumor eports him as having become a carpenter. In all seriousness he has labored most diligently for the College during the summer months, having had charge of the new gymnasium and as usual, continued to work on the College Athletic Fund Campaign. He has also had to deal with some of the trials and tribulations of a bachelor during the summer season, due to the absence of Mrs. Hunter and the boy.

Dr. and Mrs. McMurray have remained in Maryville the entire summer, Mrs. McMurray as usal making extensive plans and hustling for her department. It is rumored that Dr. McMurray can now qualify as a professional chauffeur—ask Mrs. McMurray.

Dr. Hussey seems to have a weakness for those North Carolina hills. Can't say whether he has been thinking about French, German, Spanish, etc., these summer months, but it is reliably repor that he and his family have spent a quite delightful vacation at their summer home a Weaverville, N. C.

Prof. Howell is reported as having visited extensively in and around Pittsburgh, Pa., which means a repetition of his "avocation." He has also spent quite some time at his home in New Jersey.

Prof. W. L. Hyden attended the first term of University of Tennessee Summer School.Since that time he has been at his home in Philadelphia, Tenn. Prof. Hyden will leave soon to take up work in John Hopkins University.

Prof. J. A. Hyden who had a year's leave of absence during 1922-23 secured his M. A. degree in Vanderbilt University in June and since that time has been teaching mathematics in George Peabody College for teachers. We are indeed glad to welcome Professor Hyden back to the Hill again.

Miss Gamble spent her vacation studying in the University of Tennessee Summer School.

Miss Hale—well—you never can tell. This summer Miss Hale spent in Cincinnati Conservatory of Music Of course it is understood she got away somewhere for a good rest—she always does.

Mrs West has been at home in the country all summer, yet her vacation was extermely saddened by the death of her mother. We regret exceedingy to learn of the sadness which has come to Mrs. West and her family and extend our heartfelt sympathy to her in this great loss and sorrow.

Miss Holland is another one of our Faculty who seemed to have had lots of pep left over in June. Miss Holland has spent her vacation months teaching at East Tennessee State Normal Summer School in Johnson City.

Mrs. Alexander and her sister, Miss Elizabeth Smith have spent a most enjoyable summer touring thru California and Yellowstone Park.

Miss Green has been at her home in Wakefield, Mass., most of the summer, but according to the number of invoices, bills, etc., arriving at the college office from various biological supply houses, she has been doing something other than merely vacationing.

Professor Orr has been continuing his post-graduate studies in the University of Tennessee Summer School, also interesting himself in Prof. Hunter's efforts to materially increase the College Athletic Fund.

Miss Heron spent the summer studying in Columbia University.

Coach, Mrs. Honaker and Scott. It is reported that they've been extensively engaged in raising chickens, fighting bean bugs, and being sociable in general, at their home on Wilson Avenue. Also Coach Honaker can now qualify for a "position" as instructor in sewing and tailoring after his melee in patching football pants during the summer. A fine idea of the Coach's summer's activities can be gained by following closely the excellent bunch of athletes he has gotton together for this year's sessions on the grid, the basketball court, track tennis and baseball. There's no two ways about it, he has worked hard for the College.

Mrs. Minton in the first place, has remained "En Casa" at her Wilson Avenue home, also having taken up the entire summer in studying at the University of Tennessee Summer School. Says she has had a great vacation and she's fully prepared for what's coming.

Prof. Bond studied at the Marine Biological Laboratory at Woods Hole, Mass., which is, by the way, one of the principal institutions of its kind in the country. Since being back in Maryville he too has been shoving a needle and assisting Coach Honaker in patching football pants and otherwise aiding in preparation for a big year in athletics.

Mrs. Stevenson visited her son in Pennsylvania and friends in Yonkers, N. Y., Washington, D. C., and other places—poor Doctor. But, Doctor says he's not going to let anybody put anything over on him—thus Dr. Stevenson, Mrs. Stevnson, together with Mr. and Mrs. J. H. Webb form a party who are now enroute to Washington, D. C., by auto. They are due to return by September 12th

The Proffitt's have remained in Maryville the entire summer. However, Prof. Proffitt has just returned from a hasty visit to Florida in interest of the College orange grove. Prof. Proffitt has been, and still is—about the busiest man in captivity.

Miss Anna Jones spent her two week's vacation this year visiting in Michigan. Miss Jones has about as much work to do as anybody on College Hill and it is great to know that she is back with us, all pepped up and ready for the strenuous duties awaiting her in the Registrar's office.

Miss Clemmie Henry has been at her desk the whole summer with the exception of one week spent at Montvale Springs.

Miss Celia Rough got away as usual, for her two week's stay with her parents in Oakand City, Indiana.

Miss Caldwell has been at her home on Depot Street all summer.

Mrs. Worley has remained with Miss Caldwell on Depot Street during the summer.

Mrs.Snodgrass spent her vacation with her daughter Mrs. Proffitt on Wilson Avenue.

Mr. Ernest Brown "Brownie" has been rather busily engaged in setting the house in order for the opening on September 11th. This means he's patched up all the leaks, painted two dorms and otherwise dressed the old "Hill" up so you wouldn't hardly recognize it—rather big summer for Brownie.

Mr. McCurry, "Mack" has almost run his leggs off trying to keep silence over in Carnegie Hall, and otherwise whanging away here and there on the Hill.

Faculty Changes

College Faculty To Have Several New Members for Year 1923-24.

Below is a list of the changes which will occur in the ranks of the College Faculty this year.

Prof. Lee Roy Herndon, B. A., will take Prof. W. L. Hyden's place during the latter's leave of absence.

Miss Carmen Park, B. A., will come to us as instructor in Psychology and Education.

Miss Wilma Sutton, B. S., as instructor in Home Economics.

Miss Lena C. Bowers, B. A., will teach French and History in the Preparatory School Department.

Miss Caroline H. Crawford succeeds Miss Gregg as teacher of Voice.

Miss Mary Elizabeth Bassel, B.A., will be an instructor in Piano.

Miss Alice Clemens, B. A., will take Miss Heron's place during the second semester as professor of Rhetoric. Miss Heron is to have a leave of absence for further study in Columbia University.

Miss Almira Jewell, B. A., will take Mr. Mintier's place as instructor in History.

Miss Margaret Catherine Wilkinson, B. A., will succeed Miss Wheelock as instructor in French.

WESTERN BANDITS ENTER SCHOOL

W. Orville Baldwin and U. Eldon Boyle, better-known as "Willie" and "Percy", have been seen running at large in the city of Maryville. These two young desperados are well known to all sheriffs and jailors in Nebraska or Saskatchewan or somewhere out there. The students are warned to exercise care in the way they tip their hats to these fellows for it is very dangerous to have a bandit for an enemy. It is rumored that young Boyle was known as "Baby" in Kalamazoo or somewhere out there, and that he carries no less than sixteen notches on the barrell of his gun. It is authoritatively known that young Baldwin was raised from the age of twenty-three by some missionaries in Witchita or wherever he comes from and that he speaks the English language when angry. One of the Echo reporters states that he distinctly heard one of these bandits say the words "Hebron, Nebraska," but this paper takes no responsibility for giving out such a report. It is possible that they were merely hoping to go to Hebron some day. Both of these characters are welcomed to the hill.

FOOTBALL PRACTICE BEGAN ON THE HILL FRIDAY MORNING

Mixture of Old Men and New Material Add Wealth of Prospects To Coach Honaker's Hopes

"LOOKS GOOD"

The final gonfalon has sounded its last call—the old pigskin has begun to tumble and eek out its regular grunts as the empact of the leather pushers plant their nefty toe therein. Hot—mighty hot, but the Coach has had his charges out morning and afternoon since last Friday putting them thru all sorts of limbering up and strenuous exercises, pushing them on towards their final round of getting in the pink of condition for the exceeding'y heavy task ahead of them.

Among the new arrivals on the "Hill" and who have been laboring diligently under the Coach's instructions during the past few days are the following, among whom it is safe to say will be selected for positions on the Varsity ere the first game or two will have become history.

Stevens, quarterback from Magnolia High School, Arkansas.

Chandler, end, McTeer School, McKenzie, Tenn.

McDaniel, halfback, Magnolia Ark. High School.

Coleman, lineman, from Florida.

Hurst, halfback, ex-Maryville prep., from Adrian College, Michigan.

Clemens, halfback, Maryville Polytechnic.

McCall, end, Maryville Polytechnic

Burleson, lineman, Belleview, Tenn.

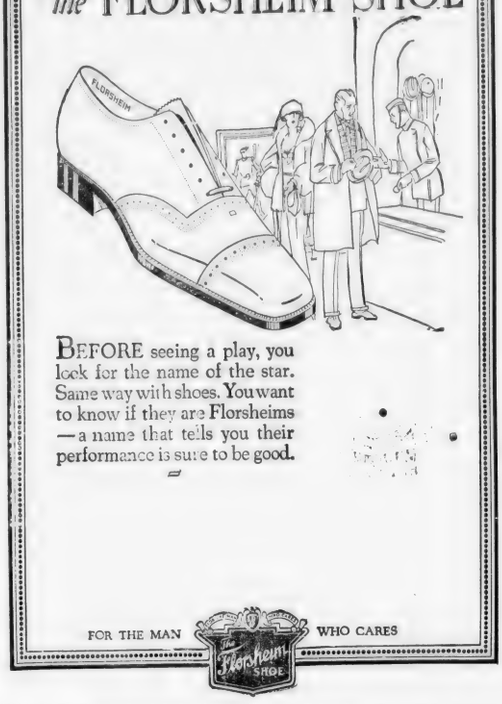
Sprinkle, center, Marion N. C., High School.

Bell, lineman, Bradley County High School, Cleveland, Tenn.

Cartright, end, Bradley County High School, '22 end on U. T. Freshman team.

Shores, end Howard College, Birmingham, Ala.

Among the letter men of the '22 varsity who are returning are the following:



Schmidt, guard.
Music, end.
Clemens, center.
Thrower, Catpain, tackle.
Williams, end.
Hamilton, fullback.
Sneed, halfback.
McMurray, halfback.
Riskey, quarterback.
Partee, halfback.
Bowles, tackle.

Among the '22 members of the Varsity Scrub Team who are returning are the following:

"Red" Brown, guard.
Greenlee, center.
Joe Gamble, fullback.
Baldwin, center.
Pete Sneed, lineman.
Burleson, lineman.
Robinette, lineman.

Aside from the above men, there will be many others who will don the moleskins and make a bid for a place on the team.

All in all, it looks like there is going to be a great year for Maryville games as Tennessee, Kentucky State, Sewanee, King College, Georgetown College of Kentucky, there has got to be a whole lot of gruelling work and coopration to get ready for this long role of hard knocks coming along in a continuous line of march between now and Thanksgiving when the curtain will be wrung down with a game on the "Hill" with the exceptionally strong Cumberland University team.

BADGETT'S is Waiting to Welcome You

Come and See Us

MARTIN'S DRUG STORE

Martin's Drug Store is located in East Maryville, just opposite the Southern Railway Station.

The store is owned and operated by Dr. Kenneth L. Martin, a former Maryville College student. Dr Martin was practically brought up in a drug store, having started at the very bottom and worked up, step by step until he controls one of the first class drug stores of Maryville.

A complete stock of all items carried in a drug store will be found at Martin's. There you will find stationery, toilet articles, Hollingsworth candy, Eastman kodaks, films, soaps, school supplies, fountain pens and a complete stock of drugs. The prescription department is under the personal supervision of Dr. Martin.

The soda fountain is also one of the features of this modern establishment.

All old students know that a warm welcome awaits them there at all times and new students are made to feel at home.

The Echo

The Highland Echo this year will appear regularly on each Wednesday morning except for a few exceptions which have been decided upon. There will be a total of thirty issues. This number of issues is absolutely guaranteed by the business department.

The Highland Echo will appear as follows during the school year 1923-24:

September 12, 19, 26.
October 3, 10, 17, 24.
November 7, 14, 21.
December 5, 12.
January 9, 16, 23.
February 6, 20, 27.
March 5, 12, 19, 26.
April 2, 9, 16, 23, 30.
May 7, 14 21.

This announcement is made in the first number of the Echo in order to give the advertisers a guaranteed date on which there advertisements will appear and to make it clear to receive their paper. The subscription price is $1.50 per year mailed anywhere.

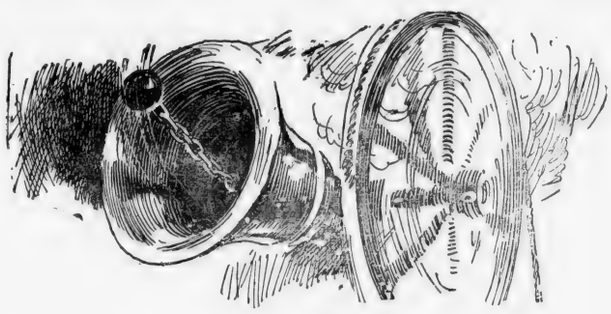
"WHERE QUALITY COUNTS, WE WIN"

Beloved Pastor Is Called to His Reward

Dr. W. E. Graham Died Suddenly Afternoon of June 18th While Mowing Lawn Of His Home

Dr. W. E. Graham, Pastor of Providence Presbyterian Church and dear to the hearts of scores of Maryville College students died suddenly on the afternoon of June 18th while mowing his lawn. Death was due to apoplexy, brought on by the intense heat.

As students of Maryville College, we are proud to remember Dr. Graham as an Alumnus of Maryville College, having taken his degree in the spring of 1891. Dr. Wilson has the following to say of Dr. Graham's activities while in the College Department on the Hill.



"He was perhaps the leading student during his four years in College, 1887-1891. 'Will Graham' as he was called was a natural leader, always modest, but always influential and efficient; and he rendered very useful service to the College by means of his sound judgment and safe initiative. He was looked up to as a model and as a well-balanced Christian gentleman. It was in his part due to his leadership that his class numbered fourteen, the largest class ever graduated up to that time. Six of this class entered the Christian ministry. Six members of the class have passed away during the thirty-two years that have elapsed since their graduation."

Truly Dr. Grham was a great and good man; great in that he believed thoroly in the principles of Jesus Christ and the love of God, and furthermore, he always earnestly preached these principles to his fellowmen; good in that he possessed a great heart, was kind, considerate and ever thoughtful of others.

The students of Maryville College have lost a great, true and interested friend. His loss is a great one. The sympathy and kind thoughts of the entire faculty and student body are borne to Mrs. Garham in the great loss which she has suffered.

Hot water was included in the rent in France before the war, but the soaring coal prices caused its discontinuance by landlords or maintenance by tenants who now are using gas and playing for it.

Dan Cupid Busy Among Alumni and Former Students

Below is a list of Dan Cupid's victims among former Maryvillians during the summer months. Looks as tho old Hill is holding valiantly to its record as a trysting place for the selection of "Little Pals" for the long and tedious road ahead.

Jason G. Purdy, '19 and Emily Montgomery, ex-'21, at Piqua, Ohio, June 4, to be at home in Seoul, Korea.

Edna M. Foster, '16, and David Dudley, at Maryville, in August, to be at home in Evansville, Indiana.

Jeannette Hibbert, '21, and Thomas B. Askew, at Maryville, August 23, to be at home in Plainview, Minnesota.

Fred H. Cagle, '20, and Nelle E. Hunter, at Knoxville, August 1, at home in Knoxville.

Margaret W. McSpadden, '22, and Charles Pardue, at Concord, Tenn., last week in July, at home in Pikeville, Tennessee.

Carl E. Domiano, '21, and Sallie Brewer, ex-Prep., at Maryville in June, at home at 1908 West Jackson Boulevard, Chicago.

Mayme Maxey, '14 and George W. Bisanor at Maryville in May, at home in Hickory, N. C.

Henry A. Calloway, ex-'17, and Birdie Miller, at Unionville, on June 5, at home in Oakhurst, Texas.

Burney F. Acton, "22 and Mary Biles, Prep., '23, at Sharon on June 23, at home in Birmingham, Ala.

Helen E. Newell, '19 and John H. Witherspoon, ex-'19, at Chattanooga on June 27, at home in California, Pennsylvania.

Charles E. Ensign, '17, and Lenore Stark, ex-'19, at Chattanooga, in July, at home in Chattanooga.

Jessie A. Creswell, '20 and Walter Seifert, at Blufield, W. Va., on June 12, at home in Denver, Colorado.

Maude C. Hite, '20 and Walter C. Schnopp, at Camp Starwink, on August 9, at home in Morgantown, West Va.

J. Charles Walker, '16 and Ruth Constance Yeagle, at Washington on August 1.

This list includes some mighty well-known Maryvillians and the Faculty and students join heartily in bidding them godspeed as they go happily along their varied chosen paths of life.

VOLUME NINE | MARYVILLE, TENNESSEE, SEPTEMBER 19, 1923 | NUMBER TWO

Coach Honaker Predicts Big Year in Football

First Game Saturday--Mars Hill in Good Condition.

Coach Honaker confidently predicts a big year in football. In view of the fact that we have a husky squad of more than fifty football fighters daily quelling on a hot gridiron we don't it in the least. Under the coaching of three men raised on football, Honoker, Bond and Ford, and with material like Capt. Bob, Hamilton, Schmidt, and some more heavyweights, including Shorty Sneed, not only do we not doubt it but we are inclined to pity the lack of intelligence of anybody who does doubt it. We are going to see an aggregation produced that will clean up with U. T., walk away with Kentucky State and romp over any other small school that is careless enough to get in our path with leads to an undefeated season.

Mars Hill will get in our road next Saturday. They are our first victims.

These boys have been working hard on the field since August the 15th and are rather confident after a winning season last year. But, while they may offer us a little opposition in the way of some stiff practice our backfield will rip up, circle, or plow through any hue that happens to interfere with the progress of the pigskin.

To get down to facts we've got a cagy outfit. Captain Thrower supports the Maryville line like a stone wall, but only more so, he doesn't stand still. Schmidt, an old veteran at the game, along with Coleman and Red Brown will take care of the guard posts. At the pivotal position Clemens, last year's center, McDaniels and Baldwin are scrapping it out for first team distinctions. On the other side from Thrower new material is being selected to fill tackle, Bell, Howard, Burleson, Baldwin, (Lawful), and McCulloch, are fighting competitions for it.

At the two ends we have in addition to our two veterans from last year, Williams and Music, Shores and Hunter are likely candidates.

In the backfield there is a wealth of material. Among the old men Hamilton, Riskey, McMurray, Sneed and Partee figure high as men ascustomed to carrying the oval across the line as a matter of habit and pastime.

Other men, Gamble, McCall, Robinette and Morton will also call for some applause from the stands before the year coses and we celebrate a season of undefeated battles.

New Instructors in Several Departments of the College

Students Seem Pleased With The New Additions to the Faculty.

Preparatory Department

Miss Lena Bowers, a B. A. of the class of '23 is with us again as professor of History and French in the Preparatory School. Like many sons and daughters of old Maryville she is bound to her Alma Mater by a tie that cannot be broken by graduation. Prof. Ellis and his faculty are highly elated that she is able to give them her able assistance and the entire student body bid her welcome.

Home Economics Department

A valuable addition to the teaching forces of the college is Miss Wilma Sutton of Kingman, Kansas, Miss Sutton garduated last year from the Home Economics department of the Kansas State Agricultural College at Manhattan, Kansas, and came to Maryville to take charge o fthose classes in Freshman cooking and one class in Applied Art. She is highly pleased with our college and finds a great need for the addition of a Home Economics building to the college plant. She's young and a blonde and a "Miss" and she registered a "hit" the first time up. Welcome to our midst Miss Sutton.

Expression Department

Miss Annarine Atkins, a graduate of the Maryville College Deaprtment well earned B. A. which she received of Expression and the possessor of a with the class of '23, is with us this year as assistant to Mrs. West. Miss Atkins has spent the summer pursuing her studies at the Rice School of Spoken Word at Boston, Mass. This is one of the best schools of Expression in the country, its teacher being products of the Leland-Powers school. On her return trip Miss Atkins visited friends at Plymouth and New York. We're mighty glad you're back, Annarine, and we're hoping that your classes will not be the only ones to receive the benefit of your exceptional talent.

Music Department

Miss Caroline Hill Crawford has been secured as head of the voice department, and Maryville is fortunate indeed. Miss Crawford holds the degree B. M., from the College of Music of Syracuse University. She has studied piano wiht William Sherwood of Chicago and Frances Moore of New York. She was director of Music at Genessee Wesleyan Seminary, one of the gymnasia of Syracuse University, and later at Lyndor Hall, Vassar Preparatory. For the last twelve years her work has been at the head of the vocal department at Sweet Briar College, Virginia.

Miss Crawford talks very enthusiastically of her class in voice, the

(Continued to page three)

A STUDENT OF FIFTY YEARS AGO

Half a Century ago Dr. Wilson experienced what the freshman went through with last week

HIS EXPERIENCES AS A STUDENT RECALLED

For half a century Dr. Wilson has been connected with and labored for his Alma Mater. As pupil, professor and president of Maryville College he has devoted his life to advance this institution.

Upon our interview the president paused from his work and, leaning back in his chair, recalled with a smile fond recollections of his early days spent as a student on College Hill.

In the year 1873 Samuel Wilson put in an appearance at the Registrar's office as a lowly fourth year prep. Although matriculation lines were not so extreme and he did not eat at Pearson's Hall the future president faced much the same problems and pleasures as those of our present generations of naive students.

In those days young men came to Maryville to study and Doctor says, "I early formed those habits of industry which have proved of such great value throughout my life." Maryville is reaping the product of these habits through his life of service, and labor. "Associated with men who meant business I applied myself to my books and studies with great earnestness, and, after five years of work graduated as one of the four members of the class of 1878."

Throughout his college career as student he played a large part in college activities. Although expenses were not then so high he engaged in self-help work as a true son of Maryville. Possessing a printing outfit he defrayed part of his expenses by its operation. It is most interesting to note tha on this machine was published the first Maryville College publication, The Maryville Student, a monthly periodical. This paper is the direct predecessor of The Highland Echo.

For two years our president was Captain of the Maryville College Baseball team. In those days the schedule included all the larger teams of Blount county, and our captain played shortstop on the championship team of the county. To this day our president says he owes his strict and physical endurance to the fact that he built up a strong body as a member of the Reckless Baseball Club.

In those days, the Doctor tells us, baseball was the only major sport and held the eyes of the sporting world from September to June. A game was not even discussed unless one side at least tallied over twenty runs.

In these days of football and moonshine it is worth noting that our president emphasizes the value of the literary society. "Then meetings were not rushed through in order that the crowd could go to the movies, but lasted from after supper until 10 o'clock. Meetings were alive with the spirit of young debaters and orators." During his college life Dr. Wilson debated 180 times in his literary society. He is said to have debated twice in one meeting.

It was during one of the annual February meetings that he definitely became a Christian. He immediately began an active Christian life and along with two other students he established the College Y. M. C. A. It is of interest to note that the Y. was one of he very first organizations of this kind to be established in an American College.

The day when our president went to school were days of high thinking and plain living. First things were put first. Men studied earnestly and worked along the lines of student activities to improve thru their college. May we who enjoy that enlarged and improved Maryville follow in the paths so that those who will come to study on College Hill will find even a greater Maryville.

Literary Societies

First Regular Meetings Saturday Night September 22nd.

BAINONIAN

In 1875, forty-eight years ago, the Bainonian Literary Society was begun. She has grown in membership and therefore in ability, but her purpose has ever been the same. To cultivate virtue, to promote loving influences, and to advance literary standards. For this purpose was Bainonian founded, and for the accomplishment of this purpose does she continually strive.

It is one of her greatest privileges to extend a cordial welcome to all girls who have decided to be students of Maryville College. She knows that in the heart of her members will be found true friendship and a spirit of sisterly love.

Regular meetings will be held in Bainonian Hall on Saturday evenings Bainonian is planning for this year programs of true literary value and hopes to lead her members into a greater knowledge of current events and international questions, for it is by a thorough knowledge of these that they become true citizens.

ATHENIAN

Next Saturday evening at 7:00 o'clock the door to Athenian Literary Society will be opened. A few minutes later the program will begin. The program is prepared and will interest and instruct the entire society. The new men will be told what Athenian has to offer in the way of annual prizes, literary work, fellowship and entertainment.

THETA EPSILOM.

Theta Epsilon Literary Society wishes to welcome all the old girls back to the hill and extends the hand of friendship to al the new girls. We hope that all the girls will feel at home in our society hall and feel free to use it at any time.

The aim of our society is for literary development. Also the social side plays an important part in the life of our society. A glimpse of this will be seen next Saturday night at a joint reception of the girls societies given in the College Woods. We invite every new and old girl to be present.

ALPHA SIGMA

Old boys, young boys, big boys, small boys, lean boys, fat boys, all boys will be cordially welcomed at the opening meeting of the Alpha Sigma Literary Society Saturday night. An interesting and instructive program will be provided and you are assured of a profitable and enjoyable evening. Follow the piper —Stand the year right.

THE PEP MEETING

With prospects for a hard and paramount season the Coach Honaker's tribe needs support. The foot ball team will play first class foot ball only on the condition that the whole student body girls, boys and ministerial students, gets out on the stands and yells its head off intelligently and concertedly under the leadership of an official cheer leader.

DR. WILSON

Is it not fittingand proper to pay tribute to our beloved College President in this the fiftieth anniversary of his connection with our college? Dr. Wilson has served Maryville College as student, professor, and president and his service has been great indeed. So great that we cannot begin to pay tribute in one issue of our college papers or in one day or month, but let us, the students of '24-25, make the entire year a worth while tribute to our president and his noble work. Dr. Wilson has walked far down the pathway of life scattering good deeds all along the way. May we see that his returns through out the year consist only of true friendship and love, making his fiftieth year the best year at Maryville.

OUR PAPER

Is it not fitting and proper to pay Highland Echo posts a welcome to all new students. Our heart warms to this crowd of new faces, still washed by the tears of home-leaving and wild-eyed with the newness of things. With all warmth of heart, then, we wield our pen to say; new students, Make yourself at home.

To you, Freshmen, we look for valuable assets in our college life. We feel the need of additional brains to appreciate the furrowed brows of tired professors; we search the athletic horizons for the rise of foot ball stars who will dazzle the stands of old Maryville.

Not only is it the duty of old students to meet the new class but it is the privilege of the latter to address anyone who seems to know anything. This democratic spirit of friendship is the finest thing that stays in the memory of those who have learned to love Maryville. We call it the spirit of Maryville. Now, if the old students will show this spirit towards all our new comers we will not be hypocritical and the new students will not be critical.

We are proud of the fact that students come to Maryville from all parts of the country and from different classes of people. Those who have been raised between the rows of corn and to whom still clings the scent of the honey suckle vine, those with all the ruggedness of Tennessee mountains, those trained with culture of the plain and the electric lights of the city. All have come to learn at Maryville. We study, or we don't study, the same books, we yell for the same football team, and we listen to the same chapel speakers. New students, we share with you the same pleasures and the same trials which we experience.

GETTING BACK

To shake the hands of a teacher whom he has learned to respect and admire; to shake the hand of an old student whose friendship has proved true during a summer's absence; to shake the hand of a new student whom he is anxious to serve and for whom he is willing to give himself unreservedly; to shake the hand of everyone in a spirit of helpfulness and love—this is what the opening of school means to an old student.

TO THE CLASS OF '23

This is the first opportunity we have had to greet you as an alumnus of our college. The Hill doesn't seem quite the same without our many friends in the class of '23.

We wish for you two things, first a successful year and second that you may visit us before we go.

We hope to make the Echo as interesting to you, this year, as to those on the hill because of this we are going to devote an entire issue to your class this will be done not later than three weeks from now. However that isn't all, we hope to keep in touch with every member of your class and every bit of news about any one of them will be published.—The Editor.

DR. WILSON LEADS SERVICE OF INSTITUTION HE ESTABLISHED 46 YEARS AGO

Dr. Wilson has no superior, we wonder if he has a peer, as a sounder of key notes. His address at the first Sunday afternoon meeting of the Y., was of unusual value to the group of old and new men who heard it.

Dr. Wilson's theme was "Upward Calls," with remarkable clarity and with splendid conviction the speaker set before his audience seven Upward Calls, seven goals to which we are called, and seven prizes for those who answer the calls.

The seven calls come from parents, forefathers, Alma Mater, our country, humanity, the church and God. All calling us to higher living, more devoted service, and noble manhood.

The seven high goas to which we are called are thoughtfulness, loyalty, activity, substitution for those whose places are left empty, cooperation, preparation and consecration.

And finally there are prizes for those who answer the calls and gain the goals. Seven prizes: happiness of loved ones, honor to the family name, enhancement of college character, increase of national honor and prosperity, the gratitude of humanity, victory for the church and the approved of God.

It was an address remarkably appropriate at the outset of another college year. No man who heard it could well escape the Calls to forget past faiure and to resove to press forward toward the Upward Calls and the noble goal of real manly living.

The Candy Kitchen—
For Sandwiches

THE PEP MEETING

(Continued to page two)

In order to so yell the whole student body must have practice and get acquainted with the graceful movements of whoever leads the cheers for Maryville and the team.

Therefore, on Friday night of this week we will adjourn directly after supper to the chapel.

New cheer leaders are desired. Anyone who wants to try his skill in leading cheers will have an opportunity to do so at this pep meeting.

Our cheer leaders are awarded letters at the end of the year. Let's pack the chapel and vociferate.

WHEREABOUTS OF 1923 GRADS

The following is the names and addresses of as many of the class of '23 as we have been able to hear from. In the eddition denoted to this class we hope to have correct and complete information of every member:

Clarence R. Anderson, teaching Slippery Rock, Pennsylvania.

Ralph A. Armstrong, Student Lane Seminary, Cincinnati.

Herrick R. Arnold, Graduate Fellow in Chemistry, Lafayette College

Annarine Atkins, teaching expression, Maryville College.

Elizabeth Bassel, teaching music, Maryville College

Lenna Bowers, teaching, Maryville College Preparatory School.

Roy S. Buffatt, student, Princeton Seminary.

Lawrence T. Crawford, teaching and coaching, Hearn Academy, Cave Spring, Georgia.

Charles F. Ellis, studying architecture, Uunversity of Pennsylvania.

Emery C. Fritz, student, Lane Seminary, Cincinnati.

Ruth Gamble, student, Columbia University.

Margaret Graham, teaching, Karnes High School, Knox county.

Andrew Janoviczky, teaching and coaching, Louisa, Kentucky.

August L. Johnston, student, Y. M. C. A. College, Nashville.

Winona W. Johnston, teaching, Clearwater, Florida.

Robert L. King, teaching and coaching, Clearwater, Florida.

Florence E. Kleinhenn, teaching, Franklin, Ohio.

Agnes Lewis, teaching Home Ec., Columbia Institute, Columbia, Tennessee.

Roy A. McCall, coaching and teaching, Somerset, Kentucky.

J. Lynn McClung, teaching, Spencer, West Virginia.

Virgil C. McClung, teaching and coaching, Flemingsburg, Kentucky.

Grace A. McNutt, teaching, Hamilton, Ohio.

Mary McSpadden, teaching and coaching, Washington College, Tennessee.

T. J. Marler, teaching, Bradley County High School, Cleveland, Tennessee.

James Arthur Milling, teaching, Philippine Islands.

Ruth E. Newton, teaching, Kingston, Tennessee.

Geraldine Odell, teaching, Warrior, Alabama.

Reva E. Rankin, Secretary to the President of Martha Washington College, Abingdon, Virginia.

Louise Sheddan, student in nursing, Johns Hopkins University Hospital.

Lorene E. Smith, teaching, Dawson Springs, Kentucky.

Howard H. Sullinger, teaching, coaching, and leading chorus, Rogersville, Tennessee, High School

Eugene W. Stanbery, chemist, Transylvania Tanning Company, Brevard, North Carolina.

Ethel A. Swindler, teaching, Friendsville, Tennessee.

R. Donald Taylor, teaching and coaching, McAdory, Alabama.

Stella M. Taylor, teaching, Madisonville, Tennessee.

Jonnie A. Trotter, teaching, Hamilton, Ohio.

J. Roscoe Watkins, student, Vanderbilt University Medical School

Catherine E. Wilson, teaching, Gibbs High School Knox county.

R. A. N. Wilson, student, Princeton Seminary.

W. Clyde Wilson, Director of Manual Tarining, Mrayville College.

Sarah G. Witherington, at home, Munford, Tennessee.

A NEW VIEPWOINT?

We hear and read so much of cooperation, team work, etc., that it is difficult to get a new view point. The usual view of co-operation of the student body with the editorial staff for the publication of "a better Echo" comes from a member of The Echo Staff. This gets, perhaps, a new view point in coming from a student not connected with the staff. And why should we not have the fullest co-operation? There are no reasons for not having it; and every reason for having it.

Every student is aware that the staff of the 1923-24 Echo will publish a worth while Echo of itself. But at the same time every student is aware that the fuller the co-operation of student body and Echo staff the better the paper.

The student can co-operate by handing in interesting news items. And by having such items, articles, and material in promptly on time. Such co-operation will be appreciated by the editor of The Echo. It will also make a truly hard task less taxing an and amount of time and energy consumed. Such co-operation is rightly due the man who gives a great deal of his time in giving the students a weekly news paper.

Students, let's help The Echo live up to its slogan, "Devoted TO ALL THE INTEREST of Maryville College.

The above was written by last year's editor, Mr. David King. Mr. King realizes the need for co-operation and knows what it means to the paper.

The present staff desires your co-operation from the very first. Just hand any item to any member of the staff or drop it in The Echo box inside of Anderson Hall.

NEW INSTRUCTORS IN SEVERAL DEPARTMENTS OF COLLEGE

(Continued from page one)

choir, and glee clubs. With her as director of the vocal department, great success is certain.

English Department

Miss Catherine Wilkinson, of whom the centennial class is rightfully proud, has been promoted from the preparatory to the college department. A French star when she was a student, she has continued her stellar course until she has reached this position of honor. Miss Wilkinson is working for her M. A. at Columbia University, and has completed two summers' work already. Ever ambitious and loyal, Miss Catherine is a true daughter of Maryville.

Music Departmetn

Miss Elizabeth Bassel, whose home is in Maryville, will assist Miss Hale in teaching piano this year. Miss Bassel graduated in piano in 1922 and received her B. A. in 1923. During the summer she had a special course at the Cincinnati Conservatory of Music. Her pupils will soon learn to love her as a teacher, as her class mates loved her as a friend.

Psychology Department

Miss Carmen Park, of the illustrious centennial class, the class of 1919, has come back to her Alma Mater to teach psychology. Since her graduation Miss Park has had experience in teaching, Y. W. C. A. work, and as director of a girls camp. She was professor of psychology at Columbia Institute the last school year and made a great record. Maryville is indeed fortunate in securing her services for this year.

Physics Department

Mr. John A. Hyden, B. A. Maryville and M. A. Vanderbilt University comes to us as professor of Physics, Since Prof. Hyden graduated from Maryville in 1914 he has taught in Cumberland preparatory department and was for four years principal of that department. He spent one year as associate professor of History and Mathematics here and last year he taught mathematics at Vanderbilt University. He has taken post graduate work at Chicago University, University of Tennessee and at Vanderbilt University. We feel that our college is fortunate in securing Prof. Hyden and we welcome him back to the hill.

History Department

Miss Almira Jewell, B. A., who has been connected with Maryville preparatory department for several years will teach history in the college this year. Miss Jewell spent the summer at George Peabody College for teachers where she took special work in history. She is a teacher with broad views and much experience. Many of the older students know her as an earnest and interesting teacher and we therefore welcome her to the college department.

Chemistry Department

The Chemistry Department is fortunate in securing Mr. Lee Roy Herndon as associate professor this year. Professor Herndon hails from Boonville, Ky. He graduated with the class of '22. Last year he taught science in the high school at Lewisburg, Tenn. Professor Herndon majored in chemistry and was laboratory assistant for two years before graduation. During the past summer he spent six weeks at Chicago University taking post graduate work Up to the middle of July he had planned to attend Syracuse University this year where he had a fellowship in the Chemical Dept.

We have known Mr. Herndon for a number of years and can say that in every way he is a likable fellow. He is rooming in the Hall and will undoubtedly soon be a favorite among the men of the college.

Manual Training Department

Mr. Clyde Wilson of the class of '23 will be in charge of the Manual Training Department this year. Mr. Wilson told his whole story to the reporter in one characteristic sentence. "It is my business to put this department on an efficient business like basis." Clyde is amply qualified to do this because he has been a carpenter since he was big enough to drive a nail and has spent four years in this department. Mr. Ed Buchanan will act as assistant. Several orders have been secured and the out look for the department is good.

PERSONAL ITEMS

Helen Browning of last year's Junior class is teaching this year in the Fountain City schools of Knoxville. She expects to return to Maryville next year.

Helen Park of the class of '22 is teaching again this year in the city schools of Albany, Ala.

Helen Ott of the class of '22 is teaching in Blount County High school at Oneonta, Ala.

Flynn Humphreys of the Sophomore class of '23 is teaching in Independent, Ky.

There was quite a Maryville reunion in Birmingham last summer when Hillary (Mike) Park, Red Hayes, Rush Hickman, Hattie Hayes Cecil Cross, Elsie Dawson, and Jarvis Cotton met.

Miss Helen Gamble, of the class of 1920, will leave in a few days for Columbia University. There she will work for her Master's degree in psychology. Miss Gamble made an excellent record as a student and then as a teacher, first in the preparatory and then in the college department. Maryville bids her God speed with the assurance that this record will be continued.

CLASS FOOTBALL

The Y. M. C. A. Athletic Slogan for the Year is Athletics for every man, every man in Athletics.

The Y. M. C. A. Athletic slogan for the year is Athletic for every man, every man in Athletics.

In addition to a tennis and swimming programs which will be announced later the Y. M. Athletic committee announces the following schedule for class football. Practice will begin at once.

A great deal of interest is being manifested in class football which the Y. M. C. A. is promoting thru its Athletic department.

Captain Bob Thrower, football chairman of the Athletic department has arranged a schedule whereby each team meets each other one twice. He has likewise picked varsity men to coach the teams.

Coach Honaker will be glad to have all men interested in class football, appear on the field each day and take the fundamental work. They are also welcome to the football lectures.

Games will be played on Monday afternoon and The Echo will carry a full account of the battes.

These mentors will endeavor to steer their proteges thru a successful season:

FRESHMEN—Bax Williams, line coach, Stevens backfield.

SOPHOMORE—Daris Music, line coach, Gamble and Riskey, backfield.

JUNIORS—Bob Thrower, line coach, Schmidt and McMurray backfield.

SENIORS—Greenlee, line coach, Sneed and Partee backfield.

The Schedule

September 24—Juniors vs. Freshmen.

October 1—Sophs. vs. Seniors.

October 8—Freshmen vs. Sophs.

October 15—Seniors vs. Juniors.

October 20—Sophs. vs. Juniors.

October 22—Seniors vs. Freshmen.

October 29—Juniors vs. Freshmen.

November 3—Sophs. vs. Seniors.

November 5—Freshmen vs. Sophs.

November12—Seniors vs. Juniors.

November 19—Sophs. vs. Juniors.

November 26—Seniors vs. Freshmen.

ADVICE TO THE LOVELORN

By Coblenz Lenyeng

Students may send their questions to Coblenz Lenyeng in care of the Echo. Full names must be signed, but only first and alst names will be made public.

Loves Pink-eyed girl

Dear Coblenz:

I am in love. My girl is the most beautiful girl in the world. She has pink eyes which cross affectionately, and white hair. But she won't look at me. There are funny little hairs all over my face. I tried to cut them off with Jean McMurray's scissors that he uses on his face but they still show. Why doesn't she love me? How can I gain her love?

—Earle Riskey.

Answer: Go down to Waggoner's and get one of those auto-strop razors. Doc McReynolds will let you have one with a blade and strop for 59 cents if you show him my name on this clipping and be sure and go in before Thursday.—Coblenz Lenyeng.

Has Bleeding Feet

Dear Coblenz:

I comed down hear frum the mountings to git edjacatuned. I cut my feat every day on the sharp rocks. The girls awl laff at me. What shall I do. I love you, Coblenz, and I know you love me. How can I keep frum cutting my feat?

—Peg Walton.

Answer: Of course I love you. Peg, and if you'll get one of the boys to show you where Dave Proffitt's big store is, I'll get him to sell you a pair of shoes at the lowest price possible. I enjoyed your letter very much. Write me all your troubles.—Coblenz Lanyeng.

ALUMNI NEWS

Frank Scruggs, '18, is working with the United States Department of Agriculture with headquarters at St. Louis. Mr. Scruggs' particular work is with the Bureau of Agricultural Economics which issues bulletins of crop conditions, condition of the market and weather reports, covering all of the principal fruits and vegetable crops of the country.

Word has just come to the Hill of the marriage on August 18 of J. Haskew Turner, '18, to Miss Louise Hulley of Lakeside, Ohio. Mr. Turner is practicing law in Chicago and the "Judge" and Mrs. Turner are at home at 6243 South Ashland Avenue.

Carl Lloyd, ex-'17, visited the Hill on Monday. He is practicing law in Chicago. He brings word that his brother, Glenn A. "Happy" Lloyd, '18, received his law degree at the University of Chicago in August and has already hung out his shingle in the same city. Ralph W. Lloyd, '15, the other brother, is doing his third year of work at McConnell Theological Seminary. He was ordained to the ministry last June while on a visit to Tennessee.

Augustus "Red" Sisk, '17, is instructor in Mathematics at the University of Tennessee.

BURNY ACTON FASTEST MAN IN ORGANIZED BASE BALL

Burny's many friends will be glad to read the following, taken from the Birmingham News, July 28:

"Acton, new outfielder on the Macon Sally League Club, has been named as the fastest player in organized ball by Bobby Jelks, scout for the New York Yankees, and Arthur Devlin, scout for the Boston Braves, after seeing the Macon peach in action in the Greenville game Friday afternoon.

"Archdeacon, who has held the name of being the speed king of the diamond, will no longer hold that title, since both scouts state that Acton is much faster than the Rochester player. Two hits were credited to the new outfielder Friday that were obtained only thru his marvelous speed on the paths.

SENIORS

"Four years ago"—how often have we heard these words, and every time we know that some Senior is going to relate a stirring, thrilling account of how green and ignorant he was—"four years ago." Heretofore these words have sounded trite, but now they sound entirely proper—for we ourselves are Seniors now. And so, we count it a privilege due to us as Seniors to be allowed to say, "Four years ago when we were new students we were made welcome and now we extend a hearty welcome to all new students and assure them that we want to help in every way possible. We will gladly do everything in our power to make this year a joyous one from this, the first week, until the day we leave."

"Sing a song of seasons
Something bright in all."

Summer, with its flowers and white dresses and wraps and parties and picnics and visits and rest, has gone. Autumn, with its harvest and cool weather and school and books and new friendships, has come.

HOW SOME SPENT THEIR VACATION

Speck Courtner—working (the folks), eating, sleeping.

Angel Hamilton—Scraping out gutters and acting in place of the Gold Dust Twins.

Genyth Starnes—Preparing for the future. Getting her hope chest filled.

Pethicles Armstrong—Trainer, wardrobe keeper and barker for Jolly Olly, Cincinnati Carnival's 590 pound thrill.

NOT IN THE NEWS

I am truly glad to be here, and to look into your bright and shining faces. No, I am not a chapel speaker, neither am I giving the girls a hint to use their powder rags. I'm just saying howdy.

In behalf of the new students, I request that our musicians kindly refrain from rendering "Home Sweet Home," until that feeling has disappeared.

Some famous lines:
Football—
Clothes—
Dr. Stevenson's—
Matriculation—

It would be a great pleasure to see Everett True handle some of these birds that push in ahead of the line at matriculation.

By reading the bulletins all except upper classman were able to find their classes the first day.

A short poem:
Registration,
Examination,
Flunktuation,
Nervous Prostration.

We are in receipt of a letter from the nine remaining citizens of Hebron, Neb., saying that they are all behind the "two band-its." Let us hope far behind.

The big sister movement is alright but we long for old days when there was only one girl to a fellow.

It is announced that due to the sleeveless dresses, the Theta Beauty Parlors are putting in a stock of safety razors. Atta boy, girls!

BOY'S

It's time to throw away that old Straw Hat and step out in one of our New Felts. This is the store where Hats are conscientiously TRIED ON the wearer. Not carelessly STUCK ON the head. There's a difference but you won't find it in the price.

The Best Place To Trade Proffitt's Students Are Welcome Here

D. W. PROFFITT - L. G. WALKER - M. B. COUN

No College man is as good as he tries to make his professor believe he is, nor as bad as he tells his girls he is.—Exchange.

Mr.: "When I married you I thought you were an angel."

Mrs.: "So that's why you never buy me any clothes?"

Elizabeth: "Every time Carl and I have a little fuss I write it in a little note book.

Dorcha: "I see: A sort of scrap book."

Physics Assignment: Start with lightning and go to thunder.

Professor Howell: "In what combination is gold most quickly released?"

"Marriage," replied a ready Freshman.

Complections are being worn as thick as usual.—Some thinker.

Heard in English Literature
"What do you know about Fielding?"
Dumb Junior: "Nothing much I always played pitcher on my team."

Excepts from Vacation Letters

"Only 138 hours and 37 minutes until I see—Miss Darby."—Mason.

"Bess just think it is only 17,834 minutes until we get back to M. C."—Jim.

"Ralph, the Chicago Cash Market quotations are getting more interesting."—Othel.

"Harry, they must be extensively filed and exhaustively checked."—Sam.

"When I think of all those Senior parties I realize just how nice it is to have everything fixed just so."—Malcolm.

"Shorty, I know you will be the best little player on the team."—Alice.

"Love is a process of give and take, and is measured by the sacrifice one is willing to make."—George

A LIVE FORENSIC FRATERNITY

The Y. W., Y. M. and Literary Societies are rightly due first thoughts and considerations at the opening of the college year. But after that, Pi Kappa Delta has a just claim to a part of the time and work of its members. The forensic activities of Maryville must not be allowed to drag this year. Pi Kappa Delta is the organization to boost them and place them in the place they belong.

Members of Pi Kappa Delta are prone to consider such membership as of little importance. Such is not the case. The writer of this was agreeably surprised this summer when he met a Heidelburg college man in Toledo, Ohio, and highly gratified to receive the assurance that the Heidelburg Chapter of Pi Kappa Delta would be glad to assist in arranging a debate between Maryville and Heidelburg in case Maryville sent a team to the National Convention of Pi Kappa Delta. Also the writer had the good fortune to meet a graduate of Hope College, a Michigan Institution, and hear further praise of the work of Pi Kappa Delta. These incidents brought the conviction that Pi Kappa Delta is a forensic fraternity of the first order, that is National in its scope, and that is really the center of things forensic. Maryville is fortunate in having the Tennessee Alpha Chapter of Pi Kappa Delta.

All that Maryville needs to place her in the front rank in Tennessee forensic activities is for her veteran debaters to use Pi Kappa Delta as a nucleus about which to organize her forensic teams, and to promote an enthusiastic debate spirit. Pi Kappa Delta suits such a program admirably.

Let's go!

THESE MEN ARE BACKING FOOTBALL

Just before the opening of school a certain petition was circulated among Maryville business men. It read in part. "We the undersigned agree to give meals to one of the football boys for four days previous to the opening of College.

Thus the early football practice was made possible. The signers of this petition are all backers of Maryville College. We are glad to pubish their names and ask the students to keep the list in mind when they are patronizing Maryville business men.

Patronize those who back College Activities:

Frank Coleman, D. W. Proffitt, L. G. Walker, of Proffitt's; J. H. McMurray, Luther Jackson, C. T. Murray, J. H. Mitchell, Chandler-Singleton Co., H. N. Bird & Co., Badgett-Costner Co., Dr. G. W. Burchfield, Waggoner Drugs, Norton Hdw. Co., Ed F. Harper, Reagan & Presley, Maryville Bakery.

MARYVILLE GIRLS SPEND SUMMER AT CAMP ALANETA

No place could be better suited for the purpose of summer camp than is Alanita situated on the western summit of Lookout mountain. Nature has enriched this spot with every physical element. Mountains, rivers, forests and cliffs contribute their special part in affording the girls a full and well rounded camping experience. Swimming, horse back riding, and art and crafts were naturally the sports most enjoyed by the girls. However, tennis, basketball, baseball, volley ball, track and quaits held a large and enthusiastic place with many of the campers. The girls who met at Camp Alanita for eight weeks of Normal, healthful, activities represented all of the Southern cities.

Miss Carmen Park, our instructor in psychology, was director of the camp and to say that she was an efficient and popular director, is putting it very mildly. In management of the camp she was ably assisted by instructors and councelors, all of whom were college girls, Miss Lois Hayes, a member of this years Senior Class, and Miss Agnes Lewis, a member of the class of '23 and this year instructor in Home Economics at Columbia Institute, Columbia, Tennessee, were members of the councillor staff. Miss Isabel Brown a member of the Sophomore Class was a "peppy" camper at Alanita.

Miss Darby, who has charge of the M. C. dining room was the dietition at Alanita, and was, undoubtedly, the most popular person in camp and there's a reason. They report that theere is no place like camp Alanita when it comes to having a good time all the time.

Maryville Machine Shows Great Form Against Mars Hill

A Wealth of Material is Uncovered--- Weaver College Next.

BY FRANCIS KINSLER

With a hard hitting, fast moving collection of teamwork Maryville strutted off the gridiron from Saturday's debacle to the tune of 73-0. A football team. That is the impression Mars Hill had when they trailed back to the mountains of Carolina with the blank end of a 73 point score card, a list of five casualties, and a team of worn-out players.

That is the impression that Milligan's football coach got from the sideline, and that is the impression U. T. will get in two weeks when they return from their preliminary scrap with the Cadets of West Point. You wait; if we don't make U. T. look like a bunch of gherkins we don't want any social privileges all this year.

Mars Hill has a good football team. These boys were playing harder in the last quarter than in the first half. Maybe they didn't tackle as pretty as Back and maybe Capt. Bob did lay them down like babies in a cradle but they have got a good team. They had signals, eleven men on the field, and padded suits, and can probably hold their own with any regular college team in these parts.

Not only do we have a football team, but also a whole outfit: a pair of quarterbacks, a couple of fullbacks, half a dozen half backs, a handful of ends, some tackles, several guards, and a trio of centers.

Captain Thrower is impregnable at tackle. He knows his eggs. Mars Hill couldn't get thru him, and so they either went around or bucked up. All thru the time that Robert played he demolished line pulnges in his own playful way. At the other tackle Red Brown messed up some plays in first team style. Last year Reds was green at football but after a year of scrub work he handled all Mars Hill's attacks in a hard way and in a perfunctory manner. At guard Schmidt and Greenlee not only held the line of the Carolinians, they shoved it back and cut it open for backfield operations. Carl is an old hand at the game and with the coolness of plenty of grey matter and as much protoplasm he played hard and steady, and Tom, the senior of the team, carried his side of the pivot in a reliable fashion. At center Kato Clemens played fast, making tackles and passing the pigskin. At the ends we still have two scrappy players from last year, Music and Williams. Against Mars Hills Doris tore things up in old style form. Once when he came out and started to dash down the field with the oval under his arm, we felt bad that the ummire blew his whistle. Not only did Back distinguish himself by a touchdown after capturing a forward but he made hard and low tackles, twice under Shorty's long punts Williams had his man by the heels. At quarter Riskey whined out the signals like a professional general and performed some tall running until the opposition got excited and ruined his eye. Then Shorty McCall went in and directed things in a clever style. Two long punts, the prettiest boots of the day, and some broken field running put Shorty on the pigskin map. At the halves Jean and Shorty started the game and they circled the ends with baffling twists and speed, accumulating too many first downs for us to count. The broken field running of Mac secured three touchdowns and featured the day. At fullback Hamilton handled himself well in defense and also ploughed up the line for substantial gains and two touch downs.

Altho these men started the game Honaker sent into the fracas a wealth of material that distinguished themselves by a high grade of work. At fullback Gamble secured a touchdown. With line plunges and some first class booting Joe gives promise of making a place on the team as a steady diet. At half back Partee performed with his usual flash and carried the oval around end for big gains and also a touchdown. Shimmy also ran well and made a toushdown two minutes after entering the game by two successive carries of he ball and Crawford of East High, ran well and tallied seven points. Pat Shores got in twice paying first at end and then at half back. Altho a new man Pat is already known as a valuable football addition to the school. Hunter played at the end position and we mark him down as a first rate performer. Other line men also showed well. Coleman at guard, McDaniels and Baldwin at center and the two Cartwrights. Of these the tackle made a name for being in everything and playing hard, and the end, a man from U. T. looks like a good bet as regular first team material. Bell as a tackle also looks good. Robinette, Smith, Howard and Whitlock also played in the game and gave promise of genuine ability.

Here is the game in brief:

Hamilton kicked off and Clemens tackled the receive in his tracks.

Mars Hill punted and Maryville went down field, Jean crossing line for touchdown. Jean kicked goal. Score, seven points in seven minutes. Two penalties called on Maryville. Again Maryville carried ball un field and by a long pass from Risky to Williams the latter scored second touchdown. Jean kicked the goal.

Maryville kicked off. Mars Hill returned to 20 yard line. Advanced slowly until Back intecepted a forward pass. Jean gained 20 yards on two end runs. An incompleted pass. Fourth penalty called on Maryville. Second Mars Hill man carried off. Mac kicked and Mars returned with a punt returned 25 yards by Riskey. First quarter up with ball on 20 yard line. Mac and Ham gained 20 yards. Fifth penalty called on Maryville. Mars Hill ball, they kicked and Jean returned for touchdown. Extra point on

PROFESSOR W. L. HYDEN

MARYVILLE PROFESSOR GOES TO JOHNS HOPKINS

Professor W. L. Hyden Has One Year Leave of Absence

It is hard to chemically analyze a students feeling, and it is far from a perfect analysis when we merely say that we all regret to lose Prof. W. L. Hyden from the Chemistry Department this year. He was not only able to give a thorough knowledge of Chemistry, but made even the slowest "Chemistry hater" enjoy a lively course in that subject. His charming personality and good will toward everyone was not filtered thru and left standing on the outside, when he entered the class-room It was with remarkable success that he mixed enjoyment and hard work in the proper proportions to get the best results, and he did not have to use a mortar and pestle and a hundred dollar pair of scales to obtain these results.

Even tho we do regret to lose him for a year, we are pleased to know that he is further pressing his study of Chemistry in Johns Hopkins University, beginning with Oct. 1. He has a B. A. from Cumberland, an M. S., from Lafayette, and after his study at Johns Hopkins Maryville will be fortunate, indeed, to retain him as head of the Chemistry Department.

As one of the Chemistry students once phrased it: "Try Hyden' in, try Hyden' out, you'll never find a better scout." Once in a great while there is a man who is admired and liked by everybody. That is Prof. W. L. Hyden.

Not in The News

We guess the washer woman hates to hear it, but for every divorce suit there must be a union suit.

One of the swell young things was heard to say, "Oh! what a glorious place we'll have to play snap when they get the new gym done." Careful boys, no violence.

If you don't have time to write home just let Baldwin Brothers do it. They do everything.

Some people love to dance, others dance to love, but we don't dance at all.

We will now admit that Alice Johnson is some baby, but how did

(Continued on page four)

Literary Societies Start the Year With Great Meetings

Both Men's Societies Have Good Programs And Big Attendance.

ALPHA SIGMA SOCIETY HAS BIG MEETING.

Intangible Spirit of Alpha Sigma Presented to New Men.

Last Saturday evening at seven o'clock the door of Alpha Sigma hall swung open and admitted a stream of eager, expectant, clear-minded lads. Some old, some new, but all now members of this great family of ours. The room was filled to overflowing in a short while, and extra chairs had to be carried in.

Alpha Sigma president, Mr. Sam Franklin, set forth traditional ideas and presented plans in his welcome address. Following this opening talk Capt. Bob Thrower spoke on "What Football Means to Maryville." We then had the pleasure of hearing Mr. Keen render two appropriate selections on the violin. The remainder of the program consisted of a reading by the glee club reader, Mr. Harry Gauding, a vocal solo by Mr. Music Stewart, a debate and a talk by Coach Bond.

Last of all, in conjunction with the business session came the eats. And one thing is certain Alpha Sigmas are real gastronomical acrobats. As Old Reliable would say, "Them boys sho did absorb them groceries."

All in all it was a long-to-be remembered meeting. I wish all you fellows might have had the pleasure and opportunity of being present. But, we meet again next Saturday night.

"Come in the evening, or come in the morning,
Come when you're looked for, or come without warning.
Kisses and welcome you'll find here before you,
And the oftener you come the more we'll adore you."

SPEAKING! MUSIC! READING! REMINISCINCE AND REFRESHMENTS!

Athenian Starts the Year With Usual Snappy Program

Saturday evening Athenian Hall was packed to capacity by both new and old fellows. Their expectations of something good were not to be dissapointed either. For Athenian again demonstrated her ability to furnish a good, interesting, entertaining and worth while program, and yet not take all of the time of Saturday evening.

Of the program little need be said. Every one knows that when Edward Hamilton or Raymond Anderson (better known as Ham and Andy perhaps) start rendering music it is being rendered. Each of them were on the progarm Saturday evening. Also there were speeches by such fellows as Ed Martin, Ed Cathey, and Shinney Brown. They are all fellows who deliver the goods. Therefore the program speaks for itself.

Better than the schedule progarm perhaps, were the reminiscences of old Athenians of the classes of '22 and '23. Buffatt, Herndon and Sharpe certainly have a deep appreciation of the value of the followship and training offered by Athenian. Their talks rang with that altruistic spirit that is the goal of Athenian and of Maryville.

Last but not least came the refreshments. "Beaucoup" is all that it is necessary to say of them.

Literary Society makes a part of that whole that we, know as Maryville. Athenian does her bit to in the Literary Society work on the Hi'l by offering a weekly progarm for her members. Come, help, or visit us. You are always welcome.

THETA AND BAINONIAN HOLD JOINT MEETING

College Woods Alive With Happy Spirit of Merrymakers.

Hail! Hail! the gangs all here,
What the deuce do we care, what the deuce do we care.
Hail! Hail! the gangs all here—

and so they were. Everybody and everybody's sister constituted the gang. and the HERE was at the Pow-Wow stump in College Woods.

Yearly in the early fall the two girls Literary Societies join forces to show the newcomers a little of the spirit of Maryville. We may safely say that the idea was caught by the new girls—for who could resist the spirit of the bon-fire, a full moon and good things to eat.

It was still early in the evening when the merry shieks were heard all over the old woods. To an onlooker the scene reminded one of the night when fairies meet to play obeisance to their King. There

(Continued on page two)

ABOUT OUR TEAM

Coach Honaker:

"The team looked pretty good Saturday. With two more weeks workout we are going to give U. T. a good game.

As good a chance as we ever had to beat them.

We had not practiced defense against forward passes, so I was not disappointed."

Captain Thrower:

"The whole team showed up good.

Scrubs looked as good as varsity."

Pres. of Athletic Association Schmidt:

"In spots we showed stuff. Good defense, good kick-off, On the whole everything was satisfactory."

From all reports Weaver College is stronger than Mars Hill. We hope so, better practice. No doubt a new keg of stuff will be opened.

I'll tell you how the leaves come down;
The great Tree to his children said;
"You're getting sleepy, Yellow and Brown,
Yes, very sleepy, Little Red.
It is quite time to go to bed."

STUDENT COUNCIL

One day this week the call will go out for class meeting to elect Student Council representatives. Quoting from Article 11 Section 1

"The object of this Council shall be:

a. To furnish a representative body of students, who, by virtue of their position and influence in student affairs, shall be able to express the sentiment of the student body.

b. To co-operate with the Faculty in maintaining Maryville College ideals, and the traditions and customs of the College" etc.

We wish it were not necessary to urge upon the students the importance of this election. Every one must realize that his council representative will be his spokesman on most questons concernng the students throughout the year. And he who is not interested in the election evidently is not interested in his own welfare as a student. Permit us to urge that you read the constitution, know what is expected of the one you help to elect. Then consider only those who are qualified to express rational student sentiment and at the same time co-operate with the faculty. One phase is just as important as the other. After you have read the constitution and considered those qualified to serve go and vote for them.

LITERARY SOCIETY

Last Saturday evening the opening meeting for all Literary Societies on the Hill was held. No doubt all who are at all interested in Society work were at one of the meetings. Most people realize, to some extent, the need and value of literary society work while in school. We believe all the girls join one society or the other early in the year but with the men it is different some join the first night while others wait a year or never join. We have grounds to believe that those who hesitate or never join are sorry later on. While those who join are never sorry for their experience or for their choice of societies. Of course we have our opinion as to which is the best society for us but the best one for the new men is the one they join. Join a society. Give what it requires and get all it has to offer.

TENNIS FOR GIRLS

Say, girls, how about getting busy and having a tournament this fall and then having some intercollegiate affairs in the spring?

CARNEGIE BOYS GO SNIPE HUNTING

Some of the more innocent and unsuspecting first year boys in Carnegie Hall spent a great portion of last Friday night hunting snipes.

The boys, lead by able snipe hunters, decided that the woods on Crooked Creek Pike would be an ideal place, and it was. Due to a lack of familiarity with the landscape the leaders of the hunt Mr. Peg Thompson and Mr. Jimmie Hendricks became separated from the other two fellows, whose names we have not been able to learn. Peg and Jim realizing that the sacks were being properly held and that the two ameteures would probably catch all the snipes in the woods returned to Carnegie where they waited anxiously for the game laden hunters to put in an appearance. It seemed as tho their waiting would be in vain but near the midnight hour the weary and empty handed hunters came in. We can't quote their report and description of the trip but their final conclusion was that they were not much older, but much wiser, than at sundown.

Recreation and Entertainment

DR. WILSON LEADS AT Y. W. MEETING SUNDAY

"How Shall We Think of God?" was the subject of Dr. Wilson's address Sunday aftrenoon. In simple, every day language Dr. Wilson gave us his idea of the God he has learned to know during his fifty years experience as a Christian.

God has revealed Himself to man in three ways: in the works of nature, in the inspired writings of the Scriptures, and, last and best of all, in the person of His Son, Jesus Christ, who came to show us the heart of His Father.

In building up our concept of God, we may think of Him first of all as a spirit like ourselves, but a spirit infinite, omnipresent and omnipotent. Altho the heaven of heavens cannot contain Him, God is near to every one who calls upon Him. "I have prayed to Him in the desert, in a railroad wreck, on the ocean, here on College Hill, and down in the hills of Mexico where I had not heard a word of English for six weeks," said Dr. Wilson.

Dr. Wilson's address set forth the divine plan of saving man thru His infinite love and wisdom.

The Y. W. C. A. girls are indeed grateful to Dr. Wilson for his inspiring and helpful address, and it is honed that it will not be five more years until they can enjoy a similar privilege.

Y. W. STORE GET NEW EQUIPMENT

Patrons of the Y. W. Store will be glad to learn that an electric light that gives daytime service is to be installed in the near future. This will assist every one in investing her money to the best advantage. A small refrigerator is soon to form part of the store equipment. This will be a great advantage, since at present it is next to impossible to keep ice cream, sandwiches, and similar perishable eatables in stock.

The income from the Y. W. store is used to send delegates to the Blue Ridge Conference. Last year Maryville had nine representatives, and it is hoped that this year the delegation will be even larger.

A GREAT TREAT FOR ALL RECITAL BY IRENE BEWLEY

Special Program Arranged by Y. W. Girls.

The recital numbers offered M. C. audiences under the ausnices of the Y. W. C. A. are always of a high order of excellence. Whether the entertainers are professionals or members of our own Music and Expression Departments. The recital planned for next Monday evening is far from being an exception to the rule.

Miss Bewley is a graduate of the Leland Powers School of Expression, and has had a wide experience on the Lyceum platofrm. She has read in thirty states as well as in Canada, France, and Germany. While not exactly "home talent", Miss Bewley is a graduate of M. C., and she says that she is always at her best before a Maryville audience. Those who have heard her once need only to be told that she is coming, and those who have so far been denrived of the pleasure cannot afford to miss this opportunity of attending the performance of a great artist.

Y. W. GIRLS GO ON BREAKFAST HIKE

There was a great astir in the girls' halls before 6 o'clock Monday morning but there was a motive back of it.

When the rising bell rang, there was a large group of happy girls ready to start on the Y. W. breakfast hike. Under the guidance of the different leaders we set out with yells and songs and hiked out the pike and into the woods where Ed and Edgar had us some dandy fires built. We all had good annetites and ate hot dogs 'till we felt like we were going to bark. For further information about the dogs, ask Henrietta Smith, and gee! but that coffee tasted good. About 7:30 we were all ready to return—every one saying she had a good time. Hurrah for Y. W.

WE INVITE YOU

were some excellent numbers that some of the girls rendered when everybody else was all out of puff and ready to have some one entertain them. We have some dandy new talent on the hill that we're proud of—as well as the old.

Last but not least came the food—bountiful, wonderful, food! After each girl had completed the task of eating and had thrown her plate in the bon fire, the walk home started to the tune of "There's a Long, Long Trail Awinding."

So here's to Theta and Bainonian each a great society in itself, but a combination that can't be beaten when they join hands.

FRESHMAN CLASS ADOPTS RESOLUTIONS

Whereas God in His Infinite Wisdom and Mercy has called unto Himself the mother of one of our classmates, John Morton, we the members of the Freshman Class extend to him and his family our heartfelt sympathies in this time of bereavement.

Be it resolved, therefore, that a copy of his resolution be read in chapel, a copy be printed in the Highland Echo, and a copy be sent to the family of the bereaved.

Signed,
Freshman Class Committee.

SENIORS HAVE WATERMELON PARTY

First Senior Party Affords Much Merriment

When you write up a party you can tell where it was, who the chaperon was, what the people did, and what they had to eat. You are able to do almost everything necessary, except write up the laughter, the kindly spirit, and true enjoyment

On last Friday evening when the moon was just exactly right, sixty people, who had been told that they were Seniors, hiked out to the home of Mrs. McIlvaine. This home is beautiful because of its situation and surroundings, and because of the hospitality and love of Mrs. McIlvaine. Dr. Stevenson proved himself a thoroughly good sport, in the part of chaperon.

Three-deep proved to be the most popular game although there were many others equally difficult and deep—dropping handkerchief, Old Dan Tucker, and Farmer in the Dell. And there were watermelons to eat, and drink, and wash with, and—

But the Senior party has not been written up yet. In a shorter time than you can imagine you will be a Senior, and then you will know why the parties are so good and why the people have such fine times—and you will find out that all credit is not due to watermelons.

ALUMNI NEWS

CLASS OF '22 RAISING MEMORIAL FUND

Alumni in general are interested in the efforts of the Class of 1922 to raise a Reed Rowan Memorial Fund among their own membership. This fund is to become a part of the Alumni Athletic Fund and at the same time is to stand as a memorial of the high regard of 1922 for their lamented classmate.

A number of the members of the class are working actively in the soliciting of pledges: Percy Buchanan in particular, deserves great credit for the initiation of this most appropriate and valuable movement.

The total of the Rowan Memorial Fund is now $835. from twenty subscribers. There are thirty-six more members of the class to be heard from.

Burney F. Acton, '22, is teaching and coaching athletics at the Babb County High School, Centerville, Alabama.

Echel M. DeHaven, '23 is teaching in Erie, Pennsylvania.

Marguerite Sullinger, '21, and Charlotte Allen, ex-'24, are attending the American Conservatory of Music in Chicago.

Alice McAnulty '23, is taking graduate work at Northwestern University.

JOSEPH HENRY
1797-1878

Born at Albany, N. Y., where he became teacher of mathematics and physics in Albany Academy. Leading American physicist of his time. First director of the Smithsonian Institution.

When Henry rang the bell

If any bell was ever heard around the world, Joseph Henry rang it in his famous experiment at the Albany Academy. The amazing development of the electrical industry traces back to this schoolmaster's coil of insulated wire and his electro-magnet that lifted a ton of iron.

Four years later when Morse used Henry's electro-magnet to invent the telegraph, Henry congratulated him warmly and unselfishly.

The principle of Henry's coil of wire is utilized by the General Electric Company in motors and generators that light cities, drive railroad trains, do away with household drudgery and perform the work of millions of men.

The work that was begun by pioneers like Joseph Henry is being carried on by the scientists in the Research Laboratories of the General Electric Company. They are constantly searching for fundamental principles in order that electricity may be of greater service to mankind.

GENERAL ELECTRIC

NOT IN THE NEWS

(Continued from page one)

Partee find it out before we did.

Lots of folks around here are getting drunk on moonshne, even if it isn't the liquid kind.

High foreheads are a sign of intelligence. I can't understand why the fair co-eds cover theirs up with these headache bands.

Ask Louise C. to see those pictures.

Chilie: "How did you make it through the summer?

Beans: "I didn't make it, I borrowed it."

G. Stanley Hall says: "Man is only in the tadpole stage of his development.

Is Florence still worried about her mother-in-law?

Applause

During a livery scrimmage Little Willie B., much to his surprise, intercepted a pass. Upon being told he ran 20 yards for a touchdown, and was just bowing to the laughing spectators when Coach yelled, "You looked sick on that."

Jean is considering going to Oklahoma as costume manager for the K. K. K. parades.

How many reasons does Othel have for building a house of his own?

Explanation

The Senior Table used to be a table where senior boys and girls eat. Now it is senior girls and any boys.

Heard at table No. 10: "If all the girls fixed their hair like that I'd eat in town." G. Stanley Hall is right.

Hiro says: "Some Freshmen are so dumb they think the college seal lives in the lily pond."

Football suggestion: Call a man out of the line and then run thru the hole.

Where does coach get all those pet names and appropriate similes?

Oh! I almost forget about this one. "Some folks are so dumb they think a football coach has wheels."

Atta Boy, girls. I heartily approve of the long hair club. Only let me suggest that you admit to the club some of these birds over here in Carnegie with the "Gloria Swanson Bob."

Let me repeat: G Stanley Hall says that man is only in the tadpole stage of development.

Harry Gauding believes a pool room is a place to take a bath.

Next Week: "The Seven Greatest Men in School"—by Virginia Paulsell.

Girls, don't laugh at Willie. He thinks you are flirting with him..

Of course Miss Park has lived on a farm. Didn't you hear her speak of a five legged horse?

What is the mere word "yes" in Othel's life?

Some freshmen girls think dishes are cleaned with cold cream and powder.

Due to the hot weather and sleeveless dresses, we boys wonder why we can't dress as Jiggs does when Maggie is away.

Last year the Student Council was founded. We wonder if it will be foundered this year.

MARYVILLE MACHINE SHOWS GREAT FORM

(Continued from page one)

Mars Hill penalty. Mars Hill kicked off. Ham 10 yards, Jean 10 yards, Shorty 8 and 10, Ham completing touchdown. Jean kicked, Shores, Partee and Gamble and Coleman in the game. Mars Hill completed long pass.. Riskey punctured in the eye. Shorty quarterback. Shores broke up forward pass. Mars Hill completed second try. This the fourth pass completed by opposition. Latter kicked and Shorty, after a few plunges, retard by a long, pretty punt with Bach under it on heels of receiver. Coleman broke up pass. Shorty retard a back by another long loot. Back again tackling. Shimmy Brown again for two long runs and a touchdown. Failed to kick. Schmidt retard a 16 yard kick off, three yards, 20 yard pass completed Gamble to Shore. Another pass Shorty to Partee. Touchdown. Shores kicked. First half, 41 to 0.

Second Half

Markville kicked. Mars Hill returned kick. Maryville lost on pass. Baldwin, Whitlock, Hunter and Cartwright in the game. Shorty kicked his third long punt. Maryville penalized for sixth time. Mars Hill kicked, returned by Shorty, to 40 yard line. After two plunges and a penalty Mars Hill ball. Latter kicked. Plunges by Gamble, Partee and Gamble, Bell playng left tackle. Smith in game. Touchdown but failure to kick.

Maryville kicked off. Mars Hill plunges. Cartwright caught a pass. Crawford at half back. Len McCall playing other half. Gamble making touchdown and lucky goal.

Maryville kicked off. Third quarter up. Mars Hill kicked in return. Crawford made two long runs for touchdown. Gamble kicked.

First line up playing again with McDaniels at center and Shores at half. Plunges to goal. Failure to score extra point on pass. Robinette and Howard in the game. Hamilton plunges for touchdown, no extra point. Mars Hill kick off, Maryville returned. Ball behind the line, but no addition to score.

Although a satisfactory practice game we have some room for improvement in the team. We must have a better defensive game against the forward pass and must reduce the number of penalties called on Maryville.

MISTAKE

We hope to correct just one of our many mistakes. If you have noticed present figures on matriculation they seem to have increased more than one-hundred since the last issue. That is not the case, we were one hundred short last week. Five hundred seventy-six in the College was the correct number Monday morning. As Miss Jones says: "We are the biggest college we have ever been at this time of the year."

BOY'S

It's time to throw away that old Straw Hat and step out in one of our New Felts. This is the store where Hats are conscientiously TRIED ON the wearer. Not carelessly STUCK ON the head. There's a difference but you won't find it in the price.

Y. M. C. A. HAS GOOD MEETING

Coach Bond Makes Interesting Talk

A few fellows missed another good talk by Coach Bond Sunday afternoon at the Y. M. meeting in Bartlett Hall. A large number of men were out however, to get the benefit of the straight line on Teamwork which Coach handed out to us.

We often hear that our mothers are our best friends. In his talk Coach placed emphasis on the love which our fathers had for us. What we like about Coach is that he doesn't try to preach a sermon but just gives us a friendly helpful talk as though he might be in our rooms discussing our problems with us.

The music numbers by the quartet added to the life of the program considerably, and a few words by Dr. Giffin of the Knoxville College, made a lasting impression on us all which will help us in our daily life.

Next Sunday afternoon at one o'clock, Sam Frankln, our president, will give us a talk on Our Purpose. We all know Sam by this time and we want to help him by filling up that auditorium at the Y. In addition to Sam's talk we will have one or two special musical numbers on the program. Let's all turn out and make it the best meeting of the

NOTES FROM THE HOSPITAL

Messrs. Harry Owens, Marvin Stevens and Merle Marshall are convalescing in the college hospital. Mr. Owen from an injured foot, Mr. Stevens from a broken collar bone and Mr. Marshall from severely injured knees. Go see them. They get lonely.

Miss Norma Walker recovered from a severe attack of tonsilitis, and left the hospital Sunday.

THE TOOTING TOOTERS TOOT

Tuesday night, September 18, 1923, the Tooting Tooters, fifteen strong, organized and elected Mr. Malcolm Miles president and Mr. Robert A. Broady, editor.

This season bids fair to be the best in the history of Maryville College Band, as there is an unusual amount of talent this year, which will not be wasted under the leadership of Mr. Harry Bannister, an experienced hand in tutoring tooters to toot. Enough plans are on foot to keep the I. T's busy the whole year, and the student body will hear from us often in the near future.

To you men who play or desire to play a band instrument, we extend a hand of invitation to help yourselves as well as us by learning to toot with the Tooting Tooters.

PERSONAL ITEMS

Drs. Wilson and Gillingham and Prof. Orr attended the meeting of Presbytery at Eusebia last Wednesday.

Prof. Proffitt was away from Maryville on college business last Friday and Saturday.

Dr. Wilson attended the State Educational Conference at Nashville the early part of last week. State Commissioner of Education plans for a great forward movement along educational lines in the near future. The state authorities have asked Maryville to share largely in the work. Dr. Wilson is on the Committee of Teachers.

Dr. Wilson left yesterday for a trip in the east. After a stay at Atlantic City he will go to New York. By Saturday night he will be present at the General Council of the Presbyterian church of which the Doctor is a member.

Last week the campus was honored by the presence of a number of distinguished graduates, former students and friends of the college.

R. A. N. Wilson on his way to Princeton Seminary, dropped in for a few days to the delight of his countless admirers.

Charles Sharp visited the campus in his Ford and on Saturday night dazzled an Athenian audience by his polished line of speech.

Miss Margaret Weeks here for a short while over the week-end delighted her many friends with her presence, and especially one in particular.

Miss Helen Browning, a teacher this year, came to the college for a few days last week.

Sam Horace Franklin, Jr., was seen on the campus last week, it is reported.

The gaunt form of Brick Armstrong, encased in the uniform of a midshipman, once again aroused laughter on the campus by his dry humor and polished manner.

Miss Janet Ensign, once a stellar intercollegiate debater, remained in college over Sunday and went to church with Mr. Whitlock.

Mr. J. M. Henry, brother of Miss Clemmie, and his wife, visited Maryville on a trip from Palestine, Texas.

Football fandom has been stirred by the fact that Mr. Hurst formerly a football star of Maryville and the navy will soon appear in the line-up of our team.

MARYVILLE SMOTHERS WEAVER COLLEGE

Highlanders Score 61 Points in Torrid Grid Struggle on Saturday

North Carolina Eleven Fails to Disturb Honaker's Aggregation in Their Clean Sweep

Weaver College threaded itself wearily from the local gridiron on Saturday another ill-fated victim of the powerful Honaker combination. Tales which reached us before the fray declaring the boys from the heart of the Blue Ridge were determined to take back into the mountain fastness eleven Maryville scalps turned out to be mere yarns. Once more great intellects and unerring adding machines were marshalled for the purpose of calculating the score, and only after whispered consultations and several frantic verifications was the official tally finally announced as Maryville, 61; Weaver, 0. It is said that little time was utilized in deciding how many times the visitors crossed the goal line.

It was 3:35 P. M., by the scribe's Ingersoll when "Ed" Hamilton sent the pigskin soaring into the neighborhood of Weaver's right half-back, who received it on his eighteen yard line and carried it out eight yards before being dropped by an M. C. warrior. The Weaverites, who were defending the north goal, then started the usual, conventional, and perfectly proper march down the field only to be sadly interrupted by Chandler's inability to make the oval cohere to his arms and slippery mitts. It bounded forth from his surprised hands and was scooped up by "Back" Williams, the Highlander's veteran end, who sprinted twenty-seven yards for Maryville's first touchdown. "Ham" placed the football between the posts for the extra point. The scoring gave the rah! rah! boys and girls in the grandstands a chance to try out their voices and the new yells.

Ham did Clasic Kicking

Another powerful boot by Hamilton was returned by a Carolina back. The earth gave him a hearty reception just as he was about to cross the twenty yard line, and he was so impressed with it that he visited similar spots during the process of the game; usually with a couple of Highlanders on top to keep him company. The blue-jerseyed Tar Heels now made a determined effort to sweep down the field and gallantly did they fight their way to their own forty yard line when the pigskin again became playful and bounched and capered away from both elevens. A Maryville player, taking a side-long glance at Coach Honaker, jumped twenty-one feet three inches and landed on the ball. Sneed, Jean and Gamble now carried the ball twenty yards, and a beautiful pass from Riskey to Williams resulted in thirty-five yards and another touchdown. A goal from the educated toe of Hamilton brought the score up to 14-0

The third-kick off was carried back to Weaver's twenty-two yard line by Barnard, the mountaineers' plucky right half, who, with the aid of Frank Chandler, formerly of Polytech, and Briggs, the husky fullback, started bucking the line hard, only for a third time to fumble and have Williams clutch it to his bosom and trip across the goal line after a twenty-five yard run. Dependable "Ed" kicked another goal.

Two plays after the fourth kick-

MARYVILLE AND TENNESSEE CLASH THIS SATURDAY

What is Expected From the Whole Student Body of Highlanders.

We Face Our Big Test.

BY VAN HUNTER

From the viewpoint of an admirer, but not a student, you have had two consecutive galloping parties for the past two Saturdays—naturally so—we expected those two games to result pretty much as they did. But—the fun is all over now. There is a big job ahead of you these next few days, and that is to prepare yourselves for the annual acid ordeal against Tennessee. To prepare yourselves in what respect? Two things as I see them, building an impregnable line, and creating a moral attitude which refuses defeats, accepting only victory. Can you do these two vital things in so brief a time? From what I have seen of you this year, my opinion is that you most emphatically can. Now—let's diagnose and analyze a bit.

A Strong Line

What I mean by a strong line is not one that is strong in most places with one or two weak spots. You can be sure that if there are any weak spots simmering through the strong ones of a chap's make

(Continued on page three)

COACH HUNTER

MASS MEETING FOR FORENSICS THIS EVENING

Prof. Hunter Confident of a Big Year, Seeks New Material Among Men and Women Of College.

A mass meeting for debaters and friends of forensics will take place in the chapel immediately after supper tonight. Prof. Hunter particularly desires men and women attend the meeting in order to get an insight into our plans and to feel the spirit of debate at Maryville.

The value of public debate is great to the college student. To successfully carry out our extensive intercollegiate program this year Maryville needs the support of the whole student body.

Debate is the football game of the mind. A public platform is our gridiron. Issues are line plunges, rebutal is real mental scrimmage, and logical thinking the pigskin of the contest. There is no stiffer battle in college life than an intercollegiate debate. For a student to develop a forceful delivery of speech, a rapid process of floor thinking, and an ability to persuade, is to secure the greatest value of college training. At Maryville, under the able direction of an official coach, Prof. Hunter, training as an intercollegiate debater secures

LYCEUM COURSE ANNOUNCED BY Y. M. AND Y. W.

Henshaw Opera Company Will Appear in Chapel on Nov. 5.

Four Numbers This Year

The Maryville College Y. M. C. A.. and Y. W. C. A. Lyceum Course will open its nineteenth season on November 5th, presenting the Henshaw Opera Company in "Don Pasquale." This is the same company which presented Cose Fan Tutti during the past winter, which number was met with much favor by all of the students. This year the Henshaw Company is bringing to us an even better evening of entertainment.

The second number of the course consists of "Paul Vernon and the Cleveland Symphonic Quintet," widely known as musicians and entertainers of merit. This number comes on November twenty-seventh.

The third number will be a modern play entitled "Six Cylinder Love," as presented by the Vivian Players. This play was a great success as a motion picture and its stage version is equally as interesting and entertaining.

Burnell R. Ford with his electrical demonstartion will afford us an evening of intensely interesting and educational entertainment as the fourth and final number of the course. Mr. Ford is a widely known educational lecturer and electrical demonstrator and we are very fortunate indeed to be able to bring him here. His lecture and demonstration will be something different—a program which will be very interesting and instructive to all of us. The date for the last two numbers has not been set as yet, but it can be safely said that they will be given sometime after the Christmas holidays.

In arranging the course for this

NEW PROGRAM OF ATHLETICS FOR ALL MEN

Y. M. Plans Variety of Activities For Athletics.

Tennis and Class Football

By Riskey and Hall

Many and varied will be the athletic activities promoted by the Y. M. C. A. and endorsed by the athletic department. The idea of so many activities is to be enable "Every fellow to take part in some form of athletics."

The principal thing before the student body now is Inter Class Football. The Seniors have organized with Hugh Claybough as captain and the Sophomores are practicing under the guiding hand of Captain Wilson.

Football under way, the next big event will be the Thanksgiving Marathon. This event planned and under the direction of Track Chairman "Shimmy" Brown will be something new in the annals of Maryville athletics.

It is planned that the runners will start from Alcoa and finish on the athletic field, just before the start of the Maryville-Cumberland football game. The winner will be presented with a medal.

Swimming has been called the most completely beneficial form of ex-

(Continued on page two)

OUR LITERARY SOCIETIES NOW IN FULL SWING

Variety of Program Presented Last Saturday Evening—Meetings Well Attended

Theta Epsilon

The first meeting of Theta Epsilon Literary Society was held in Theta Hall Saturday evening at 7:30. On account of the large crowd present the room was insufficient to seat all the girls and many had to remain outside.

The President, Mary Robinson, called the meeting to order and led in prayer. She then gave the new girls a hearty welcome and asked each of them to come back again. Mary Lilly Sossoman announced that the Theta Beauty Parlor would be opened for inspection and every one was invited to visit it.

Theta then presented a musical comedy "Stumble Inn," with the cast:

Mother, Gertrude Gray; Mammy, Myrtle Ardis; Betty, Edyth Moore; Bobby, Sarah Trulock; Mary, Mary Ellison; Rodger, Ruth Barnette.

Chorus: Rena Mae Anderson, Mary Lily Sossoman, Thelma Adair, Alice Johnson, Ruby Harrison, Ruth Jarvis.

Pianist: Edith Jarvis.

Beautifully dressed in evening gowns of rainbow colors, the chorus girls sang "Cut Yourself a Piece of Cake and Make Yourself at Home" and "I Though' I'd Die". Mammy who was dressed in keeping with a typical old time negro sang, "The Preacher and the Bear". Bobby sang "Willie's Prayer" and Betty sang "Food for Gossip." Alice Johnson gave the reading "Penrod's Troubles" Mary Ellison and Ruth Barnette sang "A Million Years With You" and "Let Me Call You Sweetheart". All joined in Theta Song and the meeting was adjourned.

The girls then followed arrows leading to the Beauty Parlour which was formally opened for the year. After a tour of inspection delightful punch was served by Blanche Moore and Mary Huffman.

We invite every one to take advantage of the Beauty Parlor and we ask all the girls to come back to Theta again.

MORE ACTIVITIES

With a strong football team and all these good-looking females around we feel sure of a great year of College life. We fully realize that everyone's time will be well fill and any further activities are uncalled for in our student life. But, at the same time, we feel moved to venture the suggestion that a little study might possibly be of use in some of our spare moments.

Of course we would not think of sacrificing our moments of moonshine, our periods of exercise, nor our precious moments of delicious idleness, but we do feel that every conscientious student might open a book every day or so. In comparison with the great amount of effort extended on the gridiron, and the high degree of concentration diffused on the field of moonshine. A really negligent amount of study would make the whole student body produce an A grade of work in college courses. But, of course, this would not be right. We would all become intelligent and walk in the footsteps of men like Abraham Lincoln. But we do feel that a mild application of study would not injure our minds overmuch

Consider the folks back home on the farm. Of course they expect too much from us, but then we ought to do a little work to atone for their sacrifices. And also the college of course these professors are to intellectual for us, but then they do seem to brighten up if we happen to answer a question. We ourselves are really too unselfish to get an education for forging ahead in life, but, then a little knowledge won't spoil our dispositions, will it? As a matter of fact we came to College to study. Anybody who doesn't open his books looks as rediculus as a blind man at a picture show. This utter folly about avoiding hard work casts a doubt on the intelligence of anyone who mentions it. Our parents, the college, and our future put us on our honor to do our best in that for which we came to Maryville.

NEW PROGRAM OF ATHLETICS FOR ALL MEN

(Continued from page one)

ercise; because it brings into action every muscle of the body.

That's why swimming will be promoted to the utmost. Chairman Carl Schmidt has enlisted the services of some of our best swimming talent, to help put this thing across. Maryville has some fine swimmers in Crogan, Vanderslice, Post, Keen, Kinsler, Wade, Underwood and Buchanan. These water dogs are all anxious to help others become fish.

Last year's Bingling Bros., Dorn 'Em Daily's Circus will fade into oblivion when this year's performance is put on. It will be the premier event of the year.

Joe Gamble, the five toed gymnastic marvel, has a program of gymnastic stunts that will make every fellow in school flip flop and hand stands as though it were the natural thing.

Boxing and wrestling holds a fascination for many of the students and they will not be denied. There are competent instructors for both of these events.

After a week of playing the tennis tournament was completed last Monday. The first round was marked by the battle between Sanford and Kinsler, the latter capturing the first set only after the 22nd game had been played. Warman surprised us by defeating Lippard in straight sets, but he fell a victim to Prince's driving attack in the next round. The match between Kinsler and Prince was quite a classic. We believe the latter player expected to win and he succeeded in capturing the first set but the Haddonfield southpaw's steadiness was too much for his Calhoun rival. Shorty claims Fran worried him out of the match but we really believe it was his room-mate's white pants that were his jonah. In the finals Kinsler got the best of the argument but not until after a good battle. Time after time Caldwell's hard service, low bouncing chops and accurate placements told against the winner and it was only Kinsler's steadiness and net game enabled him to win.

On the whole things look well for tennis next spring. Caldwell, Kinsler and Prince will push last year's team hard for a place and there are also some unknown players who are now engaged in football that should make things interesting.

The tournament scores follows:

First Round

Kinsler won from Sanford, (12-10); (6-1).

W. D. Buchanan won from Thomson (6-3); (6-4).

Warman won from Lippard (6-3); (6-3).

Prince won from Meikle (6-1); (6-4).

Bassel won from Milling (6-1); (6-1).

W. W. Buchanan won from Mer-
GALLEY FIVE
win (2-6); 7-5); (6-3).

Caldwell won from McIntuff (6-1); (6-2).

Second Round

Kinsler won from W. D. Buchanan (6-3); (6-4).

Prince won from Warman (6-3); (6-0).

Bassel won from W. W. Buchanan (6-1); (9-7).

Caldwell won from Smith (6-2); (6-2).

Semi-finals

Kinsler won from Prince (3-6); (7-5); (8-6).

Caldwell won from Bassel (8-6); (3-6); (6-3).

Finals

Kinsler won from Caldwell (6-4); (8-6).

ATHENIAN LITERARY SOCIETY

Gentlemen:—

Out of respect to the players of the football team of Maryville College, and in deference to the game with U. T., Judge Cornelius will not hold court on Saturday evening, the usual date. He has decided to convene his court on Monday Evening at 6.45 P. M. The case which will be of greatest interest to the public, is the divorce suit of Mr. Charles Beech. The defendant's name has been withheld to date.

U. T. is our NEXT VICTIM

MASS MEETING FOR FORENSICS THIS EVENING

(Continued from page one)

all this for anyone of ability who will produce hard work.

Maryville has an enviable record in intercollegiate debate circles. For years we have surpassed rival colleges in the winning of judges decisions. Last year we sent a trip team through East Tennessee and the Carolinas and extended the reputation of Maryville in forensic fields. This year even greater plans are to be carried out We will not only debate old-time rivals or triangles, but in all probability we will send three choice men to the National Convention of P. K. D. at Peoria, Illinois.

Two or three oratorical contests also offer great opportunities for the silver-tongued variety.

To the new students Maryville is looking for men and owmen to form our teams to maintain our high standard in intercollegiate forensics. For the men's program 16 or 18 team members are needed. There are only 10 or 12 veterans on the hill. New men are absolutely necessary to fulfill our schedule. For the girls debates the same conditions are true.

New students, with or without experience, we need you in college debate and oratory. We appeal not only to your loyalty as Maryville students, but also to your needs of the experience in public speaking, in keenness of mental contest, and also the dignity of becoming members of P. K. D. and wearing the regular key.

The Candy Kitchen— For Candies

THE CATTY CLUB

Might we suggest that on Campus Clean Up Day the Student Council bring soap and water to chapel and wash the faces of some of the girls?

We always that rouge was to be used to take the place of the now-extinct **natural** color. At present it seems to be used to cover the entire face. Or is this just another example of "Paint protects the surface. Save the surface and you save all"?

We pity some of the poor boys. Just suppose one should ask one of the fare-mentioned damsels for a date to the U. T. game. If it takes her as long to make up her mind as it does to make up her face he'll get his answer in about two weeks.

One box must last a long time. It's water proof (n'estce pas?) so they put it all on at one setting, as it were, and wear it till it wears off?

Rouge is made out of iron. We don't remember the exact formula.

If they call morphine addicts snow-birds, wonder if they'd call rouge-fiends red birds.

Y. M. C. A. PROGRAM

SUNDAY, OCTOBER 7th.

WHAT DO YOU KNOW ABOUT THE BIBLE, FELLOWS?

We are not casting any reflections, boys, but wouldn't it be interesting to get the other fellows' ideas on the subject? We thoroughly agree with you and so the Bible Study Committee is putting on a real live program.

Everybody out!!!

The program follows:

Reading, Harry Gauding.

What Is The Bible? Charles Beech.

How to Study The Bible, Merlin Usner.

Why Study The Bible? Burl Pritchard.

Special music is also in store for us.

Go Get'em

We're for the Orange and Garnet

First, Last, and All the Time

LYCEUM COURSE ANNOUNCED BY Y. M. AND Y. W.

(Continued from page one)

winter the committee has endeavored to bring to the college a program of educational entertainment and we believe that this will be the most successful season Maryville College Lyceum has ever known.

The season ticket to the course is included in the student activities fee which all of you paid upon entrance to the college. This entitles you to admittance to an unreserved seat at all of the numbers of the course. For those so desiring, reserved seats may be had for the nominal sum of twenty-five cents. This charge is made merely to cover the cost of extra tickets and for the labor involved in issuing them. These reservations are made for the entire season so be sure to come the first day of issuance in order to get the seat you desire. It is very convenient indeed to have the reserved seat, for then you will be able to avoid the wild rush which is made for seats in the unreserved section. Section A is unreserved, while sections B and C together with the entire balcony are reserved for college students. Section D is reserved for town people, who may obtain tickets for the season at a cost of $2.50, reservation included.

Tickets will be issued next week by the Lyceum Committee. Watch for announcement in the Highland Echo and from the chapel platform as to exact day. To receive your ticket, bring your treasurer's receipt. This will be stamped to show that the ticket has been issued, and then returned to you. Absolutely no ticket will be issued unless the treasurer's receipt is presented.

Watch for the date of issuance.

MARYVILLE AND TENNESSEE CLASH THIS SATURDAY

(Continued from page one)

up, his fellows are going to fish 'em out sooner or later. Thus, if there are any weak spots in Maryville's line against Tennessee Saturday, just believe me, Tennessee is certainly going to find them. Now—everybody knows that Highlander line hasn't held against our practice opposition. It should hold—every man in there is big, hefty and has plenty of fight. It certainly is not a matter of coaching or ignorance on the part of the men—it is a lack of the dispaly of the old fighting spirit that is iecessary to put things over. Watch the man opposite, don't let him put the same thing over you twice.

Creating a Defiant Moral Attitude.

Every since I first saw Maryville—few years since—I have heard that old adage about a "Tennessee uniform" Hang it! Can't you get that old idea out of your system? It's the student surfer to—not the men out there on the grid every afternoon in the dirt, grim and sweat. No man under Coach Honaker's tutelage can say that he gets cold feet against Tennessee. There was a little speech made over in Tennessee's gymnasium two years ago just before the men went on the field. Coach Honaker made that speech—short and snappy, too. Immediately thereafter Hobart Ford, who was captain, and who had played against Tennessee many times, got to his feet, and the only time I ever saw tears roll down that chap's cheeks was then, when he remarked—"Fellows, we're good as they are. I want to see every man get his man. I want to see him play the game."

Mark it—just about every man seated around Coach Honaker was ready to cry—a great big honest yelp, too. They went down on that gridiron at Tennessee and out played 'em in every department of the game—but lost 7 to 0. They certainly deserved to win. Now here—get this—Tennessee had a better team two years ago than they have now—Maryville has a better team this year than they had then—at least it is my honest opinion. Coach Honaker will yield to no other conclusion than the "best man win." Now it is up to you to go out there and do it. **Your Backfield is better than Tennessee's—Your Line has not shown so well**—it is up to you to get in shape and go get 'em.

Highlanders, forget all this "Got my goat stuff"—go out there Saturday with a vengeance to win that old football game. Show Tennessee you are better than they are—win and make your Doctor Wilson the happiest man who ever walked on the streets of Maryville.

OUR LITERARY SOCIETIES NOW IN FULL SWING

(Continued from page one)

room, and tired from the football game Saturday night. Athenian Hall was filled with eager listeners.

One of the "Tooters" Mr. Broady led the procession with a well selected cornet solo. Then there came "Rohre" with his "Spanish Athletic Team." Well to say the least "he's pretty good." for he gave us a good resume of the current events.

Those of you who did not and have not heard that "Bird" Ed Cornelius orate you sure have something in store for you.

As well as hearing "King David" and "Queener" debate. They discussed very briefly the question of Gov J. C. Walton's stand toward the K. K. K. Popular vote of the house was in the affirmative, while Mr. Queener, supporting the negative won the decision of the judges.

The old members were pleased to hear Mr. Chas. Wathen read and expound his first edition of "The Athenian".

Come out we promise you something worth while all the while.

ALPHA SIGMA SOCIETY HAS GOOD PROGRAM WELL PRESENTED

Flights of oratory, tactfully expressed bits of knowledge, appropriate vocal selections exquisitely rendered, and intelligent discussions of vital current topics made up the program of the second meeting of the Alpha Sigma Literary Society for this year.

The attendance was somewhat hampered by the football game but what was lacking in quantity was made up in quality. The treat of the evening was furnished by Mr. Hurst, an old Alpha Sigma who has returned to us after a long absence, in the form of a short informal talk on "The Quirks and Turns of Football". We were also especially favored by an interesting and valuable address from Prof. John Haden.

The powerful turbines of the good ship Alpha Signa will soon be carrying her far out on the sea of literary activitiy. Join the crew and help man her through storm and calm for she will sail on and on.

MARYVILLE COLLEGE BAND

"What do you know about it? The Band played a new piece the other day."

"Yes, and did you hear that trombone special? We have a hot trombone section this year, haven't we?"

We boys are glad to hear something like that. It shows that somebody is interested in the band at least a little bit. We liked those yells for Bannister last Friday night at the Pep Meeting. A good band is something the college should take pride in, just as much as in a good debating team, or a good basket ball team. If our band isn't worthy of your pride this year, it won't be "Sousa" Bannister's fault.

We'll have a band on one condition, and that is that the boys come to rehearsals. The prospects look good. The same spirit that is in the college as a whole is in the band, so you might as well jot it down in your notebok that there is going to be something doing.

MISS IRENE BEWLEY PRESENTS "COUSIN KATE"

Three Act Play Read by a Daughter of the College

Chapel Talk Enjoyed

For a long time we had been hearing that Miss Irene Bewley was coming, and at last she really came. On Monday evening she read, as no one else can read, the delightful comedy, Cousin Kate. As much as we love Miss Bewley, we forgot that she was on the stage. Cousin Kate, and her romance, gripped our minds and hearts and held us almost breathless.

As Miss Bewley begins her fall tour our best wishes go with her. She is a daughter of whom Maryville College is rightfully proud.

After she had given a great recital on Monday evening, Miss Bewley gave another one at chapel Tuesday morning. She read "Neighbors," beautifully and charmingly. But even more beautiful and charming was the little talk about her great decision.

LOVE LETTERS

With Directions How to Write Them

(By Earl N. Riskey)

No matter how literary or how well educated they are, there are few persons who can push a wicked pen when it comes to dashing off love epistles, expressing the promptings of the first dawn of love, and even the ice once broken, how to follow up a correspndence with the dearest one in the world.

Trust me, girls, I can help you with this wonderful little book. Also contains best and latest divorce cases in detail.

Write today. Paper covers 50 cents; leather 98 cents.

Earl N. Riskey, Bartlett Hall.

CO-EDS ENTERTAINMENT

Several Girls Enjoy Pleasant Afternoon

On Friday afternoon, September 28, certain fortunate young Co-Eds turned their steps toward the home of Dr. S. E. Crawford where they were to spend an enjoyable afternoon with that well-known and well-loved former student of Maryville College—Miss Jennie Montgomery. Rook was the order of the hour, and after spending a very pleasant time at this diverting game the girls totaled their scores and found that Miss Hendricks had the highest, and Miss Fitts, the lowest. Evelyn didn't feel quite so badly after the award of the prizes, however for thought the "booby" was quite as desirable as Virginia's.

Late in the afternoon delicious refreshments, daintily carrying out the color scheme of pale green and white, were served. Misses Dorothy Roney, Helen Sweeton, Virginia Hendericks, Vera Keen, Evelyn Fitts, Beatrice Wilson, Kathleen Purdy, Edith Keen, Elizabeth Edmiston, Harriet Green, Alice Robinson, and the hostess, Miss Jennie Montgomery were present.

Y. W. C. A.

SUNDAY SERVICES

The meeting Sunday afternoon was a short but impressive service of worship led by Miss Clemmie Henry. The songs, the prayers, the scripture readings and the peace benediction were all in harmony with the idea of dignified and earnest worship.

At next Sunday's meeting a subject of vital interest to every girl on College Hill will be discussed. New girls and occasionaly even old girls, ask the questions "What does Y. W. mean? What is it for?" Yet every girl who is interested in Y. W. membership come to the House in the Woods next Sunday afternoon and find out what it is all about. If there should be a few who are not interested in Y. W. let them come by all means, and learn what they will miss during the year unless they become a part of our association.

Girls, most of you have met our College Mother, Mrs. Stevenson, but did you know that we have a College Grandmother also? She will be at the House in the Woods next Sunday, and you will be given an opportunity to fall in love at first sight. This may be your only chance, so don't miss it!

Early in the week every girl who is not a member of Y. W. will be given an opportunity to join. Let's make this the biggest year Y. W. has ever seen on College Hill, both in membership and in Kingdom Advancement.

Coming Soon

The Bible Study Committee has something in store for the Y. W. Girls. Watch for the announcement next week.

Science has discovered that man gets 90 per cent of the kick out of a kiss. We'd like to add that he gets 90 per cent of all the kicks.

The Palace presented Dustin Farnum in "Bucking the Barriers." Next Saturday M. C. will present the University of Tennessee in the same play.

Miss Park says that a young child will make swimming movements when held on the hands face downward. Try it on some of these Freshmen.

Bob Thrower was leaving Thaw Hall after meeting one of his Spanish classes and was asked, "How do you rate the football team if you're a prep?"

Well, sometimes we wish Bob was a prep so we'd have him to help beat U. T. **again** next year and the next and the next and the next.

The three best sellers of the month are "Crow's Life of Franklin," "Keen's Life of Baldwin," and "The Truth About Prof. Proffitt," by Chas. Edgmon.

Florence says that everything is fixed up and she is no longer worried about her mother-in-law, so we humbly apologize for what we said last week.

Prof. Hunter says that "Yes, We Have No Bananas," is a sort of symphonic jam. Well, Professor, would you call the mail call in Pearson's peach jam?

While fishing for the college seal in the lily-pond last Friday R. W. Clopton fell in the pond. It is reported that he caught the seal, however.

TADPOLES

Current Campus Problems Discussed By One Who Knows Them

As G. Stanley Hall has already pointed out, man is only in the tadpole stage of his development. Really now, we're not much past the stage when the ape-man shambled through the steaming murkiness of tropic forests and scowling blinked up at the stars, or sumpin. Just look around the campus, at the girls, at the men, and then at a combination of these.

In this beauty show we ever have with us instincts most promitive are discernible, or sumpin. Considering these streaks of paint and streams of perfume, I fear that G. Stanley must have over-estimated. As a matter of fact these primitive applications defeat their own purpose, as it were. As Shakespeare says, it is better for a woman to smell sweet than otherwise, but preferably not at all. And these ghastly streaks of crimson, like the hectic flush of a dying consumptive, or sumpin. Good night, little girl, if you are ugly this only makes it worse, but if, as is the case, you are beautiful, these daubs of grease ruin it all.

Then too, take the men. In these last few weeks of excessive heat men have had to live encased in a heavy coat, a high, stiff collar, and a string about the neck to guarantee the discomfort of the heat. We are slaves to custom and forget that only modesty and comfort are the true guides in the philosophy of clothes.

And then this barbarian practice of lining up after church and chapel exercises is a sure sign of the tadpole stage in the young gentlemen. For a young lady to pass before this vulgar gaze and be the object of pointed remarks is reminiscent of the days when men collected harems by direct appropriation.

And again, I say, G. S. H. had it correctly. Our social privilege problem, our moonshine question illustrates clearly. Take these sickly pairs that mope around at the table and all over the campus with that soft meek look. It's awful.. And furthermore, take the whole system as it is. It is only a modification of real cave man stuff. The young lady must sit around and wait, the gentlemen take their choice and immediately find themselves in possession of a monopoly for life. Perhaps not theoretically, but tradition says, on the campus, that another gentleman shall not enterfere in an affair once started. The poor girl must accept but one gentleman during her stay here and resign herself, or sumpin. Why can't we have a little variety, an atmosphere of general friendliness, without the particular kind? Further, in these days of women's rights, why don't our young ladies enjoy the freedom of equality in social affairs?

HIGHLANDERS SCORE 61 POINT IN TORRID GRID STRUGGLE ON SATURDAY

(Continued from page one)

off the cracking of a revolver announced the end of the first twelve minute quarter with the ball on Weaver's thirty-three yard line in their possession. Criticism, water and cheering were enjoyed during the brief intermission.

A Change in Tactic

The second quarter saw a complete change in tactics by both teams. No longer was line charging engaged in consistently but now a struggle for punting supremacy was waged with Maryville having a decided edge on the Blue Ridge eleven. In the exchange of kicks the Highlanders averaged thirty-eight yards to thirty for the visitors, Chandler booting the first punt from the fifty yard line into Maryville territory. This was returned by a Maryville toe for a gain of five yards and the last punt of this exciting stage was from the thirty yard line of the Weaverites, showing that the ball had been forced into the Carolina stronghold a distance of twenty yards, and within striking distance of a touchdown. When the punt was accepted on Weaver's forty-seven yard line M. C. lined up and Jean forwarded to Cartwright who received it on the twenty yard line and dashed the remaining distance for six points.

A punt recovered by Maryville after it had sailed thirty-eight yards also resulted in a touchdown, the ball being carried across by Quarterback Riskey on a sneak play with "Bob" Baldwin, at Center, providing vigorous interference. In both cases the goal was kicked from placement by Hamilton. The last ended on the thirty-eight yard line in Weaver territory with the mountaineers carrying the ball.

Substitutions are Made

The third quarter saw a revised M. C. aggregation on the gridiron, while the North Carolina boys had made but one substitution, Lofton for Pack at left tackle. Coach Curchwell's eleven seemed inspired when they took the field. Both elevens now mixed punting, open field running, and line bucking to a nicety, and the fumbling which had marred the early stages of the game was conspicuous by its absence. Standing out brightly in this quarter was the brilliant playing of Hurst at left half, who on two occasions tore through the entire Weaver aggregation for touchdowns, one dash being for thirty yards and the other for thirty-four. We do not think that U. T. will welcome this particular gentleman with oustretched arms in the Shields-Watkins Stadium this coming Saturday. One goal kick was garnered out of two chances, the other being stoped by the diaphragm of a Weaver end who immediately required the attention of a competent water boy. About this time the timekeeper gave vent to his feelings and once more pulled the trigger, thus ending the third quarter.

Brilliant Runs in Fourth Quarter

The fourth quarter was a hectic affair dotted here and there with real football of the midseason variety and followed by the type which brought tears to the eyes of the rival coaches. Brilliant runs would be counterbalanced by penalties and powerful punts were poorly handled The smothering heat was telling on the gladiators. An unusually good return of a punt by Jean McMurray cannot be overlooked and also the falling on a blocked punt by Captain Bob deserves special mention. A thirty yard forward pass, Riskey to Shores, followed by a ten yard run by the latter with a Weaver warrior streaming in the wind from his left shoulder netted another touchdown. Riskey also took one through center for six points during this quarter making the final score 61-0, only one of the two goals in this division being made. The report of a now familiar thirty-eight ended the conflict between Weaver and Maryville with the ball on Weaver's thirty yard line.

Many Substitutions

Substitutions: Hurst for McMurray; McMurray for Riskey; Partee for Sneed; McCall for Gamble; Hunter for Cartwright; Hamilton for Schmidt; Clemens for Baldwin; Coleman for Thrower, Thrower for Bell; Crawford, Shores and McMurray for Partee, Hurst and McCall respectively; Gamble for L. McCall; Riskey and Sneed for Wiliams and Coeman respectively.

Referee, Professor Henry, Maryville Polytech; Umpire, Cecil Tulloch; Head Linesman, Harold Greer, University of Tennessee; Timekeepers, Ed F. Harper, John Doe.

Time of Quarters: 12 minutes.

Students Proud of Team

Maryville College today acclaims our team a fighting squad of which it is justly proud. The entire line led by "Tex" Thrower at right tackle gave everything that was in it and the backfield which during the first half consisted of Riskey, Sneed, McMurray and Gamble worked as a combination and not individually. The second string also looked good when they went into action. "Shorty" McCall at quarter is possibly the reason why Riskey practices consistently with the use of but one optic. On the sidelines, chafing to get into the play, but unable to because of injuries were Doris Music, regular end; Tom Greenlee, the veteran guard; and Stevens, a sufferer from early fall practice.

The colorful snake dance participated in by the student body at the end of the first half gave evidence of the wonderful Maryville spirit this year. At the head of the procession were the two peppy cheer leaders, "Everybody Up," Swartz and "Let's Go," Rohre. The band played such inspiring airs as "Yes! We Have No Bananas," and "Barney Google," and there was little wonder the grotesque parade was so enoyable.

SUNDAY SCHOOL PARADE

The Sunday schools of town are always helping us and we want to help them. They are making great plans for the big parade next Sunday. We must be there and be on time. The parade will be formed at eight- thirty on the grounds of West Side school. Whatever we do to make it a success will please those in charge and help us.

TAR HEEL CLUB ORGANIZED

The dinner bell did not have the usual effect on the North Carolina students Tuesday at which time they were having a meeting in Dr. McMurray's room for the organization of the Tar Heel Club. The organization was completed with the fololwing officers:

Robert W. Bishop, president.
Blanche Moore, vice-president.
Mary Lily Sossoman, secretary-treasurer.
Lena Strawbridge, editor.

We want to prove how "Tar Heels' can stick together in love and loyalty to Maryville, and judging from the happy, enthusiastic group present Tuesday we believe it will be seen that a better club than "TAR HEEL" just—AINT.

NU GAMMA SIGMA

The Nu Gamma Sigma groups are certainly helping us new girls. In these groups we meet and get in closer contact with other new girls.

In the weekly meetings of these groups we get to express our own opinions on different subects and we also get the thoughts of the leader and the rest of the girls. Our minds tend to be broadened by these various opinions.

After our discussions we usually play games and have a good time in general.

We are being developed in such a way that all of us may hope to be Nu Gamma Sigma leaders some day.

MARYVILLE OUTPLAYS U. T. IN 14-14 TIE

Maryville and Tennessee Battle to 14-14 Draw in Desperate Grid Conflict

Shields-Watkins Stadium Rocked by Cries of "Hold them, U. T." as Highlanders Make Thrusts for Victory Saturday.

DECISIVELY OUTPLAYED IN THE SECOND HALF, THE UNIVERSITY OF TENNESSEE WAS FORTUNATE TO HOLD THE INSPIRED MARYVILLE ELEVEN TO A 14-14 TIE IN THE ANNUAL GRID CLASSIC SATURDAY. NEVER BEFORE, BENEATH SOUTHERN SKIES, WAS A MORE DESPERATE FOOTBALL ENCOUNTER WAGED THAN THIS STRUGGLE BETWEEN TRADITIONAL RIVALS. AS THE SUN SANK SLOWLY BEHIND THE SHIELDS-WATKINS STADIUM TWO BATTLE-STAINED TEAMS LEFT HE FIELD, U. T. WITH THE FEELING OF RELIEF, M. C. WITH A TINGE OF REGRET IN NOT SCORING A VICTORY. DAME FORTUNE SMILED KINDLY ON THE VOLUNTEERS IN THE FOURTH QUARTER, FOR WITH THE SCORE TIED, THE HIGHLANDERS WERE TWICE WITHIN THE SHADOWS OF THE ENEMIES' GOAL POSTS ONLY TO LOSE THEIR OPPORTUNITIES TO DRIVE HOME THE WINNING PLAY.

Completely baffled by the Tennessee attack in the first five minutes of the game, the Maryville aggregation found itself on its own eight yard line fighting hard to stave off a touchdown. However, it was to no avail, as the Vols, elated over a rapid march from M. C.'s thirty-five yard line were not to be denied, and a successful pass, Neff to Brown, resulted in the first score of the game. Bone, Tennessee's brilliant fullback kicked the goal.

Hatcher's kick off was returned twelve yards by Hurst to the thirty-two yard line, and the Honakerites, after a series of line bucks, punted to U. T.'s thirty-five yard mark. Bank's warriors now carried the ball out thirteen yards and Bone punted to Maryville's fifteen yard line. McMurray, who accepted the punt, then made the most brilliant play of the game up to that time for, by a clever bit of broken field running, and aided by excellent interference, he returned the oval to the forty yard line. The Maryville stands, thrilled by the play, took on new life, and gave Jean a hearty ovation. The Highlanders, finding themselves at this time, started a sustained march down the field, and never was a more gallant attack launched than this irresistible assault which brought them, as the quarter ended to the twenty-nine yard line of Tennessee.

Second Quarter Bring Touchdown

The beginning of the second quarter found the Maryville eleven continuing the advance which had been temporarily delayed by the intermission. A thirteen yard pass over the center of the line from McMurray which was accepted by Musick, who grabbed it from the arms of two waiting Vols, once more provided the M. C. cheer leaders with an opportunity to bring forth roars of commendation from the stands. After two yards were made through center, signals were called for the Highlander's most successful play, and before the surprised Tennessee backs recovered themselves Riskey had sneaked through behind Clemens a distance of fourteen yards for a touchdown, the first score made by M. C. against U. T. in six years. A dreadful silence while Hamilton kicked the goal was followed by the most enthusiastic Maryville demonstration in recent years.

U. T. Gets Second Touchdown

The tide of battle soon changed, for upon the Tennessee kick off being returned by a punt by Hamilton to the Maryville forty-four yard line, the Vols, by one off tackle play and a twenty yard forward pass, Bone to Brown, brought the ball within eighteen yards of the Honaker goal posts. It was then that the Bank's aggregation showed its power, for circling the opponents left end the Tennessee warriors used their renowned cross-buck play and Bone, behind a living wall of interference crossed the visitors' goal line. Although U. T. failed to kick the goal, it was awarded to them, Maryville being off-side.

The remainder of the quarter was marked by a twenty-eight yard march up the field by the Honakerites, and an exchange of punts between Bone and Hamilton. The ball was on Tennessee's forty yard line when the half ended. During this period Cartwright, Sneed and Baldwin took the places of Musick, Hurst and Brown respectively. The score stood 14-7 in favor of Tennessee at this time.

"Back" Makes Touchdown

It was evident when the third quarter began that Tennessee was determined to keep the advantage, whereas the boys from the highlands were bent on overtaking their rivals. Hamilton kicked off to U. T.'s twenty yard line and the ball was run out five yards by Bone before being thrown. Captain Bob

Two Societies Make Big Plans

Alpha Sigma Plans Good Meeting For Saturday Night

Due to the unusual excitement occasioned by the U. T. game, the weekly meeting of Alpha Sigma was not held last Saturday night. The time and strength of everyone was given to the rousing celebration Saturday night in an effort to do justice to the moral victory which was won over U. T.

Next Saturday night we meet as usual. Come with us, fellows. We promise an hour of worth while enjoyment.

Bainonian's First Chance to Show Real Qualities of That Society Comes Saturday

Bainonian is eagerly waiting to enter upon her year's progarm and will have her first meeting Saturday night. We hope that old girls, new girls, tall girls, short girls, and—well all girls will be there, but of course we extend an especially warm invitation to every new girl. We'll look for you Saturday night.

Miss Swanson Gives Party

Several Very Fortunate Young Ladies and Gentlemen at Gathering

On Friday evening of last week, Miss Gloria Swanson entertained a number of fortunate young ladies and gentlemen with a theater party. The occasion was the celebration of Mr. John Brandons eighth wedding. The hostess' personal limousines bore the party to the entrance of the Palace Theater where they were received by the welcoming committee composed of Mr. Harold Y. Van Orden and others. While the guests were being ushered to their boxes the show was stopt in order to permit the audience to stare at Miss Maggie Walton & Co. Miss Walton was the cynosure of all eyes. She was tastefully attired in a green frappi frock, slashed a little demitasse at the neck. The other young women were dinner gowns and the men were in full evening dress.

The play—one of Miss Swanson's latest—was a howling success. Of course, like all of Miss Swanson's pictures—it was of a highly elevating nature, containing a deep religious appeal and a moral lesson.

The guests departed at a late hour. Those present were the members of the Senior Class and the guests of honor, Mr. and Mrs. Orr.

Tragic Death Comes To Daniel Arellano, '22

DANIEL SEVERO ARELLANO

Word Comes Through El Mundo Christianno of the Assassination of Daniel S. Arellano.

On last Friday morning, just before chapel, a copy of El Mundo Christiano of Mexico City, under date of September 27th, came to hand, bringing the sad news of the assassination of Daniel Severo Arellano, a member of Maryville's Class of 1922. This almost unbelievable tragedy took place in the neighborhood of Tlalpan, Federal District, about fourteen miles from Mexico City, on Saturday, September 22nd. The entire tragedy was so involved in mystery that, at the time of the publication of the paper, the details had not been found out. All that was known was that while Mr. Arellano was taking a walk with a young lady, he was attacked by three men and brutally murdered. Several hours elapsed between the time of the commission of the crime and its announcement to the family and to the authorities. The results of the investigation that was in progress had not been announced. Daniel Arellano was the son of Rev. Plutarco Arellano, D. D., who in the years 1882 to 1884 was a student under President Wilson, in the Theological Seminary of Tlalpam, the town near which his son has now been assassinated. Dr. Arellano is a brilliant man, and has long been a leader of Protestantism in Mexico. For many years he was the editor of El Faro, the organ of the Presbyterian Missions in Mexico. At the time of the assassination of his son he was lying in almost a dying condition in the city of Oaxaca, and so low that his friends had not dared to announce to him the news of the death of a brother minister of his, Senor Granados; and, of course, they dared not tell him of the death of his only son, who was the pride and the hope of his life. The motive of the assassination was unknown, either it was political, or religious, or for robbery, or it was inspired by jealousy. The town of Tlalpam has always had a very dangerous and

Y. M. C. A.

Bible Study Committee Leads Program. Outside Speaker Praises Work of Association

The Bible, Our Textbook, was the central theme of the very interesting program which the Bible study committee of the Y. M. C. A. presented last Sunday afternoon. After an enjoyable prelude consisting of a vocal solo by Andrew Stewart and a reading from the Book of Job by Harry Gauding, three members of the committee made short addresses. The first, by Charles Beech, answered the question, "what is the Bible?" The next, by Merlin Usner had as its subject "How to Study the Bible". The final phase of the subject, discussed by Beryl Pritchard, was "Why Read the Bible?"

Following these discussions Dr. Orr, who is visiting Maryville in order to conduct the Sunday School Institute of New Providence Church, made a brief address.

Mr. Bergthold, regional secretary of the Y. M. C. A., paid the Maryville Association an unexpected visit last Sunday. Mr. Bergthold expressed pleasure at the work which the Y. had in progress, and promised his support in the effort to obtain nationally known speakers during the year. Still Wilson, the famous student lecturer, was particularly mentioned.

Joys too exquisite to last and yet more exquisite when past —Montgomery.

AFTER THE GAME

Saturday was a great day. One of the greatest games ever witnessed. What tenison! and what pep! Yes, that game will go down in the history of all M. C. It was a record breaker. Now, listen folks, we're all feeling fine, and let's hold on to that "pep." We put it into our play, now let's put it into our work.

Let's cut out the afternoon nap in Spanish, and the morning reverie in psych. Let's sit up and show Dr. Wilson that we are as strong in one part of our college activity, and the most important part, as we are in our athletics. Let's make this year a record breaker in scholastic attainment and mental gowth as well as in athletics.

We want M. C. well balanced, perfectly normal. So let's not neglect her brain in our eagerness to perfect her body—even if Miss Park does say that's the right way.

SR. DANIEL S. ARELLANO

We wish we were only able to say what we feel ought to be said about our fellow student, teacher and friend. Those who have been in the class room or on the campus with him realize our position. We remember Sr. Arellano for his good work in our literary society, his help with the music at Vesper service, his teaching, his always friendly smile, and word of greetng on the campus, as a friend and as the most systematic student we have yet come in contact with.

A man with a broad understanding of men and ability far beyond the ordinary. Knowing people he strove to promote manly thinking and good feelings not only between individuals but between his country and ours. He trusted God with faith sincere and asked for mercy, guidance and watchful care in each humble prayer. Such a man that not only individuals but nations might well bemoan his loss.

U. T. Game

(Continued from page one)

break. By coincidence the next play was a forward which bounced into the air from the back of a Tennessee linesman. "Back" Williams, Maryville's alert right end, caught the oval as it fell to the ground and flashing past Tennessee's safety man crossed the goal line after a thirty-six yard run, the longest of the game. Hamilton, who has established a record for dependable goal kicking, booted the ball between the posts.

A defective kick-off to U. T.'s twenty-six yard line was returned four yards, and after some ragged playing by both elevens, U. T. started to parade down towards the M. C. goal line. This march, which extended thirty-eight yards, was achieved by a series of cross-bucks and line plunges. It ended ingloriously, however, when the High'anders tightened and the Volunteers lost the ball on the visitors' twenty-eight yard line. Hamilton punted out of danger to the Tennessee forty-eight yard mark and as the period ended Williams intercepted a U. T. pass. Musick returned to left end during the quarter. Score: Maryville, 14: Tennessee, 14.

U. T. Fights To Stone Off Defeat

The memory of the fourth period will live forever in the memories of every son and daughter of old Maryville. The Tennessee players fighting desperately to stave off defeat, the imploring cries of "Hold them, U. T.," and the nervous haste in which Coach Banks threw in substitutes to bolster the withering line will always be remembered. Not once in the last quarter was the ball in M. C. territory, and in this frame the Maryville College football team demonstrated beyond all doubt its superior ABILITY TRAINING and CONDITION over the University of Tennessee. For the first time in seventeen years Maryville can feel that it defeated U. T., even though the game ended in a 14-14 tie. Twice on the five yard line after sustained marches down the field M. C. once lost the ball on a forward pass and then on a blocked placement kick which was headed straight between the posts. Earl Riskey, playing his first year as regular quarter back, deserves special mention for the manner in which he handled the team throughout the entire game. That his plays have good results will be left to Tennessee to testify. "Bob" Baldwin, second-string center, who played his first game at right guard looks like a find. Always on his toes, he twice recovered U. T. fumbles, and in the dying minutes of the game threw Bone for a ten yard loss on Tennessee's twelve yard line. The game ended on the fifty yard line in Maryville's possession, the final tally being Maryville, 14; Tennessee, 14.

Interesting Intermission

Between the halves Maryville and Tennessee failed to rest. However, on this particular occasion it was a small representation of each student body which was active. A little orange and white pup with an orange and white pennant attached to it wandered into the region occupied by the Maryville College cheer leaders, and they, thinking that orange and garnet might blend tastefully with the color scheme decided to attached an M. C. ribbon. A group of Tennessee's freshmen, thinking the pennant was being removed, dashed madly across the field and were about to annihilate the megaphone experts when twice as many Maryville students also decided to play. Fortunately two policemen, a deputy sheriff and members of both faculties intervened and no damage was done or strong sentiment aroused.

"You Out Played Us"

Maryville played a wonderful game for behind the team was the school, and behind the school was the town. Soul stirring talks were delivered in the dressing rooms before the game by Manager "Shimmy" Brown, Captain "Bob," Assistant Coach Bond and Coach Honaker. It was due to the inspiration which the squad received at this last gathering before the game which enabled them not only to tie Tennessee but also to outplay them. After the game Assistant Coach Hobt of U. T. approached our Coach and said, "Honaker, I wish to congratulate you. There is no doubt but what you outplayed us."

The line-up and summary is as follows:

Maryville		Tennessee
Musick	le	Hatcher
Hamilton	lt	Lowe
Schmidst	lg	Kefauver
Clemens	c	Talbott
Brown	rg	Burdette
Thrower, Capt.	rt	D. Jones
Williams	re	Brown
Riskey	q	Smith
Hurst	lh	Neff
McMurray	rh	Harkness
Gamble	fb	Bone

Score by quarters:

Maryville	0	7	7	0	14
Tennessee	7	7	0	0	14

Substitutions: Sneed for Hurst; Hurst for Gamble; Baldwin for Brown; Cartwright for Musick; Bush Sneed for Harkness; Wallace for Neff; Holt for Brown; T. Robinson for Talbott; Morris for Robinson; Rhinson for D. Jnes.

Touchdowns: Brown, Riskey, Bone, Williams; goals after touchdowns, Hamilton 2, Neff 2.

Officials: Reynolds, (Ga.), referee, Fincher, (Tech), umpire; Preas, (Tech), head linesman.

RESOLUTIONS OF THE CLASS OF TWENTY-TWO

Whereas:

God in His Infinite Love and Mercy has taken from us our beloved and honored classmate Daniel Servo Arrellano, and

Whereas, The Class of nineteen hundred twenty-two though scattered over the face of the earth are bound by the tie of our common Savior Jesus Christ,

Be it Resolved, That we humbly and earnestly pray God to fill the hearts of his loved ones by a still greater Faith and Devotion to Him who is all wise and merciful, to comfort and mitigate their sorrow sustained in the loss of one so dear

Be it resolved further, That a copy of these resolutions be sent to each member of the Class, a copy printed in the Highland Echo, a copy read in chapel and a copy be sent the bereaved parents.

Committee of the Class of Twenty-two.

George D. Howell,
Lee R. Herndon,

Death by assassination near his home Mexico City by unknown persons.

FRESHMAN CLASS ADOPTS RESOLUTIONS

Whereas God in His Infinite Wisdom and Mercy, has called upon Himself the brother of our class president, Murette DeLozier, we, the members of the Freshman Class, extend to him and his family our heartfelt sympathy in this time of bereavement.

Be it resolved, therefore, that a copy of these resolutions be read in chapel and a copy be printed in the Highland Echo and a copy be sent to the bereaved family.

Signed: Freshman Class Committee
Merlin Usner,
Earl Story,
Walter Buchanan.

Tragic Death of Daniel Arellano

(Continued from page one)

degenerate element in its population. Whatever the motive may have been, those who perpetrated the crime were black-hearted murderers.

Daniel Arellano graduated from the Escuela Normal para Maestros of Mexico City in 1919, with high honors. He was sent by the Mexican government to the United States to prepare still further to be a leader in the national schools in Mexico. He was a student of Maryville College during his three years in the United States, 1919 to 1922, spending his first summer vacation in New York City and his second vacation at Miami University, Oxford, Ohio. He graduated with the class of 1922 with the honor Cum Laude. He was a brilliant student and a most faithful worker. The promise that his life gave of eminent usefulness was evident to everyone. He was a Christian gentleman, and gained the respect, esteem, and love of the faculty and student body alike. He served the college with eminent success as a teacher of Spanish for over two years, and his pupils highly appreciated his scholarship and his character.

In his farewell talk at the Y. M. C. A. he spoke of the patriotic devotion he had for his own country and his joy that he could return to that country to be one more agent to help in drawing the two countries together in a better understanding.

In announcing the death of Mr. Arellano to the students at the chapel service, Dr. Wilson told of the call that Mr. Arellano made him the night before he started for Mexico. After two hours' conversation about his hopes for the future, Mr. Arellano asked his college president to kneel with him in prayer that a useful life might be granted him in his native country. And there on the porch of the president's residence, the alumnus and his college president prayed for one another and for the work and the church in the United States and in Mexico.

Very seldom has the news of a death more profoundly moved the college community than has the announcement of the murder of this loyal Maryville man. He has been missed in our vesper service, where he played the organ, for he was a brilliant musician; and he has been missed in many departments of our work; but now that he has been removed from the earth, the sense of his loss to us is profound indeed. The heart-broken sympathies of Maryville go out to the father, mother, and sisters of our dear friend. May the All-merciful God console them in their inconsolable loss.

COLLEGE DIRECTOR PASSES AWAY

Word of the Death of Rev. Henry Seymour Butler Comes from Washington

On Monday, Sept. 10, 1923, Rev. Henry S. Butler, D. D., passed away at Washington, D. C., where he had resided several years, in the 83rd year of his age.

Dr. Butler was born Dec. 19, 1840 in New York City. He graduated from Princeton College in 1858. After completing his Seminary work he became an active worker in the christian ministry and was at different times pastor of several of the leading Presbyterian churches in the East.

In 1907 Dr. Butler's health failed and he resigned his pastorate and came to Huntsville, Tenn., where he established a mission school. He has long been connected with Maryville College and has done a great service not only for our college, but where ever he came in contact with institutions or communities.

Y. W. C. A.

Y. W. Girls Have Good Meeting Plans Made for Installation

Sunday's meeting on the meaning of Y. W. Membership" was well planned, and owing to judicious advertising, well attended. The leaders were so successful in anticipating the various questions that might come up about the different phases of the organization that discussion was practically unnecessary.

It is hoped that the meeting will result in a very large number of new members to take part in the Installation Service which will be held in the chapel next Sunday night after vespers. This is one of the most beautiful and impressive services of the school year, and there is a place in it for every new girl on College Hill, provided she allies herself with the Y. W. C. A..

BIBLE STUDY COMMITTEE ANNOUNCEMENT

On Tuesday evening, Oct. 16, the first of a series of lectures planned by the Bible Study Committee will be given. There will be six lectures in all, coming on Tuesday and Wednesday evening for three consecutive weeks. The subject matter will be the book of Galatians, taking one chapter at a time.

Girls, this may sound dry and uninteresting, but did any one ever hear Dr. Gillingham give a dry lecture? Even in Theism, we are told; the Seniors sit with open eyes and ears to catch his every word and gesture. So come out to these lectures and get acquainted with the book of Galations, you will find that it has a partical bearing on every day life that you may never have thought of. Look and listen for announcements of the exact time and place of meeting, and in the meantime plan your work so as to leave plenty of space to take advantage of this opportunity.

ELECTION OF OFFICERS OF THE FRESHMAN CLASS

During the week of Sept. 17th, the Freshman Class held its first meeting, presided over by a member of the Senior Class. Murette DeLozier was elected President and the meeting was adjourned. At the call of the Class President the class convened on Sept. 27th for further election of officers. Nominations were made from the floor, and standing votes were taken on each candidate for office. Officers were elected as follows: Earl Storey, Vice President; Kathleen Hunnicutt, Secretary; Frank Rosa, Treasurer; and Wallace C. Merwin, Editor. The size of the class, its leadership, and the character of its membership are indications of one of the finest Freshman Classes that Maryville College has ever known.

FACULTY LADIES ENTERTAINED

Miss Elizabeth Smith entertained the unmarried ladies of the faculty at her home on Monday afternoon. Delightful entertainment was provided for the guests. Rook playing and viewing pictures of scenes around Maryville, enlarged and beautifully tinted, were main features.

Refreshments consisting of delicious ice cream and cake were served, after which the ladies departed thanking their hostess for a most enjoyable afternoon.

BIG TREAT IN STORE!

Dr. Green of Birmingham will talk to us at our Sunday meeting. Fellows, don't miss his interesting address.

Everybody Out!

Athenians Hold Divorce Court

Chas. Beech and Old Lady Attempt Martial Break

Judge Ed Cornelius called "The Athenian Court Monday Oct. 8.

Hon. John Robert Stockton Pb. H. the Attorney for Mr. Beech reported ready for court. So did Hon. Verton M. Queener LL.B. the Attorney for the defendant Mrs. Beech.

The Sheriff Ed Cathey was called to bring in the jury. "Many were called but few were chosen." Various objections were offered by both the prosecuting attorney and the defendant. Such objections, as He knows too many girls, or doesn't know enough girls. He's not a sane looking man. I object to that man because he likes him, for no one could like that man." Finally Robert Broady, P. G. Camp, Elmer Douglas, Wm. Lippard, Harry Painter and Geo. Neff were admitted to sit upon the jury.

Mr. Beech was admitted to state the grounds upon which he claimed a divorce. He claimed his old lady Mrs. Smythe Beech beat him up for things she did herself. Mr. Robinette a nearby neighbor tells of seeing Mrs. Beech's rough treatment, such as frailing Mr. Beech with a chair. Harvey claiming to be a co-worker in Chemistry with Mr. Beech relates unjust acquasations he heard Mrs. Beech give.

Prof. Shorty Prince, a graduate of Prinston Uni., now principal of "East Side High" tells of Mr. Beeches incapacity to support a family, and knows Mrs. Beech to be a good christian, consciencious woman. Little Stewart and Cecil Beech relate sad stories of how their sick mother was treated, and how they were forced to quit school because their Dad would not work to support them.

Then how Prof. Prince gave "little Cecil" a nice warm sweater with "24" on it, and how Mrs. Prince helped them out by sewing on buttons etc., for them.

After the warm discussions of the case by the able young lawyers the jury retired to make their decision. They pronounced the divorce "not granted."

FORMER MARYVILLE BOY PASSES AWAY

We have just received the sad news of Mr. Frank Neff DeLozier's death. Mr. DeLozier was a Maryville student for two years '20-'22. He played on the varsity basketball team and was well known and well liked by all the students. His brother Muriette, is a member of the present freshman class and is president of that class. Mr. DeLozier leaves behind a father, mother, four brothers and two sisters. He was a member and consistant worker at Logan's Chapel M. E. church. He had planned to go through college but has been kept away by an infected foot which finally developed into cancer and caused his death. Our prayers and sympathy go out to his brother who is with us and to his entire family.

HOSPITAL NOTES

Merle Marshall lingers in the hospital recuperating from a long and serious illness of four weeks duration. He has been able to walk out on the campus a few times, but is still too weak to leave the hospital permanently. We'll surely be glad to have you with us again, Merle. Hurry and get well!

NOTICE!

Next weeks issue wil be devoted to the Class of '23. Articles coming from the students concerning any member of that class should be in our hands before Saturday. Other news articles will be held until the following week.

College Band Does Good Work

The Band Rendered Good Services Saturday. The Result of A Hard Practice Were Noticeable

Last week was chuck full of work, of pep, and of thrills for everybody on the hill.

Tuesday evening the band had one of the best rehearsals in three years; the fellows were fifteen strong, wide awake, and willing to work hard to get the music ready for the pep meetings and for the big event which was about to take place.

On Thursday and Friday nights the band did their bit at the pep meetings, giving some popular music, some first class marches, and leading the student body singing Alma Mater.

Saturday the band appeared in uniform and looked very well indeed. A few selections were given while the crowd gathered at the station, when—All Aboard! and we were on our way to see M. C. beat up U. T's dog and capture their royal Angora.

Band Had A Skirmish

Not only the football team, but also the band, had a skirmish on Shields-Watkins field. If you see some instruments running about without any bells on them, you may take it for granted that some M. C. tooters blew the bell of their horns in trying to make as much volume as the Knoxville Band on the other side of that cloud of dust.

On our way home, the band got together and played Hot Time, Hail! Hail! The Gang's All Here, and a number of other pslans appropriate to the occasion, only to burst forth into the glorious strains of Alma Mater as the train rolled into the station.

We were not through yet, but led the parade through the streets of Maryville and at last up to the steps of Pearson's Hall, arriving tired and hungry, but happy as so many June bugs.

Sunday morning the College Band headed the Sunday school parade and let the citizens of Blount county know that Christianity can and is keeping step with the strains of martial music.

THANK YOU TOOTERS

Members of the band and students wish to thank those who helped with the music Saturday and Sunday. We surely appreciate your kindness.

Class Football

OPENED BY SOPH SENIOR FRACAS

Bassel and Clabough Shine for Upper Classmen and Bishop Casall, and Wilson for Sophs

The Sophomores overruled the blue sweater tribe in a pigskin turmoil with the score 14-6. The younger team had the edge on its opposition all the time, but Senior dignity was not entirely lost in the dirt.

Altho Hardin drew blood freely and Clabough developed a limp the game continued throuout hard and fast. Particularly do we admire Swartz graceful way of clinging around the necks of people. A plentiful exchange of points averaging anywhere between 10 and 20 yards apiece gave all players a fair chance to take in a little air.

The game was punctuated by fumbles all the time. When Mason curved a pretty pass over his quarter backs head Casall dashed down the field for 7 points. Every kick was dropped or juggled as a matter of good form. Martin interupted a forward and staggered down to the five yard line and Lanchez touchdowned on a forward. The other score was made on a long end run by Bishop. Altho there was plenty of clumsiness and error in this game, there was as much fun and it is a great thing that class football games have been instituted at Maryville.

Partee says he'd like to go out with a couple of those freshmen flappers. Maybe he'd like to go with three of them if he had three arms.

Girls, don't be envious when you see a couple moonshining on Sunday afternoon. Margaret Weeks doesn't have the chance during the week.

ANNOUNCEMENT

The conservative division in campustry will be coached by David and Josephine, while the more liberal and dashing ones will be coached by Musick and Louise.

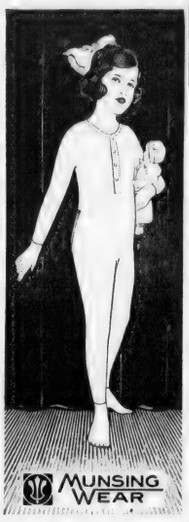
When we read this in the Georgetownian we thought of some of the teachers. "I know my oats" brayed the jackass as he kicked the hired man behind the ear for feeding him saw dust."

VISITORS ARE ALWAYS WELCOME

Miss America Moore had, as a week-end guest, her mother.

Miss Agnes Houghton, who is teaching at Farner, made a flying visit to the Hill Saturday.

Mrs Y. P. Williams, of White Pine, was the week-end guest of her niece, Miss Eureka Williams.



Miss Margret Weeks of Charleston, paid her usual semi-occasional visit to the hill this week-end.

Paul M. Summers of LaFollette journeyed to Knoxville for the big game and on to Maryville for the celebration.

Bo Brown of the U. T. football team chose the seclusion of our mountain retreat for his recuperation after the game.

Miss Dennis Blevins, whose home is at Calhoun, was a guest on the Hill for the week-end. Miss Blevins is teaching at Charleston.

John Jenkins and Harold Newman of L. M. U. gladdened the hearts of their many friends by their presence on the hill for the week-end.

Mitchell's DRUG STORE

Miss Clarabelle Smith '22 who is teaching in Gibbs High School, was a very welcome visitor to her many friends Saturday night and Sunday.

Miss Gladys Marshall was made very happy this week-end by the visit of her father and mother and two little sisters, of Chattanooga.

Robert L. Belt, '20, after spending a month's vacation with home and friends has returned to Rush Medical College, University of Chicago for his Senior year.

Many girls were made happy Sunday afteroon by the little visit of Miss Ruth Still, of Cleveland, and Miss Sybil King, of Knoxville. Both of these popular young ladies were formerly pupils here.

Certain fair co-eds and 219 were saidly encumbered the past week-end with the presence of Lawrence Theodore (Ici) Crawford of last year's senior class. Mr. Owen "Hooks" Henderson of the class of '22 and Mr. James J. Bevan of the University of Tennessee.

It looked quite natural to see Tub and Alice together this week-end. Mr. Sullinger came from Rogersville where he is teaching and coaching, to attend the U. T. game and probably some other little matters.

G. Leslie Poe, M. C. '23, was a very welcome visitor on the hill and at the game Saturday. Mr. Poe was our efficient cheer leader for several years, and prominet in many student activities. We greatly appreciate his assistance in front of the bleachers at the game.

Mr. Jack Matthews a former star baseball pitcher for Maryville visited friends on the Hill a couple of days this week.

Drs. Gillingham and Minton took part in the rededication of Greenbrier Presbyterian church at Brandenburg, Ky., last Sunday week.

Miss Anna Jones is on a trip to Florida with the Drs. Black. They are driving thru and will be gone two weeks.

Rev. E. L. Orr visited his brother Professor and Mrs. Orr over the week-end.

A bunch of Baldwin girls took a breakfast hike Monday morning. The "eats" were fine and surely appreciated after the walk in the "chill dawn." All agreed it was worth 30c.

ALUMNI NEWS

Among the numeorus alumni from a distance who attended the U. T. game were L. G. Carson, '12, of Harriman; Roy R. Anderson, '18, of Cleveland; W. H. Pleasants, '18 of Columbia, S. C.; Owen Henderson '22 of Cohutta, Georgia; L. T. Crawford '23 of Cave Spring, Georgia; and G. Leslie Poe, '23 of Chattanooga.

News comes of the marriage on September 30, at Tarkio, Missouri, of William Murphy, Prep. '23 and Agnes I. Thompson, '23. Mr. and Mrs. Murphy will be at home in Memphis, where Mr. Murphy is in business with his father. Alumni and friends join in hearty congratulations.

A Snappy Snap

All Students Had a Big Time On Baldwin Lawn Saturday Evening

We're not afraid to bet that, one game, Saturday afternoon, was enough for U. T., but for M. C. it was different. The second big game of the day was called at 8:00 o'clock on Baldwin lawn and there was nothing lacking in the way of pep either, because we were just back from a big pep meeting over at Knoxville. Every body had a "snappy" good time and there were very few "knock outs." Marie G. says she knows all about one "knock out," but she doesn't mind it so much since she got over it in time for the Senior-Sophomore game.

RENT A HALL

We should like to remind some of the fair co-eds in rooms centrally located that practice rooms for students wishing to cultivate their voices may be secured IN THE CHAPEL. Or if they find it impossible to secure a practice room at this late date, let us suggest that Sunday afternoon might be celebrated in a less hilarious manner.

VOLUME NINE | MARYVILLE, TENNESSEE, OCTOBER 17, 1923 | NUMBER SIX

CLASS OF "TWENTY-THREE," MARYVILLE'S LARGEST

Maryville Makes it Four Straight By Defeating Milligan

Highlanders Play Sluggish Game Against Fighting Team of Milligan College.

(By Howard (Kitty) Hill, Johnson City Staff)

IT WAS AN OVER CONFIDENT ELEVEN THAT FACED THE MILLIGAN COLLEGE TEAM HERE FRIDAY, THE SAME OVER CONFIDENCE THAT HAS LOST MANY GAMES FOR SUPERIOR TEAMS, BUT HOW SWEET IT IS FOR THE UNDER DOG TO DRAW BLOOD FROM THE CONQUERORS. TO MILLIGAN THE 14-3 SCORE WAS A VICTORY, AS THEY HAD SWORN TO SCORE, SO THEY CAME OUT OF THE GAME SATISFIED WITH THE FEW DROPS OF GLORY THAT REMAINED IN THEIR CUP OF WOE.

In the first quarter Milligan outplayed the Highlanders, putting up a defense that the Maryville boys could not or would not go through. In the second quarter the Highlanders seemed to hit their stride for they marched down the field in orderly fashion for a touchdown, in this same quarter, however Milligan got within 30 yards of the Orange and Garnet goal and Ziegler dropped kicked a goal. The third quarter was uneventful, both teams exchanging punts, with neither in scoring distance. In the first of the fourth Maryville seemed to regain some of the old time spirit and after a series of line plunges Riskey bucked it over for another touchdown. In this quarter, Maryville was within fifteen yards of the goal again and lost the ball on downs.

Riskey made the only sensational run of the day. He received a punt and raced 60 yards through the Milligan line, but was stopped by the safety man. McMurray came across for his share of the gains, as is always the case with the sandy haired athlete. Joe Gamble put the side line spectators on their toes by ripping through the line for consistant gains. In the line, Schmidt looked grert. He spilled several good plays and seemed to have the fight. Clemons was also in good form, with an undying amount of pep.

Milligan Calls Time Out

Ziegler and Hart were the outstanding players of the Buffalos, both being able to gain. Maryville had by far the best team but the fight put up by the home boys was a good one, showing an undaunted spirit to win.

Milligan called time out at every opportunity, while Maryville only asked for it once. Maryville was penalized 60 yards during the game for holding. These penalties came at a time when fifteen yards meant lots to Maryville, and had they not been inflicted another touchdown would probably have been made.

Line up and substitutions:

Milligan	position	Maryville
McCormick	L. E.	Musick
Sawyer	L. G.	Hamilton
Waddell	L. G.	Schmidt
Little	C.	Clemons
Hodge (Capt.)	R. G.	Baldwin
B. McCormick	R. T. Thrower (Capt.)	
Hardin	R. E.	Williams
Anderson	Q. B.	Riskey
Hart	L. H.	Sneed
Zeigler	R. H.	McMurray
Beasley	F. B.	Gamble

Substitutes: Milligan—Varden for B. McCormick; Alexander for Hardin; C. Crouch for Sawyer; Hardin for J. McCormick; Deavers for Waddell; Feathers for Deavers; Waddell for Feathers; V. Crouch for Hardin.

Maryville—Partee for Sneed; Shores for Williams; McDaniels for Baldwin.

Touch down—Riskey (2); Maryville, goal after touch down—Gamble (2.) Field goal—Zeigler, Milligan.

Referee—Jim Preas, Georgia Tech. Umpire—Sam Doak, Tusculum; head linesman—Alf Doak, U. T.; timekeepers—Davidson and Crouch.

Happenings in Brief

Y. M. C. A.

Y. M. has good Sunday afternoon service under the leadership of the Blue Ridge Committee. They expect this year's delegation to be Maryville's largest.

Y. W. C. A.

Y. W. girls have installation service after vespers. Many new girls were received into membership. The service was dignified and pretty.

Next Sunday the Y. W. meeting will be on the subject of church membership.

Band

The M. C. Band made the trip to Johnson City last Friday. A full account of their experience will be given next week.

Pi Kappa Delta

First meeting will be held Thursday evening, October 18, at 6:30 in Athenian hall. Program consist of Initiation of new members and the President's Inaugural address.

Athenian

Athenians have big meeting Saturday evening. The program was

(Continued on page four)

President of Class Of '23 Now at University of Penn.

CHARLES F. ELLIS

The Thing He Misses Most is School Spirit

It is just like Buck not to tell us a word about himself but we gather from scattered bits of news that he likes both the University and the little city Philadelphia. What he is taking is a mystery but it has been rumored that he is really studying which means that he is getting results.

Buck is anxious to hear about the rest of his class and he always reads the athletic write-ups in The Echo. The proper signal for his play is 3444 Chestnut St., Philadelphia, Pa.

J. LYNN McCLUNG

Miss McClung is Now Well Established Geography and Socially.

Well, J. Lynn has a "beau." Count on her to get one, though. Folks, she's established in Spencer, West Va., in a society town of about 4,000. She has a position as head of the English Department, teaching Junior and Senior English, and Freshmen History, but my! she's having the time of her life, socially—she admits it herself.

She spent the summer at home, taking a correspondence course, coaching a play, and teaching expression.

She likes teaching pretty well, but is mainly interested in coaching plays and her expression work.

We surely miss you, J. Lynn, especially when we start work on our Mid-Winters.

Not in The News

Wonder how many go back to the cave man instinct while on a mountain hike?

A former student in Cincinnati, received his Echo at 10:00 a. m.

(Continued on page four)

Many Responses Shows Loyalty to Class and To Maryville College

Practically all the Members of the Class of '23 Offer Information.

THIS ISSUE WAS MADE POSSIBLE ONLY BY THE EXISTING SPIRIT AMONG MARYVILLE GRADUATES. FORMER STUDENTS WHO RESPOND TO OUR MANY AND VARIED REQUESTS ARE DECIDEDLY IN THE MAJORITY. THEY NOT ONLY MAKE POSSIBLE MANY COLLEGE ACTIVITIES BUT THEY KEEP ALIVE THAT MARYVILLE SPIRIT AMONG THE ALUMNI AS WELL AS AMONG THE STUDENT BODY.

In this, the first attempt on the part of an Editor, to devote an issue of The Echo to the graduating class of the previous year, we have been agreeably surprised. The interest shown on the part of a big majority of the class was encouraging to say the least. To our surprise we found our sources of information varied and plentiful. To print all we have collected and all we would like to print would fill two papers the size of ours. So in offering you this issue permit us to yell: Onward, ever Onward, Loyal Maryvillians!

CLARENCE R. ANDERSON

Andy Has a School all By Himself

Principal Anderson of Slippery Rock High school. With that Aristocratic drawl, tells us in his letter that, aside from principaling the school, teaching the whole curriculum, and driving a horse and buggy, his little life is rounded by a sleep. We would tell you his salary only comparisons might be odious. We would like to hear him lead his flock in chapel exercises though.

G. LESLIE POE

Listening to Yells Instead of Leading Them.

Says: "I am assistant chief clerk of the accident department of the Providence Life and Accident Insurance Company in Chattanooga. I have a mighty good chance for advancement and think I'll stay with his company. I am getting fatter every day in every way and never felt better. I will never forget those glorious days spent at M. C. I wouldn't give them up for a half interest in Wall Street."

EUGENE W. STANBERRY.

Says, "Gone are Those Old Days of Moonshine and Bliss.

Gene has a whole laboratory all to himself in which he does the anlyzing for two tanneries and one extract plant of the Transylvania Tanning Company at Brevard, N. C. In his spare time he does a little advanced work. Quoting, "In the movies, or the Saturday Evening Post, the hero alays starts at the bottom and is soon president or something. Who can tell what may happen?"

HOWARD H. SULLINGER

One of Maryville's Own is Now a Successful Teacher and Coach.

Tubby has evolved from a football player to a high school professor. Besides teaching a handful of subjects, Tubby is burdened with the obligation of managing a chorus of fifty girls. As he is in duty to bound to take them out Sunday afternoons one at a time his hours are well filled. He predicts a winning basket ball team for his school. Despite his collection of fifty beauties we venture to read between his lines and suggest that he is a bit homesick for Maryville.

LAWRENCE T. CRAWFORD

Ici Couldn't Miss the U. T. Game and He Got His Moneys Worth

Mr. Crawford is now teaching and coaching at Hearn Academy, Cave Spring, Ga. No doubt Ici, who always moves slowly but with precision is developing a team that will do likewise. When it comes to teaching Math Ici becomes Mr. Crawford or Professor Crawford and he simply can't be beaten. Ici attended the U. T. game and plans to go to the Sewanee game. He is interested in M. C. more ways than one.

MARY E. CLEMENTS

Longs for the "Sunny South"

The winsome little Miss known as Mary Liz has taken up the pedagogy of English and Domestic Science in a consolidated high school at Selma, Iowa. Everything is alright except the weather and it seems to be a little too cold. We advise an Armstrong heater, Mary Liz. They always give satisfaction.

PLAIN WORK

For this issue of the paper we have received letters from a large number of last year's graduates. This class is scattered thruout the country and among a variety of occupations. However, when we read these letters we are struck by the fact that amid all this diversity of place and activity two facts are common to all the graduates of this class.

The one fact is that they are hard at work. These old students have become men and women sharing fully in the work of the world. Cuts and loafing on the campus have given place to work and lines on the forehead. Their memory of college laxity and softness has become an echo of things past in the reality of the industry hich constantly sounds in their ears.

The other fact is that they all recall old Maryville with an increasing love and loyalty. No matter how far away or in what institution every one of these old students expresses a sigh and a regret for leaving Maryville. For them the small inconveniences have been lost in the perspective and Maryville has truly become dear old Maryville, the scene of happy days! Let us who are still here learn from them to appreciate to the fullest extent our days on College Hill and our purpose to enter the world prepared to share in the world's work.

CLASS LOYALTY

Why is it that only fifty out of a freshman class of two hundred-fifty respond to a call for a class meeting? In a big student body with various activities and interests we realize that some cannot always be present but when it is repeatedly impossible to get a majority something besides other activities and interests intervenes. It is obvious that class loyaly among freshman is conspicious only by its utter absence.

But why speak only of the freshman class? The same is true to a great extent of the sophomore class and indeed even junior classes have been known to elect officers and carry on business with only a minority present.

Seniors, alas, it is too late for discussion. If the student has not learned loyalty before he becomes a senior the chances are ten to one he never will. In our dealings with seniors and graduates we are pleased to find that a big maiority are loyal but at the same time it is nothing short of painful to find even a small minority who lack this noble quality.

We do not offer a solution. We do not believe in class clashes or fights. But wouldn't it be a fine thing if sensible class activities could be used to develop that fine sense of loyalty to one's class? This done, loyalty to the institution follows as naturally as day follows night.

AROUND THE CORNER FROM PROFFITT'S

CATHERINE WILSON

How Cou'd Miss Wilson's School Be Other Than Alive?

Catherine Wilson writes: "Though my job itself is not at all unique or novel, it is, to me, both interesting and new. I teach two classes of English, two of Spanish, one of

Physiology, and two of Home Economics. Carter High school is in a wide-awake community.

The class of '23 is well represented in Knox county this year. We have a happy time when we all come together for our teachers' meetings. Though we are away from Maryville we are unceasingly rooting for her."

LILAH HEMBREE.

Lilah Still Visits the Hill Occasionally.

Lilah Hembree was a loyal rooter at the recent Maryville Milligan game, and a royal hostess at the banquet for our boys, after the game.

She is teaching Biology in the High school at Johnson City, and likes it very much. She is planning to go to the University of Virginia next summer.

Teachers should not plan too far ahead, for other people plan, too.

RUTH ALLEN

Ruth Has Discovered a Town That Needs More Life

Miss Allen, we are happy to affirm, is still the same dear girl she was at Maryville. She is teaching school and she tells us she is crazy about her boys. Our inference that the boys reciprocate is no doubt correct. Ruth says that in her school town strawberry vines are substituted for soda fountains and corn fields for movies.

WINONA W. JOHNSTON

As Per Usual Winona is Running Everything in School

Miss Johnston insisted that Clearwater is the best place in Florida, and she expects all the class of '23 to spend their money there. Aside with her regular work Winona is teaching Chemistry, History and coaching girls basketball in Clearwater high school.

In other activities around Clearwater she acts as advisor. Miss Johnston says: "Regardless of promotions or wherever we may be fond memory turns to thee—Our Alma Mater, Dear Old Maryville.'"

RALPH A. ARMSTRONG

Studying, Teaching and Preaching Are Synonyms for Army.

Ralph's only weaknesses are reading The Echo and indulging in dreamy reminiscences of M. C. and—Handicapped thusly he is only carrying a regular course at Lane Seminary and serving as official chaplin at the Deaconess Hospital in Cincinnati. Here he preaches once a week and conducts a Bible Study class for the nurses.

Jas. B. Hedge, Jr., Owner

MARY McSPADDEN

Staill Bears the Title of Queen of The May."

"Uneasy lies the head that ewars a crown," but above you behold the bewitching photograph of an exception to the rule. Mary is scattering sunshine and gladness among the boys and girls of the East Tennessee Hills in the role of a teacher at Washington College.. How fortunate they were in securing her to teach them General Science, Biology, Chemistry, and we're surprised, but she says, a class in Bible.

Characteristically Merrimac says: "I like it fine and since I'm not at M. C. I'm glad I'm here."

ETHEL SWINDLER.

Better to be a Maryville Fossil Than Any Other Kind.

It surely looks good to see Ethel's smiling face on the campus every once in a while. She says Mrs. Minton calls her a Maryville "fossil." Well and good, if we are fortunate enough to secure several other relics of the class of '23, we'll do our part and erect a museum.

Ethel is teaching at Friendsville now, but don't get the idea that she's a "stay at home." Quite the contrary—she spent her summer parading the streets of our National Capitol, visiting Mt. Vernon and Arlington, inspecting zoos and museums and exploring the Capitol and Congressional Library. Yes, we agree, it must have been a glorious vacation.

HERRICK R. ARNOLD

Bill is Playing Around With Chemical Compounds.

Mr. Arnold is now passing his time away at Lafayette where he has a fellowship in the Chemical department.

Bill spent his vacation improving things around the campus and the results are noticeable to say the least. He plans to visit us about Christmas time because his people live in Maryville. Of course we will be glad to see him and to know that he is getting aong good. We wonder if Bill will debate for Lafayette. If so Lafayette gets a decision.

R. A. N. WILSON

Mr. Wilson Now Sojourns at Princeton Seminary.

He informs us that the study of Hebrew and Homiletics is not so delightful as kidding around the campus with Freshmen flappers. R. A. N. who was president of our Student Council last year complains that at Princeton they don't need such an organization because they already have lights all night, hot water and no Co-eds.

MARY McSPADDEN

Still Bears the Title of Queen of The May."

"Uneasy lies the head that wears a crown," but above you all the bewitching photograph of an exception to the rule. Mary is scattering sunshine and gladness among the boys and girls of the East Tennessee Hills, in the role of a teacher at Washington College. How fortunate they were in securing her to teach them General Science, Biology, Chemistry, and we're surprised, but she says, a class in Bible.

Characteristicaly Merriance says: "I like it fine and since I'm not at M. C. I'm glad I'm here."

HILDA SIMERLY.

A Teacher and Traveler.

Hilda had a great time this summer. She visited relatives in Illinois, and then motored home through the mountains of Kentucky and Tennessee.

She's teaching in the Reily Township Consolidated school in Butler county, Ohio. Of course she's very successful as a teacher, and likes the work.

She doesn't feel entirely "out in the wide, wide world," because two other Maryville '23's are teaching in the same county, Johnnie Trotter and Grace McNutt.

PORTER H. TURNER

Strayed From the Pedagogical Pathway.

Strangely enough Porter is assistant secretary in the Boy's Department of the Toledo Y. M. C. A. He has charge of Junior High school boys and their Y. activities and some athletics, as at present, football. We are sure of your capability, Porter, but wouldn't you be better satisfied in Y. W. work?

MARY RIDGEWAY

Mary Still Likes Tennessee and Kentucky

Mary Ridgeway is teaching Latin and French in the Sweetwater High school, and likes it fine. She had several splendid positions offered her in Oklahoma but they ere too far away from Tennessee and Kentucky and other various points of extreme interest for her.

LILLIS HUFFMAN

Says, "The Easiest Way to a Man's Heart is Thru His Stomach."

Lillis has taken charge of the Domestic Arts department of Tennessee Polytechnic Institute. She attended the Peabody Summer school last summer to secure an additional qualification in her chosen profession. She has some college work and some prep work but likes the college work best. We could understand why if she were teaching anything besides Home Economics.

AUGUST L. JOHNSTON

True to His Name is Really "Hot."

This enterprising young lad is pursuing his studies in the Southern College of Y. M. C. A. at Nashville. The long hard lessons are about to capture his goat and besides—well, Dollie is still at Maryville. As yet, he is not the manager of their lyceum course or the agent for the laundry but nevertheless he says he is quite happy.

Now that you are settled down to business and are looking for the best place to trade, we ask you to give us a trial. Drugs, Toilet Articles, Candy and Sodas. Come to see us next and you will be a customer.

MABEL BAKER.

We have never forgotten Mabel Baker with her clear, dark eyes, and straight-forward manner. As usual, she is able to speak for herself.

Miss Baker is at present residing at Tazewell, Tenn.., and teaching English in the Claiborne County High school, five periods every day and Mediaeval Modern History one period. In addition to her regular class room work, she keeps Study Hall twice a day, leads chapel once a week, and gives the girls gymnasium exercises twice a week.

We are sure that Mabel is very successful as a teacher, as she would be successful in any line of work she entered.

DOROTHY HERON

Dorothy is Living an Ideal Life Now

Dorothy Heron says: "I used to think I might teach school this year, but when it came to a showdwon, I just couldn't leave Maryville. So I'm still here at home, and expect to be, all this year. It's great to be here and see everyone back and yet not have to study or attend class."

IRMA GAMBLE

Maryville Is The Best Place Anyhow

To us it seems that Irma is living the life of Riley around here, with that nice car of hers. Of course she attends all foot ball games and reads the Echo, but at this her labors end, seemingly.

Miss Gamble has plans for the future but we were unable to get them.

EMERY C. FRITZ.

Emery is Taking Work at Two Institutions and Preaching at Two Churches.

In addition to the required subjects at Lane Theological Seminary Mr. Fritz is carrying a course in 17th Century Poetry at the University of Cincinnati. Being enrolled there as a candidate for the degree of M. A.

This work not requiring all his time he is serving two Presbyterian churches as minister, one at Crittenden and the other at Crescent Springs, Ky.

In making remittances address Lane Seminary, Cincinnati, Ohio.

ANDREW JANOVICZKY

Teaching and Coaching is Mere Fun to Jan.

Janny is running a school in Louisa, Kentucky. He teaches mathematics for a pastime and runs the football team of the school as a matter of hard work. Janny told the Board they needed a new gym before he could turn out a championship basketball team. They therefore build and we are looking for a clean-up team developed by Coach Janovinczky.

JOHN C. GARNER.

John is Trying to Satisfy That Desire to Travel.

We have at hand a letter from J. W. Garner telling of John's travels through the West and stating that when last heard from he was in Groveland, Calif.

MARYVILLE CLAIMS FOUR OF THE CLASS OF '23

Misses Annarine Atkins, Elizabeth Bassel, Lenna Bowers and Mr. Clyde Wilson represent the class of '23 here on the Hill. Already they are, to a large extent, institutions and we wonder if it would be possible to get along without them or with others in their places. Each has his individual place and work here and are they making good? Well if any member of the class of '23 is failing to make good we haven't heard about it.

ROY S. BUFFATT

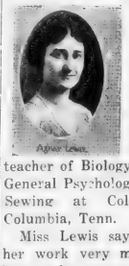
Roy is Now One of the M. C. Group at Princeton

After spending the summer at home where he did everything from keep house to preach, Roy journeyed to Princeton to assume his graduate work. During the summer Roy

preached at about five different churches besides doing an immense amount of real labor. So at Princeton he is just going ahead with what he has always been used too—hard work.

We communicate with him by the following formula, 46 Brown Hall, Princeton Seminary, Princeton, N. J.

HENRY C. COX.



Henry is Locking for Things Other Than Nature, the Moon and Stars to Love.

We have not heard from Mr. Cox since he went his way up to DeLand, Ill., to teach those chaps some of that wisdom which he acquired at Maryville. Henry still has a mania for searching in the alcoves of libraries and really intends to make that his life work. He plans to stay three years in Illinois, one as a teacher and two at the State University.

AGNES LEWIS

Agnes Can Hardly Wait For The Maryville-Sewance Game.

Speaking of a loyal Maryville daughter, Miss Lewis is that and more. When they wrote to her about the athletic fund she wanted to buy the entire field.

Agnes Lewis

After spending the summer at Camp Alanita Miss Lewis took up her duties as teacher of Biology, Child Psychology General Psychology and Cooking and Sewing at Columbia Institute, Columbia, Tenn.

Miss Lewis says that she likes her work very much but she does hate to be matron or chaperone..

LORENE SMITH

Lorene Has the Very Latest in Spanish Grammars.

Lorene says there's little to tell about herself, but after reading a list of her duties, we're ready to say she's doing more than we'd care to attempt.

She's teaching Spanish, English Shorthand and Typewriting in the Dawson Springs, (Ky)., High school and Literature, American History and Geography to the eighth grade which is a part of the Junior High school.

She says they may be up in the mountains, but they are ahead of Maryville College when he comes to Spanish Grammars. We know Lorene is making good, even if she is teaching a heavy course of studies, and we're proud of her.

MARY HAMILTON

Mary is Just as Successful at Teaching as at Other Things

Miss Hamilton is doing her stuff for a fifth grade in Hartford, Arkansas. When basketball season comes Mary will coach her co-eds to shoot baskets. No doubt she teaches successfully and somehow we think she is perhaps best fitted to handle History classes. But that is another story.

RUTH NEWTON

Ruth Doesn't Like Being a Former Student.

Ruth Newton is teaching English in Kingston High School, seven miles from her own home-town, Harriman. Teaching and coaching basket ball and riding the bus every morning and every afternoon keeps Ruth very busy.

"How I envy the folks back on the Hill this year. I don't like being one of the former students nearly so well as being a real member of the student body."

VIRGIL C. McLUNG

Strange to Say, is Learning Something New.

Mac is principal of the Flemingsburg, (Ky.) High school and incidentally coaches the boy's athletics and the girl's moonshining. He says that Flemingsburg reminds him of Rome only there are more than seven hills. In his own words, "Teaching is great, coaching greater, but there Kentucky nights greater, still."

GERALDINE ODELL

Miss Odell is Still Interested in Maryville.

Along with the rest of the class Miss Odell has entered the pedagogical profession. She is teaching Mathematics and Literature are set forth by Geraldine for the benefit of the younger set at Warrior, Ala. Miss Odell refers to Maryville with a real longing in her pen and recalls fondly the cedars and old Pearsons.

ETHEL DeHAVEN

Still Systamatic and Logical

Ethel's write-up must be outlined of course.

I. She is in Erie, Pennslyvania, not very far from Lake Erie.

II. She is teaching English and French in a consolidated school. There are about three hundred and fifty pupils, and eleven teachers, there.

III. She leads Chapel, advises class presidents, counsels literary society committees, and drills a gym. class

IV. She wouldn't change jobs with anyone.

STELLA TAYLOR

Miss Taylor Discovers a New Talent.

Stella Taylor is a mighty little girl to be standing up under work as heavy as she describes. I'll say she's very "muchly" at work. She is in Madisonville, Tenn., teaching three Literature classes, American history, French and Latin. Some people have queer ideas. She says she enjoys every minute of it—except the discipline! (Can't you just see her laying down the law?)

Besides her class work she's playing football. Oh, not literally, of course, but who says the teachers don't work as well as the team? We shall never cease to regret that M. C. did not discover her talent in making "Pep" speeches before she left us—but didn't you, yourself, discover it, Stella?

NOT IN THE NEWS

(Continued from page one)

Thursday. The writer, in Carnegie, received his at 5:30 p. m., same day. System.

Boys, take a tip and make a date for the 27th.

Cheer-up. What is distance when you have system?

Imagine R. A. N. getting Greek in his sleep

Judging from the smile on Dolly's face August is well.

Boys, Lillis seems to be well versed in the culinary arts.

What if Lucile knew about Army's classes for nurses?

By request of Mr. Stanberry we will render as our next number, "Who'll take the place of Mary?"

Fritz made the Homiletics team at Lane without trouble.

Atta Boy

Brother (Bob) King receives news from Maryville daily.

Florence K. in keeping with M. C. habits still goes to breakfast without washing her face.

Boys, want to win a permanent place in that girls heart? Make a date for the 27th.

Buck's advice to the Echo staff: "Cheer up the worst is yet to come."

If there is anything that get's Winona's goat it's postscripts on letters.

Mary Mac. says the little boys bring her apples. We guess it's the same old story of woman and an apple.

Poe proves that G. Stanley was right when he said, "Man is only in the tadpole stage of his development."

Virgil Choice says: "A young and handsome principal leads a hard life among his fair students." Wonder who he's talking about?

T. J. says he's so hard boiled in the class room that not even Nina Lou could make him **grin**.

All special friends may get their Echo two days after it's printed.

All ordinary folks who have merely paid their dollar, will have to wait until it **Comes Out**.

Catherine Wilson does not know whether teaching is the offensive or defensive side of school life.

"Strangers in a strange land." No, not the class of '27, but the one of '23.

Agnes Lewis says that Theism is easy, compared to teaching, and that teaching is easy, compared to being a matron.

Sarah Witherington's hair is just as short as, just as short as, just as short as—

Ruth Newton: "School teaching is no 'cinch'—I tell you."

ROBERT L. KING

Bob is Now a Successful Teacher and Coach

Brother King preached during the summer at Sparta, Tenn., where he filled his office with becoming dignity until his physical condition required rest, then he went to Normandy where he had a great time doing everything that goes with a vacation.

Mr. King is now at Clearwater, Fla. teaching and coaching. He has done more than just attach to his name the title of Prof. and Coach. He has introduced a spirit, possibly, the M. C. spirit.

RUTH GAMBLE.

Miss Gamble is Seeing New York and Incidentally Studying Education.

Ruth is enrolled in the School of Education, Teachers' College, Columbia University. She is working for the M. A. degree of the lower primary field of education, and is studying music at odd times. At other odd times she takes little walks on sight-seeing expeditions over the town.

LOUISE SHEDDAN.

Louise For a Change is Not Teaching.

Miss Sheddan departed from the popular profession of teaching to become a nurse or a probationer at John Hopkins Hospital. Louise expresses a lasting desire for studying in Baltimore which has been her goal for some time. She, however, has not forgotten her Alma Mater, but recalls her senior days at Maryville with a sigh.

"The Best Place to Trade"

ROY A McCALL.

The Best News Roy Has Had Was the Score of the U. T. Game.

Roy is not only a true Maryvillian but he is a native son of Maryville and is particularly noted for his last year with us. Since he graduated here he secured a job of teaching only 31 hours per week and coaching at Somerset, Ky.

Roy is connected with a school where athletics count for a whole lot. He is not only connected with that school but he is making good there.

LUCILE CAMPBELL

It Is Great To Be Interested in Home Life

Lucile Campbell is at her home in Calderwood. After Christmas she will be at Maryville again, taking postgraduate work. She says of herself: "What I do isn't very interesting to anyone except me. I am staying at home—cooking and keeping house and swimming and trying to keep Robin Hood, our Persian cat, from fighting the tramp dog I want to adopt. He is a good dog, though he isn't very handsome."

The Candy Kitchen—
For Candies

The Candy Kitchen—

ALICE McANULTY.

Remains in the Windy City.

The Chicago blonde is a graduate student in Northwestern University and incidentally keeps house for her father. We suppose she must leave sometime. She is minus her tonsils but all the rest of her being longs for Maryville, and———, well Dewey, writes to her at 3940 Rokeby St., Chicago.

REVA RANKIN

Reva is Disappointed Because She Can't Teach and Run the School, Too

"I have been at Martha Washington College, Abingdon, Virginia, since the first of August, acting as secretary to President Curtis. I fully intended teaching English in the Maryville High School, but, as is a woman's privilege, I changed my mind. When Professor Curtis, under whom I was to teach, was elected to the Presidency of Martha Washington College, I was offered this position, and I accepted it. I enjoy my work very much.

"If Maryville girls should play Martha in basket ball, I'll be for Maryville every time."

Mitchell's DRUG STORE

The Drug Store that back the students with M. C. "Pep." We're with boys and girls.

Come in to see us, we'll treat you right.

FLORENCE E. KLEINHENN

Floss Misses the M. C.Courses in Campustry.

As many know Miss Kleinhenn had planed to go to the Philippine Islands to teach the little Filipinos dignity, respect for authority, etc., but because of the poor health of her father she has been kept at home. She is now teaching in the high school at Springboro, one mile from her home, Franklin, Ohio.

A. W. O. L's.

Following are the names of a few members of the class of '23 whom we were unable to hear from up to time to go to press. We presume that they are just as busy as, and more so than, the other members of the class therefore they couldn't write. Letters sent to some of the address given have been returned but we are unable to give another.

Katyleen Alexander, Louisville, Miss.

Robert Dedmon, Somerset, Ky.

Roland Elzey, Seaford, Del.

Louise Farrar, Hammonton, N. J.

Margaret Graham, New Market, Tenn.

Benjamin Houston, Knoxville, Tenn., R. 9.

James L. Jackson, 1115 Princeton, Birmingham, Ala.

Grace McNutt, Reily, Ohio.

J. A. Milling, Duck Hill, Miss., (now in Hawaii.)

Clarabel Smith, Concord, Tenn.

Agnes Thompson, (Mrs. Murphy) Tarkio, Mo.

Jonnie Trotter, Reily, Ohio.

J. D. Warrick, Washington College Tenn.

J. Roscoe Watkins, Loudon, Tenn. (at Vanderbilt.)

The Candy Kitchen—
For Sodas

DECATUR F. WADDELL

Mr. Waddell Won't Reveal His Plans; Must Be Going to Get Married

Decatur is now working with his father on their farm a few miles from Greeneville, Tenn. He is doing his bit for the world by producing corn, wheat and tobacco, the latter being the big crop in his county.

Waddell spends his spare time searching newspapers for write-ups about the M. C. football team.

HAPPENINGS IN BRIEF

(Continued from page one)

good and many new members were taken in. Particulars will be given next week.

Alpha Sigma

This society had another big meeting Saturday evening. Owing to special music and numbers on the program every one received two hours of worth while entertainment.

Bainonian

In keeping with her traditions and her elaborate plans Bainonian Society presented an exceptionally good program Saturday evening. This was Bainonian's first opportunity to hold a meeting but he will very readily overcome any handicaps and take her place in real literary society work on the Hill.

MAYME WILLIAMS.

Miss Williams has Developed Into an Ideal Teacher.

Mayme has been close to home for a long time, but now she's striking out for herself in earnest. She's teaching in Jonesboro, Ark., and she likes it fine. It is her special duty to pound French and English into the heads of the Arkansas youth, and we know she's able to do it. Her tall figure must be very impressive and it's a safe bet that her serious face has invited many a slothful youngster to forget his pranks and "buckle down."

We know Mamie is an ideal teacher. Just keep them fooled with that "I mean business." We promise never to tell 'em the difference.

SARAH WITHERINGTON

Yes, Sarah is Still Reigning Supreme

Sarah was one of the last of the class of '23 to leave Maryville last June. Who would have thought that such a little Senior would become a dignified schoolma'am? Nevertheless she is reigning supreme at the head of the Department of Home Economics and History in the High school of her own home town, Munford.

As a side line she takes in all the U. T. Medical School football games. There are four Maryville boys on that team, so she is still rooting for and believing in Maryville.

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME NINE | MARYVILLE, TENNESSEE, OCTOBER 24, 1923 | NUMBER SEVEN

Highlanders Drop Their First Game Saturday

Maryville Men Fight to the End; Wildcats Have Heavier Team

Score Does Not Show Comparative Strength of The Two Machines

OUTWEIGHED BUT NOT OUTFOUGHT, THE ORANGE AND GARNET OF MARYVILLE GAVE WAY TO THE BLUE AND WHITE OF OLD KENTUCKY IN A BITTERLY CONTESTED BATTLE AT LEXINGTON SATURDAY. DESPITE THE APPARENT SUPERIORITY OF THE BLUE GRASS AGGREGATION, DUE TO THE 28-0 SCORE, THERE WAS REALLY LITTLE TO CHOOSE BETWEEN THE STRENGTHS OF THE TWO TEAMS. THE ENTIRE GAME WAS MARKED BY A POWERFUL OFFENSIVE ATTACK BY BOTH ELEVENS, THE WILDCATS GAINING ONLY A SHADE MORE GROUND THAN THE DAUNTLESS TENNESSEANS.

Obviously conscious of the way in which U. T. swept the Highlanders from their feet in the first few minutes of the game in the Shields-Watkins Stadium, the Kentuckians presented a formidable attack in the early minutes of the fray and before Maryville could recover, a touchdown had been garnered and a goal kick recorded.

The Highlanders now fully aware of their danger started to fight their way down the field and first down after first down was gained. On two occasions the Honakerites threatened the Blue and White goal line but both efforts were thwarted by the massive Wildcat team, which outweighed M. C. fourteen pounds to a man.

Fumbling Mars Quarter

The ponderous Lexington aggregation showed its most brilliant form in the second quarter, with Kirwan, the 185-pound quarterback, and Sanders, the hefty Blue and White fullback, circling the Highlanders for long, disastrous runs. Constant fumbling marred the otherwise impressive play of the University players during this quarter, and after recovering the ball late in this division Maryville launched an ill-fated aerial attack, one of the passes being intercepted by Kirwan who dashed thirty-five yards for the second touchdown.

Carried Ball Over the Line

The rest between the halves did the Orange and Garnet warriors a world of good, for in the third quarter the Kentuckians were decisively outplayed by the visitors. Stoll Field rocked with pleas to hold them back as the plucky Highland band marched down the field using a nicely selected variety of spread formations and forward passes. On, on, on the Maryville gridders pressed until the one-foot line of Kentucky was reached, but with three downs to take the ball across the referee ruled that M. C. had lost the oval. But the entire Maryville eleven knows that the ball was carried over the line by McMurray before being swept back by rival avoirdupois. The umpire and referee, disregarding the rule that the ball stops at the point of farthest advancement, declared it had not been taken across. After the fray, Assistant Coach Kendrick of Center College informed Coach Honaker that the oval was over the coveted line by at least two feet. Despite the disappointment the Maryvillians continued their furious style of play.

The fourth quarter once more saw the mammoth Kirwan, assisted by Tracy and Hughes, turning the Tennessee ends and ripping huge gaps in the tenacious Maryville line, which was grudgingly yielding to superior brawn. Inch by inch the Highlanders were rolled down the field and when the quarter ended two more touchdowns had been placed against them, the final tally being Kentucky, 28; Maryville, 0.

Maryville Compares Favorably.

Coach Honaker declares that despite the over abundance of weight which aided the Kentuckians Maryville compares favorably with the University eleven, demonstrating, in fact, more knowledge of real football than the Blue Grass combination, which, although big, heavy and driving was unable to solve any Highland trick plays.

GAME STATISTICS

- First downs: Kentucky, 23; Maryville, 9.
- Held for downs: Kentucky, 2; Maryville, 5.
- Forward passes attempted: Kentucky, 9; Maryville, 10.
- Forward passes completed: Kentucky, 4; Maryville, 5.
- Forward passes not completed: Kentucky, 5; Maryville, 4.
- Forward passes intercepted: Kentucky, 1; Maryville, 0.
- Fumbles: Kentucky, 4; Maryville, 2.
- Fumbles recovered: Kentucky, 2; Maryville, 1.
- Penalties (yards): Kentucky, 45; Maryville, 25.
- Punts (average distance): Kentucky, 33 3-4 yards; Maryville, 34 5-6.

The teams lined up as follows:

Maryville		Kentucky
Williams	RE	King
Thrower (c)	RT	Russell
Schmidt	RG	Cammack
Clemens	C	Stevenson
Baldwin	LG	Martin
Hamilton	LT	Ramsey
Cartwright	LE	Rice
Riskey	Q	Kirwan
McMurray	RH	Tracy
Sneed	LH	Hughes
Hurst	F	Sanders

	1	2	3	4	
Kentucky	7	7	0	14	28
Maryville	0	0	0	0	0

The subjects for the Bates Prize Oratorical Contest for 1924 are as follows:

Africa and the Future.

The Enforcement of the Law.

The Americanization of the Foreigner.

The Challenge of the Rural Community.

Woman's Place in Politics.

Woman and the Higher Education.

The contest this year is for the girls of the Senior and Junior Classes.

Riskey Plans Big Program of Secondary Sports

BEST ATHLETIC PROGRAM Y. M. HAS EVER HAD

Chairman Earl N. Riskey Presides—Presents Plans and Speakers

Plans for a program of athletics for everyone were laid at an informal Y. banquet last week. Earl Riskey, acting under the direction of the Y. selected men to manage all forms of exercise and games on the campus. Secondary athletics are to supplement varsity teams in the life of the college.

Class football is now being played and a tennis tournament already completed. Extensive plans for a marathon run on Thanksgiving have been placed in the hands of Brown. Under the direction of Schmidt the swimming pool is to be used to a greater extent to develop good swimmers and fancy divers. Volley ball, wrestling, boxing and plenty of basketball will soon be open to all students to exercise.

As was pointed out at the banquet every fellow should take advantage of one of these forms of athletics, and work with the men directing the athletic program for a better Maryville and more athletics.

Coaches Honaker and Bond both heartily approved the plans for Secondary athletics in their speeches and promised to back up all work along this line.

THE MARATHON RUN

which is to take place on Thanksgiving Day will be one of the biggest athletic events ever staged at Maryville.

It is estimated that about forty runners will start the race at Alcoa, the finish of which will take place in front of the grandstands just before the Cumberland-Maryville game.

Any student of the College or Prep department is eligible for the run, provided he is entered before Tuesday, November 22nd. Entries will be received by Shimmy Brown, chairman of track activities.

Prizes will be awarded to the first twelve contestants who finish. A list of the prizes will be printed later.

This event is under the auspices of the Y. M. C. A. and it is hoped that this can be made an annual event.

All Literary Societies Give Very Successful Programs

ALPHA SIGMA

Alpha Sigma Presents Varied and Interesting Program Saturday Evening

Attended by a small, but enthusiastic portion of its membership Alpha Sigma held its weekly meeting last Saturday night. The attendance was somewhat curtailed by the Y. M. C. A. hike, but the program was of the usual high order.

Mr. Mason Morrow started the thing off with a perfect rendition on the mandolin, of "Rose Dreams" and "Love's Ship," He was followed on the program by Mr. Eitner who sang, "Little Mother of Mine, and "Out Where the West Begins". After the vigorous applause had sufficiently subsided we launched into the intricacies of a debate on the adoption of the metoric system by the United States. The affirmative was upheld by Mr. Clinton Puff and the negative by Mr. Arthur Kinsler. World topics were then presented to us in concise and interesting form by Mr. Wilson McTeer. Othel Armstrong offered the concluding number, which was in the form of an address on "Women I Have Known". Needless to say the presentation was unique and enjoyable.

All out for Alpha Sigma—You old birds whose names are on the roll and you've forgotten what the hall looks like. We need you and your support. You need us and our support. Let's satisfy that need.

BAINONIAN

PROGRAM OFFERED AT FIRST MEETING

Was One of the Most Interesting and Attractive Ever Presented On the Hill

Bainonian opened its doors on Saturday evening, October 13, and presented one of the most interest-

(Continued on page three)

THETA EPSILON

THETAS RECALL FORMER SCHOOL DAYS

In An Entertaining Program Saturday Evening

Theta Epsilon met in Theta Hall Saturday night at 7:15 with a large number present.

The meeting was called to order by Mary Lilly Sossoman who presided Sarah Kiskadden led in prayer. After the roll was called the minutes of the last meeting were read. Two old members, Mrs. Kenneth Martin and Miss Frieda Mylins, were present and made talks which were full of old Theta Spirit. The program for the evening consisted of a scene in a school room with Evelyn Fitts as the teacher and Mary Robinson as school director. We were reminded of the days when we chewed gum, pulled hair and had to sit on the "Dunce Stool." The costumes, songs, and readings were outstanding features of the program.

Many names of new girls were presented, and each one was given a hearty welcome.

Let's every one come out to the next program.

ATHENIAN

NEW MEMBERS OF ATHENIAN PUT ON GOOD PROGRAM

The Athenian Hall was crowded Saturday night to hear the new members launch a program. Needless to say that they did it up in good order.

Anyone that has any musical ear at all can enjoy music from a string instrument. Therefore you ought to have enjoyed that musical number by Mr. Oliver and Mr. Merwin. We are glad to know that there is such talent on the Hill. That Elmer Douglass is some "bird" he is,. Somebody had better watch out or they will have their minds read, and there will be some gossip going that you

(Continued on page three)

The College Follies Will Be an Unusual Program

Friday Night Program Will be One of Quality and Frivolity.

ON FRIDAY NIGHT, IN VOORHEES CHAPEL, AT EIGHT O'CLOCK, THE COLLEGE FOLLIES WILL BE GIVEN. FOR VARIETY OF PERFORMANCE AND QUALITY OF PRODUCTION THE PROGRAM WILL STAND ALONE THRUOUT THE YEAR.

Not only will intelligent professors interpret faithfully that banana song, but athletes will perform like Houdini and musicians will play like Rachmaninoff, and so forth. A one act comedy, featuring the program will bring down the house with laughter.

The proceeds of this show will be used for the cause of debate at Maryville. We have extensive plans for a trip to the National Convention of P. K. D. but this takes money. Let's back the school and be there.

COLLEGE FOOLIES
(Pi Kappa Delta

A program brim full of mirth and merriment, joy and jollity.

I. The Tumblers.
II. Gypsy Moon.
III. Faculty quartette.
IV. Dumb-Lights.
V. A Bit of Scotch.
VI. A Chinaman's Dream.
VII. Black Magic.
VIII. Harmony IV.
IX. Apple Sauce.
X. Two Slatterns and a King.

Journalists are like little dogs; whenever anything stirs they immediately begin to bark.—Schopenhauer.

A CLOSE MARGIN

In a special to the Nashville Banner U. T. reported victory over the strong Maryville eleven by a close margin. We admire honesty in anyone, especially in a large university when it holds a better team from a small school to a 14-14 tie. Their victory was in escaping with a tie score. And, "by a close margn" is good, when it was 6 feet at one time and 7 feet at another that saved them from a 14-21 defeat. Such honest candor is noteworthy, especially the "by a close margin" stuff, which was measured by Maryville's closeness to U. T's goal—6 feet when the game closed, which leads to a reflection. Maryville, a small college, now finds herself in a class with the leading Universities of the South having a football team able to hold her own on any gridiron, even tho she does lose by a close margin in a 14-14 tie with the State University.

While the score of Saturday's game with Kentucky State did not look so good, there is a lot to be said. Their coach told Honaker we crossed the goal for a touchdown but were shoved back unfairly. In the third quarter we marched up the field and outplayed Kentucky.

Pehaps a 21-7 score would indicate the relative strength of the two teams, and Kentucky State looms as the most probable champion of the South.

FIELD DAY

Friday is "Clean up Day." We are all looking forward to it, and will take just pride in making College Hill look its best. We'll be tired to death, and sore and stiff, but why worry? Aren't we all more than glad to have our campus beautiful? And then—after it's all over—after we have heard our work praised and commended—after we have received our reward—will we remember to keep our campus at its best? There are lots of things we are guilty of that destroy the beauty of our Hill and one of these is the disregarding of the walks in our frantic haste to get to class on time! The grass around our main building has been worn off in this way, leaving a decidedly bare effect. Ample time for reaching classes is allowed between periods—but special arrangements can probably be made if the students cannot arrive in time without using that familiar axiom "a straight line is the shortest path between two poins." Walk on the walks that's what they were made for.

Let us not only clean up but keep cleaned up.

A CHALLENGE TO FRESHMEN

Did all you Freshmen read that editorial in the Echo last week? We did, and were heartily ashamed. That article stands out as a challenge to every Freshman, a challenge to his class loyalty and to his loyalty to M. C.

Shall we let that record stand?

The fact that we have not yet been able to get enough students out to class meeting to elect Student Council Representatives is a blot on the record of our class. It appears that we are indifferent, willing to let the other fellow do it, which would not be so bad but for the fact that by failing to attend these class meetings, we are taking away from those who do attend, the privilege of electing representatives.

We have all the pep in the world but it amounts to nothing without loyalty.

Let's get together and elect our Student Council representatives, pay our dues promptly, and all get out to the class football games These things are strong factors in class loyalty, and in being loyal to our class, we will be loyal to old M. C.

FROM THE DIARY OF SAMUEL PEPY'S:

October the 19th a very nice day. Went, in the evening to a meeting of the ancient and honorable order of Pi Kappa Delta—the first meeting of the year. Saw there many of my old cronies. Such a nice and lady-like meeting it was, with none of the rude boisterousness and loud talking which attends most modern assemblies. There too, none of that commodity, which is by the vulgar called pep—the which is so distasteful to conservative gentle-folks. Would not have been ashamed to take my old grand-mother to that meeting. I dare say she would have thot herself back in the days of her youth such was the conduct of the young men and women. Listened to an address by our worthy president the some of which could be understood. Observed all the members, how the young women did seat themselves upon one side of the room, the young men on the other. Joined in the discussion of two or one more or less trifling matters in the which the young women wisely kept silent. Also they spoke when they were spoken to, and at other times were quiet—which trait is very remarkable in the women of these days and times. Did note how Music and Robt. did sit in the rear of the hall, the former making the motion to adjourn. So home and to bed.

SPECIAL RECEIPE PREPARED FOR M. C. BY NOTED DITICIAN

Pearson Special

Hash is commosed of a comglomaration of goolasl and loblollygast. The goolasl is the sauce or liquid and the lablollygast is the foundation of the famous disk served 180 times yearly.

Goolast

89 parts H20.
1 part salt.
1 part pepper
3 part garlic juice
2 parts lard
2 parts movedyhead
2 parts are left over granis.

Lobblellygast

79 parts potatoes.
1 part Tuesday hash.
2 parts Wednesday hash.
3 parts Thursday hash.
4 parts Friday hash.
5 parts Saturday hash.
2 parts imagmation.
1 part Macaroni and cheese.
2 parts mixed preserves.
½ part left over pickles.
3 parts cereal (Oatmeal.)
All rotten apples and bananas.

Cook goolasc and loblallygast together after each has set for two weeks for fermentation. Simmer one week to drive off all co2 gas. Boil rapidly until the consistency of a raw oyster run over by a fast moving truck. Set off to cook. Chill serve in thick dishes.

CHATTANOOGA CLUB ORGANIZES

Oh, listen! Let me tell you all about the Chattanooga Club. The first two or three weeks of school the old members kept their eyes open for the prospective members for the club At last, to their great surprise eleven new members were found. On October the third, Dot Stivers the old president, last year's president, I should say, called a meeting in Miss Heron's room at twelve ten. The purpose of this meeting was the welcome the new members and to elect officers. Dot Dickerson was elected unanimously as the leader for the ensuing year. We are all so glad because she is so peppy and sweet. Gladys Marshall, one of the new members, was elected by acclamation, as vice president to assist Dot. Ole Bob Wood is our secretary and treasurer. We hope he won't be burdened with the accounts of the club. Glenda Adams was elected as editor of the club, poor girl. Phil Anderson, another one of the new members, was appointed chairman of the social committe. After talking over the year's work the meeting adjourned.

One day Phil had an inspiration. Yes, she was inspired to have a party. She told Slat her plans, and Dot, thrilled with the thoughts, called a meeting so the members might be consulted. Of course, the members were delighted, so it was planned to have the party October the twenty-second.

At last the day of the party arrived. Games, music and an impromptu program were enjoyed. Oh yes, and the refreshments must not be omitted, because they were delicious. At four-thirty Miss Molly popped her head in the door and said, "All the gentlemen must be dispersed."

And that's the end.

DUMB-BELL ROLLING CONTEST HELD IN CARNEGIE

A dumb-bell rolling tournament was held on the fourth floor of Carnegie last Thursday night. All dumbells entered.

The judges were Prof. Lee Herndon and E. E. McCurry. Both judges decided in favor of one pajama clad contestant, whose name is withheld by request. Dean Barnes will probably award the prizes in the near future.

PROGRAM OFFERED AT FIRST MEETING

(Continued from page one)

ing and attractive literary programs ever given on College Hill.

After a fitting ewlcome to the new girls by the President, Lina Hodges, a program was rendered by representaives of the five races of the globe.

The stage was beautifully decorated with cedars and autumn leaves, and the use of colored lights greatly brightened the effect of the scene.

As representatives of the red race, Helena Farrar rendered "The Land of the Sky Blue Water" on the violin, followed by a reading—"The River of Stars" by Georgia Belle Kuhn.

The yellow race was represented by two Oriental figures—Barbra Welbon as a worshipper of idols, and Ruth Buchanan as a Japanese Singer in two selections—Ki Mi Ga Yo, and I Ya Da.

Several girls in costume representing the brown race accompanied Cleo Gooch, the dancer, on the ukulele and guitar.

A dialague, "Uncle Mose Counting Eggs" was presented by two excellent negro characters—Dorothy Stivers as Mrs. Burton, and Lois Hayes as Uncle Mose.

Our own race was recognized at the appearance upon the stage of Isabelle Brown, who sang "My Love is Like a Red, Red Rose."

After visiting all the races of the earth we were brought back to Bainonian Hall, where sandwiches and punch were served, that we might eat, drink and be merry with those of our own race.

Second Program Presented Before Crowded House Last Saturday Evening

A leisurely Saturday evening and a new Ladies' Home Journal; What a delightful combination! Is it any wonder that we all enjoyed Bainonian last Saturday night?

From the artistic front cover, through editorial, poem, short stories advertisements, fashion section and receipts, to that classic feature, the Office Dog, we pronounced it an unusually good number. Wonder if the Curtis Publishing Company know what a dangerous rival they have in Dot Stivers and Company?

If you miss a Bainonian program you miss a real treat.. Moral: Don't do it.

NEW MEMBERS OF ATHENIAN PUT ON GOOD PROGRAM

ALUMNI NEWS

The splendid way in which the alumni and former students continue to respond to the appeal of the campaign for better athletic equipment is surely a reason for pride in Maryville and in Maryville men and women. No finer instance of this great spirit of eagerness to serve has come to our attention than the letter and contribution of Fred Hope, '06.

Mr. Hope's letter and check (a liberal one) arrived last week, although the letter is dated August 29th. We are going to take the liberty of quoting the letter because of its splendid reflection of the real Maryville spirit:

"The Frank James Industrial School.
Elat, via Ebolowa, Cameroun.
August 29, 1923.

"I am asking the Board (the Board of Foreign Missions) to send you a check for $———. I wish it could be several times as much. But a missionary, as the saying is out here in Africa, has to "walk softly, softly" in money matters.

"With heartfelt good wishes for M. C.

"Fred Hope.

The subscriptions of the class of 1922 to the Reed Rowan Memorial Fund have passed the thousand dollar mark.

Ethel Burchfield, '19, now a member of the faculty of Martha Washington College, spent the summer in Europe. Miss Burchfield was a Maryville visitor for a few hours just after the opening of college in September.

Luster Brooks, '22, is teaching at Jennings, Oklahoma.

The Johnson City alumni and former students got out their Maryville spirit and backed the football team in real old-time style when the varsity defeated Milligan at Johnson City on October 12. Real backing of the team from the sidelines and a big feed after the game were features of their fine display of loyalty.

FRESHMEN JUNIOR SCRAP

Coach "Percy" Rosae "hot" freshmen team tackled the likewise "overheated" team of (Thrower and McMurray) namely the Juniors on Monday afternoon. It was quite a battle. Comparing it with the Sophomore Senior scrap some two weeks ago we would say that it was "REMARKABLE" provided we can call the other "affair" a game.

Seriously speaking, though, at times some really thrilling and spectacular plays were made. Perhaps the brightest happening of the afternoon was the general exchange of sweatshirts behind the bleachers at the end of the first quarter.

As to the game it showed that Coach Honaker has some likely material for the U. T. game next year in the person of Millner and Wade. Millner carried the brunt of the Freshman attach and Wade produced the spectacular for the juniors. Prince to Robinette formed a neat passing machine for about 70 yards on some three attempts. Prince booted a neat field goal from the 24 yard line at the end of the first half after a much interrupted march down the field.

After the intermission quarterback Stevens suddenly remembered a certain cross buck and as a result the freshmen thru successive efforts of Milner and Spivey registered a touchdown. Spivey driving over from the 1 yard line. They failed to kick the goal. The final score 6 to 3 in favor of the freshmen was a true indication of a close and hard fought game. Now for that Soph-Fresh battle sometime between now and June.

COUNT RUMFORD
1753-1814

Born Benjamin Thompson in Massachusetts. Charged with being a Tory, went to England, and became Under-Secretary of the Colonies. Later, in Bavaria reorganized the military department and was made Count Rumford. Returned to England and engaged in scientific research. Founded the Rumford professorship at Harvard.

He watched the pot as it boiled

Thousands of people had watched the boiling pot, but Count Rumford wondered *why* it boiled. He did more than wonder; by scientific research he found out for himself.

And Rumford laid the foundation of the greatest generalization the human mind has yet conceived—the law of the conservation of energy.

Scientists in the Research Laboratories of the General Electric Company are devoting their lives to pure research, carrying on the work of Rumford and other pioneers of modern science. By methodical investigation, the frontier of scientific knowledge is being pushed steadily forward.

The General Electric Company, by continuous scientific research, has developed new and better ways of making electricity of use to mankind.

TEXARKOMA CLUB

Organizes for the term of 1923-24

The students from Texas, Arkansas, and Oklahoma, seeing as it was their urgent duty, deemed it fit and proper to bind themselves into an entangling alliance. This alliance has taken shape in the form of the Texarkoma club which is going to prove itself the snappiest organization on the hill during the coming year. Things could not be otherwise with such an efficient and zippery corps of officers as we have in Bob (Sheik) Thrower, of Texas, President; Marvin (Jackass) Stevens of Arkansas, Vice-president; and Harold (Hot-stuff) Brown of Oklahoma, Secretary and Guardian of the numerous marks with which our most esteemed organization is possessed.

RESOLUTIONS OF THE SOPHOMORE CLASS

Whereas, God in His Infinite Wisdom and Mercy has called unto Himself the father of one of our classmates, Robert Carr, we, the members of the Sophomore class, extend to him and to his family our heartfelt sympathy in this time of sorrow.

Be it resolved, therefore, that a copy of these resolutions be read in chapel, a copy printed in the Highland Echo, and a copy sent to the bereaved family.

Signed,
F. Raymond Anderson, Pres.
Vera Scales,
Robert W. Bishop,
Sophomore Class Committee.

Y. W. NOTES

Church membership from the layman's viewpoint was considered at the Y. W. meeting Sunday afternoon. Mr. Getaz from the Presbyterian church spoke on "What Church Membership Has Meant to Me." "When I joined the church at fourteen it was a surprise to my parents, and to myself as well." Mr. Getaz then told how his conception of church membership progressed from a vague desire to do what was expected of him as a member of a Christian household to a passion for service in the interests of the church, until now participation in the worship and activities of the church and reliance upon Christ his personal Saviour is indispensible in his spiritual life.

Prof. Ellis, from the Baptist church, said, in part: "The task of the church in this day and generation is the same as it has always been—to make Christianity effective in the life of the individual and in society. The task can be accomplished only in so far as each member does his part."

Next Sunday there will be an address to the Y. M. and Y. W. by Miss Grace Leigh Scott, who is a worker in the social and Morality League under the National W. C. T. U. Miss Scott is a concert singer of unusual ability, but during the world war, while engaged in concert work among the soldier in France, she became so convinced of the great need of social and moral welfare work that she gave up her musical career, and began the form of service she is now engaged in. Miss Scott's address is sure to be interesting and instructive and everyone is urged to come out and hear her.

ALL-DAY MISSIONARY MEETING

Next Monday all the girls on the Hill are invited to a "spend the day party" at the Presbyterian church, for the purpose of studying Missions. The Women's League has charge of this meeting, and everyone who attends it is assured of a day well spent. The meeting begins at ten o'clock; dinner will be served at the church, and you can be back on the Hill by three-thirty. Everybody out!

RECIPE FOR MOONSHING.

Add to two sofa pillars a boy and girl of agreeable nature. Let them sit in a cool place until them become thoroughly familiar with one another. Throw in a few jokes from Whiz Bang to create excitement, and sprinkle with enough cross words to make it interesting. Stir in several kisses, (obtainable from Y. W. store, of course.) Repeat process until 4:30 in the afternoon, and just before finishing add several tart remarks from Pearson's balcony.

Sometimes this recipe will fail if not proportioned carefully, but used frequently it will improve with time.

The Highland Echo

A GOOD CHANCE TO BEAT A GOOD TEAM

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME NINE | MARYVILLE, TENNESSEE, NOVEMBER 7, 1923 | NUMBER EIGHT

Georgetown and L. M. U. Are Victims of M. C. Machine

Georgetonians Fought Hard But Highlanders Were Too Strong

With Similar Spirit and Stamina in The King Game Monday the Dope is Likely to be Upset

THUNDERING AROUND THE LINE OF THE ENEMY AND BAFFLING THEM WITH A SUSTAINED OVERHEAD ATTACK, THE MARYVILLE COLLEGE AGGREGATION HUMBLED THE STRONG GEORGETOWN ELEVEN AT GEORGETOWN FRIDAY, 27-6. THE HIGHLANDERS, DETERMINED TO AVENGE THEIR STINGING DEFEAT AT THE HANDS OF A KENTUCKY TEAM, WENT INTO THE LAIR OF THE TIGERS AND OBTAINED THE DESIRED SATISFACTION.

The first quarter found the Georgetown players consistently gaining ground, the Highland line seeming unable to hold the rival gridders. Not only did the Tigers charge well but their aerial attack appeared hard to diagnose from the ease in which the passes were completed for disastrous gains. A long forward, Peters to Jacoby, resulted in the first touchdown of the game, Georgetown's right end receiving the ball behind the goal line. This score however was the last made by the Kentucky eleven during the fray, the goal not being kicked or the line again crossed. Clemens early in the period took Baldwin's position at center, Bob moving over into right guard for Brown. Partee, who started the game at left half, played a consistent game for Maryville during this period.

The second quarter found a rejuvenated Highland machine on the field. By a splendid demonstration of team work it started pushing the Georgetown aggregation back down the field, till within thirty yards of the goal line, "Back" Williams, playing far out on the end, caught a well directed pass from Riskey and carried it across for a touchdown. "Ed" Hamilton placed Maryville in the lead when he booted the oval between the posts. Shorty McCall and Sneed took the places of McMurray and Partee during the late minutes of the quarter.

Both teams endeavored to get the jump on the other eleven in the early part of the third quarter, and some hard-fought football was demonstrated. Maryville skill and training finally conquered and the Kentuckians were once more forced to yield ground to the visting Tennessee combination. As Georgetown strength waned the power of the Maryville team became more and more apparent. The ball was in the territory of the enemy during the greater part of the period, the Tigers struggling desperately to keep the invaders from increasing the lead. But the grinding process of the Orange and Garnet warriors had desired results, for before the whistle blew Gamble had lunged across for six more points. Hamilton placed the ball between the uprights.

The increasing strength of the

Notes taken in the Dean's Class the morning following class parties.

L. M. U. Game Proves To be a Walk Away

Orange and Garnet Goal Never Threatened; Visitors Fight to Last

The game but inexperienced Lincoln Memorial University team was swept back eleven times over its own goal line by a tornado-like Highland attack on Wilson Field Friday, Oct. 26th, the final score being 73-0. The game was featured by brilliant end runs by Riskey and McMurray, although most of the Maryville attack was through the line. L. M. U. cheered by a large delegation of students who had motored down from Harrogate, strove valiantly to stem the crushing assaults of the Honaker machine, but were completely outclassed in every department of the game.

Less than two minutes of play had elapsed before Maryville scored its first touchdown, Riskey sneaking through center behind Clemens for the first score of the day. Hamilton booted the pigskin between the goal posts adding the extra point. M. C., 7; L. M. U. 0.

Two scintillating exhibitions of broken field running were witnessed in the scorng of the next touchdown. A punt to the five-yard line by Hamilton was returned to the twenty yard line of the visitors. Unable to gain, the ball was punted out to the forty-seven yard mark where it was received by McMurray who ran through the Up-state eleven a distance of thirty-four yards. A fumble on the five-yard line again found the ball in Lincoln's possession. A punt out of danger to the fifty-yard line was accepted by Riskey who zig-zagged through the entire enemy defense for a touchdown. The goal was not kicked.

One more touchdown and goal was recorded before the quarter ended.

(Continued on page Two)

Seniors Express Appreciation

The Senior Class wishes to express its hearty appreciation to the other classes for the cordial invitations they extended to its members to attend their Hallowe'en parties. Many of the Seniors accepted these invitations and they all report royal entertainment and delicious refreshments. At some time in the near future the Senior Class will have an open party and it hopes by this to show, as best it may, how welcome other students are to its good times.

King College Game

We Are Not Exactly Sure What Will Happen But We Will Be In The Game Until The Last Whistle

Monday afternoon will see the fight of the year on the home gridiron. King College has got excited and thinks to run away with Maryville. They have a crack team, and call it the Mountain Tornado. After playing a lot of unheard of colleges and piling up over 300 points they have the audacity of expecting to sweep thru the Orange and Garnet unchecked in their dizzy career. But when the Tornado collides with the Highlanders there will be two machines on the field of contest and the brillance of the one team will be matched by the fight of the home team.

Note two things. Maryville is going to win against King College on Monday, but also that King has one of the few real fast and threatening teams in the South. There will be no one sided contest of long end runs and lots of touchdowns, but a close hard football game.

On Monday the stands must be packed with students prepared to YELL, support the team and the cheer leaders thruout the game.

Ministrel to be Staged by American Legion Promises to be Best Progarm of its Kind Ever Given in Maryville

PROCEEDS GO TO ALUMNI ASSOCIATION

The American Legion, along with the students and alumni of Maryville College are interested in a better Maryville and are offering the entire proceeds of this entertainment to the purchasing of the new bleachers.

Not only are they demonstrating their interest in a financial way but for weeks they have been giving valuable time to the preparation of this program. This factor alone will insure its success.

The staging of the minstrel is under the directorship of Mr. John Vick of Knoxville and Mr. Harry M. Bird of Maryville. Mr. Vick is a nationally known character on the stage, both as director and actor. In addition to directing the performance he is playing end man and to see him is to get the laugh of a life time.

Mr. Harry M. Bird is well known in Maryville and is no doubt the best here when it comes to taking charge and making the ball roll. He is a director, actor and a natural born musician and will be seen in all three roles Monday evening. He makes a Trombone talk, laugh and do a lot of funny things.

Some of the whys which will be explained during the evening are: Why did Mr. (Big Boy) Norton throw a chair at his wife? Why and how T. L. Bird got through the Pearly Gates? Why Judge Sam Johnson sold his Packard? and why Dr. Mitchell uses so much chalk?

But that isn't all: Jac B. Hedge will do his newest, Turkey Smith will strut down the middle of the stage, Dave Proffitt will show everything in his line, while Red Huddleston tears up the piano. Besides there are Carl Hall, Kenneth Bird, Eckles West, Lon Leith, Marcus and Chas. Webb who will make fun fit for kings while Allred, the Georgia clog dancer, makes you wonder how on earth he does it.

Now add to the above array of talent more talent, such as Jean McMurray, Roy Anderson, Ed Hamilton, Carl Schmidt, Harry Gauding, Elmer Douglass, Bax Williams, Harry Bannister, and Earl Riskey, each a star in his own line and then WILL IT BE GOOD?

Well, if you don't think so you're crazy, that's all!

Students Present Voluntary Offering to Alumni Association

"My! Boys and Girls, That's Fine," So Says Surprised President Receiving $600 Gift on Campus Day

Perhaps the best speech ever made in Voorhees Chapel was delivered by Carl Schmidt, '25, on Friday morning, October 26. At least, in inspiration, climax, and results, we have never seen it surpassed. It's inspiration was the Maryville spirit in 800 student hearts, its climax was $600; its results were Dr. Wilson's surprised and happy face and the grateful enthusiasm of 800 alumni.

If the above sounds like a riddle to you, you must have been deaf and blind or else you were not at chapel on the morning of Campus Day. For two weeks, the faculty had been more or less frequently filing out of chapel while the students remained for Student Council business, at least that is what the trustful faculty had thought they stayed for but, in reality, they remained to brew a most mighty and potent secret.

So secret was the secret that even omniscient President, and sage deans and erudite professors knew not so much as that there was a secret. Think of it! From the eyes and ears and suspicious sixth senses of the learned, for nearly two weeks. More than four hundred of Eve's own daughters kept this secret!

But still perhaps, we seem to speak in riddles. Whereas it was a secret, it is no secret now that the students out of their interest in the old college and out of purses none too full, contributed $600 to the equipment of the Alumni Gymnasium. There are numerous fine features of the gift. First of all, it was a surprise and it's such fun to surprise and to be surprised when it's such a happy and sudden surprise as this. When it came as contribution from everybody; almost without exception, every student contributed his bit, a grand, helpful bit toward a solid, unbroken support of Maryville's cause. Moreover there is the splendid spirit of it, the Maryville spirit, joining hand with the Maryville spirit of the hundreds of alumni and former students who have got beneath the burden of the campaign for better athletic equipment for the old College on the Hill.

Such a manifestation of spirit as that is no passing thing. And as the years come and pass on, many of those who helped make up the Noble Six Hundred will be themselves alumni of old Maryville, and will know, as some of us know now, just how fine a thing it is to see the sacrificial and altruistic spirit of more than a hundred year's growth still moving the hearts of even the youngest sons and daughters of Alma Mater.

FOREIGN LETTERS

There is a principle in psychology that has to deal with adaptation. When one moves into any new environment he necessarily must make the proper adjustments or become exceedingly unpopular and even unbearable. This adjustment can only come about where the person is capable of actual mental activity, because adaptation is more of a mental process than it is a physical one. To illustrate, suppose one wears a sweater to keep his body warm. An A, or S, or C, or T, or H. or any other letter, does not add warmth, and is only worn because of an unexplainable mental state.

Now the argument is this. Here on the Hill is an M. club. The constitution of that club says that no letters made at other schools, be those schools grammar, high, college, university, technical, or correspondence, are to be worn here. Back of this M. Club are the letter men, the faculty, and the entire student body. So you men and women with foreign letters, remember we are glad to have you with us, and we hope you make an M. as big as a barn, but until you have done this, kindly, but firmly, and without hesitation, lay all other letters aside.

THE ECHO

Does anybody read the College paper? Oh, of course a few will read anything. Then, does everybody read the College paper? Probably not, but we have on our desk more than thirty names and addresses of town students, which have been handed in since the chapel announcement Saturday morning. So far as we know, Martha Mae is the only one who keeps and preserves a complete file of Echo's but if the above means anyhing, it means that the town students want their Echo. Naturally we can't help but feel glad over such manifesations.

But that isn't all; for the last three or four weeks those most intimately connected with the publishing of the paper have rarely crossed the campus without being hailed by either students or faculty, or both and asked, rather pointedly, "Why haven't I received my paper?" It is flattering to even know that people want the paper. Probably for this reason, and others, we have tried to help the department which is directly responsible for the circulation. We are willing to help still, but we confidently predict, as many have almost desparingly hoped for, a change for the better.

We believe better things are coming for two reasons, first they couldn't be worse, and second, the Business department, will probably follow the custom of past years of experience and give some really good service. The Echo is printed on Tuesdays, and with the proper cooperation of all those connected with it, and with the proper cooperation between the two departments, all issues except eight page ones and special editions can be delivered on Tuesday evening. We started out to give satisfaction. If you are not geting it, don't be timid, tell us.

3RD PREP PARTY

Third Preparatory Tots Hold Forth In Basement of Baptist Church

The basement of the Baptist church was a spooky place Wednesday night. It was guarded by ghosts and spooks of unknown character. Many familiar faces were seen such as, Old Mother Hubbard, and Mother Goose, and many Nations were represented by costumes.

Uncle Bob was there too. Ask Norman Howard or Professor Walker who bobbed him.

Some folks have been accused of chewing the rag but we know a professor who will swollow a string for a prune.

Many games were played such as Lightning, Feathers, Animated Adjectives. Every one enjoyed the Water Relay Race and those duets.

The preps presenetd Miss Bowers with a pretty kitten of which she is very fond.

For lack of space much material had to be held over until next week.

REMEMBER THE FOOT BALL GAME NOV. 12TH

KING COLLEGE IS THE VICTIM

L. M. U. Game

(Continued from page one)

As the first division of the fray waned, Captain Thrower, who had intercepted a pass and run for a touchdown, was deprived of his score by a penalty.

The quarter ended with an eighteen yard forward pass which was snatched out of the air by "Pat" Shores on L. M. U.'s twenty-two yard line. Score: Maryville, 20; L. M. U. 0.

The second quarter was practically a repetition of the first, the Highlanders tearing at will through the shell-like line of Lincoln.

Several substitutions were made at this time but the attack was not slowed. Hurst carried the pigskin over twice during the remainder of the frame, being aided towards his second score by a twenty-five yard forward pass, Riskey to Williams.

Standing out brightly during this period was the consistent gaining of Crawford.

The half ended on L. M. U's. five yard line with the ball in the visitor's possession. Score: Maryville, 40; L. M. U., 0.

The Harrogate rooters were made happy during the third quarter by the splendid fight demonstrated by their team. Decisively outplayed during the first half, the gritty warriors from the Cumberland mountains took to the field with the determination to hold Maryville. One lone touchdown was chalked up against the invaders during this perid, being made by a ferocious thrust by McCall on an off-tackle play. The goal was kicked.

A scare was thrown into the Maryville camp when the mountaineers started a march down the field in the last minutes of the quarter. By a series of fake plays and successful forward passes the ball was taken down the field a distance of forty-five yards.

All eyes were turned on a Lincoln drop-kick in the first minutes of the fourth quarter. Was it to sail between the bars? Was Maryville to be scored on? The questions were soon answered for the ball went wide and was once more in the possession of the Highlanders.

The scoring was started by McMurray who received a forward pass from Hamilton and dashed across the line for six points. Riskey, who had again taken his place in the line-up, next carried the pigskin across, Jean drop-kicking the oval for the extra point. Maryville now employed a deceiving aerial attack "Back" Williams receiving two passes and prancing across the line for as many touchdowns. The final score was Maryville, 73; L. M. U., 0.

The line-up of the Maryville-L. M. U.. game is as follows:

Maryville		L. M. U.
Music	le	Wilson
Hamilton	lt	Hudson
Greenlee	lg	Manley
Clemens	c	Brown
Schmidt	rg	Cureton
Thrower (c)	rt	Liqskin
Shores	re	Long
Riskey	q	Turner
Partee	lh	Garrett
McMurray	rh	Hallbright
Gamble	fb	Brown

	1	2	3	4	
Maryville	20	20	7	26	73
L. M. U.	0	0	0	0	0

Referee: Sullinger, Maryville; Umire: MacTier, Knoxville; Preass; Head-linesman, Tennessee.

JOINT MEETING

Miss Grace Leigh Scott Addresses Members of Y. M. and Y. W.

Those who did not hear Miss Scott's address Sunday afternoon missed a rare opportunity.

No doubt some of us knowing the story of Miss Scott's radical change of life work—from a concert singer to a Social and Morality Lecturer, wished that we might have heard her in the days before she put aside her God-given talent of song. But all this was forgotten as we listened to her marvelous speaking voice and thrilled to her inspiring message. Miss Scott's address was a challenge to clean living under the single standard.

Georgetonians Fought Hard

(Continued from page one)

Highland attack reached its heights in the fourth quarter, when the oval was marched down the field by elusive backs and taken across for two touchdowns by McMurray, who had returned along with Partee, to the play. At no time on foreign soil had the Highlanders looked better than during this period. The line, getting off swiftly at the snap of the ball, charged low and hard, while the backfield, with Riskey at the helm calling a bewildering assortment of plays, smashed through the line, circled the ends, and employed the use of forwards at psychological moments. Georgetown, outclassed and outguessed, was not in condition to stop McMurray when he bounded through tackle on two occasions, where the ball had been carried to the five yard line by Gamble, Riskey and Partee, Hamilton kicked one goal. With the colors of Georgetown still being waved in the breeze, and the stands still cheering their team in defeat, the Highlanders left the field impressed not only by the Georgetown team, but also the Georgetown spirit.

Cartwright, who was in the contest for three quarters, distinguished himself at left tackle. Always on his toes, he was down under punts and kick-offs on every opportunity, and tackled the receiver on several occasions. On the defense he turned back a number of end runs and grounded passes. Hamilton, who has been M. C's. outstanding punter this season, deserves mention for his long, well-directed kick-offs during the game, each being worth an additional ten yards to the Highlanders.

Some startling bits of human nature were portrayed during the game. "Charlie" Partee, after having had his neck playfully wrenched by a pugnacious rival, declared with wonder and surprise, "I d-d-don't see w-why he h-had to do t-that." Another of our more mature and dignified linesman, whose name is withheld because of his good reputation on the hill, pointed to the Georgetown sidelines where the Tiger captain was tossing about and said, "See that. I'm responsible for that."

Next week, on Armistice Day, Maryville will have one of the hardest games of its season. King College of Bristol, Tennessee, a team which counts its scores in the hundreds, is coming down to win what that institution considers its most important game of the season. It will take more than eleven men to stop the King team. It will take a student body with the same spirit as that demonstrated by Georgetown to bring Maryville victoriously out of the fray.

It is generally known in Maryville athletic circles that unless the cheering improves there will be no "moonshining" at football games next season. It will depend upon the volume of "rooting" which sweeps over the field in the remaining home games whether or not this decree will be reconsidered. If you are particularly anxious to have a charming young friend by your side at the grid battles next year, instructions are in order to have said charmer endeavor to completely drown your vocal efforts. On Monday we must all yell vehemently, "The King is dead! Long live the Highlanders!"

The Four Literary Societies

Though Handicapped by Games and Celebrations, Are Maintaining High Standards

ALPHA SIGMA

Alphas Elect New Officers For Coming Term.

With the customary decorum Alpha Sigma met and installed officers Saturday night. Malcolm Miles assumed the president's chair and chatted informally about the society and its plans for the near future. Messrs. Pritchard, Armstrong, Kinsler, Huffman were also sworn in as officers of the society. As program secretary has been called upon to work and we look for variety, interest and worth in the coming meetings. Messrs. Puff, Wilson and McTeer were assigned the duties of censors.

After a snappy debate about Ford and two intense speeches, and somewhat of business meeting closed.

ATHENIAN

Every Saturday Night Brings Something New to the Athenians

Saturday night, October 27th, the Athenian Hall was filled to its capacity with both new and old members. Mr. Smythe started the program by singing "Asleep in the Deep." Just what he meant by selecting this number is more than we can say, but we can say that it was the best we have ever heard you give Smythe.

We are glad to report that the four boys that came down from New Jersey with "Elizabeth" are all full blooded Athenians. Proof of them having the goods was manifested in Wade's short talk on good health.

David King made an appearance with a book review, "Men Like God," by H. G. Wells. It seems that more numbers like this should be worked out.

The Memorial girls will wonder what a quiet Sunday afternoon in Carnegie would be like. If you had been at this Athenian meeting you would have known.

Saturday night, November 3rd, brought to the Athenians another type of program. Prof. Hunter read for us one of John Mayfield's poems..

Needless to say that everyone enjoyed it. When you know that he read for one hour and fifteen minutes without having anyone to leave the room or even get tired.

Next Saturday night the French Oratorical Contest will be staged. Come out and absorb some of what they have to say

BAINONIAN

Senior Members Give Program.

At Bainonian Saturday night we were again made to exclaim, "How tempus does fugit!" for our Seniors appeared before us as they looked in Freshman days—supposedly. We wish to say, however, that if Freshmen looked like that only three years ago, the world is certainly growing better.

But we have no reflection at all to cast upon their appearance after Miss Mollie had ground them through her efficient machine. Out stepped musicians, readers, athletes of every type, artists, a cuisiniere, a Y representative, and many others to delight us with their pormormances.

Last of all, our little Freshman flapper came out a dignified young woman in cap and gown, bearing her diploma, and the Seniors circled about her to lead our songs, "Alma Mater," and "Bainonian."

We're proud of you Seniors! We didn't know before how far you'd climbed, but here's hoping the stars alone will limit the heights which you will yet attain.

THETA EPSILON

Thetas Put On A Program of Keen Competition

Do you know which is more popular, classical or jazz music? Did you ever want to know? Were you at Theta Saturday night? That's what you missed by not being there. If you had been there the question would have been settled for you.

Louise Morelock, in her laughing, care free way represented "jazz" and she represented it well too. In a stern solemn way Dolly Enoch carried out the classical part. Both the jazz and the classical selected Irene Sharp as the judge.

The following jazz and classical program was given:

Harp Solo, Virginia Sting.
Vocal Solo, Sarah Kiskadden.
Piano Solo, Edith Jarvis.
Jazz Number, Mary Sassoman and Rena Mae Anderson.
Reading, Sarah Sheffield.
Cello Solo, Madeline Holmes.
Vocal Duet, McMillian Sisters.

The judge aws made happy and joyous by the jazz and thoughtful by the classical. This being such a different question the decision was not easily reached. After much consideration the judge decided that in this old world we needed one kind as much as the other and both should have a place here.

AND AGAIN

The Devils Practice Black Magic In Wee Hours of Night

Not so many weeks ago—something happened. It was just after supper and dark as shades of hades on the river Styx, the lights just barely visible through the blackness of the night, that if you had been watching closely, your little nose pressed firmly against the window panes in Pearson's lobby, you would have seen the shadow like forms of people moving toward the library—but these forms did not stop. They kept on and on until they were lost to public view—they had entered Science hall. For the curious, we will say that in one of the rooms on the first floor—there was a single light burning, suspended from the ceiling by one black coal-like, string looking thing—most likely a piece of wire.

But, that is another story—these mysterious looking people were gathering in groups, which grew into one big group, at the suggestion of the pleasant looking man in charge. On close observation we discovered that it was Mr. Griffitts calling the Chemistry Club to order for the purpose of electing the officers for the first term.

Quietness Reigned Supreme? Only the voice of the speaker could be heard and after a few minutes the club had decided to meet on the first and third Tuesdays of each month and had elected the following officers:

President, Mr. Albert Griffitts (Hvro)
V-President, Mr. Robt. Bishop.
Secretary and treasurer, Miss Maragret Shepherd.
Program Sec. Miss Ethel Sharp.
Editor, Miss Mary Sassamon.
Faculty Advisors, Professors Herndon and Howell.

If you were still watching you would have seen the mysterious ones go home.

MINISTERIAL ASSOCIATION

Promises to Become A Live And Active Organization

This is, perhaps, the first time that you have had presented to you the thought that the Ministerial Association is an active organization.

Three meetings have been held this year. The first meeting was held on September 19th, at Bartlett Hall. Francis Kinsler was chairman of the meeting, and its principle purpose was to discuss the advisability of having a Ministerial Association this year. In spite of the poor record that the organization made last year, opinion was unanimus to continue the organization. Election of officers was taken up, but it was decided to put off that event until the new men could become better acquainted with the members of the Association. M. Burl Pritchard was elected temporary Chairman, and it was decided to hold election of officers on the third meeting of the year. On October the third, the Association held its second meeting, and at this time was addressed by Dr. Gillingham who told some of his experiences during his trip to Palestine.

A third meeting of the Association was held on Tuesday, October 23rd. At this meeting, Mr. Chester Kerrick told us of his trip to the mountains of Kentucky, where he has been preaching and teaching for more than a year. He urged the members of the Association to undertake such work if they possibly could, and told of the opportunities for service and the hospitality of the people among whom he had lived. The business of the election of officers. President M. Burl Pritchard; Vice-President, Wick Broomall Jr.,, Secretary-Treasurer, Chester Kerrick; Editor, Wallace C. Merwin. Mr. Kerrick was also elected Program Secretary. Under such leadership, the Ministerial Association should have a successful and notable year, and from all indications, such will be the case.

The Association is already engaged upon a program of activity. A number of Ministerial students are engaged in working in the County Jail and in the Mission at Battle Creek. Meetings are held each Sunday afternoon in the Jail, and the prisoners are interviewed personally.

The next meeting will be held on Tuesday, November 6th. All who may be interested, and especially all Ministerial students are invited and requested to be present.

TO A FLOWER

The flower of June has faded
And leans in the autumn field
As a warrior wounded in battle
Will lean upon his shield.

The petals that once were yellow
Are withered, and crumpled, and brown;
The stalk that once was stalwart
Is bending near to the ground.

The leaves lie dead around it
As men who perish in war
Will lie about their leader,
Who lives to fight some more.

Oh, this is the fate of the flower!
And this is the fate of us all!
That, though the summer doth linger,
There cometh at last the fall.

—P. M. M.

COMMITTEE PLANS TO PUBLISH MARYVILLE SONG BOOK

The Music Committee of the Y. W. and Y. M. are making plans to publish a small inexpensive song book which will include all college songs, old popular tunes, negro melodies and college yells.

All suggestions as to what such a book ought to contain to make it popular will be welcomed by the respective committees.

Hand in any ideas you may have to, Sarah Kiskadden, Vera Keen, Raymond Anderson or Dewey Etner.

If you would like to see such a book published let it be known and lend your support.

FIRST LYCEUM

Don Pasquale a comic opera in three acts presented by famous Irene Williams Company. Since Miss William and her players appeared at Maryville last year in "Casi Fan Tutte" a large audience assembled to hear again the celebrated singers.

The members of the company are as follows:

Irene Williams soprano Norina Judson House Onor Ernesto Pierre Remington basso Don Pasquale.

Ellen Rumsey, mezzo soprano major domonotary, also Leo de Hierapolis baritone, Dr. Malatesta Alfred Calzin, pianis director.

The opera was the story of rich old bachelor who refused his consent to the marriage of his nephew Ernesto to a lovely widow, Norina. The old man himself wished to marry and his physician, D. Malatesta, proposed his sister Sofronia as bride. The old man accepted and Norina disguised as Sofronia after a marriage before a supposed notary behaved so badly, and made life so miserable for Don Pasquale that he was delighted to find it all a farce and readily consented to the wedding of Ernesto and Norina.

The music was extraordinarily delightful and since each member of the caste possesses excentional talent the program of musical and dramatic entertainment was both delightful and cultural.

We are most fortunate to have secured Miss Williams and her company for the opening number of our lyceum course.

See the Greatest Football Players in the United States in our Fall Movie Film at the PALACE Wednesday and Thursday.

Y. W. NOTES

"Popularizing Politeness'—Where? Here on College Hill. When? Every hour of the twenty-four. To whom? To every one with whom we come in contact, including room-mates, strangers, any who are not polite to us, our teachers, and God.

At the meeting Sunday afternoon we were reminded of some of the ways that we are NOT being polite here on the Hill. It is hoped that all of us will keep in mind the suggestions that were made, and that we will stand behind any committees that undertake in a definite way the work of popularizing politeness.

No specific plans have as yet been made for next Sunday's meeting, but as it is Armistice Day, a program in keeping with the spirit of the day will be arranged.

Y. M. C. A. NOTES

Dr. J. Walter McMahan Addressed The Y. M. C. A. Sunday Afternoon.

Dr. J. Walter McMahan of Maryville addressed the Y. M. C. A. on Sunday afternoon on the subject of "The Opportunities for Service in the Medical Profession," viewing the subject in a three-fold manenr. He directed our attention to the fact that Abraham was not known to the world, nor was he of service to God until he had heard and obeyed the call of God to "get up and get out," to a land that should be shown him. "This call is presented to every man that is sane," he said, "in the call to be a Christian; but sad to say not every one answers the call."

Come out next Sunday afternoon, fellows, there is something good in store for you."

GEORGIA CLUB

Crackers Organize and Will March Thru the Year Together

Listen. The boys and girls from the old red hills of Georgia were called together several days ago to elect officers for the following year.

The officers for this wide awake cub are:

President, Floyd Cory.
Vice President, Ruth Fain.
Secretary and treasurer, Penn Camp.
Editor, Gertrude Allgood.

Watch Out! We are going to be the peppiest club on the hill.

SENIOR PARTY

Class of '24 Starts The Spook Season With a Frolic At The House-in-the-Woods

The grim prospect of a Theism test on Wednesday morning did not keep a large part of the Senior Class from celebrating Hallowe'en at the House-in-the-Woods last Tuesday night. And we'll say the Seniors know how to plan a party to make everyone have a good time. If you were moonshining, there were lots of cozy corners and the dim light of an open fire. If you didn't happen to be one of the "chosen few", that was no sign there was nothing to do, for the basement was equipped with all sorts of fun—producing devices. Yes, we even had a tub full of apples which were very nice if you could get one (ask Marybobbing for apples is one of her gifts) or not so desirable if all you got was a ducking (how about it, Dolly?)

We were glad to have Professor and Mrs. Hunter with us as our chaperones—we really forgot they were chaperones for they were just part of the party, and Bobby, our mascot, was there too and behaved like a perfect little Senior.

The cats were delicious and abundant. Proof. They were delicious because we ate all they gave us. They were abundant; we couldn't eat a second serving.

Our delightful host and hostess Dr. and Mrs. Stevenson made us feel at home and at ease. Now what more could any Senior desire?

HALLOWE'EN AND THE FRESHMAN CLASS

Presbyterian Church Is Crowded With Baby Merry Makers

We have heard that Freshman memory is proverbially bad. If Freshman parties are proverbially good, then the standard has been sustained for posterity. If any class had a better party than the Freshmen did; they had some party. Hallowe'en is the occasion when all witches, ghosts, and Freshman are abroad in the dark hours of the night. And on Hallowe'en, last Wednesday, there gathered in Fairyland, commonly known as the basement of the Presbyterian Church, the Freshman host. By the service of a gifted Decoration Committee, the floor had been strewn with Autumn leaves, Jack-o'-Lantern showed his grinning face in many places, and other appropriately orange decorations festooned the scene of the evening's merriment.

Alas for those unlucky wights who considered their dignity above the unseemly merriment of a Freshman Hallowe'en Party! Alas for the spirits of Gloom and Care. For they were utterly banished from Freshmen minds, and those of Laughter and Enjoyment reigned for the evening. Many were the strategic attempts to elicit the exclamation "What?" and black cats changed hands with amazing frequency, especially when it came time for the cats to be counted. When it came time for the "Cracker-and-Whistle Relay", many were the vain attempts to whistle with half a mouthful, but all choking aside, let us hope that no one suffered from indigestion. In finding Aunt Miranda's Club, Witch Hazel's Gang, the Mutt and Jeffs, and other wierd combinations, much merriment and noise ensued. In swapping names and addresses, those in the various groups enlarged their list of acquaintances. Then, in a series of three-minute rounds, couples sparred over such questions as, "My First Ghost," "My First Hallowe'en Party", and matters of like importance.

The company was seated in a circle games were played and much conversation was carried on between the weak and weaker sexes.

At this point, refreshments made their appearance, and, of course, this somewhat distracted the attention from other matters. Strange to say, no one seemed to want more than four or five helpings, and we can truthfully state that no one had more than one serving—in less than five minutes. Cocoa with spanked cream, sandwiches with the crusts cut off an' everything, ICE CREAM and cake; what more could the soul of mortal desire? We noticed at least two Seniors present, and, if they will admit they were there, they would surely express no regret because of that circumstance. And, to finish the evening—sh-h-don't let it get too far abroad, the party broke up at ten-thirty sharp!

Highlanders Lose in Hard Fought Battle With King Tornado

Fighting Highlanders Go Down In Defeat at Hands King Huskies

Starting Out With a Whirlwind Drive Things Looked Good for M. C. During First Quarter

BEFORE THE LARGEST CROWD THAT EVER WITNESSED AN ATHLETIC EVENT AT MARYVILLE COLLEGE, THE HIGHLANDERS WENT DOWN BEFORE THE KING TORNADO, WONDER TEAM OF THE SOUTH ON ARMISTICE DAY, 17-0. TWICE SHARPE, BRILLIANT HALFBACK OF THE ADAMS MACHINE, CROSSED THE ORANGE AND GARNET GOAL LINE, ONCE AFTER ACCEPTING A LONG FORWARD, AND ON THE OTHER OCCASION AFTER CIRCLING THE MARYVILLE END. CAPTAIN OSBORN OF THE VISITING TEAM KICKED BOTH GOALS AND LATE IN THE THIRD QUARTER DROPPED THE BALL ACROSS FROM THE THIRTY-FOUR YARD LINE.

The first quarter of the fray was marked by the most desperate kind of fighting. Hamilton on the kick-off placed the ball behind the goal line of the Bristol team from where it was brought out to the twenty-yard line. After a series of plays the ball was recovered by "Shorty" McCall on the thirty-five yard and the Highlanders worked the oval down the field to within two yards of the King line. A five yard penalty and a fumble which was recovered by the visiting eleven spoiled the hopes of the local warriors, who at no other time in the game had as splendid an opportunity to drive the pigskin across. The Orange and Garnet combination looked good through the first fifteen minutes of play and speculation was rife as to the outcome of the game. The quarter ended scoreless, 0-0.

The ball was put in play on the Maryville's twenty-two yard line as the second quarter began. A fifteen yard penalty was quickly made up by King; Osborn circling right end for seventeen yards, bringing the ball to the twenty yard line. After grounding a long pass of King's, the Maroon and Blue elected to repeat the play, Sharpe receiving the forward and dashing across the line for the first score of the day. Osborn dropped the ball, across the bar. The remainder of the quarter was a pretty punting battle for position, with Hamilton having a shade on the visiting booter. The half ended on King's forty yard line with the ball in King's possession. Score: King 7 Maryville, 0.

King kicked off at the beginning of the second half; the oval being received by Partee on the twelve yard line and carried back sixteen yards. Both teams continued to play hard football and time was called repeatedly for injuries. The Maryville men, realizing their responsibility, were in every play, Captain Thrower proving a worthy leader and inspiring fighter. The celebrated Sharpe continued his scintillating performances, making the only individual outstanding plays of the game. The Tornado began an overhead attack during the third quarter which gained ground time after time for the visiting gridders. Late in the quarter a rapid march down the field brought King to Maryville's fifteen yard line from where Sharpe crossed the line after a dash around his own right-end.

The Polytechnic Reporter Brooklyn Polytechnic.

The Pinnacle, Berea College

The Reserve Weekly, Western Res. Univ.

We have found the above list not only a source of information but a great source of help.

Dr. Stevenson Indicts War in Vesper Sermon

COLLEGE PASTOR DELINEATES THE WASTE OF WAR, THE PERIAL OF FUTURE WAR AND THE PRODUCT OF WAR

Unmitigated by any rosy and hopeful aspirations for the immediate and sudden flood of the millenum on the sea-cursed and sad world, Dr. Stevensin-cursed and sad world, Dr. Stevenhuman situation in forboding language Sunday night.

Reasoning and reading from the sword devour forever?" The speaksecond devour forever?" The speaker and fluent preacher elaborated and rehearsed the direful and baleful effects of the sword of man, which ever devours. The attending audience of college students and friends were deeply stirred and moved by this drab picture of the devastation and destruction of war in the affairs of men.

The first point and issue in the discourse revealed the biological waste of war. The survival and perpetuation of the weakest, the loss of the best and the fit to the civilization of the countries was lamented. As Vernon Kellog pointed out, after Napoleon, the standards of physique and manhood were reduced in France and Europe. The tragedy is told in the Cathedrals of Old England in memorials for those who died in China, Egypt and the remainder of the globe. And then, with increasing sterness the Doctor unfolded a scientific and vivid picture of the next war in all its farreaching effects of destruction and annihilation. The woeful effects of Lewisita gas on whole cities and countries sounds the death knell of mankind, in the event of future war. Man would then be as safe, it was pointed out, as a swimmer in a swimming pool packed with man-eating sharks.

Finally the inevitable evil of war was proved by hard and cold logic to be war. War is Hell, and hell is no reformatory. From war we beget war. The last war was the bitterest of history, and the product

We knew something would happen to Dean for giving those completion tests.

—M. C.—

The Junior Class and Y. M. had floats just alike—coincident due to static conditions.

—M. C.—

The robins might find enough material on the campus to hide several babes in the woods.

—M. C.—

That was a good game we are satisfied with every one of our boys —the King team also.

—M. C.—

School would be a great life if they would only leave off the studies.

—M. C.—

Did you see what happened on the

(Continued on page four)

Monday Was Great Day in The Making of a Better Maryville

Large Crowd Standing Around Entire Football Field Make Beautiful Spectacle

OLD MARYVILLE COLLEGE MAY CONSIDER MONDAY AS ON OF HER MANY GREAT DAYS, A DAY CONTAINING A THREE-FOLD BLESSING. THROUGH THE AID OF THE AMERICAN LEGION AND THE GOOD CITIZENS OF OUR LITTLE CITY, OUR FIRST HOPES AND ASPIRATIONS WERE GIVEN A GREAT BOOST TOWARD THEIR GOAL.

The parade staged by the American Legion, with Professor Smith as Marshall, was one of the best ever witnessed in Maryville. In this parade Maryville College was represented by eleven beautifully decorated floats.

However the one thing that concerned most people occurred in the afternoon when the strong Maryville eleven marched out to oppose that strong and invincible King Tornado More than two thousand people exclusive of students saw the battle which was probably the hardest ever fought on the college gridiron.

That was not all, in the evening the Legion and College boys together presented a minstrel in the new gymnasium. This show does great credit to all those participating either as actors or directors.

To sum the whole thing up it was a great holiday, every body is satisfied, and greater things are in the future for both our town and College

Fifth Quadrennial Student Volunteer Convention

Maryville College is Alloted a Delegation of Six Members

Time and Place. The Ninth International Convention of the Student Volunteer Movement will be held at the Cadle Tabernacle, Indianapolis, Indiana, beginning on Friday afternoon, Dec. 28, 1923 at 2:30 p. m. and closing on the evening of Tuesday, Jan. 1, 1924.

Purpose. The purpose of the convention is:

To realize the critical needs and possibilities of the situation in the world today and to consider the responsibility of the christian students of the United States and Canada in the light of this situation.

To consider Christ and His way of life as the hope of the world. To present the foreign missionary enterprise in the light of its achievements and possibilities as an indispensable means of bringing the power of Christ to bear upon the world's needs.

Addresses. The speakers will include the ablest students of the industrial, international, and social movements of the day, at home and abroad. The needs and conditions peculiar to their own people will be treated by nationals.

Some earlier sessions will be devoted to war and international relations, to race antagonisms, to the problems presented by the modern industrial system, and to intellectual unrest especially in student circles. The second day will be devoted to group discussions of these subjects and to addresses showing the relation of the Christian missionary enterprise to them. The remainder of the convention will be given to a more detailed study of the conditions in various parts of the world, to a study of the full meaning of Christianity and its message and ministry to the world, and a survey of the field of Christian service both in connection with organized christianity and in consular, diplomatic, and professional fields. There will be several sessions devoted to special lands in which the foreign missionary challenge seems the greatest.

There will be opportunity to hear of the types of missionary service and the qualifications and needs in each. There will also be opportunity for meeting with the representatives of the various denominational groups thru whom the enterprise is being carried on.

This convention offers a unique opportunity to meet men and women from every type of college and University of the U. S., and Canada, and to enter into fellowship with the student delegates and leaders from many other countries.

To any students who are still undecided as to the work they plan to do in life, the convention offers an occasion to revaluate life plans and purposes in the light of human need and christian motives, a setting forth of the ground-work of fact on which a reasonable life purpose may be built, yet without coercion or emotion that might lead to hasty or unwise decisions.

The committee on arrangements urges that each college group choose delegates who are "vital factors in the christian life of the college." Who shall represent Maryville College?

Unprecedented growth of the student body at Northwestern College has forced the administration to allow only four day attendance at chapel, in order that all the students may find seats during the week.

Yale University Freshmen were, upon the opening of school, strongly advised by President Angell against the violation of the Eighteenth Amendment both as to Federal and University taboo.

MISS WHITFIELD

Miss Anna Ruth Whitfield bade us good-bye and left for her home last week. Miss Whitfield has been on The Echo staff since school opened in the fall, as special reporter, tho she by no means limited her ork to that single phase. She has written news, features, and editorials all equally well Miss Whitfield was a member of the Sophomore class and a student of the highest type. We of the staff are sorry to loose her because it is hard to find people who are both willing and able, as Miss Whitfield certainly was. However, we wish for her a pleasant time at home, and we hope to see her back with us next fall.

STAFF ADDITIONS

Last spring we announced our staff as far as it had been chosen. Since the opening of school Mr. Elmer Douglas has been added as staff artist, for the remainder of the year. We consider him a lucky find because, as he put it, he has made a living during the last few years doing commercial art work. If present plans materialize his cartoons will appear from time to time in the paper.

Then there are three other characters, one of which we are not yet ready to disclose, next week his first article will be printed and also his picture. As for the other two Antolycus and Desroh, whose first articles appear this week. Their picture will be run later Desroh next week and every week thereafter. His articles are likely to appear anywhere in or out of the paper. But special space in the third column of the second page will be devoted to the other essayist. Read them; they may fit.

A LETTER FROM DESROH

Dear Mr. Editor:

Neither to acquire a life companion nor to avoid all the social amenities of Co-edification by separation from the fair sex, came I to college. Wherefore I am in great straits.

I have that drawn feeling toward the young ladies and delight in their society. I get along good until I ask for a date and then all of a sudden I encounter ice burgs. I have overstepped the bounds of convention and have made a discouragement, that all these good-looking girls are tied up, or as it were, attached to some Appollo of the paleolithic type for the unrest of life. Private monopolies. I find I cannot be a wanderer in the land of social privileges, but either a settler in the land of promise, or an outcast from a breach of promise. Like King David and all the rest of you moonshiners I must get married, or become a backseater.

Take Florence, I'd give a million dollars for a date with a head like that; but what would John dear say? Then there is Thelma, we have been told she makes the prettiest poses, tied up to an intellectual young chap like Malcolm. Now I think Jimmy is a good guy, alright, but goodnight, why should Mary Lilly be monopolized by a fourth prep, when she has such a good liquid stare. Also Dorothy, I must say she is entirely too large-eyed to be set apart for a serious minded lad like Sam. I forbear to mention such heavy weights, at the game as Carl and Shorty; but when these young freshmen get complicated by these so-called freaks, like Jimmy Anderson and Merlin, before I have had a chance to pick and loose. Some about whom I hear lots have already started on the strained and narrow before I could get the nerve for a date.

It is said this is an age of specification. It is. One must concentrate or dissipate socially. Take any of these, Joe, Barkmyer, Shorty, Othel, Kinsler or Cofer. They go around with a hang-dog expression and when moonshine's in order they go get their women just like they might take the family cat out for a walk. Maybe that's all right, but I came to College with the big broad outlook, hoping to meet these good-looking girls and have a good time, but moonshine is melancholy and romance the elusive dream of love syllables from far away.

And I don't mean perhaps.

Desroh.

Desroh we advise that you go ahead and get married. 'Tis said custom prevails, even among nomadic tribes.

CORRECT SERVICE

THE FABLE OF THE FOOLISH YOUNG FRESHMAN

A Problem to the Faculty and Students Presented in an Untackful Way.

There was once a freshman who came to College. She had never been very popular in her home town so she was determined to make a big Splunge and show the girls back home. She was fairly good looking and with the aid of her trusty compact, she expected to go back to Hicksville with fully a dozen Scalps hanging from her belt.

As soon as she got her trunk unpacked, she put on all her war paint and began work. It wasn't long before she had kidded herself into believing that all the men in school were crazy about her, and all the girls were jealous. She didn't study because she didn't come to College for an Education but to get that Broad Outlook upon Life.

In her vacant periods—class periods; she sat in one of the many cars infesting the campus and talked to the Boys. She didn't realize that the really intelligent men didn't waste their Time with her. She thought she was about the most popular girl on the campus. She liked to talk about how many Fellows she had on the String, and she didn't know they were all stringing her. When they tried (?) to hold her Hands and have little Petting Parties she said, "Naughty, naughty," and snuggled up closer.

She tried to Bluff in all of her classes and was about as convincing as Shorty Sneed would be if he tried to make you think he wouldn't play foot ball. She was almost as popular with the Faculty as a mouse is at a Ladies Aid.

She thought it was Cute to break as many rules as she could, and she stayed awake nights planning ways to break more. She thought she was a regular little Devil, but in reality she was only a Fool.

What is going to become of that little Freshman? One of these days she'll pack her trunk and she wont need any round trip ticket. Is this little Freshman you?

Antolycus.

Next week read what Antolycus has to say about our male flappers.

TO PEARSON'S HASHEATERS

I, Ifucamusme Uvgho(s)tugsum commonly known as Campus Ghost, have been ordered by His Royal Majesty, The Most High Loblolly Gastenzollern, Great Spirit of dining halls, to reform the Hasheaters' Palace of Pearson's Hall, Uh!

On first observation the following are a few facts that I feel should be brought to the attention of moonshiners, flappers, cakeeaters, and all interested in the noble pursuits of catering to the satisfaction (?) of their appetites:

How valiant is he with the 36-inch reach who endeavors to recover the old lady, 42-inches away!

Do you realize how unmerciful it is to harpoon a biscuit?

Does he who loves his neighbor as himself feel justified in removing to his plate one-third of the contents of the dish of loblollygast, not even inviting the help of his co-hasheaters?

Moonshining in the sunshine, by your lonesome, is more effective than at the table in the presence of numerous witnesses

Pearson's sausages on an average will furnish enough for several bites. Avoid consuming a sausage in one bite.

What about that banjo grip of the fork? Is it intended to demonstrate the position of a chord in G minor?

Elbow on the table at three meals each day for 144 weeks, or a total of 3,024 meals, is not only hard on one's clothes, but also increases the wear and tear on table cloths; and in the course of time which a hasheat spends on your College Hill, you can readily see it is equally hard on the tables, although, of course, not so noticeaby.

My stay on the Hill depends upon you hasheaters. I therefore, ask your hearty co-operation in adhering to all suggestions I may have to offer.

Frigidly yours,
Campus Ghost.

THE ALUMNI ASSOCIATION COMMITTEE IS GREATFUL

Work Done by Different Organizations Receives Hearty Praise of Officials in Charge

As the beneficiary of the American Legion's Armistice Day program, the the Alumni Association is most grateful for all the fine benefits that came financialy out of that day's activities.

Particular thanks are due to Mr. Harry N. Bird for his splendid work as director of the minstrel troop which presented the evening program in the new gymnasium. Moreover to every one of the more than thirty members of the minstrel company, for faithful preparation and cheerful service, we are most thankful.

Thanks are also due to all the workmen who made possible the completion and preparation of the Alumni Gym in time for the entertainment, who worked not for wages only but out of a manifest interest in rendering prompt and helpful service. Particularly notable in this regard is the efficient and prompt service of Mr. E. C. Brown and Mr. Clyde Wilson and their force of helpers who transferred the knock-down bleachers from the football field and installed them in the gymnasium in the amazingly short time of an hour and a half.

Another fine bit of service for which we are grateful was the co-operation of the Friendship Council of the Y. M. C. A. which took the form of the carrying of the five hundred and eighty chairs from Pearsons dining room to the gymnasium, practically every man on the Hill carrying his quota of three or four chairs. And particular thanks is certainly due Mr. Edward Hamilton, the head of the Friendship Council for his leadership in this matter, and to the men who worked late and faithfully in getting the chairs back to Pearsons.

We are grateful also to the girls who sold tickets on the Hill, to the merchants in town who sold tickets, to the students who acted as door-keepers and ushers at the entertainment, and to the stage helpers and decorators who helped with the staging of the program.

The committees of the Legion who advertised the days activities and the various committees and members of the Legion who had the various phases of the program in hand are deserving of heartiest thanks.

In the matter of the football game as well as in the night program we find the same good reasons for gratitude. Particular thanks goes to Professor and Miss Rough and their perfectly organized corps of faculty and student helpers who sold tickets and handled the crowd at what perhaps from every standpoint is a record-breaking occasion in the history of the College.

This sounds like a Thanksgiving address. It is. We have every reason to be thankful to everyone who helped make the day the great day it was, and in this feeble form of words we have sought to say so. The financial returns of the day are not yet fully determined, but it is no vain conjecture to say that they went beyond our fondest expectation. Of the exact facts there will be something definite to say next week.

DID YOU KNOW?

That the pre-Med. Club had been re-organized? The following officers were elected:

President, Bob Bishop.

V-President, Sam Franklin.

Secretary and Treasurer, Grace Brown.

Editor, Merle Marshall.

Now listen, with Bobbie at the wheel, we are assured of having the best, also the liveliest orgagnization on the hill. He has promised us a good program throughout the year. In these you will have the chance to hear lectures by well known and famous physicians.

Se we urge every student who is interested in Medicine, Nursing, etc., to become a member.

Watch for next Chapel announcement of meeting, and be there.

DEAR FOLKS:—We have decided to change our ad at last. We thank you for having patience with us, also for the nice patronage we are enjoying from you. We shall endeavor to give you the best in Drug Store Service, Quality and Price.

BOTH PHONES 22 BADGETT-COSTNER CO., Drugs **BOTH PHONES 22**

The Four Literary Societies

ATHENIANS

Athenian Society Holds Oratorical Contest for French Prize

Many of the new students will be interested to know that each year there is given by a former member of the Society a twenty dollar medal, to the member of the Society preparing and delivering the best oration.

This was the attraction at the Athenian's meeting Saturday night.

W. C. Murwin chose as his subject Christianity and Civilizaton.

David King, Man Power

Hunter Robinette, The Americanization of the Foreigner.

Darius (Shorty) Prince, Home.

Edward Cornelius, The Discovery of America.

Lucian Hamilton, Shall America Retreat.

Harold Aycock, Difficulties.

Those massive walls yet vibrate from the voices of these great orators.

Who won, you say. My! My! they all won. At least they won favor in our sight, but Cornelius won the judge's decision.

BAINONIAN

Members of Baincnian Society Give Armistice Day Prorgam

'Member that thrill you got on the first Armistice Day when the band played the Star Spangled Banner and the flag was carried by? That is just the kind of thrill we had at Bainonian last Saturday night—except that we had lots of them.

Alice Robison in her reading of two short poems brought to our minds very forcefully the glorious history of our nation and the sacrifice which has been made for her by her loyal citizens.

Speaking of thrills! That quartet singing "Home Again" must have made every heart beat a trifle faster with joy and pride in our own land.

By way of contrast we heard the story of life in Poland during the war, and caught a glimpse of the suffering in far-away lands where Freedom does not rule.

Then to calm our troubled spirits, Beatrice McGuire rendered most effectively a piano solo.

The meeting was not without a grain of humor, for all true Americans like to laugh. Mrs. Jarley (Harriet Green) consented to display her famous waxworks before "this great concussion," and we were privileged to look upon our national heroes, from Christopher Columbus to Mutt and Jeff, each of them ready to perform for our entertainment.

At the conclusion of the program there was a chance for everyone to display her patriotism by her lusty singing of America, and judging from the volume, Bainonian must have some true patriots.

THETA EPSILON

Program Calls Forth A Display Of Unusual Talent

Theta Epsilon Literary Society met in Theta Hall Saturday evening at 6:45. A motion was made and carried that we dispense with the business aprt of the meeting for lack of time.

A miscellaneous program was given which displayed unusual talent of both new and old girls.

Vocal Solo, Margaret Murray.

Reading, Ruth Barnette.

Piano Solo. Sarah Trulock.

Reading, Virginia Clark.

Violin Solo, Winifred Jarvis.

Reading of Theta Gazette, Helen Margaret Bowman.

The Theta Gazette is a new institution and will be read from time to time. Fashions, jokes, advertisements and short stories are special features of this paper. A special program is planned for Saturday night. Show your patriotism to society by coming to hear it.

ALPHA SIGMA

Alpha Sigma met Saturday night with an unusual large attendance. The program was short but interesting. Wick Broomall in his word topics told us just what was the matter with the world.

Murette DeLozier gave an extemporaneous speech on the value of Friends, followed by John Hall's reading "The Outcasts of Poker Flat".

The climax was capped by the Alpha Sigma quartet composed of McMurray, Eitner, Hurst, and Stewart, accompanied by Swartz.

Look at Bulletin Board this week as there is planned a special program for Saturday night. Learn what Alpha Sigma means.

Dr. Stevenson

(Continued from page one)

of history. The next war, then will be extreme.

In conclusion two conflicting thots were brought forth. The church has failed of its purpose thruout the Christian Era. Slavery was protected by the church sixty years ago in our own land. The other that was that this present time is the opportunity of the church.

However we venture to add a few remarks. As the man of Galilee said, "If the salt has lost its savor, wherewith shall it be salted? Also he said, There shall be wars and rumors of wars."

The church has proved itself impotent to remove war. Either it has failed in its mission or it has another mission. The latter is true. The man who said, "I pray not for the world," and also, "I am not of this world", came not to reform the world, but to transform the lives of men.

Y. M. C. A.

Y. M. C. A. Renders Musical Program Sunday Afternoon

One that does not have a deeper appreciation for music after the splendid program rendered at the Y. M. C. A. Sunday afternoon must not be much blessed with a great appreciation of the most soothing of God's provisions for man's happiness. Is there a more fitting way to praise God than through sweet music?

If you don't think the fellows can produce a good musical progarm you should hear them. We are grateful to Miss Martha Henry for her kind and generous help in the prorgam.

We are planning something unusual and exceedingly good for next Sunday afternoon. Come out and you will be well pleased.

Indian: "Me die some time. Go to Big gate and St. Peter ask if I been good Indian. I say yes, He say, 'Did you pay editor for paper?' I say yes. He say, 'Where is receipt?' I no have it. I run all over hell to find you and get receipt."

HOSPITAL NOTES

Dexter Graybeal, a wounded warrior of the gridiron, lies in the hospital slowly recovering from a broken ankle, sustained in practice last Monday. His injury is the first serious accident that has befallen any of the Maryville footballers this season. We are anxiously awaiting his recovery.

—M. C.—

Miss Pearl Lambertson is a guest of the hospital for a few days, trying to rid herself of a slight affection of the tonsils.

—M. C.—

James Hardin Smith, quarter-back of the Freshman Class team, is rapidly convalescing in the college hospital. Mr. Smith received a broken collar bone in the Freshman-Soph game last Monday, casting a pall of gloom over the little fray. We miss his sunny countenance on the campus and are longing for its reappearance.

Fighting Highlanders

(Continued from page one)

Osborn again dropped the ball between the posts. The ball was on the fifty yard line when the quarter ended.

In the early minutes of the last quarter Osborn dropped the ball over the bar from the thirty-four yard line, this score proving the last of the game. A hectic overhead attack was engaged in by both elevens throughout the remainder of the game, many of the forwards being either grounded or intercepted. Maryville had marched up the field a distance of fifty yards when the game ended, 17-0.

First Quarter

Hamilton punted behind King's goal line and ball was brought out 20 yards. After gaining four yards through line King punted to M. C's. 42-yard line from where it was carried to 50-yard line. A fumble by McMurray gave King the oval. After gaining four more yards through center ball was punted to 12-yard line of Maryville. It was carried out fifteen yards through center by McMurray and McCall, and after seven more yards were made the ball was punted to King's 38-yard line. McCall recovered fumble on 35-yard line, Riskey on first play taking it to 28-yard mark. A series of plays brought the ball to the two yard line but a penalty for off-sides and a fumble gave King ball on own 7-yard line. King lost ball on downs on 16-yard line, but after gaining 1 yard the oval was intercepted taken to King's 30-yard line. After a Tornado gain of three yards M. C. was penalized fifteen bringing the ball into practically neutral territory on the 48-yard line. A 10-yard run by Sharpe and a number of center and off-tackle thrusts found the ball on Maryville's 22-yard line as the quarter ended.

Second Quarter

The second quarter opened with a fifteen-yard penalty for King taking ball to the M. C. 37-yard line. Osborn circled Maryville's right-end for 20 yards, and after having a pass grounded, Sharpe caught forward pass and lunged across goal line. Osborn kicked goal. Score: King, 7: Maryville, 0. Hamilton returned the King kick-off 24 yards, and after 5 yards had been made by McMurray in two plays the oval was punted to the 37-yard line of Coach Adams team. A King fumble was recovered on M. C's. 43-yard line and after advancing eleven yards through the line on three plays McMurray tried a drop-kick but failed the ball going into action on King's 24-yard line in the visitors' possession. After gaining four yards in three downs King kicked out of danger to M. C's. 45-yard ilne, the local college team gaining six yards before punting to 22 yard line of the Tornado. The ball was returned through the air to Maryville's 38-yard line from where Partee, Sneed and Hurst carried the ball 18 yards on line plunges. A grounded forwarded caused the Highlanders to kick to King's 38-yard line. King worked a thirty yard pass, only to have a similar attempt intercepted by Partee on 18-yard line. After Sneed had gained 6 yards the ball was kicked to King's 40 yard line. End of half. Score: King, 7: Maryville, 0.

Third Quarter

Partee returned the kick-off from the 12 to 28-yard lines. Three efforts to buck the line was once successful, Hurst ripping through for seven yards. A long punt to King's 22-yard line was returned by Sharpe to the 36-yard line. King now made four first downs in a row as they marched down the field, and from the fifteen yard line Sharpe circled his own right-end for the second touchdown of the game. Osborn again kicked the goal. Maryville punted to 16-yard line and after King had carried ball two feet, Sneed received a blocked King punt on the Tornadoes 35-yard line. A first down for Maryville, Sneed and Hurst, was without avail as a fumbled forward was intercepted by King and then punted to M. C's 45-yard line. Four yards through center by Sneed was followed by a grounded pass and then a punt to King's 9-yard line. King punted to own 35-yard line. where M. C. lost ball on downs. As the quarter ended Sharpe passed a 30-yard forward to Allen.

Fourth Quarter

The ball was on M. C's. 47-yard line as the last quarter started. After Riskey and McCall gained 7 yards, King received ball on downs and carried the ball twice before Osborn placed the oval between the posts from the 34-yard line. Score: King, 17: Maryville, 0. McMurray returned the King kick-off 23 yards, after which "Shorty" Sneed and McCall made a first down. Hamilton kicked to forty-yard line of King who made a first down on center rushes and punted to M. C's. 22-yard line. Maryville gained 2 yards and then lost pigskin, King being on M. C's. 31-yard line. Oral instructions were heard by the referee at this time from the King coach and the Bristol team was penalized 34½ yards or one-half the distance of the field. A long King punt to M. C's. 10 yard line was returned 11 yards and after two grounded forwards the ball was punted to King's 43-yard line.

After a five yard gain and a five yard penalty, King punted to M. C's. 20-yard line McMurray receiving it and returning it to his own 45-yard line. Five yards around right end by Sneed and a twenty-yard forward pass which was accepted by Shores were run off and the long looked for game was over. Score: King, 17; Maryville, 0.

SOPH WALK A MILE FOR A MILE OF FUN

High heeled pumps and evening clothes are not especially adapted to hiking; but after a refreshing walk of about a mile to the Polytechnic School the Sophomores were several times repaid for their efforts.

We were met in the hall by pumpkin faces which suggested what might follow ustairs. Sure enough, the decoration committee had carried out the Hallowe'en spirit to perfection. The corners of the assembly room were hidden with shocks of corn; weird looking pumpkin faces peeked at us from various nooks and corners and the green draperies were poky dotted with yellow faces.

Aside from being met by pumpkin faces, we were also received by a real host and hostess, Mr. R. Anderson and Miss M. Henry.

In order to get every one acquainted the entertainment committee first introduced a hand shaking game. Prizes were concealed in the hands of each of ten people. Every one went around shaking hands; the tenth person who shook hands with a person who had a prize, received the prize. After this, dates were made. The girls had an opportunity long denied them, for each girl made ten dates with ten different young men.

The game of entering a college was received with much enthusiasm. There were three different colleges and after all of the students were finally admitted the different colleges each put on a charade.

Refreshments proved the best game of all. There were nuts, olives crackers, chicken salad, ice cream and cake, and oh! that hot chocolate with whipped cream floating gracefully on top.

Our chaperones were the best ever and we certainly wish to express our appreciation to Professor Knapp, Miss Sutton and Miss Rough.

Of course a hasty retreat for various dormitories wound up this perfect evening.

Y. M. C. A. NOTES

Dr. Wilson Addresses the Friendship Council

The Friendship Council had the pleasure of having Dr. Wilson address it at a supper given at the Home Economics dining room Wednesday evening. Dr. Wilson swelled our pride for old Maryville by telling us of the greater college. He commended the work planned by the the council and showed the possibilities of the work to be done by the council.

Hamilton outlined the general work of the Council. Martin announced and outlined the prayer week prrgram beginning next week.

Fellows are you getting any benefit from the Friendship Council? Do you feel that it is doing its duty? Tell your captain, then do your part and things will perhaps do better. Let's all have a common interest toward the great work to be in accomplishment of world evangelization

VOLUME NINE | MARYVILLE, TENNESSEE, WEDNESDAY NOV. 21, 1923 | NUMBER TEN

Maryville Squad Loses to Tigers 20 to 0

Tigers Get Jump on Highlanders In First Half; No Score 2nd Half

Maryville Seemingly Off Form Puts Up Losing Fight During First Half.

COACH HONAKER AND CREW JOURNEYED DOWN TO SEWANEE LAST SATURDAY TO MEET THE SEWANEE TIGERS AT THE MOUTH OF ITS DEN, ON TOP OF THE MOUNTAIN.

THE SNOW THE NIGHT BEFORE CHILLED THE MOUNTAIN AIR TO A LOWER TEMPERATURE THAN THE HIGHLANDERS FROM MARYVILLE WERE ACCUSTOMED TO, FOR SEWANEE GOT THE JUMP ON MARYVILLE, IN THE FIRST OF THE GAME AND HELD IT.

Sewanee won the toss and elected to defend the goal that would give them the advantage of the strong breeze that was sweeping across the top of the mountain.

Hamilton got off a bad kick-off which was carried back to Maryville's 40-yard line by one of the Sewanee backs behind excellent interference. This appeared to stun the Highlanders and Sewanee scored a touchdown in less than five minutes of play. A drop kick added another point.

Sewanee's second touchdown came in the first of the second quarter. Sewanee had worked the ball down to the Highlander's thirty yard line from where Sanders, on a fake play made a beautiful run for a touchdown. Their attempt for an extra point was blocked by Captain Thrower.

After that Sewanee found the Maryville defense stronger. Once the reached Maryville's one-yard line but Maryville's line stiffened and Sewanee lost the ball on downs.

Near the close of the second quarter Sewanee made their third and last touchdown of the game. Taking the ball on their own forty yard line they started a march down the field, with smashing line plays which didn't end until they had crossed the goal line. The try for extra point was good. The half ended with Sewanee 20, Maryville, 0.

The second half was quite a different story from the first. The first half had just warmed the Highlanders up well enough to play, and they plunged into the game with so much fight that it baffled the Tigers. Numerous times they held Sewanee for downs and forced them to punt. Maryville was able to make gains thru the line: Sewanee found that Maryville's line could not be penetrated very easily, on end runs they were thrown for loss and the back field was knocking down and intercepting some of their passes. Once Cartwright tore thru their line and blocked a punt.

Sewanee threatened the Maryville goal only twice in the second half. Once their bones were lost when "Shorty" Sneed intercepted a pass, and again they fumbled and Captain Bob recovered.

Maryville made two attempts at field goals, one a placement kick, the other a drop kick, both went wild.

The second half ended with neither team scoring during that half.

Maryville put up a good game after the hard game with King only five days before. The work of Captain Thrower at tackle was some of his best work this season. He broke up every play in his reach and opened holes for the Maryville backs. Cartwright playing guard was another outstanding player on Maryville's team. He broke thru their line and thew them for losses, blocked one of their punts and was good at getting down on punts.

Hamilton aside from his work at tackle easily out punted his opponent.

Hurst at full back backed up the line in great style.

Senior Class Gives Party

Open Party Proves to be Gay Affair With Many Visitors—Well Planned Program and Splendid Rrefreshments

"Do you have a date yet?" "I don't have the nerve to ask anyone to that party." "I'd rather take a test in Theism than ask a boy for a date." "Say, which one of the girls are you going to invite?" "Oh! I know we are going to have a good time."

These and similar expressions, heard among the Seniors last week, led the lower classmen to inquire what was the cause of such joy to some, and at the same time untold misery to others (the misery of course being due to the attempt to get a date).

The situation was soon explained by the fact that the Seniors were to have a party on November 14th, and each one was to invite a friend to share the hospitality of the Senior class. It became a more attractive prospect when the names of the host and hostess were discussed for they were none other than our beloved Dr. and Mrs. Wilson.

Our chaperones, Dr. and Mrs. Barnes, were good sports, and entered heartily into the merriment of the evening. Dean had the unusual pleasure of seeing himself as others see him. Should Dr. Gillingham at any time wish to retire, the Senior class can furnish a fit successor—the dignified Mr. Wathen. After considering Roy Black's impersonation of Mr. McCurry, we feel that he has had considerable experience with the proctor at some time during his college career.

An auction of the young men by Dean Barnes was one of the most interesting features of the evening's entertainment. In this way the young men had an ample opportunity to find out how much their feminine companions thought they were worth. It is yet a question for serious speculation why Florence did not buy John. It has been hinted that she did not consider twenty five peanuts a fair estimate of his

Prospects for a Real Football Game Thanksgiving Are Good

Available Dope Will Probably Give The Cumberland Team The Edge on The Fighting Highlanders

RECENT GRIDIRON ACTIVITIES OF THE LITTLE MID-STATE UNIVERSITY HAVE CAUSED MARYVILLE BACKERS TO PRICK UP THEIR EARS, AND CHANGE THEIR IDEAS ABOUT OUR FOOTBALL SCHEDULE BEING OVER. THE TALK NOW IS THAT BLOUNT COUNTY FOOTBALL FANS WILL HAVE AN OPPORTUNITY OF SEEING ANOTHER REALLY GOOD GAME THIS SEASON, ONE THAT WILL NO DOUBT BE PLACED AMONG THE VERY BEST OF THIS SEASON'S CONTEST ON COLLEGE HILL.

Last Saturday's results prove conclusively that Coach Honaker's machine will have no easy skidding when they march on the field Thanksgiving day against the Cumberland aggregation. The schedule, for the Highlanders, this week consist of only three light work-outs. Friday they will meet the East Tennessee State Normal crowd, which they will duly handle without much trouble. The next week will be taken in all seriousness and stiff workouts will be the order of the day until each man is rounded into splendid condition for the holiday fracas, which is expected to be one of Maryville's hardest fights.

Literary Societies Have Had Few Interruptions Thruout Fall

Attendance at Men's Societies Has Been Record Breaking; Athenians Feel Need of Larger Hall

THETA EPSILON

An Interesting Program Given by Some New Theta Girls.

Well, it not only sounds so, but it surely was interesting Saturday night.

Mary Robinson called the meeting to order and the Lord's Prayer was repeated in concert. After the business the program was given.

The first number on the program was a piano solo by Bess McMillian. Wasn't it beautifully rendered? Did you ever hear Mozelle Welsh read? Yes, we knew she could read but we didn't know she could do it so perfectly. I know you have heard Margaret Murray sing. Every time she sings we think it's the best solo she has ever sung.

That was a wonderful solo Elizabeth Burke played. And the members of the society were again favored by a duet of the McMillian sisters. If you have not heard them, you've missed something. You old Thetas remember when Winifred Jarvis was visiting here last year. We didn't think then that she might be playing for us, did we? We do enjoy them, Winifred.

The meeting adjourned with the Theta motto.

ATHENIAN

Athenians Have Snappy Program of High-Class Humor, Msuic and Literary Selections

The attendance is still good at the regular Athenian meetings. Saturday night there was a good crowd out to hear the short snappy program.

Hunter Robinette started the program by giving two good humorous well selected readings. No need to say that his readings were enjoyed when we say that he was cheered back. Everybody seemed to be in a mood to enjoy such readings as "Solefull Sam."

The first edition of "The Athenian" for sometime was read by Shorty Cragan. Well did he carry out his usual line of wit. He discussed national topics of interest as well as local. He also gave notices of local interest. For instance that Dave King would start his class in "How to Moonshine," Monday afternoon.

Robert Broady made his second

(Continued on page four)

Play Given By Dramatic Club Is Great Success

ADAM AND EVA PROVES TO BE TRUE TO LIFE AND HIGHLY ENTERTAINING

One of the most successful and highly entertaining plays ever seen on College Hill was given Monday night by the Expression Department.

The play was directed by Miss Holland and did great credit to the entire department and to the college. All parts were well taken and the characters maintained throughout, a thing seldom done by ametures. Due to misunderstandings the play was advertised but very little, however, practically the entire student body and several town people were present and all seemingly enjoyed the entire performance.

Between the first and second acts the Girls Glee Club, a new organization on the Hill, sang two selections. Miss Crawford, as director and the girls are to be congratulated.

UNREST

Among the several college papers which come to our desk there seems to be, in a majority of them, one outstanding characteristic. That is a note of student unrest, dissatisfaction, and a deep rooted, desire for change. Studying the situation drop by drop, as they have slipped between the lanky fingers of more or less rigid censors, we are inclined not to be alarmed. Naturally, with unrest holding sway throughout the world, a litle is bound to slip into student life, but in a community such as that of the average American College, or University, where Dad pays the bills, the faculty does the thinking (if there be any) and the sole motive for student activity, either mental or physical, is that of immediate pleasure or self advancement, usually socially, there is not likely to be very much Bolshevism.

However, the facts, in part, are: Groups are being formed to mold and express student opinion; mediums are being established where by these opinions are being broadcast; graduates are refusing diplomas because of what they term irregularities in administration; alumni organizations are being formed to oust autocratic administrators.

What is it all about? As one student editor puts it; "Commencement orators try their best to answer with various combinations of the old words faith, hope, love; but we cannot experience these words any more. Faith in What? Hope for What? Love how? In an age of dog-eat-dog, Beauty for us has gone sickly sweet; neither 'progmatists' nor 'absolutists' can give us an idea of 'Truth.' ',

Is there really something lacking? Is the fault with the students, the faculty, the trustees, or someone else? As for the students, there are those that would change every course in curriculum; make an exception to every rule; or write in special provisions to suit their own convenience. Obviously they are the typical ego and are usually handled as such. There are others who sit with open eyes drinking in everything gathered by the professor as he went thru the same machine twenty or thirty years before. If this group, which contains about 99% were not too lazy, or meekly sick, to think, would things be different? Is the present unrest caused by a flicker of light among the otherwise dead? If this be the case, then let there be flames of light, only tempered by that spirit which leads change because change is needed, and which brings them about by reason and good will and not by quarrel, radicalism, humilliation, and suffering.

But we, trained to utilize that intellectual "un-alertness," which business men so universially expect of us, can merely lay the whole matter aside, heave a sigh of relief, and continue the process of being filled like the vacuums we are. But the day is here when the more docile of us throw up our hands in horror at he criticism heaped on our college, our faculty, and our student body, by alumni and patrons. We can't change their way of thinking now, but all too soon we are to be the alumni and patrons. What is our attitude going to be then? Will we think then as now? Will our confidential conversation about our Alma Mater cause doubt, suspicion, and unrest; or conviction, confidence and progress?

Let us THINK it over.

A PESSIMISTIC ISSUE

Undoubtedly everyone is a pessimist at times and in order to give legal vent to this our strongest feeling we are going to publish in the near future a purely pessimistic issue. Probably a prize will be offered for the most pessimistic article. Here is your chance to get even—write it.

You must have DRUGS, so why not use the BEST. Just remember they cost less at

CAMPUS GHOST REVISITS THE UNBURRIED DEAD OF COLLEGE HILL

I, Ifucamusme Uvgho (s). Tugsum Commenly Known as the Campus Ghost, Come Again to Haunt the Hasheaters of Pearsen's Hall

Some hasheaters may not think the Campus Ghost of any importance. Yea, they disregard his suggestions and are disdain to mend their ways. Happily, a few have awakened to their heathen manners, and are re-adopting those teachings received in the homes of their childhood.

I, the Campus Ghost, wonder if those who cling to their uncouth ways ever received better training? How indignant they would become should someone dare to make suen a suggestion! But, my dear Hash-eaters, how else is one to judge your up-bringing when you demonstrate your manners (nay, your lack of manners) so brazenly?

With what greediness and haste you devour the loblollygast! How impossible it seems for some hasn-eaters to restrain their appetites until the other hasheaters at their end of the table are ready to eat! You care a good deal more for the food than for the society at the table. And you show it. Hasn't the greedy one near the end of the table enough chivalry to put some goolash in the waitress' plate while she is pouring his coffee?

A few of Pearson's hasheaters even drink out of their saucers! College students? Why, they must be lumber-jacks!

Some of the hasheaters apparently are planning to be masons, for three times a day they practice for skill in spreading mortar. Haven't you noticed them seize a slab of bread and smear the entire surface with butter?

I warn you hasheaters that I shall continually haunt you until you so mend your ways that you shall be an honor instead of a discredit to Maryville.

The Campus Ghost.

TOO BUSY

The law of chance has certainly been up set at Maryville, because we have with us an over porportion of easy-going, lethargic, young men. Lads, tho more or less ambitious, who fail absolutely to get results. We find them in every class, every organization, in fact the campus is strewn with such carcases.

Hewers of wood and drawers of water, well they are not even good for that. Such men make college activities, in reality, college inactivities.

What are the reasons? The one almost invariably given, however incorrect, is, I am too busy. Nothing which one can do will be more interesting or instructive, for the time required, than just to follow up some of these too-busy exercises. Nine times out of ten it ill be found that the biggest job the young (not) busy man has is telling others just how busy he is. Really the one task which takes most of his time, energy, worry, and work is saying, I can't because I'm too busy. Now if you have the courage and don't mind being cruel to animals ask bluntly: Too busy doing what? Stammering from the impolite, but sudden exposure, it will be interesting to see where he hits. No doubt the hardest lesson after we leave college and begin trying to make a living will be to learn that those who have plenty of time never do anything and that busy people do everything. Would it be better to learn this in college? See how many of your friends are like this then apply it to yourself.

Birmingham-Southern College is organizing Student Government in each of the boys dormitories. Such organizations are to look after the boys while in the halls and it is believed that this will greatly improve dormitory live there.

Debate Season Comes Soon

Preliminary Arrangements of 1923-'24 Seasen Already Made.

The debate schedule for this year promises to be a good one. A great deal of enthusiasm is being displayed by veteran and new men. Tentative plans for the schedule provide for triangular debates with Milligan and Carson-Newman, and with King and Tusculum, and for a team to attend the National Convention of Pi Kappa Delta at Peoria, Ill. This team will debate several colleges on the way to and from the convention. In addition to the regular schedule, and along a new line of Forensic work the Freshman class will have a dual debate with the Freshmen of the University of Tennnessee. This promises to be one of the most interesting Forensic events of the year.

The subject for the Freshman Debate is the question of United States Recognition of the Russian Soviet Government. The question for the other men's debates is the entry of the United States in the League of Nations. Both questions are of prime importance among the questions facing the public today. They will furnish material for lively contests when Maryville debate teams meet their opponents.

The preliminary try-out for places on the regular team comes December 17. The men trying for places are listed below as they will debate: Broady-Anderson, Grunder-Johnson, Hortin-Karrick, Baldwin-Hamilton, Swartz-Stewart, Eitner-Black. Franklin-Prince, Haworth - Stockton, Queener-A. Kinselr, Milling-Robinette, Campbell-Troutman, Corry-Van Orden, F. Kinsler-Hardin, King-Graybeal, Huffman.

DESROH GETS ANSWER

Dear Desroh:

Your complaint of last week was carefully read, and I'll try my best to tell you why you can't get a date with just any of us girls. In the first place, you must think you're quite a shiek to want to be able to go with any one you happen to choose. That is a minor matter, however, the trouble with you, and all other men, is that you never want to go with a girl till some other fellow has picked her out. Then you fill the air with your wails because you can't get a date with her. You think it an injustice and a crime because the ten or fifteen girls who moonshine steadily, won't succumb to your charms. Before you weary the public with yur complaints, why don't you try some of the five hundred girls that would be glad to have a date?

Coutra.

The young people of the United States and Mexico, under the leadership of Mr. W. I. Kelsey, Michigan State Student Secretary, Y. M. C. A., propose to co-operate in the erection of a monument to two of their national heroes.

The proposed monument is to represent Lincoln and Juarez clasping hands across the border and will bear the following inscriptioin in English and Spanish.

"America has produced two heroes, Lincoln and thee: Lincoln by whom slavery died and thee by whom Liberty lives."

DESROH GOES TO PARTY

Dear Mr. Editor:

I feel hurt. Here I confide in you all my higher spiritual experience and then some great, big brute stalks around the campus and says things: that it is ridiculous to print such stuff in a college paper. Indeed, when I hear that mellifluous and effulgent tongue wag such verbose indictment I almost feel upset, perturbed. As Prof. Orr would say, such a one must be shot thru with a high religious tone. The cold, grey that comes to me that maybe I am frivolous. But, even tho he reads that same stuff, and just because I have two columns, doesn't say its poor, does it, Editor?

However, that's that. Now listen. I went to the Senior party and now my mind reels in a dizzy whirlpool with three words on one another's heels in a spiral tumult. Punch, pretty girls, and prunes.

The punch was delicious; but true to custom they kept the worse till last. Once I noticed the bowl empty while a large can of rich dishwater stood undisturbed. Then I noticed the bowl refilled and the can empty. I would have my own suspicions but only all those football players and men said that when they went back to the refilled bowl it was good stuff. Maybe they had well drunk before they took the dilute water.

Then I fell in love at the party. It was a pretty girl. Encased in one of these will-power evening dresses the young lady was a vision of loveliness. Directing the social activities like a Muse, and pervading the room like a perfume, she compelled our adoration. We fell as hard as when Lucifer for seven successive nights and days plunged thru ethereal wastes. I told her my infatuation but she said in sweet musical syllabes, the sounds of which still linger in my ears like a new love song, "You all hossin me."

Then the prunes came as a surprise, an extra refreshment proffered on the way home. We are deeply grateful to the Club's efforts to place these bits of delicacies in convenient boxes for our consumption in the mid-night departure.

Now, I hope that supercilious commentator aforesaid hasn't had the weakness to read this ridiculous stuff in a college paper this week.

Yours,

Desroh.

FRESHMAN RESOLUTIONS

Whereas: God in His infinite wisdom and mercy has called unto himself the mother of Edythe Dickey Our beloved class mate. We the members of the Freshmen Class extend to her our heart-felt sympathy in this time of bereavement. May we humbly pray that God will comford her, and mitigate the sorrow sustained in the loss of one so dear.

Be it resolved, therefore, that a copy of these resolutions be read in Chapel, a copy printed in the Highland Echo, and a copy be sent to the bereaved family.

Murette DeLozier,
Sam B. Coward,
Esther McSpadden,

Senior Class Gives Party

(Continued from page one)

worth. If anyone can explain how Sarah knew whom she was bidding on, it will satisfy the curiosity of other young ladies who had the same purpose in mind. Although Shorty Sneed sold for only one peanut and a peanut hull we feel that he has been worth more than that to the football team alone.

Then came the refreshments as a climax to the evening's enjoyment, and they were such as will not soon be forgotten. Among other things the Seniors have some excellent cooks.

Soon after eleven o'clock many couples reluctantly made their way back to the dormitories, where the feminine members of the crowd were heartily welcomed by the matrons.

PERSONALS

Helen Margaret Bowman was pleasantly surprised last week by a visit from her father and mother. Mrs. Bowman stayed several days. She has recently returned to her home in Louisville, Ky.

MISS HENSEN HOSTESS

Honors Tailoring Class and a Number of Outside Friends.

Saturday evening Miss Hensen gave a dinner party in the Home Economics dining room. Among the thirty guests present were Miss Ellen McCulloch and Miss Helen Chousison of Alabama.

As we entered the dining room our eyes fell on a long table covered with snow white linen. At each end of the table was a bouquet of huge chrysanthemums, yellow and white. From one vace to the other, there crept a continuous vine of green ivy. The border was very effective. For each individual there was an appetizing plate of chicken salad. and a dish of fruit cocktail. We found our places by means of hand-painted place cards, no two which were alike.

The first course was fully as good as it looked. It was followed by a lovely serving of creamed potatoes, Swiss steak, ink apples, hot rolls and butter. The last course was of mapple nut ice cream, cake, and delicious hot coffee.

Each course was accompanied by a free conversation, and eating for once was not carried on as if compelled by tremendous whirlwind.

After dinner we sang some familiar old songs, then Miss Robinson and Miss Eldridge gave humorous readings. In conclusion we gave cheers for Miss Hensen and the other H. E. teachers; and bidding the hostess goodnight we retreated to our respective dormitories.

The results of a recent quiz of the co-eds at Transylvania College as to the qualifications of their ideal man are interesting. Dark, handsome men won out over blonds, the latter receiving only two votes. The blonds voted upon had added the stipulation that they must not be "faded out blonds." Tall men were preferred to short or to those of medium heighth. A majority required that he be of a cleancut, athletic type, and must play either football or baseball.

WILLIAM KONRAD ROENTGEN
1845-1923
Born in Lennep, Prussia. Educated at Zurich. Awarded the Rumford Medal of the Royal Society in 1896 jointly with Philip Lenard for discovery of X-rays. Won the Nobel Prize in physics in 1901.

"I did not think—
I investigated"

One day in 1895, Roentgen noticed that a cardboard coated with fluorescent material glowed while a nearby Pluecker tube was in action. "What did you think?" an English scientist asked him. "I did not think; I investigated," was the reply.

Roentgen covered the tube with black paper. Still the cardboard glowed. He took photographs through a pine door and discovered on them a white band corresponding to the lead beading on the door. His investigation led to the discovery of X-rays.

Roentgen's rays have proved an inestimable boon to humanity. In the hands of doctor and surgeon they are saving life and reducing suffering. In the hands of the scientist they are yielding new knowledge—even of the arrangement and structure of atoms. The Research Laboratories of the General Electric Company have contributed greatly to these ends by developing more powerful and efficacious X-ray tubes.

The General Electric Company manufactures everything electric—from fans to powerful locomotives, from tiny lamps to mighty power plants. Its products are used around the world.

Y. M. C. A. NOTES.

Mr. B. L. Glascock Addressed Y. M. C. A. On "Opportunities for Service in Business."

Mr. B. L. Glascock of Maryville addressed the Y. M. C. A. with a very attractive speech on "Opportunities for Service in Business,' stressing very strongly the need of self-control for the successful pursuit of any business.

"The call of the business world is no greater than any other calling and in self-control are contained all the principles that constitute success in any calling," he said.

"Control your words that they shall be to the benefit and not the hurt of those about you," he said. "Do not say many good things then destroy all the good done by criticism."

The men that really do the big things are the men that are really great, Mr. Glascock proved.

The many good things said by Mr. Glascock are to many to mention. You should have heard him.

FRESHMEN RULES

Michigan State Normal College adopts the following Freshmen rules:

"Rule No. 1—Men of the Freshmen Class must wear at all times except on Sunday and outside Ypsilant; the official Freshmen pots.

"Rule No. 2—Freshmen girls must wear green ribbons on Wednesdays.

"Rule No. 3—Men must remove their pots at the command 'HATS,' when it is commanded by an upper classman.

"Rule No. 4—When meeting faculty members and Seniors, Freshmen must remove pots without command.

"Rule No. 6—Freshmen must allow upper classmen and Sophomores precedence through doors and on cross walks.

"Rule No. 7—Freshmen must learn the Normal Field Song at once and always sing it standing and uncovered.

"Rule No. 8—Freshmen must not smoke on the Campus.

"Rule No. 9—Never wear a High School insignia while on the College Campus, or in Ypsilanti. This applies also to other College insignias.""

The "Kullegiate kut for a kollege kid," is the brand of haircuit worn by twenty-nine students of Hampden-Sidney. This kind of haircut is to present the cranium absolutely devoid of any capillary vegetation, or in other words, clip the entire head.

—M. C.—

Freshmen at the University of Kentucky started doing things for the school early in their career. They have set a quota of $40,000 to be raised during their four years at the University, which will be used to finance the erection of a new basketball building.

NOVEMBER

There is autumn in the sunshine
as it filters through the trees;
There's a little tang o' winter in
the cool November breeze;
Ther's a little touch of sadness in
the call of old Bob White,
Hiding in the hazel thicket, ere
he takes his drumming flight.

Old-time longings seem to waken,
and my truant memory strays
To the fleeting span o' boyhood,
and its glory-laden days;
Oh, it's many a vivid picture falling on life's changing screen,
With a smile to hide a heartache,
and the lone days long between.

Loud the old dead days are calling, but alas, they call in vain,
Though we'd trade all earthly wisdom for the wine of youth again;
But though the path of life is winding, it will never turn,
And youth's gates will never open tho our hearts may ever yearn.

O'er the hills the crimson summer lifts its glory to the skies,
And the wondering herds come homeward as the lingering day dies;
World-old memories seem taunt me and anew my tired heart
For the touch of love's kind fingers and a fire that brightly burns.

—Contributed.

Y. W. NOTES

Miss Grace Lumpkin Speaks on the "World Student Christian Federation"

Miss Grace Lumpkin's address on "The World Student Christian Federation," was both inspiring and instructive. Miss Lumpkin has made and is making a careful study of student conditions in our own country and in the rest of the world, and her knowledge of such conditions is real and not superficial.

The World Student Christian Federation is international, interracial, and inter-confessional. Its motto is "Under Heaven, One Family," and its aim is to bring about a world in which national jealousy, race prejudice, and religious intolerance shall be unkonwn, a world in which all men shall be free, because they shall know the Truth which is in Christ Jesus.

The members of the Y. M. and Y. W. C. A. are a part of the Federation, and these organization constitute the only recognized "Youth Movement" in the United States. With so much to be done, let us be seekers after the truth, and not settle down in satisfaction with those who feel that they have "arrived."

The Y. W. C. A. will present a World Fellowship pageant, "In the Light," at the Vesper hour on Nov. 25th.

Literary Societies

(Continued from page one)

appearance before the society this year as a cornet soloist. We always enjoy his selections.

It was our pleasure to listen to Mr. Geo. Neff tell about the merits of our President, Mr. Coolidge. He had a good subject and he handled it well. We were all interested to hear some one else's opinion on Mr. Coolidge.

As the closing number the society joined in singing "Orange and Garnett."

"LOOK!" What we have in store for us next Saturday night, a joint program. Make a date early, fellows, and avoid the rush.

BAINONIAN

Bainonians Expound on the Value of Mondays to a College Like Maryville.

An impromptu program was rendered by members of Bainonian Saturday night, beginning with every one singing "Bainonian."

The art of jigging seemed to be quite popular. Anyway, Felice Morgan was called back to repeat her exhibition. Then Lucile Fondren read "On the Judgment Day." We're going to warn all the boys we know to be awful good so they won't get a lickin' on the Judgment Day.

To arouse enthusiasm, we sang some old favorite songs, such as: "Carry Me Back to Old Virginia," and "Let the Rest of the World Go By."

Mable Higginbotham told us what Monday means to Maryville. In the afternoon, if the girls do not have anything more important to do, they moonshine. As fr the boys, in the morning they have their suits pressed: after dinner they press their suit.

Then to turn our thoughts to more serious matters, Julia Lowry rendered a very pleasing piano solo.

The needs of Bainonian were well considered by Elizabeth Keown. A littlem ore competition within the society might add interest.

America Moore played a violin solo very effectively. Barbara's talk on "Pep" was short and to the point. The yells in which she led us gave us some needed "pep" for the next game. Then to prove our school spirit, the meeting ended by singing "Alma Mater."

TWO MORE GAMES LET'S WIN!

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME NINE | MARYVILLE, TENNESSEE, WEDNESDAY NOV. 21, 1923 | NUMBER TEN

Maryville Squad Loses to Tigers 20 to 0

Tigers Get Jump on Highlanders In First Half; No Score 2nd Half

Maryville Seemingly Off Form Puts Up Losing Fight During First Half.

COACH HONAKER AND CREW JOURNEYED DOWN TO SEWANEE LAST SATURDAY TO MEET THE SEWANEE TIGERS AT THE MOUTH OF ITS DEN, ON TOP OF THE MOUNTAIN.

THE SNOW THE NIGHT BEFORE CHILLED THE MOUNTAIN AIR TO A LOWER TEMPERATURE THAN THE HIGHLANDERS FROM MARYVILLE WERE ACCUSTOMED TO, FOR SEWANEE GOT THE JUMP ON MARYVILLE, IN THE FIRST OF THE GAME AND HELD IT.

Sewanee won the toss and elected to defend the goal that would give them the advantage of the strong breeze that was sweeping across the top of the mountain.

Hamilton got off a bad kick-off which was carried back to Maryville's 40-yard line by one of the Sewanee backs behind excellent interference. This appeared to stun the Highlanders and Sewanee scored a touchdown in less than five minutes of play. A drop kick added another point.

Sewanee's second touchdown came in the first of the second quarter. Sewanee had worked the ball down to the Highlander's thirty yard line from where Sanders, on a fake play made a beautiful run for a touchdown. Their attempt for an extra point was blocked by Captain Thrower.

After that Sewanee found the Maryville defense stronger. Once the reached Maryville's one-yard line but Maryville's line stiffened and Sewanee lost the ball on downs.

Near the close of the second quarter Sewanee made their third and last touchdown of the game. Taking the ball on their own forty yard line they started a march down the field, with smashing line plays which didn't end until they had crossed the goal line. The try for extra point was good. The half ended with Sewanee 20, Maryville, 0.

The second half was quite a different story from the first. The first half had just warmed the Highlanders up well enough to play, and they plunged into the game with so much fight that it baffled the Tigers. Numerous times they held Sewanee for downs and forced them to punt. Maryville was able to make gains thru the line: Sewanee found that Maryville's line could not be penetrated very easily, on end runs they were thrown for loss and the back field was knocking down and intercepting some of their passes. Once Cartwright tore thru their line and blocked a punt.

Sewance threatened the Maryville goal only twice in the second half. Once their hopes were lost when "Shorty" Sneed intercepted a pass, and again they fumbled and Captain Bob recovered.

Maryville made two attempts at field goals, one a placement kick, the other a drop kick, both went wild.

The second half ended with neither team scoring during that half.

Maryville put up a good game after the hard game with King only five days before. The work of Captain Thrower at tackle was some of his best work this season. He broke up every play in his reach and opened holes for the Maryville backs. Cartwright playing guard was another outstanding player on Maryville's team. He broke thru their line and thew them for losses, blocked one of their punts and was good at getting down on punts.

Hamilton aside from his work at tackle easily out punted his opponent.

Hurst at full back backed up the line in great style.

Senior Class Gives Party

Open Party Proves to be Gay Affair With Many Visitors—Well Planned Program and Splendid Rrefreshments

"Do you have a date yet?" "I don't have the nerve to ask anyone to that party." "I'd rather take a test in Theism than ask a boy for a date." "Say, which one of the girls are you going to invite?" "Oh! I know we are going to have a good time."

These and similar expressions, heard among the Seniors last week, led the lower classmen to inquire what was the cause of such joy to some, and at the same time untold misery to others (the misery of course being due to the attempt to get a date).

The situation was soon explained by the fact that the Seniors were to have a party on November 14th, and each one was to invite a friend to share the hospitality of the Senior class. It became a very attractive prospect when the names of the host and hostess were discussed for they were none other than our beloved Dr. and Mrs. Wilson.

Our chaperones, Dr. and Mrs. Barnes, were good sports, and entered heartily into the merriment of the evening. Dean had the unusual pleasure of seeing himself as others see him. Should Dr. Gillingham at any time wish to retire, the Senior class can furnish a fit successor—the dignified Mr. Wathen. After considering Roy Black's impersonation of Mr. McCurry, we feel that he has had considerable experience with the proctor at some time during his college career.

An auction of the young men by Dean Barnes was one of the most interesting features of the evening's entertainment. In this way the young men had an ample opportunity to find out how much their feminine companions thought they were worth. It is yet a question for serious speculation why Florence did not buy John. It has been hinted that she did not consider twenty five peanuts a fair estimate of his

Prospects for a Real Football Game Thanksgiving Are Good

Available Dope Will Probably Give The Cumberland Team The Edge on The Fighting Highlanders

RECENT GRIDIRON ACTIVITIES OF THE LITTLE MID-STATE UNIVERSITY HAVE CAUSED MARYVILLE BACKERS TO PRICK UP THEIR EARS, AND CHANGE THEIR IDEAS ABOUT OUR FOOTBALL SCHEDULE BEING OVER. THE TALK NOW IS THAT BLOUNT COUNTY FOOTBALL FANS WILL HAVE AN OPPORTUNITY OF SEEING ANOTHER REALLY GOOD GAME THIS SEASON, ONE THAT WILL NO DOUBT BE PLACED AMONG THE VERY BEST OF THIS SEASON'S CONTEST ON COLLEGE HILL.

Last Saturday's results prove conclusively that Coach Honaker's machine will have no easy skidding when they march on the field Thanksgiving day against the Cumberland aggregation. The schedule, for the Highlanders, this week consist of only three light work-outs. Friday they will meet the East Tennessee State Normal crowd, which they will duly handle without much trouble. The next week will be taken in all seriousness and stiff workouts will be the order of the day until each man is rounded into splendid condition for the holiday fracas, which is expected to be one of Maryville's hardest fights.

Literary Societies Have Had Few Interruptions Thruout Fall

Attendance at Men's Societies Has Been Record Breaking; Athenians Feel Need of Larger Hall

THETA EPSILON

An Interesting Program Given by Some New Theta Girls.

Well, it not only sounds so, but it surely was interesting Saturday night.

Mary Robinson called the meeting to order and the Lord's Prayer was repeated in concert. After the business the program was given.

The first number on the program was a piano solo by Bess McMillian. Wasn't it beautifully rendered? Did you ever hear Mozelle Welsh read? Yes, we knew she could read but we didn't know she could do it so perfectly. I know you have heard Margaret Murray sing. Every time she sings we think it's the best solo she has ever sung.

That was a wonderful solo Elizabeth Burke played. And the members of the society were again favored by a duet of the McMillian sisters. If you have not heard them, you've missed something. You old Thetas remember when Winifred Jarvis was visiting here last year. We didn't think then that she might be playing for us, did we? We do enjoy them, Minifred.

The meeting adjourned with the Theta motto.

ATHENIAN

Athenians Have Snappy Program of High-Class Humor, Msuic and Literary Selections

The attendance is still good at the regular Athenian meetings. Saturday night there was a good crowd out to hear the short snappy program.

Hunter Robinette started the program by giving two good humorous well selected readings. No need to say that his readings were enjoyed when we say that he was cheered back. Everybody seemed to be in a mood to enjoy such readings as "Solefull Sam."

The first edition of "The Athenian" for sometime was read by Shorty Cragan. Well did he carry out his usual line of wit. He discussed national topics of interest as well as local. He also gave notices of local interest. For instance that Dave King would start his class in "How to Moonshine," Monday afternoon.

Robert Broady made his second

(Continued on page four)

Play Given By Dramatic Club Is Great Success

ADAM AND EVA PROVES TO BE TRUE TO LIFE AND HIGHLY ENTERTAINING

One of the most successful and highly entertaining plays ever seen on College Hill was given Monday night by the Expression Department.

The play was directed by Miss Holland and did great credit to the entire department and to the college. All parts were well taken and the characters maintained throughout, a thing seldom done by ametures. Due to misunderstandings the play was advertised but very little, however, practically the entire student body and several town people were present and all seemingly enjoyed the entire performance.

Between the first and second acts the Girls Glee Club, a new organization on the Hill, sang two selections. Miss Crawford, as director and the girls are to be congratulated.

UNREST

Among the several college papers which come to our desk there seems to be, in a majority of them, one outstanding characteristic. That is a note of student unrest, dissatisfaction, and a deep rooted, desire for change. Studying the situation drop by drop, as they have slipped between the lanky fingers of more or less rigid censors, we are inclined not to be alarmed. Naturally, with unrest holding sway throughout the world, a litle is bound to slip into student life, but in a community such as that of the average American College, or University, where Dad pays the bills, the faculty does the thinking (if there be any) and the sole motive for student activity, either mental or physical, is that of immediate pleasure or self advancement, usually socially, there is not likely to be very much Bolshevism.

However, the facts, in part, are: Groups are being formed to mold and express student opinion; mediums are being established where by these opinions are being broadcast; graduates are refusing diplomas because of what they term irregularities in administration; alumni organizations are being formed to oust autocratic administrators.

What is it all about? As one student editor puts it; "Commencement orators try their best to answer with various combinations of the old words faith, hope, love; but we cannot experience these words any more. Faith in What? Hope for What? Love how? In an age of dog-eat-dog, Beauty for us has gone sickly sweet; neither 'progmatists' nor 'absolutists' can give us an idea of 'Truth.' ',

Is there really something lacking? Is the fault with the students, the faculty, the trustees, or someone else? As for the students, there are those that would change every course in curriculum; make an exception to every rule; or write in special provisions to suit their own convenience. Obviously they are the typical ego and are usually handled as such. There are others who sit with open eyes drinking in everything gathered by the professor as he went thru the same machine twenty or thirty years before. If this group, which contains about 99% were not too lazy, or meekly sick, to think, would things be different? Is the present unrest caused by a flicker of light among the otherwise dead? If this be the case, then let there be flames of light, only tempered by that spirit which leads change because change is needed, and which brings them about by reason and good will and not by quarrel, radicalism, humilliation, and suffering.

But we, trained to utilize that intellectual "un-alertness," which business men so universially expect of us, can merely lay the whole matter aside, heave a sigh of relief, and continue the process of being filled like the vacuums we are. But the day is here when the more docile of us throw up our hands in horror at he criticism heaped on our college, our faculty, and our student body, by alumni and patrons. We can't change their way of thinking now, but all too soon we are to be the alumni and patrons. What is our attitude going to be then? Will we think then as now? Will our confidential conversation about our Alma Mater cause doubt, suspicion, and unrest; or conviction, confidence and progress?

Let us THINK it over.

A PESSIMISTIC ISSUE

Undoubtedly everyone is a pessimist at times and in order to give legal vent to this our strongest feeling we are going to publish in the near future a purely pessimistic issue. Probably a prize will be offered for the most pessimistic article. Here is your chance to get even—write it.

You must have DRUGS, so why not use the BEST. Just remember they cost less at

PURE DRUG CORRECT SERVICE

CAMPUS GHOST REVISITS THE UNBURRIED DEAD OF COLLEGE HILL

I, Ifucamusme Uvgho (sic) Tugsum Commonly Known as the Campus Ghost, Come Again to Haunt the Hasheaters of Pearson's Hall

Some hasheaters may not think the Campus Ghost of any importance. Yea, they disregard his suggestions and are disdain to mend their ways. Happily, a few have awakened to their heathen manners, and are re-adopting those teachings received in the homes of their childhood.

I, the Campus Ghost, wonder if those who cling to their uncouth ways ever received better training? How indignant they would become should someone dare to make such a suggestion! But, my dear Hasheaters, how else is one to judge your up-bringing when you demonstrate your manners (nay, your lack of manners) so brazenly?

With what greediness and haste you devour the loblollygast! How impossible it seems for some hasheaters to restrain their appetites until the other hasheaters at their end of the table are ready to eat! You care a good deal more for the food than for the society at the table. And you show it. Hasn't the greedy one near the end of the table enough chivalry to put some goolash in the waitress' plate while she is pouring his coffee?

A few of Pearson's hasheaters even drink out of their saucers! College students? Why, they must be lumber-jacks!

Some of the hasheaters apparently are planning to be masons, for three times a day they practice for skill in spreading mortar. Haven't you noticed them seize a slab of bread and smear the entire surface with butter?

I warn you hasheaters that I shall continually haunt you until you so mend your ways that you shall be an honor instead of a discredit to Maryville.

The Campus Ghost.

TOO BUSY

The law of chance has certainly been up set at Maryville, because we have with us an over porportion of easy-going, lethargic, young men. Lads, tho more or less ambitious, who fail absolutely to get results. We find them in every class, every organization, in fact the campus is strewn with such carcases.

Hewers of wood and drawers of water, well they are not even good for that. Such men make college activities, in reality, college inactivities.

What are the reasons? The one almost invariably given, however incorrect, is, I am too busy. Nothing which one can do will be more interesting or instructive, for the time required, than just to follow up some of these too-busy exercises. Nine times out of ten it ill be found that the biggest job the young (not) busy man has is telling others just how busy he is. Really the one task which takes most of his time, energy, worry, and work is saying, I can't because I'm too busy. Now if you have the courage and don't mind being cruel to animals ask bluntly: Too busy doing what? Stammering from the impolite, but sudden exposure, it will be interesting to see where he hits. No doubt the hardest lesson after we leave college and begin trying to make a living will be to learn that those who have plenty of time never do anything and that busy people do everything. Would it be better to learn this in college? See how many of your friends are like this then apply it to yourself.

Birmingham-Southern College is organizing Student Government in each of the boys dormitories. Such organizations are to look after the boys while in the halls and it is believed that this will greatly improve dormitory live there.

Debate Season Comes Soon

Preliminary Arrangements of 1923-'24 Season Already Made.

The debate schedule for this year promises to be a good one. A great deal of enthusiasm is being displayed by veteran and new men. Tentative plans for the schedule provide for triangular debates with Milligan and Carson-Newman, and with King and Tusculum, and for a team to attend the National Convention of Pi Kappa Delta at Peoria, Ill. This team will debate several colleges on the way to and from the convention. In addition to the regular schedule, and along a new line of Forensic work the Freshman class will have a dual debate with the Freshmen of the University of Tennessee. This promises to be one of the most interesting Forensic events of the year.

The subject for the Freshman Debate is the question of United States Recognition of the Russian Soviet Government. The question for the other men's debates is the entry of the United States in the League of Nations. Both questions are of prime importance among the questions facing the public today. They will furnish material for lively contests when Maryville debate teams meet their opponents.

The preliminary try-out for places on the regular team comes December 17. The men trying for places are listed below as they will debate: Broady-Anderson, Grunder-Johnson, Hortin-Karrick, Baldwin-Hamilton, Swartz-Stewart, Eitner-Black Franklin-Prince, Haworth - Stockton, Quesner-A. Kinsel'r, Milling-Robinette, Campbell-Troutman, Corry-Van Orden, F. Kinsler-Hardin, King-Graybeal, Huffman.

DESROH GETS ANSWER

Dear Desroh:

Your complaint of last week was carefully read, and I'll try my best to tell you why you can't get a date with just any of us girls. In the first place, you must think you're quite a shiek to want to be able to go with any one you happen to choose. That is a minor matter, however, the trouble with you, and all other men, is that you never want to go with a girl till some other fellow has picked her out. Then you fill the air with your wails because you can't get a date with her. You think it an injustice and a crime because the ten or fifteen girls who moonshine steadily, won't succumb to your charms. Before you weary the public with yur complaints, why don't you try some of the five hundred girls that would be glad to have a date?

Contra.

The young people of the United States and Mexico, under the leadership of Mr. W. I. Kelsey, Michigan State Student Secretary, Y. M. C. A., propose to co-operate in the erection of a monument to two of their national heroes.

The proposed monument is to represent Lincoln and Juarez clasping hands across the border and will bear the following inscriptioin in English and Spanish.

"America has produced two heroes, Lincoln and thee: Lincoln by whom slavery died and thee by whom Liberty lives."

DESROH GOES TO PARTY

Dear Mr. Editor:

I feel hurt. Here I confide in you all my higher spiritual experience and then some great, big brute stalks around the campus and says things: that it is ridiculous to print such stuff in a college paper. Indeed, when I hear that mellifluous and effulgent tongue wag such verbose indictment I almost feel upset, perturbed. As Prof. Orr would say, such a one must be shot thru with a high religious tone. The cold, grey that comes to me that maybe I am frivolous. But, even tho he reads that same stuff, and just because I have two columns, doesn't say its poor, does it, Editor?

However, that's that. Now listen. I went to the Senior party and now my mind reels in a dizzy whirlpool with three words on one another's hee's in a spiral tumult. Punch, pretty girls, and prunes.

The punch was delicious; but true to custom they kept the worse till last. Once I noticed the bowl empty while a large can of rich dishwater stood undisturbed. Then I noticed the bowl refilled and the can empty. I would have my own suspicions but only all those football players and men said that when they went back to the refilled bowl it was good stuff. Maybe they had well drunk before they took the dilute water.

Then I fell in love at the party. It was a pretty girl. Encased in one of these will-power evening dresses the young lady was a vision of loveliness. Directing the social activities like a Muse, and pervading the room like a perfume, she compelled our adoration. We fell as hard as when Lucifer for seven successive nights and days plunged thru ethereal wastes. I told her my infatuation but she said in sweet musical syllabes, the sounds of which still linger in my ears like a new love song, "You all hossin me."

Then the prunes came as a surprise, an extra refreshment proffered on the way home. We are deeply grateful to the Club's efforts to place these bits of delicacies in convenient boxes for our consumption in the mid-night departure.

Now, I hope that supercilious commentator aforesaid hasn't had the weakness to read this ridiculous stuff in 'a college paper this week.

Yours,

Desroh.

FRESHMAN RESOLUTIONS

Whereas: God in His infinite wisdom and mercy has called unto himself the mother of Edythe Dickey Our beloved class mate. We the members of the Freshmen Class extend to her our heart-felt sympathy in this time of bereavement. May we humbly pray that God will comford her, and mitigate the sorrow sustained in the loss of one so dear.

Be it resolved, therefore, that a copy of these resolutions be read in Chapel, a copy printed in the Highland Echo, and a copy be sent to the bereaved family.

Senior Class Gives Party

(Continued from page one)

worth. If anyone can explain how Sarah knew whom she was bidding on, it will satisfy the curiosity of other young ladies who had the same purpose in mind. Although Shorty Sneed sold for only one peanut and a peanut hull we feel that he has been worth more than that to the football team alone.

Then came the refreshments as a climax to the evening's enjoyment, and they were such as will not soon be forgotten. Among other things the Seniors have some excellent cooks.

Soon after eleven o'clock many couples reluctantly made their way back to the dormitories, where the feminine members of the crowd were heartily welcomed by the matrons.

MISS HENSEN HOSTESS

Honors Tailoring Class and a Number of Outside Friends.

Saturday evening Miss Hensen gave a dinner party in the Home Economics dining room. Among the thirty guests present were Miss Ellen McCulloch and Miss Helen Chousison of Alabama.

As we entered the dining room our eyes fell on a long table covered with snow white linen. At each end of the table was a bouquet of huge chrysanthemums, yellow and white. From one vace to the other, there crept a continuous vine of green ivy. The border was very effective. For each individual there was an appetizing plate of chicken salad, and a dish of fruit cocktail. We found our places by means of hand-painted place cards, no two which were alike.

The first course was fully as good as it looked. It was followed by a lovely serving of creamed potatoes, Swiss steak, ink apples, hot rolls and butter. The last course was of mapple nut ice cream, cake, and delicious hot coffee.

Each course was accompanied by a free conversation, and eating for once was not carried on as if compelled by tremendous whirlwind.

After dinner we sang some familiar old songs, then Miss Robinson and Miss Eldridge gave humorous readings. In conclusion we gave cheers for Miss Hensen and the other H. E. teachers; and bidding the hostess goodnight we retreated to our respective dormitories.

The results of a recent quiz of the co-eds at Transylvania College as to the qualifications of their ideal man are interesting. Dark, handsome men won out over blonds, the latter receiving only two votes. The blonds voted upon had added the stipulation that they must not be "faded out blonds." Tall men were preferred to short or to those of medium heighth. A majority required that he be of a cleancut, athletic type, and must play either football or baseball.

WILLIAM KONRAD ROENTGEN
1845-1923
Born in Lennep, Prussia. Educated at Zurich. Awarded the Rumford Medal of the Royal Society in 1896 jointly with Philip Lenard for discovery of X-rays. Won the Nobel Prize in physics in 1901.

"I did not think—
I investigated"

One day in 1895, Roentgen noticed that a cardboard coated with fluorescent material glowed while a nearby Pluecker tube was in action. "What did you think?" an English scientist asked him. "I did not think; I investigated," was the reply.

Roentgen covered the tube with black paper. Still the cardboard glowed. He took photographs through a pine door and discovered on them a white band corresponding to the lead beading on the door. His investigation led to the discovery of X-rays.

Roentgen's rays have proved an inestimable boon to humanity. In the hands of doctor and surgeon they are saving life and reducing suffering. In the hands of the scientist they are yielding new knowledge—even of the arrangement and structure of atoms. The Research Laboratories of the General Electric Company have contributed greatly to these ends by developing more powerful and efficacious X-ray tubes.

The General Electric Company manufactures everything electric—from fans to powerful locomotives, from tiny lamps to mighty power plants. Its products are used around the world.

Y. M. C. A. NOTES.

Mr. B. L. Glascock Addressed Y. M. C. A. On "Opportunities for Service in Business."

Mr. B. L. Glascock of Maryville addressed the Y. M. C. A. with a very attractive speech on "Opportunities for Service in Business," stressing very strongly the need of self-control for the successful pursuit of any business.

"The call of the business world is no greater than any other calling and in self-control are contained all the principles that constitute success in any calling," he said.

"Control your words, that they shall be to the benefit and not the hurt of those about you," he said. "Do not say many good things then destroy all the good done by criticism."

The men that really do the big things are the men that are really great, Mr. Glascock proved.

The many good things said by Mr. Glascock are to many to mention. You should have heard him.

FRESHMEN RULES

Michigan State Normal College adopts the following Freshmen rules:

"Rule No. 1—Men of the Freshmen Class must wear at all times except on Sunday and outside Ypsilant; the official Freshmen pots.

"Rule No. 2—Freshmen girls must wear green ribbons on Wednesdays.

"Rule No. 3—Men must remove their pots at the command 'HATS,' when it is commanded by an upper classman.

"Rule No. 4—When meeting faculty members and Seniors, Freshmen must remove pots without command.

"Rule No. 6—Freshmen must allow upper classmen and Sophomores precedence through doors and on cross walks.

"Rule No. 7—Freshmen must learn the Normal Field Song at once and always sing it standing and uncovered.

"Rule No. 8—Freshmen must not smoke on the Campus.

"Rule No. 9—Never wear a High School insignia while on the College Campus, or in Ypsilanti. This applies also to other College insignias.""

The "Kullegiate kut for a kollege kid," is the brand of haircuit worn by twenty-nine students of Hampden-Sidney. This kind of haircut is to present the cranium absolutely devoid of any capillary vegetation, or in other words, clip the entire head.

—M. C.—

Freshmen at the University of Kentucky started doing things for the school early in their career. They have set a quota of $40,000 to be raised during their four years at the University, which will be used to finance the erection of a new basketball building.

NOVEMBER

There is autumn in the sunshine
as it filters through the trees;
There's a little tang o' winter in
the cool November breeze;
Ther's a little touch of sadness in
the call of old Bob White,
Hiding in the hazel thicket, ere
he takes his drumming flight.

Old-time longings seem to waken,
and my truant memory strays
To the fleeting span o' boyhood,
and its glory-laden days;
Oh, it's many a vivid picture falling on life's changing screen,
With a smile to hide a heartache,
and the lone days long between.

Loud the old dead days are calling, but alas, they call in vain,
Though we'd trade all earthly wisdom for the wine of youth again;
But though the path of life is winding, it will never turn,
And youth's gates will never open tho our hearts may ever yearn.

O'er the hills the crimson summer lifts its glory to the skies,
And the wondering herds come homeward as the lingering day dies;
World-old memories seem taunt me and anew my tired heart
For the touch of love's kind fingers and a fire that brightly burns.

The Candy Kitchen—
For Sandwiches

Y. W. NOTES

Miss Grace Lumpkin Speaks on the "World Student Christian Federation"

Miss Grace Lumpkin's address on "The World Student Christian Federation," was both inspiring and instructive. Miss Lumpkin has made and is making a careful study of student conditions in our own country and in the rest of the world, and her knowledge of such conditions is real and not superficial.

The World Student Christian Federation is international, interracial, and inter-confessional. Its motto is "Under Heaven, One Family," and its aim is to bring about a world in which national jealousy, race prejudice, and religious intolerance shall be unkonwn, a world in which all men shall be free, because they shall know the Truth which is in Christ Jesus.

The members of the Y. M. and Y. W. C. A. are a part of the Federation, and these organization constitute the only recognized "Youth Movement" in the United States. With so much to be done, let us be seekers after the truth, and not settle down in satisfaction with those who feel that they have "arrived."

The Y. W. C. A. will present a World Fellowship pageant, "In the Light," at the Vesper hour on Nov. 25th.

Literary Societies

(Continued from page one)

appearance before the society this year as a cornet soloist. We always enjoy his selections.

It was our pleasure to listen to Mr. Geo. Neff tell about the merits of our President, Mr. Coolidge. He had a good subject and he handled it well. We were all interested to hear some one else's opinion on Mr. Coolidge.

As the closing number the society joined in singing "Orange and Garnett."

"LOOK!" What we have in store for us next Saturday night, a joint program. Make a date early, fellows, and avoid the rush.

BAINONIAN

Bainonians Expound on the Value of Mondays to a College Like Maryville.

An impromptu program was rendered by members of Bainonian Saturday night, beginning with every one singing "Bainonian."

The art of jigging seemed to be quite popular. Anyway, Felice Morgan was called back to repeat her exhibition. Then Lucile Fondren read "On the Judgment Day." We're going to warn all the boys we know to be awful good so they won't get a lickin' on the Judgment Day.

To arouse enthusiasm, we sang some old favorite songs, such as: "Carry Me Back to Old Virginia," and "Let the Rest of the World Go By."

Mable Higginbotham told us what Monday means to Maryville. In the afternoon, if the girls do not have anything more important to do, they moonshine. As fr the boys, in the morning they have their suits pressed: after dinner they press their suit.

Then to turn our thoughts to more serious matters, Julia Lowry rendered a very pleasing piano solo.

The needs of Bainonian were well considered by Elizabeth Keown. A littlem ore competition within the society might add interest.

America Moore played a violin solo very effectively. Barbara's talk on "Pep" was short and to the point. The yells in which she led us gave us some needed "pep" for the next game. Then to prove our school spirit, the meeting ended by singing "Alma Mater."

JOKES AND JESTS

IN THE GALLERY

We were seated in the balcony
Not a soul dared speak a word,
And we poor souls fairly shimmied
At the fearful sound we heard.

All the ladies up there fainted,
Ushers turned a ghostly white,
But the poor boobs sat there chewing;
Chewing on with all their might.

Suddenly I discovered, for
Their jaws were going some,
It was just old Florence and Sully
A-chewing chewing gum.

AN EARLY TRAGEDY

Adam found Eve in tears one day.
"What's the matter, 'Dearest", he asked sympathetically.
"I do have the worst luck", mourned Eve. "While I was in bathing a caterpillar came along and just ruined my new fall wardrobe."

WORCERY RHYME

Mary had a little bomb,
A souvenir from Ghent,
She pulled the pin with great aplomb
And Lord knows where she went.

CROSSED LINES

Prof. Knapp—Did you ever see a lunar-bow?
Mildred Striplin—I have seen a beaux lots of times by moonlight if that is what you mean.

WHAT IS LOVE?

A little sighing,
A little crying,
Something dying,
And lots of lying.

Cotton (in logic class)—Prof. Is "brain" an abstract or concrete term?
Prof. Hunter—Decidedly concrete! More so in some cases than in others.

"Tommy" had been boasting of the way things are done across the pond.
Moss Farmer—Talking of justice being meted out quickly—an airman fell from his plane up in Kentucky and he was tried and sentenced to six months in the pen before he hit the ground.
"Tommy"—You don't say so. What was the charge?
Moss—Vagrancy—he had no visible means of support.

Shuckz—You know, I fell in love with my girl at first sight and now I wish that I had taken a second look. She is a real vegetarian. She has carrotty hair, raddish cheeks, a turnip nose, cabbage head, and corn on the ear

Jimmie—I saw a girl on the campus with her stockings on wrong side out.
Edgar—What did you do about it?
Jimmie—I turned the hose on her.

One thing we learn in College is never put an adjective where a semicolon will take the place of an interrogation point. Sounds real Schenectady, n'est-ce pas?

Prof. Orr—Mr. Middleton, which one of the parables do you like best?
Tex—I like the one where somebody loafs and fishes.

THE REASONS

I had a love, so pure it was,
A passionate thing of beauty.
It got the hooks,
She fell for looks,
And so I lost my cutie.

I had a friend I trusted much,
Yes, loved him as a brother.
He got the cash,
I went to smash,
I'll never trust another.

I had a rendezvous with death,
And went to find the reason.
But death was late,
I coudn't wait,
And so I'm here this season.

Oh no, I'm not a cynic,
But this I'd like to tell:
Illusions gone,
One finds that one,
Can get along quite well. —Anon.

DEVOLUTION

Fifteen hours credit,
Went off on a spree,
Got bounced in English,
So he dropped three.

Twelve hours credit,
He was going fine;
Found Math. too difficult,
Then there were nine.

Nine hours credit,
Thought he'd try some tricks
Blew up the Chem. Lab,
Then there were six.

Six hours credit,
He felt very free,
History grew boring,
Then there were three.

Three hours credit,
And an ivory dome,
Don't mix together,
So the lad went home.

JOURNALISTICALLY SPEAKING

"May I print a kiss on your lips?"
I asked,
And she nodded her sweet permission.
So we went to press, and I rather guess
We printed a full edition.

But our edition is hardly enough",
She said with a charming pout,
So again in the press the form was placed
And we got some extras out.
—Exchange.

A VICTIM OF PSYCHOLOGY 14

"What's the matter Jarvis, you look ill."
"I've got an awful cold."
"How did you get it?"
"Too much outside reading."

Elizabeth—Jennie do you want a corned beef sandwich?
And as Jennie received the sandwich she looked at it suspiciously and asked, "But where is the corn?"

Babylon—"I don't like these photos at all, I look like an ape."
"You should have thought of that before you had them taken" replied Mr. Webb as he went on about his work.

Mary—Why can't an Indian shimmy?
Ville—I don't know. Why?
Mary—Because his quiver is in the wrong place.

Thomas—How do you like your new gown, dear?
Thomasine—It doesn't quite come up to my anticipations.
Thomas—Yes, but they're wearing them low this year.

THE HIGHLAND DEACONS

There are five husky fellows
Upon this College Hill,
They call themselves a ball team,
We'll say they are, we will.

Knox High came a wondering
What M. C.'s five could do;
After meeting our snappy lunch,
Knox High went up the flue.

Tusculum came to Maryville
Full of confidence;
She met our five young huskies,
And then fell off the fence.

Our Quintet went a traveling
To Carson-Newman's town;
But when we saw them returning
Their colors were upside down.

The Knoxville American Legion
Was the next one on the list.
Of this we'll speak no more;
M. C. the victory missed.

Again did Carson-Newman
Try our Quintet's metal;
And when they fought with us this time,
We taught them not to meddle.

The future is full of brightness,
Fortune has opened the door;
And in the games to come
Defeat will be no more.
(Two College boys).

His arm, it slipped around her waist—
Why shouldn't it?
Her head, it dropped against his breast—
Why shouldn't it?
Her heart, it gave a tneder sigh—
Why shouldn't it?
Her hat pin stuck him in the eye—
Why shouldn't it?

FRIENDSHIP

When the last long crimson streamer
Is fading in the west,
And the soft warm sighing night wind
Comes,—lulling your thoughts to rest,—
Then you think of the only faithful,
The friend that you love the best.
And your cares drop away, and worries,
By the very thought caressed;
By a friend that can understand
And can help through every test.
Yes, a friend that is never too loving,
Nor your love ever treats as a jest.
For such,—words that express the meaning
Are too cold and trite in type;
But you take it out and light it,
The good, old, nicked, scarred, pipe.
—Anon.

Out on the campus,
No one nigh,
Moonlight soft,
So was I.
Un li'l kiss,
No one to see,
I enjoyed it,
So did she.

The Athenians seem to have a fondness for "colored" presidents. "Red" is president of the Senior section, and Brown is president of the Juniors.

A duel was fought by Knott and Shott.
Knott was shot and Shott was not.
In that case I would rather be Shott than Knott.

LOVE

It's a sort of palpitation,
Passionate reverberation,
In the vital habitation
Of the heart.

Effervescent osculation,
Inexpressible sensation,
In continuous rotation,
Forms a part.

A respectful invitation
To a very choice collation,
Lovely ride of long duration,
In your cart.

Confidential conversation,
No attempted ostentation,
Never ceasing admiration
On your part.

Passionate reciprocation,
Caramels without cessation,
Forms in your imagination
Cupid's dart.
—Selected.

THE DOGGONE TRUTH

I've been a good fellow
Earned all I spent;
Paid all I borrowed;
Lost all I lent.
I once loved a woman,
That came to an end;
Get a good dog boys,
He's always your friend.
—Red and Black.

"Chrvgssaerneuenalfinajuanjuarisiguejack" is Eskimo for "I love you", and at the same time is a reasonable explanation of why the Arctic nights have to be so long.
—Ex.

COLLEGE PHILOSOPHY

Where there's a quarter there's a movie.
A little report card is a dangerous thing.
A fellow and his bashfulness are not soon parted.
There's so such word as overeat.
An ounce of permission is worth a pound of excuses.
Take care of your lesson preparation and your marks will take care of themselves.
To every young man upon this earth a rival comes soon or late.
Too many socials spoil an education.
A little sweetheart now and then is relished by the best of men.
A lesson prepared in time saves nine.
A flirt and his "honey" are soon parted.
It is easier to prepare than despair.
—Exchange

Examination is the absence of things hoped for and the substance of things forgotten.—"High Life".

COLLEGE STUDENTS FORM POLICE ANTI-VICE FORCE

Champaign, Ill.—As a result of a sixty-day experiment ended today by the city of Champaign with a special force of University of Illinois students, sworn in as special officers, and detailed to investigate vice and crime in the districts surrounding community. Mayor S. C. Tucker will endeavor to make the "force" a permanent fixture during the university school year.

VIRGINIA RAISES MONEY FOR GYM

The first night's canvass for the $3000,000 gym for the University of Virginia, netted $44.398 in pledges. A law student who will hang out his shingle in June, made the following remark in writing his pledge, "You can put me down for $300; if I can't wring that much out of the cold, cruel world above a decent living within the next five years I might as well qit."—College Topics.

1st. Student—Yes, I kissed her when she wasn't looking.
2nd. Student—What did she do?
1st. Student—Refused to look at me for the rest of the evening.

"O tell me where is fancy bred?"
She asked; and, getting bolder,
She placed her little darling head
And chin upon my shoulder;
And I, with no more poetry in
My soul than in a Quaker's.
Replied, with idiotic grin
"You'll find it at the baker's."
—Cotner Collegian.

VARSITY DROPS TWO GAMES AT KNOXVILLE

Highlanders' Invasion of Knoxville Territory Results in Surrender With Honors.

Seeing Ourselves As Others See Us.

One style and method of writing up athletic contests being read all the time soon becomes uninteresting and dry. So for that reason it seemed altogether fitting and wise to give to the readers of the "Echo" a sample, word for word, of the sport write-ups our men get when they participate in athletic contests away from home.

Not so much for comparison, but just for a "change" the following dope, from the Knoxville "Sentinel" sport section, and from the sport page of the Knoxville "Journal and Tribune", is given that you may see how others think of our basketball squad and of their playing.

"Sentinel Report of Game With U. T., Feb. 10, on "Y" Court, Knoxville, Tenn.

The Fighting Volunteers won their second engagement with the Maryville College basketters at the Y.M.C.A. last night, 32 to 17.

Tennessee's game was superior to the team-work displayed in the first contest with Maryville, while Maryville did not show the fighting spirit which characterized their playing last Saturday night.

Tennessee was leading at the end of the first half, 11 to 9. During the first seven minutes of the last half the Highlanders clung tenaciously to the Fighting Volunteers, only allowing the latter a four point lead. Maryville started a rally which threatened to tie the score, but it was of short duration.

The rally seemed to awake Tennessee, as the Fighting Volunteers experienced no difficulty in rolling up a number of counters. Both teams played a good game. Tennessee showed better team-work than in any game this season. Their defense was stronger than in the first game against Maryville, but there was room for improvement.

Maryville's passing game was at par, and for a few minutes in the last period of play, the visitors were able to carry the ball under the basket for crip shots, due to ineffectual guarding.

The lack of a good foul goal tosser handicapped the Highlanders. Troutman missed two out of six attempts at the basket from the foul line, while Hendrick was successful in only one toss out of nine attempts.

Line-up and summary:

Tennessee		Maryville
Troutman	f.	Hendrick
Campbell	f.	Cotton
Janes	c.	McGinley
Bill Hatcher	g.	DeLozier
Buck Hatcher	g.	McLaughlin

Substitutions: Tennessee—Reeder for Campbell, Wilson for Troutman, Cullis for Bill Hatcher and Johnson for Buck Hatcher.

Maryville—Janoviskzy for Cotton and McCoy for McLaughlin.

Klien, referee.

"Journal and Tribune" Report of Game Played With American Legion Feb 12, in Knoxville on "Y" Court.

Experience and superior marksmanship of the American Legion quint proved the undoing of the Maryville College five last night and allowed the ex-service men to roll up a delicate little count of 32 to 19 against the Highlanders, who were playing the final session of their three-night stand on the local floor.

Although outclassed from the start by the legion basketmen, Maryville fought back gamely until the time-keeper's whistle caused adjournment of the fracas. For the Highlanders Hendrick was the glistening luminary. His artistry at the basket was excellent despite the fact that the Legion guards took it upon themselves to see that he did not become lonesome. For the service men, Ray Moore, the Jellico phenom and Tom Garrett, shouldered their way well into the center of the spotlight. And thereby hangs a mystery. Just why the Legion powers kept Tom in seclusion until the latter part of the first half is a much mooted question. Perhaps they figured an ace in the hole is worth five of a kind on the court. But it sufficeth to say that what it takes to negage in the delicate art of basketeering Messrs. Moore and Garrett seem to have in abundance.

The game started rather sluggishly and it was three minutes before marksmen of either quint scored a bull's eye. Turner drew first blood with a pretty crip from under the basket. The Legion forged ahead another notch when Moore caged a free try. Ray must have got his longitude and latitude doped just right for before the Highland guards discovered what was up he had dropped the spheroid through the magic circle no less than three successive times. McMurray then put Maryville on the scorebook by lifting a perfect toss from mid-court.

Legion Unchecked

Maryville, however, was never able to check the attack of the Legionnaires, who kept forging steadily to the fore. The first half ended with the count 16 to 8 against Maryville.

At the beginning of the second half Maryville came back with a furious rush. The intentions of the Highlanders were commendable but they could not sustain their attack. It was simply a question of putting up a game battle in the face of unsurpassable odds, and the Highlanders acquitted themselves creditably indeed. With Garrett and Moore running rampant and scoring bull's eyes almost at will the Legion again began to draw away. It was in the final period that Hendrick showed particularly to advantage despite some very zealous guarding on the part of the Hon. William May.

The final half developed a count of 16 to 11 and if the time-keeper had not caught Hendrick in the midst of a great scoring rally—but what's the use to speculate? Let it be said in conclusion, however, that Coach Doc Feeman had developed a mighty good crew from the material at his disposal and with another season's experience behind them this same quint bids fair to emulate some of the really good fives that Maryville had produced in past years.

The line-up and individual scoring:

Legion	position	Maryville
Turner, 2	f.	Hendrick 11
Moore, 14	f.	McMurray 6
Calloway 4	c.	McGinley 2
Garrett 10		
Sandberg	g.	Delozier
		Janoviskzy
May, 2	g.	McLaughlin

Referee, Cullis; Time 20:20. Substitutions: Maryville, McLaughlin for McGinley, Janoviskzy for McLaughlin, McGinley for McLaughlin, McLaughlin for McMurray; Legion, Garrett for Calloway, Calloway for Garrett, Garrett for Turne.

Prof.: "You know that it is now definately established that there were automobiles in the old Bible days."

Student: "Why no; how is that?"

Prof.: "Well, the Bible says that if we are good we will be taken Home on High." —Georgetonian.

1st. Citizen: "That young fellow over there looks like a college man."

2nd. Citizen: "Why? What do you see that's wrong with him?"

—California Pelican.

PLEASE ELUCIDATE

Mrs. Alexander—Mr. McGrath give us your report on Chaucer.

Mr. McGrath—Chaucer's father was a wine cellar.

Mrs. William Franklin Cooper of Johnson City, Tenn. spent the week-end with her sister, Miss Esther Jarrold.

The members of the fourth preparatory class claim that "the Seniors have nothing on them when it comes to good looking rings". It can be truthfully said that neither graduating class made a bad selection at all.

DR. W. D. WEATHERFORD WILL BE HERE SUNDAY

Sunday will be a red letter day for Maryville, for it is the day on which a most distinguished guest will visit the College. This guest is a man who is noted as a friend of students. He has been of service to countless numbers of them, so that today his books are read and studied and his influence is felt all over the land. He is Dr. W. D. Weatherford, former Student Secretary of the South, and now president of the Southern College of Y. M. C. A., as well as the author of "Introducing Men to Christ", "Negro Life in the South", and other books.

Thanks to the fact that Dr. Weatherford has visited many of the schools of the country, and has been at the head of the Summer Conferences which have been held for many years at Blue Ridge, he is personally known to a large number of students. This is Maryville's oportunity to become re-acquainted with him. On Sunday morning, Feb. 27, Dr. Weatherford will preach at the Baptist Church. In the afternoon at 1:30 he will address a joint meeting of the Christian Associations in the Chapel, and at 4:00 o'clock, in Bartlett Hall, he will speak to a meeting of those who have decided to give their lives to Christian work. He will also hold interviews with those who desire them. Times for these interviews can be arranged by consultation with any member of the "Y" Cabinet. Don't fail to hear Dr. Weatherford!

BURCHFIELD—McMAHAN

The following announcement has reached Maryville:

Mrs. N. M. Atchley
announces the marriage of her daughter
Miss Gladys McMahan
to
Mr. Lecnidas Campbell Burchfield
on Saturday,
the twelfth of February
One thousand nine hundred and twenty-one

Mrs. Burchfield is a graduate of Carson-Newman College and was also a student in Maryville College for two years.

Mr. Burchfield is a brother of Miss Ethel Burchfield, a member of the Class of 1919.

MISCELLANEOUS

Miss Emaline Warwick has been the guest of Miss Effie Erickson during the past week. Miss Warwick is a former student of the College and is well known on the Hill.

Miss Emma Miles of the class of '19, and Mrs. Alice Carson of the class of '17, were visitors in Maryville last week-end.

Mr. George Callahan, '20, breezed into Maryville again for a short visit last week. The Seniors enjoyed having him attend their last party, which was held at Glascock's home.

Dr. Stevenson is supplying the pulpit for the morning services of the Second Presbyterian Church of Knoxville, until that church shall have procured a pastor.

Rev. Ralph Carson and Rev. Joe Broady, former students of M. C., visited their Alma Mater during the first part of this week.

BAINONIANS DEBATE A VITAL QUESTION

Discuss Methods of Reforming Faculty, Dining Hall, And "Men".

Bainonians were entertained by a cleverly given debate: Resolved, that the occupation of a horse thief is more profitable than that of a college professor. All of the speakers handled the question wittily, but the Negative speakers, Ruth Parham and Elizabeth Mitchell, saved the professors from changing their positions, by convincing the crowd that the occupation of a professor is more profitable. Effie Ericson and Sallee Huffaker, the Affirmative speakers were very convincing and witty speakers for their side.

After the debate Anne Mae Holland sang a pleasing solo.

Some extemporaneous speeches were next called for. Irma Schwab was asked to reform the faculty, Reva Rankin to reform the dining hall, and Lois Hayes to reform the men.

Irma Schwab cleverly endowed some of the faculty with some such qualities as more flesh so they would be more comfortable looking in the school room, pompadours and curls, and to some she gave beauty; to others she took away such qualities as power and blushes and to one she took away a mirror.

Reva Rankin's main reform was to put small tables in the dining hall at which only four people could be seated and used the present rule that the same number of boys and of girls should be seated at each table. Where a small table was more convenient, it was put in and only two were seated at it. She also gave a table for (illegible), back in a most obscure corner to Miss Molly. Then lastly she put in a polished floor.

Lois Hayes, who was to reform the men said that she would—oh, we guess we had better not tell the boys, because it is a hint.

The Play, "Prudence Says So" Presented

At a recent meeting of the Bainonian Literary Society the Bainonian Expression students presented a playlet from "Prudence Says So" in which Connie, (Bernice West) was the interesting and attractive young daughter. She played her role wonderfully well. The invalid aunt (Annarine Atkins), the father (Ruth Greenlee) and the twins (Martha Robison and Myrtle Rendon) comprised the home. The father is called away when the son of his friend, a millionaire, comes to visit them. The family try in every manner to make a good impression and one of the twins acts as a maid to give a stylish effect. The young daughter, Connie, soon wins the admiration of the son and turns a trick on the twin who is also desirous of "giving the right effect", by telling him that her sister is the maid.

A word must be given to the son of the millionaire. Callie Speck played the role which was excellently portrayed. So well did she look her part, that we wish to tell you that even one of the matrons took her for a brother of one of the girls.

Ruth Gamble sang a negro song in which the negro mammy compared her baby to all of the things the colored people hold dear—such as watermelon and sweet potatoes. The program was closed by this much welcomed solo by Miss Gamble.

Prof. A. F. Southwick and his newly acquired wife visited in Maryville on last Friday and Saturday. They were given cheers of welcome by the students at the dining hall Friday evening.

ATHENIANS ELECT OFFICERS FOR REST OF YEAR

Young Hayes Elected to Presidency.

At a recent meeting of the Athenian Literary Society the newly elected officers were installed into their responsible positions.

The program was short but well prepared. The first number was an inaugural address by Young Hayes. This was short but to the point. Mr. Beard gave a reading that was enjoyed by all. Then Mr. Prince and Mr. Mathews locked horns in a heated debate on the appropriate question, Resolved, That College examinations should be abolished. Mr. Prince upheld the affirmative and won the decision.

The new officers for this semester are as follows:

Young Hayes - - - President
Lee Herndon - - Vice President
Verton Queener - Recording Secy.
R. A. N. Wilson - Program Secy.
Lee Roy Middleton and Tom Vance - - - - - - Critics
Cazwell Johnstone, Sergeant-at-Arms

With Mr. Hayes and this staff of willing workers at the head of our society the future looks very promising indeed.

THETA EPSILON

On Monday night, January 31st., Theta Hall was crowded to its capacity, for it was rumored abroad that "Daddy" Knapp would be there and we knew he would talk either about Birds or Stars. Not that he does not know "oodles" of other nice things to talk about, but because he loves them most of all we believe, and because he knows so much about them. We count it a treat to hear him at any time and we hope he will come again—soon.

February 5th.

We don't know why old maids are always picked on, and poked fun at, but it seems they are. Some folks seem to think nothing could be any worse than to be one, and I rather guess that is the case if the ones we saw at Theta were fair specimens. All the camaflouge in Madame's shop did not help much, so far as looks were concerned, and poor Anne was quite distracted when she couldn't look pretty for her "Kitty". Somehow none of them seemed so glad of their freedom 'cause Irene Curtis ran off with a Sewing Machine Agent, and all of Miss Betty Barker's alias. Jessie Johnson, guests were "cattish" as could be. Some of them were rather accomplished however, as Miss Betty herself showed a fair knowledge of Jane Austin's work. "Virgie" Nicely sang, with a great deal of pathos, "Give Me All of Your Love", and, "Keep on Sewing for That Hopeless Chest." We also enjoyed a violin solo by Betty Fowler and a piano duet by Lucile Carter and Ruth White.

JUNIOR ATHENIANS

Come where there's something doing,
And where you will be treated right!
Up to the Junior Athenian Hall,
At six-thirty Saturday night.

You will take back with you to your room something worth while. The snappy debates, ludicrous readings, parliamentary drills, and the harmonious music all help to make one of the most perfect evenings that one could desire.

The meeting Saturday night was opened with prayer by President Brown, then came an animated address by the President. His speech was greatly enjoyed and Jester told us another of those good stories which tickled our funny-bone extremely.Then there was open discussion by various members of the Society, and the closing prayer by "Betty".

JUNIOR ALPHA SIGMA

The last meeting of the Junior Alpha Sigma Literary Society was just one of the many fine programs put on by that society.

The first number on the program was a speech by Mr. Patrick. Mr. Patrick spoke on the immigration question and gave his hearers no small amount of food for serious thought on that subject.

However, serious thought was not destined to long occupy the minds of the Junior Alphas, for Mr. Nichols came next on the program with several short and snappy humorous stories.

The question for the debate which followed was, Resolved: That the dog is more useful than the gun. Affirmative: Messrs. Karrick and Stone. Negative: Messrs. Walker and Huffman. The speakers handled the subject in a masterful and also humorous way, and when the members of the society left the hall they were confident that they had a deeper insight into the nature of dogs and guns than they had had before.

If you are looking for knowledge and valuable training, as well as a good time, just visit the Junior Alpha Sigma Literary Society—you will find all that you are looking for there!

SOUTHWICK—MOTZ

Mr. and Mrs. Charles Theodore Motz
announce the marriage of their daughter
Vista Faye
to
Mr. Arthur Frederick Southwick
on Saturday, the twelfth of February
One thousand nine hundred and twenty-one
Wooster, Ohio

The above announcement has recently been received by friends of Professor Southwick on the Hill. Professor Southwick was a popular professor of the College for a year before the war and then again during last year. He is now working with the Presbyterian Board of Temperance and Moral Welfare with headquarters in Pittsburg, Pa. The Echo extends to Prof. and Mrs. Southwick the congratulations and best wishes of the students and faculty of Maryville College.

M. C. STUDENTS HONORED

The following delegates from the local Student Volunteer organization attended the meeting of the Tennessee State Union of Student Volunteers, which was held at Lebanon from Feb. 18 to 20 inclusive: Misses Bernice Jones, Nannette Walker, Elizabeth Hudson, and Florence Klenhiem, and Messrs. George Howell and Emerson Rohart. Miss Elizabeth Hudson was made State Secretary of the S. V. Union for the coming year, and Miss Bernice Jones was one of the two Council members appointed to represent the Tennessee Union in the National Council to be held in New York February 25 to 27 inclusive.

We congratulate these young ladies upon the high honors won, which not only reflect glory upon themselves but also upon the Maryville Student Volunteer organization, and upon Maryville College.

A Theatre party was given by Miss Esther Jarrold, Monday afternoon in honor of her guest, Mrs. Wm. Franklin Cooper of Johnson City, Tenn. Those invited were: Mrs. Wm. Franklin Cooper, Bobby Hall, Florence Beechem, Jewel Stevens and Jence Campbell. Afterwards a most delightful luncheon was served at the Mary Blount.

ALUMNI MOVEMENT GATHERS MOMENTUM

Mr. John E. Tracy, '01, Makes Valuable Suggestion.

Following this note we are giving the text of a very thoughtful and timely reply to the suggestion which was made in this column as to the asumption of the task of increasing the gymnasium by the alumni. May we have more suggestions from alumni so that when the commencement season arrives there may be a real basis for action. The proposal which follows in the letter from Mr. Tracy will surely find a response but we hope that the alumni who were not so fortunate as to have been athletes will be unwilling to have no part in a plan to help Alma Mater.

John E. Tracy,
Counsellor at Law
128 Broadway
New York

February 18, 1921

The Highland Echo,
Maryville, Tenn.

Gentlemen:

I have before me your issue of February 10, 1921, in which I note two interesting articles; one, the announcement of the adoption of the new student activity fee, and the other your editorial calling on the alumni for suggestions as to organized service.

I think that the alumni will all rejoice at the new policy which has been adopted in favor of enlarging the athletic and other activities of the student body, as this is a plan for which many of us were working and planning twenty years and more ago. As that is now to be listed as an accomplishment rather than a plan, we can turn next to your suggestion for organized service by the alumni.

I have long felt that we alumn, were not taking as deep interest as we might in the present activities of the College, and I have already usggested to Dr. Wilson that I believe a movement should be made to revive interest in the Alumni and Undergraduate Fund which has always seemed to me an excellent idea, but which has not been actively pushed for several years past. I am hopeful that the Alumni Association will take some action along this line at their next meeting.

The movement which you suggest in your editorial, however, is one which in my mind should be met in another way than through the Alumni Association. There is no question that there is a pressing need for a larger gymnasium, and the men who most thoroughly understand that need are those men who throughout the lifetime of the College have participated in athletics as members of the various athletic teams.

I therefore suggest that a movement be started to raise the needed money by subscription from all former athletes of the college. As a working basis, I would suggest that a student committee be appointed by the athletic association with one or two alumni members who reside in Maryville; that this committee go through the file of College periodicals, which can probably be found at the Library, and pick out a list of the members of the various athletic teams in each year; that they then attempt, by examining the alumni records and by all other methods, to learn the present addresses of each former athlete, and send him a personal appeal to become a subscriber to this fund. As a former member of the foot ball and base ball teams, I shall be very glad to contribute as liberally as I can to such a fund.

If the addition is to be in the shape of an annex to the gymnasium, it might be appropriate to give to the annex the name of some distinguished athlete who has died since his graduation. Some might offer the name of Kin Takahashi, who was not only a distinguished athlete, but who also inspired the building of the gymnasium. Another suggestion would be Mort Erwin, '01, who was one of the greatest foot ball ends whom Maryville ever had, and who died in 1906, just as he was entering upon his professional career as a physician.

Yours very truly,
John E. Tracy, '01.

RESULTS OF THE OHIO STATE UNIVERSITY PSYCHOLOGICAL TEST GIVEN M. C. FRESHMEN

FORM TWO

The form includes eight tests with number of points as follows:
Test 1—20 points
Test 2—20 points
Test 3—40 points
Test 4—30 points
Test 5—10 points
Test 6—15 points
Test 7—40 points
Test 8—40 points

Total—215 points

In tests numbers three and four, count right minus wrong.

There are five classes:
Class I.—159 to 215 points correct
Class II.—128 to 158 points correct
Class III.— 85 to 127 points correct
Class IV.— 60 to 84 points correct
Class V.— 0 to 59 points correct

According to Ohio State University system of grading, 5% should rank Class I. or A; 20% should rank Class II. or B; 50% should rank Class III or C; 20% should rank Class IV or D; 5% should rank Class V or E, which is failure.

The results of the mental tests given to 192 Freshmen of Maryville College according to the above system of grading are as follows:

Class	*Points Correct*	*Grade*	*No People*	*Percent*
I.	159-215	A	8	4.16%
II.	128-158	B	34	17.70%
III.	85-127	C	104	54.16%
IV.	60- 85	D	34	17.70%
V.	0- 59	E	12	6.25%

Comparison:

Class	*Standard % (by Ohio S.U.)*	*Maryville College*
I.	5%	4.16%
II.	20%	17.70%
III.	50%	54.16%
IV.	20%	17.70%
V.	5%	6.25%

The highest grade (192 points) was made by a girl
The second highest grade (183 points) was made by a boy.
The third highest grade (170 points) was made by boy.
The lowest grade (35 points) was made by a boy.
90 and 92 points were the popular scores.

—Irma Schwab.

WHY DID YOU COME TO MARYVILLE COLLEGE?

A questionaire recently filled out by the students of the college department resulted in the following figures when summed up:

Because some relative attended this college?—111

Because a student or former student of this college persuaded you to come?—92

Because a friend was coming?—83

Because your parents favored this college?—203

Because of the influence of a high school instructor?—62

If so was he a former student of this college?—39

Because of the influence of your pastor?—43

If so was he a former student of this college?—17

Because you saw the college advertised in a newspaper?—15

Because you received letters, circulars or other printed matter from the college office?—68

Because some professor or field man of this college solicited you?—12

Because of the moral and religious ideals of this college and this city?—169

Because of the reputation of the college in debating?—7

Because of the reputation of this college in athletics?—13

Because it is co-educational?—121

Because it is a college instead of a university?—62

Because of special courses?—68
Bible—8
Chemistry—1
English—5
Expression—4
Mathematics—1
Music—11
Pre-Medical—8
Science—1

Because of the comparaitvely low rate of tuition cost?—205

Because of the opportunities to work your way through?—77

Dr. and Mrs. Stevenson entertained Mr. Hammontree and Mr. Ackley at the House-in-the-Woods during the February meetings. Dr. Bartlett and his mother, Dr. and Mrs. Wilson, Dr. and Mrs. McMurray, and several other members of the College faculty were entertained at supper by Dr. and Mrs. Stevenson last Monday evening.

SENIOR PARTY AT HOME OF B. L. GLASCOCK

Never did Saint Valentine see so many happy folks gathered to celebrate his birthday, as the crowd of Seniors and future Seniors who were entertained so royally at the home of Mr. B. L. Glascock on Monday night, February 14. Pep! Just plenty of it from the time Frances Hickey and Red Hayes (first couple to arrive) put in their appearance until Elsie Dawson and Jarvis Cotton, after seeing everyone safely housed for the night, parted company reluctantly at Pearsons near the wee small hours of the night.

If the Seniors of '22 want a gay, good time just remember some of the things we did.

Every contest was a hundred per cent successful because there were lots of prizes. Ray Foster has a nice, new rubber ball now because he not only found quite a few pierced hearts, but man-like depended on some of the fair sex to add the necessary number to put him over the top. And when it comes to making people say yes or no and thereby forfeit one of their original ten hearts, Myrtle Rendon has us all beat, even the best of men and others like Red, Ray and Mr. B. L.

You can't hold a good woman down!

Now in order to get everybody interested in the wedding of Miss Flower, pieces of broken hearts were matched. It always takes two to mend a broken heart, so, in the usual way, boy and girl worked together (not saying how) on the contest. Again a fair maiden was superior in the knowledge of flowers. Aileen Rutherford was the skillful one! We are all working toward a degree, Monday night it was the "Mrs." degree for each Senior prepared his matrimonial card—they are now on file.

But the best is yet to be! The heart is somewhere near the stomach, so physiologists tell us, and "Everywoman" has found this palatable way to the heart in question. What could have done the work more effectively than the vanilla and chocolate cream joined together by whipped cream touched up with a red cherry?

Time always does fly and College Hill was quite a piece from the home of festivity, so we all thanked our hosts and hostesses, for the best time ever, wished everybody a goodnight, and turned toward home. How? In the usual way—two by two.

BOARD OF TEMPERANCE PRIZE AWARDED

Misses Reva Rankin and Jessie Johnson Win in Contest.

The Board of Temperance and Moral Welfare of the Presbyterian Church has for some years been providing funds to the various church schools to be awarded the successful competitors in oratorical contests dealing with themes related to temperance and prohibition measures. Since the going into effect of the constitutional amendment prohibiting the traffic in liquor, this grant has been withdrawn from many of the former recipients, but this year the grant was made to Maryville College as usual.

The competition was staged as part of the work of the course in English known as Argumentation, English 1, which ran the first semester. Forty-nine students actually spoke in the competition. The contest was judged by the instructor in charge of the course, Professor Hunter.

On Saturday morning, February 12, the awarding of the prizes took place in the Chapel. Dr. Wilson made the presentation of the prizes, one, the first prize of fifteen dollars to Miss Reva Rankin, '23 of Athens, Tennessee; the other, the second prize of ten dollars to Miss Jessie Johnson, '21 also of Athens. Miss Rankin's oration was on the subject, The Enforcement of the Law. Miss Johnson spoke on the subject, Is the Duty of the Enemies of Alcohol Done?

It is to be regretted that the entire student body did not get to hear these speakers and the numerous others who followed close in the wake of the two accomplished Athenians who won the award.

TRIANGLE CLUB

The triangular club, composed of New York, New Jersey and Pennsylvania gladiolites met in Theta Epsilon hall on Monday afternoon, February 14th. The entertainment which required and attracted the attention and the services of everyone was under the wise management and solicitation of the Minarik, Alice and Holt Company.

The gladiolites were very good to have I. K. demonstrate and acquaint each one with the hot bottled theory. Although most of the facts concerning the usefulness of such a bottle have been proved by our chemists, yet, another further step was taken in the scientific world, when I. K. proved by his game of bottles theorizing how a little insignificant red hollow vessal without a cork could tell and point out the peculiar and weak traits in human character.

During the intervals of such practical games several musical selections were rendered by the gladiolite players. Following this enjoyable entertainment which preceded their adjournment, Alice and Holt added the final climax to such a happy meeting by serving some of their special dainties of domestic art.

PREPARATORY DEBATERS SELECTED

The Preparatory boys' preliminaries were held recently and sixteen fellows were chosen from the twenty-five participating. The ones chosen are: Cornelious, Hayworth, Karrick, Fraker, Maye, Friedman, Burson, Jester, Milling, Campbell, Brown, and Patrick, with the alternates, Ginnens, Moore, Gamble and Hoffman.

The first six men named will clash with Knoxville High School, one of the strongest high schools in the State.

Opponents for the other two teams have not as yet been definitely decided upon, but Coach Brittain is at work on the plans and will be able to make an announcement of the completed schedule within a few days.

Jence—What do you think about praying before an examination and then cheating?

Florence—Well, the Lord helps those who help themselves.

NEW ERA GOOD BASKET BALL TEAM

The Highland Echo

MANAGER RISKEY IS PLANNING EXCELLENT SEASON

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME NINE | MARYVILLE, TENNESSEE, WEDNESDAY DECEMBER 5, 1923 | NUMBER ELEVEN

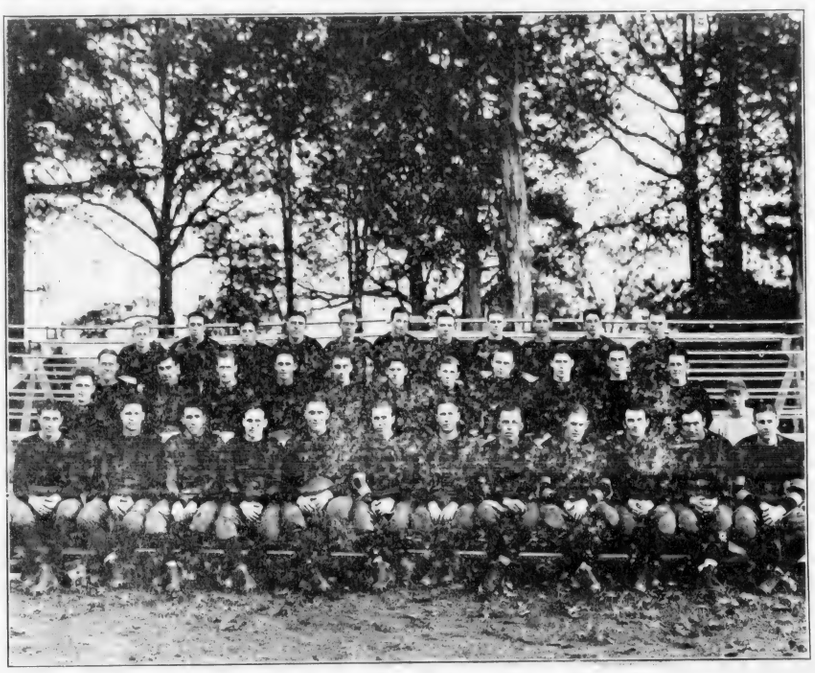
BATTLING HIGHLANDERS BRING SUCCESSFUL SEASON TO CLOSE BY DEFEATING CUMBERLAND'S STRONG TEAM

Athenian Society Scores Success in First Mid-Winter

All Parts were well taken And Sight Change in Scenery Kept Theme of Play Going

Monday night, Dec. 3, "The Lion and the Mouse" the first mid-winter of the season was presented by the Athenian Literary Society. As the first midwinter it sets a high standard which the other societies will have difficulty in surpassing. Not only did this play show a great deal of preparation but a deep ensight into human nature. The characters presented were true to life and very human. Mr. Hunter Robinette interpreted the character of a business man who was buried in the plans of politicians but who was not buried so deep that the spark of manhood was not able to be found into a flame. Miss Bernice West portrayed a very high inspirational type of pure, strong womanhood. Mr. Raymond Anderson, as the son of the man who was about to bring ruin on the father of the girl he loved, showed a strength of character, a true standard of values, and a strong, true devotion to the girl whom he wished to deserve to marry. He seemed to embody the characteristics of an ideal man. The numerous minor characters were as well portrayed and were a great factor in the success of the play.

This play cannot be described in words to show its real worth. It was a play well worth seeing, and if you missed it, don't miss another.



Next Monday Night Bainonians Present Mid-Winter

On Monday evening, the tenth of December, the second Mid-winter of the season will be presented by the Bainonian Literary Society. The play, Miss Lulu Bett, by Zona Gale, was awarded by Columbia University in June, 1921, the prize of $1,000 established by Joseph Pulitzer for "The American original play, performed in New York, which shall best represent the educational value and power of the stage in raising the standard of good morals, good taste, and good manners."

Y. M. C. A.

The Y. M. C. A. Cabinet Entertain The Prep Football Men

Thursday evening, November 22, the Y. M. C. A. cabinet showed its appreciation to the prep football men by a short entertainment, consisting of selections by the College quartet and a number of good jokes given by some of those present. Punch was served as a refreshment and was truly enjoyed by all partaking. Thanks to you prep football men for upholding the standards of old M. C. We expect greater things of you in the future.

Bottom Row—Clemens, Brown James, Hurst, Gamble, Partee, Thrower, Captain; Sneed Guy; McMurray, Riskey Williams, Musick, Cartwright, J. P; Honaker Coach, and Shores.

Happy Students and Visitors Witness Well-Earned Victory by Highlanders In Battle for Turkey Day Honors

Cumberland Team Proves to be One of Best Met by Maryville This Season

The Cumberland University grid warriors, strong and confident, went down to defeat before Coach Honaker's fighting Highlanders at Maryville in the annual Turkey Day grid classic, 9-3. A field goal by Knee, Cumberland's triple-threat man, in the first quarter was overtaken by the Orange and Garnet gridders in the second, when Hurst, Maryville's plunging full-back, crashed over the goal line. In the early minutes of the third quarter "Ed" Hamilton, M. C.'s dependable booter, place-kicked the ball between the bars from the 25-yard line.

The early minutes of the game saw both elevens fighting desperately in mid-field, few first downs being made. A long punt down the field by Knee was fumbled by Riskey and recovered on Maryville's own 25-yard line by a Lebanon warrior. Held on the one-yard line Cumberland was forced to resort to a place-kick which sailed between the posts from the educated toe of Knee.

The most sensational play of the game came in the early minutes of the second quarter when Jean McMurray emerged from the line of scrimmage on the 48-yard line and sprinted 37-yards before being downed. A five-yard penalty did not prevent the Highlanders from making a touchdown, for several times the Riskey-Snood-Hurst-McMurray combination punctured the Cumberland line and with a rush Hurst trampled his way across. The goal was not kicked.

The third quarter resolved into a punting battle between Hamilton and Knee, with the Maryville man having a shade the better. Hamilton was called upon to increase the

lead in the early minutes of the second half and kicked the pigskin between the posts from the 25-yard line, making the score, 9-3. The ball was on Cumberland's 38-yard line in their possession when the frame ended.

Constant substitution in the fourth quarter by Coach Honaker kept the Highland machine in fresh condition, and the Maryville gridders completely outplayed the disappointed Lebanon eleven, which had anticipated an easy victory. A frantic forward passing game was started in the dying minutes of the game by the visitors, but most of the tosses were either grounded or intercepted. Maryville was marching down the field when the whistle blew.

The highly heralded Knee, recognized in Southern ranks as a super-player was well-covered throughout the game, and "Thug" Murray, former All-American player, and coach of the Cumberland University squad, left tackle, found it impossible to root Captain Thrower, Maryville's giant lineman, out of the play.

Coach Honaker declared after the game that his proteges played an inspired game, and said that each player deserved credit for the splendid showing made. Cumberland's coach stated that it was one of the hardest contested games in

(Continued on page four)

Second Lyceum Of Season Was Enjoyed by All

Paul V. Vernon's Cleveland Symphonic Quintet fulfilled its purpose in the program given for Maryville students. Its expressed purpose was to make its music entertaining and educational both to the musical and the unmusical.

The company was headed by Mr. Paul Van Orman Vernon, a violinist of unusual talent and fame.

The other members were: Mrs. Vernon, accompanist; Mr. Lloyd Da Casta Jones, who played the viola; Mr. Arthur George, cellist; and Mr. William Cheeseman, second violinist.

Special features of the program were violin and cello solos, a Viola D'Amour solo, "Chamber Music" by an ensemble of two violins, viola, and cello; and orchestral effects produced by the string instruments and an organ which took the place of wind instruments.

Football Men And Friends Go On Mountain Hike

Men Who Entertain Cheering Crowd Can Also Entertain a Chosen Crowd on Hike

When, after the football season is over, and the gridiron heroes, together with their "still, small voices" have returned from the long-looked-forward to mountain hike, a fitting way to let others know of their wonderous adventures, is to publish them in the columns of the Highland Echo.

We know these facts to be true: that they went to Sunshine; that they hiked over every hillside and through every valley; that they ate unceasingly; and that their chaperones were all-round goodsports.

This fact we hold to be self-evident that no one is able to relate properly the good times which result from a combination of sunshine and moonshine.

Riskey's Committee Puts on Cross Country Run

Maryville's First Cross Country Run Took Place Thanksgiving Day Under the Auspices of the College Y. M. C. A.

Ten runners started from in front of the grandstands at Wilson field and nine of these same runners finished just before the start of the football game.

At the crack of the gun Templin took the lead with Broady second and Sanchez third. And these three runners held the same places throughout the three mile course. Templin finished with about four yards between himself and Broady

POOR LOSERS

Now that the football season is over suppose we take an invoice of our where-abouts. The entire team and each game will be carefully reviewed by the sport editor. The returns will be carefully accounted for by the treasurer, the prospects for another season will be the immediate concern of the association and the manager; the possibilities of what might have happened will be thought over by the coach. But who is going to say a word for the side liners; the grandstand decorations, the noise makers, or THE CRITICS; those who would have won had they been quarter-back, coach or captain; those who crab or croack at the referee, the umpire, or the head lineman. This last, and LEAST but most noticeable are like the bad penny, the sick cat, and the poor, they are forever with us. As one writer puts it. "I don't know why it is but the Maryville college students are the poorest losers I have ever seen. . . . Can't we get up a feeling that we are in sport for the sports sake, and that we can accept defeat as gracefully as we can accept victory, and that. when we agree upon an umpire or referee, it is understood that his word is final and will not be questioned?" Another writer says "I hope to live to see the day when an honest, clear-sighted official in an athletic contest on College Hill can make a decision adverse to a Maryville team and inflict a penalty therefor. without the abmnable protests of some counterfeit Maryvillian being hurled at him." The sad part of these statements is that they are true, and more might be said and still be true. One writer goes ahead to say that it is a matter of education first, reformation second and then. Well let us all begin now. Let us learn to accept adverse decisions without criticising. Let us learn to accept defeat without a course of mournful howls about the official Let us BEGIN NOW and LEAVE OFF FOREVER this "small town stuff" of crabbing at the official during or after any contest.

STOP THIEF

Isn't it a shame that a christian institution like Maryville College, which has for more than one hundred years. stood for high ideals and noble deeds of help and kindness, can't gather within its boundaries a student body of about seven hundred-fifty without getting those who are. not only a disgrace and a menace to a college community. but who are, and will always be, a nuisance and a person to be watched in any community?

"Stop Thief". is the only way it can be put, for not only are unfair methods used in the class room but magazines are continually being taken from the Y. M. reading room; magazines and books are being "stolen!" from the library; overcoats and hats are being "stolen" from the dining hall cloak room, to say nothing of things being taken from rooms and other places, where, if we were law abiding citizens, they would be safe.

Does this all go to confirm what a young fellow said some time ago? "there are men in College who ought to be in the penitentiary."

WE WOULD LIKE TO KNOW.

We have been wondering ever since last Thursday, who got rich off of the little streamers and the "souvenirs" that were so kindly donated to the students. In consideration of the fact that the little orange and garnet streamers sell at one cent apiece, and no doubt the managers of the enterprise took advantage of that fact, we and several other students feel that someone tried to put something over on us. To judge from the results, they did put it over. If they sold the six hundred streamers, and they did, they made a profit of twenty-four dollars on a six dollar investment. If any student organization in need of a little money tried such a thing, we all know how far it would get with it.

The streamers could be overlooked if it were not for the souvenir programs. From what we found out about the price of one add, we can easily compute the entire income from advertisements. From what you know of rates, wouldn't you say that at least one hundred and fifty dollars came in through ads? That is a conservative estimate, we feel. Then, the ardent salesmen sold about four hundred, at the nominal sum of ten cents, making the grand total of one hundred and ninety dollars. If the printing cost more than seventy-five dollars, they got cheated. Figure out the profit for yourself.

Since there is no law against profiteering, a kick is futile, but what effect did and will it have on the advertisements in the college publications? The town merchants have a certain amount of money they spend for college advertisement, and some college publication suffered when a private enterprise took a part of that amount under the name of a college publication.

Think it over.

DELEGATES CHOSEN FOR INADRENNIAL CONVENTION

At the recent electin of delegates to represent Maryville at the Student Voluneer Convention in Indianapolis the following students were chosen. Margaret McKinney, America Moore, Mary Robison, Raymond Anderson, Edgar Cathey, and Edward Hamilton. Miss Mary E. Caldwell, dean of women, was selected by the faculty to be their representative.

Y. W. NOTES

The general topic for discussion at last Sunday's meeting "Health" was presented in four divisions—"Brain" "Teeth," "Digestion," and "Face." Many helpful suggestions were given by the four speakers. They gave us a few new rules for the proper care of the body, and reminded us of many laws of the physical being that we know but are careless about observing.

Next Sunday a joint meeting of Y. M. and Y. W. is to be held. The faculty are always welcome at our meetings, but they are especially urged to be present next Sunday, as the subject "Cooperation Betweet Students and Faculty in College Life" is to be discussed. It is hoped that the meeting will have much practical value for every one on College Hill.

ALL-AMERICAN FOOTBALL TEAM

The All-American team has already been chosen. The line-up reads as follows: Lock, Yale, left end; Battle, Princeton, left tackle; Hills, Vermont, left guard; Dirt, Pittsburg, center; Flours, Minnesota, right guard; Statues, LaFayette, right tackle; Wealth, Vanderbilt, right end; Tube. Colgate, quarter-back; Lake, Michigan, left half; Gold, California, right half, and Winds, Chicago, fullback.

Substitutions: Busts of Washington and Lee; Bunch of Tufts; Hale, Columbia; Priests of Notre Dame; Koal, West Virginia; Booze of Kentucky; Plains of Texas, and Falls of Niagara.—Ex.

Maryville's 1923 Football Season Goes Down in History as One of Her Best

Highlanders Score 345 Points to Opponents 91

Remember that letter you received a few days after Thanksgiving inquiring if the team had a successful season! Not very hard to answer, was it? With pride in your heart you sat down, and told how old Maryville assured the world of its really remarkable eleven by its convincing victory over Cumberland. We are so enthusiastic about that fighting aggregation of ours that we can't help but look back to the early days of the football season and observe with pleasure how that 1923 team of ours got under way.

Untried but willing and rugged band of Highland youths went forth to battle in the early days of the season and met an invading force from the mountains of North Carolina on Wilson field, Mars Hill College happened to be the particular victim, the Blue Ridge gridders taking back to their Alma Mater nothing but the memories of a 73-0 reverse.

The Highland youngsters, feeling their strength, awoke to the realization of great possibilities, and sharpened their appetites on Weaver College, 61-0, in preparation for the all-important struggle with Tennessee.

A bright autumn sun shone down upon the entire student body of Maryville as it gathered together within the Shields-Watkins Stadium on October 6, as though beaming a smile upon our enthusiastic invasion. Memories of that day will live forever! Shall we ever forget how the Orange and Garnet squad, no longer composed of nexperienced youth, but now a team which had reached the strength of young manhood, battled U. T. for three quarters and in the fourth frame administered a sound thrashing to the haughty sons of Tennessee. Although twice within the shadows of the goal posts we were forced to accept a tie, 14-14, but the game went far towards creating a splendid morale among the players.

Two more trips brought to Maryville another victory and its first defeat. At Johnson City Milligan put up the greatest showing of its season to try to defeat the Honaker outfit, but had to accept a 14-3 loss after a desperately fought game. The next week M. C. found the weight of Kentucky too much to be conjured with, and after a plucky but hopeless struggle, went down before the Blue and White at Lexington, 28-0.

Returning to our home grounds after three games away, the vigorous Highlanders found Lincoln Memorial University rather easy, defeating the Harrogate aggregation by the one-sided score of 73-0.

Another trip into the Blue Grass region found the M. C. men in splendid physical and mental condition, with the result that the strong Georgetown team fell victim to the Orange and Garnet machine, 27-6.

Maryville College offers no apologies for the defeat at the hands of King College, 17-0. With every man fighting for victory, with every student cheering for the eleven, the Highlanders were humbled by this wonder team of the South in a bitter struggle on Armistice Day. Football coaches and athletic fans admitted that they were in the presence of two great teams; teams which played fast football.

The sting of defeat was once more Maryville's when after a long trip the team went down before the Sewanee Tigers at Sewanee, 20-0. The Highlanders came back strong in the second half and held the home team scoreless.

Back once more on Wilson Field, the Maryville warriors ran up the largest score of the season against East Tennessee Normal, 74-0, practically every man on the squad getting into the fray at some part of the game.

The climax was capped on Thanksgiving, when the Maryville aggregation, no longer in its youth or young manhood, but having attained maturity, went forth to conflict with the celebrated Cumberland University eleven. Overcoming a three point lead by a touchdown in the second quarter, the Highlanders also booted a place-kick between the uprights, making the final score, 9-3.

Yes, the 1923 season was a success; the kind of athletic success worth obtaining. The team was coached admirably by Coach Honaker; backed solidly by the student body; believed in by the town. A total of 345 to 91 points shows without doubt that Maryville had a team of genuine offensive srength. The season just past is another enviable page in Maryville football history; a page which can be referred to with honest pride.

So much of the season as a whole Those who in their own way contributed most toward our successful season deserve special and particular mention. This I stall endeavor to do in the remaining space alloted to me.

Coach Lombe S. Honaker, indeed a grey-eyed man of destiny, with three successful seasons behind him, deserves the plaudits of all Maryville. Taking the football mentorship at a time when an Orange and Garnet machine was not to be taken seriously, this student of Zuppko started in to organize an efficient eleven, and that he has done so can be testified to by a long line of defeated rivals.

Each year Coach Honaker has made our football schedule harder, until this season we played games with the pick of the South. Through the leadership of this man the name of Maryville has become known throughout the United States, and more people are interested in the outcome of Orange and Garnet athletics now than ever before. Realizing this man's contribution to old Maryville, we lift our voices and cry, "Hail! Coach Honaker!"

Assistant Coach Bond has been an able tutor throughout the season, and the Honaker-Bond combination worked with considerable success from the record of the past season with seven victories, one tie, and three defeats. The large squad which was constantly on the field could not be supervised by Coach Honaker, and Bond assumed the responsibility of whipping one combination into shape. This former Maryvlle athlete's wise suggestions have been invaluable to the squad this year, and we are indeed fortunate to have him with us.

"Shimmy" Brown, industrious and efficient, completed his second year as manager of the team on Thanksgiving. If there was ever a competent executive connected with a football team, "Shimmy" is that particular person, for he knows just where everything is, how to attend to six things at once, and is a splendid diplomat, (particularly in explaining to the visiting team why the towels didn't arrive.) Not only has the very popular Mr. Brown looked after the players' welfare, but he has also done much to shape the spirit of the student body at our numerous "pep" meetings. "Shimmy," you have served well, and the squad appreciates your efforts.

Captain "Bob" Thrower, playing his third year with the Orange and Garnet, is the type of tackle in which Walter Camp is interested. In his weight, speed and personality —Maryville's letter men saw the right man for a pilot, and how "Bob" brought the team through successfully is evidence of a fulfilled trust. This big boy from Texas at no time endeavored to "star," but devoted his entire attention to perfecting he machine. Ask "Thug" Murray, former All-American, what he thinks of "Bob."

"Tom" Greenlee, to you we doff a respectful Stetson. After three long, grinding years of apprenticeship on the gridiron you came back strong this year and made a berth on the line. Deprived of enough quarters to make a letter during his Freshman, Sophomore and Junior year, either through injuries or having someone beat him to a place on the eleven, Tom did not say die, but squared his jaws and kept on plugging. Every fellow on the team is glad you made it this year, Tom, for you have proven what a man with the proper stuff can do. Your football days at Maryville will be recalled long after the brilliant performances of some flashy stars have been forgotten, and your record should be an inspiration to all potential football candidates.

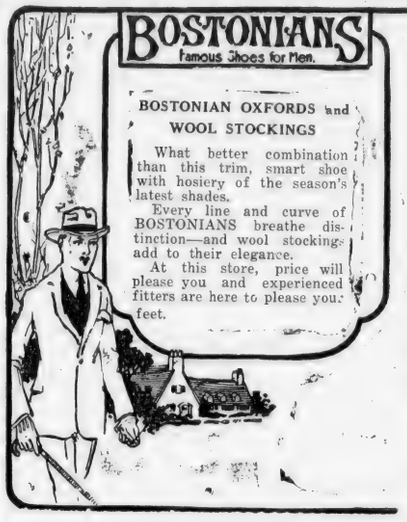
"Shorty" Sneed rounded out a brilliant three year football record with Maryville against Cumberland on Thanksgiving day. Destined by Nature to remain close to Mother Earth, he added additional terror to grid opponents by charging low and dashing through. When this remarkable half-back left the field at Kentucky the entire stands gave him a rousing ovation. We are sorry not to have you back next year, "Shorty," but we know your fighting spirit will hover over the gridiron, and will go far to develop future Sneeds.

Charlie Partee, played his last game in a Maryville uniform against Cumberland on Thanksgiving. We could tell you realized that it was your adieu to intercollegiate football by the manner in which you went into every play. "Charlie" has been a faithful Highland athlete and shall be missed very much from the local gridiron.

Jean McMurray, M. C.'s oldest veteran, played half and quarter with characteristic success this season. Always calm and thoughtful, this admirable athlete is the criterion of a scientific football player. His broken field runs, interspersed with reverse turns, have made many a tackler appear rather unnecessary. He also passes the oval with accuracy and responds nobly when called upon to use his educated toe.

Carl Schmidt, rugged and consistent, and veteran of many a grid struggle, filled the left-guard position with skill and dispatch. Many a time we have seen a human battering ram hit you, "Schmidty," and then how both sides would pile straight up. And the score-keeper would chalk down, "Second and ten to go." We are looking for your one more big year, Carl.

Doris Musick, left-end extroardinary, resembles an unleashed tiger during the fray. His amazing stamina permits him to do more than his share, and his agility in taking his man out of the play is well known among Maryville grid rooters. Musick is the personification of aggressiveness, and his spirit aids the morale of the team. Three years of football glory behind, and another to come! An enviable record, Doris!



"Back" Williams, right-end, started the season with a record of touchdowns which would make a number of backfield men envious. After intercepting a pass in the Tennessee game "Back" dashed thirty-four yards, scoring the second touchdown of the game. We shall not ask what this rangy athlete did with the $50 that Dad gave him after the Shield-Watkins struggle. Hope that foot gets better soon, "Back."

Earl Riskey, heady Maryville quarer-back, mixed his plays with tantalizing variety if the testimony of our opponents is of any weight. The courage of the man may be judged by the fact that he played through the greater part of the season with the right side of his face without sensation, it having been severely injured in one of the early season clashes. We remember the U. T. game, Earl, old boy.

"Ed" Hamilton, fine to behold in football togs, started the season in the backfield but was early given a berth at left-tackle. His one hundred ninety pounds has necessitated "Time Out" in many of our frays this season. His greatest contribution to the team this year was his dependable punting and place-kicking, booting the oval in big University style.

"Kay" Clemens, Maryville's hard-fighting center, was the instrument upon which the Orange and Garnet

New Gymnasium is Dedicated And Presented to College

Much Honor Due The Alumni Association Officials; Mr. Crum, Prof. Orr and Prof. Hunter

November 29, Thanksgiving Night Occurred for Formal Dedication of the Alumni Gymnasium and its Presentation by its Builders, The Alumni Association To Maryville College

The speech of presentation was appropriately and effectively delivered by Mr. M. B. Crum, '17, the president of the Alumni Association. Mr. Crum gave a brief review of the history of the Alumni Athletic Campaign from the time of its inception in the summer of 1921, mentioning

MR. M. B. CRUM

particularly the completion of the Athletic Field in the fall of 1921 and the final effort of the past summer which resulted in the building of the Alumni Gymnasium.

Dr. W. P. Dawson, '84, Chairman of the Executive Committee of the Directors, made the speech of acceptance, very forcefully stressing the value of the ideals of clean sportsmanship and fair play for which Maryville has always stood and to which this latest of the College buildings was about to be dedicated. Dr. C. H. Gillingham, '05, offered the dedicatory prayer and with the enthusiastic singing of the Alma Mater by the audience, the dedication service closed and the Alumni Gymnasium passed into the possession of the College, to be one of the chief means in her hands of providing a sound and wholesome physical training for all the coming generations of students.

This Alumni Gymnasium, thus presented to the College represents the expenditure of approximately $11,000, including its construction, heating, lighting, and seats. As the result of the record-breaking gate receipts of the King College football game and of the splendid cooperation of the American Legion in the presentation of a minstrel show on the night of Armistice Day, $1,740 came into the hands of the Association from the income of that day's program. The remarkable Student's Alumni Fund of $588.15, contributed by the members of the present student body, wholly upon their own initiative, came also as a life-saving gift to make possible the completion of the building. The remaining $8,700 of the cost is paid, or will be paid, by the gifts of Alumni, scattered abroad over the country, yet bound by undissolveable ties to Alma Mater and her interests.

As it stands today, the building supplies two long-felt needs: the need for more room for the physical training classes and the need for an adequate court for the use of the basket ball team. On its splendid 60x90 foot floor both of these needs are amply met and satisfied.

As one sat on Thursday night in the atmosphere of this dedicatory service, in this comfortably heated, brightly lighted, adequately seated, spacious gymnasium, the gift of loyal alumni of all classes and all stations in life, of splendid friends in the American Legion and in the community, and of earnest enthusiastic students, he found it easy to believe, as never before, in the dawning of the day of the Newer Greater Maryville in which loyal students and friends and alumni are to see in a fuller better way the fruition of all the fine old historic ideals which have made Maryville's past noble and glorious.

PROF. H. E. ORR

To All Friends of College Football

It seems like a matter of little consequence for one to attend the Sunday professional football games--nothing more than attending any Sunday event—but it has a deeper meaning than you realize, possibly a vital meaning to college football. Intercollegiate football will live only so long as it contributes to the well-being of the students: that is, while the influences of the game are predominantly on the side of amateur principles, right ideals, proper standards and wholesome conditions.

For years, the colleges have been waging a bitter warfare against the insidious forces of the gambling public and alumni and against overzealous and short-sighted friends, inside and out, and also not infrequently against crooked coaches and managers who have been anxious to win at any cost, and victory has not been completely won. And now along comes another serious menace, possibly greater than all others, viz: Sunday professional football.

Under the guise of fair play, but countenancing rank dishonesty in playing men under assumed names, scores of professional teams have sprung up within the last two or three years, most of them on a salary basis of some kind. These teams are bidding hard for college players in order to capitalize not only on their ability but also, and mostly, upon the name of the college they come from, and in many cases they noise abroad mystery of their presence. The well known Carlinville and Taylorville incident of 1921 is likely to be repeated in essence on different occasions this fall. There is nothing that a bunch of gamblers will not do for their purpose, and quite often they carry along with them the support of a thoughtless group of business men and well-meaning citizens.

Cases of the the debauching of high school boys not infrequently have come to notice. Also recently one of the well-known Sunday professional teams on which several men are said to be regularly playing under assumed names employed a well-known Conference official who officiated under an assumed name.

The schools and colleges are struggling to combat the various evils connected with football which, when played with the amateur spirit, possesses more elements for the development of character and manhood than any other sport I know of.

To patronize Sunday professional football games is to co-operate with forces which are destructive to the finest elements of inter-scholastic and intercollegiate football and to add to the heavy burden of the schools and colleges in preserving it in its ennobling worth.

To co-operate with Sunday professional football games is to work against the best interests of interscholastic and intercollegiate football and to lend co-operation to forces which are destructive to the finest elements of interschoastic and intercollegiate football.

If you believe in preserving interscholastic and intercollegiate football for the upbuilding of the present and future generations of clean, healthy, right-minded and patriotic citizens, you will not lend your assistance to any of the forces which are helping to destroy it.

Sincerely,

Amos Alonzo Stagg.

We print the above because we agree with Coach Stagg and because we, as thousands of others, want to see football remain a college sport

One thing worthy of note in the season just past is that great increase in the popularity of football as shown by the great attendance breaking all previous records.

With this increasing desire on the part of the public for the sport of all sports it may be impossible to do away with professional football or even keep it down to a minimum but it is certainly not up to any one who, wishes to see it remain an intercollegiate sport, to in any way encourage professional football whether it be played on Sunday or any other day.

We believe many students will be interested in reading the views and conclusions of the world's highest salaried editor, Arthur Brisbane, on the value of a college education, or is he just writing to console fond parents?

The quarterback of yesterday afternoon's game will find himself all the way back, ten years hence, in many cases. And the "full back" of the farm or factory will be on the rush line of real life. **Let that thought console grieving parents.**

There is nothing taught in college that a boy cannot learn at home if it is really and only knowledge that he wants. And you may truly say of college life what the French proverb says of foreign travel: **"Travel forms youth when it does not deform it."**

It takes a boy of strong mind to endure several years of false standing, false glory, false importance, false, fossilized theories and then come out fit for life's real work.

"Boys go to college to make friends useful in after life," you hear. That's another way of calling the college a training school for snobs and toadies. Rockefeller did not go to college, or Schwab or James J. Hill, or any of the others among the great builders of America, but they have not lacked friends.

There would have been no Robert Burns, had the young Scotchman gone to Oxford or Cambridge. Merely dragging him into "good society" among the "cultured classes," when his fame began to interest fashionable women, would have ruined his style and him.

Freshmen Win In Interclass Basket Ball

They say history repeats itself. And "They" are right. Most of the students on the hill turned out Wednesday night to see the Freshmen drag down the colors of the Sophomores in a stirring basketball spectacle. The score 19 to 13, tells the tale of exultation and sadness. Just so it was a year ago, the "Freshies" came through clean ? ? ? ? ? from the start. The Sophs ruled favorites at the very start of the tournament and hardly any one figured the Freshmen would show up so well. Captain "Shorty" McCall and his warriors are to be complimented on their fine brand of basketball.

At the start of the tournament, the Third Preps acted ungentlemanly in beating their seniors 24 to 20. Martin of the winning team showed up well in this affar.

The Freshmen beat the Juniors 30 to 20. This proved the first upset of the tournament. Thompson, Harvey and McCall did well for the winners.

In the next round the Sophs beat the Seniors 23 to 2 Malcolm Miles, fleet little forward scored most of the points for the Seniors while Shores duplicated the feat for the winners.

The Freshmen beat the Third Preps 34 to 19. Martin contributed seventeen of the losers points while DeLozier and Thompson were responsible for most of the Freshmens.

All in all, the tournament was a great success, and a great deal of fine material for the varsity hove into view. A Prep team could just about clean up anything in this part of the state.

The score of the final game:

Freshmen (19)		Sophomores (13)
Thompson	L. F.	Gillingham
DeLozier	R. F.	Shores
Harvey	C.	Anderson
McCall (Capt.)	L. G.	Holland
Milner	B. G.	Gamble (Capt.)

Substitutes:—Clemens for Anderson.

Field Goals—Thompson 2; DeLozier 2; Harvey 2; Milner 2; Shores 2; Clemens; Anderson; Gamble;

Foul Goals:—Anderson; Clemens; Gamble; Thompson; DeLozier; McCall.

ALPHA SIGMA

Alpha Sigma Under New Officers and With Feature Men on Program Gives an Entertainment Seldom Equaled on College Hill

Before a capacity audience, at the usual hour, last Saturday evening, a few of the talented members of Alpha Sigma rendered a very interesting, instructive and enjoyable program. Mr. Vanderslice tore the lid off with a well outlined, smoothly delivered discourse on the "Modern Automobile". He was followed on the program by Mr. Armstrong who gave us a complete review of this month's Whiz Bang—The moral tone of this number was unusually elevating and its completeness in detail showed plainly that the speaker was exceedingly familiar with his subject. The audience was then carried on an oral trip to the wheat fields of Kansas by Mr. Wilbur Templin. This gentleman, aside from being widely traveled, is widely read and a speaker of no mean ability. An extemporaneous discussion of "The Value of Public Speaking" was carried on by Music Stewart, and immediately following his lecture a number of applications were received from those desiring to enter his class. The climax was reached when James Hardin placed the audience under a poetic spell by his perfect reading of a familiar poem. Deafening applause followed this number and the famous reader was called to the platform time after time. We hope we may again have the privilege of listening to this famous eloquotionist.

The Candy Kitchen—

For Candies

Maryville's 1923 Football Team

(Continued from page 3)

depended for its famous "sneak" play. Like lightning would he pass the ball and with a rush take out the opposing center. It was through such a magnificent charge by this long-haired athlete in the U. T. game that Riskey ploughed through for the first M. C. touchdown.

Victor Hurst, powerful and aggressive, developed from an end-runner of no mean ability into Maryville's most consistent line plunger. These last games of the season have been one triumph after another for you, "Vic," and we have been certainly fortunate in having you with us this year. After crossing the Cumberland goal line only to have the ball brought back because of a penalty, Hurst once more was given the oval and again smashed across with the touchdown that spelled victory for the Highlanders.

"Joe" Gamble, versatile backfield man, is a living illustration of what a light full-back can do with skill and alertness. Gamble developed into a capable line smasher this season, and played good football while in the fray. What a game you played at Georgetown, Joe! We are looking for you to do great things next year, Gamble.

Pledger Cartwright, surprised everyone from the Coach down when, after playing end for the first half of the season, he was shifted to right-guard, and proved to be one of the hardest and fastest chargers in the line. Cartwright plays every minute of the game, and is an addition to any line which is fortunate enough to have him. Congratulations for a good season.

"Shorty" McCall, young and unseasoned, but as fast as lightning, called signals for the team part of the season, and largely through his ability to kick pass or carry the ball like veteran he pushed Riskey hard for his berth all season. Shorty worked in enough quarters to make the coveted "M" and we prophecy a bright grid future for you "Shorty."

"Red" Brown, hard fighting lineman, made the team this year thru sheer determination and hard work. The story goes that he went forth last summer in quest of the hardest job that could be found in order to make the football team this year, and "Red" must certainly have found a whale of a position from the way he "held that line."

"Bob" Baldwin, alternated between center and right-guard throughout the season. With one year of squad training behind him, "Bob" was given a chance in the U. T. game and made good. Remember how Baldwin threw the famous "Billy" Bone for a ten-yard loss in the shadow of the Tennessee goal-posts! Bob's weight and strength more than overbalanced his inexperience.

THETA EPSILON AND ALPHA SIGMA

An unusual event which only comes to us twice a year is the joint meeting of our brother and sister societies. This time the place of meeting was in Bartlet Hall. The house was called to order by Malcom Miles, the president of Alpha Sigma. A delightful comedy "Behind the Scenes" was given with Maynard Dunn as stage manager and he proved a very capable one.

Spanish Dancers, Theta Chorus.

Reading, Harry Gauding.

Vocal Solo, Sarah Kiskadden.

Alpha Sigma Quartette.

Violin Solo, Winifred Jarvis.

Saw Mill River Road, Margaret Murray, Margaret Lewis, Andrew Stewart, Dewey Eitner.

Reading, Myrtle Ardis.

Humorous Sketch, Lucille Crowder, Ruby Harrison.

After the program wonderful refreshments were served and a social hour followed. During the evening the quartette of last year entertained us with several numbers.

Athenian and Bainonian Hold Joint Meeting

The Time We All Had Been "A Lookin, an A Lookin, an A Lookin and-er L-ookin" for

For the second time in the life of our New Gym it was lighted, this time for the Athenians and Bainonians. Seven-thirty Saturday night Nov. 24 found over two hundred Athenians and Bainonians awaiting the opening of the program. When it was opened it was by none other than Miss Lina Hodges, President of Bainonian Society. She told some of the history of the two societies and why a sister society was formed, then introduced a varied program which consisted of a piano solo, vocal solos by our own Raymond Anderson, Reading "Here Comes The Bridegroom" by Miss Martha Mae Boyer. Then for a bit of chance Wade and two members of his class (or a member of his class and another of some ones class, for surely no other clown is in the same class or could outclass this one) gave a little mat work, and showed real acrobatic qualities.

Next came another series of musical pieces, followed by a reading from Miss Annarine Atkins. She read one piece "A Gift of God" then by a host of cheers she was cheered back as Miss Boyer was.

We were told that a tag for each month of the year was stamped upon one of the post in the Gym and for us to find the one that our birth day came in. This was done with very equal proportion.

Each division was called on for a stunt. This was very cleverly put across we will have to admit. This caused about as much laughter as did the contest between Messrs Baldwin, Gamble and their (?) well "pals" at least. When they were given each a suitcase to run the length of Gym take out the contents and put on. My but they looked as if they were going to an old fashiened hallowe'en party. After a few more games the eats line begin to lengthen, this caused every one to make a mad rush, and judging from the way things quieted down they were all well fed.

To the decoration and eats committee we are very grateful, both committees proved that they were well on to their job, appealing to everybody's corresponding senses, sight and appetite.

Of course the flash of the lights had to come all too soon, which signified the closing of that date we all had been a lookin, an-a-lookin, an a-lookin, an-d-a l-ookin" for.

PERSONALS

Dr. Wilson conducted the funeral services of Mrs. Judge Robert T. McReynolds of Holston College Saturday of last week. The McReynolds family is very well known by former Maryville students, all of the children of that family having gone to school here.

—M. C.—

Drs. Wilson and Gillingham are attending the Association of Southern Colleges at Richmond this week.

—M. C.—

Miss Addie Larkin, one of the popular matrons of the college, has had, as her guest for a week, her sister, Mrs. A. P. Bean, of Huntsville, Alabama. Mrs. Bean's husband and three nephews, Howard Larkin, of Huntsville, and William and Thomas Keith, of Huntland, Tennessee were on the Hill Friday and Saturday. They made the trip from Huntsville to Maryville in their automobile.

—M. C.—

Miss Barbara Higgins had reason to be thankful on Thanksgiving Day. Her father, whom she had not seen for two years, surprised her by coming to Maryville on that day. Mr. Higgins is a civil engineer with the Alabama Power Company; he is now stationed at Birmingham, Alabama. Miss Higgins had another welcome guest for a few hours Saturday, her cousin, Miss Catherine Higgins. Miss Higgins' home is in Boston, Massachusetts. She is now in Otlen, North Carolina, engaged in giving aid to disabled soldiers.

The wearing of "sweat-shirts" as non-athletic garments is gradually gaining sway. The co-eds of Lynchburg College wear the "latest style" wrong side out so the fleece is exposed. Football players of the same institution are taking up the fad and wearing sweat-shirts instead of sweaters. The fad has been taken up by students at Wake Forest College (N. C.), which is not a co-ed college. In both instances the latest fashions are confined to "campus wear."

—M. C.—

Randolph-MaconCollege (Va.) and Hampden-Sidney (Va.) will meet in an intercollegiate debate on November 27 at Farmville. Subject: "Resolved, That There Should Be a Uniform Divorce Law for All States."

—M. C.—

Alumni of the University of Virginia are putting on a campaign to raise $1,000,000 for the purchase of the old home of Thomas Jefferson, known as Monticello. The alumni will raise one-fourth of the amount, and they will persue other means for the other three-fourths.

—M. C.—

The University of Pennsylvania springs a surprise upon the world. By feeding dye to living wood. trees can be colored thirty-two different shades, including apple-green, olive-green, ebony, weathered oak, and salmon-pink.

—M. C.—

Flunk notices for the first half of the fall quarter were mailed recently to 100 women and 305 men students at Chicago University. Congratulations for excellent work were sent 443 students, 223 of them co-eds.

—M. C.—

Students and teachers from all parts of the country meeting in a National Citizenship Conference at Washington D. C., went on record as favoring the unqualified observance of all laws in letter and in spirit as such observance relates primarily to the question of enforcement of the Federal Prohibition law.

—M. C.—

All of the dormitories in Birmingham-Southern College have adopted student government. It is hoped and believed that this new feature of dormitory life will be successful.

Considerable interest is being aroused at Ohio University by an indoor baseball tournament among the fraternities.

—M. C.—

The Indiana University Men's Pan-Hellenic Council has passed a resolution abolishing the giving of favors at all parties and social functions. The keen competition among the fraternal organizations as to which one could present the best souvenirs made such action advisable.

—M. C.—

Seniors at Transylvania College will wear corduroys of gray this year Both men and women will carry canes.

—M. C.—

Miss Marianna Andres was chosen as the most beautiful co-ed at Evansville College in a contest conducted by the Student Government Association there recently.

—M. C.—

Freshmen must live at the chapter house of the fraternity to which they are pledged for at least one semester before initiation, according to a ruling recently made at Indiana University.

—M. C.—

Harvard University was defeated by Dartmouth on October 27th for the third time in thirty years. Approximately 51,000 persons witnessed the defeat.

—M. C.—

The athletic director and coaches of Colorado University motored to Fort Collins a few weeks ago to inspect the lighting system used by the Aggies in night football practice. Some have thought of installing it in the University for men who have to work during the day.

—M. C.—

Carnegie Institute of Technology is holding a beauty contest this week. The photographs of seventy-five of the prettiest girls will be sent to New York. where six will be selected as the winners.

—M. C.—

Ten thousand Russian peasants have made their way to Moscow in the hope of enrolling in the university. Most of these have been turned away because of lack of food.

—M. C.—

St. Louis University is offering five dollars for the best set of varsity yells submitted by any student in the University. The requirements are that they shall be snappy, lively, peppy, up-to-date, and the "knock 'em dead" kind.

—M. C.—

Dr. John A. W. Haas, of Muhlenberg College, was recently elected an overseas member of the Authors' Club of London.

—M. C.—

A co-ed in the New Jersey State Normal has been sentenced to one week of ostracism for having been kissed right on the mouth by her essort at the hour of parting. The council that rendered the final decree was composed entirely of young women.

—M.C .—

The Wake Forest College department of modern language, under the supervision of Dr. J. H. Gorrell, and Mr. P. H. Wilson, has for the first time in its history adopted the direct method of teaching. By the direct method is meant the teaching of the various languages without the use of English.

—M. C.—

A course in Freshman Ethics is to be given at Georgetown College this year. The course will consist of lectures on such subjects as the history of the college, morals, pep, sportsmanship, hygiene, honesty in the class room. loyalty to the college and its ideals, and other phases of college life.

—M. C.—

Five men have been chosen from the University of Texas to compete for the Rhodes Scholarship. Four of five men are nominated from each of the colleges and universities of the state and one is chosen to represent them as a whole. When the winner is selected he will be entitled to an annual stipend of $1750. He will leave next October to go to Oxford University in England to avail himself of the privileges allowed by the Rhodes Scholarship.

—M. C.—

Freshmen of the University of Kentucky have subscribed $17,612 to a fund being raised to erect a new basket ball building. This is considered an excellent contribution from the freshmen. However, it lacks $2,388 of their objective, which is $20,000 and they propose to raise the entire sum is possible.

—M. C.—

The Kentucky Conference of the Young Women's Christian Association is being held at the University of Kentucky this year. There will probably be 125 student and faculty representatives present from the Colleges of Kentucky, Tennessee and Ohio. A very interesting and instructive program has been arranged.

—M. C.—

A unique 'Revere' was held recently at Birmingham—Southern College. A feature of the 'Revere' was the election of superlatives. The most popular student, the most popular co-ed, the most popular athlete, the most intellectual student, the hardest worker, the best musician, the best writer, the best speaker, the best sport, the biggest eater and the freshest freshman; were a few of those chosen.

—M. C —

The representatives of Valparaiso University at the Indiana Collegiate Press Club in Indianapolis were authorized to organize a Valpo Press Club, which will be a member of the state association. The petition received the unanimous vote of all delegates present. The formation of this club will be a distinct step forward for Valparaiso.

—M. C —

Yale University defeated Harvard on a 13-0 score last Saturday. This aws Yale's first victory over Harvard in five years and it developed the first Yale touchdown scored on the Harvard Stadium in sixteen years. There is much rejoicing and celebration wherever the sons of Yale are scattered.

—M.C .—

Plans have been completed for extensive improvements in buildings and equipment at Wake Forest College. $2,700,000 is to be spent on these improvements which will include the building of ten new and up-to-date buildings. Several new dormitories, an enormous library, a biology, physics and law building, an alumni building and a large auditorium are among the improvements. This physical expansion together with the enlarging of the lecture rooms and laboratory facilities will be the results of an extensive campaign that has been under way for some time. A Greater Wake Forest is the aim of President Poteat and the other workers.

—M. C.—

Arrangements have been completed for a post-season game at Nashville between Vanderbilts varsity team and an all-star team composed of former Princeton stars. The game will be played on Dec. 8, at the Vanderbilt stadium, the proceeds going for charitable purposes. Vandy's team is in A-1 condition as is also the Princeton team, all the players having been working with foot-ball teams during the season, many of them as coaches. The game is looked forward to with much interest and promises to be a classic.

—M. C.—

Tennessee defeated the strong Mississippi team by a 10-0 score last Saturday. Next Thursday they will engage the Kentucky Wild Cats.

I'D RATHER BE HOME WHEN IT RAINS

Joyful and sweet is adventure
And travel in places unknown
When the sun is shining and bright.
The mountains are wonderfully grand
When bathed in the morning light;
And the noonday sun looks fine
Where I've never set foot before.

Ah, this is great, my brother,
To wander in city streets
Or meander in wooded lanes;
But there comes a time of longing,
For I'd rather be home when it rains.

If you'll come with me and live in places miles away,
We'll be the same old pals and have a dandy time;
We'll come and go as happy as ever could be;
For there's joy of work and joy of play
In this new land you'll find.
Then we'll do new things and make new friends
And show the world our kind.

And this'll be great, my brother,
To wander in city streets
Or meander in wooded lanes;
But there'll come a time of longing,
For you'll rather be home when it rains.

MY HEART

My heart was entered by a gate,
A little swinging garden gate,
But inside all was bare;
Came Love and leaned against this gate,
(He only meant to rest and wait)
He leaned too hard: it opened straight,
And Love was left in there.

I looked into my heart one day;
It was no longer bare!
With flowers and sunshine it was gay,
And Love was there.
I thought he'd come to stay;
Ah me! how could I tell
He only spoke in play
What I believed too well?
In what I deemed a garden fair
He only felt imprisoned there.

A little vine clad garden gate
Will swing both ways, or soon or late;
Now Love is gone.
I am alone.
He ruined my garden fair,
He left it brown and bare,
Oh Love, why left you not one flower
To cheer me in this lonely hour?

—Autolycus.

Y. M. C. A.

'Opportunities in The Christian Ministry,' Discussed by Dr. H. C. Wilson.

Are there any oportunities in the Christian ministry? Is it a great work and does it have any standing in usefulness along with so many other opportunities for Christian service? If you have any such questions in your mind you should by all means have heard Dr. H. C. Wilson of Knoxville speak at the Y. M. C. A. Sunday afternoon.

No doubt you would be convinced now that among the callings of man there is none greater than that of the Christian ministry. The great opportunity to bear the sacred banner of the church and to proclaim the saving power of God should be considered an opportunity supreme.

Dr. Wilson told of several of his experiences that proved the superiority of the Christian ministry in Christian service to that of the medical profession, or that of the law.

It is impossible to tell of all the many good things Dr. Wilson said in such limited space. You should have heard him, if you did not.

Y. M. C. A.

Riskey Conducts Y. M. C. A.

Riskey conducted a very interesting and helpful Y. meeting Sunday afternoon, November 25.

The fact that religion and athletics can go hand in hand and that a successful athlete is a close follower and observer of the standards set by the Christian religion was brought out in this meeting.

If we only could get more of our athletes to consider their standing with the world and their obligations to the world and to God, a better sport world would be the results.

TOPICS IN BRIEF

(With all due apologies)

Seen around town: Fat girl weighing herself. She looks surprised; we weren't. Young man in the dry goods department of Proffitts trying to match a sample. He looks lonesome—and unnecessary. Christmas gifts all ready on display: Fall out early and avoid the rush. Always a crowd in the ten cent store. Young fellow in overalls, buying a book. Picked out "Left at the Altar". Christmas present? Maybe. An old negro man reading the names of the stores to his wife—Co-education.

Baldwin Hall—Second floor—Wednesday night. Thanksgiving pep couldn't be restrained. Result big celebration. The hall was tastefully decorated with white streamers. It isn't known for a certainty who started it, but they all kept the ball (?) rolling. It really wasn't nice, girls. ONE of you gets THE BOTTLE.

"YOU NEVER CAN TELL!"

"Jolly Juniors"! Anyone who was at Bainonian Saturday night will agree that this is a very apt phrase, for our jolly Bainonian Juniors put on the jolliest kind of jolly program, a musical comedy, entitled "You Never Can Tell!"

When we say that it was the love story of a woman-hater, you'll know it couldn't fail to be interesting. The caste consisted of Lucile Fondren, Virginia Paulsell, Elizabeth Moore, Felice Morgan and Josephine Neal. And oh, that chorus! It looked like a beauty contest; yet it was even more charming to the eathan to the eye.

Juniors, we're indeed glad that you are Juniors and that we can count on you to come back and give us another great treat next year.

CHICAGO CO-EDS HOLD CLINIC AT WHICH THEY DISSECT MALE "DATES"

Chicago, Nov. 21.—University of Chicago co-eds, meeting to discuss men, dances, parties and proper introductions, decided yesterday that "all men are talkers; some of them serious and dull, some of them frothy and dull, and others trivial and dull."

A movie with the right man is more desirable than grand opera with a "sap," said the girls, who expressed themselves in favor of three dates a week, preferably theatre dates. Two shows were regarded as better than one theatre and supper date.

Relative merits of single and double dates were compared.

"If the man is interesting, I want him all for myself," said one co-ed. "But if he is tiresome, I don't want anybody to see me with him."

THE NEW STUDENT

A Paper The Purpose of Which Is To Collect and Articulate Student Opinion

"Arousing students to think"—a task which though perhaps not impossible is pretty difficult. How are students or anyone else to be "aroused" to think? Put obstacles in their way and they walk neatly around them or convince themselves that they never did care to travel along that road. Nor are people's minds so much material, which, when shocked or stimulated, will react according to a prescribed formula. People either do "think" or go their own sweet ways until something unforseen blocks all retreat.

But customary as it is to lump the American student into a generalization and say he is pretty much of a numbskull, that too is no way toward a more satisfactory way of educating ourselves.

Undoubtedly there are students who "think" or are trying to. They are seeking to understand many questions which a chaotic world has placed before them: Why are we in college; how is it helping us to make our lives finer and truer? Are we being filled with a dry intellectualism or reacting to it in the form of a hot-air radicalism, or are we working out a sane idea of our own life and its relation to others?

But often the search of such people may end in mere baffled perplexity because of a lack of stimulation or contact with others who too are questioning and wndering. For them THE NEW STUDENT exists. It is published every two weeks and has readers in 300 colleges. We want it to be, more than ever, a forum for American students, a clearing house of ideas where young thinkers bring their thoughts to light and try to evaluate them. Student opinion must not remain inarticulate; if it is worth hearing, we want to hear it. If you have anything to say, write it to THE NEW STUDENT, 2929 Broadway, New York.

Bainonian Literary Society Presents Second Mid-Winter

Three Societies Elect New Officers on Saturday Night.

Bainonians Present Miss Lulu Bett, as second Mid-Winter of Season

On Monday evening the tenth of December the Bainonian Literary Society presented Miss Lulu Bett, as the second mid-winter of the season. The merits of the play were remarkably well-attended by the enthusiastic appreciation of the audience.

It can be truly said that this was an all-star cast. Every part was well chosen and each actor seemed to succeed in losing himself in his character.

Maybe Monona wasn't meant to be cute, but she won all our hearts anyhow, and Lina is surely to be congratulated. But we saw in Monona, not only a really human child, but a strong presentation of one of the greatest of modern problems.

"Shimmy" Brown, as Dwight Deacon, played the difficult role of the husband and father who is outwardly magnanimous, but in reality selfish and domineering. His interpretation of this type of American manhood was most realistic.

Hazel Bevan, as Mrs. Dwight Deacan, was at her best, which is saying a great deal. Mrs. Deacon was quite unwittingly obedient to every slightest whim of her husband's fancy.

A most unique character, and one most skilfully portrayed was that of Miss Lulu Bett herself, as represented by Martha Mae Boyer. When once she caught a glimpse of the riches of life so long denied her, her spirit was strengthened to emancipate itself and we almost wonder if she did not thereby take a step toward the emancipation of the entire family.

Ninian Deacon, who becomes Lulu's husband in quite an impromptu fashion is the first to recognize the genuine value of Miss Lulu Bett, and to appreciate her personality aside from her pies. The character of this breezy young Westerner was well-taken indeed by Verton Queener

The young lady of the house (Lois Hayes) gave an added reality to the problems of this American family by attempting to elope with young Bobby Larkin (Joe Gamble). There was real dramatic ability displayed in the portrayal of both these characters..

Neil Cornish, a frequent visitor, who always said just the wrong thing, was well impersonated by Edgar Cathey.

And can we ever forget Mary Bigelow's representation of Mrs. Bett? Indeed no! although she was heard to complain that everyone treated her as though she weren't there nor anywhere. No doubt her sage advice as to the desirability of the young man who proposes in the presence of the young lady's mother will be long remembered.

On the whole "Miss Lulu Bett" was a worthy Zona Gale production, a worthy Pulitzer prize play, and a worthy Bainonian mid-winter. Never has an audience gone away more unanimously enthusiastic over the play and the players.

THETA EPSILON

The Christmas Spirit was Especially Emphasized in the Meeting of Theta Saturday Night.

The meeting was plaeed in charge of the Upper Classmen and several sketches of Christmas time and Christmas spirit were portrayed. Santa Claus was seen at his good work while the kiddies dreamed of sugar plums. The Wise Men and Shepherds were seen paying their tribute to the baby Jesus.

The Christmas music gave us the thrill of the Yuletide season.

The following officers were elected for next term:

President, Thelma Adair.
Vice-President, Sarah Kishadden.
Secretary, Louise Morelock.
Treasurer, Lucile Crowder.
Editor, Rebecca Bigger.
Dramatic Chairman, Mary Helen Daisey.
Music Chairman, Edith Jarvis.

A CHARACTER FOOTBALL TEAM

Coach Oliver Cutts addressed a body of Bates College men on the subject: "A Character Football Team." He likened the game of life to a football game, and gave the line-up which would spell success and also the team which opposes all attempts to win out. Following is the line-up:

SUCCESS		FAILURE
Caution	c.	Recklessness
Courage	lg.	Ill-temper
Temperance	rf.	Self-indulgence
Earnestness	lt.	Indifference
Preseverance	rt.	Sloth
Patience	re.	Jealousy
Confidence	le.	Doubt
Virtue	qb.	Selfishness
Energy	lhb.	Vice
Enthusiasm	rhb.	Fear
Honesty	fb.	Untruthfuiness

Class of '24 Has Much Fun At Tacky Party

On Wednesday night, December 5, Bartlett Hall as beseiged by the "Tackiest Bunch" on college hill. The bunch, otherwise known as the Senior Class, were gathered together for the purpose of displaying to each other the degree of tackiness each had attained. It would really be hard to describe this group or to tell which one excelled the other. Our president is able to lead the class in tackiness as well as in other things. If you don't believe it ask any Senior. Some of the other marvels of the evening were Lois, Vashti, Dollie, Helen Rankin, Mary Bob, Burr, Charles W—yes and Charlie Partee (he played a new role —do you think he would be a good looking girl? We think so). Oh! if you only could have seen them all!

We had a rather cool reception. We abandoned the boy's gmy for the girl's gym, which was a little less cool. Any other crowd might have been depressed by such a cold reception, but not the Seniors. They took part in the games with a good will until it was announced that "eats" were ready.

Speaking of "eats" any of the under-classmen who have been fortunate enough to attend a Senior party, will agree with us when I say, "we have REAL eats." This

(Continued on page four)

Football Men Given Banquet In Home Economic Rooms

A Great Time is Reported by all Who Attended.

On Monday evening the Home Ec. Dept. was a vertiable Land of Cheer. The attractively arranged tables, holly, and sprays of pine reminded one of the happy season which is close at hand. Then hte orange and garnet blankets, streamers, and foot balls made one think of the happy season which has just come to a close.

Dr. Gillingham was toastmaster and that is sufficient evidence that everything was handled in a clever, fun-loving, capable way. There were toasts and more toasts, response upon response. Partee, what do we know about you now? Here's hoping Doc Mitchell squares your account!

Coach, we're proud of that speech you made and we are glad to know we shall have you with us again next year. And Hamilton, we scarcely know how to express ourselves since we know that you are to be our Captain next year. Good luck to you, old scout! Bob, you've left a high-water mark for Ed, and I believe we had our sentiments in your behalf well spoken. We're sure SHE has said, "My Captain—I surrender!"

How we did enjoy hearing our splendid quartet. We have never yet been disappointed, and at the rate you're going, we never shall be. Who is the poet in your midst, and whence did he obtain his subject matter?

But after all, what is a banquet without eats? It seems superflous to mention so good a subect, or perhaps I should say delicious. Those Hme Ec girls served plate upon plate, and platter upon platter only there was something to eat on every plate and platter. Yum, yum, Mrs. McMurray, you are still queen of the Culinary Art.

Finally, we cannot fail to mention the spirit shown upon this festive occasion. It was the 100% spirit of the football men and all the students.

"Here's to the team with the M. C. grit,
Here's to the men who did their bit."

At Christmas play, and make good cheer,
For Christmas comes but once a year. —Tusser.

CHRISTMAS

Before the next issue of The Echo, Christmas will have come and gone and most of our readers will have had that long-looked-for visit to the best place in the world. For those of you who go home we wish a Merry Christmas and Happiness throughout the New Year. Take advantage of that extra day and spend that first day of the New Year with father, mother, brother and sister, then return to us about the third (not later) of the New Year and bring with you some real Enthusiasm and Spirit of the New Year.

To those of you who stay on College Hill, we are glad to say that committees are already at work preparing that all may remark that it does our old heart good to attend a real here and, though home folks are missing, a real Christmas Spirit is maintained throughout the holidays, and it very seldom happens that anyone fails to have a good vacation. To you who stay this year, we wish all the pleasures that have come to those in the past, and more too. Do not get too busy to write home. No present can take the place of a good, kind, loving Christmas letter to home folks.

IT WAS GOOD

We are not so old, and yet not so young but that we may remark that it does our old heart good to atend a real Y. M. and Y. W. meeting. One where the speakers have in their hearts the words they say, and are not setting forth tinkling symbols of vague nothingness; where life is set forth as the theme, and not as a scheme; where the atmosphere, though formal is reverent and interesting; where petitions are offered for the forgiveness of sin and not delivered for their oratorical value. Such a meeting was that of last Sunday, and such a meeting as that is worthy of both organizations.

HAVE A THOUGHT?

The Echo wants your report, account, stories, opinions, philosophy, jokes, yes, personal correspondence, personal grudges, and pet peeves. Anything that will not get the writer or editor licked will be published. Let us have it—but remember to sign your name.

WHAT IT RECALLS

Is Christmas a season of opening the heart and soul, and a pouring out of spirit and good will to all? Does it recall to you a happy mornig by the fireside, an array of beaming faces about the room with a smile on each one? Are the glad tidings given without proper thought, or without the giver, as it were?

In our attempt to think back over our many Christmases, one stands out above all the rest, not because of any gift, or trip, or celebration, or friends, or happiness, or accident, or loving kindness on the part of anyone. But the writer just happened to sit near two brothers in the service of their country, who were separated from their home by two thousand miles; and from a Christmas spirit by the lack of any greeting whatever; and from the usual liberty allowed by the lack of spending money. Their Christmas day, a bleak, cold, and dreary one, they were spending writing a letter to each member of the family they loved. To an outsider, whose eyes soon became dimmed with tears, two things were noticeable. First, no matter whether they were writing to father, mother, big brother, or little bother, big sister or little sister, they never ran out of anything to say. Oh, those letters! Long and full, not of words and sentences, but of love. Then, when the job was finished, and the letters were sealed and stamped and not dropped in the box, but were fondled like the valuables they really were, as they slowly lifted one from the other, read the name, smoothed the stamp, and re-read the name, neither daring to look at the other,. And suddenly and simentanelously their feelings became too strong, and real tears rolled down their cheeks.

Oh, that their people could have seen! Each tear was a gift more valuable than gold. Each sob a song of love in itself. And for the few seconds I could bear to look, I caught a perfect image of that perfect Christmas Spirit.—Contributed.

Autolycus Airs his brain on the subject of our young men

Our Maryville College was not intended as a reform schol, even tho some fond and foolish parents evidently mistake it for such.

There are a few boys on this campus who think they have to tell the world they're men. Maybe they do: no one would ever suspect it if they didn't. They try to prove that they are men-of-the-world; they think to show it in various ways. If they know all the latest shady stories, and tell them whenever girls are absent (and sometimes when they're not); if they can read double meanings into everything they hear; if their private library consists of the Police Gazette, True Confessions, Whiz Bang, and the like; if they talk loudly of poker and liquor; if they can use profanity eloquently, if they can do all these things, this is proof positive that they are men.

Sit up and take a look at the people around you. Do you suppose, for one instant, that any one thinks you are smart, except you your-self and your worthy sattellites?

We will have to admit that, for most of the boys who pull this small-town-stuff, this is their first year here. By June they ought to have most of the moss rubbed off; either that, or they'll get a kindly persuasive note urging them not to return next year.

Honestly fellows, it shows you're the greenest of the green. If you must keep up your gatlen talk, practice it in the sanctity of your room. Don't make others commit man-slaughter in their thoughts.

—Autolycus.

THE FIRST CHRISTMAS

Once a little babe in a manger lay;
Nestled down amidst the hay,
Whilst his mother knelt near by,
Listening to hear his cry;
But the baby coo-ed and smiled,
This was Jesus—The Christ-child.

Wealthy sages from afar
Followed steadily the star
Till they came unto the shed,
Where, upon his manger-bed,
Jesus, near His mother, lay.

Gifts they brought unto the child
Of the virgin meek and mild,
Gifts of perfumes and of gold,
Brought to Him of Wealth Untold,
On that Christmas day.

Then the shepherds came and said
Here He lies upon is bed,
For we've heard the angels sing;
"Glory to our new-born King
On earth peace alway."

—Autolycus.

Y. NOTES

The Y. M. and Y. W. Have Joint Meeting

When there has been some misunderstanding in our homes between us and those so dear to us how helpful it is to us to sit down with them and to consider the matter as they think of it and to present the matter as we see it. It seems that is what was accomplished in the joint meeting of the Y. M. and Y. W. Sunday afternoon. We had presented to us the desires of both the students and of the faculty and we found a common ground on the matter of how to overcome the many obstacles that face the christian life; especially that of a college student. It seems the great mistake that perhaps was noticed most by all present was that more people of the college were not present so that the entire student body and the faculty might be on a more common ground.

Problems of grave interest to the christian men and women of the Hill were discussed with equal seriousness by students and faculty members. Perhaps a means can be formulated by which the goal of the college may be reached "Every man a Christian, and every man in service for the Master." Will you contribute your part?

Forensic News

Last Thursday the Pi Pappa Delta met again after a long vaction. The chairman of the committee of Council reported what has been done towards this year's debate schedule. A men's dual debate with Tusculum has been arranged. A triangular debate with Carson and Newman and Milligan is pending. Either this triangle, or a dual debate with Milligan will be the second debate. After these debates are over, three men will be picked from the debate squad to represent us at the National Convention of Pi Kappa Delto, at Peoria, Illinois. Two more men will be selected to debate the Berea team. The debates this year will be on the League of Nations, and the discussions promise to be lively. The preliminary comes next Monday, and a look into the library will show you that the men are working.

A new feature will be the Freshmen debate with U. T. The men have already drawn their places for the preliminary, and their enthusiasm is evidence enough that U. T. had better look out. This debate will be a splendid training for men wishing to try for the regular college teams next year.

The remainder of the meeting was given up to discussion to some of the problems of intercollegiate debate. There has always been more or less dissatisfaction with the system of judging debates, and some of the new ideas concerning judges were presented. John Stockton explained the expert judge method whereby one man renders the decision, and publicly states his reasons for his decision. Besides, a man who undertands debates is secured. This has never been tried here, but it might be interesting to see how it would work.

David King presented another possible means of judging our debates, that is, not to have regular judges, let the audience vote after the debate for the side they believe. This has the advantage of creating a real situation, and giving the debaters better experience in public speaking. Their task would be to overcome the prejudices of the hearers, not to try to destroy the argumens of their opponents. No one can predict how successful this would be in American schools, but it has been very successful in England.

There is always something of vital interest and concern to every debaters, going on at Pi Kappa Delta, so if you veterans are still interested, come out to the meetings. You really can't afford to miss them.

TOAST

This Toast was given at the football banquet. Don't ask how we got it

Usually an after dinner toast is Judge on the merits of the jokes pulled—so I thought that I ought to have at least one good one to and up with that I was to represent the scrubs. I thought right away that possibly I could get some good ones from Dr. Stevenson so I went over to his place and asked him where he had been getting all these good jokes he has been pulling in chapel. He seemed unusually reticent on this point. He wouldn't tell me where he had been getting them, but said he might give me a couple, but just as I took out my pad and pencil to take them down, he changed his mind. He said he only had just one or two on hand. (This was Wednesday night, when I called on him), and he wanted to pull them at chapel the next morning. I didn't want to push it any further so I left.

I was at my wit's end when I suddenly thought of Other Armstrong, (I understand also the speaker for the Seniors went to see Mr. Armstrong). I told him of my experience with Dr. Stevenson. He smiled and said that's all right boy; sit down and I will fix you up He went over to his desk and with his back turned to me so that I couldn't see what he was doing he wrapped up a little parcel for me and said, now here's yours, you will find all the jokes you can use in it. I started to thank him profusely and slipped a quarter in his hand when he said: I am sorry to rush you off but Doc is coming for his in a few minutes and he rushed me out the back way. I stuffed the parcel in my back pocket and went home.

Now to turn to the main body of my speech. On this very auspicious occasion I experienced a deep emotion. Young ladies and young gentlemen, our gridiron experiences have proved successful in the past and should render us inestimable service in our after life. The part that we scrubs have played has been very modest, but we hope it has been no less real in contributing to the success of the season. We have tried to handle the varsity men with as little ruffness as possible. One time I was guilty of a little unnecessary ruffness, myself. I had just grabebd Earl around the neck and thrown him rather heavily for a loss. As I lay there on the ground with my arms tight around him, I heard him moan, "Here's to the happiest years of my life, spent in the arms of another man's wife: My Mother!" He didn't seem to appreciate the hours he had spent in the arms of scrub tackles, but we feel that it will all be of incalculable value, both for Earl and Doris, when they go to lining up at Limestone, Tenn.

But I don't want to leave the impression that all the benefit has been for he varsity. Our big scrub fullback Hurst ought to be able to beat Chandler out of his position next year.

I don't want to encroach upon any more of your valuable time, so I guess it would be appropriate for me to bring my remarks to a conclusion. I have been rather busy and haven't had time to see what Mr. Armstrong gave me, (pull out Whiz Bang). I hate to anticipate anything that might be in store for you next Thursday morning so we will omit the joke.

INTERCOLLEGIATE NEWS

The Senior Class of Birmingham-Southern have started the custom of wearing class distinctions. All Seniors are to wear derbies and carry walking canes. Henceforth the members of the Freshmen Class must adress Seniors as "Miter." and when spoken to by a Senior, a Freshman must reply, "Yes, Sir," or "No, Sir."

—M. C.—

King College football team has established a world's record in scoring points this season. They were not defeated by any team they played and only once did another team tie with them. This was done by Carson-Newman College.

—M. C.—

Tusculum College's next objective is membership in the Southern Association of Colleges. Negotiations with the organzaton have already been started and a petition for membership will be submitted before long.

—M. C.—

Three of the most prominent students of Oxford are at present in this country for the purpose of debating at a number of the most important Eastern colleges. The schedule includes appearances at such schools as Yale Harvard, Prinzeton, Columbia and Cornell.

—M. C.—

Yale, in attempting to satisfy a crying need in the teaching profession for men and men of higher calibree, is instituting four new courses whose very title are a key to their commendable aim. "The Growth of Self," "Human Learning," "Human Differences," and "College Education and Teaching," in which the function of the college in American society, its purposes, its activities, incentive to learnng and methods of teaching will be discussed.

—M. C.—

Students who jostle their way through the crowded halls of Western Reserve will find it hard to realize that less than a hundred years ago there were only three students enrolled in the college. Reserve is now in its ninety-eighth year of academic life, with an enrollment of nearly four thousand.

—M. C.—

There are 616 universities and colleges in the United States. New York has 50, Pennsylvania, 48, and Ohio, 40. Texas, the largest State, has only 20.

—M. C.—

Washburn College, Topeka, Kansas, reports that this last year's enrollment of Freshmen is not only the largest, but the youngest in the history of the college, the average age being 16.

—M. C.—

Harvard University enters its 288th year. The largest Freshmen class of the institution has enrolled this fall, numbering 930.

—M. C.—

John Phillip Sousa received the degree of Doctor of Music at Marquette University, November 16. A special train, pulled by four engines, carried the famous march composer the 375 miles from Akron, Ohio, to Milwaukee for the ceremony.

—M. C.—

Records show that the University of Idaho football squad, which started training for the 1923 season, did not contain a man ineligible on account of scholastic training last year. This applies both to candidates from the '22 Freshman team and to those of last years' squad eligible to further competition.

—M. C.—

Kalamazoo College runners have taken the cross-country championship in the M. I. A. A. for the second consecutive year. This year's meet was held at Ypsilanti, November 17.

CONCERNING GEOMETRY.

When Euclid wrote his Geometry he must have been thinking about his wife.

—M. C.—

tI is hard to understand some of his propositions.

—M. C.—

His work, however, is logical.

—M. C.—

Geometry gave the Egyptians beautiful figures to decorate their pyramids.

—M. C.—

To the Masons, Geometry has given many of its symbols.

—M. C.—

And to wives and husbands the venerable science has given the triangle.

—M. C.—

Not long ago a lady collected $50,000 in a suit against her husband.

—M. C.—

He was involved in a love triangle and could not explain it.

—M. C.—

The lawyer got his fees, but Euclid could not rise from the dead to collect his share.

—M. C.—

The Babylonian temples show that their builders were acquainted with the rudiments of Geometry.

—M. C.—

When one of these birds saw his wife with another fellow on a merry go-round, he ran home and drew a triangle on a clay tablet.

—M. C.—

Euclid might have gotten his idea from this source.

—M. C.—

I do not know whether the Seven Wise Men of Greece were students of Geometry or not.

—M. C.—

I know they all were bachelors. That is why history calls them wise.

—M. C.—

Euclid was not very popular in ancient times.

—M. C.—

Historical records do not give Cleopatra credit for this subject.

—M. C.—

All Euclid did was to state his principles.

—M. C.—

He owes his popularity to the 20th century.

—M. C.—

Now, Geometry is a favorite subject, in spite of its mental discipline.

—M. C.—

Some judges have become acquainted with Euclid by solving matrimonial triangles.

—M. C.—

You can hear about it even in the court house.

—M. C.—

Their solutions are not easy.

—M. C.—

Geometry has its human aspects.

—M. C.—

I knew a lady who lived for many years in the tropics, but she was as cold as a postulate.

—M. C.—

Sometime ago a lady changed her mind twice when the wedding day came.

—M. C.—

She was variable.

—M. C.—

I knew a good and faithful wife. Her husband was indifferent.

—M. C.—

She was constant.

—M. C.—

Geometry has been considered a part of every man's education.

If he is a specialist in the science of triangles he must not be afraid of domestic awrs or passive resistance.

About the Girls Debate

This Season Promises to be the best in the history of Girls' Debates

With the girls' debate preliminaries a thing of the past it is now possible to take a preview of the season so that we may not be totally ignorant of what is taking place in forensic circles.

This season, in addition to the annual debate with Tusculum, there will be a similar dual debate with Carson-Newman. The question that the affirmative teams will defend at both Tusculum and Carson-Newman, and which the negative will oppose at home is

Resolved: there should be an educational test as a qualification for voting in national and state elections.

Since the question for both debates is the same, Coach Hunter has decided that there shall be no alternates. Members of one team will be able to substitute on the other, because the deabte with Carson-Newman is scheduled for March 17 and that with Tusculum for April 21.

It has not yet been announced who will meet Carson-Newman and who, Tusculum. The affirmative team is composed of Mary Broady, Kathleen Hunnicutt, Virginia Paulsell. Henrietta Smith and Florence Whitfield. The negative team consists of Mary Bogelow, Martha May Boyer, Katherine Franklin, Lina Hodges, and Alice Johnson.

PREPARATORY DEPARTMENT TO HAVE TWO DEBATES

For many years past the debate schedule on the part of the preparatory school has been taken for granted and has become a part of the institution. According to plans being carried forward by some active ones of the preparatory school this year will be no exceptin. At present negotations are being carried on between our school and the high schools of Johnson City, Jefferson City, Morristown, Greenville, and Central High of Knox county. The preliminaries will be held immediately following the Hoildays for the selectons of teams. Both girls and boys will participate in this year's debates.

The girls who have signed up for preliminary are: Marion Holiday, Sophia Kosobucka, Beatrice Ward, Mary Eleanor Welbon, Elsie Gleason, Eva McConnell, Myrtle Stonecipher, Emily Minton, Ruth McMurray, and others who had not definitely decided at this writing.

The boys will debate as follows:
Perrice vs McCampbell.
Long vs Frame.
Aycock vs King.
Howe vs Baumgardner.
Ladd vs Buchanan.
McKelvey vs Wood.
Whitehead vs Franklin.
Carpenter vs Kent.

The Law School at the Ohio Northern University is to be named in honor and in memory of our ate President, Warren G. Harding.

—M. C.—

Hazing has been strictly prohibited at the University of Syracuse. Students found guilty of hazing are subject to expulsion and suspension from the University.

At Christmas play, and make good cheer,
For Christmas comes but once a year. —Tusser.

CHRISTMAS

Before the next issue of The Echo, Christmas will have come and gone and most of our readers will have had that long-looked-for visit to the best place in the world. For those of you who go home we wish a Merry Christmas and Happiness throughout the New Year. Take advantage of that extra day and spend that first day of the New Year with father, mother, brother and sister, then return to us about the third (not later) of the New Year and bring with you some real Enthusiasm and Spirit of the New Year.

To those of you who stay on College Hill, we are glad to say that committees are already at work preparing that all may remark that it does our old heart good to attend a real here and, though home folks are missing, a real Christmas Spirit is maintained throughout the holidays, and it very seldom happens that anyone fails to have a good vacation. To you who stay this year, we wish all the pleasures that have come to those in the past, and more too. Do not get too busy to write home. No present can take the place of a good, kind, loving Christmas letter to home folks.

IT WAS GOOD

We are not so old, and yet not so young but that we may remark that it does our old heart good to atend a real Y. M and Y. W. meeting. One where the speakers have in their hearts the words they say, and are not setting forth tinkling symbols of vague nothingness; where life is set forth as the theme and not as a scheme; where the atmosphere, though formal is reverent and interesting; where petitions are offered for the forgiveness of sin and not delivered for their oratorical value. Such a meeting was that of last Sunday, and such a meeting as that is worthy of both organizations.

HAVE A THOUGHT?

The Echo wants your report, account, stories, opinions, philosophy, jokes, yes, personal correspondence, personal grudges, and pet peeves. Anything that will not get the writer or editor licked will be published. Let us have it—but remember to sign your name.

WHAT IT RECALLS

Is Christmas a season of opening the heart and soul, and a pouring out of spirit and good will to all? Does it recall to you a happy mornig by the fireside, an array of beaming faces about the room with a smile on each one? Are the glad tidings given without proper thought, or without the giver, as it were?

In our attempt to think back over our many Christmases, one stands out above all the rest, not because of any gift, or trip, or celebration, or friends, or happiness, or accident, or loving kindness on the part of anyone. But the writer just happened to sit near two brothers in the service of their country, who were separated from their home by two thousand miles; and from a Christmas spirit by the lack of any greeting whatever; and from the usual liberty allowed by the lack of spending money. Their Christmas day, a bleak, cold, and dreary one, they were spending writing a letter to each member of the family they loved. To an outsider, whose eyes soon became dimmed with tears, two things were noticeable. First, no matter whether they were writing to father, mother, big brother, or little bother, big sister or little sister, they never ran out of anything to say. Oh, those letters! Long and full, not of words and sentences, but of love. Then, when the job was finished, and the letters were sealed and stamped and not dropped in the box, but were fondled like the valuables they really were, as they slowly lifted one from the other, read the name, smoothed the stamp, and re-read the name, neither daring to look at the other,. And suddenly and simentanelously their feelings became too strong, and real tears rolled down their cheeks.

Oh, that their people could have seen! Each tear was a gift more valuable than gold. Each sob a song of love in itself. And for the few seconds I could bear to look, I caught a perfect image of that perfect Christmas Spirit.—Contributed.

This Toast was given at the football banquet. Don't ask how we got it

Usually an after dinner toast is Judge on the merits of the jokes pulled—so I thought that I ought to have at least one good one to and up with that I was to represent the scrubs. I thought right away that possibly I could get some good ones from Dr. Stevenson so I went over to his place and asked him where he had been getting all these good jokes he has been pulling in chapel. He seemed unusually reticent on this point. He wouldn't tell me where he had been getting them, but said he might give me a couple, but just as I took out my pad and pencil to take them down, he changed his mind. He said he only had just one or two on hand. (This was Wednesday night, when I called on him), and he wanted to pull them at chapel the next morning. I didn't want to push it any further so I left.

I was at my wit's end when I suddenly thought of Other Armstrong, (I understand also the sneaker for the Seniors went to see Mr. Armstrong). I told him of my experience with Dr. Stevenson. He smiled and said that's all right boy; sit down and I will fix you up. He went over to his desk and with his back turned to me so that I couldn't see what he was doing he wrapped up a little parcel for me and said, now here's yours, you will find all the jokes you can use in it. I started to thank him profusely and slipped a quarter in his hand when he said: I am sorry to rush you off but Doc is coming for his in a few minutes and he rushed me out the back way. I stuffed the parcel in my back pocket and went home.

Now to turn to the main body of my speech. On this very auspicious occasion I experienced a deep emotion. Young ladies and young gentlemen, our gridiron experiences have proved successful in the past and should render us inestimable service in our after life. The part that we scrubs have played has been very modest, but we hope it has been no less real in contributing to the success of the season. We have tried to handle the varsity men with as little ruffness as possible. One time I was guilty of a little unnecessary ruffness, myself. I had just grabebd Earl around the neck and thrown him rather heavily for a loss. As I lay there on the ground with my arms tight around him, I heard him moan, "Here's to the happiest years of my life, spent in the arms of another man's wife: My Mother!" He didn't seem to appreciate the hours he had spent in the arms of scrub tackles, but we feel that it will all be of incalculable value, both for Earl and Doris, when they go to lining up at Limestone, Tenn.

But I don't want to leave the impression that all the benefit has been for he varsity. Our big scrub fullback Hurst ought to be able to beat Chandler out of his position next year.

I don't want to encroach upon any more of your valuable time, so I guess it would be appropriate for me to bring my remarks to a conclusion. I have been rather busy and haven't had time to see what Mr. Armstrong gave me, (pull out Whiz Bang). I hate to anticipate anything that might be in store for you next Thursday morning so we will omit the joke.

INTERCOLLEGIATE NEWS

The Senior Class of Birmingham-Southern have started the custom of wearing class distinctions. All Seniors are to wear derbies and carry walking canes. Henceforth the members of the Freshmen Class must adress Seniors as "Miter." and when spoken to by a Senior, a Freshman must reply, "Yes, Sir," or "No, Sir."

being carried forward by some active ones of the preparatory school this year will be no exceptin. At present negotations are being carried on between our school and the high schools of Johnson City, Jefferson City, Morristown, Greenville, and Central High of Knox county. The preliminaries will be held immediately following the Hoildays for the selectons of teams. Both girls and boys will participate in this year's debates.

The girls who have signed up for preliminary are: Marion Holiday, Sophia Kosobucka, Beatrice Ward, Mary Eleanor Welbon, Elsie Gleason, Eva McConnell, Myrtle Stonecipher, Emily Minton, Ruth McMurray, and others who had not definitely decided at this writing.

The boys will debate as fol'ows:
Perrice vs McCampbell.
Long vs Frame.
Aycock vs King.
Howe vs Baumgardner.
Ladd vs Buchanan.
McKelvey vs Wood.
Whitehead vs Franklin.
Carpenter vs Kent.

The Law School at the Ohio Northern University is to be named in honor and in memory of our ate President, Warren G. Harding.

AN ANSWER

The following is an answer to the author or authors of the column in The Highland Echo headed "We Would Like To Know," Date Dec. 5, 1923.

Obeying the injunction at the close of the article, I have thought it over and to vindicate Bob and myself will give a little information to those who would "Like To Know." We don't mind telling although it is none of their business.

600 Streamers at 3c a piece.....$18.00
Parcel Post from Tramingham, Mass.,..... 1.16
Telegram to Tramingham, Mass.,..... .70

The author also misquoted when he said we sold 600 streamers. To be more exact, we sold about 450. The remaining 150 being given to friends. stolen, and left over. Will the author of "We Would Like To Know" please see Bob or Jalvin and we will be glad to refund him the two cents profit we made from the one streamer he bought. If he was stung real bad and bought two, we will refund the four pennies.

We freely admit that the author's business estimate on the Souvenir Programs is a little more conservative than the one on the streamers, but far, very far, from being correct or honest.

First, let it be said that we received permission from Prof. F. L. Proffitt, treasurer of Maryville College, and Shimmy Brown, Manager of the Football team to sell these streamers and to publish and sell these programs. That's That. Let it be said in justice to our town merchants that they do not think in terms of pennies , as must the author of "We Would Like To Know". The number and calibre of the advertisers in the programs is sufficient testimony to the fact they knew what they were doing. If they didn't Bob and I could pass for wonderful enchanters or mediums.

The author of "We Would Like To Know" in his final paragraph accuses us of profiteering (stealing) and putting out the Souvenir Football Program "under the name of a college publication" (lying). At the bottom of the front page one may see "under what name" this program was published. We repeat it here for clarity, "Published by Baldwin & Keen." Some of the advertisers paid before the program went to press, all paid shortly after it came from press. Ask them if they think that Baldwin & Keen ruthlessly inveigled them out of their money. We have yet the first complaint to hear from one of them. Might we say, not with too much pride that we have received many compliments upon our publication.

Of course there can be nothing personal in this reply because the author is simply writing for the enlightenment of a nameless minus quantity who "Would Like To Know".

We sign our names.

James Alvin Keen,
Robert Morton Baldwin

In his absence I take the liberty to sign the name of the other publisher.

J. Alvin Keen.

JUST A MOMENT!

One of the greatest beliefs and pillars of all Christians and the Christian faith is embodied in the well-known and often seen motto, "Prayer Changes Things."

The power of one hundred men praying with a purpose is incalculable That many men of the College are now voluntarily enrolled in the "Morning Watch" or quiet hour, in which each gives a few moments of his day to definite sacred thought and prayer, while in his room or where he chooses.

This organized prayer has made different men of thousands who have enlisted. M. B. Pritchard, chairman of this committee of "Quiet Hour" work, issues a small calendar every Wednesday of weekly Bible readings and definite questions which need our prayers. Let us increase the roll to two hundred, men, and double the driving force of prayer.

was not an exception to the rule either.

Prop. Knapp and Miss Park were ideal chaperones and added to the hilarity of the evening. Ask Prof. Knapp the latest way to eat ice cream. He knows something new. If you want to know anything more about the Senior party, you can get direct information from any of the members of the class. We will be glad to give the details later.

Alumni News

Rev. E. M. Ewers, '08, a physician as well as a minister, who is connected with the American Presbyterian Hospital at Weihsiea, Shantung, China, in a letter, which accompanied a liberal check to be applied to the funds of the Alumni Association, writes very interestingly of his work. Dr. Ewers says:

"Money was raised for a new hospital here while I was home, so I am in the midst of building and will be for the next year. A glance in our wards at present will let you see the reason that we are building. All beds are full and some eight or ten sleeping on the floor and twenty or more waiting to get in for us to cut them up. We will run well over 500 operations this year with well up to 13,000 at the clinic. Medical missions is a job big enough to hold most anyone, and it covers a good many of us. Urge some of your best men and women who are looking for a big job to come along out. EIGHT HOSPITALS are CLOSED because of lack of men."

WHO'S WHO IN BASKET BALL?

We are soon going to find out who's who, when the big Novice Tournament gets under way after the holidays.

All varsity and squad men are to be ineligible. They're too good. Pretty soon now Earl Riskey, Athletic Chairman of the "Y" is going to take a census of all the college men who are going to get in the Tournament. Teams will be organized and, say, Novices, before it's over, you will be novices no longer.

Just as a golf "duffer" is no longer a duffer when he gets his game up to par. You will be no novice after the big Round Robin Basketball Tournament. Perk up and you'll hear more of this later.

ARobinette, (Hunter) critic.
A Martin (Edgar) seargent of arms.
A Prince (Shorty) Editor.

ALPHA SIGMA

The Old Society is Gathering Momentum

The best program of the year was presented at Alpha Sigma Saturday night. Mr. Hall led off with an address and reading on "Forms and Structure of Poetry" Carl Schmidt then sang two numbers and judging from the applause they were quite a success. Mason Morrow again took up the trend of the program by reading "Selections from Service" Gordan Jeffries a new man gave a talk on "Riley and his Works" which was the feature of the program. In closing the 68th volume, of the 6th edition of the Alpha Sigma Advance was read by Editor Albert Cook, which was a whiz. The programs are getting better every meeting so why don't some more of you fellows come out?

Bainonian Holds Election of Officers

Margaret Duke Elected President

We Bainonians were taken back to our childhood days Saturday night, when we saw in pantomime the familiar poems "Tam O Shanter", "Just Before Christmas," "Children's Hour," and "Barefoot Boy." Just think not a single girl shrieked at the appearance of the three ghosts How's that for bravery?

Two vocal solo's were rendered most effectively. "On the Road to Mandalay," by Eleanor Franklin and Mother McCree, by Mary Almeda Thomas.

At the close of the meeting the officers for the coming year were elected. After reading these who can doubt that Bainonian is not beginning one of her most successful years.

Pres., Margaret Duke.
Vice Pres., Felice Morgan.
Sec., Phillis Anderson.
Treas., Harriet Greene.
Critic, Barbra Higgins.

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME NINE | MARYVILLE, TENNESSEE, WEDNESDAY, JANUARY 16, 1924 | NUMBER THIRTEEN

Our Indianapolis Delegates Return With Enthusiasm

THE INDIANAPOLIS STUDENT VOLUNTEER CONVENTION AND SOME OF ITS LESSONS BY ED CATHEY

There is an old Rusian custom of candle-lighting at Christmas time. A few people go to some temple or altar each carrying a candle and light it at one large cndle. They then go throughout the community and let all their neighbors light candles from the flame they get at the altar. This goes on, with each person as he gets his candle lighted giving some of the flame to his neighbor until the light is spread over all the land. The extent which te ligt reaches is very great.

On January 28th, more than 6000 students representing Colleges all over the United States, Canada and many foreign countries gathered at Indianapolis to light their candles with inspiration, and a desire for service, at the place provided by the Student Volunteer Movement. And as the Russians go about the country giving light to their neighbors the students, left this Convention on January 1, to go back to their Colleges and try to give to them some of the information and inspiration, which was given to the delegates there.

One of the delegates from Maryville was asked on his return, who made the greatest speech. This particular delegate replied that the three greatest were by Sherwood Eddy, John R. Mott and Robert E. Speer. As to selecting the best one of these three, it would be hard to do. Of course there were other speakers of different types and perhaps equally as great.

The discussion groups gave the bet opoprtunity for the expression of student opinion. And it was freely expressed by students who held radical opinions and by those who were more, shall I say, sane.

Probably the most outstanding thing about the whole Convention was the spirit of open-mindedness which almost every delegate seemed to have. Speeches and opinions were heard, carefully weighed, and personal conclusions drawn.

From some indications there have already been evidences of the expression of student opinion since the reports of the Convention which have been given in the chapel. That is te desire and aspiration of the

These Men Will Conduct February Meetings

DR. EDGAR A. ELMORE

Dr. Elmore is new to this generation of college students, but all who know him, both faculty and students, speak very highly of him and of his method of preaching the Gospel.

Rev. Mr. Stringham has lead the singing at Maryville during the last two meetings, and consequently needs no introduction to the majority of Maryville students.

These two leaders are bound to make the meeting a great success.

REV. SIDNEY E. STRINGHAM

Christmas On The Hill Was Enjoyed By All

THE HOLIDAYS ON THE HILL WERE NOT SO GLOOMY AS ONE MIGHT EXPECT; INDOOR AND OUTDOOR SPORTS FETAURED THE ENTIRE VACATION

Holidays on the Hill! Doesn't sound promising, does it? But just ask any body who was here Christmas how he enjoyed vacation time—then settle yourself to hear him rave about the good time he had. There were the nights he went to the "House-in-the-Woods" once, to welcome Santa with his pack of toys and to eat ice cream and cakes, and to sit on the floor and watch the bright blaze in the fire place, or to play Rook. The next night he went out to hear Percy Buchanan sing—not to mention Coach Bond's and Mrs. Bond's young son and Prof. Walker's little daughter—and to see John and Ruth star in a pantomime play, with Hardin Smith and Mildred Sheffield in minor parts.

Later, there was the night when he sat up with pleasant company to say Good-bye to the Old Year and Good-Morning o the New.

But one day he will particularly

(Continued to page two)

Chilhowean Staff Plans Good Book; Beauty Contest

CHILHOWEAN STAFF FINALLY GETS UNDER WAY AND THREATENS TO PUT OUT AN ANNUAL UP TO PAR

In order to have a better Chilhowean, its staff has decided to conduct a beauty contest, to determine the prettiest girl in each class and ultimately the prettiest girl in the college. The present plan is to have each class, on Friday, January 18, to select its three most beautiful girls. Each college class is allowed three representatives while three are allowed from the entire preparatory school. The photos of the fifteen girls will then be sent to some disinterested authority, who will act as judge and determine the prettiest girl in each of the five grades and also the most beautiful girl of the entire group.

Beauty contests have been held in Maryville College nearly every year but they usually turn out to be contests of popularity instead of real beauty. This year it is up to every class to elect its most beautiful young ladies, for with an impartial judge who is not familiar with the contestants, beauty and not popularity will be judged.

The winner in each class will appear in the feature section of the annual, on separate pages. So get behind your class president; attend he class meeting that will be held Thursdy or Friday, and nominate the girls whom you believe are the prettiest in your class. Co-operation alone can spell success for the first real beauty contest ever held in Maryville College, and therefore every student shoud take an activee interest in the contest.

Lion and the Mouse Staged Again by Athenian Cast

ATHENIAN MID-WINTER AS MARYVILLE PLAYERS GIVE THE LION AND THE MOUSE AT LENOIR CITY

The entire cast of "The Lion and the Mouse", journeyed to Lenoir City, via Friendsville, and presented Klines greatest play to a small, but very appreciative audience. The troupe left Maryville at three o'clock and arrived in Lenoir City about six o'clock the same evening. As the play was to be given in the High school auditorium, the two cars drove the cast to the building at once. As usual it was locked, and after waiting about fifteen minutes for some one to unlock it, the troupe left their official porter, Mr. Anderson, in charge of the suit cases, and proceeded to a restaurant. Soon ham sandwiches and tea began to fly in all directions. Mary Broady called the attention of Hunter Robinette to a little sign hanging under the ruins of a Roman fort and begged that he would heed the advice contained in that little placard "The best actor is one with a full stomach," so they say. This certainly proved to be the truth, for each and every person tackled his and her part with such a vim that they won the unanimous approval of the audience. A picture was taken of the cast after the play and then came the packing up and leaving. The trip back home was made by way of Knoxville, and the humor is out that a mile a minute is a pretty fast clip. However a very merry time was had by all, and at one a. m. a stiff and cold group of young people arrived and with muffled tread and mouth went quickly to their rooms.

Miss Holland, accompanied the troupe in the place of Mrs. West, who was unable to go. The entire cast wishes to express its appreciation for the valuable help rendered by both of these dramatic instructors.

Maryville Cagesters Take Christmas Trip; Experience Gained

MARYVILLE DROPS FIRST COLLEGE GAME TO U. T. ON SATURDAY NIGHT

Maryville trouched into the land of the Tennessee Vols on Saturday evening, and brought the record of her first defeat by a college basketball quintette this season, the Yellow and White warriors conquering 26-17.

A volley of successful shots by the Banks players placed the University players in the lead, and it was never overtaken by the visitors. The scintillating performance of Willie Hatcher was largely responsible in the first half for the scoring of the Vols, while the Orange and Garnet dribblers had difficulty locating the basket. The Volunteers were way out in the lead when the whistle for half time blew, the tally being 14-5.

With Sneed and Gamble in the line-up in the second half the team from College Hill warmed up and threw a fright into the Yellow and White enthusiasts, but the Maryville offense was not sustained long enough to overtake the lead, the final score being 26-17.

The game was characterized by the use of both teams of the short triangular pass, and hard, fast basketball was the result, Jefferson Hall ringing with excitement. For the Highlanders Captain Musick and Veech stood out prominently, while Harkness and Hatcher for the Banks combination looked good.

Score

Tennessee (26)		Maryville (17)
Johnson (2)	Guards	Musick (2)
Keister (6)	Guards	Veech (2)
Hatcher (12)	Center	Shores (3)
Harkness (12)	Fords.	McMuray (2)
Bowe (2)	Fords	Riskey (6)

Referee: Barber.

Substitutions: Gambler for Shores; Sneed (2) for Riskey.

As this is the first issue of the Echo since our basket ball team went into action this season, the student body is evidently anxious to know how the quintette has fared up to date. The Orange and Garnet five has made a more strenuous and pretentious debut than any of our former organizations of a similar nature, and in all its contests has accosted itself courageously. Let us gaze back over the cage battles engaged in up to last Thursday night.

Upon the dedication of the new Alumni Gymnsium on Saturday evening, December 15, the Maryville basket tossers took on the game Johnson Bible College. After a close struggle in the first half, the Honaker coached machine stepped out into commanding lead, the final score being 41-23.

The trip which lasted from Dec-

(Continued to page three)

Alpha Sigma Literary Society Puts on Shakespearen Play; Performance Great Success

Third Mid-Winter of Season Well Worthy of Alpha Sigma Society; Theta Next Monday

With all the romance of Venetian scenery, moonlight, and love, the popular comedy of Shakespeare delighted the audience in the chapel Monday night. Due to the careful coaching of Mrs. West the Merchant of Venice presented all the drama, pathos, and life intended by its great author. The efforts of Mr. Huffman and Mr. Hardin combined to produce the setting in all its appropriateness and artistic effect. The cast all betrayed the spirit of the comedy in varying degrees of stellar ability.

The tragic and striking character of the old Jew and his racial greed and cunning were vividly portrayed in the acting of Mr. Gauding. The downward career of that nortorious character, from that of a prosperous merchant to that of a fiend of thwarted vengeance formed the nucleus for the plot and the dramatic center of the action.

Miss Barnette, with the winning wistfulness of womanhood which we worship, acted the part of Portia to perfection. As a lover she appeared dazzling,—if you have any doubt about that ask Dewey. He supported that fair lady in the role of Bassanio and did well. The mercy speech, in the tense court scene, fell on our ears like the gentle rain from

THIS WEEK

Christmas has come and gone; pretty soon we will be saying the same of exams. For about forty or fifty, this will be the last series of final: for about **two-hundred-fifty,** it will be the first series. Of this number, about two percent will graduate, after about six more similar series with honors. Of the 98% some will graduate; some will not. We would not urge upon you a world vision, but it might be worth your while to stop and think: "Just where will I be after I, or my class mates, have passed six more exams?" **There is nothing like a good start.**

Considerable number among us would have all students anxiously worrying over world problems, world terms, or a world outlook. It is noble to be interested in all the affairs of the world to the extent of following their working out. To be able to use the information thusly gained as so much history, but to be worrisome over the solution is sheer folly. All problems, after all, are individual and individuals must and will solve them, sometimes to the liking of the multitude; sometimes otherwise.

The problem that should worry us most is that one most immediate; perhaps an examination next Saturday: perhaps something more immediate. Why look afar off? "The ground where on thou standest is holy ground.

We were not able to publish an issue last week because of making a change in the business department. Now that things are again able to run once more, and since seventeen more issues are guaranteed we hope The Echo will be as it says, "Maryville College's Weekly."

Since the last issue of The Echo the college debate preliminaries have been held, teams have been selected, and have already begun that long period of secret practice. Hours of reading, writing, revising and practicing will be spent before that final and sublime twelve minutes of battle royal takes place some two months from now.

Does persistency always reward her disciples?

We salute the members of the class of '22, who have submitted their class report. May all graduating classes make such an effort to remain a class with one common tie and inerest at heart—Maryville College.

Y NOTES

Prof. McCall Addressed Y. M. C. A. on "The Need of the World As a Call to Service"

How could one start the New Year better with a view to service than to get a world outlook on the needs of service in the world? Such an outlook is the aim of the Y. M. C. A., for the first few meetings. Professor McCall discussed the first of the topics to be considered in the matter of world need. That we may have a broader field to choose from and that we may have a means of knowing how to prepare for the problems that are to face us when we go into the world we should acquaint ourselves to the needs of the world, lest when we have gone the journey of life we look back to review our lives and find we have really let the worth while things go by unnoticed. Let's find what we as college students have to do in relation to the world's needs and then apply ourselves to the task of doing our part. Come out to Y meetings and discuss, and hear discussed, the needs of the world.

Christmas on the Hill

(Continued from page one)

dwell upon is the day he went to Montvale in the college truck and helped some fair co-ed make the tortuous—tortuous if they took any short cuts—ascent to Look Rock. He also gallantly helped this same fair co-ed to dispose of a real lunch, and felt much the better for it, too. That night was one night that he was glad to sleep from 9:30 to 6:30—yes, those were the hours for lights out and the rising bell respectively. That's one reason this holiday student came back to work feeling rested and refreshed while you gad abouts who were at home came back feeling the need of rest. And he ate, too. Don't you think he looks a little chubbier? He enjoyed the time he spent in the dining room, made cheery with its decorations of red and green, and Christmas bells, and flowers. He enjoyed the milk toast, the bacon, the whipped cream, too—and oh yes, he enjoyed the pan cakes with sugar syrup. So you see what with eating, sleeping and moonshining (every night from supper time till nine o'clock) the holidays passed rapidly for those who stayed here, and the Christmas vacation of 1923 is something to be remembered with pleasure.

ANTOINE LAURENT LAVOISIER
1743-1794

Born in Paris, son of a wealthy tradesman. As a student won a prize for an essay on lighting the streets of Paris. Held various Government posts. A martyr of the Reign of Terror. Founder of modern chemistry.

They couldn't destroy the work he did

"The Republic has no need for savants," sneered a tool of Robespierre as he sent Lavoisier, founder of modern chemistry, to the guillotine. A century later the French Government collected all the scientific studies of this great citizen of Paris and published them, that the record of his researches might be preserved for all time.

Lavoisier showed the errors of the theory of phlogiston—that hypothetical, material substance which was believed to be an element of all combustible compounds and to produce fire when liberated. He proved fire to be the union of other elements with a gas which he named oxygen.

Lavoisier's work goes on. In the Research Laboratories of the General Electric Company the determination of the effects of atmospheric air on lamp filaments, on metals and on delicate instruments is possible because of the discoveries of Lavoisier and his contemporaries.

This is the mark of the General Electric Company, an organization of 100,000 men and women engaged in producing the tools by which electricity—man's great servant—is making the world a better place to live in.

heaven and the audience listened as if enchanted.

Miss Ardis, as the fair daughter of the Jew, played the part of the faithful lover to the extent of extracting the words, "Beshrew me, but I love her," from her captivated companion. Mr. Stewart, in the sad character of Antonio, played his part with dignity and confidence. Miss Clark, the attendant of Portia, took the part of Nerissa and performed well. Mr. Mann made a hit in the guise of a true Gratiano.

The Venetian canals, the soft atmosphere of medieval lore, and the brilliant lighting effects increased by the mixture of color, together with the gentle impersonations of these amateurs brought back the romance and life of another day.

Y. W. C. A.

Have you ever wondered what the next war will be like? Turn to page 6 of the Ladies' Home Journal for September 1923, and read a conservative prophecy of what will take place in the next war. "The next war will last a week—maybe only two days. By the end of that time everybody will be dead." If you are interested in the prevention of such a catastrophe, come out next Sunday afternoon to the joint meeting of Y. M. and Y. W. and hear Dean McDermott of the University of Tennessee on the subject "The Prevention of War."

This meeting is the second of a series on World Problems. The economic condition of the world were studied at last Sunday's meeting.

(Continued from page one)

ember 20-29 will not be forgotten in a hurry by the players who made it, the squad being composed of Captain Musick, McMurray, Veach, Riskey, Shores, Sneed, Gamble and Thrower. The boys came back worn out and rather discouraged, having won but one game out of nine starts. They need not, however, for the students realize the strength of the team, and what it can do, conditions being equal. Six hours a day in a train is too much for any team, even if it is from Maryville.

The first game of the tour was played in Chattanooga on December 20, against the local "Y." Foul tossing decided the final score which was 36-34 in favor of Chattanooga. Journeying the next day into Huntsville, Alabama, Maryville humbled the Dallis Y. M. C. A., in a snappy game, the tally being 34-22.

Arriving in Memphis on the 22nd twenty minutes after the game was called the team went to the local Y. M. C. A. and was defeated 20-12. Jonesboro nosed out the Highland quinetette on Christmas Eve by two baskets making it 28-24, and Christmas was celebrated by the sport enthusiasts of Pine Bluff, Arkansas, by a 28-22 victory over Maryville. The team tried hard to throw off the Jinx at Bemas, Tenn., but again had to accept a 29-22 set back. On the twenty-sevenh the powerful Evansville Indiana team ran up the heavy score of 41 points to Maryville's 28, followed the next day by another jolt when New Albany, Indiana, grabbed the long end of the score, 25-22. The last entry in this sad chronicle was a defeat on December 29 by the Covington Y. M. C. A. of Kentucky, the score being 28-19.

Back on the Hill, and full of vigor, the team easily defeated the invading Knoxville Polarines on January 10, the whistle blowing as the score stood 18-7.

The season is still young and the team is once more getting back into shape. When it does reach normalcy Southern basketball is likely to get a surprise.

VISIT OUR FOUNTAIN for your afternoon refreshments. We are better prepared to serve you than ever before. Sodas, Sundaes, Parfaits, Hot Chocolate, Sandwiches, and Fancy Dishes too numerous to mention. You'll enjoy a visit to our new Ice Cream Parlor. Quick, sanitary, cheerful service.

INTERCOLLEGIATE NEWS

New York University announced last week that with the approval of President Soolidge, Secretary of War Weeks, and Secretary of the Navy Denby, it has installed the first course in aeronautical engineering and aviation to find place in the curriculum of an American college.

—M. C.—

Five men and five women students of the University of Wisconsin have been penalized for various forms of cribbing. They were placed on probation, and required to earn from three to ten extra credits toward graduation.

—M. C.—

Faculty men of the University of Oregon have organized a class of horseback riding. The class has ten members and many more are expected to join. They meet every Thursday morning and Saturday afternoon.

—M. C.—

The new stadium at V. P. I. is taking form rapidly, the excavation being reported as being half done. The stadium will be of steel and concrete and when completed will seat 6 500 persons.

—M. C.—

New sports at the Kansas State Agricultural College this year include gliding, bicycling, and boxing.

The Aggie Aero Club, an organization open to anyone interested in aeronautics, has been organized. The chief interest of the club is the completion and operation of a glider, the construction of which was started last year. The glider is expected to be ready soon for its initial flight.

—M. C.—

University of Oregon Juniors had their annual Shine Day recently. On this day, all, including co-eds, shine their fellow students' shoes for the customary charge of ten cents. The proceeds go to charity.

—M. C.—

Four Freshmen at Penn State have been excused from Freshman rules because they are married.

—M. C.—

Football is fast replacing bullfighting as the most popular sport of Spain, according to a a native son and Spanish professor at the University of Iowa. The Spaniards prefer the British style of Rugby football, he declared.

Connecticut Aggies have a system in which no class absences are excused, but a bonus in added credits is given for a perfect attendance record.

—M. C.—

About six thousand delegates, representing over a thousand colleges from all parts of the United States and Canada, attended the convention that was held in Indianapolis at Christmas time, from December 28 th January 1st, to discuss the Christian solution of world problems. Highly representative men from China, Japan, England, India, and, of course the United States and Canada, spoke on such problems as "Modern Industrilism," "Christian Brotherhood," "International Problems," "Present Day Social Conditions," and "Racial Relations." There were discussion groups and forums held in which students learned the opinions of those in other colleges.

—M. C.—

The students of Antioch College are a highly selected group, quite largely self-selected, since they come with the realization that to remain they must pay the price in rigorous self-discipline, such as is demanded in the Antioch program. They are introduced to the program of part-time work and study largely to stimulate the development of just this quality of responsibility.

—M. C.—

A full-blooded Indian chief is a student in the University of Pennsylvania for the first time in the history of that institution. He is chief Joseph Strong Wolf of the Ojibway tribe.

—M. C.—

Knox, Carleton, Grinnell and Beloit Colleges have agreed to have all no-decision debates in the future.

Y NOTES

Mr. Calderwood of the Sheet Mill addressed the Y. on "Industrial Problems" in the factories.

Is the question of capital and labor of any interest to college students. On whose shoulders will the responsibility soon be? We are the hope or the disanpointment of the future of our nation. How are we to handle the problem so that there will be satisfaction of the part of both.

Mr. Calderwood discussed the Industrial Problem from his own experience with workmen and gave three solutions combined into one result. 1, Know your men and be able to sympathize with them. 2, Look at things as each man sees them and, 3, Apply the Golden Rule. If every one could see the benefit of such rules then apply them diligently much of our industrial strife surely would be at an end.

Next Sunday Dean McDermott of U. T. will discuss with us "The Prevention of War." The meeting will be a joint one and we want everyone to attend and be able to enter the discussion.

The time of meeting will be at 1:30 p. m.

THE WORST IS ABOUT OVER

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME NINE | MARYVILLE, TENNESSEE, WEDNESDAY, JANUARY 23, 1923 | NUMBER FOURTEEN

Second Home Game Of Season Shows the M. C. Five up Strong

Maryville Quintet Trounces Southwestern Presbyterian College in Evenly Matched Scrap

VISITORS PRESENT STRONG DEFENSE

Mach Improvement Shown by Highlanders as Result of Hard Practice

The strong Southwestern College quintette journeyed into Orange and Garnet territory on Friday night to take on the local team, and it was not until the final whistle blew that Maryville was sure of the game; first score 23-16.

The first half was marked by continuous fast playing, many free tosses being awarded and fumbles made. Alexander, Southwestern's rangy center, had his eye on the basket, and looped two shots thru the ring from difficult angles. He also droped three foul shots thru for counters. Shores, despite his laxity of team work, stood out brightly according to the scorebook, garnering four of the five field goals made by M. C. in the opening frame. The half ended during a Southwestern rally; score, Maryville 10; Southwestern 9.

The local five opened the second half with a rush and for a time it looked like a one-sided victory for Maryville. With Veech, Sneed and Gamble in the places of McCall, Riskey and Shores the combinators continued to show promise of a really great team. The scoring was split up among the five local boys in this frame, while for Southwestern Hooker accounted for five points. The Clarksville combination livened the action near the end of the frav by a steady closing in on Maryville, but the Orange and

Helpful Classes Organized by Y. M.

BIBLE STUDY COMMITTEE IN CHARGE OF SUNDAY SCHOOL CLASSES FOR MEN RENDERS VALUABLE SERVICE

Perhaps there are those on College Hill who are not familiar enough with the work of the Y. M. C. A. to know what each committee is endeavoring to do, so we are presenting to you in a short summary the work which has been accomplished during the past semester, by the Bible Study Committee.

This committee has charge of the special classes for young men in the Sunday schools of the town, Bible Study among the fellows in the dormitory, and the prayer circles working through the Friendship Council.

At the beginning of the Semester the following classes in the various Sunday schools were organized for young men: In the Presbyterian Sunday School there is a Teacher-Training class, under the direction of Dr. Gillingham in which a number of young men have received much good and are preparing themselves for successful Sunday school teachers. Another class, The Fundamentals of Christian Living, is led by Dr. Wilson. A large number of men in this class have received lasting benefits from the principles which have been inlaid in their lives through Dr. Wilson's lectures.

Then there are two or three other classes in which the International Sunday School Lesson is taught, that are open to young men. At the

(Continued on page three)

SECOND SEMESTER MARKS NEW ADDITION TO FACULTY

Mr. J. H. Kiger, of Wheeling West Virginia Will Serve in English and Bible Department.

Second semester marks a new addition to College faculty. The member is Mr. J. H. Kiger, of Wheeling, West Virginia, who will serve in the Engish Language and Bible Department.

Mr. Kiger is an alumnus of the College, having graduated with the Centennial Class, the class of 1919. Since his graduation from Maryville Mr. Kiger has spent nearly three years in graduate study. At such institutions as University of Cincinnati, Lane Theological Seminary, Oberlin College, and Ohio State University.

Those who know Mr. Kiger are glad indeed to welcome him to a place on the staff of instructors on the Hill, and are ready to assure the students, who do not know him as yet, of his sterling worth and thorough scholarship.

Should America Join the League?

INTERCOLLEGIATE DEBATE IS THE NEXT EXTRA CURRICULUM ACTIVITY.

Yes, Maryville College has a forensic schedule this year. In fact one of the best schedules for debates she has ever had. Several new features are in this year's sch dule that have never been used at Maryville before this time. This is the first year that both the men's varsity teams have used the same quetion. This is also the fisrt year that the Freshman class has had a team separate from the regular varsity team. It happens that this first Freshman team is to engage our old time rival in other sports, namely University of Tennessee in intercollegiate debate. Such a debate cannot fail to attract much interest and enthusiasm on the Hill.

The question for the varsity teams is: "Resolved, The United States Should Enter the League of Nations." The question is a live one; because it is yet of current interest, notwithstanding President Coolidge statement to the contrary in his recent message to Congress. The debates that Maryville has scheduled on this question are: First a trianglular affair with King and Tusculum Colleges and later a dual tilt with Milligan Colege. Tusculum is our ancient forensic rival, and both King and Milligan were debated last year.

The triangle with King and Tusculum occurs on February twenty-nine. The team that is to meet King College at Bristol, Va., is composed of Messrs. David King, Hunter Robinette, and John Stockton. The team that is to meet Tusculum on he home floor is composed f Messrs. Edward Cornelius,

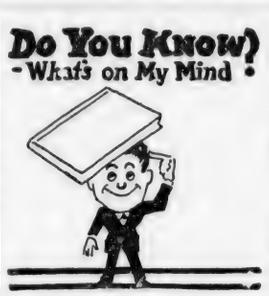
A SONG OF THE LABORATORY



Give me a drink of KOH
Or H_2SO_4,
For exams, are coming, coming soon,
And I wish to live no more.

Yes, put the HgCl to me,
Or perhaps HNO_3;
Or shut me up in an air-tight box
And set CO_2 free.

Oh, give me a heaping teaspoon
Of $KASO_3$,
And a drink of H_2SO_4,
And see what happens to me.

Alas, I cannot recall a word.
I don't know enough to guess.
I feel as I did in the old school lab.
When I first used H_2S.

Why should I longer exist in woe?
There is no pleasure in being alive.
I'll pour HNO_3 on a piece of Zh
And smother in N_2O_5.

1924 Chilhowean

The annual is now in the process of production. Every student should have his picture therin, and every club and organization will commemorate its activties and associations on the pages of the college year-book. All the students must have a personal interest in our work and help in the matter of pictures and group scenes so that every page will be alive. If you do this we promise you the best book that this place has ever seen.

1924 Annual Staff Well Under Way; Much Work Done

Beauty Contest Results in the Selection of Classic Array of Feminine Charm.

GOOD YEAR BOOK ASSURED.

Almost Every Student Will Have His Picture in the College Year Book—All Organizations Are to be Well Represented.

The production of the 1924 Chilhowean gives promises of eclipsing all former efforts to create a book of distribution and originality. The progress on the different sections comprising the whole is such as to warrant the prediction that every student will be personally interested, not only in the college activities represented therein, but also in his particular field of participation in college life.

It is the plan of the staff to have the picture of every student in the college and preparatory school in the annual. Not only would the book be incomplete with some pictures omitted, but to those particular persons the annual will be a reminder of their lack of loyalty.

The various features of the Chil-

Theta Epsilon Society Presents "Smilin' Through"

STUDENT COUNCIL TO AMEND CONSTITUTION.

During the past year experience has brought out several slight defects which exist in the constitution of the stuednt organizaion. In order that these defects may be, to some extent, remieded a committee has been working on certain paragraphs for the past few months. When this committee reports, and if their recommendations be accepted by the council and faculty, they will be referred to the student body for a vote, after due consideration has been given.

The method of electing representatives has proved particularly inefficient and this section will no doubt receive first consideration on the part of the committee.

Prize for Best Essay On League of Nations

"Why the United States Should Jion The League of Nations" is Subject.

The growing interest among undergraduates of American universities and colleges in the League of Nations and the World Court has prompted the College Division of the League of Nations Non-Partisan Association to conduct an essay contest, with prizes of $100, $75 and $50 each to students who desire to compete for them.

The contest is announced by Corliss Lamont who, as chairman of the Committee of University and College Students of the League of Nations Non-Partisan Association, is in charge of the organization of branches of the association in universities and colleges. Mr. Lamont reports that over eighty universities and colleges have already been organized.

The subject of the essay is to be, "Why the United States Should Join the League of Nations." Total number of words submitted by the contestant must not exceed three thousand. Only one essay may be submitted by any one contestant.

Manuscripts must be typewritten and only on one side of the page, and must not be rolled. No manuscript will be returned. No postage for the return of manuscripts should therefore be included by the sender.

All manuscripts must be received at the office of the League of Nations Non-Partisan Association, 15 West 37th Street, New York City, by 12 o'clock noon, March 1, 1924.

The submission of any manuscript, whether or not it receives an award, shall give the association full rights to publish any part or all of it in such manner and at such times as it may choose.

The Chemistry Club Meets Again

The Chemistry Club met last Tuesday for a program and business meeting. The program rendered consisted of two interesting papers, one by Miss Virginia Clark, entitled "The Chemistry of a Skyscrapper." This paper put forth the idea of the practicability of Chemistry, yet so much unobserved and unknown to the average layman.

Miss Ethel Sharp also gave us a paper on "The History of Gunpowder and Explosives." This paper was also of value to us in that it gave an insight to the

Fourth Mid-Winter Termed Best Play For Several Years

Monday Evening, January 21, 1924; A Full House Inspite of Exams.

BEAUTIFUL COSTUMES AND SETTING

Music by Misses Lewis and Jarvis And Mr. Chapman Exceptionally Good.

The quaint old fashioned flower garden, the hoop skirts of the ladies and the gallant gentlemen, all served to carry us back vividly to other days. Who was there with heart so cold who did not openly or secretly, shed a few tears when the "White Lady," on the eve of her wedding died but left the promise to her fiance that she would find some way to return to him. Kathleen, the little Irish girl, so successfully played by Mary Lily Sossoman, made us admire her for her independence and also for her faithful devotion to Ken. The two old gentlemen, John Cartaret, and Dr. Owen Harding, brought the needed touch of humor into the story by their child-like quarrell.

The Mid-winter is one that we will always remember, and we could all try to "Smile Thru" when things seem to go wrong.

The cast of characters were:
John Carteret—Walter Swartz.
Dr. Owen Harding—James C. Anderson.
Ellen—Helen M. Bowman.
Kathleen Dunganon—Mary Lily Sossoman.
Willie Ainley—Othel Armstrong.
Kenneth Wayne—Jean McMurray.
Mary Clare—Mozelle Welsh.
Wedding Guests—Edith Moore, and Ruth McMurry.
Jeremiah Wayne—Harry Gauding.
Moonyeen Clare—Alice Johnston.

The play was directed by Mrs. Nita Eckles West. The music was furnished by the Orchestra.

Forty-Sixth Series Meetings Begin Tues.

FEBRUARY MEETINGS HAVE BEEN A TREASURED AND WORTHY TRADITION OF MARYVILLE COLLEGE SINCE 1877

In 1877 in the month of February, the first series of evangelistic meetings was held on College. Since that time the February meetings have become a treasurer and worthy tradition of Maryville College. The roll of leaders of this series of meetings is an honorable and interesting one. A number of leaders have, in themselves, by virtue of their splendid service, become institutions of this institution and so have returned repeatedly to lead the meeings, but two names in particular hold the position of greatest honor. Rev. Nathan Bachman, D. D., who conducted the first series of meetings, subsequently returned seven times for the same service. It was under the ministry of Dr. Bachman, in the meetings of 1877, that Dr. S. T. Wilson became a Christian.

Up to the beginning of the present series of meetings, another leader has been in charge of eight meetings. But with the beginning of the forty-fourth series on Tues-

BUSINESS DEPARTMENT

THIS WEEK

The month of February draws near, and we look forward to its coming with eager anticipation. To all of us it means the end of examinations, and the beginning of a new semester. To those of us who are not new at Maryville the anticipation of the events of this shortest month of the twelve, inevitably merges into thoughts of the February meetings. They are a long established institution in the Old College and so strong is their influence that one migh just as well think of Maryville without a faculty as to try to even put these meetings in the background. And it is well it is so, for they are sacred in the memory of thousands who have gone before. Their influence has been felt the world around. May we hold up the standard and stand by them by throwing our whole selves into the fight and winning for God.

The Midwinters of '23-'24 have come and gone so let us gaze back over this page of history and see what has been enscrolled.

The Athenians ushered in the season by offering for our approval the very well liked "Lion and the Mouse." They were followed a week later by the talent of their sister society in "Miss Lulu Bett." Then, after our return from the holidays, the Alpha Sigma, in their attempt to offer something a little heavier, got away with a creditable presentation of the "Merchant of Venice." And last Monday night the season was brought to a fitting close by the Thetas in "Smilin' Thru."

It has been a remarkably successful season and the societies are all to be congratulated. Every play was fully worthy of its society and every society fully worthy of its play. And what a bunch of talent was displayed! Oh, there is talent in our midst, and one of the ways in which it is unearthed is through the Midwinters.

BAINONIAN BEGINS THE NEW YEAR WITH INTERESTING PROGRAM

Bainonian gave its first program after the holidays Saturday night, January 19th. The first number showed what Leap Year means to the girls. Miss Dorothy Hodges represented the year 1924 while Miss Mabel Higginbotham begged Mr. Carson (Miss Emma Carson) to marry her. He consented and the scene closed. Miss Georgia Belle Kuhn had recently learned the origin of New Year's Day, so she told us about it. The new school year brings new girls with new talent. One of our new girls, Miss Lillian Croyle, gave a piano solo. Some people say there is nothing new but, new things can be found in magazines everyday. One of the new writers is Miss Sarah Tusdale. Four of her poems were read by Miss Lina Hodges. For the last number on the program Miss Elizabeth Montgomery read the satire, Vanity, which was very appropriate since the beauty contest is going on.

This program proved that our new program secretary, Miss Paulsell, will arrange some interesting programs. The other officer are proving equally successful.

FRESHMAN ANSWERS

The sentence, "Extricate the quadruped from the shafts of the vehicle" was considered wrong "because the words are technical words which would be understood only by a farmer."

The same sentence was pronounced wrong because "the words are provincialisms and would not be understood in any other part of the country except the one in which they are used."

The sentence, "The proud groom led the blushing bride to the hymeneal altar, where the nuptial rites were performed." was given for criticism. One freshman in copying it from the board wrote "where the MUTUAL rites were performed" another's variation was "where the MUNICIPAL rites were performed."

A freshman wrote a sentence thus. "I have come earnestly to request your PRESENTS at the meeting."

REVIEW OF THE CLASS OF '22

In memory of the two members of '22, for whom black has been hung:
Reed Rowan, died in May, 1923
Daniel Arellano, died in October

M. D. Student Vanderbilt U.

During the past two summers I have worked at home on the farm. Next summer I expect to attend camp at the Medical Corps of the Army at Carlisle Barracks, Pa.

Vanderbilt's new three million dollar hospital is under construction and will be complete in time for my senior year in '26. I expect to take two years of intern work before beginning active practice. I have not the least idea where I shall locate, but that is not worrying me, for I know there will always be something big for each one of the class of '22 to do.

Best wishes to all.

Fount B. Robinson.

—M. C.—

Cook No. 1.

I am teaching Domestic Science in the Department Grades in the Public schools of Louisville, Ky., and studying Pipe Organ, and that's all, absolutely.

Time almost for school to start, and I have some work to do.

Hastily,
Elizabeth Moore.

—M.C .—

Cook No. 2.

I was in school at Peabody six weeks during the summer and met some old Maryvillians—I guess you knew that several of the class of '22 gang were there. I am teaching H. E. in the Unidis High School in West Milford, W. Va. I like it very well.

Best o' luck,
Lillian Brandon.

—M. C.—

Cook No. 3.

There isn't much to tell about me. Soon after the parting of the way in '22, I contracted for a position as teacher of H. E. in Chattanooga High Schol. I am planning for a leave of absence next year in order to work off a degree at Columbia.

Nina Parks.

—M. C.—

H20 Professor.

I taught in Lewisburg, Tenn., the first year. Returned to M. C. to share with George in the pleasure, privileges, and duties of the Chemistry Department at our Alma Mater. We have about 250 students at our mercy. About 210 of them are beginnig to know what we are talking about when we say H20.

Sincerely.
Lee Herndon.

—M. C.—

Babe Blanche.

I'm keeping house for my dad here in Madisonville; have been for almost a year. Have short hours, therefore, I like my work. I have joined the flock of "short horns." If you want comfort, you'd better join.

Same as ever.
Blanche Lowery.

—M. C.—

Reba is teaching Latin in the Prep. Dept., and is contended and happy. The '22 Tourist.

After Christmas I expect to take a two months' cruise of the Mediteranean. I plan to visit England, France, Italy, Spain, but will spend most of the time in Palestine and Egypt.

Take your notes carefully, Jane. Report fully of your trip at the Alumni Banquet next June.

—M. C.—

Kid-der.

The position of Assistant Boy's Work Secretary in Chattanooga "Y" proves most interesting. This is my second year in this type of work but last year was spent in Youngstown, Ohio.

Yours in the spirit of '22.
Ernest Kidder.

—M. C.—

Our Missionary

On September 22, 1922, I sailed from New York to Mexico, arriving at Vera Cruz, Mexico. From this point I went to Mexico City, where I met the members of the Mexico Mission. In April, '23, the Board of Foreign Missions closed the school at Vera Cruz for financial reasons. I taught English and Gym. there. I was assigned in August '23, to the city of Oaxacia, for social and evangelistic work. Oaxacia has a popultion of 40,000, and no missionaries working here except myself. I could write a volume on the joys and problems of missionary work, but time prevents.

Love and best wishes,
Ethel Doctor Apartado 127.

—M. C.—

"Busy Lizzie."

This is the last year of training for religious work, either at home or abroad. The course includes study and practical work. My practical work includes a Mission study class, visiting the Juvenile Court, and anything that I'm called up to do.

"Busier Lizzie" and harder worked than at Maryville.

Here's to our class,
Assembly Training School,
Richmond Va.

—M. C.—

A Musical Member.

The next number in our performance is a musical number. The performer is in good healthy condition, due to North Carolina Blue Ridge mountain air. The player is also in breezy attitude and still harmonious. She is living on inspiration from the mountains, and—this good health gives her courage to face 450 North Carolinians and lead in song; and then, after chapel go to the studio to teach the present generation to love good music.

Anxiously waiting to hear from every last member of our own class of '22.

Nanette, Sylva, N. C.

Jennie Speaks:

I was one of the seven of the class of '22 who spent the summer months at U. T. studying Education and Education only.

My present task is to teach each day five classes in Algebra in the Senior High school of Johnson City. I haven't a single complaint to offer against my jb or this fast growing city, but not yet have I decided that I am one of these "natural born teachers."

To all the members of the class of '22 I send greetings and my best wishes for a future success.

Jennie Lequire, Johnson City.

—M. C.—

Cook No. 4.

This teaching game is all it's cracked up to be, and then some.

I like the State of Iowa, and Nebraska, too, but next year the good old South for me. I don't think I shall ever leave it for long again. I came back to this place to gain a reputation, and I'm bout to lose my religion doing it.

Same as ever,
Elizabeth McCord, Logan, Iowa.

—M. C.—

History and English.

In addition to teaching eight classes each day, I act as "boss" of the boys' study hall. Can you imagine me bossing them around? One little fellow leads me a life. I couldn't say he has studies one lesson this year. Do any of you teachers have such studious pupils?

Helen Deal, Jackson, Ala.

THE FIELD OF LIFE

Our life is a field that is scattered
With thousands and thousands o things;
There is refuse intended for no one:
There are goods intended for kings.

But, oh, the sorrow in living
Is born of the failure to choose
The stuff that will help us to win
From the stuff that will cause us to lose.

In the field so full of materials
The harvesters are both strong and weak,
For all have aright to gather
What all have aright to seek.

Yet a shadow of sadness will linger
When the things are collected Above
For some will find they're mistaken
'But the things they used to love.

And the refuse that looked so lovely
In the field so strange and wild
Will be revealed in Heaven,—
Then the pang of being beguilded!

Oh, the sorrow and sadness in living
is born of the failure to choose
The treasures that will help us win
From the refuse that will cause us to lose.

—Paul M. Meikle.

A SMILE.

Nothing on earth can smile but man. Gems may flash reflected light, but what's a diamond flash compared to an eye flash and a mirth flash? Flowers cannot smile, this is a charm which even they cannot claim. It is the prerogative of man, it is the color which love wears and a cheerfulness of joy. It is a light in the window of the face by which the heart signifies that it is at home and happy. Faces that cannot smile are like buds that cannot blossom and that die on the stalk.

Laughter is day and sadness night, and a smile is the twilight that hovers gently between them both,—more bewitching than either.

A smile will affect life as no other thing will. A bright smile will bring sunshine into the darkest heart, it will take sorrow and sadness away and leave in their places sweet peace that comforts and stys.

Forty-Sixth Series

for each day, are prepared and put

day morning of next week, January 29, Rev. E. A. Elmore, D .D., will begin his ninth series of February meetings. Dr. Elmore is an alumnus of Maryville, graduating in 1871, was for a number of years a member of its faculty, and has for the past seventeen years been president of the Directors of the College. He is a preacher of remarkable persuasiveness and power whose meetings have been marked by the thoroughness and sanenes of their appeal.

With Dr. Elmore, comes as singer, another man who is fast becoming an institution in connection with the February meetings, Rev. Sidney E. Stringham, who is coming for the third consecutive series of services. Mr. Stringham, now located in Chattanooga, was until a few months ago, pastor of the Methodist church in Alcoa. His coming to Maryville will rejoice not only the members of college community, to whom he has so highly commended himself, but als a host of friends in the whole community of Maryville-Alcoa.

ATHENIAN

Athenians Enjoy Short Extemporaneous Program.

Due to the fact that there were so many things scheduled the past week a regular program was not planned for Saturday night. There was a good number of the members out to hear our new president, Mr. David King, give a short snappy address. We appreciate having "Davs" act as our president almost as much as he does having the office.

Mr. Bishop, our new program secretary, gave a sketch of the programs he had outlined. Fellows, "Bob" has some good ideas up his sleeve, let's help him put them across.

Extemporaneous speeches were next in order. They consisted of "Rhore's Roring," and "Crow's Crowing." We think that there is no doubt but what Neff will get to touch that (sheep) skin if he does as good work in everything as he did with this after dinner speech at a foodless banquet.

Helpful Classes

(Continued from page one)

Baptist church there is a special class for young men led by Mr. Glasscock. All who have attended this class know the benefits they have received from the able instruction which Mr. Glasscock has given.

At the M. E. Church, South, a special class for tudents is conducted by Coach Honaker, and everyone who has been in this class recognizes Coach's ability as a Sunday school class teacher.

These classes will continue thru next Semester and every young man is cordially invited to attend one of the classes.

Another phase of the work is the Bible study which is being carried on in the dormitory. Special topics for each day, are prepared and jut into the hands of the men who will take an interest in Bible study. There are about seventyfive men engaged in this study and we would like to have you join in with us next Semester. Also through the aid of Dr. Gillingham special topics have been prepared for the prayer groups that are being conducted under the leadership of the Friendship Council majors.

BENJAMIN FRANKLIN
1706-1790
Printer, journalist, diplomat, inventor, statesman, philosopher, wit. One of the authors of the Declaration of Independence and the Constitution, author of Poor Richard's Almanack; and one of the most eminent natural philosophers of his time.

But nobody had thought to do it

By bringing electricity down from the clouds over a kite string, it was a simple thing to prove that lightning was nothing more than a tremendous electrical flash.

For centuries before Franklin flew his kite in 1751 philosophers had been speculating about the nature of lightning. With electrified globes and charged bottles, others had evolved the theory that the puny sparks of the laboratory and the stupendous phenomenon of the heavens were related; but Franklin substituted fact for theory — by scientific experiment.

Roaring electrical discharges, man-made lightning as deadly as that from the clouds, are now produced by scientists in the Research Laboratories of the General Electric Company. They are part of experiments which are making it possible to use the power of mountain torrents farther and farther from the great industrial centers.

Electrical machines bearing the mark of the General Electric Company, in use throughout the world, are raising standards of living by doing the work of millions of men.

1924 Annual Staff

(Continued from page one)

howean will make this year's annual of particular interest to the college.

The Beauty Contest.

The results of the beauty contest compel us to say that this feature of the book will be unrivalled. Each class is to have one girl representative of beauty. From the three seections of each class in the recent election, one will be chosen by a committee of expert photographers in one of the country's large cities, and also one to be chosen as the most beautiful of the entire group. In the annual eight pages will be set apart to the pictures of the winner in each class, and the winner of the whole school. These girls who are chosen by our expert judges will not be announced to the student body until the day when the annuals are delivered into the hands of the students.

Athletic

The athletic section of the book will be remarkable. In the words of Treasurer Proffitt this section looks like it would be the best in years. In fact it will be the best ever. Not only do we have the pictures of the letter men, but also a fine collection of action scenes from our big games. Especially do we pride ourselves on using several pictures of the Maryville-King game. The basketball team will be shown in both individual and in squad pictures. Baseball, track and tenn's will also be pictured well.

Classes

The classes are to be represented in individual portraits. We are extending every effort to include the entire membership of the classes in this manner, but we will be unable to do so unless all the students will support our work. And remember, unless your picture is in the annual you will feel left out when the book is published.

The activities section is to be filled with life, novelty, originality, and college experiences. Clubs and activities will be classed here. We cannot over-emphasize the need of all lines of activities and all students be incuded in this section in one or more pictures.

However, to allay somewhat the general curiosity of the general public we will mention the names of the girls elected by each of the classes to try in the beauty contest to be placed in that feature section of feminine fairness.

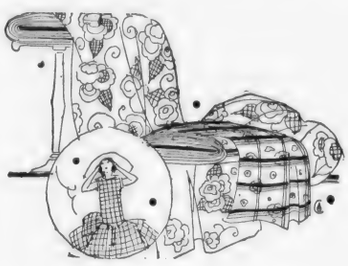
In the senior section Misses Adair, Bevan and Johnson.

In the junior class Misses Barnette, Harper and Heiskell.

In the sophomore class Misses Arnold, Bryant and Henry.

In the preparatory school Misses Ellis, Jackson and Sheffield.

RESOLUTIONS OF THE SOPHOMORE CLASS



Whereas God in His infinite mercy did see fit to call the father of our beloved classmate Miss Sarah Ford, we the members of the Sophomore Class do hereby extend our sincere sympathy to our class mate and the bereaved family.

Be it resolved that a copy of these resolutions be sent to the bereaved ones, a copy be read in Chapel, and a copy be printed in the Highland Echo.

Should America Join the League?

(Continued from page one)

James Hardin, and Chester Karrick.

The dual with Milligan College occurs March third. The team that meets the enemy in their territory is composed of Messrs. Verton Queener, Floyd Corry, and Harold Van Orden. The team debating on the home floor at the same time is composed of Messrs. Francis Kinsler, Ed Hamilton and L. E. Milling.

The teams are now at work preparing for the coming contests. It is said that the speeches being prepared will rival Dean McDermott's most excellent address on "The Prevention of War." Some of the men participating are veterans with long records of prep school and college debating to their credit.

After the regular season is over a team will be selected from the men of the varsity teams, which will make an extended tour debating colleges in Tennessee, Kentucky, Indiana and Illinois. The work that Maryville debaters are doing is putting Maryville on the map forensically speaking. Such a type of extra curriculum work is of interest to every student of the College.

ALPHA SIGMA

New Officers are Elected and Sworn in—Successful Term Promised.

A lengthy and important business meeting was held by the Alpha Sigma society last Saturday night at the usual time, in the usual place. The new crew of officers were duly sworn in and took up their respective duties where their predecessors left off. They are:

Mason Mann—President.

Othel Armstrong—Vice-President

Clinton Puff—Recording Secretary.

Wick Broomall—Assistant Recording Secretary.

James Hardin—Program Secretary.

Julius Huffman—Editor.

Ted Purdy—Sergeant-at-Arms.

Censors—Burl Prichard, Merlin Uer, Mr. Yutz.

We are expecting great things from this capable bunch of officers. We are sure they will carry on and uphold the standard given them by traditional Alpha Sigma.

Other important matters of business were discussed and acted upon. The meeting was then adiourned upon a motion to that effect by Mr. Kinsler.

Second Home Game

(Continued from page one)

Garnet team braced and the score at the end of the game was 23-16.

The Southwestern game demonstrated that if our short, triangle pass is to work individual playing must stop. The stands appreciate watching this play carried through to it proper termination, rather than having one of its members make a break for the basket making the other players do the work.

The line-up was:

Southwestern	Maryville
Hill	Riskey
Colberson	Shores
Alexander	McMurray
Wilson	Musick
Robinson	McCall

Substitutions: Hooker, Sneed, Gamble, Veech.

Referee: Schmidt.

MARYVILLE GIRLS START THE SEASON WITH VICTORY OVER CARSON-NEWMAN CO-EDS.

Maryville's Co-ed quintette gained a sparkling victory over Carson-Newman's girls' combination on the local floor on Tuesday afternoon; score 16-12.

The keen rivalry existing between the two schools brought out a large crowd to witness the fray, which was snappy throughout. The scoring was heavy on both sides during the first frame, the C.-N. players gaining many points on free tosses, the Maryville team finding it difficult to adjust itself to girl's rules. Grace Brown, who has been playing a consistently good game this season, located the basket with unerring accuracy several times for the home five, while "Mary Bob" at center continued to upset the visitors signals by nearly always getting the tip off. The first half ended in Maryville's favor; 12-8.

The second half saw the guards of both teams spoiling the hopes of the rival forwards. During this division Thomas, of Carson-Newman tried hard to spur on her team, but all the invader's rallies were short lived, and the fray ende in M. C.'s favor, 16-12.

Claude C. Smith
READY-TO-WEAR

The Chemistry Club

(Continued from page one)

amount of time the early Chemists spent in ignorance of the subject which has made so much progress recently and been of such extensive ervice to mankind.

And in view of the fact that things were so uncertain and seemingly useless, at that time, we wonder now, if we had been freshmen at the time of Lavoisier or Cavendish would not we have asked "Will I pass on Chemistry?"

Just the same though whether you believe Chemitry is all bosh or not and regardless of how small the electrons are that are dealt with in it, it is a broad subject and most of man's progress, comfort and happiness has been the result of year after year of diligent research in some inadequately equipped laboratory.

The club welcomes all visitors, freshmen as well as upper classmen to the meetings. A good program has been panned for next meeting. Come out and see what it's like.

Maryville Five Make Hurried Tour of Kentucky Meeting Four Strong Machines

Orange and Garnet Cagesters Developing into Strong Outfit

Milligan College Outfit Were Last Ones Humbled at Maryville

TWO MORE VICTORIES WON

Highlanders Meet Good Teams On Weeks Journey Through Kentucky

The Orange and Garnet quintette hung up two more victories during the past week, humbling the Milligan College combination on Wednesday evening in the alumni gymasium, 25-20, and taking the Knoxville "Y" team into camp at Knoxville on Saturday, 22-20.

The Milligan game, with its moments of intense excitement, was welcomed by the student body which found in it a chance to work off some metal steam which had accumulated during the first few days of "exams". Through the medium of McMurray's unerring eye the local five got away to a good start, but by consistent play the visitors overcome the lead and forged ahead of he wearers of the "M", the half ending 10-9 in favor of Milligan.

During the early part of the second half the stands were in an uproad, Maryville gaining and losing the lead with nerve—wracking regularity. Finally the Honakerites pulled themselves together and with a barrage of well-directed shots went permanently into the lead, the pistol cracking when the score stood Maryville 25; Milligan 20.

At moments in the second half the team was working with old time precision and pep, and indicated what it was possible to do. McMurray hitting on all four for the first time this season, Garnered thirteen of the twenty-five tallies, while

Business Manager Talks Good Sense

DID YOU EVER STOP TO THINK

Just why the business men of the town advertise in the paper. . . . did you ever stop and think why the paper has advertisements?

Let me tell you a little story. One year a prominent merchant of the town decided he would cut out advertising altogether in the college publications. He said that his business house was located where the students could not miss him and the students did not pay any attention to advertisements anyway. It did not make any difference to the students whether he advertised or not. He tried the experiment and started out at the beginning of the year to turn down everything in the advertising line. Well, things went alright for a while. His volume of trade seemed to stand up all right. (large bodies move slowly), But gradually his trade began to fall off and pretty soon he found out that he had tried a costly experiment. There wasn't any conspiracy against that merchant or any hard feeling from anybody. It was simply an instance of that cold law of business, it pays to advertise.

On the other hand a certain organization on the hill wnted to get

(Continued on page two)

INTER CLASS INDOOR TRACK MEET IS BEING PLANNED

Riskey, Chairman of "Y" athletics and "Shimmy" Brown Charman of track, have made plans for an inter-class in door tract meet to be held some time next month. The events will be be.

Running broad jump.
Running high jump
Shot put.
25 yard dash
----? Hurdles
Relay Race.

Each class will be allowed to enter two men in each event and eight in the relay.

This is the first indoor track meet held here and it is hoped that it will be a success.

The classes should choose their captains at once so that their team can get tarted.

Contributed Words Might Apply to All

The other day I saw a student reprove a friend of his for having unworthy thoughts. The reprover is not a christien. his friend belongs to the Ministerial Association. Why the young man refused to heed the advice in a grateful way is known only to himself. Words followed, and I dare say that a hearty friendship was put aside. Such incidents are reenacted many times in the course of one's experience. A friendhip broken up in a like manner is nothing short of pathetic.

Solomon, the man who, Billy Sunday says, pumped the well of knowledge dry, and pulled out the pump," writes much on the subject of advice. Here are a few of his sayings taken at random from the Book of Proverbs:

"Speak not in the hearing of a fool;
For he will despise the wisdom of thy words.
He that refuseth correction despiseth his own soul
But he that hearkeneth to reproof getteth understanding."

The man who rules his spirit is greater than he who takes a city. I would that we had a closer bond of friendship between men! We look for Utopia in the dim distance and

(Continued on page four)

Y. M. C. A. Basket Ball Starts This Week

Captains of the teams will arrange for a time to play the games. An individual record of each player will be kept throughout the season. Each team will meet every other team. The team winning the most number of games will be the champions and will receive individual medals.

The games this week will be Caldwell vs. DeLozier; Eitner vs. Gillingham; Howard vs. Martin.

The league is under the direction of the basket ball committee composed of Clyde Lippard, Jean McMurray and Shorty Prince.

The team Captains are as follows:
No. 1, Harry Caldwell, Capt.
Nd. 2, Murette DeLozier, Capt.
No. 3, Dewey Eitner, Capt.
No. 4, George Gillingham, Capt
No. 5, Kenneth Howard, Capt.
No. 6, Edgar Martin, Capt.
No. 7, Carl Schmidt, Capt.

The Seniors Stage Another Big Party; A Backward Affair

Coach and Mrs. Bond Makes Delightful Chapercones at Senior Party

HALF THE CLASS ATTENDS

Rainés Drawkcab Ytrap si Tareg Taert ot Ila Taht Dnetta.

In view of the various degrees of success with which they had just emerged from the tedious routine of exams, the Seniors decided to express their satisfaction of the completion of these necessary evils in the form of a party, and this party was to be a "backward" party; and so Thaw Hall was the scene of this unique social event of the Senior class. Upon arrival they duly expressed their hearty appreciation of the royal etnertainment they had just received, afer which "Good Night Ladies" was effectively rendered. Then the refreshments promptly appeared and just as promptly disappeared. A delicious salad ocourse followed the desert—and a vote of thanks was silently rendered them ebers of the "eats" committee.

Then we had the rare opportunity of seeing ourselves as others see us, and no doubt more than one was surprised at the startling facts which were disclosed concerning SOME of the members of the class, not excluding our worthy president. Not a minute of the time passed slowly--thanks to the "peppy" entertainment in fact, we could scarcely believe our ears when Prof. Bond announced that it was time to depart and this announcement was accompanied with the instruction that we were to be accompanied home by the partner which we had acquired by the uncertain and rather precarious process of a string extending from each side of a closed door. But the Seniors are an altruistic bunch anyway and these instructions were implicitly obeyed in letter if not in spirit, in some cases at least.

Dr. Elmore's Powerful Sermons Point the Way To Active Christian Life

BASKETBALL FOUL SHOOTING CONTEST

Something new in the way of competitive athletics will be attempted by the Y. M. C. A. Ever try to shoot the basketball through the hoop from the foul line? How many can you make out of twenty-five shots? This contest is to determine the best foul shooter. Members of the varsity and prep basketball teams will not be allowed to participate. The contest is open to both girs and boys.

Each contestant gets twenty-five shots, the first three couning as practice shots. The fifty highest scores will get another chance to shoot. After this second round the highest scores will receive prizes.

The contest will take place on Monday February 18th. The event is being run by Earl N. Riskey and assistants.

Milestones in The Life of Mr. Wilson

Washington, Feb. 3.—Woodrow Wilson's life was marked by these milestones:

Born at Staunton, Va., December 28, 1856.
Graduated at Princeton univerity, 1879.
Selected as president of Princeton, August 1, 1902, after seventeen years as college professor.
Elected governor of New Jersey, November 19, 1910
Nominated for President in democratic convention, Baltimore, July 2, 1912.
Elected President November 4. 1912.
Inaugurated March 4, 1913.
Re-elected President November 7, 1916.
Asked congress to declare war on Germany April 2, 1917.
Sailed for France, December 4, 1918, as head of American peace commission.
Signed treaty of Versailles, June 28, 1919
Carried fight with senate over League of Nations to country, September 3, 1919.
Suffered nervous breakdown near Wichita, Kans, Sept. 26, 1919.
Stricken with paralysis at White House, October 5, 1919.
Retired from presidency March 4, 1921.
Died at Washington, February 3 1924.

The Biggest and Best Circus is Planned

The Y. M. C. A. is planning for the biggest and best Circus ever staged on the Hill. The organization has been completed and work will start at once on the various stunts. The executive committee is composed of Tom Greenlee, Shimmy Brown, L. E. Bond, Shorty Prince, Walter Buchanan, Joe Gamble and Earl N. Riskey.

Floyd Corry is Treasurer, Paul Cargon Advertising Manager, Harry Bannister, Music; Edgar Buchanan, Forman of Construction; Shimmy Brown will be Ring Master and Margaret McKinney in charge of the girl performers. The date has been set for Monday, March 10th.

Many Students Hear Masterful Discourses Given Twice Daily

Many interviews are being held each day

RESULTS BEGINNING TO SHOW

The real personal Savior is always presented

Once more this old College Hill has been blessed by the February meetings. Many are the meetings that have been held here and many are those whom these evangelistic services have blessed and enriched.

In 1922 Dr. Broady of Birmingham conducted the February meetings, while last year Dr. Marston of Cincinnati, lead us; and now for this ninth time, Dr. Edgar Elmore, whose services in Chattanooga have been long and useful, comes to carry on the work in which he has always had a deep interest.

Though he is advanced beyond the allotted span of life, Dr. Elmore still retains the vigor of a younger man than himself. It is with this vigor and strength that he has preached to us the Gospel of the saving and sustaining Christ.

In all of Dr. Elmore's sermons there is a permeating and increasing thesaurus of Biblical wealth To one who has followed his carefully planned and logically developed outlines there is parallel application of every truth. Every story has its personal correlation to the present situation. Each step of his sermon leads us up higher and higher and each succeeding preaching adds momentum to our spiritual growth.

Yet it is not in his own might or persuasiveness that he preaches. It is in the power of the unseen Christ. Perhaps it might serve some purpose to give a few of the many things that Dr. Elmore has uttered. "We can't help a man to Christ with an

(Continued on page three)

Third Discussion On Current Questions

HAMILTON ADDRESSED Y. M. C. A. ON "THE YOUTH AND THE RENAISSANCS MOVEMENT"

The last three Sundays we have been hearing world questions discussed by able speakers. Hamilton dicussed "The Youth and the Renaissance Movement." He summarized the work of the three speakers that have spoken of the World Industrial Problems, the Race Problems, and The Problem of the prevention of Wars. The whole list of problems seem in the end to be thrust back on the youth of the world. The youth of the United States are seemingly slower at realizing the real greatness of this task and are not preparing for the facing of this task as are the youths of nations. We look down upon as not being of equal standard with ourselves. It is time we are waking up. It is time we are considering the souls of our less fortunate brothers as they are going to give us cause to see our own inferiority.

Next Sunday we hope to have the "Race Question" discussed by a man that is a member of the scoffed colored race. Come out and get his view point.

Character comes as a consequence of a life devoted to the nearest duty. —Woodrow Wilson.

WOODROW WILSON—SCHOLAR AND TEACHER

In a peculiarly sympathetic little sketch of George Meredith, Sir James M. Barrie pictures the scene of his funeral day. To all outward view the ceremonies of burial are going forward as in all such instances, but, unseen by mortal eye, the freed spirit of the man is out in the free air, striding abroad across the fields until, at the top of a hill, deserted so far as human eye could see, there met him a company of his peers, for, says the writer's fancy: "When a great man dies, the immortals await him at the top of the nearest hill."

If we may accept for a moment this not altogether pagan fancy in the case of one of Earth's great men, only recently dead, is it not food for happy imagining to picture the company of the immortals—statesmen, prophets, writers, scholars,—who must have awaited with eager expectancy Woodrow Wilson's coming.

The world is acclaiming him these days as one of the immortals. His statesmanship, his world vision, his idealism have, they say, made him one of the chiefest of the sons of light, one of the most blessed of those who made for peace. And such, no doubt, history will prove him to be.

But may we not, as college people, claim him also for our own in a peculiar way?

Thirty-seven of his best years he spent in college halls. For twelve years he was a student, toiling the way of all students toward academic goals and scholastic honors. For twenty-five years he was a teacher, and for most of that quarter of a century he was recognized as one of the foremost teachers of his day. For the last eight years of his teaching career he was at the head of one of the world's principal universities working with all his splendid powers for the democratization of the American college system.

Note his student career: A freshman at Davidson College, 1874-5; an A. B. degree at Princeton, 1879; a law degree at Virginia, 1881; an M. A. degree at Princeton, 1882; a Ph. D., degree at Johns Hopkins, 1886. Note also his teaching connections: Associate Professor of History and Political Economy, Bryn Mawr College 1885-8; Professor of the same at Wesleyan University 1888-90; Professor of Jurisprudence and Political Economy, Princeton University, 1890-95; Professor of Jurisprudence, Princeton, 1895-97; Professor of Jurisprudence and Politics, Princeton, 1897-1910; and President of Princeton, 1902-10. Note again his academic honors: Honorary degrees of Doctor of Laws Wake Forest 1887; Tulane, 1898; Johns Hopkins 1902; Rutgers, 1902; University of Pennsylvania, 1903; Brown, 1903; Harvard, 1907; Williams, 1908; Dartmouth, 1909; and Doctor of Letters, Yale, 1901. All of these honors came, it will be noted, before his public career began. In the days of his visits to Europe, he received degrees and academic distinctions from the world's oldest and proudest universities, but we are writing now of the honors that came purely as recognition of his high scholarship. Note finally his books which have served as invaluable aids in the advancement of the study of the science of government throughout the nation: **Congressional Government** 1885; **The State**, 1889; **A History of the American People**, 1902; **Constitutional Government in the United States**, 1908.

Until fourteen years ago, Woodrow Wilson was a college man and that alone. He was a world-renowned student of the theory of politics and government, but, for himself, he had essayed no practical role in statecraft; and then, all at once, the force of circumstances bore him to high office, and crisis came, and world opportunity beckoned him, and in this situation how nobly and wisely and statesmanly he bore himself is history. But he was preeminently the student and schoolmaster; his life was the academic life; his statemanship was incidental and accidental.

The best of his life he gave to his college. In 1909, in an address before a college company, Mr. Wilson spoke these words as a part of his idea of the college and its social justification, words which are well worth our taking to heart:

"We speak of this as an age in which mind is monarch, but I take it for granted that if that is true, mind is one of these modern monarchs who reign but do not govern. As a matter of fact, the world is governed in every generation by a great House of Commons made up of the passions; and we can only be careful to see to it that the handsome passions are in majority.

"A college body represents a passion, a very handsome passion, to which we should seek to give greater and greater force as the generations go by—a passon not so much individual as social, a passion for the things which live for the things which enlighten, for the things which bind men together in unselfish companies."

If Woodrow Wilson's life proves any one thing above another, it surely proves the worth of the trained intellect. Recall again the years of careful, routine training in college and university as a student; recall again the discipline and thorough application of twenty-five years in the professor's chair, and then, in the face of the oft-repeated charge that academic life is not preparation for real life, keep in mind forever this magnificent example of the trained mind and its fitness in the world's most colossal crisis.

* * * *

Out on that hill where the immortals gathered last Sunday morning, among those who awaited his coming, what a company of learned ones—scholars and teachers—there must have been! For be for whom they waited was Woodrow Wilson, the scholar and teacher—the statesmen, also, truly—but first of all, the scholar and teacher from whose precepts all mankind has taken hope.

Business Manager

(Continued from page one)

out a publication. The publication committee (of which the writer was a member) met and talked it over. It took so much money to pay for the book with certain desirable features. It cost so much with certain features omitted. We had so much money to spend and no more. Where were we to get the rest? Everybody was quick with one answer. Pay part of the expenses with advertising.

Are we as quick to appreciate the advertisers and to patronize them as we are to expect and ask them to take advertising space in our publications? Think it over.

Thank you,
Business Manager.

TRUE JOY

'Tis a thrilling joy to pass thru a field
And to gaze at the blue above,
To feel the charm of the verdant trees,
That point to the God of love;

Yet many there are who pass thru a field
And gaze at the blue above
Who do not feel the charm of the trees
Nor know that God is love.

'Tis a thrilling joy to sail the sea,
Or to ride in a quiet bay,
And to watch the sun dissolve in the mist
That appears at the close of day;

Yet many there are who sail the sea,
And return to quiet bay
Who have not found the joy of life
But only the close of day.

February Meetings

(Continued from page one)

uncleansed heart." "Your life is too fine a thing to build it on Satanic principles." "My feelings may change, but Christ is the same." "You can be converted in one minute". From these it is evident that Dr. Elmore believes in the evangelistic Gospel of Christ redeeming love. A few more quotations may suffice. "If Pilate had done according to his conscience he would not have crucified Christ. Is not that true of you?" "The vital question is not how much you know but—'Who shall lead me?'" "We can not hold out ourselves, but when we take Christ we become as strong as He." "What the Ark was to Noah, that Jesus Christ is to us." "What I plead for is that you take a definite attitude toward Jesus Christ to use Him for your salvation."

There is aontner man whose inspiring songs now as well as in the two previous February meetings have lifted us, as it were, to the third heaven. That man is Mr. Stringham. There is no need for him to coerce the students of Maryville College in singing. We naturally sing for him, for we all love him as we do our professors also.

Unofficially the news was told to me that Mr. Stringham has probably the largest collection of hymns of any man in these United Staets. If it is not so, it is surely true that he has a large enough collection to choose an appropriate song for each and every sermon. The influence of his singing on the audience is very noticable.

With these leaders we must not forget aonther leader. Dr. Wilson is as much a leader as anyone. His presence on the platform and his prvers count for much.

Besides these almost all the students are behind this great movement. Interviews are being held and results of the meeting are beginning to be seen.

CLASS OF '22

(Continued from last issue)

Craig is principal of his own community school at Alnwick. He likes the work very well, but by no means does he intend to make teaching a life-time job.

—M. C.—

Ivora:

Ivora enjoys her work teaching, which is in the fifth grade in her own home town, Etowah. She has been at the post of duty since Sept. and day by day in every way she likes it more and more, and wishes for the other members of '22 the greatest success.

—M. C.—

Helen Ott is teaching in Oneonta, Ala. She says the second year is not half as bad as the first. "Radios" are the chief source of amusements.

—M. C.—

Cook No. 5.

Teaching H. E. in the Pikeville school, same as last year. The best thing that I am doing, however, is taking care of a man, the duty of which began last July 31st. Since he teaches Ag. in the same school we decided that the department should have closer co-operation.

It's wonderful to be married, and if any of the maids of '22 want advice, write me.

Margaret McPardue,
Pikeville, Tenn.

—M. C.—

"Hilo" Tom.

Tom has lead a gay life in Hawaii, feasting on tropical fruits, visiting active craters, and exploring wild seas as Robinson Crusoe of old, for the past two years. Oh, yes, that's not all. He's particularly fond of doing the hula hula, and has a strange attraction for the dreamy Hawaiian Maidens. He hasn't decided which space to explore next, whether it will be China, Russia, Siberia, or Alaska.

He will relate the experiences in the first chapel address.

—M. C.—

The Shining Brook:

I am again enrolled as a teacher in the Jennings High school in Oklahoma. In addition to performing the duties of principal I teach English and Latin. This is a great place to labor for the good of the group.

How I should like to see all the class of '22. Those were great days back at old Maryville. I am sorry that all the class cnnnot return to the Hill, but to those who can, "let's meet again in June."

Luster Brooks.

—M. C.—

Brownie Says Howdy!

My plans are rather uncertain yet. I am supposed to get my M. A., from Vanderbilt in June, since I didn't stay to get it last June, and then in August I get another from Southern College. The work is intensely interesting. You can imagine so with Dr. Weatherford as one of the teachers. Theism has been a god foundation. Next fall I hope to go to work in the Student Dept.

If any of you get married, surely let us knw.

Forrest.

—M. C.—

Howdy, '22s.

Seems mighty good to have a way to find out where everybody's at. I feel so far away from "Sunny Tenenssee" up here in the snow and ice of Northern Michigan, but I like it better every day. Prety soon we'll get ous the ice skates and skiis, toboggans and sleighs.

I am teaching Biology this year. Am the head of the Dept. (It's a one teacher dept.!) Will tell you all about a visit to the mines and my skating and tobogganing in the first chapel speech.

Best wishes for the success of everybody—and a righty, hearty, hefty hand-shake with ye all.

Bernice Jones,
Ishpmening, Mich.

—M. C.—

Elizabeth Ellis is teaching in St. Petersburg, Fla.

—M. C.—

Bay Davis is instructor of Science in Maryville High.

—M. C.—

Bernice West is taking a subject or so at the college and teaching some on the side.

—M. C.—

Effie Erickson is in West Virginia.

—M. C.—

Ruth McCall is in Copper Hill, Tenn.

—M. C.—

Eddie McLane coaching in Pickard, Ala.

—M. C.—

Hooks sent greetings to all, when he was in Maryville Armistice Day. Hooks takes care of the money in the Bank of Cohutta, Ga.

—M. C.—

Bernie Acton, victim of cupid's arrow, whereabouts unknown.

—M. C.—

The latest news of Papa Percy is that he is going to school in daytime and rocks the cradle at night.

—M. C.—

Charles Sharp—second year at Princeton.

—M. C.—

Janet Ensign is barely keeping within the eight-hour day law. She is teaching seven classes daily under the shadow of our Alma Mater, at Everett High School.

—M. C.—

Julie Anderson is teaching H. E. in Scottsborough, Ala.

(To be Continued next week)

NOTICE SKY PILOT

If it is your intention of preaching the Gospel, and you believe in your calling, come out to the next ministerial meeting which will be held Friday Night, Feb. 15, 1924, immediately after supper. You will be interested in knowing that the form of the meetings has been changed, and it will be to your advantage to come out and lend your cooperation in putting our association in the place where it rightly belongs on College Hill. It is all right to say that you are "from Missouri", Sky Pilot, but listen, scrape up enough will power to grace the meeting with your presence and also be ready to respond to roll call.

The election of officers for the second semester took pace recently and the following men have promised to fulfill to the best of their abilities the duty of making the Sky Pilot Organization one of the best on College Hill.

ROGER BACON
1214-1294

English philosopher and man of science. Studied at Oxford and the University of Paris. Wrote the *Opus Majus*, *Opus Minus*, *Opus Tertium*, and many other treatises.

For this he was sent to prison

Roger Bacon may not have invented gunpowder, as has been claimed by some biographers of the famous Franciscan friar, but he exploded some of the outstanding errors of thirteenth century thought. Because of his advanced teachings, Bacon spent many years of his life in prison.

In an age of abstract speculation he boldly asserted the mathematical basis of all the sciences. But even mathematical calculation, he showed, must be verified by experiment, which discovers truths that speculation could never reach.

In the Research Laboratories of the General Electric Company, Bacon's principles are followed in every experimental investigation. The gas-filled electric lamp and the electron tube were worked out on paper, but it was experimental verification of the underlying mathematical theory that made electric illumination, radio broadcasting and X-rays what they are today.

More than a million dollars a year is devoted to research by the General Electric Company in order that the giant—electricity—may be made more and more useful to mankind.

there it is but an empty dream. A child must crawl before it can walk. Where there is no labor, nothing is gained.

Man has been called MICRO-COSMOS, and if we lose half the joy in life it is because of internal friction. The heart that says, 'I am in the wrong", can never lost. If you speak but one friendly word a day both you and the world will have won a gain.

Pleasant words are as honey-comb, Sweet to the soul, and health to the mind.

Basket Ball

(Continued from page one)

Captain Musick at guard played his consistently aggressve game.

The line up is as follows:

Maryville		Milligan
McCall (2)	f	Sawyers
Riskey (4)	f	Millsaps (1)
McMurray (13)	c	McCormick (14)
Musick (12)	g	Payne (3)
Veech (1)	g	Zeigler (1)

Substitutions: Maryville, Sneed (1) Shores (2); Milligan, Galloway (6) Alexander (5).

Referee: Schmidt, Maryville.

Y. M. C. A. Game List'ess

The game at Knoxville was the most listless tilt in which the home team has participated since its return from the Christmas trip. At the end of the first half the score was tie at 11-11, and during the second period the score see-sawed back and forth. A rally at the end of the game gave Maryville the game 22-20.

KENTUCKY TOUR

The Orange and Garnet quintette returned from its Kentucky tour on Friday morning with a worthy record of two out of four games to its credit. After a 29-24 set-back by Union on Monday evening, February 28, the team, on Tuesday, outplayed the strong Georgetown combination, 39-24. On Wednesday evening Transylvania repaid an old score by a 24-18 victory, but on the last night of the trip the M. C. five ran rings around East Kentucky State Normal 36-12.

In the game with the Barbourville quintette the score see-sawed back and forth the greater part of the game, with Union leading at the end of the half at 20-15 and at the end of the game, 29-24.

The Georgetown game was marked by the brilliant playing of Riskey and Shores, their speed and accuracy keeping the Maryville combination out in the lead. Georgetown fought hard in the second frame, but could not overcome the immense 20-5 lead which the Orange and Garnet got away to in the first half, and the game ended 39-24.

Transylvania Won

After apparently disheartening Transylvania with a 14-8 margin in the first part of the fray, this team came back and decisively outplayed Maryville, the final tally being 24-18. Powell of Transylvania was chalked up for eighteen points during the tilt.

During the East Kentucky State Normal game the Highland quintette showed genuine brilliance. The Kenucky players were at a total loss in trying to break up the Honaker offense, the first half ending 20-8. The aggressive example of Captain Musick's playing inspired the team to its best playing of the season, the five actually playing the game of which it is capable. The final score of this last game was 36-12.

Those who made the trip were Captain Musick, McCurray, Riskey, Veech, Shores, Sneed, Gamble and McCall.

PERSONALS

A letter from Tom Anderson, Isle of Pines, bearing the sad news of the long illness, and resulting death of his aged father, grieves our hearts. We hereby express our deep sympathy to you, Tom, and your bereaved family. We sincerely hope that your plans to return to school next year will not be altered.

—M. C.—

The Senior Class, the Y. M. C. A., and the entire student body deeply regret the loss of the popular Sam H. Franklin, Jr. We miss his stately and dignified presence in Ethics class, at Chapel, and at our parties. The Y. meetings are not the same without him. We long for that "youth stride movement" of his across the campus—and will venture to say that he'll also be missed by the Y. W.

—M. C.—

A good old long sweet letter from Barbee Simpson came the other day. He says he saw the game between Maryville and Evansville and just had to work off the homesickness it created by writing to us all. He commends very highly the showing made by our team, but is exceedingly sorry that the floor was so slick because he cannot see how else we could have fallen.

Suede Shoes Cleaned and Dyed.—G. C. Long.

Highlanders Annex Easy Game From Knoxville Y. M. Cagesters

Preps Defeated in Game by Porter High

Orange and Garnet Ride Rough Shod Over Knoxville Y. M. C. A.

U. T. HERE TUESDAY NIGHT

Highlander's Lead After First Few Minutes Was Never Threatened

With Maryville running at top form, the Orange and Garnet quintette rode rough-shod over the Knoxville Y. M. C. A. team to a 38-14 victory in the Alumni Gymnasium on Friday evening.

A shower of field goals by the local team left the visitors behind in the early part of the game, and throughout the fray the home five kept pulling farther away.

The first half was marked by listless playing on both sides due to the one-sidedness of the contest. McMurray and Shores were high scorers during this division, each netting four field goals. The half ended 22-6 in favor of Maryville.

Musick and Veech kept the Knoxville forwards at bay during the second frame while several Maryville combinations piled up the score. At the end of the game the score stood 38-14.

Shanton, the "Y." forward, collected eight of his team's point while McMurray garnered 15 for Maryville.

Maryville		Knox. Y. M. C. A.
E. Riskey (4)	f.	Shanton (8)
Sneed (3)	f	Goodwin (1)
Shores (8)	f	Pope (1)
McCall (2)	f	
McMurray (15)	c	Rule (1)
Thrower (4)	c	
Music	g	Mabry (3)
Thompson	g	Woods (3)
Veech (2)	g	
Gamble	f	

Referee: Schmidt (Maryville.)

In a preliminary encounter Porter High school outplayed the Maryville Preps by a score of 30-19.

Richmond Students Join League Friends

MANY RICHMOND COLLEGE MEN ADOPT PROPOSAL OF DR. S. C. MITCHELL

Large numbers of students of the University joined the Friends of the League of Nations yesterday by contributing to the $400,000 fund being raised for the promotion of interests of the league as was recently proposed by Dr. S. C. Mitchell, head of the department of history at the local institution. A three-day campaign is being launched by a group of senors a the University for the purpose of giving every student an opportunity to join the sympathizers of the league.

Yesterday was the second day of the campaign and it was announced thet results were very gratifying to the committee of students in charge. The movement is being promoted under the direction of William J. Crowder, a senior. Because of many of the students working their way thru college and being financially unable to contribute $1 as was recently proposed by Dr. Mitchell, it was deemed sufficient if each student gave 25 or 50 cents to the movement.

Dean W. L. Prince will explain the object of the campaign to the entire student body at chapel period. In this way it is believed that nearly every member of the student body will be interested in the campaign and assist in making it a success. All members of the faculty heartily endorse the campaign and believe it is not improbable that the movement will be adopted by other colleges and universities throughout the country.

Tho the above was taken from the Richmond Collegian and the idea was set forth by Dr. S. C. Mitchell of Richmond University it is by no means a local question and people, in and out of school, throughout the

Spanish Department To Give Two Plays

THE SPANISH DEPARTMENT WILL GIVE TWO PLAYS ON FEBRUARY 25th AT 8:00 O'CLOCK IN CHAPEL

"Las Solteronas," Two Old Maids will be given in Spanish. "One of Them Should Get Married," will be given in English. The double cast has been working hard for several weeks and will soon reach the acme of perfection. The characters in the next issue. Watch for The Highland Echo next week.

The following is a synopsis of the Spanish play:

Felipe is an accentric business man of Madrid. Clara his second wife is also somewhat a unique woman. These odd conjugals have been married before and each has a daughter of his own. Casta daughter of the former is always intoxicated with music, while Pura daughter of the latter is externally absorved with religious literature until she is proverbially called the "little nun."

The two unrelated sisters have always found men perfectly hideous, in every respect, and have remained old maids by choice rather than by

(Continued on page two)

Prof. Long Speaks at Y. M., Y. W. Meeting

JOINT MEETING OF Y. M. AND Y. W.

There is no question of human relationships but has two sides, and as Christian College students it is our duty to look at any such question from both sides, and in the light of the teachings of Jesus. The Christian Associations were fortunate in securing for the Sunday meeting the services of Prof. Howard H. Long of Knoxville College. Prof. Long brought us an able discussion of the Negro Problem in the South, as viewed from the colored man's standpoint. He brought home to us in a definite way that the right is not all on the side of the white race, nor the wrong all on the side of the black race. His suggestion that the negro's presence in America is not the result of accident, but is part of God's plan to work out the destiny of our country may have been a bit new to some of us, but it is at least worthy of our serious consideration.

When asked what we as Christian

(Continued on page three)

Beloved Minister Makes Strong Appeals in Final Sermons Here

Entire Student Body Votes for Mr. Stringham's Return Next Year

Several weeks ago we were anticipating what the outcome of the February Meetings would be. Now we know; and we must confess the results, those clearly evident and those known only to God, exceeding our expectation just so much as God's power exceeds our faith.

Will ther ever come a time when we shall forget these days? Will there ever come a day in which the unforgetable impress of Dr. Elmore's matchless sermons shall have been wiped from our memory? Such texts as: "Could ye not watch with me one?"; "Come up with me into my lot and I will go down with thee into thy lot"; "The Master is come and calleth for thee"; "Come into the Ark"; "And when I see the blood I will pass over you"; "And we came to Kadesh-Barnea."

So long as we are here and surely while we are in our real life's service the consequences of the decisions that were made in these February Meetings will be potent factors in shaping and moulding our lives now and hereafter. Eternal destinies were made in those days.

It is with a sense of regret that we let dear Dr. Elmore depart unaccompanied from us. Once more, if 'tis God's pleasure, we would have him lead us.

We can still hear the last song of Mr. Stringham's ringing in our ears, —"Grace, grace, grace that is greater than all our sins." A unanimous request for Mr. Stringham's leadership next year was voiced by all.

We know that we have been abundantly blessed in these meetings, especially when we read the statistics as summed up by Dr. Wilson as follows:

DR. ELMORE AND THE MARYVILLE MEETINGS.

Dr. E. A. Elmore of Chattanoga has had a unique experience in his connection with the February Meetings of Maryville College. In 1888 he first conducted that annual series of meetings; and since then he has conducted eight other series, usually at intervals of four years. The ninth series he has just now finished, in this fiftieth annversary of his graduation from the College. And it was a revival of great power and tenderness. Forty-four students, nearly all of the students who had enrolled as not professing Christians, gave themselves to Christ, while nearly four hundred Christians reconsecrated themselves to a better Christian life. During the eleven days of the meetings, Dr. Elmore preached twenty-three sermons of marvelous tenderness and moving power. Perhaps never in the forty-seven series of the February Meetings have greater victories been won than at the last two meetings of this year's series. During the nine "February Meetings" held by Dr. Elmore, over five hundred students have given themselves to the Christian life, and they are now at work all around the world.

SERMON PREACHED BY DR. E. A. ELMORE AT THE EVENING SERVICE, FEBRUARY 7, 1924

Text: Deut. 1:19—"And we came to Kadesh-Barnea."

That is a short text, and we wonder why Moses put so much emphasis on that text—those two or three words, "And we came to Kadesh-Barnea." Well, he did it because Kadesh-Barnea is the last station betwen the land of Egypt and the land of Canaan, where they were marching. The Children of Israel spent a long time in Egypt; then wandered in the wilderness; then they came up to Sinai; and at Sinai they spent a year, and received the Law and the tabernacle. It took everything that was necessary to fit them to go on to the land of Canaan; and after they had received everything that was necessary they were to march toward Canaan, and so they came to Kadesh-Barnea, the last station on the road to the wonderful land of Canaan.

And Moses never forgot that event, that day, as he stood there

Four Literary Societies Resume Work with Varied Programs

Good Work Being Done in Spite of Many Interruptions

BAINONIAN

Bainonian Society Gives a Chilhowee Program

Maryville people love the mountains which we hear more about the longer we stay here. All who attended the Bainonian Saturday night heard some very interesting things about the mountains. Henrietta Jackson gave some very clever introductory remarks. Mary Bigelow told us about the habits of the mountain people. Then a crowd of people who were certainly typical mountaineers sang, "Sourwood Mountain," a ballad. Hazel Bevan read, "The Angel From Viper." For the last number the mountaineer's danced "Skip-to-My-Lou."

ATHENIAN

Society has Group Picture Taken for 1924 Chilhowean.

A short program had been arranged for the Athenian meeting last Saturday evening, as a group picture was to be taken for the Chilhowean in the course of the evening. Under the able direction of President King, the meeting proceeded in an orderly way.

Ed Cathey laid before the members for their consideration, four plans for the achievement of world peace as discussed at the recent student convention at Indianapolis. His delivery was thoughtful and concise, and was well received by his appreciative audience. Cecil Crow then addressed the society, urging every man to stand firmly behind his society and the college, and making an apt illustration by telling of Lincoln's attttude towards General Hooker as expressed in a letter of Lincoln's. After a brief business session, Mr. Robinette presented the critic's report, in which he commended our speakers and made several wise resolutions for

Penna.'s Annual Track Meet to be Classic Affair

Pennsylvania's Relay Carnival Will Be the Outstanding Track and Field Event of the Year.

Pennsylvania's Thirtieth Annual Relay Race Carnival will this year be finer than ever. Cambridge University, England, has sent word that they will be represented. They have in college Mountain, ex-champion half miler of England; and Lowe, both of whom have run the half mile in 1 minute 55 seconds. It is also said that Griffiths who won the British half mile championship last July is at Cambridge. If he is there, Cambridge should have a wonderful two mile relay team. Cambridge will compete in one of the medley relay championships on Friday, April 25th, the first day of the meeting. This means that their great athlete, Abrahams, will accompany the team. Abrahams has done 9 4-5 seconds for 100 yards, 21 4-5 seconds for the 220 yards, 49 3-5 seconds for the quarter and 23 feet 8 3-5 inches for the broad

Echo Has a New Business Manager

A person suffering from a severe case of pneumonia generally reaches a critical stage where he is either pronounced hopeless or his recovery is assured by some skillful medical aid. About two weeks ago The Echo reached such a stage. Just as the crisis was reached we were fortunate enough to secure a very efficient and reliable Business Manager known as Mr. Burr Bassell. Accordingly the proper treatment has been administered and the continued publication of the paper was immediately assured.

We, on behalf of the students, thank you Mr. Business Manager, for your untiring and uncompensated efforts at the critical stage of The Echo.

BUSINESS DEPARTMENT

Burr Bassel - - - - Business Manager

THIS WEEK

We have at hand a publication purporting to express student opinion. We admit that it does express many things that are new and a **few** things that are true.--However, this paper is only one voice among many telling us about a youth movement, about student opinion concerning everything in general and institutions and methods of learning in particular.

This dissatisfaction with methods and especially with **results** is here and is being felt and expressed in institutions of the North. South. East and West. This we are bound to recognize. We further recognize that the fire of criticism is being directed by graduates and undergraduates. When a person remarked to Woodrow Wilson that the Colleges and Universities were being fired upon he replied, "since it comes from graduates and undergraduates I would prefer to say that the Colleges and Universities are **on** fire.

What is the cause of this dissatisfaction on the part of those who have or are attempting to get College training? As we see it the causes are three: first, and last the trouble lies with subject required; second, and of slightly more importance, is the methods used: the third. and overrwhelming cause, is social activities. Why is it that practically all who come to College enjoy it: that many regard it as an excuse to postpone work four years; that many look upon it as a place to meet friends who will be helpful—tho they seldom are; that others look at College life as four years of perpetual picnicing? Two percent study, but all hope it will secure. for them, an easier job. The trouble is not that a few students take part in all activities but **there are too many activities**. Most activities are mock seriousness. hollow realities. and falsely important. Activities that appeal to the Gregarious instinct which should have been satisfied before the adolescent period. Many people spend more time on such activities than on their studies.

The tendency is and strongly so. to fill the College year full of entertainments of one kind or another games, lyceums. plays. exhibits. parties, concerts, and socials of a dozen varieties.

Herein lies the trouble. This is what sends men out from College. before and after graduating. with a smooth tongue for meaningless gab; with a brain void of facts or association connections; with an education that doesn't satisfy.

If student opinion on this subject is not another **stewdent** humbug; if there is really student opinion growing out of a desire for education that will satisfy: then let us go directly to the point and not come in at the back door by critising institutions. curriculums. methods, and teachers, but recognize that the fault is the faults of the students and therefore cannot be corrected by faculty or directors but is entirely up to the students themselves.

Are you willing to cut out half of all the occasions which distract from study regardless of where the ax falls?

Spanish Play

(Continued from page one)

misfortune. Their father constantly preaches to them the beauty and holiness of matrimony for two reasons. First to see his own daughter redeemed from maidhood, and second to get rid of Pura.

Thomas is sent to Madrid by his invalid father an almost forgotten friend of Felipe to transact some political business. He is told to call on Felipe for any help he may need. When he arrives at the house naturally enough, he meets with the old maids whom he addresses as Senoras. They resent this form of address and tell him politely that they are senoritas.

Now call it love at first sight or merely change of mind. but Thomas carves an indelible impress in the hearts of the maids and "like the measles love is worse when it comes late in life." His arrival kindles an insane jealousy in the damsels.

When Thomas meets Felipe he begins to throw artificial bouquets at his daughters. The latter adjudges him a little stupid and also begins to rave about their manifold attraction and fabulous suitors. He feels his chance has come to get rid of at least one of them and only express his sorrow to his wife that the law will not permit him to marry both.

To make sure that his victim may not escape Felipe invites him to lodge with them. He tells his wife to play the part of a good mother-in-law and to treat their visitors very royally.

Thomas is more than pleased to stay with them as he was looking for such occasion. He does not hesitate to make himself at home. When he is with Pura alone he becomes somewhat religious, while in the presence of Casta he turns into a musician. Unfortunately at his first breakfast he drinks one glass of wine too many which causes him to become more illogical in his affections and to make no discrimination in his love makng.

When the psychological moment arrives. Felipe accuses him that he has been making love to his daughters and gives him an ultimatum to choose one of them to get married. Thomas in his bewilderment pleads he cannot marry because he is a married man. At this point the maids suffer a complete collapse, etc., etc.

Track Meet

(Continued from page one)

jump. He won three events in the Cambridge-Oxford, Harvard - Yale meet last July and is one of the greatest track athletes in the world. Pennsylvania has also invited Eric Liddell of Edinboro University, Scotland the British 100 yards and 220 yards champion to compete at the Carnival. Liddell holds the British records for the above distance at 9 7-10 seconds and 21 3-5 seconds respectively. [illegible] his meeting with the best of our college sprinters will be of the keenest interest.

The University of Havana. Cuba; is ending up a team to the Carnival. Occidental College of the Pacific Slope, has also stated that they will have a team in the quarter. half and one mile relay championships. Canada will also be represented. Thus with Canada, Cuba. England and Colleges as far west as California represented. half of the globe will be interested in the results of Pennsylvania's great Carnival. It is probable also that Australia will send a college team. these men being on their way to the Olympic games in Paris next July.

The invitations to the Carnival have been out only a week and already more than sixty colleges have sent word they will be on hand. It looks as if last year's record. when 112 Colleges competed at the Carnival, will be broken. as many colleges are still to be heard from.

The Carnival will be of especial importance this year, because of the keen competition for the Olympic team that will represent this country in Paris this year.

Any schools or colleges desiring to attend the Carnival may do so as all are invited by writing to the Manager of the Carnival, George W. Orton, 3301 Walnut Street, Philadelphia, Pa

Final Sermon

(Continued from page one)

in that open space and watched the thousands of Israel move into their places and camp there. Under those conditions Moses never forget that event, for all the hopes and the aspirations of forty and fifty and sixty years seemed about ready to be fulfilled. He had prayed; he had suffered; he had led; he had endured; he had surrendered. Egypt with all of its honors, all of its glories, all that it could give to him, yet he had identified himself with these slaves. And then in those forty years there in the wilderness he had prayed and longed that God would raise up somebody that would lead his people out of the land of Egypt, and when God called him he surrendered himself.

He fought that terrific battle with Pharoah; he crossed the Red Sea, and went with Israel through the wilderness; he went up into the mountain and received the Word of God for them, and after that were fully equipped to go into the land. They had followed the cloud by day and the pillar of fire by night, and now they had come to the last station on the road to his wonderful Canaan to which he had looked and for which he had prayed, and all the aspirations and longings of his heart seemed to be about ready to be given to him.

I wonder if you know anything about that? I wonder if you have longed and prayed and suffered for a thing, and then the time comes; just one day more until the fulfillment of all these prayers and aspirations? Girls, don't you know how you longed and prayed to come to college? Don't you know you wondered how you could possibly get the means, and often times when it seemed that it could not? Then when the day came and your mother and father said, "My daughter, you can go to college." And how that night, that last day at home, how you packed your trunk; how you got all things together; how you went to see your friends; and that night you laid down with your head on your pillow and said, "Tomorrow, tomorrow, tomorrow, all these aspirations that I have had will be fulfilled." That is the way Moses felt.

Or, perhaps you have been away a long time. Those boys, you know, that went across the sea over there to fight the great battle for freedom in that foreign land, and when the order came, "Go home," how they packed their kits and everything and marched to the seashore. And how they were taken on board those great boats, thousands of them, and now they are crossing the Atlantic; and the word comes, "Tomorrow we are to enter port.'" How that night the men lay down, "On tomorrow we will be on America's side; tomorrow we will pass the Statue of Liberty in the harbor of New York; tomorrow we will get in touch with the homefolks again. That is the way Moses felt.

Here is a man who has come to the place where all the aspirations and longings of a lifetime are just within his grasp, and he can see just one march more from this point; he can see the mountains of Moab or the mountains of Canaan there. Perhaps Moses didn't sleep much that night. How he rejoiced over the fact that the end of his great quest was in sight. That is the reason that when he came to write this he said, "And we came to Kadesh-Barnea," the last station before we got to the land of Canaan.

Now there was another reason that he emphasizes this so. It marked how near they came within sight, within a possible march of the open door, how near they came to entering into the land of Canaan. That is why he emphasized it.

But alas, the thing that he empasized above everything else was tat they never went any further, though they were in sight, though the door was open, though the longbeing the open door to the fulfillment of the longing and aspirations of all the years, became the burial place of Moses' hopes. Then he buried the hopes of all those years, ing of all these years seemed to be within their grasp.

Then Kadesh-Barnea, instead of and realized that he could never enter into the land of Canaan. The burial place of his hopes, Kadesh-Barnea.

Why do I speak of Kadesh-Barnea? Well, because some of us are on a journey. We have started. We have come where the door is open—Christ is the door,—and we have but one step more to enter into our Canaan under the leadership of God tonight.

"Oh," you say, "What do you mean by coming to Kadesh-Barnea; then there is just one step more? I do not know whether I am at Kadesh-Barnea or not."

Listen to me. Let me tell you one of the Kadeshes that is betweenus and one of the entrances into the Christian life. One is Known Duty. When a man or a woman, under the light of God's spirit, knows what he ought to do then there is just one step more; there is not a man or a woman or a boy or a girl but that knows the great facts about Jesus Christ: that he came to die for you; came to save you; came to receive you; came to take you. If you will just take that knowledge and step right out with it you will come ino the land of Canaan. Some of us have come o our Canaan tnight. We knw what we ought to do before God and man.

Another Kadesh is the Sense of Sin. Sometimes this sin is a great, heart-broken experience that fills us with great fear and anxiety. Then in other hearts it is just. "I know I am not right in God's sight." Well, that is a Kadesh-Barnea. Whenever you and I get to where we honestly know that we are not right in God's sight, then it is time to go right to Jesus Christ with it; and from that point take the next step, and you will come into the land of Canaan.

Then, Hearing the Word is another Kadesh-Barnea. When we hear the Word there is only one other necessary thing and that is to do the Word. You have heard the Word. Tonight there is but one step more: that is to take the Word and do what God asks you to do tonight.

Again, another one of these Kadeshes is a Reformed Life. Perhaps when these meetings began you had fallen into some habits, and perhaps as we have gone along you have said, "I used to do this thing; I am going to give it up. I used to neglect my praying; I am going to begin to pray." There is one step more, and that is to go to Christ with yourself. Your reforming cannot save you. I care not how much of it you do; but if you will step right on, take the next step to Jesus Christ, you will find a door open into the land of Canaan.

But wait! It seems to me that there is another one of these Kadeshes, and that is Character—good character, clean character; an honest man, speak the truth, pay your debts, turn away from everything that is evil and cherish high ideals of character. That is fine; but remember that Christ says that "thou art not far from the kingdom." Let Christ come in, and get a Christ-life and get a blessed character that is possible for you tonight.

So here are the Kadeshes, and I believe before God that every one of these Kadeshes are here. I want to emphasize that when Israel came to Kadesh-Barnea, she never entered into the land of Canaan. It might be true, I don't know, that you will never come any further to be a saved man or a saved woman than you are where you are tonight; that Kadesh-Barnea shall be the burial place of your hopes and aspirations of becoming a Christian.

I want to tell you why this people who had been led by a great leader to the place where God threw open the door and bid them go in—why this people never entered in. What kept them out at that moment? There are just three things.

The first was unbelieving. God says, "Here is the door." But they wouldn't believe him. They stood there and trembled and said, "Now, God has brought us down here to kill us." And they would not believe him, would not take the step that would lead them into the land of Canaan.

The saddest thing that I have come up against in this meeting is that so many of you boys and girls have come up to the place where just one thing more was needed. Let me tell you this, your supreme danger tonight: it is your unbelieving, for unbelief is the sin of sins. That is the thing that will keep us out of heaven. God will forgive every sin that a man commits in this world but unbelief, and he cannot forgive that. The great loving Christ, who died for you and is able to give you victory over sin, gives you his word that he will keep you and help you; and still you say, "I can't trust you." Is that your attitude, your Kadesh-Barnea tonight?

I tell you, my brother, that the sin of unbelief is the sin of sins. "For Christ's sake ye shall die in sin because ye believe not that I am the Son of God." Let us come just as we are and say, "Lord, I do." "Oh, Christ I will trust you."

The second thing that held these people out was that they never cut themselves loose entirely from Egypt. Always there was a hungering after it. Let's go back. Give us a leader that will lead us back." They never burned their boats behind them and said, "Henceforth, by the help of God, we will set our faces forward agai " Such a possible victory and blessing to them, but there was something tied on. Has that been your trouble?

Have you not been willing to cut yourself absolutely loose from the past, saying, "God helping me, I give it all up. From this day I set my face from the past and I leave it all behind?" I wish you would.

And, then, there was a third thing that held them back, and that was the mixed multitude. When they started out of Egypt, they were a body of people moving out of Egypt, and this mixed multitude fell in with the crowd. They did not ever become Israelities; they did not love God; they did not worship God, but they were going along. They were sharing all the benefits. And when they got to one of these critical places then this mixed multitude began to use its influence to draw them back.

I wonder if there is anything like that? I wonder if God has led you to where you know your duty; that God has led you to know, "I am right with God tonight;" if God has lead you to where you have said, "I have a character that I can be proud of." I wonder if here tonight you realize that Jesus has said, "Thou art not far from the kingdom" I wonder if you will not come tonight?

So I bring you tonight this plea of Jesus Christ, and I wonder just as you are here tonight whether you are willing to take the next step? Let me give it to you. Listen. "Here, Lord Jesus, as best I know how, I do now give myself to you." That is all that is between you and salvation tonight, absolutely all. Will you take that step tonight?

Prof. Long

(Continued from page one)

College students could do to bring about a better understanding between the two races, Prof. Long said: "I cannot anwser your question, it is too big for me. But I know of no nobler ideal for the American school teacher to instill into the minds and hearts of his pupils than a burning passion for justice, an unflinching hatred, of whatever falls short of this ideal."

The negro spirituals rendered by the Knoxville College quartet were greatly enjoyed by all, and we hope they will keep their promise to come and sing for us again sometime.

Richmond Students

the consideration of the men than present.

The meeting was then turned over to Mr. Webb, who took a flashlight picture of the society in session. The meeting was then adjourned.

Arrangements have been made for a very good program this next meeting, one that shall be equal to the Athenian standard. We have been promised good meetings for the remainder of the school year, so Athenian, after the interruptions of mid-winters, examinations, and February meetings, will soon be in full swing again.

THETA EPSILON

The Theta Epsilon Literary Society Elects Officers for Spring Term.

Saturday evening the five thrills of a girl's life were shown us. As a bride Mozelle was—well, we'll just say wonderful. The irresistible Miss Barnette was the blushing groom, and Ruby Harrison pronounced the fatal words that made them one. Each of the different scenes were usually well planned and presented by all of the characters. The poor bride wished she had studied Home Economics we know.

The officers elected for the spring term are:

President, Alice Johnston.
Vice-president, Mary Whittle.
Secretary, Mozelle Welsh.
Treasurer, Sarah Sheffield.
Editor, Ruth Barnette.
Program secretary, Gertrude Gray and Ruth McMurray.
Music chairman, Bessie Ray McMillian.

ALPHA SIGMA

Mr. Hier Griffitts Stars on Alpha Sigma Meeting.

Alpha Sigma had a large number present at the program last Saturday evening, which began at six-thirty. Mr. Gauding gave us a treat by reading "The Highwayman." Mr. Griffitts gave us an interesting talk on Chemical Research. He says, "There is an unlimited field of work in Chemistry." Mr. Purdy gave an interesting issue of the Alpha Sigma Advance. The debate was not rendered owing to the impossibility of either of the debaters being present. A short business meeting followed. If you are an Alpha Sigma, come out and show your colors. If you wish to be one come up and put in your application.

PERSONALS

The Senior class is almost beside itself; in fact each member acts like a child with a new toy. There's a reason—the class rings have come.

—M. C.—

Miss Henrietta Jackson had as her guest on Sunday, Miss Mildred Doyle of Knoxville.

—M. C.—

During the week-end there have been many delightful affairs in honor of Miss Agnes Witherington, who was the charming guest of Miss Virginia Wtherington over the week-end. On Saturday night Miss Christine Rocket entertained most pleasantly. Sunday mornig Miss Babbie Blair was hostess to an unusually delectable breakfast, at which Miss Witherington was the honoree. On Sunday afternoon Miss Agnes Houghton was hostess for the charming visitor.

Mrs. Harry Bond, (Elizabeth Lingle, class '20), announces the arrival of a little daughter.

—M. C.—

Misses Elizabeth Montgomery and George Bell Kuhn spent the week-end at home.

—M. C.—

Because of poor health Miss Eureka Williams has gone home for a rest. We trust she will be able to return to school very shortly.

—M. C.—

Misses Vashti Thweet and Lois Hayes went to Alnwick Monday for their regular class in Home Economics, and surprised their pupils with a most enjoyable concert.

—M. C.—

Miss Rosalee Clark and her brother, Mr. G. B. Clark, enjoyed Monday in Knoxville.

HIGHLANDERS WIN IN CLOSE GAME WITH U. T. TEAM

Two Spanish Plays To be Presented on Next Monday Night

TWO PLAYS WILL BE GIVEN UNDER THE AUSPICES OF THE SPANISH DEPT.

DIRECTED BY SR. SANCHEZ

THIS INITIAL ATTEMPT PROMISES TO BE A SUCCESS

Las Solteronas: (Two Old Maids), will be given in Spanish.

One of Them Should Get Married, given in English.

The Spanish Theatrical Troop will make its first public apearance of the year, on February 25th, at 8:00 o'clock p. m., in College Chapel.

All the participants including the musicians and Spanish singers are at orchestra pitch and none but the best talent will be allowed to appear on that night.

Such characters as la Senora Maria Bigelow, who's will will be done; Don Harold Young Van Orden and his querida Senora Alma Regnemer de Van Orden need no further introduction. El Senor Hunter Robinette 13th Valentino, will be the heart smasher of the evening. La Sta. Virginia Clark, great granddaughter of Orpheus and all-stage star will try to out-wit her rival, la Sta. Dorotea Dickerson, "the little nun," who forgets her religion and falls in love at first sight. El Senor Don Julius Huffman will hold a winning card until the last play, while el Professor Harry Gaudin gets a permanent hold in the affections of la Senorita Myrtle Ardis, the little monkey shine and favorite Spanish heroine.

The music will be superb. The orchestra will favor the audience with special selections. Miss Wilma Schuping, a well known Knoxville artist, will sing in both, English and Spanish. Miss Gladys Jones, also of Knoxville, will be her accompanist.

Any one wishing to remain single or seriously contemplating matrimony, cannot afford to miss this drama of the human heart. The dramatic performance will not be repeated here, as no other date is available. Negotiations to repeat it at other colleges and universities, are under way and probaly will be fully materialized by week-end.

Everybody is invited to come, and hear the true Castilian snoken, to see real Spanish Senoritas with sparkling eyes, and to learn how to

(Continued on page two)

PREP BOYS WIN FROM PORTER HIGH SCHOOL

The Prep basketball team visited Porter High last Friday evening and played them to a 30 to 26 score.

The Prep boys displayed better team work in this game than any of the other games they have played.

Captain Martin, the speedy little guard, was the shining light of the contest and added to the score by making sixteen counters. Most of these points being made by long shots.

Much interest is being aroused by the coming Prep Tournament at U. T. and we believe that our boys will make a creditable showing, now that they have rid themselves of the losing streak that has been with them for the last four games.

Intermural Basket Ball League Standing

A short while ago a basket ball league was organized for the boys who were so unfortunate as not to make the varsity squad. It is composed of seven teams of seven players to the team. A tournament is being played and each team has a chance to play each of the other six teams. The tournament is now well under way, each team having played three games, and one team having played four. At present, Caldwell's team is leading the league, with three wins to its credit. DeLozier is running a close second with three wins out of the four games played. DeLozier is high point man of the league with seventeen field goals while Bell and Lippard have nine each. The winning team will be presented with individual medals at the close of the contest. A great deal of enthusiasm is being shown by those engaged in the contests and it is expected that the tournament will be a success since its aim is to get more Maryville men into some form of athletics.

The games this week are as follows:

Tuesday: Caldwell vs Eitner; Martin vs. Howard.

Friday: Schmidt vs. Caldwell; Gillingham vs. Howard.

The league standing to date is as follows:

Team	Won	Lost	Pct.
Caldwell	3	0	1000
DeLozier	3	1	750
Schmidt	2	1	667
Martin	1	2	333
Eitner	1	2	333
Howard	1	2	333
Gillingham	0	3	000

Y.M.C.A. Men Have Prohibition Service; Mr. Hamilton Speaks

Mr. Hamilton, of Knoxville, addressed the Y. M. C. A. Sunday afternoon with a rousing plea for the upholding of the Eighteenth amendment to our National Constitution. The question of prohibtion is no longer one of the bentfit it will be, but one of upholding and standing by the law-enforcing agents. There is no longer a question of whose duty it is to enforce this law, but will you and I do our part. In the universities a strong effort is being put forth for the abolishment of the liquor traffic. Every thinking man is trying to make our United States a fit place for himself and his fellowmen to live in.

Does this question in any way concern you and me as college men? Who is soon to take the place of each of the men now standing out against it?

Fellows, why are you not going out to the Y. meetings? They are intended for you and you are expected to help them all you can. Are the discussions not such as are of interest to you, or do you wish something more vital to your soul's welfare? Talk these questions over with members of Y. cabinet and let's make a greater Y. M. C. A.

Y. W. C. A. Girls Discuss Immigrant Question at Meeting

Sunday afternoon at the Y. W. C. A. meeting the subject discussed under the leadership of Sarah Kiskadden was "The Immigrant." Christine Zdulezna told us why the people left their country, gave us a very realistic description of the life of the peasant in central Europe, pictured the details of their journey over here, and gave us a better understanding of their real needs here in this country.

Mary Lilly Sossoman gave us an insight into the life of the Immigrant in industry. She said that the employers are fast realizing the need for the betterment of the condition of their employees and are supporting and even originating movements in the interest of the welfare of the immigrant. She made the opportunities of service in this field so vivid that it seemed a call to the girls present to give their lives in this field.

Reba Grunder told us some of the

Maryville Cagesters Were in Lead Through Most The Game

INDOOR TRACK MEET TUESDAY FEBRUARY 26th

Maryville's first indoor track meet will take place on February 26th when the various classes will compete. This will inaugurate what is hoped to be Maryville's best year in track athletics. The events in the indoor meet will give a line on the abilities of the candidates for the team.

This meet will be followed by the last basketball game of the season. Union College being the opopnent.

As to the outcome of the meet, it looks as though the Juniors have a little edge on things but both the Sophs and the Freshmen have some valuable men.

The events listed and their order are:

1—Running Broad Jump.
2—Shot Put.
3.—25 yard dash.
4—Pole Vault.
5—Hurdles.
6—Running High Jump.
7—Team Relay.

MISS ROBISON HONORS MISS GREEN

One of the most exquisite social events of the season occurred Saturday evening when Miss Alice Robison entertained in the music parlor at Thaw Hall in honor of Miss Harriet Green, who has now acquired the full sum of sixteen years.

The room was invitingly decorated in lilac and pink, and the pastel shades and brilliant touches offered by the evening gowns of the ladies made a most joyous scene.

The Johnson-Sossomon orchestra furnished the music and Mah Jongg was enjoyed throughout the evening. At a late hour the guests were ushered into the dining room where delightful refreshments were served.

The invited guests were: Miss Harriet Green, Prof. and Mrs. E.R. Hunter, the Misses Vera Keen, Dorothy Sweeton, Edith Keen, Virginia Hendrick, Elizabeth Farnum, Dorothy Winters, Mary Tippit, Susie Grimes, Dorothy Stivers, Mary Lily Sossomon, Esther Grimes, Mary Broady, Alice Johnson, Carmen Park, Mary Bigelow, Margaret Duke, Ruth Ackerman, Dorothy Dickenson and Ruth McMurray.

Maryville Scrubs Trounce U. T. Rats

The Maryville College scrubs defeated the U. T. Rats by a score of 29 to 28 in the preliminary to the Maryville U. T. game. The game was replete with thrills and excited almost as much interest as the big

(Continued on page four)

Clemson's Team is Beaten Friday Night

Twenty-five hundred fans forgot everything else in a frenzy of excitement and let out a mighty shout when the final gunshot made certain a Maryville College victory over the University of Tennessee cagers at Alumni Gym on Tuesday evening, February 12. The score was 20 to 18, but even that does not tell of the tightness of the battles. Nip and tuck throughout the contest, the greatest basketball game played in East Tennessee for many moons was fought to a finish. It was not until Jean McMurray, the Highlander's star center, had sent two points that spelled victory for the Orange and Garnet on their triumphant swish through the loop in a five minute overtime period that the Vols were finally downed.

All Maryville is celebrating the Highlander's first basketball victory over an Orange and White quintet in five years. By winning this game the Highlanders not only evened their series with U. T., which now stands with a victory for each team, but also kept unscathed their record of never having tasted defeat in their new Alumni Gym.

There was excitement enough to suit the most exacting fan. At no time during the fray did either team have a commanding lead, but the Highlanders usually had a one or two point margin to protect. Three times the Vols gained the lead; once at the beginning of the game they lead 1 to 0, at the end of the first half they held the advantage of an 8 to 7 count, and about the middle of the second half they had a 12 to 11 score in their favor. At all other times the Highlanders were either in the lead or in a tie. Three times the Blount county team had a three point margin on its opponents —5 to 2, 7 to 4, and 11 to 8.

The game was fast throughout. Both teams showed dazzling speed that speaks well for the condition of the players. But this speed also caused each team to miss a great many crips and short shots. In the first half Maryville missed numberless easy chances for markers, and Tennessee did the same thing during the second period.

The guarding of both teams was exceptionally good, but the Highland combination of Captain Musick and Lewis Veech outshone Tennessee's highly touted duo of Johnson and Keister as a headlight outshines a spotlight. Both of the Highland guards are small men, but the way they kept the ball away from the giant Vol captain, Hatcher, was worth going miles to see.

Veech was undoubtedly the individual star of the game. His work

All Our Literary Societies Hold Their Own in Spite of Games

Bainonian Society Elect New Officers

ATHENIAN

Varied Program Presented by The Athenian Literary Society

The program presented by the Athenian Literary Society last Saturday evening was of an unusually varied character. The numbers were well given. The hall was packed to capacity, and all were highly pleased by the program.

For an opening number Mr. Wallace Merwin favored the society with two pleasing vocal selections. This was followed by a timely and thoroughly interesting biographical sketch of Woodrow Wilson given by Mr. Verton Queener.

The closing number of the program was a one act play entitled, "April Fools," the cast of which was Messrs. Cornelius, Douglas and Merwin. If, laughter produced is the measure of the success of a comedy farce, this play proved to be a prodigious success. Waves of laughter formed at each new break of the April Fools, only to be followed by other breaks and other waves of laughter.

BAINONIAN

BUSINESS DEPARTMENT

Burr Bassel - - - - Business Manager

THIS WEEK

We take this occasion to reiterate that the source of three-fourths of all collegiate dissatisfaction lies in the current of student crazes for more social activities; more activities that give a bloated idea of self-importance; activities that must be carried on regardless of class subject, grades or anything else for which institutions of learning are founded. And really intelligent students profess to believe that such activities are an essential part of the institution and that wasting time in carrying them on is getting an essential part of one's education. Some time ago a well-known legislator said "We should not appropriate money for colleges and universities because they are no longer institutions of higher education. Instead they are social institutions: institutons where young people learn to talk fluently about nothing; (listen to any group, either boys or girls, on our campus) where they learn to dance gracefully and handle a tea cup likewise; where real knowledge is passed up and a good time is sought."

If this be true, and we believe it is, the fault is indeed a grevious one, and one which rests almost wholly with the students. No one else can remedy it. Our institution is not the leader by any means in thusly degrading education but we are following at too close a distance.

We are the sowers. Shall we be satisfied with our harvest, or shall we begin here and now to sow in preparation for a better one?

We take this oportunity to thank Mr. Wick Broomall for his faithful and efficient work in reporting the February meetings. Mr. Broomall is not a member of the staff but we asked him because even tho he is very busy he always has time to do worthwhile things and do them right. His work in this case was in keeping with that long fixed standard.

Some time ago a vacancy occurred on our staff and Miss Alice Robinson was asked to take the place. Her acceptance and co-operation from the start is indeed pleasing to the entire staff. Without such willing and efficient work on the part of reporters, editors and associate editors, The Echo would necessarly cease to exist.

NOTICE

Are you a member of that club whose party was not written up in The Echo? You yourself need not write it up but just mention the affair to one of the reporters and it will be attended too promptly.

Are you the person who is kicking because your week-end guest was not mentioned in the paper? Next time just mention the fact that you have a gues to one of the reporters and you won't need to kick.

PERSONALS

Miss Helen Sweeton had as her guests for the week-end Miss Jennie Montgomery and Miss Catherine Wilson of Knoxville.

—M. C.—

Friends of Miss Mary Bigelow will be pleased to hear that she has at last attained some obesity. She may be visited in the hospital where she is improving—a case of mumps.

—M. C.—

Friends of Miss Gertrude Allgood are glad to know she has recovered from her attack of measles.

—M. C.—

Miss Fidelia Newman had as her guest for the week-end her sister, Miss Elizabeth Newman of Johnson City.

—M. C.—

Miss Dorothy Winters leaves on Wednesday morning for New York City to attend the Council Meeting of the Student Volunteer Movement. We all wish her a pleasant and successful trip.

—M. C.—

The latest organization on the Hill is a secret society called the Mercedes Club. At present there are five members. The club has a definite goal, and each member is co-operating with all the others in an earnest effort to reach it. The one reaching the desired end first is to be entertained by the club members at the Mercedes Club House with officers of this unique society are:

Miss Hazel Bevan, president.

Miss Henrietta Jackson, campaign manager.

Miss Mary Robison, seargeant-at-arms.

Miss Lois Hayes, treasuer.

Miss Eugenia Hagood, general flunky.

—M. C.—

Rumor has it that the Moonshine Bureau is being flooded with applications for dates for the Junior-Senior Banquet which will take place in the spring. There are more applications being made by the boys than the girls, so take a tip from The Echo and get to work before the last rush.

—M. C.—

Misses Irma Sherfey and Louise Montgomery were both at home for the week-end.

—M. C.—

Phyllis Anderson says: "When I go to lovin', I put everything I have in it!"

—M. C.—

Maryville has been most unfortunate this year in being visited by epidemes of measles and mumps. The most recent victims are: Miss Beatrice Wilson, who is suffering with flu as well as both measles and mumps; Miss Gertrude Algood and Mr. Leonard Crawford.

—M. C.—

Miss Gertrude Gray is able to be out again after atack of appendicitis.

—M. C.—

Miss Elizabeth Huston enjoyed a visit to her home this week-end.

—M. C.—

Miss Sara Sheffield, who was hurt in a recent basket ball game, is able to be out. We trust she will be in her accustomed place on the Hill again.

—M. C.—

Have you noticed all the new jewelry? Miss Roberts made a nice neat little sum on Monday selling beads of all kinds to the girls on the Hill.

a picture, so Bainonian Hall was full Saturday night. The program was opened with a solo. "Melody of Love," by Agnes Houghton. We're all so glad to have Agnes back with us. Then a one-act play, "Mistress Penelope," was presented. The characters were:

John Weatherford—Hazel Bevan.
Major Maurice Cumberland—Martha Mae Boyer.
Sergeant Blitzen—Georgia Belle Kuhn.
Master William Banks, a school boy—Lina Hodges.
Pnenelope Gray, a Quakeress, Annarine Atkins.

The time was during the American Revolution.

After the program Mr. Webb made a picture of the society.

The following new officers have been elected:

President, Dorothy Stivers.
Vice-president, Dorothy Dickerson.
Secretary, Eugenia Hagood.
Critic, Helen Sweeton.
Program secretary, Mary Bigelow.
Editor, Ethel Sharp.

ALPHA SIGMA

Special Music by Miss McMurray and Andrew Stuart

Alpha Sigma met last Saturday at the regular hour. A good crowd was present and an interesting program was rendered. Mr. Stuart's solo, accompanied by Miss McMurray on the piano.

Debate: Resolved, That the Inter-allied Debt Should be Cancelled" was upheld by J. Gordon Jeffries and Henry Yutz. Mr. Usner and Mr. Hardin defended the negative side of the question. Mr. Armstrong rendered the Spice of Life. An interesting program is scheduled for next week. Come up and enjoy it with us.

A KEEN BREAKFAST

—W—

A certain number of Hill folks were delighted when the Keen girls received a box from home, and more than delighted when it became known that most of the box was to be served at breakfast on Monday morning. The special occasion for the feed was the presence of Miss Jennie Montgomery on the Hill.

"Where Quality Counts, We Win"

INTERCOLLEGIATE NEWS

New York University will broadcast the debate with the University of Richmond on the question, "Resolved, That the United States Should Enter the World Court," which is to take place in New York City on March 27, according to a recent communication received by the Secretary of the Debating and Forensic Council.

The University of Richmond will defend the negative side of the question, and New York the affirmative.

This is something new in the line of intercollegate debatng, and it is awaited with wiedspread interest in scholastic circles.

—M. C.—

Leland Stanford university has opened a course in cheer-leading and credits will be given therefrom toward an academic degree.

Officials of the university have announced that "Bleacher Psychology," "The Correct Use of the Voice," and "What a Coach Expects of a Yell Leader," will be the topic of lectures by members of the faculty and the football coaches.

Just what further developments will come out of this unique experiment at Leland Stanford can only be imagined.

—M. C.—

Two hundred and ten colleges and universities in the United States, with a total of 412 instructors, are offering courses in journalism, according to Ruel Richard Barlow, secretary of the American Association of the teachers of journalism. Fifty colleges have added journalism to their curricula during the past two years. In percentages the increase since 1921 in the number of institutions teaching journalism is 22 per cent and that of teachers is 49 per cent. An extended professonal curriculum is rapidly gaining favor in the schools throughout our land.

—M. C.—

Frederick J. Murphy, Yale graduate and former mentor at Northwestern and Denver Universities, who was chosen football and baseball coach at the University of Kentucky by the Athletic council at its meeting Saturday night, wired his acceptance Monday. Murphy will come to the University March 1 to take charge of the spring football training.

—M. C.—

The Senate Committee has begun an investigation of some alleged "diploma mills" in our school system. Harry T. Brunelige, a newspaper correspondent of St. Louis, started the investigation when he sent to the Senate a list of twenty-one schools which he asserted were "diploma mills." He further stated that Oriental University of Washington, D. C., had issued diplomas for "643 different kinds of degrees." This school has recently had its charter from the state of Virginia revoked by the courts of that state

—M. C.—

The faculty of Tusculum College has made a new and very drastic rule in regard to flunking, which says that all those students failing to pass eighty per cent. of their courses, shall be automatically dropped from College. Announcement of this new rule was made shortly before the semester examinations, and consternation reigned among the student body. The prevailing opinion was that it was unduly severe, and that about half the college would leave on the "Eighty Per Cent Special." Later developments, however, proved that these fears were unreasonable, and the majority of the new students now look upon the new rule as a valuable incentive to study.

—M. C.—

Evansville College and Abron College of engineering have both adopted the application blank system for admission to their departments. Under this system the applicant must fill out a blank on which he lists his favorite high school studies and answers other questions which are designed to test his ability and willingness to co-operate with the other students and the faculy. It is said that these two schools are finding the system very useful and helpful to both students and faculty.

—M. C.—

Berea College has been again chosen to co-operate with the Harmon Foundation in a practical experiment for lending money to upper classmen. This plan is so interesting and worthy of consideration that it is here given in full:

"Berea College was chosen for the second time this year as one of the colleges to co-operate with the Harmon Foundation in its practical experiment of lending money to students in the Junor year or above on a strictly business basis. The ultimate objective of this test of student reliability in financial obligations is to prove to the investing world that, properly selected, student character is sound security.

Students in the Junior year or above working toward a degree in the liberal arts or one of the professions are eligible for loans not exceeding 250 in any year, or $500 in all. Repayment is arranged on the installment basis of $10 a month, due to begin one year after graduation. The interest rate is 6 per cent, but all students paying in full within one year after graduation receives a discount of 6 per cent on the amount they actually borrow. To insure the fund against loss a premium of 10 per cent is charged and after the entire amount loaned in any one year has been repaid with interest at 6 per cent, any premium remaining will be distributed among the students of that year with interest at 6 per cent in proportion to the premium paid by them.

It is the desire of the Foundation to place the financing of higher education on such a secure business basis that any student who desires may obtain his college or university training wthout the feelng of charity or paternalism.

RADIO BUGS

From the way things are going it seems that Prof. Howell is not only a wizard in the Chem. Department, but also shakes a wicked dial on a radio receiving set. He boasts the proud record of having heard a Los Angeles broadcasting station for five consecutive nights. This is a remarkable feat considering the distance and the size of the receiver used. Maryville has another radio bug in Jimmie Underwood who with transmitting set has been heard six thousand miles away. A little world after all!

IF

(With Apologies to Kipling)

If you can keep your hair while all about you
Are bobbing theirs and blaming it on you;
If you can comb it and be sweet about it
The while you twist and braid and pin it too;
If you can comb and not be tired of combing
Or being sneered about, don't deal in sneers;
Or being laughed about, just yield to coughing—
Or being cried about, don't yield to tears;
If you can live through all this craze of bobbing
With thirty inches of your hair left on
Yours is pure grit and a courageous spirit
And what is more, you've won, my girl, you've won!

U. T. Game

(Continued from page one)

was flawless. On defense he held the ball tightly and surely, when to fumble might mean a goal for the Vols. His floor work was beautiful; he seemed to be at the right spot every moment of the game.

McMurray comes in a close second for stellar honors. He played in the hardest kind of luck the first period, when his shots rolled around inside the rim and then hopped out. But such shooting was bound to bring results, and in the second half Jean found the basket for four two-timers and two free throws. Then he proceeded to cinch the game for the Highlanders by placing a beauty through the circle in the overtime period.

Shores played a wonderful defensive game for a forward, holding Keister's dribling and shooting unmercifully. He was on the ball consistently and in addition garnered a few baskets himself. Riskey at the other forward gave a neat exhibition of clever handling of the ball in the second half.

For Tennessee the entire team played well, teamwork rather than individual effort played the more prominent part. Johnson played best for the Vols, but his margin was just a shade.

The Volunteer's highly praised three-man pass met a Tartar in the Highland defense. It worked beautifully in Tennessee's half of the floor where there was no opposition, but as soon as it hit Maryville's five-man defense it failed to function. Nevertheless, both teams showed up well in open five-man passing.

Before the game began a flash-light picture was taken of both teams in action. The explosion of the powder did not dim the players eye for the game had been under way scarcely a minute when Hatcher caged a free throw for Tennessee. Shores retaliated with a pretty crip shot. Riskey and Hatcher shot a foul apiece, then Riskey cashed in a toss from a difficult angle just beyond the foul line. Johnson surprised with a clean throw from just outside the circle. Shores sent a wayward rebound through the hoop by a perfect tip. Harkness and Johnson received U. T.'s hopes by counting a goal each from beyond the foul line. The half ended with Tennessee leading 8 to 7.

McMurray started the second half off right for Maryville by looping in a foul, tying the score. Shores followed suit, and McMurray tipped the rebound of a free throw in for a double counter. Bowe followed with two free throws and a field goal from a difficult angle, placing Tennessee in the lead for the last time. Their advantage did not last long, however, as McMurray cut loose with a foul and a crip after a clever dribble down the floor. Hatcher tied the count at 14 all with one of his famous left-hand crip shots. McMurray brought the score up to 16 to 14 with a clean loop from outside the foul circle. Again Hatcher tied it up, this time with a medium long shot. McMurray once more sent two points through the leather straps. Keister came through just in the nick of time with his only basket. It was a long push from the center of the floor and tied the score 18 to 18. The gun banged for the end of the second period.

After about one minute of the five minute overtime period had been played McMurray shot winning basket. Neither team could score thereafter. Keister and Musick met in mid-air and Keister was laid out. No foul was called as it was evident that none had been committeed. Shultz took Keister's place. Johnson missed a free throw and the game was over.

The score: Maryville—Shores (5), forward; Riskey (3), forward; McMurray (12), center; Veech, guard; Music, captain, guard.

Substitutes: Sneed, forward; McCall, forward. Total 20.

Tennessee:—Harkness (2), forward; Bowe (4), forward; Hatcher, captain (6), center; Johnson (4), guard; Keister (2), guard. Total 18.

Substitute: Schultz.

Referee:—Barbour.

Fruits and Candies—Long's Confectionery.

U. T. Rats

(Continued from page one)

tilt. The Highlander scrubs started out as though they would cop an easy victory, holding the long end of a 15 to 8 relationship at the end of the first half.

The Rats came back strong in the second half and threatened to win the game. Five minutes after the half the count stood 23 to 20 in favor of Maryville. Tennessee counted a two-timer and Maryville did likewise. Tennessee then took the lead 26 to 25 with a pretty shot by Dean Thrower put the scrubs on top again by making a neat crip shot. Dean cut loose with another long loop but Martin put the game on ice for Maryville by a crip after a clever broken field dribble.

Maryville's entire team played well, with Thrower and Thompson scoring the most points. Martin played a great floor game, and both Hurst and Bradshaw guarded well.

Scott Dean played a wonderful game for the Rats scoring no less than seven field goals and two free throws. Besides, his floor work was outstanding.

The score: Maryville Scrubs—Martin (4), forward; Thompson (8), forward; Thrower (13), center; Hurst (4), guard; Bradshaw, guard. Total 29.

Substitute: Johnson forward.

U. T. Rats—Coaley (4), forward; Dean (16), forward; Hackbill, center; Deaver (2), guard; Goodwin (6), guard. Total 28.

Referee, Schmidt.

MARYVILLE-CLEMSON TILT

With the determination to continue sterling basketball, the M. C. combination took on Clemson on Friday night and emerged at the long end of a 13-9 score.

The crowd which saw the game declared it was the most unusual fray of the season. The defense of both quintettes was so powerful that organized passing was impossible. The game was under way eight minutes before Maryville broke through for the first tally of the game. The offense of both teams consistently threw away the ball and fumbled when in good position, while the defense was all over the court, smashing down every attack. When the half ended the Honakerites were out in the front 7-2.

Both teams jarred out of their listlessness in the second half, Musick regularly dazzling the stands by taking the ball down the floor for crip shots and dashing back to position in time to guard his man. A 9-9 tie near the close of the game wasbroken by timely field goals by Veech and McMurray, the score ending 13-9.

FOUL SHOOTING CONTEST

A big basketball is hard to shoot into a little basket, at least that's what a majority of people entered in the Y. M. C. A. Foul Shooting Contest held Monday afternoon, found out. One hundred and seven individuals tried their luck. Dave Martin was high scorer of the day making seventeen out of twenty-five tries. Emma Sexton and Elizabeth Houston were highest in the girls division, each making ten.

The ten highest in each division were:

BOYS—Dave aMrtin 17, Thompson 16, Johnson 15,, Merwin 15, Jack Williams 13, H. Word 12, Howard 12, Franke 12, Richeson 12, C. Houston 12.

GIRLS—Emma Sexton 10, Elizabeth Houston 10, Francis Campbell 9, E. Carson 8, E. Dorough 8, W. Montony 8, M. Mattax 7, Leeota Tarpley 7, E. Monroe 6, M. Welch 6, D. Lowrey 6.

Fruits and Candies—Long's Confectionery.

HIGHLANDERS LOSE IN FINAL GAME WITH UNIVERSITY

Spanish Department Gives Two Plays; Excellent Music Furnished

Work in Spanish Was Novel Feature; Was Enjoyed by all

Many words of appreciation are due the people who made possible the entertainment of last Monday evening. The professors of the Spanish department who worked hard and faithfully; the pupils who thought, acted, and spoke as Spaniards for weeks in order to do their parts creditably, the members of the expression department who gave their valuable time and suggestions to the perfecting of the play, the pupils who helped in the difficult and mechanical parts fixing up the stage; all these deserve much praise for undertaking and successfully performing such a difficult task as putting on a play in a foreign language or in a foreign atmosphere.

Especial thanks are due Miss Wilma Schuping of Knoxville, who sang both in Spanish and in English. Miss Jones, her accompanist, also deserves much credit.

May the Spanish colors, floating so high now, never fall!

Caldwell's Team Is Leading Intermural

The intermural basketball league tournament is nearing a close and will probably be finished this week if nothing prevents. Only six games remain to be played, and the interest and enthusiasm seems to increase as the tournament advances toward the close. Two games were played last week. Caldwell continued his winning streak by defeating Schmidt's strong team, by the score of 18-12. Martin brought up his average by trouncing Gillingham's team 12-10. This was a close game, it being won in the last minute of play.

At present Caldwell's "Tigers" are leading the league with five wins out of as many played. DeLozier is second with three wins and only one lost. Martin, by virtue of the fact that he won last week, is now third in the race. The remaining six games are to be played this week. They are all expected to be close. The final game will be played between Caldwell and DeLozier, the leaders of the league.

Following is the standing of the league:

Team	Won	Lost	Pct.
Caldwell	5	0	1,000
DeLozier	3	1	.667
Martin	3	2	.600
Schmidt	2	2	.500
Eitner	1	3	.250
Howard	1	3	.250
Gillingham	0	4	.000

FACULTY CLUB ENTERTAINED

Last Monday evening the spacious home of Dr. and Mrs. Stevenson was the scene of a pretty party for the faculty folks. Mrs. Stevenson has been president, for the three years of its existence, of the club of faculty women. In acknowledgement on a meager scale to be sure, of her kindliness and hospitality frequently shown during this time, the occasion of her birthday was seized upon as an opportunity to invite the faculty men and wives to felicitate the lady. Handsome red roses were sent her. Games and conversation were the order of the evening. After the serving of dainty refreshments, the guests wished their charming hostess many "happy returns" and departed hoping to meet thus again.

Dr. Prettyman Pays High Tribute to Late Ex-President Wilson

Thursday morning, February 21st, at chapel service tribute was paid to the memory of Woodrow Wilson. A very impressive program had been arranged consisting of Mr. Wilson's favorite hymn, "How Firm a Foundation." Prayer by Professor E. R. Hunter. The principal address was given by Rev. F. J. Prettyman of Knoxville, former chaplain of the United States Senate. Dr. Prettyman was personally acquainted with Mr. Wilson and had learned to love him as a man and as a leader. Dr. Prettyman gave three reasons why Mr. Wilson was the greatest man in the world: First, because he brought together the greatest war engineery the world has ever seen. Second, because he was a leader of the entire world. Third because he was the only man to ever write the needs of all the world into definite terms.

Dr. Prettyman paid high tribute to the League of Nations, calling the covenant the greatest document since the writing of Revelations.

Tho Mr. Wilson was hailed as a leader and savior he was later hated and betrayed by his friends who were the soldiers, the people everywhere and the smaller nations in particular.

After Dr. Prettyman's address the Men's Club sang "America, the Beautiful, another of Mr. Wilson's favorite hymns. Taps were sounded and Dr. Samuel T. Wilson pronounced the benediction.

Americanization Of Foreigner at Y. M.

MRS. McMURRAY GIVES TALK TO 'Y' MEN ON SUNDAY AT ONE O'CLOCK

In a pleasant, impressive, and informal manner Mrs. McMurray spoke in the 'Y' meeting last Sunday afternoon on the subject of Americanization. She outlined a history of her work with the foreign element where she once lived. She emphasized the fact that no success can be expected in the solution of this big subject unless the foreigner's view-point is grasped and understood.

Though many used to ask Mrs. McMurray "What's the use?", her reply was that she was working for the Lord and that results would eventually be favorable. Her work, as she described it, was remarkably successful.

With specific illustrations, she showed us how the foreigner was thrifty, eager for learning, and grateful to those who would help him learn.

Concluding her address, she showed the folly of not trusting God. Then she said, "Put your lives right into God's hands. God is leading you. He who trusts does not worry; he who worries does not trust."

If you missed this good meeting, come out to the next one.

A historical pageant of events in the history of Emory and Henry College and the immediate country surrounding the college is to be presented soon by the students and friends of that college.

Senior Class to Bring Filipino Quartet For Class Entertainment

FIRST FILIPINO ENTERTAINERS TO APPEAR AT MARYVILLE COLLEGE

MINDORA FILIPINO QUARTET TO APPEAR AT THE CHAPEL

Senior Class Brings Company of Talented Entertainers to the On March 7th

Indeed fortunate are the students of the College and the people of the town in having brought to their midst the characteristic and colorful music of the South Sea Isles by four of its highly gifted and patriotic sons who compose the Mindora Filipino Quartet. This rare treat will be given Friday night, March 7th, in the College chapel under the auspices of the Senior Class.

But not only do the four finished performers of this company bring to us the best numbers and airs of their Islas da Oriente, but also render with consumate artistry our favorite plantation melodies, popular songs and compositions. Their repertoire consists of both vocal and instrumental selections which haunt the memory long after the quaint instruments and rich voices that evoked them have become silent.

So much and more may be said of

(Continued on page three)

Fred Hope Drive On March Sixth

Maryville Students will be especially glad to hear that Dr. L. E. Smith a Medical Missionary to the same general mission as Fred Hope will be here March 5 and 6. Dr. Smith is a brother of Lorene, who graduated from Maryville in the class of '23. We will be glad to have the work of Fred Hope presented by one who has come in vital contact with it. Dr. Smith is bringing with him an illustrated lecture of the work and Maryville Students will have the opportunity of seeing in what way their money is being used.

ALPHA SIGMA

A very interesting program was enjoyed by all who attended Alpha Sigma last Saturday night. A large number of members were in their places at the appointed time for the meeting. A Wilson program was rendered. The first number was a biography of Wilson by Mr. Tom Grover. The question Resolved: That Woodrow Wilson will hold a place in history beside that of Lincoln was upheld by Mr. Eitner for the affirmative and Mr. Miles for the negative. Mr. Hall then gave us the negative. The decision was in favor of an interesting talk on Mr. Wilson as a statesman. Don't forget to come to Alpha Sigma next Saturday night.

BAINONIAN WINGS"

"ALL GOD'S CHILLUN HAS WINGS"

Girls, what would you do if you were lost in the mountains near sunset—just you and one other girl? Suppose the cabin in which five negroes live was the only place where you could spend the night? Just how would you feel and eat?

Contrast the way two American college girls act in such a situation. Monday night in Bainonian Hall at 6:15 o'clock Gladys Marshall and Beryl Moody will show us how they would spend a night in the Kentucky mountain—eating with negroes, sleeping in their beds, and just how much they like it. After all Uncle Ben (. Sewell), Aunt Miranda, (E. Carson), and the three little darkies (Dot and Lena Hodges and Louise Gish), aren't such bad hosts. We must conclude that "All God's Chillun Has Wings."

When you have seen this little play you'll agree that there is genius in Artie Lee Dye and Lillian Croyle, the authors. If you do not agree with the theme and title of the play you cannot blame it on the Social Service Committee of Y. W.

Prep Basketball Team Wins From Everett

The Prep team played three games this last week. One here and two away from home

Tuesday night they played Everett High on our own court and won by a score of 37-26. Although the Preps did not have much trouble in breaking through the Everett High defense, still it seemed a tough problem to make the crip shots. There were at least four trys for every basket made. Martin was noticeable for his fast floor work and Whitehead for his guarding. Martin was high point man with 14 points. Underwood next with 10.

Thursday night the Preps visited Friendsville High and lost 30-26. The game was noticeable for the rough playing by both sides. The Friendsville fellows showed better team work and co-operation. Aycock was high pointer with 16 points.

As a matter of revenge the Preps went back on Saturday night and won from Friendsville Academy 18-17. This was a hard fought contest because at the end of the first half the Preps were at the end of a 13-7 score. Better team work and passing were shown in this game. Every player contributed to the score.

Final Game With Union College to Be Staged Tonight

The rub game of the series between Tennessee and Maryville was decided on Monday night at Jefferson Hall, Knoxville, when the Volunteers stepped out into a commanding lead and held it until near the close of the game, the final count being Tennessee, 30; Maryville 25. This tilt marked the end of a three-game series between two of the best teams that the two schools have ever produced, each team having previously won a game on the home floor.

The early minutes of the first half gave promise of a thrilling encounter, but the Orange and White five soon started to pull away from the Honaker combination and were leading at half time, 15-4. The game was slowed down by the unusual slipperyness of the floor, both teams having difficulty to keep on their feet.

The second half saw Maryville fighting a steady uphill battle, and gradually but surely overtaking the Banks' players. McCall was dropping in free-toss after free-toss with unerring regularity, and McMurray, having shaken off his Jinx, was finding the basket. With Keister out on personal fouls, the backbone of the Tennessee offense and defense was removed, and their team work looked unstable against a barrage of Orange and Garnet shots. During the closing minutes of the game the Tennessee stands were shouting for the home team to come to life, while the Maryville representation, hopeful for a last minute win, were crying for a victory. The pistol cracked as a field goal by McMurray was dropping through the loop, the final tally standing Tennessee, 30; Maryville, 25.

Maryville (25)	Tennessee (30)
Bisley F	Bowles F
McCall F	Harkness F
McMurray C	Hatcher C
Musick G	Kiester G
Veech G	Johnson G
Shores (2)	Shultz G

Maryville Wins Over Transylvania In an Extra Period

Continuing its winning streak, the Maryville five annexed two more victories during the past week, decisively smothering East Tennessee State Normal on Tuesday night to the tune of 49-13, and pulling away from Transylvania in the second overtime period to a score of 29-21 on Friday. Both games were played on the local floor and makes a record of ten straight victories and not a single defeat this season at home.

The Transylvania tilt was an offensive battle throughout, a barrage of shots towards both baskets keeping the guards occupied. Maryville had trouble in getting started and the Kentucky quintet, watching for openings, shot several baskets from the middle of the floor. The half ended 10-6 in favor of the visitors. With six minutes to go in the second half the Orange and Garnet combination was trailing 18-8, but through a reversal of form the team came to life and the score at the end of the game was 19-19. The excite-

THIS WEEK

"If you know me you know that grades are about the least of my worries," so says a college man prominent in activities. Why worry or study to find out what past generations have done; What progress or culture the race has thus far developed? We inherit that. Every generation may stand on the shoulders of the preceeding generation, but it has to climb up there.

The question has been asked, would you do away with all activities except study? No, we would not make of every college student a book worm, nor would we make of this college or any college a steeple chase or a house of amusement. But without exaggration, that is exactly what is being done in colleges and universities today. President Marion L. Burton, of the University of Michigan says to the regents of that institution in his annual report "Jazz orchestra, proms, hops, and whirlwind, giddy parties, have their proper place in university life, but just now they occupy an "unduly large place."

What we ask is that students here and everywhere recognize the folly of too many distractions from study, and that they demand a correction of the present tendency and that they do this before they are sent out from places of learning with a cup half or less than half full of positively essential knowledge.

INTERCOLLEGIATE NEWS

A protest in the form of resolutions urging all students of the Penn State to "avoid absolutely all participation in any practice or transaction in violation fo the Eighteenth Amendment to the Constitution" has been passed by the student council of the college. Aid also is offered to the college officials in properly punishing all students commiting offences against the Volstead Act. There was not a dissenting voice in the group of 50 student councilmen when the matter was brought to a vote.

This is thought to be the most sweeping action taken by a college student government in support of prohibition enforcement.

—M. C.—

A new system of electing captains is to be practiced at Franklin College, Ind. The captain will be elected before every game and will rule for that game only.

—M. C.—

Dean of Women Lucy M. Van Cott of Utah University was voted the most beautiful woman on the campus, in a contest held recently. Dean Van Cott had eighty-six plurality over her nearest competitor.

—M. C.—

An "author's copy" of "Dixie" has bee pnresented to Cornell University. The original copy was stolen from the composer and this copy made later.

—M. C.—

The University of Michigan will not only expel cheaters from the University, but will give them publicity.

—M. C.—

Rice Institute, Houston, Texas, claims the distinction of having the smallest college freshman in the world. Joseph Simmons registered at Rich this year. He is less than three feet tall, is 20 years of age, and walks on his own legs like any normal person. He takes an active part in student activities, is an excellent cornet player in the Rice band, and is making good grades in classwork.

—M. C.—

Ten Perdue students paid $219.60 for one Christmas tree, although they sel for one or two dollars at the stores. Desirous of saving that sum, however, they raided a graveyard to procure a tree for their fraternity dance. Fines of $11.50 were lieved on each student, besides $100 damages and severe reprimand from fraternity heads.

—M. C.—

The University of Cincinnati is projecting a drive to raise funds for rebuilding the Louvain library in Belgium—America's part in the reconstruction of the Louvain University following its destruction by German forces during the war.

—M. C.—

The baseball nine of William and Mary College, together with that Harvard University, may tour Europe this summer, if plans conceived by Ted Sullivan, former American League mentor and widely known baseball figure, materialize.

—M. C.—

More than 1000 doughnuts were sold on the campus varsity day at the State University of Montana by members of Theta Sigma Phi fraternity. The money made from the sale will go to the Woman's National Journalism Register, Chicago, Ill., which finds positions for women in journalism.

—M. C.—

Both senior and junior men at the University of Idaho adopted corduroys as part of their upper classmen's apaprel. Senior men will go bare-headed and carry canes. It is probable that the juniors will adopt sombreros as part of their attire. The presidents of these classes have warned all freshmen not to encroach on these upper class privileges.

—M. C.—

Fencing at the University of Minnesota has sadly fallen from grace and is now listed with those sports in which women indulge as well as men.

Since some of the co-eds have entered the fencing class it is expected that this added attraction will greatly increase the number of duelists. A mixed class is being conducted at present, but if the number of female students increase, two classes will be formed.

—M. C.—

The authorities of Vassar College have decided to form another post-graduate department, which will have neither dean nor instructors. Its purpose will be to provide Vassar graduates with an opportunity to escape from domestic duties and to engage in any creative work desired, which may be the writing of some long-copitated play, the painting of some dreamed-of picture or the carving of a group of statuary. It is hoped that this institution will open a mine of originality in art and literature.

—M. C.—

A gift of $2,500 a year, for three years, for the purpose of creating the first research fellowship in connection with the newly organized Institute of Meat Packing at the University of Chicago, has been made by Mr. Arthur Loenstein, vice-president of Wilson & Company, and special lecturer in the institute.

A series of lectures under the joint auspices of the School of Commerce and Administration of the University of Chicago and the institute has been inaugurated.

the Mindora Quartette as an organization, but since all organizations are composed of individuals and since each individual of this unusual organization is a master in his respective field, a word concerning each member cannot be amiss.

Mr. Frank Ramos has gained an eviable reputation as a ukelele soloist. His rendering of "The Rosary," to take an instance, is deserving of especial mention. The melody of this number Mr. Ramos plays in double stops, rendering simultaneously an accompaniment that gives his auditors the illusion of an organ in action. His humorous interpretations and novelty Filipino songs are sure fire and unique.

Mr. Emilio Malimit ranks among the leading Filipino instrumentalists in America, and has perfect mastery over the mandolin, the banjo and Banduria. In the ensemble numbers he features the violin.

Mr. Pedro Edrelin plays the tenor banjo and the stell guitar, on which latter instrument he plays Filipino in a manner that by more critics than one has been pronounced sensational.

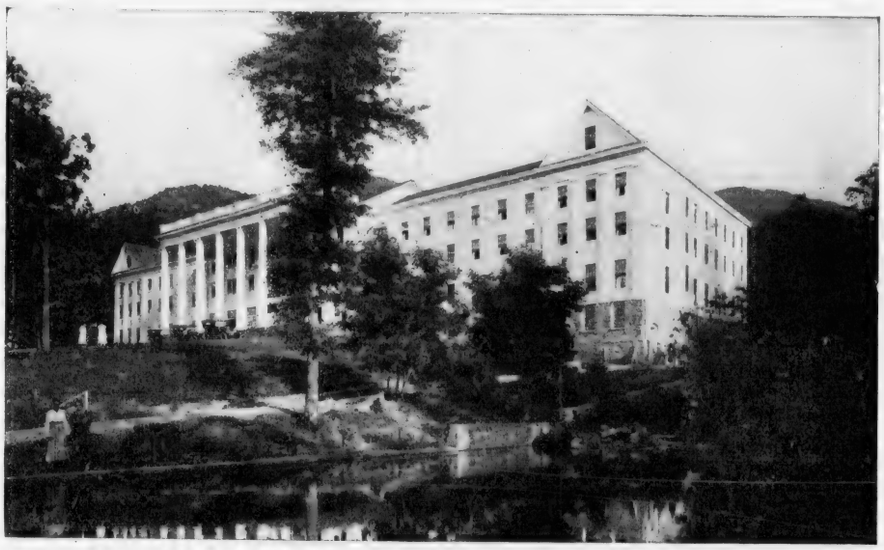
Mr. Florencio Suarez is a pianist of rank and a singer of merit. His accomplishments, while not at all lacking in feeling and spontenetiy, show the finish that comes only through years of hard work under the most exacting of teachers.

CHEMISTRY CLUB

Chemistry Club Elects Officers for Second Semester

Do you have a desire to become famous and to render a service to humanity? If you weren't at the meeting of the Chemistry Club on last Tuesday night, you missed an opportunity to find how you might realize both of these desires. Margaret Shepherd spoke on "The Race For Rubber." and after having told us the very interesting story of how rubber is made, she informed us that, as yet, the manufacturers have not been able to make artificial rubber as cheaply as "mother nature" makes it.

Surely some one who heard of the various needs for rubber and of how much more "springy" the tread of humanity would be if only the supply of ruber were increased will both become famous and render a service to humanity by finding a more economical way of making rubber.



After the program, the following officers were elected by the Chemistry Club for the second semester:

President, Albert Griffitts.
Vice president, Irene Sharp.
Secretary, Jessie Garner
Treasurer, Manilla Ruble
Program Secretary, Virginia Clark
Editor, Ethel Sharp.

Enjoy Summer Life at Blue Ridge, North Carolina

Tell me not in mournful numbers
Blue Ridge life is not worth while,
For in Blue Ridge all are happy,
Every body wears a smile.

There is hiking to Mount Mitchell,
Twenty miles o'er hill and plain,
Sometimes hiking through the sunshine,
Sometimes hiking through the rain.

Even tho your teeth may chatter,
As onward through the rain you go,
For those wintery winds on Mitchell,
Seem much colder than the snow.

But what is life without hardships?
Rest is sweeter after pain,
What is life with only sunshine?
What's a hike without the rain?

Let us then be up and doing,
Do not spend your life in vain,
For if once you've been to Blue Ridge,
You will want to go again.

—"P. W. B."

Expert Shoe Repairing—G. C. Long.

Y. W. C. A.

Under the leadership of Miss Emma Snediker, a program which was very interesting and helpful to all, was given at the regular meeting of Y. W. Sunday afternoon. Every one enjoyed the special music given by the Men's Quartet, also the Saxophone solo of Miss Helen W. Bowman, accompanied by Miss Martha Anderson at the piano.

An interesting discussion was conducted by the following young ladies:

Miss Ethel Sharpe, Individual Devotion.

Miss Mary A. Thomas, Church Membership.

Miss Earth Lou Hornbeak, Christian Activities.

Miss Pearl Tweed, Service.

If you enjoy interesting discussions, on important problems, Y. W. C. A. is the place to find just what you want.

Georgia Tech is one of the recent technical schols to enter the field of intercollegiate debating. A debating council, composed of three members of the faculty and two students, has been formed to arrange the contests.

Basket Ball

(Continued on page two)

ment during this rally was intense, the stands crying for a victory.

In the first overtime period McMurray and Powell each dropped a singer through for his team and a free-toss by one of the visitors could have put the game on ice, but it hit the loop and bounced off, the frame ending 21-21.

A dazzling burst of speed garnered two baskets for the Honakerites and before the period was up the home five had netted two more. The game ended 29-21 in favor of Maryville.

As in last year's game with Transylvania, McMurray with fourteen points proved to be the downfall of the Red and Gray, while Riskey, playing his best home game of the year came through with nine. McCall's work as defensive forward was superb. Powell and Adams looked good for Transylvania.

Maryville	Transylvania
Shores 2 f	Powell 8 f
Riskey 9 f	Adams 8 f
McCall 14 f	Ware 0 c
McMurray 0 c	Buckley 2 g
Veech 2 g	Morrison 0 g
Musick 2 g	Thompson 3 c
	Gividen 6 g

The East Tennessee Normal game gave every Maryville squad man a chance to get into the fray and make at least one point Normal also substituted, but were not so fortunate in tallying The. half ended 21-7 and at the close of the game the score stood 49-13.

SOCIETY DOINGS

One of the most elaborate social events of the season took place at the home of Miss Madge Kellar, Fourth street, Pearsons Heights, Maryville, Tennessee The hostess received her guests in her small domicle, which was tastefully decorated with delicious food. Miss Kellar was becomingly gowned in deep gray with gold and crimson trimmings. Assisting her in entertaining were Miss Kathleen Bailey and Miss Marie Griffith, both of this city. Miss Griffith wore a gown of pale blue, with crepe myrtle trimmings; while Miss Bailey's gown was of deep rose self-trimmed, her only ornaments being a rope of pearls. The lovely picture table was decorated with water lilies. Miss Jessie Garner presided at the punch pitcher, being relieved by Miss Martha Anderson. Miss Geo. Belle Kunn was toastmaster, and her only error of the evening occuring when the toast burned. Toasts were given by Miss Mary Whittle. A musical program followed, the music rendered by Misses Newman and Miss Anderson. The guest of honor was Miss Elizabeth Montgomery.

PERSONALS

On Friday of last week in the romantic old city of St. Augustine, Florida. Miss Glyndon Brandon and Mr. Robert King were united in matrimony. Mr. King graduated here in 1923 and Miss Brandon was one of our most popular sophmores during the first semester this year. The many friends of this young couple extend their congratulations and best wishes for a happy, bright future.

—M. C.—

Miss Mary Bigelow is able to return to the dormitory, and we trust will be able to take her accustomed place on the hill again in a few days.

GIRL SCOUT ORGANIZATION ON THE HILL

Yes, we're here. We've been here for several months though maybe some of you didn't know it. It's like this. Scouting is a great work, nothing like it. Do you know how to camp in the open? Have you a knowledge of first aid. Are you useful in the home, and out of it? Scouting teaches all this—and more. It teaches girls to live and to get the most out of living. The girl scout is an all round girl, ready to serve her community and her country.

You say you don't have the time. Some one has said that the best educated man is the man who selects the most important tasks from all the activities round about him, the man who can put first things first and let the rest take care of itself. Just try our scout and see if it isn't worth your time.

We meet for an hour every Wednesday at 4:00 p. m., in Bainonian Hall. Miss Green is our captain with Elsie Smith as lieutenant. The troup at present contains only wo natrols, most of whom are beginners. So come on, let's all start together to make this organization a success.

BASEBALL BRINGS SUNSHINE

DEVOTED TO ALL THE INTERESTS OF MARYVILLE COLLEGE

VOLUME NINE | MARYVILLE, TENNESSEE, WEDNESDAY, MARCH 5, 1924 | NUMBER NINETEEN

Debate Season Opens With two Contests on League Question

Maryville Fails to Win Either Event by a Majority Decision

THE FIRST A TRIANGULAR AFFAIR WITH TUSCULUM AND KING; THE SECOND A DUAL WITH MILLIGAN

VS. TUSCULUM AT HOME

The debate season opened most propitiously on Friday night, February 29th, with the Tusculum-King-Maryville triangle. Our affirmative team traveled to King, while our negative team consisting of Edw. Cornelius, Chester Karrick and James Hardin met Tusculum on our home floor.

The question, "Resolved, That the U. S. Should Join the League of Nations," is the national Pi Kappa Delta question this year and the interest manifested by the audience was unusually great.

Tusculum was well represented by Morphew Smith and Fraker. This was Fraker's third appearance upon the Maryville platform, but we always enjoy hearing him.

So well did our men uphold the honor of Maryville that at the close of the debate the chairman announced the decision of the judges as unanimous for the negative.

This is Hardin's first year in intercollegiate debate, but he goes about it like a veteran. We can't help being sorry that he's a Senior, Jimmy tells us that he believed in his side of the question, but we knew that without being told. No audience could ever go to sleep under Jimmy's debating.

Karrick has represented Maryville in forensics before, but this was his first appearance before the home audience since his Prep school days. He showed himself an experienced public speaker for his clear and forceful statements were indeed convincing. Good work, Karrick, we're counting strong on you in our forensic program for next year.

Cornelius, captain of the team, showed his usual invincible logic. In both constructive and rebuttal he presented his arguments in an exceedingly convincing way. We've heard Ed as an orator, so we were expecting great things of him on this debate, and it is sufficient to say that he more than measured up to our expectations. Ed, we're mighty glad you're to be with us again next year.

The music of the evening consisted of a very pleasing vocal number, well rendered by Margaret Lewis and Andrew Stewart.

Come out and back our team. Maryville has just cause to be proud of her debaters. Let's do our bit to make this the biggest season ever, in Maryville's debating history.

VS. KING AT BRISTOL

At the same time that Maryville was debating against Tusculum on the home floor, she had a team debating against King at Bristol. The contest there resulted in a two to one adverse note. However, this decision was not given till Maryville's team had put up a hard fought forensic battle.

King College's team advocated a policy of complete separation from the League of Nations. They gave

(Continued on page two)

Third Annual Life Work Conference Becomes History

Vital Topics Discussed Under Capable Leadership

The Conference has come and gone. For the third time has such a conference been held at Maryville. Possibly the first question which is asked about a conference of this kind is: 'Was it a success?' This is a question which those in charge ask themselves and one which others may ask about it.

Taking the Conference from the standpoint of the group meetings, and the number who attended them, it was highly successful. An average of more than five hundred students attended the groups to listen to the discussion of the vocations in which they were interested. Almost one hundred per cent of those who responded to the questionnaire put out some time ago, responded again with great earnestness the call of the leaders to the importance of choosing a life work.

Then it is impossible to determine the extent to which the personal interviews reached. It is only necessary to say that each leader had his time filled up almost to the very limit with these interviews. In one case three and four students would go in at the same time for the discussion of problems connected with the work in which they were interested. Our students are giving earnest consideration to finding the answer to the 'second great question.' One of the leaders said that he had never found a more earnest bunch of students than those whom he met at Maryville College. Mr. Fred Barnette characterized us as students who are thinking of more important things than the next ball game or the next dance (substitute 'Snap'). So from the standpoint of personal interviews there was manifested, by the students, a desire for counsel on the thing nearest to their hearts.

A discussion of the Conference would not be complete without a word regarding the genuine interest displayed by the sixteen leaders who gave their time and themselves wholly to our service. Even when the program was in danger of collapse on the very first morning, two of our friends staged a timely rescue with extemporaneous speeches. These speeches allayed the fears of some people whose nerves were considerably disquieted. To those who heard the masterful appeals of Dr. Clarke for Christian leadership and a more abundant life, these will be pleasant memories. Then no one will forget the great climax he gave to the whole Conference when he flung out that challenge 'What Shall Your Answer Be?' One student said "The students on College Hill have been thinking during these three days and many have settled this all-important question, and are now better prepared to face the world with greater determination than ever before. The conception of Christian Service for many has been changed; they now see that the life of Service is the abundant life." We heard the appeal to us, as

(Continued on page four)

1924 Chilhowean is Soon to go to Press

The annual staff have worked for an annual that will satisfy the student body's desire for a good year book. With a knock-out beauty section a keen athletic section, the senior section pronounced the best ever by faculty official critic, and art work that will open the eyes of the blind we feel sure that we will have some Chilhowean to take home in June to show to the home folks., so they can see all that has happened on college hill during this full year.

Indoor Track Meet Held by Y. M. C. A.

PAVED THE WAY FOR BIG OUT-DOOR MEET TO COME SOON

Maryville's first indoor track meet resulted in a victory for the Freshmen, an unexpected victory, too, for it was all doped out before hand that the Juniors would win in a walkaway. However, a few surprises were in store for the upperclass aggregation and the Freshmen nosed out the Sophmores who were ahead until the final event.

Lamar Milling of the Freshman class was high individual point man, scoring eleven and one-half points with first place for the Twenty-Five yard dash, a tie for second in the Pole Vault and third in the Broad Jump.

Bob Bishop was second high man placing first in the High Jump, first in the Broad Jump, and fourth in the Twenty-Five yard dash for a total of eleven points.

The other contestants followed with Rohre (J) 9; Thompson (F) 6 1-2; Crawford 5; Horton 4; Morgan 4; Thrower 3; Caldwell 2; Pierce 2; Buchanan 1.

The Freshmen totaled 28 points. Junior 21, Sophs. 20, Preps 5. Seniors 1.

The meet was very successful, in that it gives the coaches a line on prospects for the team this year. Bob Bishop certainly looked good in both the broad jump and the high jump and is expected to go good this year. Lamar Milling is a very fine pole vaulter and in addition can run well. His brother, L. E., will also make somebody step this year. Thompson and Horton showed up well among the new men. Morgan should develop into a good high jumper. Rohre will be back stronger than ever this year.

Plans are now under way for the inter-class out door track meet which is sure to be a highly interesting affair.

Basketball Gives Way to Baseball; First Practice Held

The Second Annual Circus Monday Night

THE BINGLING BROS.-DARN 'EM DAILY'S GIGANTIC SPECTACLE

After touring Europe for the past year, Bingling Bros., Darn 'Em Daily's Circus will open its American engagements at the Alumni Gymnasium Hippodrome Monday night, March 10th.

Advance agents of the Circus tell us that many new features have been added which will go far to make this show the best ever produced on the continent.

Last year the Circus found favor in the eyes of Maryville's elite and in bringing the show to the Hill again this year, the Y. M. C. A., is following the general popular demand.

Bingling Bros., Darn 'Em Daily have collected animals galore for the occasion. "Congo," the largest elephant in the Appalachians will do some of his stunts Monday night. "Congo" will have quarters in Proffitt's window until show time.

The American troop, peer of fancy tumblers, will put on an exhibition that will in itself be worth the admission price.

Gertrude, the Arkansas giraffe, will demonstrate wonderful feets of wisdom. She can tell your future or past.

The Hurst Bros., late of Wallace & Hagenback, are booked for the feature event of the show.

Nelly, the great bareback rider, has ... thousands stand with bated breath, whilst she does the seemingly impossible.

Space does not permit comment on each event, but you'll want to see Howdoino, Mmme. Serpintine the Kentucky Derby, Honaker's Clown Band.

Then you will hear the Plantation Jubilee Singers and the Special Circus band.

One hundred and fifty performers will take part in this mammoth affair and if you miss it, there will be a life time of regret.

Y. M. and Y. W. Sunday Meetings

Dr. James E. Clark Addresses Y. on "Leadership for the New Exodus"

Dr. James E. Clark, a representative of the life work conference at the college, gave the young men a very emphatic challenge in a presentation of the need of Leaders in the New Exodus that is taking place now. We have crossed the Red Sea and are now surely in the wilderness. The need is for leaders that will cause stability in the faith of men so as to enable them to avoid Kadesh Barnea. Such as will put them at once into Canaan where they can begin active work for the Master.

If the Israelites had not had good leaders they could never have gone through the trials of the wilderness and finally into Canaan. So if people do not have good leaders now men as a whole will remain in chaos. Had the children of Isreal had faith they would have gone directly into Canaan and would not have had to remain in the wilderness to die.

Y. W. NOTES

Y. W. Sunday afternoon was led by Dorothy Roney, with Miss Scurlock Y. W. Secretary, and Miss Thompson of the Board of Foreign Missions, as the principal speakers.

During the first part of the meeting Miss Scurlock and Miss Thompson

(Continued on page two)

Bright Prospect For A Successful Season On the Diamond

IDEAL WEATHER AND WEALTH OF MATERIAL MARKS OPENING PRACTICE

After highly successful season in both football and basketball, Maryville College looks upon a rosy sky of prospects at this time—the dawn of King Baseball's annual reign. Although few men from last year's team, five to be exact, have returned, the influx of new material, together with the return of two 1922 lettermen assures the followers of the Orange and Garnet that their college will be well represented on the diamond.

The five lettermen of 1923 who have returned are Bax Williams, catcher; Partee, third base; Shanks, shortstop; Riskey, third base; and Sneed, outfielder. Roger Williams, pitcher and Shorty McCall, shortstop, both of whom won the varsity insignia in 1922, are back again.

Among the new men who are expected to make good are: Pat Shores, first baseman; Hurst, second baseman; Frankey, pitcher; J. Williams, pitcher; Foster, pitcher; Harvey, pitcher; Cartwright, outfielder; Wilson, outfielder, and Ebelinger, pitcher.

Several men who went out last year but failed to make a letter will be on hand this season. This list includes Schmidt, Bishop, Martin and Webster, pitchers; McMurray, outfielder, and Rosa, infielder.

Baxter Williams, who has caught for the Highlanders since 1921 will lead the team this year as captain, with Joe Gamble serving as manager. Both men are helping Coach Honaker arrange a good schedule. Games are assured with Tennessee, V. P. I., Center, and Kentucky State. A trip to Cincinnati is also being considered.

The first practice session of the season was held Monday, March 3. About fifty candidates were out, and at least fifteen more are expected to report. Coach Honaker is well pleased with the prospects, except for a little worry over the pitchers. But out of the flock of slingers out practising every day he is confident that he will be able to develop a good staff, which means that Maryville should have one of the best year's she has ever enjoyed.

Girl's Basketball Team Takes Trips

ONE THREE GAME TRIP AND A JAUNT TO CLEVELAND

Coach Bond took his Coed Basketeers on a trip up through the eastern part of Tennessee, the week of February 15th. The First game was played at Carson-Newman. It was a hard fought game though rather slow, due to the number of fouls called, the Carson-Newman forwards scoring most of their points on free throws.

The next night saw the Coeds on the Milligan floor ready to make amends for the defeat of the night before. Owing to their undefeated spirit they had little difficulty in winning from the Milligan quintette by the score of 35-15. Milligan never once threatened to overcome the lead piled up by the Maryville forwards in the first eight minutes of play. Brown and Painter did stellar work for the Maryville team.

Monday night found the Coeds facing the hardest game of the trip at East Tennessee Normal, where

THIS WEEK

There is a particular place in the world's work for each one of us. During the last few days the Life Work Conference has emphasized the importance of the discovery of our particular place. In some cases it helps to have the advice of persons successful in the various vocations but all the advice in the world is of no avail if we have no ambition to FILL the place which we choose. We hear, "All true work is sacred," but a successful life does not depend alone upon the choice of true work. We must DO that work. No matter if God's place for us be large or small, it is left to us to fill it to its fullest capacity and until we do our lives cannot be counted as truly successful.

—M. C.—

The High Podunk of this weekly publication (very weakly) has journeyed to a far country to expound his Democratic ideas on the League of Nations, so this week we have very graciously given you a much needed rest from the laborious reading of heavy editorials. Any way we are of the opinion that, with the Life Work Conference, the World Forum, the Youth Movement, the Race Problem, the League of Naions debates, our studies etc.. we all have enough to occupy our minds. At present most of us are neither sponges nor blotters but if we continue to trv to absorb so much at once we shall soon evolve into one or the other.

Y. M. and Y. W.

(Continued from page one)

discussed the questions which had been left in the question box and others which were asked in the meeting. The discussion was helpful both to those who are undecided about a life calling as well as to those definitely interested in Y. W. C. A. work or in a special missionary enterprise at home or abraod.

In a short but forceful message Miss Scurlock showed us that although as women, we are apt to feel our limitations, we have yet a high privilege and an understanding that belongs peculiarly to us. "Since every woman knows that a true home can be founded only on the basic principle of love, she can fully understand that a better world can not be constructed on any other foundation."

Miss Thompson pointed out that in saying "Fellow Me," Christ implied that He never expects us to travel an unbeaten path, He always goes ahead to show the way to those who have surrendered their lives unreservedly to Him.

Next Sunday's meeting is in charge of the World Fellowship Committee, and will be a surprise in the form of a drama. Every body come out and see the unfolding of the mystery.

PERSONALS

Miss Lois McCulloch could not resist the decree of Dame Fashion—she too, has the mumps.

—M C.—

Miss Eleanor Franklin and her brother, Mr. Wilbur Franklin, spent the week-end at home.

—M. C.—

Mr. Forest Brown was a recent visitor on the hill. He reported that the trip to New York with Dorothy (Winters) was delightful, but so was his visit at Maryville.

—M. C.—

Miss George Bell Kuhn had as her guest for the week-end Miss Nancy Sterling of Knoxville.

—M. C.—

Friends of Miss Winona Johnston will be glad to know she is upholding the standards of Maryville admirably. Winona is a most successful teacher and has bobbed her hair.

—M. C.—

Miss Katherine Adcock spent the week-end at home.

—M. C.—

Miss Mildred Renegar is a recent victim of the mump epidemic.

—M. C.—

Friends of Miss Eliabeth Edmiston here that Mr. and Mrs. Condon and their daughter will continue visiting this popular young lady from time to time. They like the candy.

—M. C.—

Miss Ella Felknor is suffering from an attack of appendicitis. We trust that she will speedily recover.

—M. C.—

Mr. and Mrs. R. B. Ratiff announce the arrival of Jean Caroline, their charming young daughter. Mrs. Ratcliff will be remembered as Bergetta Clacomb.

Fruits and Candies—Long's Confectionery.

Debate

(Continued from page one)

special emphasis to the danger of the Monroe Doctrine; that of entangling alliances; and that of the pledges contained in Article X of the Covenant of the League. These dangers were well depicted by able speakers. Maryville's team, consisting of King, Stockton and Robinette, put up a stiff fight to show that these dangers were over emphasized, and more than counterbalanced by the advantages to be gained from membership in the League. But the judges gave the decision to King College.

King proved to be an excellent host. Our team was given kind and courteous entertainment all the time they were there. The trip was thus a pleasant one in spite of the defeat.

AT MILLIGAN

A wire from Milligan late last night brought the news of a two to one judge's decision against our affirmative team there. This team was composed of Verton Queener, captain Floyd Corry and Harold Van Orden. We regret that we are unable to publish the details in this issue of the Echo. This evens our score with Milligan, Maryville having won both decisions from them two years ago.

VS. MILLIGAN AT HOME

To Maryville the debate on Monday evening, March 3, is still a victory. Kinsler's sure presentation of the terrible condition in Europe, even though there has been a League there; his masterful rebuttal together with his rising to the peculiar situation of answering a question after the negative rebuttals were over; these will not soon be forgotten. Hamilton's clear analysis of the inherent imperfections in the League; his proof that the United States has always co-operated for the good of the world; these mark him as a debater of no mean skill. Milling's quiet and steady treatment of the reason the United States has not joined the League and his proposal of a plan which will insure peace show that although he is a new man his ability has been shown.

To Milligan the debate on Monday evening, March 3, was a victory of two votes against one. Crouch pointed out what the League is and what it has done; Hill showed how the League is in direct accordance with America's constitution and principles; and Hardin proved how the United States is morally bound to join this League of Nations.

To tell all the high points and turns in a debate of such depth and scope would be impossible for one skilled in the art of debating. The speeches proved conclusively that the League of Nations question is a great one and that debating is still a great art.

Girl's Basketball

(Continued from page one)

they again met with defeat.

The ones making the trip were Captain Mary "Bob", Manager Grace Brown, Thelma Adair, Lois Painter, Eva Morelock, Lucille Heiskell, Isabelle Brown, Pat Farrar., chaperoned by Mrs Bond and Mascot "Sonny Bubs" Bond.

On Wednesday following their return to the hill, the coeds met T. P. I. on the home floor, the final score being 33-17 in favor of Maryville.

Saturday night, Feb. 23, the girls met defeat at the hands of the strong Peabody five, to the tune of 23-2. The local team fought hard but were outclassed by the excellent team work of the teachers.

A victory was won over the Centenary team, when the quintette met them on their floor at Cleveland, February 27. The two guards, Farrar and Heiskell did excellent work.

The local girls will meet Tennessee on the Tennessee Court tonight. This promises to be one of the best games of the season.

FASCINATING NATIVE MELODIES TO FEATURE FILIPINO CONCERT

The Filipino Quartet is a group of several young native musicians offering a most unusual program of their own and American music, both vocal and instrumental. The feature will be the rendition of their own songs on native instruments. These four young men are all natives of one of the most musical provinces of the Island, and all graduates of the foremost Spanish Conservatory in Manila. It is an all-star company offering a high-grade program in every way.

Next Friday night you will have the rare opportunity of being entertained in a very delightful and unusual way. The Senior class is bringing to the hill something new in the line of attractions and one which you cannot afford to miss. This treat will be furnished by the Mindora Filipino Quartet which will present a musical program consisting of both vocal and instrumental selections. Their repertoine is not limited to their own native melodies, but embraces also the best loved classical numbers, plantation melodies, and popular songs.

This is the only opportunity of the year to enjoy such an unusual program. You will be sorry if you miss it. Better go and be glad.

FRED HOPE DRIVE TO COME THIS WEEK

Old students know about Fred Hope's work in Africa, and new students will be glad to learn about this truly great man, a former Maryville student, who is transforming the lives of black men and women in the Dark Continent. Maryville claims Fred Hope as her very own, and his is the only mission work to which the student body is asked to contribute.

Dr. L. E. Smith, who is a medical missionary to the same general field as Fred Hope, will be here to lead the drive, and he will give a stereopticon lecture illustrating Mr. Hope's work, in the Chapel, Wednesday evening. Everybody come out and learn what can be done and what needs to be done in this great field of labor.

ALPHA SIGMA

Alpha Sigma did not meet last Saturday night on account of the fact that the Life Work Conference was going on. Because you did not get to attend society last Saturday night is all the more reason why you should take the advantage of coming to Alpha Sigma next Saturday night A good program is scheduled as follows:

Jokes.----------Mason Morrow
Debate· Resolved. that the Japanese should be excluded from the United Staets by law.
Affirmative -------James Anderson
Negative ---------Carlos Whitlow
Oration---------J. Murette DeLozier
Alpha Sigma Song----by the Society

This is the night for the election of officers for the last term. Come out and see that the best man is selected for each office.

MICHAEL FARADAY
1791-1867
Apprentice to an English bookbinder. Attracted the attention of Sir Humphrey Davy, becoming his assistant. "The greatest experimentalist of all times," says one biographer. The electrical unit Farad was named for him.

"What's the use of it?"

Michael Faraday saw the real beginning of the age of electricity nearly a century ago when he thrust a bar magnet into a coil of wire connected with a galvanometer and made the needle swing.

Gladstone, watching Faraday at work in his laboratory, asked, "What's the use of it?" The experimenter jestingly replied, "There is every probability that you will soon be able to tax it." The world-wide use of electricity that has followed the Faraday discovery abundantly justifies the retort to Gladstone.

Faraday's theory of lines of force is constantly applied in the Research Laboratories of the General Electric Company in devising new electrical apparatus of which Faraday never dreamed. Every generator and motor is an elaboration of the simple instruments with which he first discovered and explained induction.

In 1880 the Edison Electric Illuminating Company, of New York City, installed a generator of 1200 lamps capacity, then considered a giant. By continuous experimentation and research the General Electric Company has developed generators 900 times as powerful as this wonder of forty years ago.

John says he's so sorrry he didn't have a date the night the lights went out that it makes his mouth water every time he thinks of it.

—M. C.—

Well, be prepared this time and make a date for Friday night.—The lights may go out again.

—M. C.—

Why should anyone be discouraged if the path of knowledge be long and tedious? The Bible professors, in examining numerous original documents, namely examination books for the first semester's courses, have discovered a number of new readings for the book of Genesis. Among these contributions to knowledge were found the following:

On the fifth day, God created the vowels of the air.

He also created the sea monasters.

Abraham regarded Lot as the person in whom his prosperity was to be carried on.

Lot's father being dead went with Abram to Haran.

Lot and his wife were taken out of Sodom by the Angles.

Lot's wife became a pillow of salt.

Life Work

(Continued from page one)

students, from Fred Barnette to make this choice wisely; to get away from provincialism and co-operate in the formation of a World Brotherhood. We listened with interest to the story by Mr. Barr, of how he is applying the principles of Jesus Christ in his great industry. We heard the call to new fields of service and we received invaluable counsel in the group meetings and personal interviews from all the leaders.

The effects of the Conference may not be very apparent. It may seem that its accomplishments were few. Visible results may not be in abundance, but it is stamped indelibly upon the hearts of those who were interested enough, in their future, to seek the counsel of those who had been along the way. It is in these lives that we may see results and evidences of a successful conference.

Suede Shoes Cleaned and Dyed—G. C. Long.

ALASKAN TALKS BY DR. AND MRS. SPENCE

Take the Place of Dr. Stevenson in the Regular Thursday Morning Service

The students and faculty of the college had the very great pleasure last Thursday morning at chapel, of listening to addresses from Dr. and Mrs. Spence. This lovely couple are recently returned from the northern most mission of the Presbyterian church, located at Point Barrow, Alaska, where they have been engaged in Mission work. In their delightful and entertaining way they gave to us a vivid description of the geography, climate, and people of this remarkable territory. We are very glad indeed to learn that the "aurora does not roar" and that the people "do not live in ice houses and they do not eat blubbers."

Fruits and Candies—Long's Confectionery.

Plans are Now Being Made for Beautifying Campus This Spring

OUR UNBEAUTIFUL CAMPUS

When Dr. Wilson announces Campus Beautiful Day in the fall, we each and every one shed our dignity along with our good clothes, and get into the spirit of the day as we don our overalls. Then we borrow all the hoes, rakes, brooms, mops, buckets, soap and bon-ami in the neighborhood, and spend the day making our campus look spic and span. Then for the remainder of the year we work hard to undo all we accomplished in that one day of feverish activity. We walk across the grass wherever there is no path that suits our convenience, and if anybody suggests going around we say, "Aw, what's the use, there's red grass there anyway." We throw down our waste paper, orange peels, apple cores and an occasional banana peel wherever we finish with them, and take for our motto "where the trash falls, there let it lie"—unless Dr. Wilson happens along to pick it up. If any one attempts to beautify the campus with flowers or a fountain or a water garden, we take it as a joke. We don't mean to disfigure our naturally beautiful campus, but we have somehow gotten the idea that things always have been the way they are now, and that there is no hope of a change for the better.

What we need is a Campus Beautiful Day that shall last all the year round, instead of just that one day of the spasodic housecleaning. This is just a suggestion. There will probably be other suggestions along the same line in the near future. Watch for them, and when they come, respond as well as you did last October, and soon there will be no reason for us to cherish any feeling but admiration for Our Beautiful Campus.

Literary Societies Continue to Carry On

ATHENIAN

In spite of several conflicting activities, Athenian Literary Society was well attended last Saturday evening.

The following officers were elected to serve for the rest of the semester:

President, Floyd Conry, (by acclamation).

Vice-president, Hugh Clabough.

Program Secretary, Wallace C. Merwin.

Recording Secretary, Claud Wolff.

Critics, Salmon Brown and Harold Van Orden.

Editor, Otto Paulsell.

Sergeant-at-arms, Edgar Martin.

The election and business meeting were followed by a one number program consisting of a reading, "The Spell of the Yukon," given by Mr. Hugh Clabough. That it was also a number one program was shown by the burst of applause which followed the selection.

Mr. Martin made the suggestion that every member be on time and bring someone with him, so let's follow it out, fellows, and keep boosting for a bigger and better society.

BAINONIAN

When winter comes we know that spring cannot be far away. Although Saturday was a winter day, Saturday night was spring in Bainonian. How many know how we

(Continued on page four)

College Band to Give Concert

JUST LISTEN

I know something I won't tell,
A big Band Concert on the Hill.
The music starts when clock strike eight,
On March thirty-first, remember the date.

There'll be overtures and marches, too,
And other things that will please you;
Solos, trombone and cornet,
And possibly a brass quartet.
You know the Maryville College Band,
'Tis the best we've ever had on hand.
Now don't get left, be sure to ask early,
You'll need two tickets—and a girlie.

Dr. S. C. Mitchell's Plan to be Presented

STUDENTS AROUSED TO ACTION IN LEAGUE CONTROVERSY.

(By Edward Hamilton)

We hear continually that the League of Nations issues was settled by an overwhelming vote in the last national election and is now a dead issue in American politics. Perhaps so, but it is not a dead issue as far as American citizens and students are concerned. In fact it is very much alive. Many say that the ballot did not give the League a fair chance. Whether it did or not, it is a fact that narrow-minded politicians of both parties have used the ballot results to misinterpret the attitude of the thinking citizens of America.

The League of Nations question has passed the political stage. It is no longer a matter to be triffled with by selfish politicians. It has become a question of the thinking American people and as such wil be acted upon in one way or another without haggling and useless controversy. I sayt hinking American people. and I mean by that that we as students are among the thinkers of America. So it has become a student concern.

There is no longer any doubt but that the United States will eventually join the League of Nations. The question is how soon.

Dr. Mitchell of U. of Richmond Proposes Plan.

According to Dr. Mitchell, of the

New Officers Speak At Y.M.C.A.Sunday

A STUDENT EXPERIENCE MEETING AT THE Y. ON SUNDAY

Salmon Brown and Ed Cornelius gave interesting talks about their experience last summer in factory work.

Mr. Brown, having introduced his speech with a few humorous remarks, proceeded to tell about the conditions and people which made his work of value to him. He concluded with summing up the benefits that can be reaped from summer work. They are financial benefits, since a person can earn a good deal of money in factory work in the North; physical benefits, since a hardened body is built up to last through the nine months of study which follow; and mental benefits, since industrial work teaches one the right relation of things, the right application of knowledge to surroundngs, and self-reliance, to

(Continued on page two)

Wedding of Interest To College Students Occurs Sat. Evening

Saturday evening, March 15th, was the date of one of the most unusual and romantic weddings of the season, when Miss Elizabeth Claire McMurray and Mr. Edward Howard were united in marriage at the home of the bride's parents on Wilson Avenue. Quite a number of guests had been invited, supposedly to spend a social evening and meet Mr. Howard of Cleveland, Ohio. The Keen Trio furnished a musical atmosphere for the occasion. At an early hour Miss Margaret Lewis surprised the guests with a pleasing rendition of "Oh, Promise Me." After the solo Dr. Stevenson further surprised the guests by appearing in his robe and remarked, "You have all had the pleasure of meeting Mr. Howard this evening, and if you will be patient for a few moments you will have the pleasure of meeting Mrs. Howard."

Then appeared the bridal procession which consisted of Dr. and Mrs. McMurry, Mr. Jean and Miss Ruth McMurry and the bride and groom, and the wedding vows were spoken.

Soon after the ceremony the bride and groom motored to Knoxville, where they were to take the train which was to carry them on their honeymoon. Although they were pursued by a car load of well meaning friends, by abandoning their own machine and climbing over freight cars and the seven foot fence which surrounds the L. & N. freight yards in Knoxville, the happy couple managed to board the train with little of the usual rice throwing, etc., in which friends of young married couples frequently indulge.

Pearsons Hall Girls Enjoy Social Affairs

Last Saturday evening there were a number of social events of note here in Maryville. Perhaps the most brilliant affair of the season was the masquerade party given by Hazel Bevan in Pearsons Parlors. The apartments were charmingly decorated in pink and white, a color scheme which was also carried out in the refreshments. Disinterested and competent judges decided that Mr. and Mrs. Hula-Hula were the prize winners for the best costumes. When the masks were removed it was discovered that the prize was awarded to Miss Jean Hagood and Miss Henry Jackson. The most interesting feature of the evening was a solo dance, "The Gloworm," by Miss Mary Esther Bagby. Punch was served throughout the evening.

Next to the costumes worn by the prize winners, the costume causing the most comment and admiration was the lovely colonial dress, an heirloom from many generations back, which was worn by Miss Rebecca Calderwood.

It was at a late hour that the following guests regretfully took leave of their hostess: The Misses Martha Robinson, Cleo Wheeler, Lois Hayes, Lucile McRady, Vera Scales, Philis Anderson, Virginia Witherng-

The 1924 Basketball Season Passes Into History as a Success

Miss Julia Anderson Is Seriously Injured

News has been received of a very serious accident that almost claimed the life of Julia Anderson, class of '22. Julia was riding horseback Saturday, March 8, when her horse became unmanageable and threw her. Her foot hung in the stirrup and she was dragegd some distance but finally fell free from the horse. When her friend got to her she lay as if dead. The accident occurred about a mile and a half from Scottsboro, Ala., and when a doctor arrived, he, too, thought there was no hope. Her parents were called from Chattanooga and for twenty-four hours Julia lay unconscious and in an extremely critical condition. Latest repoits say that an X-ray shows no fracture or serious injury. Classmates and friends join in the rejoicing over this miraculous escape from death.

Y. M.-Y. W. Start Old Clothes Drive

SEARCH YOUR WARDROBE

Girls, boys! We're going to have a chance to show our "metal" within the next two weeks. We all like to show our friends how generous we are; let us now respond to the "Macedonian" call and show our fellow students across the seas that we American students are not all for self.

Let's all heartily respond to the Y. M., and Y. W. Old clothes Campaign which is being launched next week in behalf of the European students. The students of the war zone are suffering from the lack of clothing. Many American Colleges are coming to their relief by making contibutions of clothng. Surely Maryville wlil do nothing short of her best. We are not asked to give new clothes, just old ones. No and so old that they can't be of use, but clothes which we are tired of wearing, those things which be in our trunks or hang in our closets unused. Maybe we haven't anything we never wear; but we all have something which we could do without. What if the war had been fought over here?

Keep your eyes and ears open this week, and learn more about the drive. Search your wardrobe and PREPARE for the drive. Go to Y. M. or Y. W. next Sunday and hear

(Continued on page three)

Librarian Returns From Florida Visit

Before noon Saturday the writer had heard so many different people say, "Have you seen Miss Smith yet?" that she took the first opportunity to see what it was all about. Like Postum "there is a reason," too. If you have not talked with Miss Smith since her return from Florida your 1924 schedule is really incomplete.

The most interesting part of her trip she says was her trip to Cuba. Of course there were the old forts, sugar plantations and refineries and all the other regular sights of the romantic island to be seen. There were not all, however. Here in the states we are quite proud of our Mammoth Cave and justly so, too. But the Bellemar Cave surpasses even Mammoth. Just ask Miss Smith to tell you about, and show you her pictures of these wonders.

In spite of her tendency toward books our librarian knows about

(Continued on page three)

Complete Review of Season Shows Much Work to be Proud of

Now, that Maryville's 1924 basketball season is history, it is fitting to look back over the cage events just past and give the fighting five a final once-over.

At the beginning of the season Coach Honaker was veritably swamped with sterling basketball material; men of experience and athletic instinct who were veterans at the game. The great difficulty at the outset was the developing of a center, but this task was lightened when McMurray quickly adapted himself to the position. "Bob" Thrower, when given a chance at the tip-off post, also played acceptably. For forwards the Coach had the choice of inserting into the play such performers as Riskey, Shores, McCall, and Sneed, and for the position of guards the superb combination of Captain Musick and Veech, and also the dependable Gamble.

During the intercollegiate season from December 15th to February 23rd. the Orange and Garnet combination won fourteen out of eighteen games, being victorious in each of the ten home tilts, including a thrilling fray with Tennessee.

The use of the new Alumni Gym with one of the best courts in the state, also gave the Maryville students a chance to see real intercollegiate basketball for the first time.

Despite the feeling that the team was not hitting on "all four" at the beginning of the season the score book reports otherwise. However, as the team entered the home-stretch it played the game with such speed and cleverness that every quintet it went up against was puzzled to solve the Maryville system. The month of February was, indeed, a brilliant page in local basketball annals.

Great teams have been developed on College Hill and great teams will be developed on College Hill, but the 1924 quintet will rank favorably with any of them.

Why Advertise?

If you have been up at Badgett-Costner's durg store lately perhaps you have noticed some carpenters at work. Their new maogany finished alcoves are nearing completion. The seats are pretty and cozy and it is said the mirrors serve a special purpose.

Did you ever notice how the consistent advertisers in The Echo get along so well? As Dean Barnes says in ethics, in speaking of success, "Thou shalt serve." These business men back up their Echo advertising with service.

THIS WEEK

We take this occasion to thank Mr. Malcolm Miles for publishing the last issue of The Echo. He did all the editor's work and did it well. To quote the printer, "That fellow is a hustler, he ought to be in charge all the time." We haven't been able o prevail upon him to go that far as yet. However, for the next four issues Mr. Miles will be in complete charge. In looking for a man during this busy season we realized that two things must be considered. First, he must be a fellow who will work and work when he's needed (Mondays). Second, he must be a darn good natured fellow or we could never wish such a job upon him. Malcolm fills the bill and we are indeed grateful to him.

CHEMISTRY CLUB

"Why Study Chemistry?"

Have you ever heard this remark? "I hate Chemistry. I don't see why we have to study it?"

I'm sure that no Freshman who heard Mr. Albert Griffitt's speak at the Chemistry Club meeting on "Why Study Chemistry," will ever have such a thought again.

Mr. Griffitts showed us first that Chemistry is a creative science. There are more than three hundred thousand chemical compounds.

Chemistry is a powerful science. A small bag of chemicals can furnish enough energy to blow up a building. It might, at first sight, seem to be a science of terror, but this side is only one side of its power. It is with Chemstry that man fights insects that infest his crops and germs that tear down his body.

Chemistry is also a democratic science. It furnishes window panes for the cabin as well as for the mansion. The blush on every maiden's cheek, whether it be natural or artificial, is the result of chemical compounds.

Perhaps the study of Chemistry is hard, but after all, there are many who are brave enough to master it. This is proven by the fact that more Ph. D. degrees are taken in Chemistry than in any other branch of study.

New Officers Speak

(Continued from page one)

say nothing of a greater appreciation of a college education.

Mr. Cornelius spoke about Modern Production. He showed us how this new plan, instituted by Henry Ford, was a means of making a workman nothing but a machine. Though, the pay is twice as high as usual, the work demanded is ten times more than usual. The results are detrimental to the workman, for the price of Modern Production is paid with human lives.

Following these interesting talks, an open forum was conducted by Mr. Cornelius.

This was a good meeting! Come to the next one!

SUMMER POSITIONS FOR STUDENTS

Students to work in the interest of Religious Education in the Home and to Distribute Religious Literature. Definite guarantee of a liberal amount with opportunity of earning several time as much. Last summer several students earned over $1000.00 during vacation. No capital nor experience necessary. Also opportunity to travel and appoint representatives. Write for full particulars and organization plan at once. UNIVERSAL BIBLE HOUSE. COLLEGE DEPT., 1010 ARCH ST., PHILADELPHIA.

Seniors—let be 100% paid on our Fred Hope pledge.

Dr. Mitchell's Plan

(Continued from page one)

University of Richmond, (a non-partsan backer of the League), well known in Maryville from the Life Work Conference of last year, "it costs four and a half million dollars a year to maintain the League and World Court, the approximate cost of a modern torpedo boat of our navy." Owing, no doubt to America's absence," he continues, "the budget of the League was reduced last September by $400.000."

Says Sacrifice Is Best Ballot.

"We crave the chance to do something to show that we are in earnest," the Richmond Collegian quotes Dr. Mtchell. "Sacrifice is the best ballot." Dr. Mtchell, in short, proposes that all students tired of quibbling and desiring acton should show their spirit, not only by the ballot, but by paying one dollar, to relieve the financial situation of the League and help it to carry on its social and humanitaran work and sign up as backers and pushers of the League of Nations. We simply wish to give expression to our faith in the League and World Court by paying something to support them.

Why Appeal to Students?

The first thing that came to my mind when I read of this proposel was, why do they come to me, a poor student trying to get an education and having a hard time doing it? Why not rase a few million dollars from Wall Street bankers who can easily give it? But I do not think that is the idea of the action. We are students now are, or soon will be, active citizens of our country. Why shouldn't we be free in expressiong our opinions on all topics

This proposal has received much notice on the Hill. It has received the full endorsement of the Y. M. C. A. Cabinet, of the editor of The Echo and of other students. The outcome of this bold student action is being freely discussed in the World Forum group. Whether we show such a definte support or not, let us realize that we are facing an issue that is of vital concern to us as students as well as citizens of America.

Y. W. NOTES

The Sunday meeting was in charge of the World Fellowship Committee, and was led by Marion Holliday. It was far from being the cut and dried affair that we usually associate with the term "Missionary Meeting." Instead we saw a girl who did not care anything about missions begin to plan the meeting she had been asked to lead, and how, after selecting the songs, Scripture reading, and special music she became deeply interested in the work of carrying the gospel to far far countries as she read the lives of some of the famous missionary women of history. The audience sang the songs, offered the prayers, and listened to the special music as each step of the meeting was planned. Then four representatives of the women missionaries appeared in turn, each relating the story of her life and works.

The meeting was novel and inspiring, and much credit is due the World Fellowship Committee.

The subject of next Sunday's meeting is "Women and Children in Industry," and is to be in charge of the Social Service Committee. Girls, if you are interested in the welfare of those who are spending their time and strength in work that adds to the comfort or pleasure of us who are a little more fortunate, come out next Sunday to Y. W.

1924 Basketball

(Continued from page one)

Musick, carrying his characteristic football aggressiveness onto the basketball court, made a brilliant fighting leader for his team. No court was too big for Doris to cover, his specialty being to dribble down the floor, pass to a Maryville forward, and then rush back and guard his basket. He was an inspiration to his five, possessing the athletic spirit, which never ggives up. Three long rahs for Musick!

Jean G. McMuray (center). Jean has the honor of having more M. C. varsity basketball behind him than any player on the combination. He has also piloted the team for two successive and successful seasons. His calm presence on the floor has steadied the team in many hard-fought frays, and his celebrated floater has meant defeat for many teams, especially Transylvania. Jean was high point man this year.

Lewis Veech guard). Veech is looked upon by many dopesters as one of the most polished guards in the state. With "Bones" between the basket and his man the Maryville stands were never alarmed. By the way, who got the rebounds in the Tennessee game when Veech and Hatcher went up after the ball? "Bones" of course!

Earl Riskey (forward). The celebrated Riskey was a dual performer this year, managing the team in addition to being an able forward. Earl looked "hot" on the Kentucky trip, according to the rumors, and also showed his actual class in the home game with Transylvania.

"Pat" Shores (forward). "Pat" has the unusual distinction of going out for an M. C. cage team and making a regular berth on it his first year. And he did this despite the galaxy of stars who were also in the race. When Shores becomes imbued with the Honaker system he will be even more valuable to the team than at present.

"Shorty" McCall (forward). Yes, that streak of red lightning which just flashed down the floor is "Shorty" McCall. He is only a Freshman so you see what kind of a chance he has for development. "Shorty" established a "rep." this year as a strong defensive forward, but in that last Tennessee game he also played havoc with the U. T. basket.

"Shorty" Sneed (forward). Sneed and clean hard-fought athletics is synonymous. This is his last basketball season at Maryville, the faculty having promised him a sheepskin if he behaves from now on. More than one guard have declared him the hardest man to cover they over opposed. He will be a hard athlete to replace.

"Joe" Gamble (guard). Joe is the type of athlete in whom the stands can place their confidence. He is consistent, steady and a hard fighter. He made a splendid substitute for either Musick or Veech, and his presence on the floor in no way weakened the defense. Joe has two more years.

Coach Lombe S. Honaker. In Coach Honaker Maryville has a man who is placing the school athletically in the foremost ranks of Southern competition. For the last three years our teams have been biting off larger morsels of difficult encounters, and each season we have masticated them with a vengeance. This is not due to Dame Fortune or Mr. Kismet. Every team that takes the floor or the field has been trained to perfection by this man who has elevated Maryville athletics, Coach Lombe S. Honaker.

Y. M. and Y. W. WANT LARGE DELEGATIONS AT BLUE RIDGE THIS SUMMER

PERSONALS

Mr. Robert Wood who had the misfortune of breaking his leg recently, is able to be on the campus with the aid of crutches.

—M. C.—

The Misses Madeline Holmes, Mildred Reneger, and Ardie Lee Dye have been dismissed from the hospital, where they were having conferences with the mumps. From all appearances, these private interviews have not impaired either their disposition or their good looks, and we trust their general health was not seriously injured, either.

—M. C.—

Fourth floor Pearsons had several changes take place recently. One of the additions made to the list of inmates of that worthy institution was Miss Elmra Jewell who has "become one of the girls."

—M. C.—

The Seniors will be interested to know that Dr. Wilson has been losing much sleep lately trying to contrive a plan by which the large number of Seniors who are finishing can receive diplomas. He says the unusually high percentage of failure is due to too many social functions.

—M. C.—

Dean Caldwell breathed a sight of relief a week ago and said: "Now I will be able to have a little rest, as those noisy girls are moving out." The occasion which called forth this remark was the removal of six girls from the dormitory to the new Practice House in Thaw Hall. Those who are fortunate enough to be taking the practice house course at present are: Misses Vashti Thereatt, Margaret McKinney, Lois Hayes, Alice Hunt, Anna Margaret Carson and Henrietta Jackson. Miss Wilma Sutton is the matron in the new apartments.

—M. C.—

Among the recent visitors on the Hill were Misses Laura Eldridge, Aura Fiske Chestnutt and Elizabeth Farris, of the University of Tennessee, and Miss Hapy Farnum of Harriman.

Librarian Returns

(Continued from page one)

sports too. According to her the Spanish game jai-alair is far superior to our single little game of basket ball. We Americans could hardly play jai-alair—we are not quiet enough. There are other sports which Miss Smith enjoys, too, and you'd be surprised. Let her tell you about them.

Can you imagine celebrating Washington's birthday with parades big entertainments of all kinds, festivals, games, and elaborate fireworks and electric displays? Sounds like the Fourth of July, but that is how our librarian celebrated February the twenty-second.

Miss Smith went to Florida for a vacation. Most of us associate the word "rest" with vacation, so we are not surprised when we hear that she had a rather quiet time in St. Petersburg. On Sunday, however—she went to church and whether you believe it or not; one has to go an hour early there, if he expect to even SEE good seats. No wonder we hear that "the people in St. Petersburg are religiously inclined."

Old Clothes Drive

(Continued from page one)

the campaign discussed. Monday, all of those who wish to make contributions to our missionary barrel, are asked to hang a white cloth from their window to indicate their patriotism. Also to tie a strng on ther door knob so the raiders will know where to go. If you don't have your things ready by Monday but intend to give later in the week, show your flag anyway.

Good, better, best,
Never let it rest,

C. C.: Well, call me one; I'm in a terrible hurry."—Exchange.

HI-TRAIL CLUB MEMBERS MAKE EXPEDITION TO ABRAMS FALLS

Gold Creek flats is a very nice place to camp in pretty weather but not on a rainy day. Such is the conclusion of some Hi-Trailers who investigated the possibilties of finding shelter in that venty. Leavng Maryville Saturday evening, the night was spent at Gold Creek flats on top of the Chilhowees. After a twelve mile hike, Sunday dinner was enjoyed at the foot of Abrams Falls, two or three miles from Cades Cove. Abrams Falls is twenty-five or thirty feet high and well worth the twenty-five mile hike (one way) to reach it.

On the way back, a drizzling rain was experienced. The original plan was to spend Sunday night at Gold Creek flats. As the only way to get out of the rain was to crawl inside a big iron boiler, left by the gold mine operators, the hikers, Jimmie King, Cecil Crow, Burr Bassel and Julius Huffman, came back to Maryville in a drizzling rain.

The Hi-Trail Club will be glad to furnish hiking information, routes, etc., to anyone wishing to hike to the Smokies.

Among the 240 men and women to receive higher degrees from Teachers College in the city of New York during the mid-year was one Kentucky girl. Miss Edith Moore, a graduate of Maryville College with the class of 1921.

The Kentucky girl received her high school education at Charlestown Indiana, where she graduated in 1916. From Indiana she went to Maryville, Tennessee, where, five years later, she received her B. A. degree from th Maryville College. Miss Moore came to Teachers College to take up advanced work in the field of English and expects to take up a position as Supervisor of English or as the head of an English department in a large high school. Besides getting her M. A. degree, she applied for and was granted the Teachers College diploma, one of the highest professional teaching diplomas in the United States.

happened to have spring? Alice Robinson told us the Greek story of spring. No two things are more closely associated than spring and music; Elizabeth Whitlock played Mendelssohn's spring song. "In the spring a young man's fancy lightly turns to thoughts of love," so they say; Pearl Tweed read "In the 'Marry' North of May," by O. Henry. Martha Mae Boyer read a few spring poems by Sarah Teisdale. The last number was a duet, "The World is Waiting for the Sunrise," by Agnes Houghton and Christine Rockett.

Don't miss the next meeting of Bainonian.

ALPHA SIGMA MEETS WITH USUAL INTEREST AND PEP

Alpha Sigma met at its usual tim last Saturday evening. The program was short because of election of officers. Alpha Sigma Advance was delivered in a very attractive way by Mr. Hortin. Debate: Resolved, That the Japanese should be excluded from the United States by Law, was upheld extemporaneously by Mr. Broomall. Mr. Whitlock gave the defense for the Japs.

The election of officers for this term was as follows:

President, Mr. Hardin.

Vice-President, Mr. Puff.

Recording Secretary, Mr. Youtz.

Assistant Recording Secretary, Mr. J. Gordon Jeffries.

Program secretary, Mr. Broomall.

Censors, Mr. Wood, Mr. Templin, Mr. Williams.

Sergeant at-arms, Mr. Franke.

Editor, Mr. Grover.

Janitor, Mr. Armstrong.

Come out, fellows, and support these new officers. A very interesting program is posted for next Saturday evening, let's have a packed house.

BIG MAC COACHING FRESHMAN BASEBALL AT FLORIDA U.

F. S. McLaughlin, former Maryville, baseball celebrity is now a student of the University of Florida, serving on the faculty in the English department, has taken over the coaching reigns of the freshmen baseball aspirants, Coach McLaughlin put in his first appearance yesterday and is directing the yearling pellet tossers through a good early season workout.

Coach McLaughlin is regarded as one of the "sweetest" fielders in Dixie collegiate circles, he having played two years on title winning combinations. After his ball playing days at Maryville McLaughlin went to Palmer college serving there and at DeFuniak Springs in the same capacity which he recently acquired with the young Gators.

EDMUND HALLEY
1656-1742

Son of a London soap-boiler who became Astronomer-Royal. At the age of 20 headed an expedition to chart the stars of the Southern hemisphere. Financed and handled the printing of Newton's immortal *Principia*.

The comet came back

The great comet that was seen by William of Normandy returned to our skies in 1910 on its eleventh visit since the Conquest. Astronomers knew when it would appear, and the exact spot in the sky where it would first be visible.

Edmund Halley's mathematical calculation of the great orbit of this 76-year visitor—his scientific proof that comets are part of our solar system—was a brilliant application of the then unpublished *Principia* of his friend Sir Isaac Newton.

The laws of motion that Newton and Halley proved to govern the movements of a comet are used by scientists in the Research Laboratories of the General Electric Company to determine the orbit of electrons in vacuum tubes.

As spectacular as a comet has been the world's electrical development. By continuous scientific research the General Electric Company has accelerated this development and has become a leader in the industry.

Well Prepared Debate Team To Represent Maryville at Peoria

Queener, King, Cornelius and Hunter First Maryvillians to Attend Pi Kappa Delta Convention

On Thursday, March 27, our debating team of picked men will start to Peoria, Ill., to attend the fifth convention of Pi Kappa Delta. This will be the first time Maryville has been able to send delegates, and plans are under way at Peoria to eclipse all former occasions.

Pi Kappa Delta is a national fraternity of oratory and debate. We are indeed fortunate in having such a splendid team to represent Old Maryville. The members of the team are Ed. Cornelius, Verton Queener, and David King. Ed will also show them a sample of Maryville oratory. They plan to stay in Peoria three days.

Our men will debate twice on the way to the convention and three times on the way home. The schedule is:

Carson-Newman, March 27.
Berea, March 28.
Peoria, April 1, 2, 3.
Hanover, April 4.
Georgetown, April 5.
Centre, April 7.

They are debating the Pi Kappa Delta question, "Resolved, That the United States should enter the League of Nations." We have the affirmative in every case except at Hanover.

Although our boys will be gone for two weeks, we need have no fear that Josephine and the others will be forgotten. Their photos will form a large part of the luggage so that the boys will have plenty of inspiration throughout the trip.

It's a good thing Prof. Hunter is going along. Ed will need a chaperone when they get to Hanover for the team there is composed of girls! and you know how susceptible Ed is to feminine charms. He says that David and Verton will have to do all the debating there, because they've had more practice than he has. And the reason why the girls wanted the affirmative was so they could have the last word.

At Hanover and Centre the debates will be in the form of an open forum. We didn't know what that was, so we asked one of the boys, and he said, "It's where you have a short debate and then every body asks every body else what they meant when they said so-and-so. Won't we have a

Maryville Girls Lose To Carson-Newman

One of the best constructed and delivered debates ever given on College Hill took place in the College Chapel Monday night. The question Resolved, That there should be educational qualifications for all voters in State and National elections, was interpreted, analized and discussed to the complete satisfaction of the most critical, with prepared flights into irrelevant oratory thrown in where facts refused to be marshaled, the audience was interested and amused through those moments, before the final word is said. For Carson-Newman, the affirmative, was upheld by the Misses Grace Huff and Lolita Hannah. Both these speakers had well outlined and carefully constructed speeches and their delivery was especially strong. In their rebuttal, where most debates are usually won or lost, many things might be said.
